LOCAL AND MUNICIPAL.

The Weather.

The weather to-day is mild, and some snow fell. The weather probabilities for this district for the following 24 hours, as reported from Toronto at 1 a. m. to-day, by the Great North Western Telegraph Company, are as follows:—Light winds; cloudy to fair, continued mild weather.

The Seat was not Secure.

Three young ladies on Sunday were out for a drive, and, feeling themselves capable of managing their horses, one of them held the reins. Two sat in the front seat and one occupied the rear seat alone. All went well, until they were passing up George street, when a move of the horses jerked the sleigh, and with a slight screech the fair occupant of the rear seat went out backwards on the road, taking with her the seat, buffalo robe, &c. The incident was witnessed by a number on the street, who ungallantly laughed at the young lady's misfortune, but she hurriedly regained her feet and a position in the vehicle, and the three drove on.

Week of Prayer.

At a meeting of several Minister's of the town, convened for the purpose of making arrangements for the week of prayer, commencing January 1st, 1883, they appointed to hold one Union Service, namely on Wednesday evening, January 3rd, to be held in the George Street C. M. Church at 7.30 o'clock, thus leaving it optional with the individual churches to adopt any course they may see fit for the further observance of the occasion, in appointing meetings in their own separate congregations. It is hoped that the several churches will be well represented at the Union Service on the Wednesday evening. Short address touching the several subjects designed for the week of prayer will be delivered by the Minister's present.

Christmas Tree.

On Saturday evening last the annual Christmas tree of the B. C. Sunday School was held in the school room. The room was, as usual, nicely decorated, and the trees were equal, if not better, than on former occasions, for which great credit is due to the pastor and to the Committees. Presents were liberally bestowed, there being upwards of 320 of them. After devotional exercises, the pastor read a very appropriate address written for the occasion. Then followed a very interesting programme, consisting of singing, recitations and a dialogue, which was fully appreciated by the audience. Great interest was manifested, especially by the children, when the presents were distributed, and all appeared pleased. Mrs. Jolliffe, who is a teacher and takes great interest in the school, received a number of beautiful presents, including one from her class.

Ladies and Gentlemen, don't fail to be present at the Concert at the Convent on this (Tuesday) evening, Dec. 26, at 7.30 o'clock. Entrance fee 25c; Reserved Seats 50 cents.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

MURDER AND SUICIDE.

PARIS, Dec. 26.—Appopart, a rich diamond merchant, stabbed and killed his daughter, alleged to have been betrayed, and then shot and killed himself.

THE NIHILIST PRINCE.

PARIS, Dec. 26.—It is rumored that a plot has been discovered to secure the escape of Prince Krapatkine. His guards have been strengthened.

THE REPRESSION ACT.

DUBLIN, Dec. 26.—An average of a hundred persons are selected nightly here under the Curfew Clause of the Repression Act.

THE SKYE CROFTERS.

LONDON, Dec. 25.—Lord Macdonald has withdrawn his application for police aid to serve summonses on the Crofters of the Isle of Skye, an understanding having been reached.

FIRE IN LONDON.

LONDON, Dec. 25.—Two upper floors of Wm. Whitely's furniture store were burned last night. The damage is very great. The establishment is one of the largest in London. Twenty-five engines were engaged in subduing the flames. A warehouse six stories high, belonging to Whitely, was also burned. Whitely suffered severely on November 17th by a fire in Westtown, where he also does business.

THE RUSSIAN ARMY.

LONDON, Dec. 26.—It is reported that Russia has a force of 18,000 horsemen and ninety guns on the German-Austrian frontier.

A SAVAGE PRESS.

LONDON, Dec. 26.—A correspondent at Rome, referring to the demonstrations growing out of the execution of Overdant, says the language of the intransigeant press is becoming atrocious. The *Lega Della Democrazia* expresses the hope that the Emperor of Austria will be choked in blood.

WESTGATE DISCHARGED.

DUBLIN, Dec. 26.—Westgate was arraigned to-day and discharged, the Crown Counsel stating that the authorities were satisfied that he could have had nothing to do with the murder at Phœnix Park.

AMERICAN.

AN ALLEGED TRAITOR.

NEW YORK, Dec. 26.—In a lecture last night James Redpath described Michael Davitt as having proved a traitor to Ireland, in writing the infamous letter to the *Daily News*, and refusing to support the National League.

RECIPROCITY.

NEW YORK, Dec. 26.—The *World's* Washington despatch says that it is reported that upon the return of the House Foreign Committee, they will find awaiting them an executive communication advising against any negotiation for a Hawaiian reciprocity treaty, upon which subject the committee solicited the views the State and Treasury Department.

SHERMAN JOINED A CHURCH.

NEW YORK, Dec. 26.—The *Sun's* Washington special says that it is positively alleged that Gen. Sherman has recently been received into the Catholic Church. The ceremonies on the occasion were rather private. Mrs. Sherman has long been a Catholic, but the General has always been known as a free thinker.

A TRAGEDY.

UNIONTOWN, Pa., Dec. 26.—The friends of Dukes, who killed Nutt, contend that he acted in self defence. The friends of Nutt say that a number of letters recently passed between them relative to Duke's relations to Nutt's daughter. In the letters to Dukes, Nutt charged him with injuring his daughter, and demanded that he make reparation by marrying her. Replying, Dukes admitted the intimacy with the daughter and its result, and called her an angel. He says, however, that he would rather die than marry her. Nutt wrote to demand that Dukes marry her, or he would shoot him. In response Dukes wrote "In the light of your last threat, I would be justified in killing you." He closed, however, by asking Nutt to come and talk the matter over peacably. The inference is that Nutt went to Dukes' room in accordance with this invitation, and Nutt's friends claim that the assault was made by Dukes. It is stated that twelve pages of a letter written by Dukes to Nutt has not been found, but contend that it can be proven. It is said to be most abusive and scandalous. Mrs. Nutt has been in a semi-comatose state ever since the news of the killing of her husband. Her life is despaired of. Miss Nutt is also prostrate. A friend says that Dukes avers that he is not guilty of ruining Miss Nutt.

COUNTERFEITERS ARRESTED.

PARKERSBURG, W. Va., Dec. 26.—The officers brought here a band who have been flooding this and adjoining state with counterfeit silver. The counterfeiting is a fine piece of work. A detective says thousands of dollars of this coin is in circulation.

TWO MEN SHOT.

LAWRENCEBURG, Ky., Dec. 26.—A man was drunk and disorderly in George Portwood's saloon, on Sunday night. Deputy Marshall Larkin went to arrest him, and words passed between the officer and Portwood. They were both standing only a foot apart and fired five shots each. Larkin was killed. Porthwood received four shots and cannot recover.

A DISORDERLY CELEBRATION.

NEW ORLEANS, Dec. 26.—The Christmas holiday was probably the most disorderly and disgraceful ever observed here. Hundreds of men blowing tin horns headed with a fife and drum, paraded the streets. The din of crackers and trumpets was fearful. A long list of casualities reported from the use of fire arms. Several fires occurred, assaults, shooting and cutting officers were more numerous than for a long time. The authorities made no effort to suppress the disorders except a few arrests.

A PRIZE FIGHT.

NEW YORK, Dec. 26.—A prize fight took place between Charles Gray and Fred Rupert yesterday for a purse of $200. Three hundred spectators witnessed the fight. Twenty-nine rounds were fought, which lasted nearly two hours. Gray dropped unconscious. Both fled from the city to escape arrest.

CHRISTMAS IN GEORGIA.

ATLANTA, Dec. 26.—The following casualities occurred yesterday:—A negro shot and killed another without provocation. A white man brained another, and there is no hope of his recovery. Two sons carved their father, possibly fatally. A negro woman stabbed a negro man to the heart. A policeman shot a negro in the leg, for attempting to take a club from him. Another policeman was shot through the coat and pantaloons by an unknown person, and there were bleeding heads and bruised noses too numerous to mention, there being one hundred and twenty-five cases at the station houses in ten hours. A policeman came near inciting a riot by pushing a most respectable citizen, who was put in a cell by other officers who did not understand the cause of his remonstrance. There was a bloody fight in the cells of two colored prisoners, who were urged on by a policeman, who said, in answer to an appeal of one of the combatants, that he didn't care if either party cut his damned throat. All this took place while two police commissioners were standing by. The chief of police will investigate.

THE NAVY YARDS.

WASHINGTON, Dec. 26.—It is learned that the appropriation for the current year for the naval yard is much less than required to support the civil establishment of various yards and naval stations. It has been decided to close two of the navy yards, probably at Portsmouth and Philadelphia.

SUICIDE.

SCRANTON, Pa., Dec. 26.—Jno. Reagan placed himself on the railway and was run over by a train. His family relations were inharmonious.

ILLINOIS SENATORSHIP.

WASHINGTON, Dec. 26.—A prominent Illinois Republican has been informed that a careful canvass of the Republican members of the Illinois Legislature on the Senatorial question shows 35 members in favor of Governor Callom, 30 for ex-Senator Oglesby, and 35 for Commissioner Kaum.

THE SENATE PRESIDENCY.

WASHINGTON, Dec. 26.—There is a stronger probability now than there has been since it was first known that the Republicans had a clear majority, that the ultimate result will be the election of David Davis.

PARDONED.

MINNEAPOLIS, Dec. 26.—W. Keen, assistant cashier of the Northwestern National Bank, who embezzled $125,000, which it was alleged was lost in grain speculations, was sentenced in 1879 for seven years. He has been pardoned. Keen will enter the employ of the prison contractors. The pardon was issued on a numerously signed petition circulated by his wife. It is suspected that Keen put away $25,000 of the stolen money, and the Governor is sharply criticized for his action.

MIDNIGHT TELEGRAMS

CABLE.

MINISTRY OF AGRICULTURE.

LONDON, Dec. 25.—It is stated that arrangements for the creation of a Ministry of Agriculture are almost complete. Joseph Chamberlain will be first Minister, and Sir Charles Dilke will succeed Chamberlain as president of the Board of Trade.

SERRANO AND SAGASTA.

MADRID, Dec. 25.—For the present there is no prospect of an understanding between Marshal Serrano and Prime Minister Sagasta, and the latter will find it difficult to legislate with such a formidable opposition.

ARABI'S DEGRADATION.

CAIRO, Dec. 25.—The Khedive's decree degrading Arabi and the other rebel Pashas has been published. The public degradation of the prisoners was carried out Saturday afternoon in presence of two battalions of the new Egyptian army. Only a few Europeans and about a hundred natives were present. The prisoners started for Suez, where they will be transported to Ceylon.

THAT INDEFENSIBLE JOB.

ALTHOUGH a fortnight has elapsed since we called attention to the extraordinary and suspicious looking bill served on the Council of the Agricultural and Arts Association for the alterations made in their building at Toronto by the Mowat government, and although both the *Mail* and Hamilton *Spectator* have also called attention thereto and joined us in asking for more light on the subject, the *Globe* has been "dum" with regard to the same. Remembering how ready the *Globe* always is to defend Mowat and his colleagues, and to distort and misrepresent facts to do so, but one conclusion can be drawn from its present silence, and that is that the job to which we are referring is indefensible. And we are not surprised that even the *Globe* has found it to be so. That a work estimated to cost $5,000 should have grown to nearly $12,000 is of itself "damning enough," but when in addition we have the fact that this extraordinary growth took place in connection with an election in the constituency in which the job was perpetrated, and, moreover, that this extraordinary outlay of the people's money is in part caused by the expenditure of over $1,000 for the personal benefit of a gentleman, who was, if we are not misinformed, an active supporter last June of Mr. J. D. Edgar, one of the present directors of the *Globe*, and the Grit candidate for the constituency in which the Agricultural Hall is located, the transaction becomes still more suspicious and worthy the attention of a long suffering public. We sincerely trust some member of the Opposition will move for all the papers in connection with this discreditable transaction and put the government on their defence with regard to it.

SESSIONAL NOTES.

MR. MERRICK, in the debate on the address, showed that under the Crooks Act the Mowat administration had taken large sums from the people which he gave in detail, the total being the enormous amount of $340,000. This is rather too much to pay for the privilege of being governed by Mr. Mowat and his colleagues.

Attorney General Mowat, in his second speech on the address, dealt with the subject of the Indian title in the disputable territory. He showed what large sums had been paid to extinguish the Indian title and were still being paid. Yet a measure of justice which he is willing should be allowed to the Red Man when his property is taken for the public use he refuses to extend to Mr. McLaren on confiscating his property. But Mr. McLaren, if a white man, is a political opponent of Mr. Mowat.

Mr. Bell accepts the challenge to give specific cases of license officials who have abused their position, giving instances in Toronto. As he said:—

"These men were the greatest tyrants in Canada to-day. One of them, Dr. W. W. Ogden, sought to become a member of this Legislature, and opposed him (Mr. Bell), but immediately after the election he was reinstated as chairman of the commission, if he ever had resigned, and he was now in a position to say 'I cannot grant you a license because you voted against me at the *last election*'—and that had been *done*."

Mr. Merrick made a good point in reference to the power of disallowance. He showed that in 1869 in reference to the increased subsidy to Nova Scotia, Mr. Blake had introduced and his supporters had voted for a series of resolutions, of which one ran:—

"That a humble address be presented to her Most Gracious Majesty embodying the foregoing resolutions, and praying that she will be pleased to disallow the said Act." (Loud Opposition cheers.)

And yet these *consistent* gentlemen *now say* that disallowance is an injury.

A Whirlpool Railway.

A company proposing to construct a railway along the edge of the Niagara river from Horseshoe Falls to Queenston, and also to construct a railway from the edge of the river through a tunnel to the top of the high bluff in rear of the museum, and to own a park at Niagara Falls and Queenston gives notice in the *Ontario Gazette* that it will apply for incorporation under the name of the Niagara Falls Railway and Park Company. It is known that these same parties are very anxious that a bridge should be thrown across the river between the old and new Suspension bridges, in order that the proposed road may have a continuous route on both banks. It will be a street car line, it is said, and we believe Engineer Rhodes, who lately resigned the superintendency of the new Suspension bridge, is largely interested in the scheme.—*Welland Telegraph.*

ENNISMORE

SCHOOL EXAMINATION.—The examination of pupils of S. S. No. 3, Ennismore, was held on Thursday, the 31st of December. Quite a large number of persons, composed chiefly of parents and grown up members of the families of the section were present, to judge for themselves what advancement the younger ones had been making during the past year. The first to catch the eye on entering the school was a specimen of each pupil's hand writing, which was executed in a manner that might have done credit to pupils of even a higher institution. In the examination of reading, arithmetic, geography and dictation, they acquitted themselves worthy of the training which they had received, and did credit both to their teacher and themselves. About two o'clock the examination was brought to a close, and all seemed to be thoroughly pleased with the condition of the school, if we may judge from the smiling faces of the parents and guardians of the children, and the right good will which they manifested towards the teacher. Then commenced an entertainment composed of recitations, dialogues and songs, all of which were executed with gracefulness and effect. Towards the close of the evening a very large audience had assembled, the unfavorable state of the weather preventing their earlier arrival. The several pieces occupied more time than was expected, so that a large number of very fine ones had to be omitted. At the close the pupils sang "Farewell Teacher," after which an address was read on behalf of the pupils, by Joanna O'Donnel.

DEAR TEACHER,—We cannot suffer our connection, though the same has been of short duration, to terminate without addressing you in such terms as will prove to you that we are sensible of the great care and kindness with which you have watched over us, and directed our education. Whatever success may mark our future career, we shall attribute it in a great measure to your judgment, in having directed our studies into the channels likely to lead to beneficial results. And as we mount step by step the ladder of life, we shall ever think with gratitude of you who led us to its foot and encouraged us to ascend. We trust that from time to time we shall meet, so that you may hear from our own lips the progress that we are making, and that we may feel assured that all goes well with yourself. Should this privilege be denied us, we shall ever pray that every blessing in life may be yours, and shall count ourselves unalterably your sincere friends.

Signed on behalf of the pupils by

JOANNA O'DONNELL,
KATE SHANNAHAN,
SARAH JANE CLARK,
PETER O'DONNELL,
HECTOR CALVERT,
ROBERT NEESE,
MICHAEL COLLINS.

After a few remarks from members of the audience, Mr. Cleary addressed them. After referring to the examination through which the children had just passed, he said that since he came amongst them his sole aim was the advancement of his pupils, but that it required some time to get so well acquainted with pupils as to work in perfect accord. He assured them that all would be pleased with their new teacher, from what he had *heard from* Mr. Brown and others. He congratulated the people in obtaining the services of an efficient teacher, and advised them to always secure the services of a similar one, who would be able to direct and govern their youth.

Shot in Dakota.

A clipping from a Dakota paper has been handed to us, giving particulars of the fatal shooting of James D. Russell, some years ago a resident of Lindsay, and latterly a resident of Billings, D. T. He was a brother of Mr. M. Russell. James D. came to his death at the hands of one George A. McArthur. The Dakota paper says:—"It would seem that the parties hand some business dealings, over which they quarrelled. From what we can learn Russell had advanced some money to McArthur, to clear off the indebtedness on his business, on condition that should each evening turn over the receipts to Russell's clerk until such time as the amount was paid. McArthur failing to comply with his part of the agreement, Russell took charge of the business. On Thursday evening they had some high words on this subject, and on Friday afternoon they met at Matt Rademaker's billiard parlor, where they commenced the quarrel which, according to the evidence given at the inquest, resulted in McArthur shooting Russell three or four times, so that he died instantaneously. McArthur was arrested immediately after the occurrence, and was yesterday morning taken to Miles City. Fears were entertained at one time that he would be lynched, but the vigilance of the officer in charge prevented his additional crime." A coroner's inquest was held and a verdict in accordance with the circumstances returned, and adding that "the act was committed wilfully, feloniously and unjustifiably." The deceased was well and favorably known, says the *Billings* paper, and leaves a wife who has the sympathy of the community.—*Post.*

The Morals of Sparrows.

It is said of animals that they have a language that is perfectly intelligible to them and that they are far more intelligent than they were formerly considered to be. This also applies to birds, as fully attested by their susceptibility to instruction. Birds have their code of morals and their laws, a violation of which subjects the offender to severe punishment. We had an ocular demonstration of proof of this a few days ago. Our attention was attracted in crossing the street to an unusual bustle among a flock of sparrows in a tree. They were fluttering and twittering away in a most earnest and excited manner. We stopped to watch them. They all seemed exasperated, and the object of their anger was one of their number. They assailed it vigorously, and the little culprit left the tree and flew to the ground, and endeavored to cover and hide itself by throwing dirt over itself with its wings. The flock followed and assaulted it unmercifully with their wings, and would doubtless have killed it, when we became indignant and dispersed the flock by throwing a stone at them. We regretted that we could not watch the result, but have no doubt that the attack was renewed when our back was turned.—*Rome (Ga.) Sentinel.*

Asthma, Bronchitis, Catarrh

and consumption in its first stage are treated at the International Throat and Lung Institute, 173 Church street, Toronto, where the Spirometer is used, an instrument invented by Dr. M. Souvielle of Paris, and ex-aide surgeon of the French army, which conveys the medicines in the form of cold inhalatives to the parts diseased. Suitable constitutional treatment is used when required. Consultaitonas and a trial of the Spirometer free. Poor people bearing certificates furnished with the instrument free. When not convenient to visit the office write, enclosing stamp, for pamplet giving full particulars to International Throat and Lung Institute, 173 Church street, Toronto, or 13 Phillips square, Montreal.

An Entertainment will be given by the Pupils of the Convent this Tuesday evening, Dec. 26, at 7.30 o'clock, to which all are invited. Tickets 25 cents; Reserved Beats 50 cents.

RULES OF WHIST.

BY WM. POLE, F.R.S., MUS. DOC., OXON, 1872.

If you the modern game of whist would know,
From this great principle its precepts flow:
That your own hand as to your partner's joined
And play not one alone but *both combined*.
Your first lead makes your partner understand
What is the chief component of your hand;
And hence there is necessity the strongest
That *your first lead be from your suit that's strongest*.
In this, lead *ace* and *king lead king* then *ace*;
With *king* and *queen*, *king* always takes first place;
With *ace*, *queen*, *knave*, lead *ace* and then the *queen*;
With *queen*, *knave*, *ten*, you let the *queen* precede;
In other cases you the lowest lead.
Ere you return your friend's, your own suit play;
But *trumps you must return without delay*.
When you return your partner's lead take pains
To lead him back the *best* your hand contains
If you received *not more than three* at first;
If you had more you may return the *worst*.
But if you hold the *master card* you're bound
In most cases to play it second round.
Whene'er you want a lead, 'tis seldom wrong
To lead *up to the weak*, or *through the strong*.
If second hand, your lowest should be played,
Unless you mean trump signal to be made;
Or if you've *king* and *queen* or *ace* and *king*,
Then one of these will be the proper thing.
Mind well the rules for trumps, you'll often need them,
IF YOU HOLD FIVE, 'TIS ALWAYS RIGHT TO LEAD THEM;
Or if the lead won't come in time to you,
Then signal to your partner so to do.
Watch also for your partner's trump request,
To which, *with less than four*, play out your *best*.
To lead through honors turned up is bad play,
Unless you want the trump suit cleared away.
When second hand a doubtful trick you see,
Don't trump it if you hold more *trumps than three*;
But having three, or less, trump fearlessly.
When weak in trumps yourself don't force your friend.
But always force the *adverse* strong trump hand.
For sequences, stern custom has decreed
The *lowest* you must play if you don't lead.
When you discard, weak suits you ought to choose,
For strong ones are too valuable to lose.

A MARRIAGE OF PURE AFFECTION.

By Dutton Cook.

(CONTINUED.)

"Thought of doing so."

"See her by all means; that can't do any harm, you know. Altogether the thing doesn't justify any uneasiness that I see. I was afraid of something very much worse when you first hinted that Charley was in some sort of trouble. I knew there must be a woman at the bottom of it; but when you spoke of his getting married I feared it might be a very imprudent marriage indeed—a ballet girl, you know; that kind of thing."

"O, but Charley's quite above that. I had no apprehension on that score. He's been very carefully brought up, and he has always shown himself to be so particularly steady."

"Yes; but sometimes those particularly steady fellows do such particularly stupid things. They're so serious over their folly. However, it isn't a ballet girl, it seems; that's in his favour. It's a woman with money; so far it sounds reasonable enough. If he must marry, there's a good deal to be said for his choosing a rich wife. However, you'll see her, and tell me about your visit. I should like to know the result."

"You shall know the result."

"I forget whether you smoke? Ah, you limit yourself to one cigar after dinner! Prudent fellow. I never could limit myself in any respect. This is the way to the smoking-room."

They sat and smoked for some time in the vast chamber set apart by the club committee to the uses of tobacco and its devotees. Little more was said, however, touching Charley Cumberbatch's love for Miss Mashiter.

CHAPTER II.

Joshua Cumberbatch duly called in Harley street, and found himself in the presence of Miss Mashiter. At a first glance he decided that she was rather an insignificant looking young woman. "What can Charley see in her?" he asked himself. She was low of stature, small of feature, and her dress was of an unimpressive character—a fashionable monotone of dull drab or faded fawn.

She entered the room in a calm, quiet, almost humble way, holding Mr. Cumberbatch's card in her right hand, and gently tapping it against the fingers of her left hand. "Charley's papa, I presume," she said, with an interrogative air and very sweet smile. Further, Mr. Cumberbatch noted that her hands were exquisitely small, white and shapely—with tender tapering fingers and pink nails of filbert form—and that her voice was very sweet, her articulation silvery clear.

"I'm so pleased too see you, Mr. Cumberbatch. Please take this easy chair. Charley and I are such dear friends that I feel I know you already. I have heard so much of you from him." By this time Joshua Cumberbatch had decided that there was considerable justification for Charley's proceedings; that Miss Mashiter was indeed a very pretty little woman and that her dress fitted her remarkably well, amply expressing the symmetrical contours of a perfectly graceful figure. And then her eyes! They were dark gray of hue, and of very piercing quality. Mr. Cumberbatch felt quite riddled by glances as keen and bright as rapier blades.

"You know who I am, of course?" she continued. "I am Madeline Mashiter. I live alone here. At least I have a sort of duenna—an aunt who is almost bedridden, and who is stone deaf. The world said that I needed the protection of an old woman, so I sent for Aunt Jane. She's very stupid, but a dear old thing all the same, and we get on very well together.

"I am my own mistress, of course. This was my father's house; he died in the room immediately over this, and he left me all his money.

"I am a lone orphan, in fact. But I think I can take care of myself."

Mr. Cumberbatch began to be of the opinion that Miss Mashiter could certainly take care of herself.

"You know how my father made his money? Everybody knows, and so I don't attempt to disguise the fact in any way. I owe my fortune to marmelade and mixed pickles. I am not in the least ashamed of it. I live very comfortably. I have everything I want, and the best of everything. But of course I am not extravagant. I know the value of money. I was taught that at a very early period of my existence. I like to have my money's worth. I keep the servants in strict order, and I see, myself, to the housekeeping accounts. I don't allow any one to cheat me."

After a pause, during which she surveyed Mr. Cumberbatch acutely, she resumed:

"I should like you to understand me, Mr. Cumberbatch. I hate to be misunderstood. I dare say I'm not what would be considered generally a lady. I don't in the least care about that. I know I'm not what's called 'in society,' and I don't want to be. I've not been to Court and I'm not going. Royalty can do without me, I daresay, and I know that I can do without Royalty. You know, of course, how Charley and I became acquainted, so I need not go into that. Like a novel, wasn't it? He's a dear boy is Charley, and I've grown quite fond of him. He's rather stupid at times, but, then, I think most men are stupid. He's good-looking enough, and his hair's always nicely brushed, and he dresses becomingly. So it came about some way that we're engaged. I hardly know how it happened, but Charley seemed to wish it, and I did not so much object. And now you've called, I suppose, Mr. Cumberbatch, to say, 'Take her, you dog, be happy! Bless you, my children, both!' just as they do on the stage." And she laughed merrily and prettily.

Mr. Cumberbatch was certainly surprised. Miss Mashiter was so different from what he expected her to be.

"Charley should consider himself very fortunate," he said "that he was able to serve you in any way, Miss Mashiter. It followed almost as a matter of course that he should love you. Where, indeed," demanded Mr. Cumberbatch, with some wonder at his own warmth—"where, indeed, could he find one more worthy of his love, more beautiful, more attractive altogether?"

"It's very kind of you to say so, Mr. Cumberbatch," observed Miss Mashiter calmly.

"But the prudence of the step he has taken is more open to question. He's very young; he's still but a boy."

"He does not look like a boy," interposed Miss Mashiter.

"I can produce his certificate of birth if necessary."

By a wave of her hand Miss Mashiter signified that such formal evidence was not required.

"He is really not of age," continued Mr. Cumberbatch, "he's only learning his profession, and he is entirely without means of his own."

"He counts, of course, upon your providing him with a sufficient income."

"He miscalculates. My money is invested in my business as a merchant. Some assistance I may be able to render him, for his pay as subaltern of artillery will be very small. But if he thinks I can settle upon him any amount of importance, he is much mistaken. He will have what I leave behind me at my death, but until that event happens—"

"Please don't speak of it Mr. Cumberbatch, and don't let us think of anything so dreadful. It quite makes me shiver all over."

"I am very sorry, my dear Miss Mashiter, but I thought it best to speak plainly. Like you, I wish to be understood. I am a plain man of business."

"I am much obliged to you Mr. Cumberbatch. Of course, I should take care that all my money was settled upon myself."

MILLIONS GIVEN AWAY.—Millions of bottles of Dr. King's New Discovery for Consumption, Coughs and Colds, have been given away as Trial Bottles of the large size. This enormous outlay would be disastrous to the proprietors, were it not for the rare merits possessed by the wonderful medicine. Call at Taylor & Macdonald's Drug Store and get a Trial Bottle free, and try for yourself. It never fails to cure. 5

THERE are many foolish things done in this world, and one of the most foolish (and we may add wicked) things is to neglect a Cold. Now we know that Coughs, Colds, Bronchitis, Catarrh, and all Chest, Throat and Lung Troubles if neglected, are sure to end in Consumption and Death. They may be easily cured by using as directed Dr. Carson's Pulmonary Cough Drops, there is no remedy equal to it. It never fails. Sold everywhere in large bottles at 50 cents.

NEVER GIVE UP. If you are suffering with low and depressed spirits, loss of appetite, general debility, disordered blood, weak constitution, headache, or any disease of a billious nature, by all means procure a bottle of Electric Bitters. You will be surprised to see the rapid improvement that will follow; you will be inspired with new life; strength and activity will return; pain and misery will cease, and henceforth you will rejoice in the praise of Electric Bitters. Sold at fifty cents a bottle by Taylor & Macdonald.

"TWENTY-FOUR YEARS' EXPERIENCE," says an eminent Physician, convinces me that the only cure for "Nervous Exhaustion" and weakness of the generative organs is to supply the waste by giving Brain and Nerve Food, and of all the remedies I have used Mack's Magnetic Medicine is the best. This remedy is now sold by all our druggists at 50 cts. per box, or 6 for $2.50, and on receipt of an order for 12 boxes, accompanied with $5.00, addressed to Mack's Magnetic Medicine Co., Windsor, Ont., they will forward the goods free by mail, and send their "written guarantee" to refund the money, if the treatment does not effect a cure. See adv't in another column.

KENDALL'S
SPAVIN CURE

KENDALL'S SPAVIN CURE,

The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

From Rev. P. N. GRANGER,

Presiding Elder of the St. Albans District.

ST. ALBANS, Vt., Jan. 20th, 1880.

DR. B. J. KENDALL & Co., Gents:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming, I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bunch be found.

Respectfully yours, P. N. GRANGER.

PERSEVERANCE WILL TELL.

STOUGHTON, Mass., March 16th, 1880.

B. J. KENDALL & Co., Gents:—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me, its sale will be very great.

Respectfully yours, CHAS. E. PARKER.

KENDALL'S SPAVIN CURE is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, callous, sprains, swellings, and lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & CO., Enosburgh Falls, Vt.

JOHNSTON'S

SARSAPARILLA

—FOR—

LIVER COMPLAINT, DYSPEPSIA,

And for Purifying the Blood.

It has been in use for 20 years, and has proved to be the best preparation in the market for SICK HEADACHE, PAIN IN THE SIDE OR BACK, LIVER COMPLAINT, PIMPLES ON THE FACE, DYSPEPSIA, PILES, and all Diseases that arise from a Disordered Liver or an impure blood. Thousands of our best people take it and give it to their children. Physicians prescribe it daily. Those who use it once, recommend it to others.

It is made from Yellow Dock, Honduras Sarsaparilla, Wild Cherry, Stillingia, Dandelion, Sassafras, Wintergreen, and other well-known valuable Roots and Herbs. It is strictly vegetable, and cannot hurt the most delicate constitution. It is one of the best medicines in use for Regulating the Bowels.

It is sold by all responsible druggists at one dollar for a quart bottle, or six bottles for five dollars.

Those who cannot obtain a bottle of this medicine from their druggist may send us one dollar, and we will send it to them.

LOCAL AND MUNICIPAL.

Champagne Cider.

Orders left with B. Morrow, H. Rush or G. Schneider promptly attended to.

The Cells.

Four tramps lodged in the cells on Saturday night, and they were occupied last night by two more.

Dessert Knives and Forks.

A beautiful set of Dessert Knives and Forks with carved ivory handles, and engraved electro-plated blades of the best Sheffield manufacture, at R. W. Muncaster's.

Address, &c.

Mr. James Burnett, lately foreman of the Trent Valley Woollen Mills, Campbellford, who is a brother-in-law of Mr. James Kindrey, of the Auburn Mills, was, on the occasion of his leaving Campbellford, presented by the weavers and spoolers with an address and a valuable silver tea set.

Curliana.

On Christmas forenoon two rinks formed out of the Club played a friendly game of curling on the rink. The game was very close and exciting, one rink being first ahead and then the other throughout the game. The following is the score:—

Robert Hall,	Adam Hall,
W H Cluxton,	Andrew McNeil,
Edg Hartley,	R S Davidson,
Jno McClelland, skip—18	W G Ferguson, skip—19

The Carnival.

The work of decorating the rink for the Skating Carnival on Friday next was commenced this morning. A large quantity of evergreens have been procured, and with these, and flags, wreaths, &c., the rink will be ornamented in first class style for this event. The Chairman of the Committee has had intimations from sister towns of a large number of persons coming here for the carnival, and it is expected that this will be one of the most successful ever held. It might be well to remind those who intend to enter in fancy dress, that the character they assume should be on their card left with the Secretary.

Presentation.

At the Christmas tree festival in the Bible Christian Church on Saturday evening, Mr. F. W. Millar, leader of the choir, was presented with a purse by the congregation, accompanied by the following address:—

Mr. F. W. Millar:

DEAR SIR,—On behalf of the members of the congregation worshipping here, allow me to say that they, acknowledging the value of your services as leader of the church choir, embrace the present opportunity of presenting you with this token of their appreciation of such service. Although in no wise approaching an equivalent for your time and interest manifested, yet we beg to assure you that it has been contributed willingly and sincerely, and you will enhance their pleasure in receiving this small token at their hands.

Signed on behalf of the congregation,

WM. JOLIFFE,
Pastor.

Sound Reason.

We are getting in large shipments of oysters in bulk and cans, direct from the packers in Baltimore, and as we buy in large quantities, we can positively sell cheaper than has ever been done in our line in Peterborough before, which the following very low figures will show: Bulk oysters, 35 cents per quart; can oysters from 25 cts. to 40 cts. Large fine flavored Valencia Oranges, 25 to 30 cts. per dozen; Lemons 20 to 25 cts. per dozen; Malaga Grapes 25 cts. per pound. Dates, Figs in boxes and mats, Nuts and Candies, all on hand for the holidays. To persons buying in large quantities from us a fair reduction will be made. We are getting up some very handsome cakes for the holiday trade, beautifully iced and ornamented, and of the most artistic designs. Genoa cake, Butter Platzchen cake, Chocolate cake, Raisen cake, Jelly cake, Cocoanut cake, White Rosebud cake, Lafayette's cake, Maderia cake and Fruit cake, and an immense variety of small cakes always on hand. We bake every day, and can guarantee fresh goods. All orders for wedding and other cakes promptly attended to. Any person having any home-made cakes to ice will kindly oblige by sending in their orders at once, as we are now very busy. All orders filled in rotation. Don't forget the place: South Store, opposite the market square; north store, nearly opposite the express office.

CARTON BROS.

IF YOU WANT large fresh oysters dished up in good style, go to T. Darcy's Restaurant and Oyster Parlour.

POLICE COURT.

FAST DRIVING.

TUESDAY, Dec. 26.—F. Walton was charged with immoderate driving. He said that he was going for a doctor for a friend, and the Magistrate accepted the explanation and he was discharged.

A WAGES CLAIM.

Edward Hillman brought a suit against H. J. Beemer for wages alleged to be due.

Mr. EDMISON said that the summons should have been served on Mr. Beemer personally, and that the fact of it having been left at his office with the clerk was not sufficient service.

The MAGISTRATE held that the service was good, particularly as Mr. Edmison appeared for Mr. Beemer.

An enlargement was asked for, and the case was adjourned until tomorrow.

Latest.

Santa Claus is on the way and promises to astonish the little ones more than ever. His head quarters will be at CARTON BROS. Look out for him.

A Run on Cards.

A very choice lot of Christmas and New Year's Cards are being sold positively at cost at the 8-cent store. New and beautiful designs. Call and see them.

Peterborough Orchestra.

The services of the above fine Orchestra can be secured on application to the following gentlemen: Bandmaster F. W. Millar, Mr. Joseph Reynolds, and Mr. J. Butcher.

Piano Tuning.

Mr. George G. Gumpricht, Piano Tuner for Messrs. Mason & Risch, Toronto, will be in town for a few days. Orders left at Mr. T. Menzies' store, will receive prompt attention.

The Band.

The new instruments which arrived recently for the Band have been taken out of bond and were used this morning in a practice. They are good instruments, and the citizens will soon have an opportunity of hearing them.

Ball and Supper.

The True Blues' second annual ball and supper on Christmas night was largely attended. The ball was held in Hill's Music Hall, which had been handsomely decorated for the occasion with evergreens and bunting. The supper was given at the St. James' Hotel, and the whole affair passed off satisfactorily and was very successful.

Railway Notes.

The railways are doing a good business in the holiday travel.

The *Mail* says that McDonald and Fraser, contractors for that portion of the line between Claremont and Raglan, have the chopping all done and the grading finished four miles east of Claremont. Present prospects are that their portion of the road will be handed to the Ontario and Quebec Company within the next twelve months.

Christmas

The day set apart as a holiday in commemoration of the nativity of our Saviour was celebrated on Monday in the usual way. Services were held in several of the churches, and the music and sermons on Sunday had special reference to the subject. Many faces of former residents of this town were again seen on the streets, they having returned for this festive occasion. Driving was indulged in largely, and the livery stables did a thriving business. The celebration was quiet, orderly and becoming, and in this particular contrasts strongly with the celebration in some of the Southern States, as will be seen by a reference to our telegraph reports.

At Smith's Market.

Oysters in bulk and tins; Apple Butter, Minced Meats, very superior, manufactured by Clark & Hessin; Red Curran Jam in pails, 2½ lbs. each; Grapes, Oranges, Lemons, Pears, Apples, Cranberries, Sardines; canned Peaches, Pears, Strawberries, Raspberries, Pine Apple, Cherries, Green Peas, Green Corn, Tomatoes, Lobster, Salmon, &c. Pickles in bulk and bottle; Horse-radish and all kinds of Sauces, Sea Salmon and other kinds of fresh Fish; Venison, Partridges, Turkies, Geese, Chickens and a superior lot of small Fresh Hams. Orders received by telephone from 8 a. m. until 9 p. m. Parties likely to be interested in any of the above specalities will take due notice and govern themselves accordingly.

Organ Recital.

The organ recital in St. John's Church on the evening of Wednesday, December 27th, promises to be a treat such as is rarely enjoyed. The following is the

Dyspepsia and Liver Complaint.

Is it not worth the small price of 75 cents to free yourself of every symptom of these distressing complaints, if you think so call at our store and get a bottle of Shiloh's Vitalizer, every bottle has a printed guarantee on it, use accordingly and if it does you no good it will cost you nothing. For sale by J. D. Tully.

Your vote and influence is respectfully solicited for ADAM HALL as Councillor for No. 1 Ward.

Removed.

The bank of Toronto has been removed to their new office in Cox's block, next to the Great Northwestern Telegraph office, which has been fitted up in first-class style. The new office will be a convenient one, as regards its central situation, and also because it has been arranged purposely for a bank.

Oh, What A Cough!

Will you heed the warning. The signal perhaps of the sure approach of that more terrible disease Consumption. Ask yourselves if you can afford for the sake of saving 50 cts., to run the risk and do nothing for it. We know from experience that Shiloh's Cure will Cure your Cough. It never fails. This explains why more than a Million Bottles were sold the past year. It relieves Croup, and Whooping Cough, at once. Mothers do not be without it. For sale by J. D. Tully.

WE have a speedy and positive Cure, for Catarrh, Diphtheria, Canker mouth and Head Ache, in Shiloh's Cattarrh Remedy. A nasal Injector free with each bottle. Use it if you desire health and sweet breath. For sale by J. D. Tully.

Why The People Come Back to Us!

Is our trade in CLOTHING of that Character that serving—say a young man—once we never see him again? Not probable. Nor is it likely to take that character.

When a young man needs CLOTHING he wants something like a stock, a department, to select from. Don't you get that with us? He wants his Clothes well put together and run no risk of unnecessary ventilation, either; or at least have it come upon him unexpectedly. He don't care for seams like whip-cords in his pants legs, or his coat collar showing inches of room behind his neck. This touching Clothing. Another word here, we'd say. Don't jump to the conclusion that we don't keep certain goods because you don't see them mentioned in our advertisements. If you do you'll make a mistake. It's impossible, where we have so varied a stock of goods, to make mention of them all. We even may fail to mention some at all. So don't limit your ideas of our stock to our advertisements. As for what we say in them much more remains unsaid. There's nothing new, desirable or fashionable we haven't got. TRY US.

THE

PACIFIC NORTHWEST!

Oregon, Washington, and Idaho.

Offers the best field for emigrants—viz.: a mild, equable, and healthy climate; cheap lands of great fertility, producing all varieties of Grain, Fruit, and Grasses in wonderful abundance; an inexhaustible supply of Timber; vast Coal Fields, and other mineral deposits; cheap and quick transportation by railroads and river navigation; direct commerce with all parts of the world, owing to its proximity to the Pacific Ocean.

NO DROUTHS, NO INSECT PESTS, NO HURRICANES, WHIRLWINDS, OR OTHER DESTRUCTIVE PHENOMENA.

The lands of the Pacific Northwest show an average yield of wheat per acre largely in excess of that of any other section of the United States.

No failure of crops has ever occurred.

Oregon wheat commands a higher price than that of any other country in the Liverpool market.

An immense area of very fertile Railroad and Government Lands, within easy reach of the trunk lines of the Northern Pacific R.R., the Oregon Railway & Navigation, and the Oregon & California RR. Co's and their numerous branches in the great Valleys of the Columbia and its tributaries, are now offered for sale at Low Prices, and on Easy Terms, or open to pre-emption and Homestead Entry.

The great movement of population to the Columbia region now in progress will be enormously increased by the completion of the Northern Pacific RR. and the Oregon Railway and Navigation Co's systems. This renders certain a rapid increase in the value of Lands now open to purchase or to entry under the United States Land Laws.

I CURE FITS!

When I say cure I do not mean merely to stop them for a time and then have them return again. I mean a radical cure. I have made the disease of FITS, EPILEPSY or FALLING SICKNESS a life-long study. I warrant my remedy to cure the worst cases. Because others have failed is no reason for not now receiving a cure. Send at once for a treatise and a Free Bottle of my infallible remedy. Give Express and Post Office. It costs you nothing for a trial, and I will cure you.

Address Dr. H. G. ROOT, 183 Pearl St., New York.

MASON & HAMLIN

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES. There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcula which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION. The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT. SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.) THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels langour and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to invalids in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, billiousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, sense of exhaustion, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. This is the safest medicine. Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London. Bottles, 2s. 9d. and 4s. 6d. Sold by all Chemists. It is a most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

AUCTION SALE

OF ELIGIBLE

RESIDENCE

Brewery and Malt House,

IN

ASHBURNHAM.

PURSUANT TO INSTRUCTIONS FROM

MR. A. H. PECK

I will offer for sale by Public Auction at the CAISSE HOUSE, in the Town of Peterborough, on

Thursday, Dec'r 28th, 1882,

AT THE HOUR OF 2.30 O'CLOCK P.M.

That valuable property in the Village of Ashburnham on the banks of Little Lake, containing about TWO and ONE-THIRD ACRES and being composed of Lots 1 and 2 and 148 and 147, South of Maria Street and East of Mark Street, in said Village.

Upon the property are a good sized BREWERY and a MALT HOUSE with Kiln, &c., built of brick and stone; a FRAME STABLE and a two storey and a half STONE DWELLING HOUSE, 36x28 feet, with Outer Kitchen, Woodshed, Well, &c.

The property runs to the water's edge, and has a frontage on the lake of about 450 feet. There is a good wharf in front of the Brewery, affording an easy means of shipping goods by water. In the Engine House attacked to the Brewery is a good Engine and Boiler. The Brewery and Malt House are in good repair and in immediate working order for Brewing or Malting, or they could be easily fitted up and adapted for other manufacturing purposes. The garden beside the house is in good order and contains a large number of Currant Bushes and Young Fruit Trees.

The property will be first offered for sale in one parcel, and if the reserved bid is not reached, then in three parcels as follows:—

PARCEL ONE.

All that portion lying west of a line drawn from Maria Street parallel to Mark Street to the water's edge, and commencing at a point on Maria Street 230 feet from Mark Street. This parcel has 220 feet frontage on Maria Street, and contains the Brewery and Malt House.

PARCEL TWO.

That portion between Parcel One and a line drawn form a point on Maria Street, 150 feet from Mark Street, parallel to Mark Street to the Water's edge. A Frame Stable is on this parcel, also some Young Fruit Trees. This parcel has a frontage of 80 feet on Maria Street, and is an excellent building lot.

PARCEL THREE.

Is the balance of the land on the corner Maria and Mark Streets, and having a frontage on Maria Street of 150 feet. On this parcel is the Stone Residence.

TERMS LIBERAL. And will be made known at the time of Sale. There will be a reserved bid on the whole, and on each parcel. For further particulars apply to the proprietor or to the undersigned.

PUBLIC SCHOOL TRUSTEES.

The nomination to-day of candidates for the position of Public School Trustees for the ensuing term of two years, resulted in the re-election of the four retiring members, so that there will be no change, so far as the Public School Trustees are concerned, in the Board of Education. The following were the nominations, the gentlemen nominated in each instance being elected:—

WARD NO. ONE. Mr. J. R. Stratton, nominated by Mr. L. Spry, seconded by Mr. John Bell.

WARD NO. TWO.—Mr. W. H. Wrighton, nominated by Mr. John McClelland and seconded by Mr. Jas. Stevenson.

WARD NO. THREE.—Dr. George Burnham, nominated by Mr. E. B. Wilson and seconded by Mr. John Graham.

WARD NO. FOUR.—Mr. John Sawers, nominated by Mr. Samuel Griffith and seconded by Mr. James S. Martin.

SEPARATE SCHOOL TRUSTEES.

The nomination of candidates for the position of School Trustees for the Separate Schools of Peterborough, took place at noon to-day in the Murray Street school. The following nominations were made:—

WARD NO. ONE. Mr. Thomas Cahill, nominated by Dr. Hourigan and seconded by Mr. James Henry.

WARD NO. TWO.—Mr. B. Morrow, nominated by Mr. Joseph Griffin and seconded by Dr. Hourigan.

WARD NO. THREE.—Mr. Henry Carveth, nominated by Mr. James Henry and seconded by Mr. R. W. Muncaster.

WARD NO. FOUR.—Mr. John McGrath, nominated by Mr. D. A. Macdonald and seconded by Mr. Jos. Griffin.

No other nominations were made, and consequently the gentlemen nominated were elected for the ensuing term of two years. Messrs. Cahill and McGrath are re-elected, having served in the Board during the last term.

Hogs and Young Pine Trees.

A correspondent writing from Johnsonville, S. C., incidentally mentions a curious instance of the influence of animals in controlling or preventing forest growths. It appears that the fondness of hogs for the juicy roots of young pines leads them to seek them assiduously, so that where hogs are allowed to roam in that region one can hardly find a young long leafed pine in a thousand acres of pine forest. There being no young trees to take the place of the old ones used up by the lumbermen and turpentine gatherers, that species of pine timber is rapidly being exterminated.

Asthma, Bronchitis, Catarrh

and consumption in its first stage are treated at the International Throat and Lung Institute, 173 Church street, Toronto, where the Spirometer is used, an instrument invented by Dr. M. Souvielle of Paris, and ex-aide surgeon of the French army, which conveys the medicines in the form of cold inhalatives to the parts diseased. Suitable constitutional treatment is used when required. Consultaitonas and a trial of the Spirometer free. Poor people bearing certificates furnished with the instrument free. When not convenient to visit the office write, enclosing stamp, for pamplet giving full particulars to International Throat and Lung Institute, 173 Church street, Toronto, or 13 Phillips square, Montreal.

Worthy of Praise

As a rule we do not recommend Patent Medicines, but when we know of one that really is a public benefactor, and does positively cure, then we consider it our duty to impart that information to all. Electric Bitters are truly a most valuable medicine, and will surely cure Biliousness, Fever and Ague, Stomach and Liver and Kidney Complaints, even when all other remedies fail. We know whereof we speak, and can freely recommend them to all. *Exch.* Sold at fifty cents a bottle, by Taylor & Macdonald.—6

FALL OF A WALL.

LIVERPOOL, Dec. 26.—Seventy yards of a heavy stone wall, with several hundred tons of sandstone rock supporting the wall, fell into the central station to-day, causing heavy damage and seriously impeding traffic.

ANNEXATION IN AFRICA.

LONDON, Dec. 26.—The correspondent of the *Daily News* in South Africa says in his latest despatch that he is convinced that it is the intention of the Government to annex a part of Zululand for the benefit of Natal.

MORE ARRESTS.

DUBLIN, Dec. 26.—Mr. Biggar, M. P., was served with summons to-day. Three men were arrested to-day while driving in a car furiously through Clontarf, near Dublin. They refused to give any account of themselves, and the owner of the car is unable to explain how it came into their possession.

AMERICAN.

SHOT ON THE STAGE.

ROCHESTER, Dec. 26.—Lilian Spencer was shot and severely injured by one of her company at the Academy of Music to-night. The shooting was accidental; it took place at the close of the first act of "Article 37," when *Duhamel* shoots *Cora*. H. H. Forrest played *Duhamel*, and fired a blank cartridge at too close proximity to Miss Spencer, who received the discharge in the ear. The wound is not fatal, and it is said she insists on resuming her *role* to-morrow night.

CHINESE EMIGRATION.

WASHINGTON, Dec. 26. The Treasury has decided that a Chinese wet-nurse must be considered as a labourer, and is excluded from admission to the United States under the Act restricting Chinese immigration.

TROUBLE IN THE SOUTH.

PANAMA, Dec. 16.—Serious diplomatic trouble is likely to occur between Colombia and Ecuador, owing to the citizens of the former republic being flogged and imprisoned in the latter, because they exhibited sympathy with Alvaro's revolution.

A ROYAL CELEBRATION.

VIENNA, Dec. 27.—The entire population are preparing to celebrate the six hundredth anniversary of the foundation of the House of Hapbury. The Emperor, Empress and Crown Prince arrived this morning, and will receive numerous deputations and addresses.

DISTRESS IN ICELAND.

LONDON, Dec. 27.—The acting Governor of Iceland, Tyshope and other persons of note in a communication to the *Times*, say that notwithstanding the large donations received, there must be great distress from want of food on the island during the present winter.

ENGLAND AND ROME.

ROME, Dec. 27.—England has proposed to accredit the diplomatic resident at the Vatican the same as the representative of Prussia. The Pope acquiesced to the proposition.

AMERICAN.

MURDER.

MT. CARWELL, Pa., Dec. 27.—On Monday evening James Mosely, a married man, made marriage proposals to Elizabeth Powell, aged 17. Elizabeth's brother David indignantly remonstrated. Angry words followed and Mosely stabbed and killed David.

A TERRIBLE ACCIDENT.

LEXINGTON, Ky., Dec. 27.—Last night Patrick O'Neil, while lighting the gasoline street lamps, overturned a lamp. The burning fluid poured down and completely saturating his clothes and covered the horse he was riding with a sheet of fire. The terrified animal ran down the street at the top of its speed, and turning a sharp corner threw the rider, O'Neil, in a perfect blaze. He ran to the nearest house, but was fatally burned before the flames were smothered. His entire body to the waist was burned to a crisp. The back of the horse was literally cooked.

TO BE HANGED.

SAN FRANCISCO, Dec. 27.—Carl Johan, a sailor convicted of killing the sailor's boarding house keeper, was sentenced to hanged on February 16th. A motion for a new trial was denied, and an appeal to the Supreme Court may delay proceedings three or four years.

OSCAR WILDE.

NEW YORK, Dec. 27.—Oscar Wilde sails for Europe to-day. His departure is rather sudden, as it had been supposed that he intended to make a trip to China and Japan.

PITTSBURG, Pa., Dec. 27.—This morning Jas. Clark shot and killed his wife in a bagnio. Clark is a member of a well known family, and his wife has for years borne a bad reputation.

AN OFFICER'S SUICIDE.

LUCHOS, Dec. 27. Sergeant Rufus Somerley, of the Sixth Cavalry, committed suicide at Fort Lowell this morning, shooting himself with a carbine in the presence of the Company. He was a graduate of West Point. He was formerly Lieutenant of the Sixth Cavalry, and was compelled to resign on account of drunkenness and misconduct. The suicide is attributed to drink.

MEXICO AND THE U. S.

WASHINGTON, Dec. 27. It is stated that Rolero, the Mexican Minister, who recently returned from Mexico, went there to correct an impression widely entertained by business men, and especially manufacturers of that country, that the United States Government and people were laying plans to secure for themselves all the benefits of the proposed reciprocity treaty. The Mexicans have been convinced by his representations that the advantage will be mutual and that the Americans would act in good faith.

A CLERGYMAN ASSAULTED.

Violent Attack at Millbrook Upon the Rev. Rural Dean Allen.

The Port Hope *Guide* of the 23rd December says that on Friday night about ten o'clock, as the Rev. Rural Dean Allen was passing down our main street, his attention was attracted by loud outcries on the opposite side of the street. He immediately passed over to the other side and there found that a fight was in progress between Charles Guy and a man known as "Chopper," Dick Fallis. The rev. gentleman endeavored to make peace, but "Chopper" turned and struck him, knocking him down, and then kicked him. On being told who he was dealing with, the ruffian replied, "He didn't give a —— who it was." Fallis was lodged in the lock-up and will be tried before R. A. Holland to-day, when it is hoped he will obtain his just deserts.

The farmers interested felt well satisfied with the manner in which the affairs, financially, were conducted, $34.75 per standard of 3,000 lbs. of milk being paid.

A Dream Realized.

Some days ago a young lady in this city lost a valuable ring. A search was instituted for it but in vain. The missing article could not be found. On Thursday, however, her sister had a dream. It was to the effect that the ring lay in the bottom of a water barrel. Yesterday morning the water was emptied and, presto! so the ring was found. It must have dropped into a pail and been carried to the barrel when water was wanted.—*Kingston Whig.*

Do not take pills or powders containing Calomel, at this time of the year, the result may be serious. If you require a dose of physic take Dr. Carson's Stomach and Constipation Bitters; it acts gently on the Bowels, purifies the Blood, improves the circulation, stimulates the Liver and Kidneys, and speedily cures Billousness, Headache. Dyspepsia, Indigestion. Search the Drug Stores from one end of Canada to the other, and you cannot find a remedy equal to it. Try it and use it in your families. Sold everywhere in large bottles at 50 cents.

GEORGE KELLY of Dunchurch. Parry Sound, for the last six years suffered from Dyspepsia, and had tried Doctors and Patent Medicines, until out of patience with all treatment, but was induced by a friend to try Burdock Blood Bitters. Before finishing one bottle he was astonished at the result, and declares he never felt better in his life, and "I could name" (says he) "half a dozen others who have derived great benefit from the medicine."

THERE are many foolish things done in this world, and one of the most foolish (and we may add wicked) things is to neglect a Cold. Now we know that Coughs, Colds, Bronchitis, Catarrh, and all Chest, Throat and Lung Troubles if neglected, are sure to end in Consumption and Death. They may be easily cured by using as directed Dr. Carson's Pulmonary Cough Drops, there is no remedy equal to it. It never fails. Sold everywhere in large bottles tt 50 cents.

Mothers! Mothers

Are you disturbed at night or broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately. Depend upon it, there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. EXCEEDING THEIR POWERS.

THE Monetary *Times* in an article on "The Question of the Boundaries," says:—

"The history of international treaties furnishes many instances in which the exchange of ratifications has been refused, for cause. According to Vattel a government is justified in *refusing to ratify a treaty which has* been signed in its name only for 'solid and weighty reasons.' The most frequent reason for such refusal has been that the plenipotentiaries have exceeded their powers. In the thousand of cases which a French authority says have occurred, this would be true of more than nine hundred. Formerly the danger of negotiators exceeding their powers was much greater than at present. At the capitulation of Montreal, for instance, the French negotiator could have *no* means of communicating with his government; and in such a state of things, the government in whose names capitulations or treaties *are* signed *must* have *some power of revision.* When an Austrian marshal, in 1730, signed a treaty in the Turkish camp before Belgrade, the government of Vienna was held excused by the opinion of Europe for refusing to ratify a treaty which it would not have instructed the negotiator to make in its name. The negotiators of all nations have, in turn, exceeded their instructions. This did Mr. Erskine, when in the character of British plenipotentiary he signed, at Washington, in 1809, a provisional treaty *with the* United States; and his government refused to exchange ratifications. The American government, though greatly chagrined, afterwards declared that, if it had been aware that Mr. Erskine was exceeding his powers, the treaty would not, on its part, have been signed. A negotiator may exceed his powers, by omitting something which he ought *to* have included as well as by admitting something which he ought to have rejected. The treaty signed, in 1804, by Monroe and Pickney, *on behalf of the United States, and Lords* Holland and Auckland, on behalf of England, was rejected by the President of the United States, without consulting the Senate, because it did not contain a provision against impressment on the high seas; and the fair conclusion is that, by the act of nullification, Jefferson meant to declare that the American negotiators had exceeded their powers. Monroe and Pickney again exceeded their authority (1807) in agreeing to a provision which gave the British a right of unrestricted *navigation in* the Upper Mississippi.

In all these cases, the 'solid and weighty reasons,' which Vattel says can alone justify a refusal to ratify a treaty, after it has been signed, appear to have existed. When the north-eastern boundary question was referred to the King of Holland, the United States and *England* bound themselves to accept the award as final and conclusive, and carry it into immediate effect. The Senate refused the necessary ratification; but just *before it did so*, the British *Charge-d'-affaires*, at Washington, Mr. Bankhead, informed the United States Secretary of State that "His Majesty's Government might not be indisposed to enter into negotiation with this government, with a view to effect some modification by a reciprocal exchange and concession.' It is not at all certain that, in the absence of this intimation from Mr. Bankhead, the Senate would have declined to ratify. The intimation that the British government might not be *indisposed to re-open* the question may reasonably have been considered by the Senate as releasing it from the duty of ratification. Besides refusal to ratify by a *legislature* is a matter for which the executive government is not necessarily responsible; and it may have been so in this instance. In 1803, the Senate of the United States did certainly refuse to ratify a treaty with England, to which the executive was desirous to give effect. This treaty was signed respectively by Mr. King and Lord Hawkesbury. *One object of* this instrument was to correct the impossible due west international boundary line from the Lake of the the Woods; the fifth *article substituted* the shortest line which could be drawn from the north-west point of that lake to the nearest source of the Mississippi. Of this treaty the President recommended to the Senate the confirmation; but the Senate, taking its own course, refused. The executive cannot be blamed for what it could not control."

In spite of these very conclusive precedents, to which others might be added, the *Monetary Times* argues *in favor* of the award, on the ground that the faith of Canada is pledged to it. It would be surprising that a journal of the standing of the *Monetary Times* should come to such an erroneous conclusion, if it were not that the source of the error is manifest. When it speaks of the "continuity of the Dominion government," "the faith of the government, not the succession of party leaders," and the "government of Canada irrespective of the individuals of whom it may be composed," it is evident that the administration of the *Dominion of* Canada is meant. This is where the confusion of ideas arises in the *double* meaning of the term "government." It is true that by the government it is sometimes meant the administration of the day, but in countries with a parliamentary form of government, the real government is the legislature, including all its branches. We need not discuss the manner in which the powers of the executive are more or less limited in the British Empire, the United States or other countries. It is sufficient to show how they are limited in Canada in such a case as the present. If it is a question of *making* a boundary, the executive has no power, nor even the Parliament of Canada, for the boundary was fixed by Imperial Legislation, and can only be amended in the same manner. If it is a matter of *interpretation* of this legislation, that is a matter for the courts up to the final Court of Appeal of the Privy Council. If it is a question of *altering* the boundary, as seems now to be assumed, the Canadian Executive again have no power, for that by our constitution is especially reserved for Parliament. The legislatures of Canada and *Ontario* could pledge our faith, not their administrations.

The award *then is clearly not binding* as being in excess of power. We need not stop to consider here the question of whether the arbitrators exceeded the power assumed to be given to them, though it would not be difficult to prove that they did so. It is sufficient to invalidate the award that the arbitrators themselves had no power, unless it were to act as a sort of committee to report. The Mackenzie administration had no power under our constitution to deal with the boundary, they therefore had no power to pledge the faith of Canada, and clearly could not delegate to an arbitrator, or to any *other person or body, powers they did not themselves possess.* The award therefore falls into *the same category as the cases quoted* by the *Monetary Times*, and the faith of Canada is not pledged to its acceptance.

EDITORIAL NOTES.

MR. JOHN CAMERON, late of the London *Advertiser*, and formerly of the Toronto *Liberal*, is announced as the new general manager of the *Globe* in the place of Mr. Gordon Brown. Mr. Cameron was not strong enough to run the *Liberal* in opposition to the *Globe*, it remains to be seen whether he is strong enough to run the *Globe* itself.

⁂

THE Montreal *Witness* has a long article on the *recent changes in the editorial* and business departments of the Toronto *Globe*. In the course of the article it says:—

"The extremely bitter personal attacks made by the *Globe* not infrequently will never be forgiven by many of its enemies and cannot be justified by its friends.

We have often been blamed for uttering the same criticism, but perhaps it will have more weight coming from a Reform journal. We hope that there may be a change for the better under the new management, but so far we have seen small signs of improvement in this respect.

⁂

MR. GOLDWIN SMITH cannot be said to be a strong opponent of the Mowat administration, yet this is what the *Bystander* has to say in regard to one of its most note-worthy characteristics:—

"Soon even literary and educational appointments over which the Government directly, or its partisans, has control, will be confined to the following of the Premier. Everything that can be a source of influence is grasped, and while the eyes of the people are following the finger of the Attorney-General pointed *in* a transport of indignant eloquence to the North-West boundary, danger threatens self-government nearer home."

⁂

"Mr. Mowat would perform a graceful act by appointing Mr. J. R. Stratton, of the Peterborough *Review*, Registrar of the county of Peterborough, made vacant by the death of Col. Haultain. The *Review* is one of the best published papers in Canada."—*Free Press.*

The *Review* is a good, sound, consistent Tory journal. The *Free Press* no doubt refers to its Grit contemorary, the *Examiner*, whose editor it wants rewarded.—*Ottawa Citizen, Dec. 23.*

FURS ∴ FURS ∴ FURS!

FIRST PRIZE FURS AND WHERE TO BE FOUND.

Not many houses in the Fur Trade possess the facility for manufacturing **FURS** *as the subscriber. The large quantity of Raw Furs he buys* **DIRECT FROM THE TRAPPERS** *enables him to select the choicest material, leaving a surplus for export, hence his success. Who pays the highest price for raw furs? Let the Trappers answer that question, as all have been defeated and left the field who entered in opposition 22 years ago.*

By importing European Furs direct, his name is as well known in Leipzig, Germany, as any of the wholesale houses, and noted for not offering dyed Marten for Sable, or dyed Goat Robes for Bear, nor using any fictitious name in his establishment whereby imitations are sold for real, at often treble their value. Continuing, as commenced, in the same old way of giving **A GOOD ARTICLE FOR THE LOWEST POSSIBLE PRICE,** *any order entrusted must give satisfaction or no sale.*

On account of family changes, I have concluded to close the shop formerly occupied by S. Hyman, after New Year's. This stock will be sold at very low prices.

SIR HUGH ALLAN's funeral takes place from his late residence in Montreal at two o'clock this afternoon.

THE proprietors of a number of provincial journals in Ireland are to be prosecuted for having published articles inciting to crime.

A RAILWAY accident occurred near Melbourne, Australia, on the 2nd inst., by which one person was killed and fifty were injured, many seriously.

CATARRH is the seed of Consumption, and unless taken in time is a very dangerous disease. Hall's Catarrh Cure never fails to cure. Price 75 cents. For sale by John McKee, druggist.

ON the German Emperor's next birthday, the 22nd of March, the foundation stone of the new Parliament House on the Konigsplatz will be laid.

DISEASES OF WOMEN.—Large treatise for three stamps, giving means of successful self treatment. Address World's Dispensary Medical Association, Buffalo, N. Y.

A PETITION is to be presented to the Legislature shortly asking for an amendment in the Municipal Act so as to allow township councils to purchase thoroughbred cattle, with a view to the improvement of stock.

CHARLES T. CASSELMAN, Druggist of Chesterville, writes to the Proprietors of that Soverign Tonic, Burdock Blood Bitters. "Your Burdock Blood Bitters, give universal satisfaction. All your medicines sell well, and many of my customers will take no other."

DURING the Peltzer murder trial at Brussels, fears were entertained of popular outbreaks in that city and at Antwerp, and the government deemed the situation sufficiently threatening to warrant it in taking measures for the preservation of the peace.

THE remarkable durability of morter in Italy, a fact which is well known, is attributed by the London *Builder* to the practise of allowing the lime to remain in a pit covered with water for two years before it is used, whereas in England lime is slaked and used the same day.

PRECAUTIONARY.—There have been many precautions against fire published but let a person become accidentaly burned or scalded, and few people know what to do in absence of a doctor. The very best remedy known is Hagyard's Yellow Oil, the great Household Panacea for all painful inflammatory diseases.

DURING the past summer five hundred townships have been surveyed in the North-west, opening up over ten million acres of land. The work has now extended beyond Moose Jaw, four hundred miles west of Winnipeg, and next year it will be carried along the Pacific Railway as far as Calgarry.

MRS. MCARTHUR, of Hopeville, says regarding Hagyard's Pectoral Balsam, that she would not keep house without it. She can not speak too highly of its merits as a remedy for Colds, Coughs, Bronchitis, Asthma, weak lungs and all pulmonary troubles. A cold may be cured by it in one day.

AN IMPORTANT OFFICE.—One of the most important functions of the animal Economy is the depurtive action of the Kidneys, if they are obstructed in their work great suffering and dangerous disease enaues, such as Dropsy, Diabetes, Bright's Disease and many other painful affections. Do not suffer from Lame Back and inactive Kidneys, when Burdock Blood Bitters act so promptly upon the Kidneys, Liver, Bowels and all the secretions, and speedily restores health to the afflicted.

DO YOUR CHILDREN have fits or convulsions, grind their teeth, pick their nose, have a bad breath, or a changeable appetite? Are they restless or feverish at night? If so, ask your druggist for Dr. Smith's German Worm Remedy (take no other), *it only costs 25 cents. Is simple* safe, and pleasent to take. If there are no worms, to remove the slime and bile that breeds them, tones up the system, and will save many a doctor's bill. A word to the wise, etc. Thousands of testimonials.

"TWENTY-FOUR YEARS' EXPERIENCE," says an eminent Physician, convinces me that the only cure for "Nervous Exhaustion" and weakness of the generative organs is to repair the waste by giving Brain and Nerve Foods, and of all the remedies I have used Mack's Magnetic Medicine is the best. This remedy is now sold by all our Druggists at 50 cts. per box, or 6 for $2.50, and on receipt of an order for 12 boxes, accompanied with $5.00, addressed to Mack's Magnetic Medicine Co., Windsor, Ont., they will forward the goods free by mail, and send their "written guarantee" to refund the money, if the treatment does not effect a cure. See adv't in another column.

Daily Evening Review

WEENESDAY, DECEMBER 27, 1882.

LOCAL AND MUNICIPAL.

POLICE COURT.

A WAGES CLAIM.

WEDNESDAY, Dec. 27.—The case of E. Hillman against H. J. Bremer was again brought up, but it was dismissed, the evidence of the plaintiff only being taken.

Champagne Cider.

Orders left with B. Morrow, H. Rush or G. Schneider promptly attended to.

Town Council.

The Mayor has called a meeting of the Town Council pursuant to adjournment, for Friday, December 29th.

Sale of Periodicals.

The usual annual sale of magazines, illustrated papers and other periodicals will take place at the Mechanics' Institute on Monday evening, January 8th, at 8 o'clock.

Mechanics' Institute Classes.

All who have given in their names for the various evening classes of the Mechanics' Institute, and those who intend to join them, are requested to meet in the rooms of the Institute on Tuesday evening, January 2nd, at 8 o'clock, when the members of the Class Committee will also be present to make the final arrangements.

Personal.

Mr. Fred. Hughes, general hardware merchant of Grafton, Dakota, arrived home last Monday on a short holiday visit to his parents and friends. The Grafton *News* of the 22nd instant gives him the following "send-off:"

> "*Fred. Hughes, one of Grafton's most popular young men, left on Wednesday for his old home in Peterborough, Ont., where he will spend the holidays among the friends of his boyhood.*"

Concert.

We are glad to learn that Mr. Charles Ewing, organist of St. John's Church, intends giving a grand evening concert in Bradburn's Hall, on the evening of Shrove Tuesday, February 6th. Mrs. Caldwell, the well-known *cantatrice*, of Hamilton, has consented to sing upon the occasion. Mr. Ewing, by the courtesy of Messrs. Williams & Son, piano manufacturers of Toronto, has secured the use of a magnificent Decker concert grand piano for the concert.

Presentation.

A pleasing incident occurred on Thursday, when Mr. Smith, head teacher in the West Ward School, was presented with a silver cake basket and an address by the teachers and scholars. The cake basket was a handsome one, and Mr. Smith's initials and the date of the presentation were inscribed on it. On behalf of the school, Miss Emma Morrow read the address and Miss Jennie Mercer made the presentation. Mr. Smith made a suitable reply to the address, returning his thanks for their kindness and good wishes.

Egyptian Masonry.

At the recent meeting in Toronto of the Soveriegn Sanctuary of Canada, at which the Egyptian rites were united, among the officers elected were Bro. E. H. D. Hall, 33° 95° of Peterborough, Deputy Grand Master, and Bro. J. B. Trayes, 33° 96° of Port Hope, Grand Junior Warden. The rank of Past Grand Master was conferred among others upon Bro. C. D. Macdonald 33° 96°, of Peterborough, Knight Commander of the Temple, Past General Z of the Grand Chapter of Canada, &c.

Organ Recital.

Our readers should not forget the organ recital in St. John's Church this evening, at 8 o'clock. Many of those we address are well aware of the capabilities of the fine new organ in this church, and of the musicial abilities of the organist, Mr. Charles Ewing, so they will take care not to be absent. *Others who have* not yet had an opportunity should avail themselves of this occasion. The programme is one which will commend itself to all lovers of music.

Mrs. Williams Funeral.

The funeral of the late Mrs Williams, wife of Col. Williams, M. P., Port Hope, took place on Tuesday. It was by far the largest funeral ever seen in Port Hope, and we doubt if it has ever been exceeded as regards attendance in the Midland district. Not only were people from Port Hope present, but Ottawa, Toronto, Kingston, Peterborough, London, Hamilton and many other places furnished their quota, all thus testifying to the great worth of the deceased lady. Her death has left a gap that it will be exceedingly hard to fill.

Peterborough Orchestra.

The services of the above fine Orchestra can be secured on application to the following gentlemen: Bandmaster F. W. Miller, Mr. Joseph Reynolds, and Mr. J. Butcher.

Masonic Installation.

The installation of the officers of the Corinthian, Peterborough and Keene Lodges, A. F. & A. M., will take place this evening, being St. John's night. The ceremony will be performed, for the first time we believe, in our town, by the District Deputy Grand Master, R. W. Bro. E. H. D. Hall.

The Weather.

The weather last night was cooler, but to-day continues mild and partly cloudy. The probabilities for this district for the following 24 hours, as reported from Toronto at 1 a.m. to-day, by the Great Northwestern Telegraph Company, are as follows:—Moderate winds, mostly westerly; cloudy to fair weather, with showers of snow or rain in some localities; slightly lower temperature on Thursday.

At Smith's Market.

Oysters in bulk and tins; Apple Butter, Minced Meats, very superior, manufactured by Clark & Hessin; Red Curran Jam in pails, 2½ lbs. each; Grapes, Oranges, Lemons, Pears, Apples, Cranberries, Sardines; canned Peaches, Pears, Strawberries, Raspberries, Pine Apple, Cherries, Green Peas, Green Corn, Tomatoes, Lobster, Salmon, &c. Pickles in bulk and bottle; Horse-radish and all kinds of Sauces, Sea Salmon and other kinds of fresh Fish; Venison, Partridges, Turkies, Geese, Chickens and a superior lot of small Fresh Hams. Orders received by telephone from 8 a.m. until 9 p. m. Parties likely to be interested in any of the above specalities will take due notice and govern themselves accordingly.

Two Fire Alarms.

At about half-past one o'clock on Tuesday morning Mr. Conolly, of the Bank of Ontario, noticed an unusual light in the office of Mr. E. B. Edwards, and called Chief Johnston, who was on duty. The Chief gave the alarm, and burst *open* the door of the office, when it was found that a stick of wood had fallen out of the the stove and had ignited the floor. The office was full of smoke, but the fire was extinguished with water thrown on it with pails, and the services of the engine were not needed. The alarm was again sounded shortly before four o'clock, but it was an unnecessary alarm. Smoke was discovered in the Oriential Hotel, and being mistaken for an impending conflagration, the alarm was given, but it was happily only smoke which had escaped from a stove.

Sound Reason.

We are getting in large shipments of oysters in bulk and cans, direct from the packers in Baltimore, and as we buy in large quantities, we can positively sell cheaper than has ever been done in our line in Peterborough before, which the following very low figures will show: Bulk oysters, 35 cents per quart; can oysters from 25 cts. to 40 cts. Large fine flavored Valencia Oranges, 25 to 30 cts. per dozen; Lemons 20 to 25 cts. per dozen; Malaga Grapes 25 cts. per pound. Dates, Figs in boxes and mats, Nuts and Candies, all on hand for the holidays. To persons buying in large quantities from us a fair reduction will be made. We are getting up some very handsome cakes for the holiday trade, beautifully iced and ornamented, and of the most artistic designs. Genoa cake, Butter Platzchen cake, Chocolate cake, Raisen cake, Jelly cake, Cocoanut cake, White Rosebud cake, Lafayette's cake, Maderia cake and Fruit cake, and an immense variety of small cakes always on hand. We bake every day, and can guarantee fresh goods. All orders for wedding and other cakes promptly attended to. Any person having any home-made cakes to ice will kindly oblige by sending in their orders at once, as we are now very busy. All orders filled in rotation. Don't forget the place: South Store, opposite the market square; north store, nearly opposite the express office.

CARTON BROS.

Concert.

A concert was given on the evening of St. John's Day, Tuesday, in the Convent de Notre Dame as a festal tribute to His Lordship Bishop Jamot from the children of the Convent. There was a large attendance at the concert, and the hall was handsomely decorated for the occasion. The music was of a high order, and was admirably rendered by the pupils, and the representations during the evening were well arranged and very beautiful. The following was the programme carried out:—"Christmas Carols," by Misses A. Delaney and M. Lawder; "Festive Greeting," by a grand chorus of the pupils; vocal duet, "Wake the Echoes," by Misses Baguley and Dunn; dialogue, "The Little Ones' Message of Love," a very pretty dialogue well represented by several pupils; song and chorus, "Many Happy Returns of the Day." solo by Miss Teirney; comic dialogue, "The Rival Heiresses," by pupils; duet, "Sounds of Peace," by Misses M. Calcutt and A. Lynch; *representation*. Scenes in the Life of St. John by the Recording Angel, by Misses Dunn, Teirney and Weir; music, "Starlight," by Misses Lawder and Fawcett; song, "Happy New Year," Misses A. Dunn and Teirney; tableau, "St. John the Evangelist," represented by Miss Cook and Miss Nellie Muncaster; music, by Miss A. Delaney and Miss M. Teirney. His Lordship Bishop Jamot delivered a brief address, and "God Save the Queen" was played by Misses A. Henry, N. Calcutt, B. Fairweather and M. Stratton. The entertainment was a very enjoyable one, and reflects great credit on the Sisters and pupils of the Convent.

IF YOU WANT large fresh oysters dished up in good style, go to T. Darcy's Restaurant and Oyster Parlour.

Dyspepsia and Liver Complaint.

Is it not worth the small price of 75 cents to free yourself of every symptom of these distressing complaints, if you think so call at our store and get a bottle of Shiloh's Vitalizer, every bottle has a printed guarantee on it, use accordingly and if it does you no good it will cost you nothing. For sale by J. D. Tully.

A Run on Cards.

A very choice lot of Christmas and New Year's Cards are being sold positively at cost at the 8-cent store. New and beautiful designs. Call and see them.

Piano Tuning.

Mr. George G. Gumpricht, Piano Tuner for Messrs. Mason & Risch, Toronto, will be in town for a few days. Orders left at Mr. T. Menzies' store, will receive prompt attention.

The Sunday Schools.

On New Year's Day at half past ten o'clock in the forenoon, a mass meeting of all the scholars of the Sunday Schools of the town will be held in George Street Methodist Church. Addresses will be delivered by the pastors of the churches. Further particulars will be given.

Oh, What A Cough!

Will you heed the warning. The signal perhaps of the sure approach of that more terrible disease Consumption. Ask yourselves if you can afford for the sake of saving 50 cts., to run the risk and do nothing for it. We know from experience that Shiloh's Cure will Cure your Cough. It never fails. This explains why more than a Million Bottles were sold the past year. It relieves Croup, and Whooping Cough, at once. Mothers do not be without it. For sale by J. D. Tully.

ONE OF OUR BEST CITIZENS would say to the public that he has tried Hall's Catarrh Cure, and that it is all that is claimed for it. Price 75 cents per bottle. For sale by John McKee, druggist.

WE have a speedy and positive Cure, for Catarrh, Diphtheria, Canker mouth and Head Ache, in Shiloh's Cattarrh Remedy. A nasal Injector free with each bottle. Use it if you desire health and sweet breath. For sale by J. D. Tully.

A PLEASANT and Effectual Cough Remedy. If you will go to your nearest druggist and ask for a 25 cent bottle of Hagyard's Pectoral Balsam, you will possess the best known cure for Coughs, Bronchitis, Asthma, Hoarseness and all throat and lung troubles that terminate in Consumption.

PECTORIA! Pectoria! Pectoria! The great and true remedy for Coughs, Colds, Bronchitis, Catarrh, and Consumption. Have you tried "Pectoria?" It is sold in 25 cent bottles. It never fails. If you cannot procure it from your dealer enclose $1.00 to Smith & McGlashan, Toronto, and we will send you free by express 5 bottles. It may save your life.

Why The People Come Back to Us!

Is our trade in CLOTHING of that Character that serving—say a young man—once we never see him again? Not probable. Nor is it likely to take that character.

When a young man needs CLOTHING he wants something like a stock, a department, to select from. Don't you get that with us? He wants his *Clothes well put together and run no risk of unnecessary* ventilation, either; or at least have it come upon him unexpectedly. He don't care for seams like whip-cords in his pants legs, or his coat collar, *showing inches of seam behind his neck. This* touching Clothing. Another word here, we'd say. Don't jump to the conclusion that we don't keep certain goods because you don't see them mentioned *in our advertisements. If you do you'll make a* mistake. It's impossible, where we have so varied a stock of goods, to make mention of them all. We even may fail to mention some at all. So don't *limit your ideas of our stock to our advertisements. As for what we say in them* much more remains unsaid. There's nothing new, desirable or fashionable we haven't got. TRY US.

THE

PACIFIC NORTHWEST!

Oregon, Washington, and Idaho.

Offers the best field for emigrants—viz.: a mild, equable, and healthy climate; cheap lands of great fertility, producing all varieties of Grain, Fruit, and Grasses in wonderful abundance; an inexhaustible supply of Timber; vast Coal Fields, and other mineral deposits; cheap and quick transportation by railroads and river navigation; direct commerce with all parts of the world, owing to its proximity to the Pacific Ocean.

NO DROUTHS, NO INSECT PESTS, NO HURRICANES, WHIRLWINDS, OR OTHER DESTRUCTIVE PHENOMENA.

The lands of the Pacific Northwest show an average yield of wheat per acre largely in excess of that of any other section of the United States.

No failure of crops has ever occurred.

Oregon wheat commands a higher price than that of any other country in the Liverpool market.

An immense area of very fertile Railroad and Government Lands, within easy reach of the trunk lines of the Northern Pacific R.R., the Oregon Railway & Navigation, and the Oregon & California RR. Co's and their numerous branches in the great Valleys of the Columbia and its tributaries, are now offered for sale at Low Prices, and on Easy Terms, or open to pre-emption and Homestead Entry.

The great movement of population to the Columbia region now in progress will be enormously increased by the completion of the Northern Pacific RR. and the Oregon Railway and Navigation Co's systems. This renders certain a rapid increase in the value of Lands now open to purchase or to entry under the United States Land Laws.

I CURE FITS!

When I say cure I do not mean merely to stop them for a time and then have them return again, I mean a radical cure. I have made the disease of FITS, EPILEPSY or FALLING SICKNESS a life-long study. I warrant my remedy to cure the worst cases. Because others have failed is no reason for not now receiving a cure. Send at once for a treatise and a Free Bottle of my infallible remedy. Give Express and Post Office. It costs you nothing for a trial, and I will cure you.

MASON & HAMLIN

ORGANS are certainly best, having been so decreed at every Great World's Industrial Competition for Sixteen Years; *no other American organs having been found equal at any.* Also cheapest. Style 109; 3½ octaves; sufficient compass and power, with best quality, for popular sacred and secular music in schools or families, at only $22. One hundred other styles at $30, $57, $66, $72, $78, $93, $108, $114, to $500 and up. *The larger styles are wholly unrivaled by any other organs.* Also for easy payments. New Illustrated Catalogue free.

The MASON & HAMLIN Organ and Piano Co., 154 Tremont Street, Boston; 46 East 14th Street (Union Square), New York; 149 Wabash Avenue, Chicago.

CONSUMPTION.

I have a positive remedy for the above disease; by its use thousands of cases of the worst kind and of long standing have been cured. Indeed, so strong is my faith in its efficacy that I will send TWO BOTTLES FREE, together with a VALUABLE TREATISE on this disease, to any sufferer. Give Express and P. O. address.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6d. Sold by all Chemists. ST. JOHN'S NIGHT.

The Installation of the Officers of three Masonic Lodges.

On Wednesday evening, the festival of St. John the Evangelist, the installation of the officers for the coming year of the two Masonic lodges of the town took place. By invitation the members of Keene lodge also attended and their officers were duly installed. There was a very large attendance, not only of the members of the three lodges more immediately concerned, but of visiting brethren, the spacious lodge room being literally crowded. The District Deputy Grand Master, R. W. Bro. E. H. D. Hall, performed the ceremonies of installation in a very impressive manner, being assisted by R. W, Bro. C. D. Macdonald, V. W. Bro. J. J. Lundy, and W. Bros. O'Donnell, Winch, Morrow and Belleghem.

The following are the officers of the respective lodges:—

Worthy of Praise

As a rule we do not recommend Patent Medicines, but when we know of one that really is a public benefactor, and does positively cure, then we consider it our duty to impart that information to all. Electric Bitters are truly a most valuable medicine, and will surely cure Biliousness, Fever and Ague, Stomach and Liver and Kidney Complaints, even when all other remedies fail. We know whereof we speak, and can freely recommend them to all.—Exch.—Sold at fifty cents a bottle, by Taylor & Macdonald.—6

ELECTION TROUBLES.

RICHMOND, Dec. 28.—It is understood that Judge Christian, whose term expires on January 1st, will be arrested on January 2nd on the instance of the United States District Attorney, Wise, coalition Congressman at the last election, for giving illegal advice to the officers on election day. Massey, Democratic candidate for congressman, yesterday served notice of contest on Wise. He alleges fraud.

WASHINGTON NEWS.

NEW YORK, Dec. 28.—The *Herald's* Washington despatch says that the Republican Senators are somewhat jubilant over the passage of the Civil Service Bill. The members of the Senate Civil Service committee think the house will pass a bill without changing it. When the post office appropriation bill is brought up for consideration, Senator Plumb will endeavor to have the reduction of postage from three to two cents go into effect on July 1st, 1883, instead of January, 1884, as provided for by the House. Assistant Postmaster General Hazen says that it would be impracticable to make the change early in July. Plumb considers Hazen's objections of no weight.

THE TOY PISTOL AGAIN.

NEW YORK, Dec. 28.—Mark Pike yesterday playfully snapped a rusty toy pistol at his sister, aged 20. The bullet entered her face near the nose. The wound is dangerous.

DELIBERATE SUICIDE.

TRENTON, N. J., Dec. 28.—Wm. and Jacob Rusk, who stabbed an officer in Philadelphia and committed suicide here, tied the, hands and feet securely with a clothes line, and after tying themselves to each other, jumped from a bridge into the water. The men were said to have been hard characters.

THE TOBACCO TAX.

LOUISVILLE, Dec. 28.—Reports from the state says that the tobbacco crop of this district has fallen off two thirds since the discussion of the reduction of the taxation began in Congress.

Sale of Timber Limits.

The Ottawa *Citizen* of Dec. 22nd, says:—This afternoon the timber limits belonging to the firm of Thomas McTiernan & Co., and which have been the subject of litigation for nearly three years, were sold under an order of the Court of Chancery in the suit of McTiernan vs. Fraser. There was a large attendance of prominent lumbermen from the Ottawa Valley, and the bidding was very brisk. The sale was conducted by Mr. W. M. Matheson, the Master in Chancery here. The prices obtained were the highest yet received in this district, although the limits are very valuable. Parcel No. 1 containing thirty square miles, was purchased by Messrs. Perley & Pattee, for $78,000. Parcel No. 2, containing fifty square miles, to Mr. J. R. Booth for $61,500. Parcel No. 3 containing fifty square miles to Mr. J. R. Booth for $46,500, and parcel No. 4, containing fifteen square miles, to Mr. J. R. Booth for $22,100. The total amount realized was $208,100. The terms of sale were ten per cent cash, twenty-five per cent within twenty days, and the balance within four months from date of sale.

Sensational Literature.

The sensational literature that makes heroes of boy robbers and haloes the heads of cracksmen and street pads, is bearing its legitimate fruit in England. Two boys living near Liverpool, aged ten and twelve years respectively, were recently detected committing a series of depredations on a house at Herne bay. They were properly furnished with "jimmies," dark lanterns, revolvers, and the other paraphernalia dear to the burglar, and when arrested, and instead of riddling the police with bullets, they fortunately made a clean breast of it, and explained the method by which they obtained entrance to the house, carrying off jewellery and having "orgies" on the wine of the proprietor. Boys will read, and it is only by providing them with wholesome literature that the pernicious effects of the biography of crime can be overcome.—*Mail.*

FIGHT WITH INDIANS.

MUSKAGEE, IA., Dec. 27.—On Sunday evening fifteen miles west of O'Kmulkee, a band of Checotes men under Jim Looney were attacked by two hundred of Spieches partisans under the command of Mekarochee. The fight raged for an hour, when the Checotes fell back, but kept up a running fire for ten miles. Bob Carr, David B. Moore and wife, and a man named Walsh are reported killed. The loss on the other side is not known. The whole country is rushing to arms. On the receipt of the news here the 40th United States soldiers were ordered to the scene, and yesterday they overtook and disarmed a hundred and fifty Checotes men. This will be continued till all the men engaged on both sides are disarmed. The Spieches say they don't want to fight, but that they do want their rights, and are anxious that a United States Commission should investigate the matter of difference between them and the opposing party. The United States agent Tufts has gone to the scene of the trouble.

THE LICENSE OFFICIALS.

We are invited to prove our charges against Mr. Mowat's License officials of neglecting their duties and misusing their position. As to the neglect of duty no further proof surely can be required than the fact that the department has been obliged to issue a circular complaining of such neglect of duty, and requiring attention to it in future. As to the misuse of their powers, the facts are notorious, and many instances have been given. These could be multiplied, but for the fact that it would be ruin for the men still in the business to complain. One official, Mr. Doherty, of Toronto, accused of forcing cigars upon license holders, denies the charge, and appeals to the victims, but he knows they no more dare to complain than to refuse to purchase from him, and he admits that he has sold many thousand dollars worth of cigars to licensed houses. Does not even his admission show a very improper state of things, when an official with such powers deals in the goods used by those under his thumb, thus doing injustice both to the purchasers and to other dealers who have not such an advantage. Is it to be doubted that men who thus traffic in their own political influence for their own advantage would also use it for the political advantage of their patrons?

What is wanted not only by total abstainers but by the people of Ontario is that they shall have officials who will enforce the law instead of neglecting this duty, while looking after their own interests, or acting as political agents for those who have appointed them for that purpose?

THE REFORM MEETING.

A MEETING of the Reform Association was held in the Choate House on Wednesday, but as there is not the slightest reference to the matter in the organ of the party published on the following day, we may safely assume that the proceedings were neither harmonious nor satisfactory; indeed, old Reformers do not hesitate to allow this in a sufficiently open manner.

We learn that the officers elected were Mr. T. G. Haslett, President, Mr. James Henry, Vice President, Mr. Jas. R. Stratton, Secretary, and Mr. Adam Hall, Treasurer.

FORESTRY.

The Chicago *Lumber Trade Journal* says:—Much valuable reading has of late been published in reference to the relation of the influence of forests upon streams, and those who perhaps know best, from a scientific standpoint, urge a consideration upon the most plausible ground. Ample and commanding illustrations to support their assertions have been produced, with many facts to which the thoughtful are inclined to attach weight.

It is within, doubtless, the memory of many observing men who have from necessity been constrained to plant trees after settling in a section where there was no timber to recall the moisture that followed dryness of the soil, when the small sprigs or the seeds which they had planted or sown years before were grown to a considerable size, owing of course to the nature of the leaves of the trees to retain moisture. Wherever there have been forests, streams of every size could be seen, but just in the ratio that the timber was removed in any quantities the streams diminished in volume, until not a few instances bore witness of the complete disappearance of the water almost simultaneous with entire depletion of the forests. The truth of these very instances were in some cases corroborated by the dried channel filling up with water, when after some years the old forest land again reveled in the product of new trees.

This points strongly to the necessity of not merely reforesting for the supply of material which will always be needed in the construction of building and improvements, but because of the varied mechanical and commercial enterprises which rely upon the river. The past in this respect holds out to the present an ominous warning which wise discretion will heed and obey, and instead of lands disrobed of the great timber resources, we will be able to see in teeming forests the fruitage of wise judgment and careful work.

FENELON FALLS.

THE DERRICK.—The *Gazette* says that the chief object of interest at the canal is the derrick, which was erected some days ago, and lifts with ease ponderous loads which could scarcely be raised by any other means. Some capital building stone is now being got out and laid aside, to be used in the construction of the locks and for other purposes. Now is the time for people who intend to put up stores or dwellings to lay up a stock of material for the foundations, as it can be got for little or nothing.

THE PAST AND PRESENT

OF THE FIRE BRIGADE BRASS BAND OF PETERBOROUGH.

A Short History of its Achievements—The Present—The New Instruments Lately Purchased.

The Fire Brigade Band of Peterborough, of which the citizens of this town are now so justly proud, was organized in the latter part of the year 1874. The number of its members, in the first instance, was limited, but they were men of pluck and energy and delighted in their art, and the band increased in numbers and prospered. Mr. F. W. Miller was the first leader of the band, and the only one it has had, as he still retains that position, for which he has proved himself to be eminently fitted. It was largely due to him that the band was organized, and its past success and present proficiency are largely due to his efforts and attention to it, and to several others who have seconded his efforts.

At the first Central Exhibition, held in Peterborough in 1875, the Fire Brigade Band made its first public appearance of importance. At this time it was composed of fourteen members, and entered into competition with the 57th Battalion Band, of Peterborough, under the leadership of Prof. Hammersmith, and the 45th Battalion Band, of Lindsay, of which Mr. F. Walker was leader. The Fire Brigade Band carried off the first prize, and the fact of its having taken the first prize so soon after its organization and at its first competition, was enough to encourage and stimulate its members.

The band increased in numbers, although some changes were made, and in 1878 it entered into a competition at Port Hope with the O. Y. B. Band and the 46th Battalion Band of that town. Nine of the fifteen players of the Peterborough band who took part in this competition had only been members for six months and had not been connected with any musical combination previously, yet they won the second prize and came very near securing the first. The following are the names of those who were with the band at this competition:—Messrs. F. W. Millar (leader), E. Mannell, J. Fraser, John Millar, A. D. Browne, Charles James, Thos. Kennedy, E. Dunford, Ernest McCabe, Edward Scott, Wm. Hill, Jas. Millar, Alex. Paisley, Jas. Billington and Jos. Hill.

In 1879 the band practised for a competition which was to take place on the 1st of July in Peterborough, in which the 46th Battalion Band of Port Hope had expressed a willingness to enter, but that band finally withdrew, preferring to face other musicians than those who composed the band of Peterborough.

The next competition into which the band entered was at the Toronto Exhibition in September, 1879, where they competed with eleven bands for the amateur championship of Canada. The following members went to Toronto for that purpose:—F. W. Millar (leader), A. Freeman, J. Fraser, J. Millar, A. D. Browne, C. James, W. A. Sanderson, E. Dunford, W. Green, E. McCabe, E. Scott, W. Hill, A. Paisley, Jas. Billington, J. Buller, J. Hill and J. Lasher. Twelve bands entered for this competition but the Peterborough band carried of the championship diploma, which it still retains, receiving loud and well-deserved plaudits from all quarters.

In 1878 the Fire Brigade Band became connected with the 57th Battalion, and it went into camp with the militia in 1880. It is still connected with the volunteers, and last season went with the 57th to the camp at Cobourg.

On the 31st of August, 1881, the Band competed with three of the best professional bands of the Province at Ingersoll, the others being the 7th Battalion Band, of London, the 13th Battalion Band, of Hamilton, and the 26th Battalion Band, of London. The members of the Peterborough Band who took part in the competition were Messrs. F. W. Millar (leader), A. Freeman, W. A. Sanderson, James Millar, J. Fraser, J. Firth, C. James, John Billington, E. Dunford, R. Mean, A. D. Browne, J. Hill, C. Huffman, W. Pearse, E. McCabe, W. Green, John Millar, James Billington, and W. Hill, in all nineteen. The 7th Battalion Band was composed of forty-one members, the Hamilton band of thirty-six members and the 13th Battalion Band of twent-eight members. The competition was a keen one, and although playing against bands with reed instruments, the Peterborough Band took the third prize. They were referred to in every flattering terms by the judges, who gave them great praise, stating that they were the best brass band in Canada. This was thought by many to be a more signal victory than that at Toronto, considering the bands against which they had to compete, and the band again returned home with honors.

This brings us to the present time in the history of the band. The average membership since its organization has been sixteen, and it is now composed of twenty members, as follows:—Messrs. F. W. Millar, (leader), John Millar, D. James, J. Reynolds, Jas. Watson and John Billington, cornet; D. Stewart, E. Dunford, J. Logan and B. Hill, alto; W. Pearse, R. Mean, J. T. Brydon and C. Huffman, tenor; E. McCabe, euphonium; James Millar, James Billington and W. Green, bass; W. Buller, bass drum, and J. Hill, snare drum.

During the past summer an effort was made to procure new instruments for the band, and we are pleased to state that the effort was successful. The members of the band were aided by the liberality of the citizens and the Town Council, and the new instruments are now here and will be first used in the public on New Year's Day. They were manufactured by Besson & Co., of London, Eng., who have the reputation of being the best manufacturers in the world. The new instruments are one E. cornet, one B. cornet, three altos, one tenor, two slide trombones, one euphonium, one E. bass, one bass drum and one snare drum. They are, indeed, first class instruments, and the band will be enabled to produce music even superior to that which we have lately been delighted with.

Negotiations are proceeding for the sale of the old instruments, and the proceeds will be applied in still further improving the band. On Tuesday evening the band commenced the usual round serenading the citizens, and they were well pleased with the liberality that was extended to them. The funds thus procured will be used to pay what is yet due on the new instruments, and it is therefore to be hoped that the liberality that was shown them on Tuesday evening may be continued. The citizens of Peterborough, and among them Mayor Smith, have always taken a commendable interest in the band, and it is not probable that it will diminish at the present time, but is more likely to increase.

The Fire Brigade Band has thus far a good record—a record to be proud of—and, from the bright prospects which appear for it, that record is likely to be greatly improved, if indeed, the past is not to be entirely eclipsed by the further success which await the band.

AN ANGRY TREE.

A gentleman of this place has a tree which is a species of acacia. It was grown from a seed brought from Australia. The tree is now a sapling some eight feet in height, and it is in full foliage and growing rapidly. It is leguminous, and very distinctly shows the characteristics of the mimosa, or sensitive plant. Regularly every evening, about the time the "chickens go to the roost," the trees goes to roost. The leaves fold together, and the ends of the tender twigs curl themselves up like the tail of a well-conditioned pig.

After one of the twigs has been stroked or handled, the leaves move uneasily, and are in a sort of mild commotion for a minute or more. All this was known about the tree, but it was only yesterday that it was discovered that the tree had in it much more life and feeling than it had ever before been credited with. The tree being in quite a small pot, one which it was fast outgrowing it was thought best to give it one of much larger size. Yesterday afternoon the tree was transferred to its new quarters. It resented the operation of its removal to the best of its ability.

Arriving at his residence about the time the tree had been transplanted, the gentleman found the house in great commotion. On asking what was up he was told that they had transplanted the tree according to orders and the operation had "made it very mad."

Hardly had it been placed in its new quarters before the leaves began to stand up in all directions like the hair on the tail of an angry cat and soon the whole plant was in a quiver. This could have been endured, but at the same time it gave out an odour most pungent and sickening—just such a smell as is given off by rattlesnakes and many other kinds of snakes in summer when teased. This odour so filled the house and was so sickening that it was found necessary to open the doors and windows. It was fully an hour before the plant calmed down and folded its leaves in peace. It would probably not have given up the fight even then had it not been that its time for going to roost had arrived.

EVERY DAY BECOMING A DIVINE CALLING.

A young man finds that he has a rare gift for scientific observation and discovery; his education has been generous, and he has the opportunity of living a life of research; but he is tempted to engage in business pursuits which offer him the certain prospect of a great fortune. If he yields to the temptation it is clear that he makes the ignoble choice—a choice in flagrant antagonism to the laws of Christ. He was meant to be a prophet and a seer; he was divinely called to make more fully known to men the ways and thoughts of God as revealed in the material universe. Had he accepted his true mission he would have augmented the knowledge of the race, and augmented its power. He has taken a bribe from the devil to quench the divine light which God had kindled; he has chosen to serve himself rather than to glorify God and to bless mankind.

You, my reader, are a manufacturer, lawyer, doctor, merchant, schoolmaster, clerk, carpenter, engineer, "through the will of God;" then, of course, there will be industry and integrity in the discharge of the duties of your calling. Your work has come to you by divine appointment; you have to fill your place in a divine scheme. Everything will be done as in the eye of God; for the work which God has assigned you, an account must, sooner or later, be given to Him. These generalities are sufficiently clear: look at what may be less obvious.

You are an employer of other men. The labor of ten, twenty, a hundred, perhaps five hundred families, is used and organized under your leadership. Their fortunes are largely in your hands. [illegible] your business successfully their strength and skill will have sufficient occupation and they will live in comfort. You are what Mr. Carlyle used to call "a captain of industry." You are that "through the will of God." You have charge, within certain limits, of the well-being of your people as well as of your own; and for this trust you must answer to God from whom you received it.

The old and vulgar distinction between what are called the professions and ordinary trades was that in a profession a man has to place his duties to others first and his own interests second, and that in a trade he has a right to care only for his own interests and may leave other men to look after themselves. That was one reason why professions were regarded as honorable and trades sordid and mean. And if the distinction were accepted the scorn with which people in trade were once regarded would be deserved: for their life would be utterly base and ignoble. No intelligent Christian tradesman or manufacturer who has grasped the true idea of the law of Christ as it affects the secular order will consent that his life should be governed by so intolerable and unchristian a conception. The professional theory is the Christian theory.

A physician has no right to think of the peril to himself from going into a house where there is infection; the code of medical honor requires that at all risks he should use his skill in the service of those who send for him. A captain in the army has no right to think of his own life first; his men are in his charge, and the code of military honor requires that, at whatever risk to himself, he should hold them together and provide for their safety. The captain of a ship accepts the same lofty obligations. If, when his vessel is on fire he jumps into a boat and pulls off, he incurs, and justly incurs, universal execration. There are innumerable stories of the cool gallantry with which sea captains have stood on the deck in a rough sea, while the flames were making terrible headway, and have seen the women and children into the boats first, then the rest of the passengers, then the crew, and have saved themselves last of all, or as has often happened, have gone down with the burning ship. That is required by the laws of professional honor.

This high temper, shown in other forms, will inspire a Christian man who believes that he is an employer of labor "through the will of God." He, too, as I have said, is a "captain,"—a "captain of industry." He will think of the safety of his people before his own. He will acknowledge the universal law, that authority is given for service, that honor is conferred that we may defend and bless other men. He will remember that he is a master for the sake of his men. If he trades recklessly, if he consumes in luxurious expenditure the capital on which his people depend for employment, if he sinks it in wild speculations which promise immense returns, but may very probably turn out disastrously; if he gambles, that is, with the money which political economists call "wages fund," and which he holds in trust for men who look to their wages for bread; or if he neglects his business and works it badly so that it slips out of his hands, and if as the result of his carelessness the business breaks down, it is not he alone that suffers; the men he employs are thrown out, and anxiety, perhaps destitution, finds its way into all their homes. Moral evils are likely to follow closely on want of work and poverty. In our complex social life the responsibility of caring for others, not in the way of common charity and almsgiving, but in ways far more difficult, rises as we arise in the social hierarchy. All Government is a form of service.

Those who are employed, if they are Christian men, and rightly understand the laws of the kingdom of heaven to which they belong, will show a correspondent spirit. I use the same language to men and to masters. You are a workman "through the will of God;" a servant "through the will of God." [illegible] ought to care for your [illegible] whether you care for him or not; you ought to care for his interests, whether he [illegible] or not. A passionate, reckless pursuit [illegible] of immediate personal advantage is a clear violation of the laws of Christ, "Love thy neighbor as thyself;" "Seek ye first God's kingdom and his righteousness;" "Whosoever would save his life shall lose it, and whosoever shall lose his life for my sake shall find it." If these laws were universally [illegible] greatly life would be brightened. [illegible] really know all other [illegible] as brothers [illegible] not merely call them so. [illegible] by side under the high command of God against want, ignorance, disorder, and sin. This would create a mutual kindness and a mutual respect which would bind together in golden chains all ranks and orders in the State. It would bring on the glorious years for which saints have prayed and toiled, and for which Christ died on the cross. It would be the fulfilment of the prayer, "Thy will be done on earth as it is done in heaven." So far as any man accepts these laws and obeys them, his secular calling becomes as truly a perpetual service of God as the life of the angels who worship Him day and night without ceasing.—*Rev. R. W. Dale, of Birmingham, in Good Words.*

The Aylmer by-law for loaning Wm. Yates, of London, ten thousand dollars for the purpose of building a foundry and machine shops, employing fifty hands, in the town was carried on Tuesday by a vote of 134 to 10.

It is a curious fact that the widows of soldiers of the war of 1812, now on the pension rolls, outnumber the surviving soldiers [illegible] more than three to one. [illegible] endured by the veterans were so great as to impair their constitutions, or else they married remarkably healthy women.—*Chicago News.*

Do Your Children have fits or convulsions, grind their teeth [illegible], breath, [illegible] restless [illegible] druggist for Dr. Smith's German Worm Remedy (take no other), it only costs 25 cents. Is simple, safe, and pleasant to take. If there are no worms, to remove the slime and bile that breeds them, tones up the system, and will save many a doctor's bill. A word to the wise, etc. Thousands of testimonials.

The scenery which is used in the first, second and fourth acts of "Young Mrs. Winthrop" at the Madison Square Theatre is constructed of wood and brass. The metal was cut by hand in India for Louis C. Tiffany & Co., who imported it in India, this metal formed the decorating rooms dedicated to special ceremonials. The walls and ceiling of the scene in the Madison Square Theatre contain over two hundred Oriental designs; the full beauty can only be appreciated by a minute inspection through an opera glass. It shows the kind of house decoration which the more wealthy are now introducing in New York city houses.

"Twenty-four years' experience," says an eminent Physician, convinces me that the only cure for "Nervous Exhaustion" and weakness of the generative organs is to repair the waste by giving Brain and Nerve Foods, and of all the remedies I have used Mack's Magnetic Medicine is the best. This remedy is now sold by all our Druggists at 50 cts. per box, or 6 for $2.50, and on receipt of [illegible] for 12 boxes, accompanied with $5.00, addressed to Mack's Magnetic Medicine Co., Windsor, Ont., they will forward the goods free by mail, and send their "written guarantee" to refund the money, if the treatment does not effect a cure. See adv't in another column.

Poisons in Book Covers.

The use of poisonous dyes to color the covers of books is happily not a common practice. Yet book publishers are occasionally careless about the materials used in making their books. Lately in Troy a child, while playing with some water-color paints, looked around for a palette, and seized a small book, attracted by the bright green color of its cover. He mixed the paints on the cover of the book for some time. Then he was suddenly taken with convulsions. Physicians who were hastily summoned declared that he had been poisoned. They administered antidotes, but the child went into convulsion after convulsion, and it was only after three days' incessant labor that the physician saved his life. The child's wealthy parents afterward had the physician investigate the manner of its being poisoned. They discovered that the dye with which the brightly-colored book was covered contained poison. In wetting the paints on the book cover the child had innocently also wet the dye and then transferred some of the poison to its own lips. There was a comical side to the investigation, although it was no consolation to the parents—the book was found to be a report of the Society for the Prevention of Cruelty to Children!—*Tribune.*

A Hog's Long Fast.

About four months ago Mr. Adam C. Camper, of Broad Creek Neck, Md., lost a sow weighing 300 pounds. On Saturday last Mr. Camper found her at his stack yard, wedged in between two straw racks alive and kicking. She had neither food nor water for four months, and only lost about ten pounds. After he got her out he offered her corn, but she wouldn't eat it until she got a drink of water. After drinking a bucket of water she ate five ears in the twinkling of an eye.—*Easton, Pa., Star.*

KENDALL'S
SPAVIN CURE

KENDALL'S SPAVIN CURE,

The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

From Rev. P. N. GRANGER,

Presiding Elder of the St. Albans District.

St. Albans, Vt., Jan. 29th, 1880.

Dr. B. J. Kendall & Co., Gents:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming, I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bunch be found.

Respectfully yours, P. N. GRANGER.

PERSEVERANCE WILL TELL.

Stoughton, Mass., March 16th, 1880.

B. J. Kendall & Co., Gents:—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me, its sale will be very great.

Respectfully yours, CHAS. E. PARKER.

Kendall's Spavin Cure is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, callous, sprains, swellings, and lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & CO., Enosburgh Falls, Vt.

Daily Evening Review

THURSDAY, DECEMBER 28, 1882.

LOCAL AND MUNICIPAL.

Personal.

Mr. and Mrs. T. F. McCabe, of Trenton, were in town this week, visiting friends here.

Champagne Cider.

Orders left with B. Morrow, H. Rush or G. Schneider promptly attended to.

Church Anniversary.

The anniversary of the Bible Christian Church, Murray street, is appointed to be held on Sunday and Monday, January 21st and 22nd, 1883.

The Weather.

The weather turned considerably colder last evening, and to-day is cold and cloudy. The probabilities for this district for the following 24 hours, as reported from Toronto at 1 a.m. to-day, by the Great Northwestern Telegraph Company, are as follows:—Moderate winds, mostly westerly; cloudy to fair weather, with slight falls of snow or in some localities; slightly lower temperature.

Obituary.

On Tuesday night Mr. John Flavelle, an old resident of Peterborough, died very suddenly. Although he had been unwell for some time, he was able to be about and was on the street on Tuesday afternoon. At tea that evening he was taken suddenly worse, and expired at midnight. Mr. Flavelle, who was a native of Cavan county, Ireland, has resided in Peterborough for about 26 years, and was well and favorably known. He was buried this afternoon in the Little Lake Cemetery.

A Christmas Tree.

A Christmas tree festival was held on Wednesday evening in the George Street Methodist Sunday School room, for the infant class, of which Mrs. D. W. Dumble and Miss Grundy are the teachers. There were over one hundred children present. The tree was, as usual, beautifully illuminated and the school room was decorated. After singing by the children, short addresses were delivered by the pastor and others. The presents were distributed by the Rev. John Shaw and Mr. D. W. Dumble and Mr. A. Clegg, and each pupil received a present and a package of sweets, with which it is not necessary to say they were delighted.

Officers Elected.

The following officers were elected at a regular meeting, on Tuesday evening, of the Peterborough Lodge No. 135, Ancient Order United Workmen, for the ensuing year:—

Bro J R Stratton	M W
Bro Jos McClelland	P M W
Bro J Irwin	Foreman
Bro A Clegg	Overseer
Bro T G Gillespie	Recorder
Bro W McLean	Financier
Bro Geo Hutchinson	Receiver
Bro John Armour	Guide
Bro W M Robinson	I W
Bro J Gillespie	O W
Bro Dr King	Medical Ex

Bro. McClelland, P. M. W., was elected representative to the Grand Lodge.

Organ Recital.

The Organ Recital given by Mr. Chas. Ewing, assisted by his choir, in St. John's Church on Wednesday evening, was well attended. The music was of a high character—especially on the organ—being composed of an Offertoire in G, Offertoire in C minor, Christmas Offertoire—"Traumerei," "My Heart ever Faithful"—Andante from Smphony in D, Romance in F (for Violin) "Pilgrim's Song of Hope," and the "Priest's March," all of which were rendered in a manner that fully sustained the reputation previously gained by Mr. Ewing as a finished organist and musician. The choir, who are improving every practice, did themselves justice in the rendition of "The First Nowell," "Hark what Sounds," "See Amid the Winter Snow," "Nazareth," and "Bethlehem." Here it might be mentioned that the rendering of "Nazareth," which is a very difficult piece of music, was first-class, the male voices giving the piece a splendid effect. We are rejoiced to see such a corps of vocalists in this church, and have no doubt, under the tuition of Mr. Ewing, they will continue to improve in the future as they have since his arrival here, and, as previously intimated, will ere long be the finest choir in this section of the country. Mr. Pousette, who was mainly instrumental in getting up this musicial treat for the public, deserves the sincere thanks of those who were present, and especially the parishioners of St. John's Church—as, we understand, the proceeds are to be devoted to church purposes. We hope the recital will be repeated.

The Skating Rink.

We are requested to state that the skating rink will be closed on Friday afternoon on account of the carnival.

Dessert Knives and Forks.

A beautiful set of Dessert Knives and Forks with carved ivory handles, and engraved electro-plated blades of the best Sheffield manufacture, at R. W. Muncaster's.

At Smith's Market.

Oysters in bulk and tins; Apple Butter, Minced Meats, very superior, manufactured by Clark & Hennis; Red Curran Jam in pails, 2½ lbs. each; Grapes, Oranges, Lemons, Pears, Apples, Cranberries, Sardines; canned Peaches, Pears, Strawberries, Raspberries, Pine Apple, Cherries, Green Peas, Green Corn, Tomatoes, Lobster, Salmon, &c. Pickles in bulk and bottle; Horse-radish and all kinds of Sauces, Sea Salmon and other kinds of fresh Fish; Venison, Partridges, Turkies, Geese, Chickens and a superior lot of small Fresh Hams. Orders received by telephone from 8 a.m. until 9 p.m. Parties likely to be interested in any of the above specialities will take due notice and govern themselves accordingly.

Sound Reason.

We are getting in large shipments of oysters in bulk and cans, direct from the packers in Baltimore, and as we buy in large quantities, we can positively sell cheaper than has ever been done in our line in Peterborough before, which the following very low figures will show: Bulk oysters, 25 cents per quart; can oysters from 25 cts. to 40 cts. Large fine flavored Valencia Oranges, 25 to 30 cts. per dozen; Lemons 20 to 25 cts. per dozen; Malaga Grapes 25 cts. per pound. Dates, Figs in boxes and mats, Nuts and Candies, all on hand for the holidays. To persons buying in large quantities from us a fair reduction will be made. We are getting up some very handsome cakes for the holiday trade, beautifully iced and ornamented, and of the most artistic designs. Genoa cake, Butter Pistachen cake, Chocolate cake, Raisen cake, Jelly cake, Coccanut cake, White Rosebud cake, Lafayette's cake, Maderia cake and Fruit cake, and an immense variety of small cakes always on hand. We bake every day, and can guarantee fresh goods. All orders for wedding and other cakes promptly attended to. Any person having any home-made cakes to ice will kindly oblige by sending in their orders at once, as we are now very busy. All orders filled in rotation. Don't forget the place: South Store, opposite the market square; north store, nearly opposite the express office.

CARTON BROS.

Death of the Rev. H. C. Avant.

On Wednesday, Dec. the 27th, the funeral of the late Rev. H. C. Avant, the much esteemed incumbent of Bobcaygeon, took place, and was attended by almost all his sorrowing parisheners and a large concourse of personal friends. Mr. Avant's death came upon the whole community with terrible surprise. He passed away peacefully, after a few day's illness, on Sunday evening last, that day being the anniversary of his ordination. The disease to which he succumbed was typhoid fever, induced, no doubt, by a debilitated system, brought on by severe labor and exposure. Mr. Avant's untiring energy brought the mission of Bobcaygeon from a state of chaos and disruption to prosperity and success—three churches having been consecrated during his brief incumbency, and much spiritual good having been accomplished through his agency. He was a man greatly beloved, and this was testified on Wednesday by the numerous expressions of regret heard on all sides at his untimely end by the large attendance of his flock from all parts of the mission, and by the mournful and sorrowful faces which filled the church to overflowing. Rarely have such unmistakable proofs of attatchment been given. From an early hour sleighs drove into Bobcaygeon filled with Mr. Avant's friends, and long before the hour of service the church was filled by those who were determined to pay the last tribute of respect to his memory. The body was laid out in the parsonage, and thither many who had listened to his wise words of counsel during life, and who had derived spiritual profit and help from their intercourse with him, entered to view for the last time, until the resurrection morn, the face of their loved pastor and steadfast friend. At one o'clock the corpse was conveyed to the church, the pall-bearers being Rev. W. Logan, Fenelon, Rev. W.C. Bradshaw, Ashburnham, Rev. W. Jones, Lindsay, Rev. J. W. Foster, Millbrook, and Messrs. Thurston and Watts, Bobcaygeon. The funeral service in the church was read by Rural Dean Beck, the portion at the grave being taken by Rev. W. Logan. The choir sang Hymn 399, "When our Heads are Bowed with Woe," the organist being Mr. Herbert Symonds, the late pastor's lay-reader and active helper in every good work. It is needless to say that Mr. Boyd's family did all in their power for Mr. Avant's comfort and welfare in life, and especially during his recent illness, and that to Mr. M. Boyd is due the excellent arrangements made for the funeral, his care and intelligence in carrying out the details being most praiseworthy. In such a mission, and especially to succeed one who accomplished so much in four short years and who retained to the last the respect and esteem of those who differed from him in religious matters, it will be no easy problem to find a suitable incumbent. But we hope the good people of Bobcaygeon will take earnestly to heart the faithful lessons taught them by their late pastor, and follow his self-denying love for Christ and his church, and then the task will be easier.

ROOF CRUSHED IN.—Owing to the large accumulation of snow on the roof of the sheds belonging to Robert Donoghue's Temperance House, followed with rain and soft weather, they succumbed to the weight, falling on the whole length on Thursday last.

Perpetual Motion.

The editor of the Milton *News* has had an inspection of the perpetual motion machine invented by Mr. B. J. Foster, of Glenwilliams, and is highly delighted with it. He says:—"We are at liberty for the present to only state that we are thoroughly convinced now that Mr. Foster is on the right track, and that he has made the most valuable scientific discovery of the century, if indeed he has not actually solved that great problem which has baffled so many skillful followers of science and philosophy. We are prepared to stake our reputation upon the statement that he has the key of the whole mystery which, as usual, proves to be so simple that the only wonder is that it has not been thought of before. Under all conditions of climate and atmosphere the machine will undoubtedly perform its functions, and not being dependent upon any material force to give it motion, must continue to run as long as the world lasts."

Oh What A Cough!

Will you heed the warning. The signal perhaps of the sure approach of that more terrible disease Consumption. Ask yourselves if you can afford for the sake of saving 50 cts., to run the risk and do nothing for it. We know from experience that Shiloh's Cure will Cure your Cough. It never fails. This explains why more than a Million Bottles were sold the past year. It relieves Croup, and Whooping Cough, at once. Mothers do not be without it. For sale by J D. Tully.

WE have a speedy and positive Cure, for Catarrh, Diphtheria, Canker mouth and Head Ache, in Shiloh's Catarrh Remedy. A nasal Injector free with each bottle. Use it if you desire health and sweet breath. For sale by J. D. Tully.

PECTORIA! Pectoria! Pectoria! The great and true remedy for Coughs, Colds, Bronchitis, Catarrh, and Consumption. Have you tried "Pectoria?" It is sold in 25 cent bottles. It never fails. If you cannot procure it from your dealer enclose $1.00 to Smith & McGlashan, Toronto, and we will send you free by express 5 bottles. It may save your life.

Why The People Come Back to 'Us!

Is our trade in CLOTHING of that Character that serving—say a young man—once we never see him again? Not probable. Nor is it likely to take that character.

When a young man needs CLOTHING he wants something like a stock, a department, to select from. Don't you get that with us? He wants his Clothes well put together and run no risk of unnecessary ventilation, either; or at least have it come upon him unexpectedly. He don't care for seams like whip-cords in his pants legs, or his coat collar showing inches of room behind his neck. This touching Clothing. Another word here, we'd say. Don't jump to the conclusion that we don't keep certain goods because you don't see them mentioned in our advertisements. If you do you'll make a mistake. It's impossible, where we have so varied a stock of goods, to make mention of them all. We even may fail to mention some at all. So don't limit your ideas of our stock to our advertisements. As for what we say in them much more remains unsaid. There's nothing new, desirable or fashionable we haven't got. TRY US.

THE
PACIFIC NORTHWEST!
Oregon, Washington, and Idaho.

Offers the best field for emigrants—viz.: a mild, equable, and healthy climate; cheap lands of great fertility, producing all varieties of Grain, Fruit, and Grasses in wonderful abundance; an inexhaustible supply of Timber; vast Coal Fields, and other mineral deposits; cheap and quick transportation by railroads and river navigation; direct commerce with all parts of the world, owing to its proximity to the Pacific Ocean.

NO DROUTHS, NO INSECT PESTS, NO HURRICANES, WHIRLWINDS, OR OTHER DESTRUCTIVE PHENOMENA.

The lands of the Pacific Northwest show an average yield of wheat per acre largely in excess of that of any other section of the United States.

No failure of crops has ever occurred.

Oregon wheat commands a higher price than that of any other country in the Liverpool market.

An immense area of very fertile Railroad and Government Lands, within easy reach of the trunk lines of the Northern Pacific R.R., the Oregon Railway & Navigation, and the Oregon & California RR. Co's and their numerous branches in the great Valleys of the Columbia and its tributaries, are now offered for sale at Low Prices, and on Easy Terms, or open to pre-emption and Homestead Entry.

The great movement of population to the Columbia region now in progress will be enormously increased by the completion of the Northern Pacific RR. and the Oregon Railway and Navigation Co's systems. This renders certain a rapid increase in the value of Lands now open to purchase or to entry under the United States Land Laws.

I CURE FITS!

When I say cure I do not mean merely to stop them for a time and then have them return again, I mean a radical cure. I have made the disease of FITS, EPILEPSY or FALLING SICKNESS a life-long study. I warrant my remedy to cure the worst cases. Because others have failed is no reason for not now receiving a cure. Send at once for a treatise and a Free Bottle of my infallible remedy. Give Express and Post Office. It costs you nothing for a trial, and I will cure you.
Address Dr. H. G. ROOT, 183 Pearl St., New York.

MASON & HAMLIN ORGANS are certainly best, having been so decreed at every Great World's Industrial Competition for Sixteen Years; no other American organs having been found equal at any. Also cheapest. Style 109; 3½ octaves; sufficient compass and power, with best quality, for popular sacred and secular music in schools or families, at only $22. One hundred other styles at $30, $57, $66, $72, $78, $93, $108, $114, to $500 and up. The larger styles are wholly unrivaled by any other organs. Also for easy payments. New Illustrated Catalogue free.

CONSUMPTION.

I have a positive remedy for the above disease; by its use thousands of cases of the worst kind and of long standing have been cured. Indeed, so strong is my faith in its efficacy, that I will send TWO BOTTLES FREE, together with a VALUABLE TREATISE on this disease, to any sufferer. Give Express and P. O. address.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculae which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widely increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.
DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)
THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEADACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.
In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.
Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine. Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

Daily Evening Review

FRIDAY, DECEMBER 29, 1882.

THE NORTH-WEST.

To the Editor of the Review.

SIR,—I was just thinking the other day that your Manitoba news was getting pretty scarce, and that the Ontario people would soon begin to think that the Manitoba hum was at an end. Now, I want it to be understood that this is not the case, as things are carried on in a more quite manner than they were one year past. Regina seems to be the whole cry this season, and no doubt there will be a great rush for that point as soon as the emigration of '83 arrives. Already have the contracts been let for the erection of buildings next season, which amount to $3,600,000. And not only Regina, but every town along the line of railway is springing up as if the whole were running in opposition, to see which would take the lead, Carberry not being far in the rear. Just look at Brandon for a year old, and then take another lingering look at your Ontario villages, and tell us your opinion of our Northwest. Then again, when they can find nothing else to talk about, you will hear a report of some one being frozen, or else a terrible blizzard with a narrow escape of life.

Now, in regard to the weather I think no person could complain. We have just snow enough to make good sleighing, and the frost is not at all in extremes. Some days are very pleasant, and you would have no need for an overcoat. Fur coats are the style here, and some people that are able to afford them pretty well will say that they cannot be done without, but there are others who can do without them, and not grumble because they cannot better themselves. And for my part I cannot really see much difference between the climate of Manitoba and that of Ontario. Again most of those who come here give a pretty good account of the country on their return, and as a general rule are not satisfied until they have had a second trip to the west. There are quite a number of the citizens gone east to spend their Christmas and New Year, and just as many more that are quite satisfied to stay in this city and share its amusements on that special day. I think that we will be able to boast of the luxuries and enjoyments which are being prepared for that occasion. The city seems to be pretty well stocked with turkeys and geese, which show no sign of want in that style of vegetables. There are quite a number of Peterborough boys putting up at 16 King street, and most of them appear to be doing pretty well, and all think the country splendid. But I have my opinion of any person who will come from Mount Pleasant and set up to cut wood or carry the hod. Of course, I only mention this to let them know that they are not expected to work at anything so tedious, (but there are some splendid chances for night watchmen.)

I suppose our friend James Smith, who bid us adieu on the evening of the 20th at 7.30, will have the pleasure of taking his Christmas dinner with his friends at 18 Marie street, Mount Pleasant, and I am sure he will not forget but give a good time on the organ and violin on his arrival, as he has the best wishes of those friends which he left to make their fortune in the far off west.

JAMES McCAUL,
Cavan Boy.

News From Toronto.

We find the following telegram in the Toronto *Globe* of to-day:—

"PETERBOROUGH, Dec. 28—(*Special*).—At a largely attended and representative annual meeting of the Reformers of West Peterborough held at the Caisse House Hall yesterday, the following officers were elected:—President, T. G. Hazlitt; First Vice-President, James Henry; Second Vice-President, T. E. Fitzgerald, Deputy Reeve of Smith; Secretary, J. R. Stratton; Treasurer, Adam Hall; Executive Committee—Messrs. John Bertram, G. Edmison, B. Morrow, J. W. Fitzgerald and Walter Paterson, jr. The meeting was large and enthusiastic, and was animated with a spirit of hard work that will give a good account of the riding before the fifth Legislature is chosen. Active steps are being taken for the thorough organization of the riding for the coming campaign. The Reformers of the East Riding have called a Convention for the 5th of January, to choose a standard-bearer, and the united exertions of both ridings are being used to secure the return of a supporter, in each, of the Mowat Administration."

Don't forget the Fancy Dress Skating Carnival to be held in the Rink on Friday evening, December 29th. $50 worth of Prizes offered for the best costume.

AFTERNOON TELEGRAMS

From Despatches to the Review.

CABLE.

THE ANARCHISTS.

PARIS, Dec. 29.—A considerable quantity of dynamite has left Switzerland for France. Several fresh arrests have been made of supposed dynamite conspirators in the districts of Rhone.

GAMBETTA'S CONDITION.

PARIS, Dec. 29.—Gambetta's condition is unchanged. His surgeons think an operation is not an immediate necessity. It is hoped by creating an eruption to draw the inflammation to the surface, and thus free the internal parts.

FATAL EXPLOSION.

BRUSSELS, Dec. 29.—A boiler in a factory at Dison exploded yesterday, while the building was full. A number of working people were killed. Three bodies have been extricated from the ruins.

SUGAR REFINERY BURNED.

LONDON, Dec. 29.—A sugar refining at Greenock was burned. Damage $25,000.

ASSISTANCE WANTED.

LONDON, Dec. 29.—The executioner has applied for assistance at the execution of the murderers of two Huddys, owing to the bungling at the hanging of the murderers of Joyce.

ZULULAND.

LONDON, Dec. 29.—It is understood that it is intended to divide Zululand into two parts, reserving the portion situated on the Tugela river for John Dunn, and another chief, where the natives are averse to let Cetewayo's rule, will be expected to go in neither division of the country, and the Europeans to be allowed to hold farms. There will be British residents in each territory.

AMERICAN.

ARRANGING HIS AFFAIRS.

ALBANY, Dec. 29.—Governor Cornell yesterday was at work in the executive chamber closing up the affairs of the office, which he is soon to vacate.

FORGERY.

CHICAGO, Dec. 29.—John Perry, book-keeper for Beveridge and Dewey, bankers, has been arrested and held at $5,000 bail on a charge of forgery, in collusion with a bartender in a large saloon. The bartender has not yet been arrested. The senior member of the firm is an ex-Governor of Illinois.

ABSCONDED.

CHICAGO, Dec. 29.—It is stated that C. M. [illegible], manager of the freight and transportation department of the Brandy Manufacturing Company, has absconded. A partial examination of the books show a small embezzlement with the probability of amounting to a thousand dollars in the way of rebates for overcharges by railways.

THE GERMAN SOCIALIST.

CHICAGO, Dec. 29.—Most, the Socialist, in a speech last night, said that when the people got the upper hand they must not be stopped killing, they should keep on. The people here must kill, they must open banks and stores and help themselves to whatever they want. The bankers and capitalists must be set to work on the streets. His remarks were received with most uproarious applause.

THE MAIL SERVICE.

WASHINGTON, Dec. 29.—It is said that of eight billion dollars paid for carrying United States mails since 1870, $5,500,000 has been paid to English steamship companies and two million to American companies.

VANDERBILT HUNTING.

SYRACUSE, N. Y., Dec. 29.—It is reported that Vanderbilt has gone into the north woods with a hunting party.

A FATAL BRAWL.

LLOYDS, Fla., Dec. 29.—In an altercation Richard Kilpatrick shot and killed Wm. Lang. Kilpatrick was stabbed and will probably die.

COINING SILVER DOLLARS.

NEW ORLEANS, Dec. 29.—The mint stopped work yesterday, having coined in December 725,000 silver dollars at less expense than any mint at any time since the war. The work will be resumed on New Year's day. The mint has been unable to stamp the dollars as fast as has been required, and is is the only mint in the country where such is the case.

MURDER OVER A TOY.

AVILENA, Kansas, Dec. 29.—A jumping jack was placed on a Christmas tree here on Monday evening for a young lady. Her friends took it as an insult, and bloodshed then and there was prevented with difficulty. It was claimed that Arthur Shadinger put the toy on the tree on Wednesday evening. Her three brothers, her brother-in-law, James Johnston, and her lover, Thomas Cooper, went to a prayer meeting where they knew Shadinger would be. After the services they assaulted him, driving him back in the school house. Shadinger's friends came to the rescue, one being armed with a revolver. Cooper fired three shots at Shadinger, mortally wounding him. As he fell Shadinger shot one of the Foremans. The battle went on, the ladies screaming and endeavoring to stop the bloodshed. Nearly all the participants were wounded, some seriously. Three were arrested, and the others have taken to the woods.

SAVAGE ATTORNEYS.

ST. LOUIS, Dec. 29.—Many sensational scenes have occurred during the taking of the deposition in the suit for $5,000 brought by Col. Slayback's widow against Cockerell. One of Cockerell's Attorneys, Joy, has been for years a partner of the prosecuting Attorney, Harris. Yesterday Bowman, Attorney for Mrs. Slayback, made a remark about Harris which Joy resented, whereupon Bowman denounced him as a liar and a coward. There is a general impression that the lawyers in the case go armed.

A LIBEL SUIT.

SCRANTON, Pa., Dec. 29.—A sensational libel suit, in which Lillie Sycos is complainant and Leslie White the defendant, was begun here yesterday. It is charged that White defamed the defendant in a letter to the mother of Miss Sycos's lover. White admits he wrote the letter, but he says can prove the assertion. The woman has been White's house keeper. White was committed to gaol to await the action of the Grand Jury.

THE EUROPEAN FLOODS.

WORMS, Dec. 29.—The dyke on the Rhine burst last evening, flooding the lower part of the town. Railway travel from Frankfort-on-Main to Wiesbaden is interrupted, owing to the Cassel depot.

Your vote and influence is respectfully solicited for R. S. DAVIDSON as Councillor for No. 1 Ward.

MIDNIGHT TELEGRAMS

CABLE.

THE "UNITED IRELAND."

DUBLIN, Dec. 28.—*United Ireland* was issued to-day for the first time since its seizure. It has a cartoon depicting the Lord-Lieutenant and the Crown officers drinking long life to the Inquisition. It enquires whether it is to stimulate outrage that the Government exasperates the people by prosecuting everybody the people trust.

THE FLOODS.

BERLIN, Dec. 28.—The Rhine and its tributaries from Lake Constance to Cologne continue to rise rapidly, and many bridges and dams have been destroyed. A bridge near Lorrach, Baden, gave way, and twenty persons were drowned. The river Inn has overflowed its banks at Passau, and the Danube has overflowed in the Upper Austria.

ORDER FOR ARTILLERY.

ST. PETERSBURG, Dec. 28.—The Chief of Ordnance has ordered of Herr von Krupp, of Essen, all the guns required by the artillery reserves. The German Government has raised no objection to the order.

MR. GLADSTONE ILL.

LONDON, Dec. 28.—Mr. Gladstone has a slight attack of lumbago, owing to a chill consequent upon exposure while felling a tree on Tuesday. He was much improved this evening.

THE PRESS IN RUSSIA.

ST. PETERSBURG, Dec. 28.—The objectionable utterances of the leading newspapers have renewed a strict press censorship. The *Moscow Courier* has been suspended for three months, the street sale of the Moscow *Telegraph* has been forbidden, and the *Golos* has received a second warning.

AMERICAN.

THE FACTORY HORROR.

BRADFORD, Dec. 28.—One hundred and twenty-two operatives were removed from the factory crushed by the falling chimney, of whom 54 were dead and 40 seriously wounded. Owing to the amount of debris the exact number of killed cannot be learned for several days. The damage is estimated at over $80,000. Three thousand persons are thrown out of employment, eight mills having free connections with the demolished chimney being brought to a standstill.

Sleep.

"Blessings" exclaimed Sancho, "on him that first invented sleep. It wraps a man all round like a cloak." It is a delicious moment certainly—that of being well nestled in bed, and feeling that you shall drop gently to sleep. The good is to come, not past; the limbs have been just tired enough to render the remaining in one position delightful; the labor of the day is done. A gentle failure of the perceptions comes creeping over one—the spirit of consciousness disengages itself more and more, with slow and hushing degrees, like a mother detaching her hand from that of her sleeping child; the mind seems to have a balmy lid closing over it like the eye; 'tis closing—'tis more The mysterious spirit has gone to make its airy rounds.—*Leigh Hunt.*

The Heads of Great Men.

It is usually supposed that men of great intellectual powers have large and massive heads, but according to a writer in the new number of the *Journal of Science*, the theory which Dr. Gilbert, physician to Queen Elizabeth, was the first to suggest, is not borne out by facts. An examination of busts, pictures, medallions, *intaglois*, &c., of the world's famous celebrities almost tends the other way. In the earlier paintings, it is true, men are distinguished by their large heads, but this is attributable to the painters, who agreed with the general opinion and wished to flatter their sitters. A receding forehead is mostly condemned. Nevertheless this feature is found in Alexander the Great, and, to a lesser degree, in Julius Cæsar. The head of Frederick the Great, as will be seen from one of the portraits in Carlyle's work, receded dreadfully. Other great men have had positively small heads. Lord Byron's was "remarkably small," as were those of Lord Bacon and Cosmo di Medici. Men of genius of ancient times have only what may be called an ordinary or everyday forehead, and Herodotus, Alcibiades, Plato, Aristotle and Epicurus, among many others, are mentioned as instances. Some are even low-browed, as Burton, the author of "The Anatomy of Melancholy," Sir Thomas Browne and Albert Durer. The average forehead of the Greek sculptures in the Parthenon is, we are told, "lower, if anything, than what is seen in modern foreheads." The gods themselves are represented with "ordinary if not low brows." Thus it appears that the popular notion on the matter is erroneous, and that there may be great men without big heads—in other words a Geneva watch is capable of keeping as good time as an eight-day clock.

Gaining a World Wide Reputation.

About 150,000 bottles of medicine and 3000 Spirometers, the invention of M. Souvielle of Paris and ex-aide surgeon of the French army, have been used by physicians and patients during the last year for the cure of catarrh, catarrhal deafness, bronchitis, asthma, consumption in its first stages and many diseases of the head, throat and lungs. Consultations with any o the surgeons belonging to the Institute free Poor people showing certificates can have spirometers free. Write enclosing stamp for pamphlet giving full information to either of the Canadian offices where competent English and French specialists are always in charge. Address International Throat and Lung Institute, 13 Philips square, Montreal, P. Q., or 173 Church street, Toronto, Ont.

THERE are many foolish things done in this world, and one of the most foolish (and we may add wicked) things is to neglect a Cold. Now we know that Coughs, Colds, Bronchitis, Catarrh, and all Chest, Throat and Lung Troubles if neglected, are sure to end in Consumption and Death. They may be easily cured by using as directed Dr. Carson's Pulmonary Cough Drops, there is no remedy equal to it. It never fails. Sold everywhere in large bottles at 50 cents.

A PLEASANT and Effectual Cough Remedy. If you will go to your nearest druggist and ask for a 25 cent bottle of Hagyard's Pectoral Balsam, you will possess the best known cure for Coughs, Bronchitis, Asthma, Hoarseness and all throat and lung troubles that terminate in Consumption.

CHARLES T. CASSELMAN, Druggist of Chesterville, writes to the Proprietors of that Soverign Tonic, Burdock Blood Bitters. "Your Burdock Blood Bitters, give universal satisfaction. All your medicines sell well, and many of my customers will take no other."

ONE OF OUR BEST CITIZENS would say to the public that he has tried Hall's Catarrh Cure, and that it is all that is claimed for it. Price 75 cents per bottle. For sale by John McKee, druggist.

A Happy New Year!

A HAPPY NEW YEAR!

One Good Turn Deserves Another.

In return for the liberal custom with which a discriminating public has favored us during the year that is gone, we take pleasure in wishing all a HAPPY AND PROSPEROUS NEW YEAR, and think we are not going beyond our capabilities when we promise that in the future, as in the past, we shall be as faithful to your interests as one can be to our own.

EDITORIAL NOTES.

THE Belleville *Ontario* and the Kingston *Whig*, the latter apparently copying from the former, credit the Peterborough REVIEW with an article recommending Mr. Dryden, M. P. P., as the successor of the Hon. S. C. Wood. This is a mistake, as the passage quoted did not appear in our paper, but in some other, possibly the *North Hastings Review*. While agreeing with the writer that it is not advisable, if it can be avoided, that all the members of the ministry (with one exception) should represent seats west of Toronto, we would not take upon ourselves to advise Mr. Mowat as to the choice of a colleague. Besides this we have an idea that after the general election the power of appointment may not rest in Mr. Mowat's hands.

⁂

IT is announced that the Hon. David Mills has assumed the editorial control of the London *Advertiser*, Mr. William Cameron retaining the business management.

THE REGISTRAR REMOVED.

This long pending question has at length been settled by the removal of the registrar. It is not necessary to review the evidence which led to this result. It has evidently been brought about by what was deemed by the Mowat government, political necessity. It is twelve months past last June since the commission was appointed to make the investigation; the evidence was taken that year and the commissioner reported in the first month of the present year. Strange to say, that though the report of the commissioner, on which the removal is said to have been made, was in the possession of the government for nearly a year, no action was taken. This either shows want of attention on the part of the government to its duties, or the charges against the registrar were regarded of very small importance. They could not well be regarded in any other light. The books in the office show all the business transacted in it, nothing was concealed, everything was open as day, and the office was reported by the Inspector of Registries as one of the best kept in Ontario. The disputes between the registrar and the county council were matters of opinion and could at any time have been settled by the courts. The public will not have much difficulty in assigning the removal to its true cause, and it does seem as if the government had some reluctance in adopting the course to which it had been forced by its supporters in this county.

To Mr. McLay his removal is a matter of no moment, and his business engagements require the benefit of his energy and attention elsewhere. It is well known that he has been preparing for the severance of his connection with the registry office for some time past, and could have avoided the only disagreeable thing connected with it, had he chosen to do so. Mr. Mowat gave him the opportunity of resigning, but this he manfully refused to do, as he felt conscious he had done nothing requiring such action on his part. He allowed the government to do that and assume all the responsibility connected therewith. Those who have been the active and persistent opponents of Mr. McLay will probably live to see that nothing has been gained by the change, and if through them the government yielded to party pressure it did a very mean and unworthy act.—*Bruce Herald.*

TRADING LICENSE OFFICIALS.

The independent Toronto *Telegram* says:—

"It would be a great deal better if the Ontario Government, in selecting its license commissioners, would select men who are not in commercial life, at any rate those who do not sell material required by the saloon keepers. We have no reason to believe that any definite charge could be established against one of the Toronto commissioners—as a matter of fact the testimony of the witnesses is all on the other side—but it is unfair to the commissioner himself that he should be placed in such an anomalous position. You cannot help people who are desirous of securing renewals of their licenses from arguing that it would be to their interest to deal with a commissioner who had something to sell. The weak point of the Ontario Government's dealings with the Crooks Act is the partizan character of the appointments. This is bad enough, without the commissioners being subjected to suspicion besides. The position is purely honorary, and we judge that not one of the commissioners for this city really cares a fig whether he is continued in his position or not. There is a good deal of work, very little thanks, and no stint of abuse.

Curious Phenomenon at Sea.

The barque Gemsbok, from Auckland, recently arrived in New York, reports that on October 9th during a snow squall a ball of fire passed over the ship, injuring Olzen, the mate, in the wrists, Blumberg, at the wheel, in both legs, and Makella in the head, breaking both gunwales and ripping the planks. It exploded 20 yards from the ship with a loud report and sparks flying. There was no lightning or thunder at the time.

LAKEFIELD.

From Our Own Correspondent.

MUNICIPAL NOMINATION.

The nomination of candidates for the offices of Reeve and Councillors for the village of Lakefield for the ensuing year took place in the Council Room on Friday last. At 12 o'clock noon the village Clerk opened the meeting and said that in pursuance of notice he was then ready to receive nominations for Reeve and Councillors. It was moved by Mr. John Ichister seconded by Mr Isaac Watson that Mr. R. C. STRICKLAND be nominated as Reeve.

On motion of Mr. R. A. Strickland seconded by Mr. John Ichister, Mr. WM. COX Sr., was nominated as Councillor.

It was moved by Mr. John Ichister seconded by Mr. John Dinwoodie, that Mr. JOHN H. MCWILLIAMS be nominated as Councillor.

Mr. John Todd moved, seconded by Mr. F. Dinwoodie that Mr. URQUHART be a candidate as Councillor.

Mr. THOMAS JOS. NELSON was proposed by Mr. Isaac Watson, seconded by Mr. R. A. Strickland, as a Councillor.

Moved by Mr. G. A. Strickland seconded by Dr. Caldwell, that Mr. W. J. WALLACE be nominated as Councillor.

It was moved by Mr. J. P. Strickland, seconded by Mr. Garbutt that Mr. RICHARD HILL be nominated as Councillor.

A poll was demanded on behalf of each candidate proposed.

At one o'clock the village Clerk declared the nomination over and the proceedings adjourned until Monday next, the 1st of January, 1883, at 9 o'clock, when a poll is to be opened to complete the election.

It was moved and seconded and carried, that Mr. Sandon, the village Clerk, take the chair, which he did and immediately called up on Mr. R. C. Strickland, the Reeve elect, who addressed the meeting upon the financing of the village and municipal matters generally, making a short and eloquent speech.

The CHAIRMAN stated that Mr. Hall was unavoidably absent, and that he had requested him to say that he (Mr. Hall) positively declined to be a candidate for municipal honors, and that he was very grateful to the electors of the village for the support and confidence placed in him in the past, and that he wished all the compliments of the season.

All the candidates as Councillors, except Messrs. McWilliams and Hill, who were absent, made short speeches in the order in which they were proposed, after which the meeting closed with three rousing cheers for the Queen and the Reeve. The meeting was very quiet and orderly, and passed off very nicely.

SCHOOL NOMINATIONS.

A meeting of ratepayers of Lakefield School Section was held in the Council Room on Wednesday last, the 27th inst., for the purpose of nominating candidates for the offices of members of the Lakefield School Board for the ensuing term of three years.

Mr. W. H. Casement, acting as returning officer, opened the meeting at 12 o'clock.

Mr. W. C. Sanders moved, seconded by Mr. Lawrence Steele—That Dr. ARMOUR be nominated as a candidate in place of Mr. Cox, who had declined re-election as a member of the School Board.

Mr. Geo. Cochrane moved, seconded by Mr. Caldwell,—That Messrs. JOHN IMBSTER and THOMAS GORDON JR. be candidates as members of the School Board.

There are two offices vacant and three candidates for the position, so there will likely be a poll. The attendance was very small and little interest was taken in the matter.

ENTERTAINMENT.

The Bible Christian Sabbath School Christmas tree, held in P. C. A. Hall on Christmas day evening, was a great success, the hall being crowded. The amount taken at the door was over $45.

INSTALLATION OF OFFICERS.

The following officers were installed at the Communication of Clementi Lodge of A. F. & A. M., held in Masonic Hall on Wednesday evening, the 27th inst.;—

A TIMELY CHECK.

A teacher teaching in a school section not many miles from Lakefield, during the year took a holiday or half holiday at different times during the year without asking the Trustees and in a kind of matter of course style. The Trustees kept an account of the lost time, and in paying the salary recently, deducted therefrom the amount to compensate for the lost time. It is said that the County School Inspector sided with the Trustees, and the deduction on account of lost time is said to stand, in this case, being perfectly legal. This should be a warning to other teachers in the county to desist from a practice which by all accounts is becoming far too prevalent, of turning out school a half day frequently on some slight pretext.

SCHOOL ELECTION.

The election of two members of the Lakefield School Board will take place on Wednesday next, the 3rd of January, 1883, in the Council Room. A poll will be opened at ten o'clock a. m.

TRUE BLUE MEETING.

The regular meeting of the Lakefield True Blue Lodge, No. 29, will be held in the Orange Lodge, Lakefield, on Tuesday evening next, at 8 o'clock.

CHRISTMAS TREE.

The Church of England Sunday School Christmas tree entertainment will take place on Saturday evening next, the 30th inst., in the P. C. A. Hall. We understand that the entertainment will consist of vocal and instrumental music and the distribution of Christmas gifts to the children of the Sunday School. Admission 10c.

ORANGE MEETING.

The regular monthly meeting of L. O. Lodge No. 122 will be held in the Orange Hall, Lakefield, on Monday evening next, the 1st of January, 1883, at 7:30 sharp.

MASONIC MEETING.

The regular Communication of Clementi Lodge of A. F. & A. M. will take place in the Masonic Hall, on Queen street, Lakefield, on Tuesday evening next at 7:30.

CATARRH is the seed of Consumption, and unless taken in time is a very dangerous disease. Hall's Catarrh Cure never fails to cure. Price 75 cents. For sale by John McKee, druggist.

Do not take pills or powders containing Calomel, at this time of the year, the result may be serious. If you require a dose of physic take Dr. Carson's Stomach and Constipation Bitters; it acts gently on the Bowels, purifies the Blood, improves the circulation, stimulates the Liver and Kidneys, and speedily cures Biliousness, Headache, Dyspepsia, Indigestion. Search the Drug Stores from one end of Canada to the other, and you cannot find a remedy equal to it. Try it and see it in your families. Sold everywhere in large bottles at 50 cents.

HASTINGS.

KICKED BY A HORSE.—The *Star* says that Mr. S. W. Smith, of the Albion, while leading his horse from the stable on Christmas evening, received a severe kick from the brute.

COLLECTIONS AND ENTERTAINMENTS.—The Christmas collection in the Catholic Church, Norwood, on Christmas Day amounted to $167, in Hastings the sum of $163.50 was collected. The Christmas entertainment in the Methodist and St. George's Church were as usual as pleasantly conducted as any of their predecessors, the financial part being quite satisfactory. The proceeds of the former was $60, and that of the latter $45.

Given Away.

We cannot help noticing the liberal offer made to all invalids and sufferers by Dr. King's New Discovery for Consumption. You are requested to call at Taylor & Macdonald's Drug Store, and get a Trial Bottle free of cost, if you are suffering with Consumption, Severe Cough, Colds, Asthma, Bronchitis, Hay fever, Loss of Voice, Hoarseness, or any affection of the Throat and Lungs. It will positively cure you. 6

Bucklen's Arnica Salve.

The best salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Taylor & Macdonald.

YOUNG and middle aged men suffering from nervous debility, premature old age, loss of memory, and kindred symptoms, should send three stamps for Part VII of pamphlets issued by World's Dispensary Medical Association, Buffalo, N. Y.

GEORGE KELCY of Dunchurch, Parry Sound, for the last six years suffered from Dyspepsia, and had tried Doctors and Patent Medicines, until out of patience with all treatment, but was induced by a friend to try Burdock Blood Bitters. Before finishing one bottle he was astonished at the result, and declares he never felt better in his life, and "I could name" (says he) "half a dozen others who have derived great benefit from the medicine."

A MARRIAGE OF PURE AFFECTION.

By Dutton Cook.

(CONTINUED.)

"That would be the proper course under the circumstances."

"I would not give him that power to spend my money. I'll keep that in my own hands always."

"Certainly."

"And of course it's very much against Charley that he is young, and, in point of fact, so poor."

"But—you haven't told me of this, because you don't like the idea of my being your daughter-in-law."

"My dear young lady, of what are you thinking? I should be delighted to call you daughter-in-law."

"Will you kiss me, Mr. Cumberbatch, as though I really were your daughter-in-law?"

"With the greatest pleasure."

He was about to touch her forehead gently and paternally with his lips, but as she seemed to raise her mouth towards him with an air of expecting to be kissed there, why, he kissed her there. Her eyes sparkled—they usually sparkled—otherwise she was quite cool and calm and collected. As for Mr. Cumberbatch he fairly blushed, the crimson of his cheeks being [illegible] by the [illegible] of his looks.

"You see," she said meditatively, "a woman in my situation really needs a husband to help and advise her and comfort her. I'm really very friendless, and I thought it would be very nice to have Charley always near me—he would have been some one to lean upon at any rate. You are not surprised at my wishing to marry him?"

"Not at all. I think it a very reasonable and natural sort of thing."

"Thank you so much. And you'll come and see me again, won't you dear Mr. Cumberbatch—you who were so nearly being my papa? You'll come again and come soon?"

"My dear Miss [illegible]—"

"Call me Madeline, please."

"My dear Madeline, I shall be delighted to come again."

"Thanks, papa dear. You may kiss me again if you like."

It so happened that he did like.

After that he was a frequent visitor in Harley street.

CHAPTER III.

Sir Hercules occupied apartments in Albemarle street. He was without family cares or responsibilities; for his wife had died very soon after the birth of his only son, Charles, and he had taken upon himself no [illegible]. He had altogether retired from active service—in his day he had been a distinguished officer of cavalry, playing a brilliant part in several notable engagements—and now he led the life of a retired veteran, with a taste for [illegible], dress club dinners, and gossip, and a harmless desire to look as young as he possibly could. He enjoyed himself in his own way. When his health permitted, he enjoyed a drive behind a trustworthy hack in the Row; but his legs were not what they had been, and he did not trust himself to walk much—he was content to journey to and from his club and his lodgings; and these journeys were not accomplished without effort.

He was no doubt a selfish old gentleman, and was greatly occupied with considering his own welfare and comfort. Still, his temper was good-natured, and he rather liked his grandson Charley Cumberbatch.

It was in the morning, and he was sitting wrapped in an Oriental-looking robe de chambre, sipping an early cup of tea—he breakfasted at his club, but engaged the stimulus and support of a cup of tea during the process of his toilet—when a visitor was announced—Mr. Charles Cumberbatch.

"What's brought you here, youngster?" inquired the old gentleman.

"Have you heard about the governor?" Charley asked [illegible].

"What's he [illegible]?"

"He talks of getting married again."

"The deuce, he does! But I don't see what business it is of mine, Charley. Of course I don't want any more grandchildren, but then I don't want any great-grandchildren either."

"Still, you're going to be married, and why shouldn't he?"

"Live and let live, you know Charley."

"That's just it. I call it an infernal shame! You really ought to interfere, sir. He won't let me get married. He refuses his consent. He won't make me any allowance, and he's going to marry the young lady I was engaged to."

"Well, that does seem hard. What! Miss Mashiter—Madeline—what's her name? Has she consented to become your step-mother instead of your wife?"

"She's thrown me over shamefully."

"Well, you know, Charley, when a woman throws you over, all you can do is to pick yourself up again and walk off in an opposite direction."

"This is what she writes to me," and Charley produced a letter in a large, bold hand, with a gilded monogram in the corner of the paper. He read aloud:—

"DEAR CHARLEY,—So sorry, but it would never do. You're a nice boy, and I'm very fond of you, but you're very young to think of marrying, and I'm afraid you can't afford it. So there's an end of it, and please don't say another word to me about it. You can send me back my letters. I've burned yours. I intend to keep the ring you gave me, as a little memento of you. And we'll always be dear friends, you know, Charley. What a charming man your papa is! I like him very much.

Yours,
MADELINE MASHITER.

FROM ALL OVER.

ABOUT 25 tons of Ontario butter are estimated to be consumed in Winnipeg every week.

MR. M. H. GAULT, M.P. for Montreal West, is dangerously ill, and fears for his life are entertained.

NINE persons were killed by the collision of two express trains at Aix la Chapelle, Germany, on Tuesday.

A PARTY of seven Indians, hunting in the neighborhood of Coldwater, in a five days' trip brought down 9 deer.

EPILEPSY (Fits) successfully treated. Pamphlet of particulars two stamps. Address World's Dispensary Medical Association, Buffalo, N.Y.

IN consequence of the development of the mining industry in the Lake of the Woods district a Mining Bourse has been established at Winnipeg.

NEW postal arrangements go into effect on the 1st of January, whereby the service at post-offices on the Canada Atlantic Railway will be much improved.

DISEASES OF WOMEN.—Large treatise for three stamps, giving means of successful self treatment. Address World's Dispensary Medical Association, Buffalo, N.Y.

IN a collision between a freight and a construction train on the G.T.R. at Lansdowne on Wednesday morning, J. Brow, a section man, was killed and several others injured.

A CHINESE pedlar and his wife, residing in Victoria, B.C., sat down one night, alongside a coke fire to smoke opium. The coke gas opium smoke overcame them, and both were found in the morning dead.

PRECAUTIONARY.—There have been many precautions against fire published but let a person become accidentally burned or scalded, and few people know what to do in absence of a doctor. The very best remedy known is Hagyard's Yellow Oil, the great Household Panacea for all painful inflammatory diseases.

THE funeral of the late Sir Hugh Allan at Montreal, on Wednesday, was attended by a large gathering of relatives and friends of the deceased gentleman. Flags in the city were at half-mast and many places of business and public institutions were draped in mourning. The floral tributes were magnificent and costly.

MRS. MCARTHUR, of Hopeville, says regarding Hagyard's Pectoral Balsam, that she would not keep house without it. She can not speak too highly of its merits as a remedy for Colds, Coughs, Bronchitis, Asthma, weak lungs and all pulmonary troubles. A cold may be cured by it in one day.

AN IMPORTANT OFFICE.—One of the most important functions of the animal Economy is the secretive action of the Kidneys. If they are obstructed in their work great suffering and dangerous disease ensues, such as Dropsy, Diabetes, Bright's Disease and many other painful affections. Do not suffer from Lame Back and inactive Kidneys, when Burdock Blood Bitters act so promptly upon the Kidneys, Liver, Bowels and all the secretions, and speedily restores health to the afflicted.

DO YOUR CHILDREN have fits or convulsions, grind their teeth, pick their nose, have a bad breath, or a changeable appetite? Are they restless or feverish at night? If so, ask your druggist for Dr. Smith's German Worm Remedy (take no other), it only costs 25 cents. It is simple, safe, and pleasant to take. If there are no worms, it removes the slime and bile that breeds them, tones up the system, and will save many a doctor's bill. A word to the wise, etc. [illegible]

"TWENTY-FOUR YEARS' EXPERIENCE," says an eminent physician, convinces me that the only cure for "Nervous Exhaustion" and Weakness of the generative organs is to repair the waste by giving Brain and Nerve Foods, and of all the remedies I have used Mack's Magnetic Medicine is the best. This remedy is now sold by all our Druggists at 50 cts. per box, or 6 for $2.50, and on receipt of an order for 12 boxes, accompanied with $5.00, addressed to Mack's Magnetic Medicine Co., Windsor, Ont., they will forward the goods free by mail, and send their written guarantee to refund the money, if the treatment does not effect a cure. See adv't in another column.

The Pleasure of Freezing.

James Humphrey, an Aldborough man, nearly froze to death in a recent storm when driving homeward from Wallacetown. He gives this description of his experience to a St. Thomas *Times* correspondent:—When he felt no longer able to hold the reins with any grip he determined to seek shelter in the first house until well warmed. His tongue became stiff, then his arms, sharp chills ran down his back, and finally it seemed as though his whole body was being congealed, causing an almost total cessation of the heart's action. This condition of extreme suffering and despondency speedily gave place to a feeling of general warmth, pervading the system and causing an exhilarating glow. By this time he had reached a house, but he drove on thinking that nothing was now to be feared. The sleigh, instead of crawling along at a snail's space, appeared to glide through the air with great swiftness, and the horses fairly flew like pigeons. A sense of exultation filled the farmer's breast as he urged the horses to still greater speed, and the woods on each side were passing so quickly that they became indistinguishable black lines. Then the sleigh bells sounded fainter and fainter, until the chimes disappeared in the distance, the farmer fell gradually into a delicious slumber, which came near being the sleep that knows no waking, and he knew no more until brought to life under vigorous treatment.

Maine Maidens' Protective Union.

Some time ago a number of girls in Maine formed a sort of protective union and adopted a series of resolutions for their government. One of their by-laws was that they would marry no man who had not learned some business, or engaged in some steady employment, no man who was in the habit of tippling, and no man who was not a patron of the leading paper in the neighborhood. The president of the society ran away from home in two weeks with the piano player of a concert saloon. The following week the secretary was married to a man who not only did not take a newspaper, but could neither read nor write, and in less than three months six other members had violated their [illegible] obligations in one way or another, leaving one old maid as the sole faithful representative of a union, whose wise purposes certainly cannot be questioned. And yet some of the women folks are dissatisfied because they cannot become Masons.—*Cincinnati Saturday Night.*

MACFARLANE WILSON.

An Expert Shot.

Ellsworth Bierbower is remarkably skillful with a rifle. One of his latest shots is described as follows:—A piece of half-inch gas pipe was inserted through a heavy piece of iron as a base. At one end of the pipe he affixed the blade of a hatchet, so that the sharp edge rested against the pipe. On each side of the hatchet he hung a glass ball. Standing off at a distance of forty feet, he fired with a Winchester repeating rifle at the exposed end of the gas-pipe, through which the bullet passed and was split on the hatchet edge, each half breaking the glass ball on either side of the hatchet. Having done this remarkable shot to his satisfaction in the ordinary off-hand way, he tried it in a different manner. Holding the gun over his shoulder, he sighted through a mirror he held in his left hand, and fired with his back to the object. Again did the ball pass through the gas-pipe, split on the hatchet edge and break both balls. Still another way was tried. Bending over, he held the rifle down and sighted under his leg, again making the shot successful.—*Harrisburg Telegraph.*

A Sad Accident on Christmas.

On Christmas afternoon a youth named O'Donnell and a young girl named Bessie Bye were skating on a canal waste weir at Merriton, and coming to a weak spot in the ice, broke through. O'Donnell, being able to swim, was rescued, but the girl sank and was drowned. Mary, a young sister of Bessie, was standing on the bank, and on seeing the occurrence rushed to the spot to help her sister, but the ice broke and she also fell in. A brave boy named Clifford jumped in, grasped her, and attempted to keep her up, but they both sank, and the boy to save himself was forced to relinquish her, and she too was drowned. One of the bodies was recovered on Christmas night, and the other on Tuesday morning. The girls were daughters of Mr. Joseph Bye, a [illegible], and were aged respectively [illegible].

Personal! To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

Worthy of Praise.

As a rule we do not recommend Patent Medicines, but when we know of one that really is a public benefactor, and does positively cure, then we consider it our duty to impart that information to all. Electric Bitters are truly a most valuable medicine, and will surely cure Biliousness, Fever and Ague, Stomach and Liver and Kidney Complaints, even when all other remedies fail. We know whereof we speak, and can freely recommend them to all.—*Exch.*—Sold at fifty cents a bottle, by Taylor & Macdonald.—6

KENDALL'S
SPAVIN CURE

KENDALL'S SPAVIN CURE,

The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

From Rev. P. N. GRANGER,

Presiding Elder of the St. Albans District.

ST. ALBANS, Vt., Jan. 29th, 1880.

DR. B. J. KENDALL & Co., Gents:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming, I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bunch be found.

Respectfully yours,
P. N. GRANGER.

PERSEVERANCE WILL TELL.

Stoughton, Mass., March 16th, 1880.

B. J. KENDALL & Co., Gents:—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off, and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me, its sale will be very great.

Respectfully yours,
CHAS. E. PARKER.

Kendall's Spavin Cure is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, callous, sprains, swellings, and lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

Send address for Illustrated Circular, which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & CO., Enosburgh Falls, Vt.

LOCAL AND MUNICIPAL.

Council Meeting.

A regular meeting of the Town Council will be held in the Council Chamber this evening at 7:30 o'clock.

Dessert Knives and Forks.

A beautiful set of Dessert Knives and Forks with carved ivory handles, and engraved electro-plated blades of the best Sheffield manufacture, at R. W. Muncaster's.

Georgia Minstrels.

In accordance with a promise made by Fred R. Wren on the occasion of his last visit here with his Uncle Tom's Cabin Company, he will return to-morrow with the Georgia Minstrels and give an entertainment in Bradburn's Opera House.

The Weather.

The weather to-day is milder and cloudy. The probabilities for this district for the following 24 hours, as reported from Toronto at 1 a.m. to-day, by the Great Northwestern Telegraph Company, are as follows:—Increasing westerly to southerly winds. Fair weather and higher temperature.

Personal.

A correspondent writing from Rochester to the Hastings *Star* says that there are a great number of Canadians there, amongst them quite a goodly number from Hastings and vicinity. The most popular lawyer in the city is an old Peterborough boy, D. C. Feely. An Asphodel boy, David Healy, was elected from the city to the New York Legislature last November by a majority of 2,700, the largest ever given there.

Fashionable Wedding.

On Thursday afternoon Mr. M. H. Dean, son of His Honor Judge Dean, of Lindsay, and Miss Lillie Weller, daughter of Mr. C. A. Weller, Master in Chancery, Peterborough, were united in wedlock. The ceremony was performed in St. John's Church by the Rev. J. W. R. Beck, M. A., and was witnessed by a large number of invited guests and friends, the church being filled with a fashionable assembly. We join their many friends in congratulating the happy couple, and in wishing them a long and happy life.

A Brilliant Event.

There is every evidence that the carnival in the skating rink this evening will be a pronounced success. The rink has been handsomely decorated for the occasion, and the colder weather has brought the ice into a first-class condition. Many persons from other towns have intimated their intention of being present, and there will be, beyond doubt, a large attendance. Many superb costumes have been prepared, the prizes offered being such as would cause those who intend to compete to use their best efforts to win them. Anyone who wishes to see one of the best carnivals ever seen, and to witness one of the most brilliant events ever witnessed in Peterborough, should be at the skating rink to-night.

At Smith's Market.

Oysters in bulk and tins; Apple Butter, Minced Meats, very superior, manufactured by Clark & Hessin; Red Currant Jam in pails, 5½ lbs. each; Grapes, Oranges, Lemons, Pears, Apples, Cranberries, Sardines; canned Peaches, Pears, Strawberries, Raspberries, Pine Apple, Cherries, Green Peas, Green Corn, Tomatoes, Lobster, Salmon, &c. Pickles in bulk and bottle; Horse-radish and all kinds of Sauces, Sea Salmon and other kinds of fresh Fish; Venison, Partridges, Turkies, Geese, Chickens and a superior lot of small Fresh Hams. Orders received by telephone from 8 a.m. until 9 p.m. Parties likely to be interested in any of the above specialities will take due notice and govern themselves accordingly.

The Month of January.

Mr. H. G. Vennor, in his *Weather Bulletin*, gives a forecast of the weather in January. He says:—

"The 'Happy New Year' will probably enter bright and brilliant with splendid sleighing and abundance of snow right down to Washington, D. C. In Canada and parts of the United States there may even be blockades of snow; while in the North-West a very severe 'cold snap' will be in progress. Another big snow storm will occur on the 7th or 8th day, which is also likely to extend to New York and Washington. Then will come some singular fluctuations of the barometer and thermometer resulting in a number of 'cold dips' and alternate periods of thaw. A few of the former will be interesting on account of their severity. A considerable thaw will immediately precede the carnival week (22nd to 27th) and strike terror to the hearts of the various committees connected with the proposed 'sports,' but this will be speedily remedied by another sharp frost and snow-fall. Altogether the character of the coming week as regards weather, looks variable."

POLICE COURT.

DRUNK AND DISORDERLY.

FRIDAY, Dec. 29.—James Brown, for being drunk and disorderly, was fined $2 or in default of payment thirty days in gaol. A certificate for thirty days' board was made out and he was escorted up the hill.

Passed Through.

Wren's Georgia Minstrels passed through town to-day on their way to Lakefield. They return to-morrow.

Railway Work.

A large number of men and horses arrived here to-day from the Toronto and Ottawa line between Bridgewater and Perth, to work on Mr. Beemer's contracts near this town.

The Sunday Schools.

A mass meeting of the Sunday Schools of the town will be held on Monday, January 1st, in the George Street Methodist Church, for the annual New Year's services. The services will commence at 10.30 o'clock, and continue till 12 o'clock noon. All persons are requested to be in their seats at least fifteen minutes before the opening hour, in order to prevent confusion. The programme will consist of singing, prayer, responsive readings, and addresses by the pastors.

Uncle Tom's Cabin.

Mr. Wm. H. Sherwood, business manager of A. R. Waterman's Boston Ideal Double Uncle Tom's Cabin company, was in town to-day making arrangements for the appearance of the company in Bradburn's Opera House on Tuesday night next. This company begins a week's engagement at the Royal Opera House, Toronto, on January 8th. They have been highly spoken of by the press wherever they have appeared, and should be greeted by a large audience here. The following is from the Montreal *Herald*:—

"The double Topsys of the Miss Sherwoods, and the Eva of Little Romaine, are really wonderful pieces of acting. Miss Blanche Sherwood as Topsy No. 1 is all that could be desired, while Topsy No. 2 is as well rendered by Miss Florence Sherwood."

The New Midland Bridge.

The contract for the mason work on the Midland Railway bridge across the Otonabee, near the locks, has been awarded to Mr. H. J. Beemer, and also the construction of the line between the Midland division and the Grand Junction division, which will cross the river on this bridge. Mr. Beemer is a contractor of large experience, and this work has fallen into good hands. In consideration of the fact that this work, and Mr. Beemer's contract on the "Missing Link," have to be completed at an early date, the term for the completion of the Toronto and Ottawa division between Bridgewater and Perth has been extended, and work on that portion of the line has been suspended until the spring months. The force which has been employed between Bridgewater and Perth will be brought here in order to expedite the completion of the branch connecting the Midland and Grand Junction and the line between Omemee and this town.

Curling.

The annual curling match between rinks drawn by the President and Vice-President will take place on the evening of Tuesday and Wednesday, the 2nd and 3rd of January. This match always awakens a great deal of interest. The following compose the rinks:—

PRESIDENT.	VICE-PRESIDENT.
First Rink.	
Geo. Hilliard	Robt. Hall
Hon. R. Hamilton	J. McClelland
Andrew McNeil	Adam Hall
T. P. Attrill, skip.	Dr. Boucher, skip.
Second Rink.	
C. A. Connelly	P. J. Jameson
W. H. Chirton	Wm. Mitchell
W. H. Reddon	R. S. Davidson
M. Miller, skip.	Geo. Brown, skip.
Third Rink.	
Milne Hamilton	E. M. Orr
A. McNeil	E. J. Hartley
Geo. Dunsford	G. McGill
P. Connal, skip.	W. G. Ferguson, skip.

The last two rinks will play on Tuesday evening, and the first, of which the President and Vice-President are skips, will play on Wednesday evening. The result of this match will be watched for with interest by all lovers of the game.

Second Season.

We are getting in large shipments of oysters in bulk and cans, direct from the packers in Baltimore, and as we buy in large quantities, we can positively sell cheaper than has ever been done in our line in Peterborough before, which the following very low figures will show: Bulk oysters, 35 cents per quart; can oysters from 25 cts. to 40 cts. Large fine flavored Valencia Oranges, 25 to 30 cts. per dozen; Lemons 20 to 25 cts. per dozen; Malaga Grapes 25 cts. per pound. Dates, Figs in boxes and mats, Nuts and Candies, all on hand for the holidays. To persons buying in large quantities from us a fair reduction will be made. We are getting up some very handsome cakes for the holiday trade, beautifully iced and ornamented, and of the most artistic designs. Genoa cake, Butter Pistachio cake, Chocolate cake, Raisin cake, Jelly cake, Cocoanut cake, White Frosted cake, Lafayette's cake, Madeira cake and Fruit cake, and an immense variety of small cakes always on hand. We bake every day, and can guarantee fresh goods. All orders for wedding and other cakes promptly attended to. Any person having any home-made cakes to ice will kindly oblige by sending in their orders at once, as we are now very busy. All orders filled in rotation. Don't forget the place: South Store, opposite the market square; north store, nearly opposite the express office.

LARSON BROS.

IF YOU WANT large fresh oysters dished up in good style, go to T. Dancy's Restaurant and Oyster Parlour.

Dyspepsia and Liver Complaint.

Is it not worth the small price of 75 cents to free yourself of every symptom of these distressing complaints, if you think so call at our store and get a bottle of Shiloh's Vitalizer, every bottle has a printed guarantee on it, use accordingly and if it does you no good it will cost you nothing. For sale by J. D. Tully.

Oh, What A Cough!

Will you heed the warning. The signal perhaps of the sure approach of that more terrible disease Consumption. Ask yourselves if you can afford for the sake of saving 50 cts., to run the risk and do nothing for it. We know from experience that Shiloh's Cure will Cure your Cough. It never fails. This explains why more than a Million Bottles were sold the past year. It relieves Croup, and Whooping Cough, at once. Mothers do not be without it. For sale by J. D. Tully.

WE have a speedy and positive Cure, for Catarrh, Diphtheria, Canker mouth and Head Ache, in Shiloh's Catarrh Remedy. A nasal Injector free with each bottle. Use it if you desire health and sweet breath. For sale by J. D. Tully.

PECTORIA! Pectoria! Pectoria! The great and true remedy for Coughs, Colds, Bronchitis, Catarrh, and Consumption. Have you tried "Pectoria?" It is sold in 25 cent bottles. It never fails. If you cannot procure it from your dealer enclose $1.00 to Smith & McGlashan, Toronto, and we will send you free by express 6 bottles. It may save your life.

Why The People Come Back to Us!

Is our trade in CLOTHING of that Character that serving—say a young man—once we never see him again? Not probable. Nor is it likely to take that character.

When a young man needs CLOTHING he wants something like a stock, a department, to select from. Don't you get that with us? He wants his Clothes well put together and run no risk of unnecessary ventilation, either; or at least have it come upon him unexpectedly. He don't care for seams like whip-cords in his pants legs, or his coat collar, showing inches of room behind his neck. This touching Clothing. Another word here, we'd say. Don't jump to the conclusion that we don't keep certain goods because you don't see them mentioned in our advertisements. If you do you'll make a mistake. It's impossible, where we have so varied a stock of goods, to make mention of them all. We even may fail to mention some at all. So don't limit your ideas of our stock to our advertisements. As for what we say in them much more remains unsaid. There's nothing new, desirable or fashionable we haven't got. TRY US.

THE
PACIFIC NORTHWEST!
Oregon, Washington, and Idaho.

Offers the best field for emigrants—viz.: a mild, equable, and healthy climate; cheap lands of great fertility, producing all varieties of Grain, Fruit, and Grasses in wonderful abundance; an inexhaustible supply of Timber; vast Coal Fields, and other mineral deposits; cheap and quick transportation by railroads and river navigation; direct commerce with all parts of the world, owing to its proximity to the Pacific Ocean.
NO DROUTHS, NO INSECT PESTS, NO HURRICANES, WHIRLWINDS, OR OTHER DESTRUCTIVE PHENOMENA.
The lands of the Pacific Northwest show an average yield of wheat per acre largely in excess of that of any other section of the United States.
No failure of crops has ever occurred.
Oregon wheat commands a higher price than that of any other country in the Liverpool market.
An immense area of very fertile Railroad and Government Lands, within easy reach of the great lines of the Northern Pacific R.R., the Oregon Railway & Navigation, and the Oregon & California RR. Co's and their numerous branches, in the great Valleys of the Columbia and its Tributaries, are now offered for sale at Low Prices, and on Easy Terms, or open to pre-emption and Homestead Entry.
The great movement of population to the Columbia region now in progress will be enormously increased by the completion of the Northern Pacific RR. and the Oregon Railway and Navigation Co's systems. This renders certain a rapid increase in the value of lands now open to purchase or to entry under the United States Land Laws.

SULPHOLINE LOTION.—An EXTERNAL MEANS OF CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; while old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcules which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent remedy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Martin, and every year it is used more and more favorably [illegible]. Anyone, however deeply and hopelessly affected with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.
DR. KING'S DANDELION & QUININE LIVER PILLS (Without Mercury.) THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.
In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.
Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jno. Roche, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nerves and muscular system, improves digestion, animates the spirits, recruits the health. For enfeebled health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and develops the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, [illegible]. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, headache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, [illegible] of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, [illegible]. Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6d. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

THE SKATING CARNIVAL

AT THE RINK ON FRIDAY EVENING—A LARGE ATTENDANCE.

Many Fine Costumes Worn—The Prizes For the Best Dressed—The Races for the Boys—The Band Present.

The fancy dress skating carnival on Friday evening was attended by a large number of spectators. The galleries were filled with persons gathered to witness the sports and to view the flashing costumes by gaslight.

The Fire Brigade Band discoursed music throughout the evening, and for the first time appeared in public with their new instruments. The music they produced from them was excellent, and added greatly to the pleasure of the occasion.

The number of persons in costume was not as large as at the carnival last year, there being about ten less this year, but the costumes were good. Several costumes appeared on the ice which had been seen before, but there were many new and elegant ones well deserving of praise. It was remarked that, although the entries were not so large as previously, the costumes were superior.

THE EXHIBITION.

Whirling around the ice, the skaters exhibited their costumes to the gaze and admiration of the spectators, and the sight was a very brilliant one. All ages were represented, from the days of the crusades down to the present æsthetic period. The Knight of the Red Cross in his glittering armor attracted much attention, and none of the ladies appeared to be afraid of the fearless Bandit who mingled in the gay company without attempting to carry out the character he represented any further than by the dress he wore. The inimitable Dutchman, with his long pipe, was quite a favorite with the ladies, and even the fear of the perfume of the weed did not frighten them away. King Charles II. represented his character well, both in his dress and in attention to the ladies of the court. Robin Hood was a gallant looking gentleman, and appeared to be capable of the generous acts of that famous robber. Although in mid-winter, June with all its freshness and beauty was present, and La Mascot reminded lovers of the opera of that favorite production. Bunthorne, with his æsthetic dress and lily, was one of the best characters on the ice, and it would not be surprising if a chorus should sing after seeing him, "Twenty love-sick maidens we." The French nation was represented by a Courtier, and the United States by the Stars-and-Stripes and several other characters. The Turk was not forgotten, for the Oriental dress was conspicuous, and a Page was ready to wait upon the King and Courtiers, or to carry a message for the Spanish Noble. The Scotch Lassie was lonely without a Scotchman, but others tried to supply the deficiency in their nationality by their attentions. It is not a matter for wonder that the 17th and 18th centuries were the poetical periods in English history, when the dress worn by the ladies and gentlemen of those periods are seen, for they would awaken poetical fancies in the most prosaic. The Gypsy Queen was very bright, and the Sailor Girl and Gleaner were characters well taken. One would hardly know which to admire most, the bright Bo-Peep or the quiet-looking Nun, and the Fish Wife drew to herself considerable attention. Canada was represented by artillerymen in uniform, and the Jockey in his neat dress won many expressions of praise. Rory O'More, as an Irishman, looked so natural that he was greeted with cries of "Gobbler J——," and the Young Cree was a good representative of the aborigines of this continent. Bluebeard, savage and revengful, circled around among the children, but did not frighten the intrepid Topsy, who was bound to amuse herself and others at all hazards. Aunt Sally flirted with the young Indian, and would have liked to try her speed in the races, but her skirts prevented.

THE PRIZES FOR COSTUMES.

The following gentlemen, acting as Judges, took seats on the judges' platform:—Messrs. J. J. Lundy, A. Elliott, H. LeBrun, B. Morrow and R. Hall. After a time spent in viewing the costumes and consultation, the following result was announced:—

LADY IN COSTUME.—1st, Miss Ida Huston; 2nd, Mrs. J. E. McIntyre.

GENTLEMAN IN COSTUME.—1st, Mr. F. Cox; 2nd, Mr. Geo. B. Mowry.

FOR GIRLS.—1st, Miss Lilly Wrighton; 2nd, Miss Lota Gray.

FOR BOYS.—1st, Master Harry Huston; 2nd Master Kenneth Kincaid.

BEST COMIC COSTUME.—1st, Mr. Wm. Logan; 2nd, Master Frank Larone.

THE RACES.

The races caused considerable amusement, especially the barrel race. The following won the prizes:—

BARREL RACE.—1st, F. Sherwood; 2nd, John Ross.

RACE AROUND THE RINK.—1st, Frank Sherwood; 2nd, Jos. Harvey.

LIST OF COSTUMES.

The following list of the costumes is as complete as could be obtained. Several neglected to comply with the published request to leave their card with the character assumed at the door, and if their names do not appear their own negligence must answer for it:—

Gaining a World Wide Reputation.

About 150,000 bottles of medicine and 3000 Spirometers, the invention of M. Souvielle of Paris and ex-aide surgeon of the French army, have been used by physicians and patients during the last year for the cure of catarrh, catarrhal deafness, bronchitis, asthma, consumption in its first stages and many diseases of the head, throat and lungs. Consultations with any of the surgeons belonging to the institute free. Poor people showing certificates can have spirometers free. Write enclosing stamp for pamphlet giving full information to either of the Canadian offices where competent English and French specialists are always in charge. Address International Throat and Lung Institute, 13 Philips square, Montreal, P. Q., or 173 Church street, Toronto, Ont.

SUEZ, Dec. 29.—21 pilgrims have died of cholera between Mecca and Medina, and ten deaths occur daily from the disease at Medina.

THE BRADFORD HORROR.

BRADFORD, Dec. 29.—A boy was recovered alive this morning from the ruins of the building wrecked by the fall of a chimney at Bradford yesterday. The chimney had long been notoriously unsafe.

THE ROUMELIAN EMBROGLIO.

CONSTANTINOPLE, Dec. 29.—The Porte has been notified by Aleko Pasha, Governor-General of Eastern Roumelia, of the rupture of his relations with M. Kleber, acting Russian Consul-General. The reason assigned is that Kleber formed a compact against Aleko with members of the Provincial Assembly. Russia intends to support Kleber, although his recall was previously almost decided upon.

MR. DAVITT'S LIMEHOUSE SPEECH.

DUBLIN, Dec. 29.—Mr. Davitt, in his speech last night at Limehouse, said Dublin Castle was a fortress, to which constitutionally speaking the political ascendancy of the landlords had been forced to retire. There they would make efforts by the exercise of the powers which they still possessed to regain the political influence of which the Land League had deprived them. Unless the Lord-Lieutenant changed his tactics the time would come when even Englishmen would demand his recall. The highest to the meanest justice of the peace in Ireland belonged to the landlord class. As long as England tolerated political judges so long would the Irish people disregard the law those judges administered.

A NEW PAPER.

CINCINNATI, Dec. 29.—Arrangements have been completed for the consolidation of the *Commercial* and *Gazette* and the publications of a new daily named the *Commercial Gazette*. Both Smith, of the *Gazette*, and Halstead, of the *Commercial*, will be in the management of the new paper and will be assisted by the talented correspondents of both papers. The paper will be Republican.

PANIC IN A CHURCH.

MOUNT VERNON, N.Y., Dec. 29.—A panic was occasioned at a Christmastide celebration at Trinity church last night by a taper setting fire to some sprays of evergreens. The main doors swung inwards, and hundreds of half-crazed people were soon thrown against them, so that they could not be opened. There were shrieks, cries and prayers, men and women tumbled over and trampled children under foot. Some smashed windows and leaped out. The burning evergreen was carried from the church, and Col. Jenkins, chief clerk of the Finance Department of the New York Custom-house, shouted to the crowd that there was no danger, and finally calmed them. Many children were bruised.

THE REPUBLICAN PARTY.

NEW YORK, Dec. 30.—The *Tribune's* Washington despatch says that at a dinner given last evening by John M. Forbes, of Massachusetts, a number of Senators were present. It is stated that it was a purely political affair, and the chief subject discussed was the condition of the Republican party and the best means to be adopted for the re-establishment of the party preparatory to the campaign of 1884. The belief is warranted upon information received second-hand, that a conclusion was reached in favor of making Edmunds the standard-bearer of the party.

A MURDERER ARRESTED.

COLUMBIA, S. C., Dec. 30.—Jim Coleman, a negro who murdered Sarah Willis, was captured yesterday. He had laid concealed under a bed in his house, expecting to escape from town last night. A crowd of infuriated colored men and women armed with axes and other weapons tried to take him from the officers and kill him. There were crowds of negroes around the jail last night swearing that Coleman should not live.

The cause of the assault was a refusal to let the murderer out into the corridor.

THE TELEGRAPH SUIT.

NEW YORK, Dec. 30.—The grounds on which Judge Arnoux bases the order giviving leave to the Attorney General to bring a suit to vacate the charter of the Mutual Union Telegraph Company, are that the petition was signed by the Attorney General himself, and references were made in it to papers not filed.

Now we know that Coughs, Colds, Bronchitis, Catarrh, and all Chest, Throat and Lung Troubles if neglected, are sure to end in Consumption and Death. They may be easily cured by using as directed Dr. Carson's Pulmonary Cough Drops, there is no remedy equal to it. It never fails. Sold everywhere in large bottles at 50 cents.

THE NEW YEAR.

The old year is now nearly at an end, and before we again address our readers the new year will have begun. On looking back upon the past twelve months, we have every reason to congratulate those who will read these words, as we can ourselves. It has been a year of prosperity and progress, almost without exception. For ourselves, we certainly have no cause to complain of any falling off in that support which we previously received, and for our part have endeavoured, we hope not unsuccessfully, to keep abreast of the times. Looking forward as is natural at this period, it is a satisfaction to find that the prospects are bright. We hope and believe that in the coming twelve months the progress of this town and the surrounding district will be even greater than in the past. That our readers will share fully in this prosperity is our earnest hope, and we wish them cordially A Happy New Year.

CONSPICIOUS BY THEIR ABSENCE

Mr. Blake has just been making a speech at Bowmanville, so long that the report of it foccupies a page of the *Globe*. He was both prolix and discursive, discussing the Conservative victory in June, the proportion of members to voters, the defects of the ballot act, the Riel rebellion, capital and labour, Peterborough returning officers, surpluses, the price of grain, railway monopoly, North-west lands, emigration, the population of Ontario, the right of the Dominion to make treaties, our fiscal policy, &c., &c.

But even more remarkable than the subjects that he discussed were those that he omitted to consider. Though his object was to afford aid and encouragement to his provincial allies, he did not discuss what we are asked to believe are the two burning question of the day and for consideration at the coming general election, namely the disallowance of the River and Streams Bill and the refusal to accept the Boundary Award. On these subjects he preserved solemn silence.

Mr. Blake indeed could not do other wise than ignore these two questions, concerning which according to "Reform" editorials the whole country is burning with indignation, for if he had mentioned them he must have given small encouragement to Mr. Mowat and his colleagues.

As to the River and Streams he could not fly in the face of the judgment of his pet Supreme Court, that what Mr. Mowat's act asserted to have always been the law, was not and never had been the law. He could not defend the act in opposition to his own professional opinion that it was a bad one, nor could he condemn its disallowance when he had himself disallowed provincial acts with even less reason.

Then as to the Boundary Award, Mr. Blake values his professional reputacion too highly to agree that it is valid when he knows well that it is invalid. Neither could he maintain that the faith of the Dominion of Canada or of its Parliament is pledged to the acceptance of the Award, when he knows both as a lawyer and a politician that nothing has been done to bind either of them, or to make their refusal a breach of faith.

When Mr. Mowat's chief advocate is compelled to maintain an utter silence as to the two great grievances of his client, they must be visionary indeed. On these two questions Mr. Mowat and his supporters claim the support of the people of Ontario at the coming general election, but by that silence which gives assent, the chosen leader of his party agrees with Mr. Meredith and his supporters in condemning the present Ottawa administration. Mr. Blake cannot find even a word to support the contention of Mr. Mowat.

Teachers Scarce.

In consequence of the scarcity of school teachers in the back townships, the school inspectors of the eastern counties of Ontario, at a meeting on Thursday, decided to petition the Provincial Government to lower the standard for third-class certificates. It is thought that if this were done the number of sufficiently qualified teachers would be largely increased without any great deterioration of the teaching. —*Mail.*

STREET AND BRIDGES.

Councillor Cahill read the following report of the Street and Bridge Committee:—

Gentlemen,—The Street and Bridge Committee to whom was referred the application of T. G. Hazlitt for permission to use a portion of Dickson street, south of Hunter, for the purpose of partially erecting thereon a woollen factory, begs leave to report that they have examined the place in question and recommend that a lease for a period of twenty years of ten feet on the east side of said street to the water's edge be granted to the said T. G. Hazlitt, at a rental of one dollar per annum, and that a By-law be passed to authorize the Mayor and Clerk to enter into such lease.

All of which is respectfully submitted,

Thomas Cahill,
Chairman.

The report was received and adopted.

A BY-LAW PASSED.

A By-law was introduced granting Mr. T. G. Hazlitt the use of ten feet of a street near the river for his woollen factory.

The By-law was passed through its different stages, and signed.

LINDSAY.

The Worst.—The *Post* says that a Toronto architect who happened to be in town on Saturday was recommended to take a look at the local high school buildings. He looked the edifice over, and said that it was the worst looking high school building in the six Midland counties.

Accident.—A man named Johnston, who had been working in the woods north of Minden, was severely injured by a blow in the side given by a handspike. He was brought to town a week ago for medical treatment, and lodged at the Central house. Under the skilful treatment of Dr. DeGrassi and the careful treatment at the hotel, the patient is recovering rapidly.

A Desperate Affair.—The *Warder* thus describes a conflict which took place in a cellar in Lindsay:—The birds were brought to the place in covered boxes. At a signal from the referee the lights were turned down low, which left the place in complete darkness. Then the covers were taken off the boxes and the birds were put on the floor. Then the lights were turned up, and to the astonishment of all a cloud of feathers flew in the air for about two minutes, and when they got settled down all that was visible on the floor was Jack's bird and a pile of bones and feathers. Jack's bird was an owl.

Given Away.

We cannot help noticing the liberal offer made to all invalids and sufferers by Dr. Kings New Discovery for Consumption. A MARRIAGE OF PURE AFFECTION.

By Dutton Cook.

(CONCLUDED.)

"Well, there's no mistake about the letter, at any rate," observed Sir Hercules, "I am bound to say Miss Machiter expresses herself very clearly, but I don't see what I can do for you, Charley. I can't make Miss Machiter marry you if she don't want to. I am sorry for you, of course. I think it's a hard case, especially as she's got money. What more can I do?"

"Couldn't you do anything to prevent the governor's making such a fool of himself, sir?"

"Well, you know, Charley, your father's of age. He's his own master. He's entitled to make a fool of himself if he likes. He's old enough to know his own mind."

The young man paced the room in a rage. He tramped, he swore with vexation, and the tears stood in his eyes.

"Don't excite yourself, old chap," said Sir Hercules to his grandson. "I know it's no use telling you that there are plenty other women in the world, because, of course, you want this one particular woman; but you can't have her, Charley. That seems plain. It's vexatious; but you'll get over it."

"But to think of my being thrown over for an old fogey like the governor!"

"Well, hit your own father, Charley, and he's my son; but that's of less importance."

"Can't you do anything, sir, to hinder this marriage?—disgraceful, I call it!"

Sir Hercules shook his head. "I might see the lady," he said after a pause, "although I don't know what good that can do. Is she pretty?"

"I call her simply beautiful!" exclaimed Charley ardently.

"I'll certainly see her," said Sir Hercules. "I'll make a point of seeing her. In fact it's my duty to call upon her, as she's so soon to become a member of the Cumberbatch family. My daughter-in-law—your stepmother, Charley."

CHAPTER IV.

Not long afterwards there appeared in the *Times* newspaper, under the head of marriages, the following advertisement:—

"On the 21st instant, at St. George's Hanover Square, Sir Hercules Cumberbatch, K.C.B., to Madeline, only daughter of the late Humphrey Machiter, of Harley street, Cavendish-square, and also of High Holborn. No cards."

"Who'd have thought that your grandfather could have been such a fool!" commented Joshua Cumberbatch angrily.

"He's not been the only fool in the case, I think, sir," said Charley sardonically.

"At this time of life, too!"

"Yet, he is old enough to know better, certainly."

"He must be mad!"

"If he is, sir, depend upon it, his wife will lock him up."

The happy pair had departed to Paris for the honeymoon.

"I was certainly deceived in that woman," observed Joshua Cumberbatch.

"I was deceived, too" added his son. "Perhaps it will be grandfather's turn next."

Upon the return to town of Sir Hercules and his bride, they hastened to invite their relatives to a family dinner in Harley street.

"Well, Joshua, well, Charley!" cried the bridegroom. "How do both? Glad to see you. You don't look particularly well, either of you. You should try a little change. Welcome to the paternal, the grand paternal roof." He was delightfully young and airy. "As fresh as paint," as he ruthfully described himself to be.

"So glad you were able to come, both of you," said Lady Cumberbatch. "These friendly family parties are so nice, so awfully nice!" She squeezed the hands of both father and son.

"Don't look so black, Charley. I never could say 'no'; and when you asked, and afterwards your father, and after that Sir Hercules, what was I to do? How could I refuse? At any rate I've been so far true, I've married into the family. I am a Cumberbatch, and you can still love me; indeed, it is now your duty to love me: as your grandmother."

"You count upon being a young widow, I suppose," Charley said sulkily.

"Well, in the ordinary course of nature, Sir Hercules——" she stopped and added, "Not but what he's a dear old thing, and I quite adore him."

"I am sure I hope he may live a thousand years," said Charley.

"Don't be spiteful. But in any case you know, Charley, you can't marry your grandmother."

Then came the announcement, "Dinner is served."

Over their wine Sir Hercules informed his son and grandson that the married state was a very happy state, and counselled them to take unto themselves, at the earliest opportunity——

"Only one wife apiece, sir, I suppose?" said Charley imprudently.

Sir Hercules observed that he thought they would find one wife apiece sufficient, and then proposed that they should fill their glasses and drink to the health of their new relation, Lady Cumberbatch.

"There was a settlement, I suppose," said Joshua Cumberbatch. "May I ask so much?"

"Certainly there was a settlement," replied Sir Hercules. "Her every halfpenny is settled upon herself. What of that? What does it matter how wives money is settled when husband and wife love each other as we do?"

"Another glass of wine? No! Then we'll join Lady Cumberbatch in the drawing-room. By the by she is to be presented next week—on her marriage she seemed to wish it—and, of course, I had no objections. Indeed, how could I refuse her anything she asked?"

"How, indeed!" echoed his son and grandson.

(THE END.)

FROM ALL OVER.

EIGHT slave dhows have been captured by H. M. S. Undine off the Comoro Islands, east coast of Africa.

THE Imperial Parliament has been summoned to meet for the despatch of business on the 15th of February.

A TRANSPORT has sailed from Toulon with seven hundred and fifty French soldiers and civilians for Tonquin.

MR. GAULT, M. P., whose illness was reported yesterday, is now out of danger, his malady having taken a favourable turn on Wednesday night.

THE Societie Postale Generale of France has made an offer to the Government to start a fortnightly line of steamers between Havre and Montreal direct, in consideration of a subsidy.

THE Ameliasburg stage, with a load of passengers, broke through the ice on Thursday morning near the wharves at Belleville. The skill of the driver prevented any serious consequences.

CAPTAIN WILLIAMS, of the New York police, has verified the story that Oscar Wilde was "taken in" by bunko steerers to the extent of one thousand dollars. Mr. Wilde, however, realized that he was swindled in time to stop payment of his cheque.

A CITIZEN of Detroit appeared at the tax receiver's office on Wednesday afternoon and offered in liquidation of his sewer assessment a three-year-old girl. The man was of foreign birth, and was dead in earnest; tears streamed down his cheeks as he explained that he had a numerous family of children, and it was all he could do to get bread for them to eat. He begged the collector to accept the girl in full payment of the tax.

DO YOUR CHILDREN have fits or convulsions, grind their teeth, pick their nose, have a bad breath, or a changeable appetite? Are they restless or feverish at night? If so, ask your druggist for Dr. Smith's German Worm Remedy (take no other), it only costs 25 cents. Is simple safe, and pleasant to take. If there are no worms, to remove the slime and bile that breeds them, tones up the system, and will save many a doctor's bill. A word to the wise, etc. Thousands of testimonials.

"TWENTY-FOUR YEARS' EXPERIENCE," says an eminent Physician, convinces me that the only cure for "Nervous Exhaustion" and weakness of the generative organs is to repair the waste by giving Brain and Nerve Foods, and of all the remedies I have used Mack's Magnetic Medicine is the best. This remedy is now sold by all our Druggists at 50 cts. per box, or 6 for $2.50, and on receipt of an order for 12 boxes, accompanied with $5.00, addressed to Mack's Magnetic Medicine Co., Windsor, Ont., they will forward the goods free by mail, and send their "written guarantee" to refund the money, if the treatment does not effect a cure. See adv't in another column.

Timber Limits in Muskoka and Parry Sound.

Mr. Meredith inquired in the Ontario Legislature on Thursday, (1) what rates of dues were prescribed by the conditions of sale of the 497 square miles of timber limit in the Parry Sound and Muskoka districts sold in 1881; (2) whether a reduction has been made in the amount of such dues, and, if so, to what extent and during what years; (3) whether any order-in-Council was passed authorizing such reduction, and the date of such order-in-Council, if any.

Mr. Pardee said the original dues were $1.50 per 1,000. They had been reduced to the uniform rate of 75 cents, the reduction being made by order-in-Council on Nov. 20, 1876, it being ratified by the House during the following session.

Slaughtering the Sparrows.

A number of patients in the General Hospital have been much interested for the last ten days in the shrike, or butcher bird, which is making sad havoc among the poor sparrows. It swoops down, seizes a bird, and then flies into a tree. Here it puts its prey into a crouch, places one claw on it, and with the other tears away the feathers, and devours it at the same time. One sparrow appears to satisfy it at a time, though occasionally no sooner is one eaten than it sets forth in quest of another. Unless the bird is shot or destroyed, it will soon clear the place of sparrows.—*Mail.*

Personal! To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

Worthy of Praise.

As a rule we do not recommend Patent Medicines, but when we know of one that really is a public benefactor, and does positively cure, then we consider it our duty to impart that information to all. Electric Bitters are truly a most valuable medicine, and will surely cure Biliousness, Fever and Ague, Stomach and Liver and Kidney Complaints, even when all other remedies fail. We know whereof we speak, and can freely recommend them to all.—*Exch.*—Sold at fifty cents a bottle, by Taylor & Macdonald.—6

KENDALL'S
SPAVIN CURE

KENDALL'S SPAVIN CURE,

The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

From Rev. P. N. GRANGER,

Presiding Elder of the St. Albans District.

ST. ALBANS, Vt., Jan. 29th, 1880.

DR. B. J. KENDALL & CO., Gents:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming, I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bunch be found.

Respectfully yours, P. N. GRANGER.

PERSEVERANCE WILL TELL.

STOUGHTON, Mass., March 16th, 1880.

B. J. KENDALL & Co., Gents:—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me, its sale will be very great.

Respectfully yours, CHAS. E. PARKER.

KENDALL'S SPAVIN CURE is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargements, such as spavins, splints, curbs, callous, sprains, swellings, and lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & CO., Enosburgh Falls, Vt.

Daily Evening Review

SATURDAY, DECEMBER 30, 1882.

LOCAL AND MUNICIPAL.

Board of Education.

A regular meeting of the Board of Education will be held on Tuesday evening next, at 7.45 o'clock.

New Year's Night.

On the evening of New Year's Day a ball will be given in Bradburn's Opera House under the auspices of the Fire Brigade and the Band.

The Cells.

Three tramps enjoyed each others society and the town's hospitality in the cells last night. A blank at the Police Court this morning.

A Correction.

The Belleville *Ontario* of Thursday contains the following:—

> "The Peterborough REVIEW got credit for some remarks on the appointment of the successor to Hon. Mr. Wood, in last Saturday's *Ontario*, that should have been given to the *Examiner*."

Appointment.

Mr. J. [illegible] McIlmoyle has been appointed Head Master of the Separate School, made vacant by the resignation of Mr. M. O'Brien, who has accepted a similar situation in the Lindsay Separate School. Mr. McIlmoyle's experience as a teacher well fits him for the position.

Midland Railway Traffic Returns.

The traffic of the above railway for the week ending December 23, 1882, was as follows:—Passengers and mails, $7,297.34; freight, $9,634.29; total, $16,926.63, as compared with $15,637.93 for the corresponding week of 1881, being an increase of $1288.70; and the aggregate traffic to date $1,045,312.32, being an increase of $265,410.09 over 1881.

North Monaghan Leads the Van.

The Collector of North Monaghan, Mr. T. Armstrong, returned his Collector's Roll to the Treasurer on the 28th of December, having by that date collected every cent of taxes charged against residents, without issuing a single warrant, or putting a single ratepayer to a cent's expense. This, we are confident, is the first roll returned in this county, and we are inclined to think the first returned in the Province. If it is not we should like to know what municipality beats North Monaghan. At any rate its early return speaks volumes, not only for the Collector and ratepayers of the township, but is the best possible evidence of the universal prosperity of the people at the present time.

Uncle Tom's Cabin.

Waterman's Ideal Double Uncle Tom Cabin Company, which will appear in Bradburn's Opera House on Tuesday evening, has met with encouraging success in the principal towns and cities of Canada. It is composed of professional artists. The Chicago *Morning News* says:—

> "The Sherwood Sisters, Blanche, Florence and Romaine, were the Topsy No. 1 and Topsy No. 2 and Eva. Little Romaine, who played Eva, only six years of age, was letter perfect in her part, and managed to give variations to her voice according to the sentiment, correct emphasis and propriety of action. As Topsy No. 1, Blanch Sherwood, not more than ten years of age, we should judge, played the part with more real explosive fun, more rollicking abandon and more exquisite sense of humor than any one we have seen for years. She sings prettily, too, and is a great feature, while admirably supported, if not actually doubled by her elder sister Florence, as Topsy No. 2."

Attacked in the Woods.

Mr. Daniel Cushing, of Peterborough, at present employed as a foreman for Messrs. Smith & McKay, of Pembroke, informs us that while he and an Indian from the Lake of Two Mountains, P.Q., on December 15th were engaged in tracing a timber line in the neighborhood of the Madawaska, the Indian was attacked by a large panther or very large wild cat jumping upon him from a tree. In the melee which ensued the Indian was so severely bitten that he had to lie off work for several days, while Lynch had his two shirts torn off him and received several scratches before they overcame his catship. Had the Indian been alone the probability is that the panther would have proved too much for him. It measured five feet from the nose to the tip of the tail, and is said to be the largest animal of the kind killed in the Ottawa country.

White all Wool Blankets, cheap, cheap, at Turnbull & Gray's sale.

AN EXPLOSION.

A Boiler in the Central Iron Works Burst—A Boy Scalded.

At a few minutes before seven o'clock this morning an explosion occurred in the Central Iron Works, which, fortunately, was not followed by any very serious results. The boiler which exploded was stationed in a room adjoining the machine shop, and at the time of the occurrence a boy named George Baker, an apprentice, was the only one in the boiler room, although several of the employees of the foundry were in the machine shop. The boiler gave way on the side furthest from the foundry, and threw the bricks which walled it in with much force on the floor and against the side of the room. Young Baker was sitting on a stool in front of the boiler, the door of which was blown open and the escaping steam scalded his face severely. The rent in the boiler, which was about two feet long, and the brick wall being thrown down, gave the steam plenty of vent to escape, or the consequences might have been more serious. There is said to have been about thirty pounds of steam on at the time, although the boiler has carried sixty pounds. Steam was only being got up at the time of the accident and the cause of it is attributed to a defective sheet of the boiler.

The Market.

There was a large attendance on the market this morning, and prices ranged high.

Beautiful Wedding Cake.

A lovely wedding cake, of very handsome design and workmanship, may be seen just now in the window of the City Confectionery (late D. Lemay) on George street. Ladies and gentlemen who are admirers of wedding preparations, but especially those who may be making preparations for the event, should not fail to inspect this attractive cake during the evening.

Personal.

The marriage is announced of Mr. Robert S. White, son of Mr. Thomas White, M. P., of the Montreal *Gazette* and formerly of the Peterborough REVIEW, to Miss Ruth McDougall, of Ottawa.

Mr. Wm. Lundy, of Millford, Manitoba, is in town.

Mr. J. Gemell, of the Port Hope *Times*, was in town last night, and was present at the skating carnival.

Second Season.

We are getting in large shipments of oysters in bulk and cans, direct from the packers in Baltimore, and as we buy in large quantities, we can positively sell cheaper than has ever been done in our line in Peterborough before, which the following very low figures will show: Bulk oysters, 35 cents per quart; can oysters from 25 cts. to 40 cts. Large fine flavored Valencia Oranges, 25 to 30 cts. per dozen; Lemons 20 to 25 cts. per dozen; Malaga Grapes 25 cts. per pound. Dates, Figs in boxes and mats, Nuts and Candies, all on hand for the holidays. To persons buying in large quantities from us a fair reduction will be made. We are getting up some very handsome cakes for the holiday trade, beautifully iced and ornamented, and of the most artistic designs. Genoa cake, Butter Pistachon cake, Chocolate cake, Raisen cake, Jelly cake, Cocoanut cake, White Rosebud cake, Lafayette's cake, Maderia cake and Fruit cake, and an immense variety of small cakes always on hand. We bake every day, and can guarantee fresh goods. All orders for wedding and other cakes promptly attended to. Any person having any home-made cakes to ice will kindly oblige by sending in their orders at once, as we are now very busy. All orders filled in rotation. Don't forget the place: South Store, opposite the market square; north store, nearly opposite the express office.

Why The People Come Back to Us!

Is our trade in CLOTHING of that Character that serving—say a young man—once we never see him again? Not probable. Nor is it likely to take that character.

When a young man needs CLOTHING he wants something like a stock, a department, to select from. Don't you get that with us? He wants his Clothes well put together and run no risk of unnecessary ventilation, either; or at least have it come upon him unexpectedly. He don't care for seams like whip-cords in his pants legs, or his coat collar, showing inches of room behind his neck. This touching Clothing. Another word here, we'd say. Don't jump to the conclusion that we don't keep certain goods because you don't see them mentioned in our advertisements. If you do you'll make a mistake. It's impossible, where we have so varied a stock of goods, to make mention of them all. We even may fail to mention some at all. So don't limit your ideas of our stock to our advertisements. As for what we say in them much more remains unsaid. There's nothing new, desirable or fashionable we haven't got. TRY US.

THE

PACIFIC NORTHWEST!

Oregon, Washington, and Idaho.

Offers the best field for emigrants—viz.: a mild, equable, and healthy climate; cheap lands of great fertility, producing all varieties of Grain, Fruit, and Grasses in wonderful abundance; an inexhaustible supply of Timber; vast Coal Fields, and other mineral deposits; cheap and quick transportation by railroads and river navigation; direct commerce with all parts of the world, owing to its proximity to the Pacific Ocean.

NO DROUTHS, NO INSECT PESTS, NO HURRICANES, WHIRLWINDS, OR OTHER DESTRUCTIVE PHENOMENA.

The lands of the Pacific Northwest show an average yield of wheat per acre largely in excess of that of any other section of the United States.

No failure of crops has ever occurred.

Oregon wheat commands a higher price than that of any other country in the Liverpool market.

An immense area of very fertile Railroad and Government Lands, within easy reach of the trunk lines of the Northern Pacific R.R., the Oregon Railway & Navigation, and the Oregon & California RR. Co's and their numerous branches in the great Valleys of the Columbia and its tributaries, are now offered for sale at Low Prices, and on Easy Terms, or open to pre-emption and Homestead Entry.

The great movement of population to the Columbia region now in progress will be enormously increased by the completion of the Northern Pacific RR. and the Oregon Railway and Navigation Co's systems. This renders certain a rapid increase in the value of Lands now open to purchase or to entry under the United States Land Laws.

I CURE FITS!

When I say cure I do not mean merely to stop them for a time and then have them return again, I mean a radical cure. I have made the disease of FITS, EPILEPSY or FALLING SICKNESS a life-long study. I warrant my remedy to cure the worst cases. Because others have failed is no reason for not now receiving a cure. Send at once for a treatise and a Free Bottle of my infallible remedy. Give Express and Post Office. It costs you nothing for a trial, and I will cure you. Address Dr. H. G. ROOT, 183 Pearl St., New York.

MASON & HAMLIN ORGANS

are certainly best, having been so decreed at every Great World's Industrial Competition for Sixteen Years; no other American organs having been found equal at any. Also cheapest. Style 109; 3½ octaves; sufficient compass and power, with best quality, for popular sacred and secular music in schools or families, at only $22. One hundred other styles at $30, $57, $66, $72, $78, $93, $108, $114, to $500 and up. *The larger styles are wholly unrivaled by any other organs.* Also for easy payments. New Illustrated Catalogue free.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcule which cause these unsightly, irritable, painful affections, and always produces a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Hardie, and every year it is used more and more favourably to its widely increasing reputation. Anyone, however deeply and hopelessly affected with Skin Disease, should apply Sulpholine as quickly as possible. In a few days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution. In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d. Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Burke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC tones and develops the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine. Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6d. Sold by all chemists. A most valuable and [illegible] medicine for India, Australia, the Cape, and [illegible] generally.

RUFFIANLY ATTACKS.

Four Men Receive Severe Blows at the Hands of Two Others.

On Saturday evening two men, one at least of whom is well known in police circles, created an excitement by attacking others, evidently without much caring whom they struck. Three men, Messrs. Daniel Cushing, W. Hooper and D. Diag were in Chamberlain's saloon, when the two men named John Wilson and McHarry entered. It is said that they, without a word of explanation or warning, proceeded to attack Cushing, who was struck on the head and knocked down. Mr. Hooper remonstrated with them, and immediately one of the men turned and dealt him a blow which rendered him unconscious. Diag stooped to pick up Mr. Hooper, when he was also struck in the face and received an additional blow. The two men then departed quickly. The whole affair only occupied a few moments, but Cushing had received two cuts on the head, Diag had an ugly cut under the eye, and Hooper had received a severe blow above the eye, which left the imprints of the knuckles and almost closed his eye. It seems that Wilson and McHarry were not satisfied with what they had done, and their next attack was made upon another innocent man. Mr. Samuel Milligan, who is in the employ of Mr. Geo. C. Rogers, was standing on the sidewalk on George street, between Simcoe and Hunter streets, holding a horse while his wife was in a store making a purchase. He saw the two men coming, and recognized McHarry. He turned to look towards the horse, and while his back was turned the two men came up and struck him a blow on the head. He turned and caught him, when the second man struck him on the other side and knocked him down. Milligan received a cut on the head and on the face, and a severe gash on his hand. The ruffians ran down the street and turned west on Simcoe street, but they were pursued by the constables and captured. It appears that the two men had a grudge against Cushing, whom they first attacked, and it is supposed that they mistook Milligan for him. The men who were attacked believe that artificial knuckles or other weapons were used. The four victims, although severely handled, were not disabled, and are around, bearing the marks of the severity of the blows.

Wilson was committed to gaol to await his trial on Wednesday, and McHarry was admitted to bail, being bound over to appear on the same day.

Calendar.

Mr. A. Waldie, the agent of the Sun Life Assurance Company of Canada, has presented us with a very handsome and originally designed calendar for 1883.

Sunday School Mass Meeting.

A report of the Sunday School mass meeting yesterday, with a synopsis of the addresses, was crowded out to-day, and will appear tomorrow.

Legal.

The following appears in the *Mail's* report of the proceedings before Haggarty, C. J., Armour, J., and Cameron, J., on Saturday:—

"OTTOSEN v. SPROULE.—Action against a physician for malpractice tried at Peterborough before Osler, J., and a jury, when the plaintiff was non-suited. Judgment. Order *nisi* absolute, setting aside the non-suit and for a new trial. Costs in the cause. C. W. Sawers by G. T. Blackstock for the order *nisi*; D. W. Dumble by G. H. Watson, contra."

Fell in Fits.

On Monday at noon a man named John Scott, said to belong to Port Hope, was attacked by fits at the corner of Brock and Bethune streets and fell down in the street. He was there for about an hour, and at times it took several men to hold him. A physician was summoned and he was taken to his lodgings. He is recovering from the effects of the attack, to which he is said to be subject.

A FRENCH STATESMAN DEAD.

Gambetta Said to have Received His Death Wound at the Hands of a Woman.

By Telegraph to the Review.

NEW YORK, Jan. 2.—The *Times'* Paris correspondent telegraphs that perhaps had Gambetta been like ordinary mortals he might have recovered, but high living and excesses of all sorts had brought on diabetes, which was complicated with other disorders. Throughout his illness his friends sought to conceal the gravity of his situation, and above all the agency of the woman in the tragedy. Nevertheless, no doubt is permissable that the shot which directly or indirectly caused his death was fired by a lady well known in Paris, and who is connected with one of the most honorable Israelitish families of Bordeaux. She left her husband, the consular general of the Gironde department, to follow the fortune of him by whose eloquence in Baudin she was completely fascinated, and uniting with him in 1868 she deserted her family. This connection lasted ever since. He was impatient of the chain he could not break, especially as a child was born in the succeeding year, whose paternity he refused to acknowledge. These refusals caused scenes of recrimmination, often positive violence between the lovers. The man wearied of the connection, and the woman clung devotedly to him for whom she had sacrificed her honor. Gambetta disliked the child, who was sickly but intelligent, and lived as his nephew. He resembled Gambetta in character and features. Two years ago Leonee' husband died, and she summoned Gambetta to fulfil his promise of marriage, but received another refusal. He made an agreement, however, to provide for young Leon on condition that he should be educated in Germany. The mother hesitated, but finally consented and accompanied the child and his father to Dresden. This was the journey so much commented upon last year by the European press, which was ascribed to political motives. The connection was continued after their return, Leone going every Saturday evening to his villa, where she was accepted as mistress by the servants, and returning on Monday morning in his carriage. Their quarrels also continued. Within a week three discharged domestics revealed the mysteries of the ill-starred establishment. Finally the dissension culminated in the scene of the unhappy pistol shot. Gambetta lost his temper, giving vent to abuse and coarse language, such as he was wont to employ in moments of passion. She was exasperated, seized a revolver and fired. He raised his hand to turn aside the weapon and received his death wound. Everything else is conjecture. None but they know the truth and Gambetta died, yet made no sign. The correspondent vouches for the authenticity of this version of the unhappy story and assumes entire responsibility for it, no matter how different it may be from others which may obtain publicity.

The Late Campaign.

A short time ago Sir W. G. Armstrong, President of the Institution of Civil Engineers, entertained General Lord Wolsely and the naval and military commanders of the Egyptian expedition at dinner at the Albion Hotel, London. About 150 guests were present. Responding to the toast of his health, Lord Wolsely said in the Egyptian war the military student had many opportunities of learning afforded him, for it was the first war since the Crimea that Her Majesty's troops had been called upon to meet a regular army in the field. The weapons used by the Egyptians were the same as those used by the Germans during the Franco-German war, but the great evil was that they were badly officered. The secret of our success was that we had the finest infantry in the world, commanded by the ablest regimental officers. He contended that the Egyptian artillery had made a great mistake in using the old common shell, and held that a nation was guilty of no greater sin than refusing to take advantage of modern scientific improvements in the shape of engines of war. The march from Ismailia to Cairo had proved that the gloomy anticipations of those who were hostile to the short service system were entirely unfounded.

A Bulldog Stops a Runaway Horse.

One day recently Messrs. Batchelder & Heyden's bay horse took fright and ran away, and in so doing it sprang completely out of the shafts. The man in charge immediately started after the horse, but by the time he had reached the corner the horse was making good time for Centreville. Just then the well-known bulldog belonging at the store, which had been an eyewitness of the whole affair, bounded past at the top of his speed, caught up with the horse, and seizing the reigns that were trailing on the ground, held back on them in such a manner as to bring the horse to a standstill. Several men at the moment started from the sidewalk with the intention of holding the horse, but the dog kept them at bay until the arrival of the driver, when he proudly delivered the reins into his hand, and walked off with an important air.—*Providence Journal.*

"Boys and Girls."

Why do more boys (enquires the *Pall Mall Gazette*) die than girls? For every 100 girls born into the world there are 104 boys, and it used to be imagined that the extra four boys were supplied in order to meet the extra wear and tear of life which must be borne by the bread-winners of the world. But the odd thing to which Dr. Biddle calls attention in the medical contemporary, is that the extra four per cent. of boys is wiped out by death before they attain the age of five. Why is this? Dr. Biddle makes two suggestions, first that the greater "waste of boys may be due to their higher organism; and secondly, that it may be due to the fact that our little boys are given over to the tender mercies of mothers and maids, instead of being reared by those who understand them."

Mothers! Mothers

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. 25 cents a bottle. d&w

MURRAY CANAL.

The Work of Excavation Being Rapidly Pushed Forward.

BRIGHTON, Dec. 29.—The work on the Murray canal is being rapidly pushed forward by the contractors, Messrs. J. D. Silcox & Co. Upwards of 200 labourers and two large steam derricks are now engaged in excavating the part known as Dead Creek marsh, which has been comparatively laid dry through the application of powerful steam pumps. This part of the canal, in extent about one mile, will be well advanced in the spring. Active preparations are being made for a vigorous prosecution of the work during the coming summer, to commence early in the season, when a large force of men and teams will be employed.

Santa Claus on Fire.

On Christmas at Montgomery, in New York State, there was a large attendance of children and friends of the Presbyterian church in Academy hall, to partake of a Christmas dinner and distribute presents. A Christmas tree was erected on the stage, and when the curtain rose Santa Claus appeared. In passing before the tree his wig, composed of long cotton, accidentally took fire. Instantly he was enveloped in flames; he leaped down among the crowd, who, in their haste to get down stairs, trampled each other. Somebody wrapped a coat around the victim, and forced him down upon the floor. Another gentleman who threw an overcoat at him struck a lamp overhead, which came down with a crash, spilling the oil over him. A desperate fight ensued to save his life, in the midst of which panful of dishwater played a prominent part, and the flames were finally subdued. The victim, George Smedes, is badly, but it is hoped not fatally burned. He is suffering terribly.

Mysterious Disappearance.

A despatch from Kingston says that on Friday Madame Rodenstein, relict of the late Dr. Rodenstein, of New York, disappeared, and since then no trace has been had of her. She is a middle-aged lady, medium height, very pale faced, dressed in black. The missing lady has, since the death of her husband, been very religiously inclined. At first it was thought she had gone upon some distant mission, and would return in due time. When she was not heard of on Saturday night, Detective Sullivan was sent into the country to ask if she had been seen, but failed to procure the information sought. The thought, repelled at first, is now accepted as reasonable that Mrs. Rodenstein committed suicide. To-day the harbor was dragged. Her husband was a clergyman in New Orleans. He served in the war, later on was a student in medicine, and practiced in New York. His brother is now an eminent physician in the great metropolis.

Oil in Water.

"Pouring oil on troubled waters" is an old phrase, and there are many authentic instances of the value of oil in preventing the waves breaking over a vessel at sea. Some experiments were made at Peterhead recently, and were so successful that the proposal to lay oil to the mouths of harbors by means of pipes was discussed as not a very remote project. Bottles filled with oil were sunk to the bottom of the harbor, in which the sea was breaking heavily. The oil was then released, and rising to the surface it exercised an immediate and magical effect in smoothing the troubled waters. Instead of the waves breaking, the sea became quite smooth and glassy-looking, and there was a visible softening down of the waves, which, in place of being sharp-crested, were turned into long undulating seas.

A Growing Evil.

The parent who encourages the boys and girls to look out for themselves, regardless of others, may be a shrewd adviser, as the world understands it, but it does not pay to rise up a nation of selfish people. The lack of reverence for age on the part of young people these days is a growing evil.—*Chicago Inter-Ocean.*

Free of Cost.

All persons wishing to test the merits of a great remedy—one that will positively cure Consumption, Cough Cold, Asthma, Bronchitis, or any affection of the Throat and Lungs—are requested to call at Taylor & Macdonald's Drug Store and get a Trial Bottle of Dr. King's New Discovery for Consumption *free of cost,* which will show you what a regular dollar-size bottle will do—1.

Turnbull & Gray's great Clearing Sale will be continued during January.

Gaining a World Wide Reputation.

About 150,000 bottles of medicine and 3000 Spirometers, the invention of M. Souvielle of Paris and ex-aide surgeon of the French army, have been used by physicians and patients during the last year for the cure of catarrh, catarrhal deafness, bronchitis, asthma, consumption in its first stages and many diseases of the head, throat and lungs. Consultations with any o the surgeons belonging to the institute free Poor people showing certificates can have spirometers free. Write enclosing stamp for pamphlet giving full information to either of the Canadian offices where competent English and French specialists are always in charge. Address International Throat and Lung Institute, 13 Philips square, Montreal, P. Q., or 173 Church street, Toronto, Ont.

THERE are many foolish things done in this world, and one of the most foolish (and we may add wicked) things is to neglect a Cold. Now we know that Coughs, Colds, Bronchitis, Catarrh, and all Chest, Throat and Lung Troubles if neglected, are sure to end in Consumption and Death. They may be easily cured by using as directed Dr. Carson's Pulmonary Cough Drops, there is no remedy equal to it. It never fails. Sold everywhere in large bottles tt 50 cents.

Balance of our Winter Millinery and Mantles must be cleared out. Secure Bargains at Turnbull & Gray's great sale.

A Happy New Year!

A HAPPY NEW YEAR!

One Good Turn Deserves Another.

In return for the liberal custom with which a discriminating public has favored us, during the year that is gone, we take pleasure in wishing all a HAPPY AND PROSPEROUS NEW YEAR, and think we are not going beyond our capabilities when we promise that in the future, as in the past, we shall be as faithful to your interests as we are to our own.

Daily Evening Review

TUESDAY, JANUARY 2, 1883.

LET US HAVE AN INVESTIGATION.

THE *Globe* at last comes to the defence of the Mowat Government in the Agricultural Hall matter. It is, however, of the usual character—made up of evasions and direct falsehood with regard to the issues involved—proving that although the *Globe* has changed its editor, it has not changed its character. In our issue of the 12th December, we made certain statements of what we believed and still believe to be facts, which are at last conceded by the *Globe* to be, as set forth by us, most damaging to its clients, the Mowat government. By these statements we still stand, believing that every one of them can be proved by incontrovertible evidence before any tribunal which may be appointed to investigate the matter, and as all we ask, and what we desire, is that the matter shall be investigated, it is unnecessary as well as inexpedient that we should on the present occasion point out wherein the *Globe* falsifies the record. It has on behalf of its clients, admitted the seriousness of our statements, and entered a plea of not guilty. Now, by all means let us have an investigation. If the Ontario government has, as the *Globe* says, "nothing to conceal and nothing to fear," let them at once bring down all the papers, and cause certain gentlemen whom we shall name to be properly examined as witnesses, and we shall soon see whether the *Globe* or the REVIEW is speaking the truth.

THE LIBERAL CONVENTION.

IF the liberal, or Mowat Convention to be held in Toronto, on to-morrow and Thursday, be not a great success in numbers, it will be no fault of its organizers. Not only have they secured a reduction in fares for every one—the wicked Tory as well as the good Grit—but they have brought their influence to bear upon the licensed victualers to induce them to reduce their rates during the days named. Under these circumstances a goodly number of Mr. Meredith's supporters, as well as those of Mr. Mowat, will unquestionably take advantage of the cheap fares, the cheap board, and no doubt cheap drinks, to visit Toronto this week, and they are perfectly right in doing so. We wish Mr. Mowat would get up a convention every time we want to visit Toronto.

THE MARKET.

To the Editor of the Review.

SIR,—I have noticed for a long while that the Market House and often the Market Square, is too much crowded, especially on the Saturdays. Would it not be far better to divide the market, say the grain, hay, straw and cord wood in what I would call the South Market, and all other stuff, such as pork, beef, poultry, butter, eggs &c., at the Drill Shed, which I would call the North Market? Everyone knows who has tried it, what a confusion it is to get up into the Market House and down again on the Saturday forenoon, though I am sure Mr. Beavis and Mr. Doherty do all they can to keep order, while the Drill Shed is standing empty and while you must admit that one is as central a place as the other.

Yours Truly,
December 29, 1882. MARKET MAN.

KEENE.

From Our Own Correspondent.

FATAL ACCIDENT.—A young man named William Dickson, whose family live in Cardiff, but who has been working in this neighborhood for some months past, was struck by a falling tree on the afternoon of the 28th December. Dr. Shaw, Keene, attended, but medical skill was of no avail. He died at about 6 p. m. the same day.

METHODIST SABBATH SCHOOL INSTITUTE.—The 4th quarterly meeting of the Institute was held at Bethel Church on Wednesday, 27th December, at 2 o'clock p. m., the President in the chair. The opening religious services were conducted by Dr. Harrison, after which the several subjects for discussion were brought before the meeting, the first speaker being Mr. Wm. Kindred. The Institute adjourned at 5 p. m. for tea, etc., provided by the friends who reside in the neighborhood. The evening session commenced at 7 p. m. with opening religious services by the President, the Rev. J. Toveland. The new organ for the church arrived during the afternoon from Bell & Co.'s factory, Guelph. It is a very fine toned instrument, and was fully tested by Mrs. Dr. Harrison, who took charge of the musical programme with marked success. Sacred songs were heartily rendered by the choir and the large congregation in attendance. This was the most successful meeting yet held, and all expressed themselves highly pleased and profited by their attendance, the success being due in a great measure to the tact and ability of the conductor, Dr. Harrison.

MUNICIPAL ELECTIONS.

THOSE SELECTED BY THE PEOPLE TO SERVE IN THE COUNCIL DURING 1883.

A Quiet Election—Four of Last Year's Councillors Drop Out—The Votes Polled in Each Ward.

The municipal elections on Monday passed off quietly, compared with years when there is a contest for the Mayoralty. However, considering that there was no contest for the Mayor's chair, the ratepayers having been pleased to reward merit by again electing Mr. H. H. Smith without opposition, and that one Ward returned its quota to the Council by acclamation, there was considerable interest manifested in the election. The canvass was a brisk one, the chief topic discussed during the contest being the waterworks, in regard to which several of the old Councillors stated that a false impression had got abroad and had influenced voters against them.

Four of last year's Councillors will be missed from the Council board this year. In the First Ward Mr. Alford did not again seek election, and his place has been filled by Mr. R. S. Davidson, who will be able to give good counsel on matters affecting the town. Mr. Poussette, in the Second Ward, did not go to the polls, and his seat will be occupied by a gentleman of the same profession, Mr. C. W. Sawers. Mr. Poussette's voice and counsel will be missed by his colleagues of the last year, but, although Mr. Sawers is new in public life, much is expected from him. Mr. Wilson, in the Third Ward, has not been returned, but he has the satisfaction of knowing that, even if he did come behind in the contest, he was running against men of ability. Mr. Yelland goes into the Council with the light of past experience in the same capacity. Mr. Richardson's quaint remarks and good advice will be missed, but his place has been filled by a gentleman not untried in the Council, Mr. J. J. Hartley. The ratepayers in the three Wards had good material to choose from, as the candidates were gentlemen who would serve the town well in the Council, and the general opinion is that they have returned men who will legislate wisely.

The following are the returns from the Wards:—

WARD NO. ONE.

Thos Cahill	187
John McNaughton	178
R S Davidson	144
Adam Hall	131
S F Allen	122
John Corkery	86
J. Bell	21
G B Sproule	5

Mr. Sproule was not a candidate, but as he had been nominated, his name appeared upon the ballot papers.

WARD NO. THREE.

John Douglas	188
Wm Yelland	180
A Rutherford	167
Geo Burnham	141
E B Wilson	111
R E Wood	87
H B Merrick	7

Mr. Merrick, between the days of nomination and polling, had announced his withdrawal.

WARD NO. FOUR.

Thos Menzies	111
Henry Denne	88
J J Hartley	86
Chas Richardson	80
Thos Gemmill	41
A H Clegg	24

In Ward No. Two, W. Paterson, jr., Thos. Kelly and C. W. Sawers were returned by acclamation.

In the evening, after the result was known, a number of the ratepayers congregated in the Council Chamber, and several of the successful candidates returned thanks for the support given them and explained their views on various questions.

LAKEFIELD.

R. C. Strickland, Reeve, by acclamation. Councillors, Wm. Cox, sr., 109; Thomas Jos. Nelson, 89; Kenneth Urquhart, 80; John H. McWilliams, 78; Wm. J. Wallace, 67; Richard Hill, 54. The first four were elected.

NORTH MONAGHAN.

For Reeve—Mr. H. Collins, 128; Mr. Barnard, 70. For councillors—Messrs. Dunlop 132, Forster 132, Brealy 129, Brownscombe 123, Dobbin 98, Robson 68, Clark 23, and Young 27. Messrs. Young and Clark had withdrawn their names.

SOUTH MONAGHAN.

For Reeve—Rutherford 104, and Willan 70. For Councillors—Perrin 110, Riddel 109, Lightfoot 108, Byers 101, and Parker 60. The first four councillors were elected.

Bucklen's Arnica Salve.

The best salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Taylor & Macdonald.

WALTER LINTON, of Waterloo, writes that Hagyard's Yellow Oil has done great good in his family, his wife being cured of Callouse lumps that other medicines failed to remove, he he also states that a neighbor was promptly relieved of Rheumatism by the same remedy.

WORTH KNOWING.—A Fact Worth Knowing. The best household remedy known for Coughs, Colds, Bronchitis, Asthma, Whooping Cough and all throat and chest troubles tending toward Pulmonary Consumption is Hagyard's Pectoral Balsam, to be procured of any druggist.

OMEMEE.

A BAD TUMBLE.—The *Herald* says that one day last week as Master Geo. Kincaid started to go up stairs in Grandy's tin shop, he opened the wrong door and fell into the cellar, receiving a very painful sprain of one of his arms.

ACCIDENT.—On Thursday, while Mr. J. Kent was engaged working in one of the cuts of the Missing Link, he was struck on the back of the left hand by a pick which penetrated to the palm causing an ugly as well as a painful wound. On account of this "Jimmy" will be compelled to take several weeks for his Christmas holidays.

MAMMOTH HORNS.—On Wednesday Mr. Michael Lowes, returned from Manitoba bringing with him a present for Mr. John Blackwell in the shape of a set of Elk horns of the following extraordinary dimensions:—4 feet 6 inches long—circumference, 10½ inches—between the horns at the roots 9 inches—from tip to tip 6 feet. Each horn carried seven branches. Mr. Blackwell has them on exhibition in his bar.

COBOCONK.

From Our Own Correspondent.

TEA MEETING.—The anniversary of the birth of our blessed Saviour was celebrated by the good people of Coboconk, by a grand tea meeting in the Canadian Methodist Church of that place. The holiday season, the beautiful weather, the lively interest manifested by the people in the advancement of the church, all contributed towards making the meeting a very enjoyable one. After ample justice had been done to the sumptuous repast prepared for the occasion by the committee of ladies, led by Mrs. Geo. Graham, the meeting was called to order and John [illegible], Esq., elected chairman, which position he very ably filled. Able and instructive addresses were then delivered by Rev. W. M. Pattyson, pastor of the Mission, and Rev. W. A. V. R. Pattyson, of Canton, and others. The proceeds, which were to be applied to the funds of the Missions, amounted to the handsome sum of $46.26.

NORLAND.

From Our Own Correspondent.

PRESENTATION.—On the evening of the 26th December a large assembly of the Norland and Beech Lake appointments met at the residence of Mr. H. A. McLaughlin, Esq., of Norland, when the following address was read :—

Mr. Pattyson, Reverend and Dear Sir :

We, the people of the appointments of Norland and Beech Lake, take the liberty on this occasion to express our earnest regard for yourself and your estimable family, our high esteem for you as our pastor, and appreciation of your earnest labors among us. During our short association with you we have not failed to notice and to appreciate the earnestness with which you have labored in our midst. Your earnest discharge of your pastoral duties, your kindly affable manner, your interest in our welfare, both spiritual and temporal, your conduct gentlemanly and kind on every occasion, have led us to reverence you as a pastor and respect you as a gentleman and a friend.

Dear sir, allow us to present you with this robe, this cap, and these gauntlet mitts, which we ask you to accept, not for their intrinsic value, but as a small token of our esteem for yourself and Mrs. Pattyson. We trust that they may be useful in the present and many future winters, and add to your daily comfort. We wish you, your wife, and family, all the compliments of the season, a "Merry Christmas" and a "Happy New Year," with many bright returns of the season. We pray that God may abundantly bless your labors and grant you health and strength to labor in His church for many years, and finally a triumphant entry into Paradise.

Signed on behalf of the people of Norland and Beech Lake by

D. STAPLE, H. A. MCLAUGHLIN,
A. HASTINGS, WM. WINTERBURN.

The Rev. Mr. Pattyson, in his response to the address, remarked that, in the proceedings with which he had been connected for the last few days, he might be compared to the Lord Chancellor of England seated on the Woolsack. On Thursday night he had been presented with a pair of the royal "orange and blue" mitts, and now as he was being robed and crowned like that dignitary, the gauntlet had been thrown down, and thus he could vie with the Lord Chancellor. The clothing and protection of the outer man was, he said, emblematic of the preservation and renewal of the grace within. The reverend gentleman thanked the assembly heartily for the interest which they had so strikingly manifested in himself and family, and assured them that he should ever retain in his heart an interest in their spiritual welfare. Remarks were made by various persons present expressive of the general good feeling experienced by all. So highly did this feeling pervade in the company that one gentleman, a prominent member of another branch of the church, to the delight of all, arose to express the determination which he and his family had arrived at, of joining themselves to the Canadian Methodist Church. After a hearty vote of thanks to the Chairman, Adam Hastings, Esq., and to the host and hostess of the evening, the meeting was closed by singing the Doxology and pronouncing the Benediction.

Personal ! To Men Only !

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

FROM ALL OVER.

LORD NAPIER, of Magdala, has been raised to the rank of field marshal.

MONTENEGRO is understood to have accepted to terms of the territorial settlement offered by Turkey.

CHOLERA is making havoc among the Mohammedan pilgrims in Arabia. There are ten deaths daily at Medina.

MR. JOHN FELL, of Somerville, has received the Conservative nomination in North Victoria for the Local Legislature.

HARRY A. GARFIELD, son of the late President, has been elected editor of the Williams College *Athenæum*.

THE fate of the proposal Passion Play at New York is sealed, the Mayor having refused his permission for its production.

CATARRH is the seed of Consumption, and unless taken in time is a very dangerous disease. Hall's Catarrh Cure never fails to cure. Price 75 cents. For sale by John McKee, druggist.

OSCAR WILDE, probably owing to his patent medicine hair, has been taken on the streets for Buffalo Bill. Mr. Bill intends to shoot him on sight.

IT is said by his friends that Mr. Parnell is trying to sell his Irish estates in order that his tenants may have a chance to take advantage of the purchase clauses of the Land Act.

ONE OF OUR BEST CITIZENS would say to the public that he has tried Hall's Catarrh Cure, and that it is all that is claimed for it. Price 75 cents per bottle. For sale by John McKee, druggist.

JUDGE LORANGER, of Montreal, decided yesterday that labour unions for extorting higher wages are illegal, and awarded an employer twenty dollars damages against a member of a union who induced a fellow-worker to leave his employer's service.

LITTLE BY LITTLE.—The constant dropping of water will wear away even the hardest stone. So the constant irritation of a cough will so wear upon the lungs as to induce incurable Consumption. Hagyard's Pectoral Balsam will cure the worst cough, speedily and effectually.

FORTUNATELY Valvular disease of the heart is not very common, its disturbed action may be due to indigestion, liver irregularities &c. A Stomach disturbed with wind, or indigestable food will cause pain and fluttering by crowding on the nerves of the heart. Burdock Blood Bitters will speedily remedy all such difficulties.

DO YOUR CHILDREN have fits or convulsions, grind their teeth, pick their nose, have a bad breath, or a changeable appetite? Are they restless or feverish at night? If so, ask your druggist for Dr. Smith's German Worm Remedy (take no other), it only costs 25 cents. Is simple safe, and pleasant to take. If there are no worms, to remove the slime and bile that breeds them, tones up the system, and will save many a doctor's bill. A word to the wise, etc. Thousands of testimonials.

It always gives us pleasure to draw attention to articles which are deserving of public patronage. Probably no article ever offered to the public has met with the same success as Gray's Syrup of Red Spruce Gum. Thousands of families in the Dominion keep it in their homes as the standard Cough Remedy. The sale of this article has assumed enormous proportions. Our advice to the public at large is to try its virtues if they should at any time unfortunately contract either Coughs or Colds. It is sold by all chemists.

Do not take pills or powders containing Calomel, at this time of the year, the result may be serious. If you require a dose of physic take Dr. Carson's Stomach and Constipation Bitters; it acts gently on the Bowels, purifies the Blood, improves the circulation, stimulates the Liver and Kidneys, and speedily cures Billiousness, Headache, Dyspepsia, Indigestion. Search the Drug Stores from one end of Canada to the other, and you cannot find a remedy equal to it. Try it and use it in your families. Sold everywhere in large bottles at 50 cents.

"TWENTY-FOUR YEARS' EXPERIENCE," says an eminent Physician, convinces me that the only cure for "Nervous Exhaustion" and weakness of the generative organs is to repair the waste by giving Brain and Nerve Foods, and of all the remedies I have used Mack's Magnetic Medicine is the best. This remedy is now sold by all our Druggists at 50 cts. per box, or 6 for $2.50, and on receipt of an order for 12 boxes, accompanied with $5.00, addressed to Mack's Magnetic Medicine Co., Windsor, Ont., they will forward the goods free by mail, and send their "written guarantee" to refund the money, if the treatment does not effect a cure. See adv't in another column.

PORT HOPE.

CONTEMPTIBLE.—The *Times* says that Mr. Samuel Wilson, of Hope, left his team in the churchyard at Garden Hill on Christmas day, and while he was in the building some miscreant made a wreck of his harness by cutting his tugs and lines to pieces. This act should not go unpunished, and it is believed a reward will be offered for the arrest of the rascal.

MILLBROOK.

SENTENCED.—Fallis, who assaulted the Rev. Rural Dean Allen, has been tried for the act. The *Messenger* says that Police Magistrate Holland, of Port Hope, was sent for to assist the Reeve in conducting the case. After the evidence was taken their Honors sentenced Fallis to two months in gaol at hard labor, to give security, himself in $500 and two sureties of $250 each, to keep the peace for one year towards Rev. Mr. Allen and all Her Majesty's loyal subjects; and to be kept in gaol until such security is given, or until he is discharged in due course of law.

The Great American Remedy for COUGHS, COLDS, ASTHMA, BRONCHITIS, LOSS OF VOICE, HOARSENESS AND THROAT AFFECTIONS.

Prepared from the finest Red Spruce Gum. (Delicious Flavor.) Balsamic, Soothing, Expectorant and Tonic. Superior to any medicine offered for all the above complaints. A scientific combination of the Gum which exudes from the Red Spruce tree—without doubt the most valuable native Gum for Medicinal purposes.

Every one has heard of the wonderful effects of the Spruces and the Pines in cases of lung Disease. In France the physicians regularly send their consumptive patients to the pine woods and order them to drink a tea made from the Spruce tops.

GRAY'S
SYRUP
OF
RED
SPRUCE
GUM.

In this preparation the Gum never separates, and all its anti-spasmodic, expectorant, tonic, and balsamic properties are preserved. This Syrup, carefully prepared at a low temperature, contains a large quantity of the finest picked Gum in complete solution.

Its remarkable power in relieving certain forms of Bronchitis, and its almost specific effect in curing obstinate hacking Coughs, is now well known to the public at large.

Sold by all respectable chemists. Price, 25 and 50 cents a bottle.

The words "Syrup of Red Spruce Gum" constitute our Registered Trade Mark, and our wrapper and labels are also registered.

KENDALL'S SPAVIN CURE,

The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

From Rev. P. N. GRANGER,

Presiding Elder of the St. Albans District.

ST. ALBANS, Vt., Jan. 29th, 1880.

DR. B. J. KENDALL & Co., Gents :—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming, I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bunch be found.

Respectfully yours, P. N. GRANGER.

PERSEVERANCE WILL TELL.

STOUGHTON, Mass., March 16th, 1880.

B. J. KENDALL & Co., Gents :—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me, its sale will be very great.

Respectfully yours, CHAS. E. PARKER.

KENDALL'S SPAVIN CURE is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, callous, sprains, swellings, and lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price $per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & CO., Enosburgh Falls, Vt.

TUESDAY, JANUARY 2, 1883.

LOCAL AND MUNICIPAL.

The Cells.

One tramp occupied the cells last night, and they were empty on Saturday and Sunday nights.

Board of Education

A regular meeting of the Board of Education will be held this evening in the usual place at 7:30 o'clock.

Special Meeting.

The Otonabee Lodge of Oddfellows No. 13, will meet in special session this (Tuesday) evening, at 7:30 o'clock. Advancement to the 3rd. It is expected there will be a large attendance.

Dessert Knives and Forks.

A beautiful set of Dessert Knives and Forks with carved ivory handles, and engraved electro-plated blades of the best Sheffield manufacture, at R. W. Muncaster's.

Official Declaration.

At noon to-day, as provided by law, the formal declaration of the election of the Mayor and Councillors for the Town of Peterborough, was made by Mr. C. D. Macdonald, as returning officer, without any audience.

A Serious Offence.

Another forged letter in reference to a supposed dancing competition in Peterborough appears in Monday's *Mail*. This time it is Mr. Thos. Beavis who is the victim, and unjustifiable liberties are taken with the names of several gentlemen. It may be supposed by the perpetrators that these are good jokes, but the forgery of another man's name even in jest is a serious offence, and they may find before the matter is ended that they may not escape the punishment they richly deserve.

Fire.

At about half-past two o'clock on Monday morning the firemen were called upon to begin the new year by fighting flames. An old building on Sherbrooke street, which belonged to the Poole Estate, was burned. The building was used some years ago as a furniture factory, but it has been empty for several years, and at the time of the fire was unoccupied. It was insured in the London, Liverpool and Globe for $400, and was probably worth $600. The firemen succeeded in saving a frame building close to it. The origin of the fire is unknown.

At Smith's Market.

Oysters in bulk and tins; Apple Butter, Minced Meats, very superior, manufactured by Clark & Hessin; Red Curran Jam in pails, 2½ lbs. each; Grapes, Oranges, Lemons, Pears, Apples, Cranberries, Sardines; canned Peaches, Pears, Strawberries, Raspberries, Pine Apple, Cherries, Green Peas, Green Corn, Tomatoes, Lobster, Salmon, &c. Pickles in bulk and bottle; Horse-radish and all kinds of Sauces, Sea Salmon and other kinds of fresh Fish; Venison, Partridges, Turkies, Geese, Chickens and a superior lot of small Fresh Hams. Orders received by telephone from 8 a.m. until 9 p. m. Parties likely to be interested in any of the above specalities will take due notice and govern themselves accordingly.

Theatrical.

Waterman's Ideal Double Uncle Tom's Cabin Company will appear in Bradburn's Opera House this evening in that old and much admired play, dramatised from Mrs. H. B. Stowe's famous work. The manner in which this company present the play is highly recommend. The following is from the Kingston *Whig*:—

> "On both occasions yesterday, when this old and thrilling drama was produced at the Opera House, there was a jam. At the matinee, long before the curtain rose, only standing room was announced. Every available seat was occupied. The two Topsys were fine, and by their antics kept the house in a merry mood. The twin Marks were also received with great applause. Eva was represented by a child of rare talent, and her sweet and unaffected acting brought the tears to many eyes. Uncle Tom's part was well sustained. The entire Company is above the average and worthy of patronage."

Mechanics and Farmers buy your Underclothing at Turnbull & Gray's great sale.

POLICE COURT.

THEFT.

TUESDAY, Jan. 2.—Henry Hodgins was charged with stealing a coat from Mr. Bell's Hotel, the property of a boarder. The theft was committed on Sunday morning. He pleaded guilty, and was sentenced two months in gaol at hard labor.

The Georgia Minstrels.

On Saturday night Wren's "Georgia Minstrels" were greeted by a small house, and it was larger than they deserved, for a poor entertainment cannot expect to draw a large attendance.

At the Court.

There was a large attendance at the Police Court this morning, as it was expected by many that the two men who committed the assaults on Saturday night would be tried, but they were disappointed, for the trial will not take place until to-morrow.

A Double Track.!

The laying of the double track on the Grand Trunk between Toronto and Montreal was commenced near Toronto last week. Three miles of the second track have so far been laid. The bridge over the Moira at Belleville is to be prepared for the double track.

The Weather.

The weather to-day is cool and cloudy. The weather probabilities for this district for the folllowing, 24 hours, as reported from Toronto at 10 a. m. to-day, by the Great North Western Telegraph Company, are as follows:—South west to north west wind; cloudy to fair colder weather, with snow flurries in some localities.

Did Not Stand.

Messrs. Sproule and Merrick, whose names appear in the municipal election returns with five and seven votes respectively, did not stand, the latter having announced his withdrawal through the press, and the former, who was nominated without his consent, having privately made it known that he did not wish to be a candidate.

Firemen's Ball.

The ball given in the Opera House on Monday night under the auspices of the Fire Brigade and the Band was attended by upwards of seventy-five couples. The Band opened the proceedings with the Grand March, and the Band orchestra supplied the music during the evening. The amusement was continued until three o'clock. The proceeds were for the benefit of the Band.

A Runaway.

On Monday a horse belonging to Mr. Darcy ran away and did considerable damage to the cutter. Mrs. Darcy and her sister had been driving, but they got out of the vehicle at the foot of Smithtown Hill and one of the ladies was holding the reins. Some boys who were coasting on the hill came past in a hand-sleigh and frightened the horse, which broke loose and sped away at a rapit rate. The cutter was soon left behind, and the horse proceeded on its course with the shafts, until it fell near the corner of Water and Hunter streets, when it was secured. One of the legs of the animal was scratched, but it was otherwise unhurt. Another warning against coasting.

Sound Reason.

We are getting in large shipments of oysters in bulk and cans, direct from the packers in Baltimore, and as we buy in large quantities, we can positively sell cheaper than has ever been done in our line in Peterborough before, which the following very low figures will show: Bulk oysters, 35 cents per quart; can oysters from 25 cts. to 40 cts. Large fine flavored Valencia Oranges, 25 to 30 cts. per dozen; Lemons 20 to 25 cts. per dozen; Malaga Grapes 25 cts. per pound. Dates, Figs in boxes and mats, Nuts and Candies, all on hand for the holidays. To persons buying in large quantities from us a fair reduction will be made. We are getting up some very handsome cakes for the holiday trade, beautifully iced and ornamented, and of the most artistic designs. Genoa cake, Butter Platzchen cake, Chocolate cake, Raisen cake, Jelly cake, Cocoanut cake, White Rosebud cake, Lafayette's cake, Maderia cake and Fruit cake, and an immense variety of small cakes always on hand. We bake every day, and can guarantee fresh goods. All orders for wedding and other cakes promptly attended to. Any person having any home-made cakes to ice will kindly oblige by sending in their orders at once, as we are now very busy. All orders filled in rotation. Don't forget the place: South Store, opposite the market square; north store, nearly opposite the express office.

CARTON BROS.

IF YOU WANT large fresh oysters dished up in good style, go to T. Darcy's Restuarant and Oyster Parlour.

Shiloh's Consumption Cure.

This is beyond question the most successful Cough Medicine we have ever sold, a few doses invariably cure the worst cases of Cough, Croup, and Bronchitis, while it's wonderful success in the cure of Consumption is without a parellel in the history of medicine. Since it's first discovery it has been sold on a guarantee, a test which no other medicine can stand. If you have a Cough we earnestly ask you to try it. Price 10 cts., 50 cts. and $1.00. For sale by J. D. Tully.

MR. THOMAS W. RACE, Editor and Proprietor of the Mitchell *Recorder*, writes that he had a prejudice against Patent Medicines, but being induced to try Burdock Blood Bitters, for Billiousness that occasioned such violent headache and distress as to often disable him from work. The medicine gave him relief, and he now speaks of it in the most favorable terms.

GOOD ADVICE.—If our readers will accept proffered advice, they will always keep a bottle of Hagyard's Yellow Oil at hand for use in emergencies, such as Burns, Scalds, Wounds, Lameness, Croup, Chilblains, Rheumatism and all varieties of aches, pains and inflammations. It will ever be found reliable.

Our stock is reduced all round. Cashmeres and Dress Goods very cheap, at Turnbull & Gray's great sale.

Horsford's Acid Phosphate.

LEMONADE.

Dr. C. C. Olmstead, Milwaukee, Wis., says: "I use several bottles in my family, annually, as 'lemonade'; I prize it highly."

Fortunes for Farmers and Mechanics.

Thousands of dollars can be saved by using proper judgement in taking care of the health of yourself and family. If you are Bilious, have sallow complexion, poor appetite, low and depressed spirits, and generally debilitated, do not delay a moment, but go at once and procure a bottle of those wonderful Electric Bitters, which never fail to cure, and that for a trifling sum *of fifty cents.—Tribune.* Sold by Taylor & Macdonald—1.

Answer This Question.

Why do so many people we see around us seem to prefer to suffer and be made miserable by Indigestion, Consumption, Dizziness, Loss of Appetite, Coming up of the Food, Yellow Skin, when for 75 cts., we will sell them Shiloh's Vitalizer, guaranteed to cure them. For sale by D. J. Tully

Shiloh's Catarrh Remedy.

Why The People Come Back to Us!

Is our trade in CLOTHING of that Character that serving—say a young man—once we never see him again? Not probable. Nor is it likely to take that character.

When a young man needs CLOTHING he wants something like a stock, a department, to select from. Don't you get that with us? He wants his Clothes well put together and run no risk of unnecessary ventilation, either; or at least have it come upon him unexpectedly. He don't care for seams like whip-cords in his pants legs, or his coat collar. showing inches of room behind his neck. This touching Clothing. Another word here, we'd say. Don't jump to the conclusion that we don't keep certain goods because you don't see them mentioned in our advertisements. If you do you'll make a mistake. It's impossible, where we have so varied a stock of goods, to make mention of them all. We even may fail to mention some at all. So don't limit your ideas of our stock to our advertisements. As for what we say in them much more remains unsaid. There's nothing new, desirable or fashionable we haven't got. TRY US.

THE

PACIFIC NORTHWEST!

Oregon, Washington, and Idaho.

Offers the best field for emigrants—viz.: a mild, equable, and healthy climate; cheap lands of great fertility, producing all varieties of Grain, Fruit, and Grasses in wonderful abundance; an inexhaustible supply of Timber; vast Coal Fields, and other mineral deposits; cheap and quick transportation by railroads and river navigation; direct commerce with all parts of the world, owing to its proximity to the Pacific Ocean.

NO DROUTHS, NO INSECT PESTS, NO HURRICANES, WHIRLWINDS, OR OTHER DESTRUCTIVE PHENOMENA.

The lands of the Pacific Northwest show an average yield of wheat per acre largely in excess of that of any other section of the United States.

No failure of crops has ever occurred.

Oregon wheat commands a higher price than that of any other country in the Liverpool market.

An immense area of very fertile Railroad and Government Lands, within easy reach of the trunk lines of the Northern Pacific R.R., the Oregon Railway & Navigation, and the Oregon & California RR. Co's and their numerous branches in the great Valleys of the Columbia and its tributaries, are now offered for sale at Low Prices, and on Easy Terms, or open to pre-emption and Homestead Entry.

The great movement of population to the Columbia region now in progress will be enormously increased by the completion of the Northern Pacific RR. and the Oregon Railway and Navigation Co's systems. This renders certain a rapid increase in the value of Lands now open to purchase or to entry under the United States Land Laws.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcule which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly affected with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine. Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

JOHN HACKETT.

Daily Evening Review

WEDNESDAY, JANUARY 3, 1883.

THE Dominion Parliament is summoned for the despatch of business on the 8th of February. We received a special despatch to this effect from Ottawa yesterday afternoon, but too late for insertion in that day's issue.

POLICE COURT.

THE ASSAULT CASES.

WEDNESDAY, Jan. 3.—Wm. Meharry and John Wilson were charged with having on the 30th of December, committed an assault on David Diog with intent to do grievous bodily harm.

Mr. C. A. Weller, County Attorney, conducted the prosecution, and Mr. W. H. Moore appeared for the prisoners, Mr. O'Meara for Diog and Hooper and Mr. Burnham for Milligan.

The prisoners elected to be tried with a Jury.

DAVID DIOG, sworn, said:—I live in North Monaghan; was in Chamber's Saloon on Saturday night; saw the prisoners there; D. Cushing, Mr. Hooper, R. White, John Donavan, John Tully, were in the saloon, and there might have been more present; I was talking to Mr. Tully; the prisoners came in with a rush, and went towards the end where the stove was; heard Mr. Hooper say "For the love of God don't kill the man, give him a chance for his life;" turned around towards Mr. Hooper and saw him falling; stooped to pick him up and was struck, by whom I don't know; was knocked from one side of the bar to the other; was struck three times; do not know who struck Mr. Hooper; I was knocked unconscious; do not know what I was struck with; bled a great deal and was driven to Dr. Kincaid's, who dressed the wounds; the wounds on my face are the wounds I received then; never had any conversation with the prisoners that I remember.

CROSS-EXAMINED.—I knew the prisoners by eye-sight; the prisoners came into the door on a kind of a half run; I recognized the prisoner; there was nothing in the way they came in that would intimate that they intended to assault anybody; saw no drunk persons there that night; I had been drinking, but was not drunk; I had a whip, but struck no one with it; could not say that Meharry was there when I was struck, but he came in with Wilson; I was not tramped on; there might have been a dozen in the house; Cushing was at the end of the bar by the stove when the prisoners came in.

RE-EXAMINED.—Don't know what took place while I was unconscious; this took place at about half past six in the evening.

DANIEL CUSHING, sworn, said:—I was in Chamberlain's on Saturday evening; was in the saloon when the prisoners came in; they came in together; I was standing talking to John Donavan and R. White; the prisoners walked to the end of the bar and Wilson struck me; I tried to get out, and went towards the front door, but met Meharry, who struck me; I heard Hooper speak, and Wilson then struck Hooper; saw Meharry strike Diog, and then Wilson struck him twice; Wilson had something in his hand, metal or steel; did not see Diog speak to the prisoners or interfere with them.

CROSS-EXAMINED.—Saw the prisoners come in the door, one after the other; believe there is an old grudge between Wilson and me; Wilson struck me and staggered me into a stall; Wilson raised his hand with artificial knuckles, but I got away from him, and as I came out of the stall Meharry struck me; the prisoners did not speak a word until they struck; Hooper spoke to the prisoners and Wilson struck him; saw Diog; he had a whip, but did not see him try to strike anyone; saw both Meharry and Wilson strike Diog; saw the artificial knuckles on Wilson's right hand.

ROBERT WHITE, sworn, said:—Was in Chamberlain's saloon on Saturday evening at about half-past six; I was at the end of the bar; Cushing came to me to speak to me; Wilson and Meharry came in together and came where Cushing was and Wilson struck him; Meharry also struck Cushing; saw Wilson strike Diog; saw something in Wilson's hand; the prisoners said nothing to anyone before they struck Cushing; did not see Diog strike anyone.

CROSS-EXAMINED—Don't know what Wilson had in his hand; when Wilson struck Cushing Meharry said "Murder the —— ——;" Cushing did not try to strike anyone; saw Wilson strike Doig; six or seven persons came in about the time when Cushing was struck; didn't see Meharry strike Doig; I caught hold of Meharry by the coat, but when I saw Hooten and some more come in I let him go; I did not strike Meharry.

Mr. MOORE contended that there was no evidence against Meharry.

The MAGISTRATE said that he thought they were both engaged in the assault, and he would commit them for trial.

THE HOOPER CASE.

In the charge against Wilson for committing an assault against Thos. Hooper, the prisoner pleaded guilty to a common assault.

Judgment was reserved.

THE MILLIGAN CASE.

In the case against Wilson for assaulting Samuel Milligan with intent to do grevious bodily harm, the prisoner elected to be tried by the Magistrate.

SAMUEL MILLIGAN, sworn, said:—I live in Ashburnham; I was in Peterborough on Saturday night; I was on the sidewalk near of the Eight Cent Store; it was somewhere about half-past seven; I was looking down street when I was struck; it staggered me, and as I recovered I caught a man; then I received another blow which knocked me down; I got five cuts on the head and one on the hand; Dr. Burritt attended to my injuries; I do not know who struck me or what I was struck with; remember being beaten by two men while down; I said to them that they had the wrong man, but they did not desist until persons began to gather around.

CROSS-EXAMINED—I was looking south; there were two persons there when I was struck; I was struck by two different men before I fell; I had not taken anything to drink that night; I know Meharry to speak to him; there was no unfriendly feeling between us.

ROWLAND HILL, sworn, said:—Was on George street, at the Eight Cent Store, on Saturday evening; saw a disturbance there; Meharry was present, and there was another man present, but I did not see his face; Milligan was standing on the edge of the sidewalk when two men came up behind him and one of them struck him; Meharry was one of the men; Milligan caught one of them and the other one struck him and knocked him down; they did not appear to strike square blows after he fell, but to "scrape" their hands across his head; did not hear a word spoken before they struck him; when the two men left Milligan they ran a short distance and continued with a fast walk; the prisoner looks like the man who was with Meharry.

CROSS-EXAMINED—Could not tell which of the men struck Milligan first; I saw Meharry strike him; did not see a blow struck by any one whom I could recognize before Milligan was lying on the sidewalk; Meharry was nearest to me; cannot say which of the men did the "scraping" I referred to; was about four or five feet from the men; did not see anything on the hands of the men.

TO THE MAGISTRATE—Both men were standing over Milligan while he was down; no other man struck Milligan but these two.

BENJ. LONG, sworn, said:—I was on the opposite side of the street; heard Milligan cry "Save me;" ran across and saw Meharry strike Milligan three times, and then go away with two others.

CROSS-EXAMINED—Did not know Milligan until he got on his feet; after Milligan got up he said, "Boys, you have made a mistake;" did not see Wilson strike him.

RE-EXAMINED.—Did not see what they struck him with; Meharry struck down, as if he had something in his hand.

CONROY, sworn, said:—I was on the opposite side of the street from the disturbance; went across the street; saw blows struck, and a man run away, but do not know who he was.

ALEX. ROSS, sworn, said:—I was coming down the opposite side of the road from the Eight Cent Store; heard a noise and ran over; Mulligan was standing up and was bleeding.

JAMES ROSS was sworn, but knew nothing of the matter.

WM. REYNOLDS sworn, said:—I was going up George street on Saturday evening; saw three men scuffling, two against one; saw both men strike Milligan, and recognized Meharry; the other man was of the build of the prisoner Wilson, but could not say it was him; both men struck Milligan after he fell; Meharry and the other man left Milligan and went down into Choate's yard; Meharry afterwards came out and went into Snowden's yard.

Dr. W. H. Burritt, sworn; said:—Milligan came to my office on Saturday evening about eight o'clock; there were five wounds on his head, one on his chin, and one on his hand; the wounds were caused by some small, hard substance; do not think they could be caused by a man's knuckles; the wound on the hand was a cut across the back of the hand; should think that a man's fist could not have made it; it would be some time before Milligan would recover the use of his hand.

CROSS-EXAMINED.—The skin can be broken by a man's fist; do not think the wounds on Milligan's head could have been done with a hand; so far as I could be positive without seeing the acts done, I am positive that they were not caused by a man's hand.

ROBERT ADAMS, sworn, said:—I arrested the prisoners in Snowden's yard on Saturday evening; the Choate yard and Snowden's yard joined each other; saw Wilson on the street corner; some one shouted arrest him, as he had nearly killed a man; Meharry and Wilson went into Choate's yard together; Wilson came out and went into Snowden's yard; met Wilson in the yard, and asked him if he was Wilson, as I had a warrant for his arrest; at first he denied it, but afterwards admitted it, and was arrested.

CROSS-EXAMINED.—Did not know Wilson, but recognize him now as the man pointed out by the crowd.

MR. MOORE contended that there was no evidence to show that the prisoner Wilson had committed the assault.

MR. WELLER replied to Mr. Moore's conention.

Judgment was reserved.

In the case of Meharry Mr. Moore was willing to accept the evidence given for the prosecution in the case of Wilson, if the case was adjourned in order that he might secure another witness.

The case was adjourned until Friday, the evidence given in the case of Wilson to be held as taken in this case, and the prosecution and defence to have the opportunity of calling witnesses then.

THE CUSHING CASE.

The case against Wilson and Meharry, in which they were charged with assaulting Daniel Cushing with intent to kill, was also adjourned until Friday.

LARCENY.

John Wilson was charged with having, on the 4th of October, stolen a quantity of liquor, the property of Wm. Bell.

The case was adjourned until Friday.

Mr. MOORE asked to have bail accepted for the appearance of the prisoners, but the Magistrate refused.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

AMERICAN.

A NEW YEAR'S THEFT.

KINGSTON, N.Y., Jan. 3.—On the return of the family of A. B. Parker Surrogate, to town yesterday, after being away for New Year's, it was found their residence had been entered and articles valued at several hundred dollars had been stolen.

ACCIDENTALLY SHOT.

MEMPHIS, N. Y., Jan 3.—On Monday night one Loomis, while carlessly handling a revolver, discharged it. The ball took effect in the abdomen of one Moher, who will die. It is said that there was jealousy between the two men.

TRADESMAN'S INSURANCE CO.

NEW YORK, Jan. 3.—It is reported that the Tradesmen's Fire Insurance Company reinsured its risks and will go out of business. Neither the stock holders nor policy holders will lose anything.

MORE STRIKES.

CLEVELAND, Jan. 3.—It is anticipated among working men, especially those employed in the manufacture of steel, iron, or mining of iron and coal, that a great many strikes of more or less magnitude will occur throughout the country during the year of 1883.

MINERS' STRIKE.

DESMONIES, Iowa., Jan. 3.—Miners in all the coal mines, in the vicinity of Desmoines, except two, ceased to work yesterday. It is expected that those in the remaining two will stop work to-day. The cause is cessational attempts to reduce the miners wages. 800 men are involved.

CLEVELAND'S FIRST PAPER.

NEW YORK, Jan. 3.—The *Tribune* says that Cleveland's first State paper is clear and straight forward, but not strong. It contains a few good recommendations, but several of first importance are conspicuous by their absence. The *Sun* says Cleveland's message is plain, simple, unaffected, and straight forward, and has signal merit of brevity. Its topics are of a practical character. Its ideas are few, but are for the most part sound. The *Times* says: On the whole the impression produced by the message is one of disappointment. The *Herald* says: It is extensively statistic and mildly suggestive.

A MURDER.

NEW YORK, Jan. 3.—During a quarrel this morning in Francis Donnelly's saloon, Donnelly shot and killed Fred. Hall, aged 22. Donnelly was arrested, and says he did it in self-defence.

A TERRIBLE DEATH.

DAYTON, O., Jan. 3.—Henry Noetton, superintendent of the Mead Paper Company's Mills, was yesterday caught in the machinery by the neck and revolved until dead.

DIVORCE GRANTED.

DENVER, Jan. 3.—A divorce was granted yesterday to the wife of Lieut.-Governor Tabor, by mutual agreement, on the ground of desertion. The agreement was made to accomplish a settlement and make things easy for a decree. Tabor deeded to his wife real property valued at $25,000. He also purchased her an interest in an hotel, paying $33,000. In view of the fact Tabor is a prominent candidate as a U. S. Senator. The affair has created a good deal of interest throughout the State.

A Novel Time Piece.

A man who was appointed watchman at a mine on the Comstock had to watch. He did not wish to buy one, yet was desirous of knowing how the time was passing. He borrowed the watch of a friend for one night. On returning the watch the next day he told his friend that he was all right now, that he had a time-keeper of his own. He then unrolled a strip of paper, some four inches in width, from a stick, and exhibited it as his clock. On this strip of paper he had marked down, as they rose above the horizon, all the stars and constellations within a narrow belt. Opposite each star was the time of its making its appearance—hour and minute. The watchman says his watch is a fine time-keeper. He has recently improved it somewhat. The slip of paper now runs on two small rollers that are placed in a small box, which has a sliding lid of glass. As the night wears away and the stars pass over, he now turns the crank of his watch and look at the time marked by the side of each. To wind up his watch he runs the tape back upon the initial roller.—*Virginia City (Nev.) Enterprise.*

A Double Danger.

A Brandon lady named Brown got lost on the prairie near Currie's Landing one evening lately, and had to remain out all night. Early in the morning she was seen lying on the snow by a settler who mistook her for a wolf and brought out his rifle, but while getting within range of her he discovered his mistake and assisted her to his house, where she was kindly cared for.

Gaining a World Wide Reputation.

About 150,000 bottles of medicine and 3000 Spirometers, the invention of M. Souvielle of Paris and ex-aide surgeon of the French army, have been used by physicians and patients during the last year for the cure of catarrh, catarrhal deafness, bronchitis, asthma, consumption in its first stages and many diseases of the head, throat and lungs. Consultations with any o the surgeons belonging to the institute free. Poor people showing certificates can have spirometers free. Write enclosing stamp for pamphlet giving full information to either of the Canadian offices where competent English and French specialists are always in charge. Address International Throat and Lung Institute, 13 Philips square, Montreal, P. Q., or 173 Church street, Toronto, Ont.

Free of Cost.

All persons wishing to test the merits of a great remedy—one that will positively cure Consumption, Cough Cold, Asthma, Bronchitis, or any affection of the Throat and Lungs—are requested to call at Taylor & Macdonald's Drug Store and get a Trial Bottle of Dr. King's New Discovery for Consumption *free of cost*, which will show you what a regular dollar-size bottle will do—1.

THERE are many foolish things done in this world, and one of the most foolish (and we may add wicked) things is to neglect a Cold. Now we know that Coughs, Colds, Bronchitis, Catarrh, and all Chest, Throat and Lung Troubles if neglected, are sure to end in Consumption and Death. They may be easily cured by using as directed Dr. Carson's Pulmonary Cough Drops, there is no remedy equal to it. It never fails. Sold everywhere in large bottles at 50 cents.

A Happy New Year!

A HAPPY NEW YEAR!

One Good Turn Deserves Another.

In return for the liberal custom with which a discriminating public has favored us, during the year that is gone, we take pleasure in wishing all a Happy and Prosperous New Year, and think we are not going beyond our capabilities when we promise that in the future, as in the past, we shall be as faithful to your interests as we are to our own.

THE CAT OUT OF THE BAG.

The following extract from an article in Saturday's *Globe* advocating the claims of Mr. Withrow upon the people of Toronto, for the position of Mayor lets the cat out of the bag as nicely as possible with regard to Canada's great show and the objects for which it was organized, is maintained and for which the people of Toronto are doing their best to kill the Provincial and every other exhibition which in any way interferes with Toronto's selfish objects:—

"It is to be doubted if any candidate for the Mayoralty in previous years ever had such a strong claim on the citizens' confidence and gratitude as has Mr. Withrow. A great number of reforms, large and small, in the practical work of the Council, were initiated and carried out by him. As an Alderman he was one of the most valuable men the city has had. It is, however, on his record as the creator of the Industrial Exhibition, and the successful manager of the undertaking for four laborious years, that he presents himself to the electorate. The greatness of the benefit conferred by him upon the city cannot easily be exaggerated. At least 100,000 strangers are brought annually into Toronto by the Exhibition. Five or six thousand exhibitors, judges, and attendants, are domiciled in the city for two weeks every year. Every stranger brought in is a new customer for our stores and factories. It is by no means overshooting the mark if the addition to the yearly trade of Toronto, directly and indirectly, by means of the Exhibition, is estimated at half to three-quarters of a million dollars annually. Think of the number of days' work represented by this sum and added every year to the resources of our labouring population."

If the Industrial has added from a half to three quarters of a million annually to the trade of the city of Toronto, other cities, towns and villages must have lost it.

THE EAST RIDING.

In the East Riding a Reform convention to re-nominate Mr. Blezard—*Grip's* model member—will be held at Norwood on Monday, the 8th inst., and on the following day (Tuesday, the 9th) a meeting of Liberal Conservatives will be held to select a candidate to contest the constituency with Mr. Blezard.

The London *Free Press* says:—

"Since Confederation thirty-five bills have been disallowed. Sir John has been in power since then about ten and a half years, and Mr. Mackenzie and Mr. Blake about four and a half. The latter disallowed eighteen out of the thirty-five, and Sir John only seventeen. Yet the Grits cry out against the principle of disallowance."

The Mystery of the Window Pane.

A singular occurrence happened at the residence of a family in the vicinity of Curtis street not long since. The tea-table was standing near a window the evening before, and next morning three small holes were found in one of the window panes next the sash lock, the glass being cracked near two of them and the other being clearly cut, as though by a pistol shot. No noise was heard during the night, and nothing was found in the room next morning to indicate that anything had been fired at the window.—*Salem (Mass.) Gazette.*

OUT FROM THE JAWS.

How a Carload of Passengers Were Snatched From Death.

Christmas Day would have been sadly marred yesterday by the occurrence of a fearful accident, but for the presence of mind of Conductor Trodden, of the C. P. R. It happened thus:—When the regular train, which left Rat Portage yesterday morning, was nearing the bridge over the Winnipeg river the driver noticed a man walking on the structure. The train approached the bridge by a curve, so that the man could not see his danger. The bridge is too narrow to permit of a person standing on one side till a train should pass, and it was impossible for him to reach the other side before the train could overtake him. To jump from the bridge was certain death, as the rushing waters of the river yawned beneath. The only course open was to clutch the outer board and, suspended between life and death, await the result. This the man did, and the train which could not be stopped came thundering on. The conductor, recollecting that the steps of the Pullman car were very low and would probably strike the man's head, rushed to the rear of the train and uncoupled the car, which by the prompt application of the brakes was stopped in time. The man pulled himself up and reached the other end of the bridge, but horror! just at this instant a freight train was observed backing around the curve, and there stood the Pullman car in the middle of the bridge, filled with terrified passengers, for the front part of the train had gone off. The engine of the freight train was attached to the rear end, so that it was impossible for the engineer to see the Pullman car. To leave the Pullman car was certain death, as the passengers had no means of escape, and they all expected certain doom, as notwithstanding the shouts of the train came thundering on. It was a forlorn hope, but it was the only hope, and quick as a flash Conductor Trodden, of the passenger train, signalled the engineer, who had gone off with the front part of the train, to back up. He saw the danger, but true to his calling reversed his engine and sped back over the bridge on his mission of mercy. He reached the car, the coupling was made, the lever thrown backward, and not an instant too soon the Pullman car and its precious load were drawn from the threshold of death. Silently and with awed faces the passengers rode to the city, each one realizing how close bad been their call. The caboose attached to the freight train was also filled with passengers, but when they saw the danger many of them jumped from the car into the snow drifts. Fortunately the Pullman car and engine were provided with patent buffers, or the accident could not have been avoided.—*Winnipeg Sun.*

HOW SOME FIRES OCCUR.

A Warning From the Chief of the Fire Brigade About Coal Oil Lamps.

"Did you notice that fire on Christmas Eve?" said the Chief of the Fire Brigade, Mr. Patton, to our reporter the morning.

"Yes. Was there anything particular about it?"

"Yes, there was; that man and his family went out to Midnight Mass, and turned down their coal oil lamp and left it burning in the store. They live above it, and have to go in and out through it. Well, then, the lamp exploded, and the result was a fire. Now, if you want to have a fire, just turn down an ordinary coal oil lamp till it begins to stink. If it will ever explode it will do so then. Because when it is turned down to a certain point the flame is too small to consume all the gas generated from the oil, and this surplus gas escaping makes it stink, and collecting in the space above the oil in the lamp, causes it to explode. That case on St. Catharine street was the second one within two weeks. If people want to leave lamps burning they should by all means let them burn. The extra amount of oil consumed by leaving a good flame is nothing to the extra risk run by turning down the wick."

ENNISMORE.

Myrtle Cheese Factory.—The patrons of Myrtle Cheese Factory held their final meeting for winding up the business of the year in the Town Hall, on Friday, the 29th December, at 1 o'clock p.m. Although the roads are good for outside business, and nearly all in the township are busy, still a goodly number of those interested assembled shortly after the time appointed. The Auditors, John Galivan, jr., and Joseph Lowes, presented the books correct as kept by Thomas Tellford, Sec.-Treasurer. The Directors for the past year were William Sullivan, Patrick C. Sullivan, David Geary, Patrick Crough and William Crough, with Alexander Clark and John Telford for salesmen. Although the dairy was started on a small scale, and was a new industry to most of us, still we must congratulate William Cribbin, the manager, and all those connected with it, on the success and general satisfaction expressed. It must be borne in mind that, although the building was erected in the spring, the cheese making only commenced on the 22nd of May, and shut down on the 2nd of October. Previous to that date several had stopped sending milk, owing to having furnished their quota. According to the Secretary's book there was delivered at the factory 325,902 pounds of milk, from which was sold 32,324 pounds of cheese, amounting to $3,435 35, and divided amongst the patrons, less some small expense, all being satisfied. It is now our intention to use all our endeavors to double the business of the enterprise during the coming summer. Alexander Clark was appointed delegate to attend the meeting to be held in the drill shed, Peterborough, in March to make arrangements for sales for the ensuing year.

NEW YEAR'S SERVICES.

A MASS MEETING OF THE SUNDAY SCHOOLS ON JANUARY 1st.

An Interesting Programme—Singing and Responsive Readings—Addresses to the Scholars, Teachers and Parents.

A mass meeting of six Sunday Schools of the town was held on the forenoon of Monday, New Year's Day, in the George Street Methodist Church. The schools were those connected with the following churches :—The George Street and Charlotte Street Methodist Churches; the St. Paul's and St. Andrew's Presbyterian Churches; the Baptist Church and the Bible Christian Church. There was a very large attendance.

Mr. Roper, superintendent of St. Paul's Sunday School, presided, and seats on the platform were occupied by the Rev. John Shaw, the Rev. Alex. Bell, the Rev. E. F. Torrance, the Rev. W. Joliffe and the Rev. T. Manning.

The services were commenced by the scholars, lead by the choir of the church in which the meeting was held, singing "All Hail the Power," after which the Rev. Mr. Shaw engaged in prayer.

The responsive scripture reading was conducted by Mr. Roper, Mr. A. H. Clegg leading in the response, and consisted of selected verses illustrating the subject "Christ All and in All."

"Stand Up for Jesus" was sung, and the responsive reading was continued, followed by the hymn "Jesus Shall Reign."

The REV. MR. JOLIFFE was then called upon to address the scholars. He began by wishing the children a happy new year. They looked happy, he said, and there was no reason why they should not be happy when all their privileges were considered. He had only a short time at his disposal, and in that time he wanted the children to assist him to build an arch. First they would erect a pillar at one corner, and on that pillar they would inscribe this motto, "A child may learn to know Jesus." He referred to a boy who had visited a sculptor's studio, and had recognized a work of art there as a statue representing Jesus. The boy knew that it represented Jesus, because it resembled pictures of Him that he had seen. But they could do better than to learn to know Jesus from pictures: they could learn to know Him experimentally. On the second pillar they would inscribe the motto, "A child may learn to love Jesus." He told of a boy who, when dying, was asked if he loved his parents and his brothers and sisters. "Yes," he replied, "but I love Jesus best." And a child may love Jesus better than all friends. On the third pillar they would inscribe another motto, "A child may learn to trust Jesus." Children who had lost their father and mother were once asked if they did not find it difficult to get along, and they replied, "We are learning to trust in Jesus." Although the children present might now be surrounded by comforts, a time might come when they would need faith in Christ, and they should exercise trust in him now. On the fourth pillar they would inscribe, "A child may work for Jesus." He related an incident of a church that was threatened with a debt, and of which the members appeared indifferent. The minister appealed to the Sunday School scholars, and they subscribed liberally. The boys by drawing up drift-wood and selling it, and the girls by sewing, etc., paid their subscriptions and relieved the church from debt. That was work for Jesus, and there were a thousand ways in which they could work for Him. Now they must erect the key pillar of the arch, and on it they would inscribe "We may stand up for Jesus." He illustrated this by telling of a young soldier who had read his Bible and prayed in the tent, and, despite the jeers of his companions, persisted in his devotions and thus lead to a reformation in the regiment. In conclusion he appealed to the children to know Jesus, to love Him, to work for Him, and to to stand up for Him, and hoped that this would be the happiest year in their lives.

The hymn "Blest be the Tie that Binds" was sung by the scholars.

The REV. MR. MANNING addressed the teachers. He commenced by wishing the children a happy new year, and they heartily responded in chorus, "The same to you." In a convention of Sabbath School workers, he said, emphasis was laid on the importance of securing the conversion of the children. All efforts in Sunday Schools would fall short of their object if the children were not converted, but he wished to emphasize the importance of teaching the children the substance of the lesson. Many men knew very little of the Scriptures and were good men, for great knowledge was not necessary for salvation, yet the facts of the Scriptures should be taught. Many a man was bothering his head with questions more or less important which he could decide at once if he understood the Scriptures. The multitude of God's people increased after the Gospel was preached. The design of the Gospel was to make men Christians, and it was also to make them good, strong and useful Christians. All the doctrines, precepts, songs and prayers in the Bible were calculated to build them up, and if the children were sent out from the school with only an idea of the fact that Christ came to save sinners, they were sent out without being fully equipped. Teachers should go down deep into the Scriptures. The opportunity was given in the Sunday Schools for the teachers to make the rising generation thoroughly consistent in their walk in life. In order to teach an instructor must be prepared. It was a shame for a teacher to go into a class without having studied the lesson. A class should never leave the room without having a distinct impression of some idea or application, and there was therefore need of perfect preparation: they must read, think and pray. Teachers might feel discouraged because the children might not understand the idea which they wished to impress on their minds; but, although they might not be able to give the line of argument, they might still have the impression. They were all acting on impressions which had been received somewhere, but they could not tell where. Teachers should be sure to teach. They should draw forth things new and old from the Word and impress them upon the children, then they could hope for the blessing of God.

"Jesus Keep me Near the Cross," was sung.

The REV. MR. BELL then addressed the parents. Parents knew, he said, that men do not come into the world fully equipped and strong in body and mind. The little folks have to be watched over and cared for, that their limbs may grow strong and that they may take their places as men and women, and their minds also needed to be cared for. Children first take notice of their parents, and they draw their first impressions from them. A child was like a block of marble in a sculptor's studio. The parents were day after day giving it touches and moulding the figure. The child would become very much what the parent made it, and they could not free themselves from their responsibilities. If the parents were in the church the children were born in it, and it was not a question of whether they would join the church when they grew up, but whether they would then leave it. There were two futures before the children—that limited by time, and the great future beyond. The parents were raising their children for both futures. It was right to pay attention to their temporal affairs, but they should bring them up in the nurture and admonition of the Lord—in the restraint and teachings of the Lord. Parents could not delegate their responsibilities to others. Sunday school teachers might assist them, but they did not relieve them of their responsibility. Their children were given them by God, and were not intended to be idols or dolls, or little pets to be spoiled. Children would soon discover the inconsistencies of their parents, and would be influenced by them. The parents should work the truth of God's Word into their own hearts and then teach their children. He urged them to begin this work on the first day of the new year and to continue it by God's grace.

Mr. ROPER asked the children if they would like to have a similar meeting on next New Year's Day, and there was a unanimous vote in favor of it.

"Wonderful Words of Life" was then sung, and the Rev. Mr. Torrance invoked the benediction.

Personal ! To Men Only !

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

DO YOUR CHILDREN have fits or convulsions, grind their teeth, pick their nose, have a bad breath, or a changeable appetite? Are they restless or feverish at night? If so, ask your druggist for Dr. Smith's German Worm Remedy (take no other), it only costs 25 cents. Is simple safe, and pleasent to take. If there are no worms, to remove the slime and bile that breeds them, tones up the system, and will save many a doctor's bill. A word to the wise, etc. Thousands of testimonials.

It always gives us pleasure to draw attention to articles which are deserving of public patronage. Probably no article ever offered to the public has met with the same success as Gray's Syrup of Red Spruce Gum. Thousands of families in the Dominion keep it in their homes as the standard Cough Remedy. The sale of this article has assumed enormous proportions. Our advice to the public at large is to try its virtues if they should at any time unfortunately contract either Coughs or Colds. It is sold by all chemists.

Do not take pills or powders containing Calomel, at this time of the year, the result may be serious. If you require a dose of physic take Dr. Carson's Stomach and Constipation Bitters; it acts gently on the Bowels, purifies the Blood, improves the circulation, stimulates the Liver and Kidneys, and speedily cures Billousness, Headache, Dyspepsia, Indigestion. Search the Drug Stores from one end of Canada to the other, and you cannot find a remedy equal to it. Try it and use it in your families. Sold everywhere in large bottles at 50 cents.

FROM ALL OVER.

THE by-laws for the establishment of free libraries in Toronto and Guelph were carried by large majorities.

THE exports from Kingston to the United States during the past year have been the largest since the establishment of a consular office in that city.

A NATIONAL League meeting, which assembled at Ballinhoun, in defiance of the Government interdict, was forcibly dispersed by the constabulary.

THE statement that the Murray canal contractors have struck an extensive quicksand, and there is a probability that the Presqu' Isle route will have to be abandoned, is denied.

A VIOLENT snow storm prevailed in San Francisco on Sunday. The ground covered to a depth of five inches. There has not been such a snow fall before in thirty years. Sleighs were seen on the streets for the first time.

BIG BEAR, a Cree Indian warrior, who has been committing depredations upon the property of settlers in the North-West and Montana, has been arrested by Col. Irvine, of the Mounted Police, and taken to Fort Walsh. His capture gives great satisfaction.

WHILE watch-meeting services were being held in the Reformed Evangelical Church at Reading, Pa., a large cannon filled with stones and powder was discharged. The front wall was stove in and all the windows shattered. There was great excitement among the audience, but no one was hurt. Eighty arrests were made.

THE building operations at Winnipeg during the past year amount to nearly six million dollars. The Canadian Pacific railway have spent half a million in the city, and the corporation nearly the same in civic improvements. The assessment has increased from nine to thirty million dollars, and the population from twelve to thirty thousand.

"TWENTY-FOUR YEARS' EXPERIENCE," says an eminent Physician, convinces me that the only cure for "Nervous Exhaustion" and weakness of the generative organs is to repair the waste by giving Brain and Nerve Foods, and of all the remedies I have used Mack's Magnetic Medicine is the best. This remedy is now sold by all our Druggists at 50 cts. per box, or 6 for $2.50, and on receipt of an order for 12 boxes, accompanied with $5.00, addressed to Mack's Magnetic Medicine Co., Windsor, Ont., they will forward the goods free by mail, and send their "written guarantee" to refund the money, if the treatment does not effect a cure. See adv't in another column.

WISE people are always on the lookout for chances to increase their earnings, and in time become wealthy; those who do not improve their opportunities remain in poverty. We offer a great chance to make money. We want many men, women, boys and girls to work for us right in their own localities. Any one can do the work properly from the first start. The business will pay more than ten times ordinary wages. Expensive outfit furnished free. No one who engages fails to make money rapidly. You can devote your whole time to the work, or only your spare moments. Full information and all that is needed sent free. Address STINSON & Co., Portland, Maine.

The Great American Remedy for COUGHS, COLDS, ASTHMA, BRONCHITIS, LOSS OF VOICE, HOARSENESS AND THROAT AFFECTIONS.

Prepared from the finest Red Spruce Gum. (Delicious Flavor.) Balsamic, Soothing, Expectorant and Tonic. Superior to any medicine offered for all the above complaints. A scientific combination of the Gum which exudes from the Red Spruce tree —without doubt the most valuable native Gum for Medicinal purposes.

Every one has heard of the wonderful effects of the Spruces and the Pines in cases of Lung Disease.

In France the physicians regularly send their consumptive patients to the pine woods and order them to drink a tea made from the Spruce tops.

GRAY'S
SYRUP
OF
RED
SPRUCE
GUM.

In this preparation the Gum never separates, and all its antispasmodic, expectorant, tonic, and balsamic properties are preserved.

This Syrup, carefully prepared at a low temperature, contains a large quantity of the finest picked Gum in complete solution.

Its remarkable power in relieving certain forms of Bronchitis, and its almost specific effect in curing obstinate hacking Coughs, is now well known to the public at large.

Sold by all respectable chemists. Price, 25 and 50 cents a bottle.

The words "Syrup of Red Spruce Gum" constitute our Registered Trade Mark, and our wrapper and labels are also registered.

WEDNESDAY, JANUARY 3, 1883.

LOCAL AND MUNICIPAL.

Bonspiel at Bowmanville.

A curling bonspiel will be held at Bowmanville on the 10th and 11th of January, in which it is expected that eight curling clubs from the Midland Counties will participate. Two rinks from the local club will uphold the honor of Peterborough, of which Mr. Attrill and Mr. Geo. Brown will be the skips. The prize offered for competition will be a valuable cup. It is intended to make the bonspiel at Bowmanville an annual event.

Serenading.

Om New Year's Day the Fire Brigade Band serenaded a number of citizens, and they were well pleased with the liberality displayed by those thus honored, their generosity exceeding the expectations of the band. The members wish to return their thanks for the interest taken in the band. They have contributed not a little to the pleasure of our citizens, and we are pleased to know that their merit has been recognized.

The Separate Schools.

Several changes have been made in the teaching staff of the Separate Schools. Mr. J. D. McIlmoyle takes the place of Mr. O'Brien as Head Master of the Murray Street School; Miss C. Leonard is engaged as First Assistant, and Miss E. Hurley retains her place as Second Assistant. The First Ward School will be under the management of Miss Ellie T. Neagle. The Sisters of the Convent de Notre Dame will, of course, have charge of the Convent school.

Wonderful Powers.

The Toronto press contain flattering notices of Mr. Orm. Dixon's powers as a ventriloquist, on the occasion of the appearance of the company with which he is connected in the Royal Opera House. The *Mail* says that his imitation of an Irish woman was almost perfect, while the wooden figures which he introduced produced much laughter. The *World* says:—

> "The performance is greatly strengthened by Miss Mitchell, a clairvoyant, and Mr. Orm Dixon, a ventriloquist of wonderful powers. This lady and gentleman were received with much favor."

At Smith's Market.

Oysters in bulk and tins; Apple Butter, Minced Meats, very superior, manufactured by Clark & Hessin; Red Curran Jam in pails, 2½ lbs. each; Grapes, Oranges, Lemons, Pears, Apples, Cranberries, Sardines; canned Peaches, Pears, Strawberries, Raspberries, Pine Apple, Cherries, Green Peas, Green Corn, Tomatoes, Lobster, Salmon, &c. Pickles in bulk and bottle; Horse-radish and all kinds of Sauces, Sea Salmon and other kinds of fresh Fish; Venison, Partridges, Turkies, Geese, Chickens and a superior lot of small Fresh Hams. Orders received by telephone from 8 a.m. until 9 p.m. Parties likely to be interested in any of the above specialities will take due notice and govern themselves accordingly.

Union Prayer Meeting.

A union prayer meeting, in connection with the week of prayer, will be held this evening in the George Street Methodist Church.

The Jubilee Concert.

The Jubilee Concert in Bradburn's Hall on Thursday, January 11, will consist of an entirely new programme of the most select kind. Tickets 50 and 25 cents, to be had at T. Menzies' Bookstore in a few days, where a plan of the hall may be seen.

The Fire Brigade.

The officers of the Protection Fire Brigade of Peterborough for this year were elected at a meeting of the Brigade on Tuesday evening. Of Electric Hose Company No. 1, Mr. S. Clegg was re-elected Captain and Assistant Chief, and Mr. A. Jones was elected Lieutenant. Of Protection Hook and Ladder Company, Mr. T. Marks was elected Captain and Mr. H. Evans Lieutenant. Mr. J. D. Craig was re-elected Brigade Secretary and Mr. C. Rutherford was elected Brigade Treasurer.

The Weather.

Last night the weather turned decidedly cold and to-day it is unchanged. People will do well to prepare for a very cold "dip" tomorrow, as proba. says we will have very cold weather on Thursday. The probabilities for this district for the following 24 hours, as reported from Toronto at 1 a. m. to-day, by the Great Northwestern Telegraph Company, are as follows:—Lakes.—Strong south westerly veering to north westerly winds, cloudy to fair weather with ligh falls of snow, followed by decidedly colder weather. Thursday will probably be very cold.

The Montreal Carnival.

A grand winter carnival will be held at Montreal, lasting from the 23rd to the 27th of January. It is intended to be a week of sports, including all kinds of games on the ice. A curling bonspiel will take place on the 23rd, 24th and 25th, at which there will be two distinct competitions, namely, rink against rink and club against club. Two trophies, to cost between $100 and $200 each, are offered for competition in the club match, and other prizes will be given in the rink match. The Peterborough Curling Club is invited to send two rinks of four players each to take part in the competition, and it is expected that they will accept the invitation.

Entrance Examinations.

The following is a list of those who were successful in passing the entrance examinations in December:—

Butcher, Henry	307
Brown, Collen B.	328
Gillespie, James	291
Lundy, Frank	286
Matchett, M. Wellington	376
Sherwood, Frank	280
Fife, Phoebie	307
Clarke, E. A	346
Cox, Ella	314
Hales, Mary E.	314
Mooreland, Maria	334
Stobo, Kate	300
Udy, Lillie	430
Wier, Keziah	281

There were forty-three candidates, of whom fourteen have passed and four have been reserved for consideration of papers.

Sound Reason.

We are getting in large shipments of oysters in bulk and cans, direct from the packers in Baltimore, and as we buy in large quantities, we can positively sell cheaper than has ever been done in our line in Peterborough before, which the following very low figures will show: Bulk oysters, 35 cents per quart; can oysters from 25 cts. to 40 cts. Large fine flavored Valencia Oranges, 25 to 30 cts. per dozen; Lemons 20 to 25 cts. per dozen; Malaga Grapes 25 cts. per pound. Dates, Figs in boxes and mats, Nuts and Candies, all on hand for the holidays. To persons buying in large quantities from us a fair reduction will be made. We are getting up some very handsome cakes for the holiday trade, beautifully iced and ornamented, and of the most artistic designs. Genoa cake, Butter Platzchen cake, Chocolate cake, Raisen cake, Jelly cake, Cocoanut cake, White Rosebud cake, Lafayette's cake, Maderia cake and Fruit cake, and an immense variety of small cakes always on hand. We bake every day, and can guarantee fresh goods. All orders for wedding and other cakes promptly attended to. Any person having any home-made cakes to ice will kindly oblige by sending in their orders at once, as we are now very busy. All orders filled in rotation. Don't forget the place: South Store, opposite the market square; north store, nearly opposite the express office.

Why The People Come Back to Us!

Is our trade in CLOTHING of that Character that serving—say a young man—once we never see him again? Not probable. Nor is it likely to take that character.

When a young man needs CLOTHING he wants something like a stock, a department, to select from. Don't you get that with us? He wants his Clothes well put together and run no risk of unnecessary ventilation, either; or at least have it come upon him unexpectedly. He don't care for seams like whip-cords in his pants legs, or his coat collar, showing inches of room behind his neck. This touching Clothing. Another word here, we'd say. Don't jump to the conclusion that we don't keep certain goods because you don't see them mentioned in our advertisements. If you do you'll make a mistake. It's impossible, where we have so varied a stock of goods, to make mention of them all. We even may fail to mention some at all. So don't limit your ideas of our stock to our advertisements. As for what we say in them much more remains unsaid. There's nothing new, desirable or fashionable we haven't got. TRY US.

THE

PACIFIC NORTHWEST!

Oregon, Washington, and Idaho.

Offers the best field for emigrants—viz.: a mild, equable, and healthy climate; cheap lands of great fertility, producing all varieties of Grain, Fruit, and Grasses in wonderful abundance; an inexhaustible supply of Timber; vast Coal Fields, and other mineral deposits; cheap and quick transportation by railroads and river navigation; direct commerce with all parts of the world, owing to its proximity to the Pacific Ocean.

NO DROUTHS, NO INSECT PESTS, NO HURRICANES, WHIRLWINDS, OR OTHER DESTRUCTIVE PHENOMENA.

The lands of the Pacific Northwest show an average yield of wheat per acre largely in excess of that of any other section of the United States.

No failure of crops has ever occurred.

Oregon wheat commands a higher price than that of any other country in the Liverpool market.

An immense area of very fertile Railroad and Government Lands, within easy reach of the trunk lines of the Northern Pacific R.R., the Oregon Railway & Navigation, and the Oregon & California RR. Co's and their numerous branches in the great Valleys of the Columbia and its tributaries, are now offered for sale at Low Prices, and on Easy Terms, or open to pre-emption and Homestead Entry.

The great movement of population to the Columbia region now in progress will be enormously increased by the completion of the Northern Pacific RR. and the Oregon Railway and Navigation Co's systems. This renders certain a rapid increase in the value of Lands now open to purchase or to entry under the United States Land Laws.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcule which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by *J. Pepper*, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. CURLIANA.

A Match Between Rinks Drawn by the President and Vice-President.

On Tuesday and Wednesday evenings a curling match was played by rinks drawn by ballot by the President, Mr. T. P. Attrill, and Vice-President, Dr. Boucher. The second and third rinks played on Tuesday night and Rind No. 1 on Wednesday night. The game was a very close one, and was therefore exciting. It was well played, the rinks being evenly matched, and the score during the game stood first one ahead and then the other. The following is the score :—

Lamp Post Down.

A runaway team on Wednesday knocked down the lamp post on Elizabeth street, Ashburnham, to which the Post Office letter box was attached.

Successful Hunters.

Mr. Geo. Westlake, of Smith, and his two sons, who spent about two weeks hunting deer in the vicinity of Sucker and Bottle Lakes, returned with twenty-one deer and a large bear. That is certainly a good sporting record for one season.

Mothers ! Mothers

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle. d57w

LAKEFIELD.

From Our Own Correspondent.

MUNICIPAL ELECTION.

The municipal election on Monday in the Council Room passed off remarkably quiet. There was apparently no canvassing nor drawing voters to the poll, but the free and independent seemed to come to the poll very regularly and without effort, for about twenty votes were polled in every hour of the day except near the close, and considering the number away in the shanties, etc., the vote was very fairly polled. About half-past five o'clock, the ballots being counted, the Council Room door was opened and the room was soon filled with electors and others, anxious to hear the result, which seemed to give general satisfaction. It was moved, seconded and carried that the Village Clerk, Mr. Sanders, take the chair. The chairman called upon the candidates in the order of the poll, and all the candidates responded, making short speeches, thanking the electors, etc. Three rousing cheers for the Queen closed the proceedings shortly after six o'clock. The following is the state of the poll, the first four being elected :—

Wm Cox, sr...................................100
Thos Jos Nelson..............................89
Kenneth Urquhart.............................80
John H McWilliams............................76
Wm J Wallace.................................67

SCHOOL ELECTION.

The School Election ended on Wednesday last, in the election of Messrs. Armour, M. D., and Gordon. Mr. Isbister notified the Returning Officer that he declined positively to be re-elected, and that he was not a candidate. Mr. Isbister having served as a member of the School Board for a term of three years, he could not be elected without his consent. Mr. Isbister refusing to be a candidate, he left only the requisite number of candidates, viz.: Mr. Gordon and Dr. Armour, so the chairman duly elected them as members of the Lakefield School Board for the ensuing term. There can be no doubt but that Dr. Armour and Mr. Gordon will be excellent members of the Board.

FORESTERS' ENTERTAINMENT.

Court Lakefield No. 43, C.O.F., will have an entertainment in Union Hall, on Friday night, January 5th, at 8 o'clock, for the benefit of Forester's families. The entertainment is to consist of a lecture and magic lantern views by Bro. Vice Chief Ranger Dench, and vocal and instrumental music by other members of the Court. A very pleasant time is expected, and it is hoped that all Foresters' families will be present.

NEW YEAR'S DAY.

New Year's Day in Lakefield was very generally observed as a holiday. Leaving the shooting match out of consideration, the streets of the village presented more the appearance of a Sabbath than a holiday in the general exceptation of the term. Everyone seemed good natured with everybody, and hearty shakes and warm salutations were the order of the day.

COUNCIL MEETING.

The Lakefield Village Council will meet in the Council Room on Monday evening next, at 7.30 sharp. This will probably be the last meeting of the old council.

ORANGE DISTRICT MEETING.

The annual meeting of the Lakefield Orange District will be held in the Temperance Hall in Apsley, on Tuesday evening, January 9th, at 7 o'clock.

Surveying the North-West.

Anticipating a large immigration into the North-West, the Government has wisely and energetically pushed forward the work of surveying the territories. According to the Edmonton *Bulletin*, the rapidity with which the country is being blocked out into sections is very creditable to the Ministry. During the past season the district between the second and third principal meridians, from the boundary to some distance north of the Canadian Pacific railway, has been sub-divided, while the district between the third and fifth meridians has been surveyed into twenty-four mile blocks, ready for sub-division next year. The surveying of the land far in advance of settlement is a great boon to settlers. It means exemption from no end of trouble, and an assurance that the property bought by them, or granted gratuitously to them, is their own. This year some of the surveyors will continue their work in the wooded Edmonton country during the winter. Formerly surveying parties have been disbanded at the end of the summer season, and their effects sold at a sacrifice; at the commencement of the next season new outfits at enhanced prices have had to be purchased. By continuing surveys during the winter the Edmonton country is being surveyed with the money that would otherwise be lost by disbanding the parties.

THE EUROPEAN FLOODS.

BERLIN, Jan. 4.—The indications are taking the form of a general public catastrophe. The distress is increasing hourly. The military and civil authorities are making the greatest exertions to mitigate the misery of the disaster. The rains continue at Ludwigshafen, where the great Rhine dam gave away last night. Hundreds of people are imperilled.

A SIGNIFICANT ORDER.

LONDON, Jan. 4.—It is rumored that the Germans resident in London have received notice from the military authorities to hold themselves ready to repair to Germany to fulfil their terms of military service. It is thought that this a mere formality.

THE NIHILISTS.

ST. PETERSBURG, Jan. 4.—The Czar on Sunday found in his bed-room a letter from a revolutionary committee demanding a commencement of the promised reforms, and adding that the committee possess power to forcibly obtain concessions.

AMERICAN.

CHANGE OF FAITH.

MILWAUKEE, Jan. 4.—Jewish circles are agitated by the fact that Leopold Sessler, his wife and three children have decided to renounce the Jewish faith and unite with the Catholic Church.

ALLEGED BIGAMY.

SYRACUSE, Jan. 4.—Geo. Denier is accused of having married Carrie Mattison, aged 14, while his wife was living a few blocks from his present home. Both marriages were performed by the same clergyman, but about four years apart.

A QUACK DOCTOR'S WORK.

SYRACUSE, Jan. 4.—A quack doctor induced Augustus Berringer to take pink root and mandrake to kill a tapeworm. Berringer began to take the medicine on Friday and died yesterday. The Coroner is holding an inquest.

WOULD SIT IN THE SENATE.

WASHINGTON, Jan. 4.—Five Judges of the Supreme Court term are said to be willing to succeed Harris in the United States Senate.

A GOOD RESOLVE.

BOSTON, Jan. 4.—It is stated that Butler will in his inaugural address declare that he will positively never again be a candidate for Governor of Massachusetts.

GAMBETTA'S DEATH.

NEW YORK, Jan. 4.—The French residents last evening took appropriate action regarding the death Gambetta and subscribed 1,000 francs for a wreath for his coffin.

THE CANALS.

NEW YORK, Jan. 4.—The Executive Committee of the Free Canal Union yesterday adopted resolutions thanking ex-Governor Seymour for his exertions in the last election to secure the adoption of amendments in the constitution abolishing tolls on canals.

MEXICAN RECIPROCITY.

NEW YORK, Jan. 4.—The *World's* Washington despatch says that Grant has been called to Washington to confer with Romero and the new Mexican Commissioner on the reciprocity treaty.

RAILWAY MATTERS.

NEW YORK, Jan. 4.—The Directors of the Boston, Hoosac Tunnel and Western Railway yesterday elected S. V. White Treasurer. This makes necessary the removal of the general office of the Company from Boston to New York.

TENNESSEE FINANCES.

NASHVILLE, Jan. 4.—The Legislature adopted a resolution directing the Comptroller and Treasurer to pay no more interest on the State bonds, except on those held by charitable institutions, Mrs. Polk and the United States Government. Three bills passed their first reading to repeal the recent debt settlement. The Treasurer has received a large amount of funds from the north which he refuses to pay out.

A PETITION FOR PARDON.

WASHINGTON, Jan. 4.—A petition signed by Governor Crittenden, of Missouri, the United States Attorney, police commissioner and chief police of Kansas City, the prosecuting attorney and Marshal of Jackson County and Marshal of Clay County, Mo., has been presented to the President asking for the pardon of Dick Liddel, an outlaw now in gaol in Huntsville, Ala., on a charge of robbing the United States paymaster. The petition says that by Liddel's testimony the officers hope to convict Frank James. It is not probable that the President will render a decision in opposition to the opinion of the the Attorney General.

A CLAIM PROVEN.

NEW YORK, Jan. 4.—The *Herald's* Washington despatch says that in the Pierre Nougue case the French-American Claims Commission allowed the plaintiff $600 with interest at five per cent. from November 5th, 1862. The claimant was a French subject residing in Louisiana, where he owned slaves. The French law makes it a penal offence for any citizen or subject of that country to own slaves. The counsels for the United States contended that this law having been violated by the claimant he forfeited all right to get remuneration from the government of the United States. The third Commissioner and the Commissioner on the part of France, however, sustained the claim. The Commissioner on the part of the United States dissented. Two hundred other cases, to which the same objection would be applicable, are pending.

THE SUNDAY LAWS.

NEW YORK, Jan. 4.—J. K. Hamilton Wilcox, a woman suffrage advocate, was arrested on a charge of the violation of the new code by skating on Sunday on Silver Lake, New Brighton, L. I. Another account, however, states that it was J. H. Wilcox, President of the village of New Brighton and one of the leading members of the Unitarian Church. He refused to pay the fine, and said he would make it a test case.

Gaining a World Wide Reputation.

About 150,000 bottles of medicine and 3000 Spirometers, the invention of M. Souvielle of Paris and ex-aide surgeon of the French army, have been used by physicians and patients during the last year for the cure of catarrh, catarrhal deafness, bronchitis, asthma, consumption in its first stages and many diseases of the head, throat and lungs. Consultations with any of the surgeons belonging to the institute free. Poor people showing certificates can have spirometers free. Write enclosing stamp for pamphlet giving full information to either of the Canadian offices where competent English and French specialists are always in charge. PARTY CONVENTIONS.

WE cannot agree with those Conservatives who deride the Reformers for holding a convention. We have in the case of the Conservatives applauded this plan by which the leaders of the party have held council with their supporters, so that a consistent platform has been formulated with general acceptance. We cannot therefore blame or ridicule our opponents for availing themselves of machinery, which we have found useful for our own party.

Of course it would be easy to show the inconsistency of the Reformers who belittled and condemned the Conservative Convention and now are holding one of their own, but it would not be worth the trouble, for the Reformers can no longer maintain the slightest pretention to consistency. If they did so pretend we might also point to the fact, that they advertise as one of the most prominent actors the leader of the Dominion opposition, though they were so dreadfully shocked at the presence at the Conservative Convention of two members of the Dominion Government, though one is an Ontario member and the other an Ontario voter. The separation of Dominion and Provincial politics was according to them not at all necessary during the last general election, it was a thing that was much to be desired at the Conservative Convention, and now again it is not of the slightest consequence.

Of course we shall be told that this convention is a much greater affair that the Conservative one, but there is the wide difference that the present is a mass meeting of the party, who have been urged to attend in force, while the Conservative Convention was a meeting of chosen delegates.

We are glad that this convention is to be held, for now we will have a chance of knowing what really is the policy of the Reform party, if they can agree upon one. At the general election for the Dominion we were at the disadvantage of not knowing where to meet our opponents, who were protectionists, or revenue men or freetraders just as suited the locality or the individual addressed, if by any means votes might be gained. Now they will have to take their position and to stand by it.

THE VACANT REGISTRARSHIP.

As Mr. Mowat will have had an opportunity at the Convention of consulting with his supporters from Peterborough as to the vacancy in the Registry Office, we may expect to see the appointment in next Saturday's *Gazette*, unless indeed, as seems most likely, the position is being reserved for Mr. S. C. Wood, when of course the appointment will be kept open till after the session. Unless there is some such reason for delay there has already been amply sufficient time to fill the vacancy.

MUNICIPAL ELECTIONS.

NORWOOD.

Reeve, J. B. Pearce. Councillors—Thomas Fraser, Wm. Hutchinson, Hiram Reynolds, W. H. Minaker.

ASPHODEL.

Reeve, Thos. Rork (acclamation.) Councillors—James Stevenson, Mr. Fox, Mr. Lynch, John Welsh.

HASTINGS.

Reeve, James S. Fowlds (acclamation.) Councillors — Coughlin, Johnston, Wilson, Steele.

DYSART.

Reeve, Wm. Illman. Councillors—L. Gould, L. Agnew, T. S. Moon, J. R. Erskine.

CAMPBELLFORD.

Reeve, Charles S. Gillespie. Councillors—B. M. Fredrick, John Shannon, Edward Nancarrow, J. Benor.

THE Hamilton *Spectator* makes the following very good suggestion:—

"While Mr. Mowat is tinkering up his loosely constructed laws, during the present session of his Legislature, he might arrange it so that, in future, the school trustee elections be held on the same day as are the elections of municipal councillors. Such a reform would save money to the municipalities, and would be the means of inducing the ratepayers to take more interest in the school elections."

YOUNG'S POINT.

From Our Own Correspondent.

SCHOOL MEETING.—At the annual meeting of the ratepayers of School Section No. 8, Smith, held at the School House here on the 27th December. Mr. Samuel Nugent was elected by acclamation in place of Mr. Robert Graham whose term of office had expired.

THE SCHOOL HOUSE.—If the School Trustees of the section would set to work and make the School House more comfortable than it is at present, they would only be doing what is right and proper, and certainly they would receive the thanks of the ratepayers. In the first place the stoves would not burn or throw out any heat on the day of the annual meeting, being choked full of ashes. The Trustees, I am informed, made it a stipulation with the Teacher they engaged last, to put on the fires. This is economy with a vengeance. The School Master should do no such thing as light the fires or sweep or dust out the School House, which to all appearances has not been dusted or swept out for 12 months. There are no blinds for the windows, and the heat and light of the sun in the summer time must be very injurious to the school children and teacher, and nearly everything in the school house is in a dilapidated condition. The retiring Secretary and Treasurer informed the ratepayers that they had about $42 to the good that had been saved by some process. By all means let this sum be spent in making things comfortable and decent, for the sake both of the children and of those that have to attend the public meetings, it being the only place here where such meetings can be held. The trustees ought to pay some one so much per annum to light the fires and clean out the school house and not be so parsimonious as in the past. I hope our newly elected trustee will bestir himself in the matter.

THE ROADS.—The roads throughout this section are splendid to travel over. The farmers are taking out cordwood and nothing else to market. This, I presume, is owing to the low price of wheat at the present time, but I am afraid they are penny wise and pound foolish.

NEW INDUSTRY.—Mr. John Heron, of Douro, has built a shanty near Burleigh Bridge, and has a gang of men taking out poplar wood for the paper mill in Peterborough. This wood was hitherto considered of no value.

LUMBER SHANTY.—Mr. Michael Darling has built a shanty about two miles above Burleigh Bridge, on a limit belonging to Mr. Geo. Chalmers, having contracted to take out [illegible] culvert timber, ties, etc., also basswood and other logs. Michael is doing well.

OUR YOUNGS' POINT CORRESPONDENCE.

To the Editor of the Review.

SIR,—Your Youngs' Point correspondent, in your issue of the 17th of November, seems to be hard on the pigs and calves that roam about his neighborhood.

To curb their roaming propensities, all that seems necessary is for people, generally, to coax the animals into a quiet corner of the premises they most frequent, kill them, cut them up, and sell the inferior cuts at say a trifle below the market price for pork or veal. If the original owners object to this, they would most probably have sense enough to keep their pigs and calves at home, however humble that home might be. But perhaps this arrangement would not work, as it might induce said owners to roam around themselves in quest of fodder for their animals. In that case the remedy would be to make a hole in a secluded spot for the last resting place of the fodder parties.

As regards the bridge opposite Stewart's store, of which your correspondent complains, a new set of men in the Council of Smith would evidently meet the case. To effect this let some of the good things in the store referred to be removed to the other side of the water into a marquee, and then invite the Council to come across the bridge, in a body, to a banquet. Any boats that might happen to be lying under the bridge would require to be slipped from their moorings on the day of the banquet. The vacancies that would occur in the case of those Councillors who could not swim would no doubt be filled up by officers who would put all things right—even to the repairing of the road to Andy Wilson's farm.

Yours truly,
C. S. C.

Choked by a Slate Pencil.

Last Wednesday afternoon, says the New York *Times*, a woman named Gannon, residing on Pringle Hill, Wilkesbarre, Pa., came to Dr. Doyle's office there, bringing with her a child which she said had swallowed a piece of slate pencil. The child was half suffocated and suffering with spasms. The physician, after examining the child, said that the only way to save the child was to cut open its throat and extract the pencil. The mother, however, refused to allow the operation performed, before the arrival of her husband, who had been sent for. He did not arrive until two hours later, and within a few minutes after his arrival the child expired.

Murder in Manitoba.

Patrick Maloney, formerly of Ottawa, Ont., was murdered by a German named Drewers at Rat Portage, on Tuesday morning, in a quarrel over a drink of water. The murderer clove his victim's skull in with a terrific blow of an axe. The tragedy is attributed to illicit whiskey.

THOSE WHO NEVER DO WRONG.

'Tis hard to labor from morn till night,
To plough the furrow and pluck the weeds,
For those who poorly the task requite,
And care but little for all our needs;
But the hardest work is to get along
With those who never do anything wrong.

You're sure to meet in the course of life
With men and women who loudly state
Their own opinion, with years at strife,
And you may endeavor to set them straight;
But you'll find it wise to jog along
Than argue with those who never do wrong.

They go their way, with faults, no doubt,
As we who suffer such pains and aches
[illegible]
[illegible]
[illegible]
You may note their faults and attempt to prove
[illegible]
[illegible]
[illegible]
You may talk by the hour [illegible] in your eyes,
But they'll [illegible]

They never come with a tearful face,
[illegible] to make amends [illegible]
[illegible]
But stern and unyielding they move along,
Convinced they have never done anything wrong.

This is a work-a-day world we're in,
And [illegible] their sound repeat;
But out of the tangles some gold we spin;
And out of the bitter extract some sweet;
But the hardest work is to get along
With those who never do anything wrong!

A FEARFUL TRAGEDY.

Four Persons Murdered—The Heroic Actions of Two Girls.

HAWKESBURY, Jan. 2.—The details in the Little Rideau tragedy go to show that the murderer [illegible] store-room adjoining the house, strangling her with a rope. Mrs. Cooke, evidently having come to her daughter's assistance, was next strangled in the same way. He next attacked Mr. Cooke, who had gone to the barn-yard, where he killed him with an axe, literally chopping his head to pieces. Then entering the house he proceeded upstairs to the room occupied by George, who was asleep, striking him, inflicting two fearful wounds in the temple with the axe, from which he shortly afterwards died; then rushing into Willie's room, struck him upon the thigh, inflicting a dangerous wound. Willie, although disabled, grappled with him.

The noise alarming his sisters, Maggie and Fannie, brought them to his assistance. In the struggle which ensued Maggie secured the axe, and the murderer then seized a lamp and struck Fannie with it, wounding her severely on the head. He then fled down the back stairs; the two girls going by the front stairs, met him in the dining-room, armed with a poker, when he struck at them with it. They defended themselves, and closed a door on him. Maggie ran to the front door, where she hailed a passer-by, who summoned assistance, upon hearing which the murderer fled, and was seen to cross the river, going in the direction of the St. Philip station of the Canada Pacific Railway. Nothing further has up to this been heard of him.

The house presents a most ghastly spectacle, the bodies of the four victims, Mr. Ruggles W. Cooke, Mrs. Cooke, Emma and George being laid out in it. The floors, walls and doors are bespattered with blood. Willie's wounds are so serious as to afford but slight hopes of his recovery. The murderer, Frederick Mann, a young Englishman lately from London, has been but three months in their employ, is about five feet six inches high, rather slight, with fair complexion. He left without a coat, wearing plain gray pants and leather moccasins. Mr. Cooke, the murdered man, was a very respectable farmer residing near Little Rideau. Great sympathy is felt for the family.

CAPTURED.

LACHUTE, Jan. 4,—The murder of the Cooke family was captured by Detective Latour about 4 o'clock last evening.

Heat in the Moon's Rays.

"Professor Piazzi Smith, Astronomer Royal for Scotland, made observations at stations on the Peak of Teneriffe, and found it to be a fact that the heat radiated from the moon, which has been so often sought for in the lower strata, was distinctly perceptible. This is not new, for if any of our readers will take a reading glass, and concentrate the rays of the moon on the bulb of a thermometer, they will have proof before their eyes. If no heat was in the moon's rays, then their concentration would not affect the thermometer, but as heat is there, it stands to reason the concentration can produce palpable heat, this we find is the case. This was first brought to our notice by looking through a large and powerful refracting telescope. As soon as we got the instrument fully on the moon, palpable heat was felt in the eye; not being satisfied, another tried the experiment with the same result. Subsequent observations established the fact beyond doubt."—*Raphael's Almanac.*

It always gives us pleasure to draw attention to articles which are deserving of public patronage. Probably no article ever offered to the public has met with the same success as Gray's Syrup of Red Spruce Gum. Thousands of families in the Dominion keep it in their homes as the standard Cough Remedy. The sale of this article has assumed enormous proportions. Our advice to the public at large is to try its virtues if they should at any time unfortunately contract either Coughs or Colds. It is sold by all chemists.

Do not take pills or powders containing Calomel, at this time of the year, the result may be serious. If you require a dose of physic take Dr. Carson's Stomach and Constipation Bitters; it acts gently on the Bowels, purifies the Blood, improves the circulation, stimulates the Liver and Kidneys, and speedily cures Billiousness, Headache, Dyspepsia, Indigestion. Search the Drug Stores from one end of Canada to the other, and you cannot find a remedy equal to it. Try it and use it in your families. Sold everywhere in large bottles at 50 cents.

"TWENTY-FOUR YEARS' EXPERIENCE," says an eminent Physician, convinces me that the only cure for "Nervous Exhaustion" and weakness of the generative organs is to repair the waste by giving Brain and Nerve Foods, and of all the remedies I have used Mack's Magnetic Medicine is the best. A Satisfactory Test.

A test of Mr. Hubert's new fire-proofing material, which is intended to take the place of iron beams in constructing fire-proof buildings, took place lately at Schillinger's stone yard at 92nd street and avenue A., New York city. The material consists of coal ashes and plaster paris moulded into strips one and one-half inches thick. A large oven built of this combination was erected in the yard. The top of the oven was coated with the fire-proofing, so as to represent the ceiling of a room, and above which there were a number of wooden beams, around which were nailed strips of the same material, these being surmounted by a wooden floor. At 2.30 p.m. a fire was started in the oven and allowed to continue to burn fiercely for an hour and a half. The fire was then extinquished with water and it was found that the floor was scarcely warm, while a beam that was directly across the flue was only slightly charred and a very small piece of the ceiling of the oven had fallen. It is claimed that iron beams would not have stood so severe a test in such a satisfactory manner and that the cost of this method of fire-proofing, will be about 33 per cent of that now employed.

KENDALL'S SPAVIN CURE

KENDALL'S SPAVIN CURE,

The most successful remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

From Rev. P. N. GRANGER,

Presiding Elder of the St. Albans District.

ST. ALBANS, Vt., Jan. 29th, 1880.
DR. B. J. KENDALL & Co., Gents:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming, I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bunch be found.
Respectfully yours, P. N. GRANGER.

PERSEVERANCE WILL TELL.

STOUGHTON, Mass., March 16th, 1880.
B. J. KENDALL & Co., Gents:—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me, its sale will be very great.
Respectfully yours, CHAS. E. PARKER.

KENDALL'S SPAVIN CURE is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, callous, sprains, swellings, and lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & CO., Enosburgh Falls, Vt.

JOHNSTON'S

SARSAPARILLA

FOR

LIVER COMPLAINT, DYSPEPSIA,

And for Purifying the Blood.

It has been in use for 20 years, and has proved to be the best preparation in the market for SICK HEADACHE, PAIN IN THE SIDE OR BACK, LIVER COMPLAINT, PIMPLES ON THE FACE, DYSPEPSIA, PILES, and all Diseases that arise from a Disordered Liver or an impure blood. Thousands of our best people take it and give it to their children. Physicians prescribe it daily. Those who use it once, recommend it to others.

It is made from Yellow Dock, Honduras Sarsaparilla, Wild Cherry, Stillingia, Dandelion, Sassafras, Wintergreen, and other well-known valuable Roots and Herbs. It is strictly vegetable, and cannot hurt the most delicate constitution. It is one of the best medicines in use for Regulating the Bowels.

It is sold by all responsible druggists at one dollar for a quart bottle, or six bottles for five dollars.

Those who cannot obtain a bottle of this medicine from their druggist may send us one dollar, and we will send it to them.

STOCK-TAKING.

We are round once more to our month for "taking stock." Unfolding—measuring—counting and rolling up again, is the allotted work for January with us.

BARGAINS!

To lighten our labours as much as possible we will give bargains during this month. Every yard of Goods sold is so much less for us to take stock of.

DRESS GOODS.

We have but few Dress Goods left, but what we have will be sold cheap—Remember that.

HOSIERY AND WOOLLEN GOODS.

Our Hosiery and Woollen Goods we will sell at cost. Also Mitts, Scarfs, Jerseys and all Winter Goods yet in stock.

MANTLES AND MILLINERY.

Those who want a bargain in a Mantle or in Millinery should see what we can do for them. Mantles from $1 up.

WHITE AND GREY COTTONS.

We have sold quantities of White and Grey Cottons and Check Shirtings lately. The price makes them go.

SEALETTE.

We have a bargain in Sealette for some one. Two qualities in stock. There is a good chance here to buy a first class Mantle as we do not intend to carry them over.

POLICE COURT.

DRUNK AND DISORDERLY.

WEDNESDAY, Jan. 3.—James Connell, for having been drunk and disorderly, was fined $2. He paid the fine and procured his liberty.

THURSDAY, Jan. 4.—Joe Barry, who is an old acquaintance of the Constables and gaoler, was introduced to the Magistrate this morning. He acknowledged that he had been drunk and disorderly, and the statement that he got drunk with his own money did not save him from punishment. He was fined $2 or thirty days in gaol. He preferred to go to gaol, declaring that *no sidewalks would be laid at his expense.*

Personal.

The following notice of a presentation to Mrs. C. V. Boughton, daughter of Mr. W. Cluxton of Peterborough, appears in the Emerson *International* of December 26th:—

> "The members of St. Luke's congregation yesterday presented Mrs. C. V. Boughton with an elegant jewel casket, with an enclosure of $165. This is but a feeble recognition of Mrs. Boughton's generous and voluntary services to the church, as organist, and in many other ways, but it shows that they are not unappreciated."

◆

Theatrical.

On Tuesday night Waterman's Boston Ideal Double Uncle Tom Company presented the old drama "Uncle Tom's Cabin" to a fair sized audience in Bradburn's Opera House. The two Lawyer Marks and the two Topsies kept the house in a merry mood, the latter being repeatedly recalled. Little Eva acted her part well, and the character of the faithful slave Uncle Tom was well sustained. The other members of the company were but poor actors, but their deficiencies were overlooked by the audience, who were well pleased with those mentioned.

The Weather.

Last night was cold and stormy. To-day the weather is clear and cold. The probabilities for this district for the following 24 hours, as reported from Toronto at 1 a. m. to-day, by the Great Northwestern Telegraph Company, are as follows:—North-westerly to northerly winds; fine and decidedly colder weather. The temperature will fall below zero in most places.

◆

Sound Reason.

We are getting in large shipments of oysters in bulk and cans, direct from the packers in Baltimore, and as we buy in large quantities, we can positively sell cheaper than has ever been done in our line in Peterborough before, which the following very low figures will show: Bulk oysters, 35 cents per quart; can oysters from 25 cts. to 40 cts. Large fine flavored Valencia Oranges, 25 to 30 cts. per dozen; Lemons 20 to 25 cts. per dozen; Malaga Grapes 25 cts. per pound. Dates, Figs in boxes and mats, Nuts and Candies, all on hand for the holidays. To persons buying in large quantities from us a fair reduction will be made. We are getting up *some very* handsome cakes for the holiday trade, beautifully iced and ornamented, and of the most artistic designs. Genoa cake, Butter Platzchen cake, Chocolate cake, Raisen cake, Jelly cake, Cocoanut cake, White Rosebud cake, Lafayette's cake, Maderia cake and Fruit cake, and an immense variety of small cakes always on hand. We bake every day, and can guarantee fresh goods. All orders for wedding and other cakes promptly attended to. Any person having any home-made cakes to ice will kindly oblige by sending in their orders at once, as we are now very busy. All orders filled in rotation. Don't forget the place: South Store, opposite the market square: north store, nearly opposite the express office.

Shiloh's Consumption Cure.

This is beyond question the most successful Cough Medicine we have ever sold, a few doses invariably cure the worst cases of Cough, Croup, and Bronchitis, while it's wonderful success in the cure of Consumption is without a parallel in the history of medicine. Since it's first discovery it has been sold on a guarantee, a test which no other medicine can stand. If you have a Cough we earnestly ask you to try it. Price 10 cts., 50 cts. and $1.00. For sale by J. D. Tully.

Shiloh's Catarrh Remedy.

A marvelous cure for Catarrh, Diphtheria, Canker mouth, and Head Ache. With each bottle there is *an ingenious nasal Injector for the more successful treatment* of these complaints without extra charge. Price 50 cts. For sale by J. D. Tully

GOOD ADVICE.—If our readers will accept proffered advice, they will always keep a bottle of Hagyard's Yellow Oil at hand for use in emergencies, such as Burns, Scalds, Wounds, Lameness, Croup, Chilblains, Rheumatism and all varieties of aches, pains and inflammations. It will ever be found reliable.

Answer This Question.

Why do so many people we see around us seem to prefer to suffer and be made miserable by Indigestion, Consumption, Dizziness, Loss of Appetite, Coming up of the Food, Yellow Skin, when for 75 cts., we will sell them Shiloh's Vitalizer, guaranteed to cure them. For sale by D. J. Tully

WALTER LIPTON, of Waterloo, writes that Hagyard's Yellow Oil has done great good in his family, his wife being cured of Callouse lumps that other medicines failed to remove, he he also states that a neighbor was promptly relieved of Rheumatism by the same remedy.

WORTH KNOWING.—A Fact Worth Knowing. The best household remedy known for Coughs, Colds, Bronchitis, Asthma, Whooping Cough and all throat and chest troubles tending toward Pulmonary Consumption is Hagyard's Pectoral Balsam, to be procured of any druggist.

MR. THOMAS W. RACE, Editor and Proprietor of the Mitchell *Recorder*, writes that he had a prejudice against Patent Medicines, but being induced to try Burdock Blood Bitters, for Billiousness that occasioned such violent headache and distress as to often disable him from work. The medicine gave him relief, and he now speaks of it in the most favorable terms.

Why The People Come Back to Us!

Is our trade in CLOTHING of that Character that serving—say a young man—once we never see him again? Not probable. Nor is it likely to take that character.

When a young man needs CLOTHING he wants something like a stock, a department, to select from. Don't you get that with us? He wants his Clothes well put together and run no risk of unnecessary ventilation, either; or at least there is some upon him unexpectedly. He don't care for seams like whip-cords in his pants legs, or his coat collar showing inches of room behind his neck. This touching Clothing. Another word here, we'd say. Don't jump to the conclusion that we don't keep certain goods because you don't see them mentioned in our advertisements. If you do you'll make a mistake. It's impossible, where we have so varied a stock of goods, to make mention of them all. We even may fail to mention some at all. So don't limit your ideas of our stock to our advertisements. As for what we say in them much more remains unsaid. There's nothing new, desirable or fashionable we haven't got. TRY US.

THE

PACIFIC NORTHWEST!

Oregon, Washington, and Idaho.

Offers the best field for emigrants—viz.: a mild, equable, and healthy climate; cheap lands of great fertility, producing all varieties of Grain, Fruit, and Grasses in wonderful abundance; an inexhaustible supply of Timber; vast Coal Fields, and other mineral deposits; cheap and quick transportation by railroads and river navigation; direct commerce with all parts of the world, owing to its proximity to the Pacific Ocean.

NO DROUTHS, NO INSECT PESTS, NO HURRICANES, WHIRLWINDS, OR OTHER DESTRUCTIVE PHENOMENA.

The lands of the Pacific Northwest show an average yield of wheat per acre largely in excess of that of any other section of the United States.

No failure of crops has ever occurred.

Oregon wheat commands a higher price than that of any other country in the Liverpool market.

An immense area of very fertile Railroad and Government Lands, within easy reach of the trunk lines of the Northern Pacific R. R., the Oregon Railway & Navigation, and the Oregon & California RR. Co's and their numerous branches in the grand Valleys of the Columbia and its tributaries, are now offered for sale at Low Prices, and on Easy Terms, or open to pre-emption and Homestead Entry.

The great movement of population to the Columbia region now in progress will be enormously increased by the completion of the Northern Pacific RR. and the Oregon Railway and Navigation Co's systems. This renders certain a rapid increase in the value of Lands now open to purchase or to entry under the United States Land Laws.

I CURE FITS!

When I say cure I do not mean merely to stop them for a time and then have them return again, I mean a radical cure. I have made the disease of FITS, EPILEPSY or FALLING SICKNESS a life-long study. I warrant my remedy to cure the worst cases. Because others have failed is no reason for not now receiving a cure. Send at once for a treatise and a Free Bottle of my infallible remedy. Give Express and Post Office. It costs you nothing for a trial, and I will cure you. Address Dr. H. G. ROOT, 183 Pearl St., New York.

MASON & HAMLIN ORGANS

are certainly best, having been so decreed at every Great World's Industrial Competition for Sixteen Years; no other American organs having been *found equal at any.* Also cheapest. Style 109; 3½ octaves; sufficient compass and power, with best quality, *for popular sacred and secular music in schools or families,* at only $22. One hundred other styles at $30, $57, $66, $72, $78, $93, $108, $114, to $500 and up. *The larger styles are wholly unrivaled by any other organs.* Also for easy payments. New *Illustrated Catalogue free.*

SULPHOLINE LOTION.—AN EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcule which cause these unsightly, irritable, painful affections, and always produce a clear, healthy, natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widely increasing reputation. Anyone, however deeply and hopelessly affected with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE *LIVER PILLS (without Mercury.)* THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine. Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

POLICE COURT.

THE ASSAULT CASES.

FRIDAY, Jan. 5.—Wm. H. Meharry was charged with having committed an assault upon Wm. Milligan, thereby doing him grievous bodily harm.

JOSEPH TOOLE, sworn, said that he saw these men scuffling on the street near the Eight Cent Store; saw two men striking Milligan while he was down; Meharry was one of them; Meharry walked away a few steps, and then returned and pulled off the other man; the two went down to Choate's yard, and then went into Snowden's yard.

CROSS-EXAMINED.—Was about fifteen feet from where they were scuffling when I turned; I did not see any blows struck before Milligan was lying on the sidewalk; I knew Meharry by sight, as he was pointed out to me that morning; I did not notice Rowland Hill or Benj. Long there.

FRANCIS CONROY and ROWLAND HILL gave evidence similar to that which they gave in the previous case. Hill did not see Meharry pull the other man off, but thought Meharry remained the last of the two.

DR. W. H. BURRITT repeated the evidence previously given in the same case against Wilson. He added that erysipelas had supervened, and the case of Milligan was now more serious.

MR. MOORE said that in the face of the evidence it would be useless for him to contend that Meharry did not strike Milligan. He could only suggest that there was a mistake; that the prisoner had nothing but good feeling towards Milligan, and that he was as sorry as any one that it had occurred.

The MAGISTRATE reserved judgment.

THE CUSHING CASE.

The case against Wilson and Meharry for assaulting Cushing was then brought up. The information was amended so as to make it a charge of assault thereby doing him grievous bodily harm.

Mr. O'MEARA conducted the case for the prosecution, Mr. Moore still acting for the prisoners.

DANIEL CUSHING gave evidence similar to that which he gave in the Doig case. He received three blows, two from Wilson and one from Meharry, all on the head. His hat was shown in Court with a cut in the rim, which he said the first blow given by Wilson caused.

CROSS-EXAMINED—The prisoners seem to have a grudge against me; Wilson assaulted me in Morgan's one time; I don't think he got the worst of it; have fought with both Wilson and Meharry [The information laying a charge against Cushing for assaulting Wilson some time ago was put in]. When Wilson came into Chamberlain's on Saturday night I did not prepare to meet him; when he struck me I did not strike him, but tried to get away; did not catch Wilson before he struck me; I only tried to guard myself; my friends dressed my wounds; they put three stitches in one of them.

RE-EXAMINED—Wilson assaulted me the 2nd of March, 1881, in Phelan's Hotel; he cut my head open at that time; I have always been ready to appear on the charge against me here, and did appear a couple of times, but Wilson could not be found.

JOHN DONOVAN, sworn, said:—Was in Chamberlain's on Saturday night; Cushing was there; saw the prisoners there as I turned around from the bar; they were making a rush towards Cushing; as Cushing turned around Wilson struck him; Wilson struck him the second time; saw Meharry make a rush at Cushing and raise his hand, but in the confusion did not see him strike; heard him say "Murder the —— ——;" noticed something on Wilson's hand—iron rings or metal of some kind; nothing was said before the blows were struck.

CROSS-EXAMINED.—Saw Wilson strike Cushing on the head; all I saw Cushing do was to raise his hands to guard himself; did not see Cushing attempt to strike Wilson.

DR. W. H. BURRITT, sworn, said:—I have made an examination of the wounds on Cushing's head; I do not think they could have been made by a hand alone; the cuts were of a severe nature, but not at present dangerous, although erysipelas might supervene; one wound on Cushing's head was very like one on Milligan's head; in one wound the skull was denuded, and they all penetrated through the scalp.

CROSS-EXAMINED.—A large ring, such as is sometimes seen on men's fingers, might cut through the scalp; two of the wounds on Cushing's head were too long to have been made by a ring.

ROBERT WHITE, JR., gave similar evidence to that which he gave on Wednesday. He said that Cushing was shaking hands with him when he was struck by Wilson.

JOHN HOOTEN, for the defence, was sworn, and said:—Was in Chamberlain's saloon on Saturday evening; the row was going on when I went in; I went in with Meharry and another man; there were three at Wilson when I went in, Cushing being one of them, and Doig another; Wilson was bent over and two men were on his back; Cushing and others were striking at him; Doig was striking Wilson with a whip; he struck me with the whip on the eye; Meharry went to separate those fighting, and did not strike anyone; he did not say to kill anyone; heard Mr. Purser use words similar to those attributed to Meharry.

CROSS-EXAMINED.—Do not know Mr. Burns; had not seen Wilson that evening before I went into Chamberlain's; Meharry, myself and Bidgood were across the street, when we saw that there was a row in Chamberlain's, and went across to see what it was; did not do anything when Doig struck me; took no part in the fight and had not been drinking.

CHARLES BIDGOOD, sworn, said:—I live in Cavan; went into Chamberlain's saloon on Saturday evening with Hooton and Meharry; we three came up together from Snowden's; when we went into Chamberlain's there were four or five men fighting; Hooper had Wilson by the shoulders and Doig was hitting Wilson with a whip; Wilson was bent over and Cushing was in front of him and striking at him; could not say whether Wilson was on his knees or not; Meharry caught hold of Hooper and shoved him back; did not see Meharry strike at anybody; did not hear him use any expression about killing anyone; Mr. Purser made use of such an expression; Doig struck Hooper twice with the butt of the whip, and then I caught the whip.

CROSS-EXAMINED.—I am not related to Meharry; had no conversation with Mr. Moore about the evidence I should give; I was in Court on Wednesday; I caught Mr. Hooper in Chamberlain's; did not see anyone strike Hooper; held Hooper until I let go in order to catch the whip; did not see anyone strike Cushing; Cushing might have been down, but I did not see him down; did not see Cushing plain enough to tell whether he was bleeding; it was Wm. Meharry that went with me.

This closed the evidence for the defence,

R. WHITE was recalled. Saw Bidgood and Hooton come into Chamberlain's; Meharry did not come in with them; they were not there when Wilson and Meharry were striking Cushing.

CROSS-EXAMINED—When Bidgood and Hooton came in I was not six feet from the door.

THOS. HOOPER, sworn, said:—I was in Chamberlain's on Saturday night; I heard Hooten give his evidence; I saw Hooton come into Chamberlain's; Meharry did not come in with him; do not remember seeing Bidgood until today; I was close to Doig; he did not strike any one with the whip while I was on my feet; I saw Meharry strike some one; I know Mr. Purser, but was not close to him.

CROSS-EXAMINED—I saw Meharry come in; there was no confusion in the room before Meharry came in; the row was not over when Hooton came in; Meharry was in before Cushing was struck; Hooton came in while the scuffle was going on; I did not see the other Meharry there.

MEHARRY, when asked if the prisoners had anything to say, said that it was not true that he struck Cushing. He went into Chamberlain's with Hooten. He never used the expression attributed to him.

Judgment reserved until to-morrow.

THE DOIG CASE.

MR. MOORE said that the prisoners were now content to allow the Magistrate to dispose of the case in which they were accused of assaulting Doig.

MEHARRY stated that Doig struck him over the head with a whip, and that he did not strike Doig at all.

Judgment reserved until to-morrow.

LINDSAY.

CANOE CLUB.—The Lindsay *Post* says:—It is proposed to get up a canoe club in Lindsay—something that there should not be a great amount of difficulty about. The annual meeting of the American Canoe Association will be held this year at Stoney Lake, north of Lakefield. It has been proposed by a number of the American canoeists to travel by rail to Lindsay, and thence down the Scugog and through the lakes to the camp ground. All owners of canoes in Lindsay should get together and form a local club, and in a body take their holiday this coming summer at Stoney Lake. A meeting of those who take an interest in such matters will be held in the store of Mr. J. G. Edwards on Monday evening of next week.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

AMERICAN.

A MURDERED WIFE.

CHICAGO, Jan. 5.—Joshua and Thomas Lifford father and son have been held by a coroner's jury for the murder of the wife of Joshua, in Grandby, on New Years Day. A vast concourse attended the funeral of the murdered woman in Baldwinsville yesterday.

A SERIOUS FIRE.

CAHOES, Jan. 5.—The rolling mills of Morrison, Coleville and Pope are burning; the mills of P. G. Ugerty and the tubing works of A. G. Curtis & Co. are in danger. A high wind is blowing.

INNOCENCE PARDONED.

WASHINGTON, Jan. 5.—The President has pardoned Wm. Pendergrast, who is confined in the Auburn, N. Y., penitentiary. Pendergrast was arrested in Buffalo on a charge of trying to pass a counterfeit silver dollar. After his conviction the coin was found to be genuine.

THE U. S. TARRIFF.

NEW YORK, Jan. 5.—The *Sun's* Washington despatch says that business men have been flocking here from all parts of the Union for the last few days, owing to the fact that the uncertainty respecting the tax and tariff action is damaging business, and some predict that serious trouble will happen unless Congress passes a bill this session.

HEAVY DAMAGES.

WASHINGTON, Jan. 5.—Ynocencio Casanova, a naturalized citizen, has presented to the State Department a formal protest against the Spanish claims commission in regard to $1,000,000 damages for false imprisonment and injury to his Cuban plantations during the Cuban insurrection. His award was $6,000.

COCK FIGHTING.

RONDOUT, Jan. 5.—The largest cocking main that has taken place along the river for several years took place here last night. The birds on one side were from Albany, Hudson and Saugerties, and on the other from Rondout and Eddyville. A great amount of money changed hands.

DARING ROBBERY.

LEMONT, Ill., Jan. 5.—The other evening five masked robbers bound and gagged Isaac Arnold's two hired men ft the barn. They then entered the house and bound Arnold and his housekeeper, who were eating their supper. They then took $1,200 from Arnold's safe and escaped with five of Arnold's horses. There is no clue to the robbers.

CHINESE IMMIGRANTS.

WASHINGTON, Jan. 5.—The Attorney-General has given his opinion that the prohibition against Chinese entering our ports, applies only to laborers and intending to remain in the United States, and that the law does not prohibit Chinese of any condition from landing in or travelling through the country, whose purpose is to go elsewhere.

THEFT ON THE CARS.

SYRACUSE, Jan. 5.—Jas. Wilson, claiming to be an agent for wine merchants in New York, was committed yesterday to await his trial on a charge of stealing $500 from Delos Johnson, of Fabius, N. Y. Wilson was one of four men who crowded Johnson in a Binghamton railroad car on Friday, after which Johnson missed the money.

CLERICAL LIBEL SUIT.

SCRANTON, Pa., Jan. 5.—The Rev. Jonathan Edwards, pastor of the Plymouth Congregational Church, Hyde Park, and Mr. Jones, ex-minister, appeared yesterday as defendants in a suit for criminal libel brought by the Rev. Dr. Williams, pastor of the First Welsh Baptist Church, Hyde Park. The defendants are editors of the organ of the Temperance Union, and recently a charge was made therein that a certain pastor used strong drink. No names were mentioned, but Williams alleged that the article referred to himself. The defendants refused to recognize the complainant as the pastor referred to.

YOUNG'S POINT.

From Our Own Correspondent.

ENTERTAINMENT.—On *Friday* evening, the 22nd of December, an interesting entertainment consisting of music, and recitations, was given in the Presbyterian Church, North Smith, in aid of the Sunday School, which has been in a flourishing condition under the kindly and efficient superintendency of Mr. B. Sanderson. Though the evening was wet and disagreeable, yet the house was crowded. The children of the School acquitted themselves in a very creditable manner, and Mr. Burroughs, who had charge of this part of the programme, deserves great credit for the excellent taste in the selection of pieces, and the care exercised in training the children. The Christmas tree, the great attraction of the evening, was tastefully decorated with many and costly presents. Among the many recipients were Mr. Burroughs and Miss Jane Preston, the former a watch and chain and the latter a work-box, both gifts of the congregation for their many kind offices during the year. At the close Mr. M. E. Sanderson, on behalf of the congregation, in a few well chosen words, presented Mr. Clarke with a set of harness elegantly mounted. This little congregation is alive and knows how to appreciate work; it is worthy of imitation by the more wealthy. May pastor and people long enjoy the same happy relationship.

Free of Cost.

All persons wishing to test the merits of a great remedy—one that will positively cure Consumption, Cough Cold, Asthma, Bronchitis, or any affection of the Throat and Lungs—are requested to call at Taylor & Macdonald's Drug Store and get a Trial Bottle of Dr. King's New Discovery for Consumption *free of cost*, which will show you what a regular dollar-size bottle will do—1.

Gaining a World Wide Reputation.

About 150,000 bottles of medicine and 3000 Spirometers, the invention of M. Souvielle of Paris and ex-aide surgeon of the French army, have been used by physicians and patients during the last year for the cure of catarrh, catarrhal deafness, bronchitis, asthma, consumption in its first stages and many diseases of the head, throat and lungs. Daily Evening Review

FRIDAY, JANUARY 5, 1883.

THE POLITICAL CONVENTIONS.

Last year there was a convention of Conservative delegates in Toronto, and the *Globe* derided and abused both speakers and listeners, its satellites of course following its bad example. Now there is a Reform Convention in the same city, and in its turn the *Mail* employs insulting language to describe it, and the attendants upon it. For our part we have no intention of imitating it in a course which we must hold deserving only of condemnation either in friend or opponent. In a country such as Canada, where the great mass of the people not only take a great interest in politics, but also have their share in the conduct of our public affairs, it is obvious that there can be no difficulty in assembling a large and intelligent convention of either party. Neither can there be any doubt in reasonable minds of the expediency and propriety of holding such meetings. To belittle them is in fact to belittle the country whose welfare we should all have at heart.

We may, however, remark that the Reform organs are going too far in their endeavors to show that the present Convention altogether overshadows the previous one, or that it is a proof of popular sympathy. There is no just ground to place this interpretation upon what should be a business meeting for the purpose of enabling the leaders of the party to consult with their followers and lay their views before them. Though the present meeting is numerously and influentially attended, even though there are 6,000 in attendance against the 4,000 of the Conservative Convention, there is no reason for desparaging comparisons. If a comparison is forced upon us, however, we must say that the Conservative Convention was a thorough business meeting of duly selected delegates from the different constituencies, and the fact that the attendance was if anything too great was due largely to the personal attraction of the Conservative leaders. The Reform Convention, on the other hand, partakes much of the character of a mass meeting, rather than of a convention of delegates. We all know how in this county a reception of the Reform leader was urgently invited by circulars, with the object of representing it afterwards as a spontaneous indication of public feeling. The same tactics have again been pursued. Very large delegations have been purposely appointed, all Reformers, whether named or not, have been invited, and unprecedented facilities have been given to all attending the Convention. That there should be a crowd is therefore only natural, and by no means an indication of public opinion.

With this protest against a wrong inference that it is attempted to draw, we must say again that we have no inclination to belittle this Convention, but are prepared to consider with respectful attention the enunciations of the meeting, representing as it does a very large portion, though as we believe not the majority of our fellow citizens. The platform, which they will no doubt frame, must therefore be of public importance, even if the policy it sets forth is not to be adopted by the people.

A SIGNIFICANT INCIDENT.

In its "Convention Notes" the *Globe* has the following very suggestive paragraph :—

"A significant incident occurred in connection with the selection of secretaries for the Convention. Among the names submitted to the meeting was that of Master George Brown, son of the late Senator Brown. The relationship was no sooner mentioned than the hall resounded with shouts of "Brown, Brown!" "We want to see him," &c. In vain did the Chairman attempt to quiet the meeting in order to proceed with the regular order of business—nothing would suffice but the introduction of the late Senator's son, who, on coming to the front of the platform, was the recipient of a perfect ovation, several of the audience crowding forward to shake hands with him. It was a pleasing and touching tribute to the memory of the departed leader."

This is indeed a "significant incident." The delegates who shouted so vociferously for "Brown" are hardly likely to be in sympathy with the policy which has just resulted in the unceremonious dismissal of Mr. Gordon Brown from the editorial control of the *Globe* because he was not in harmony with the new order of things. The old Reformers who revered the name of "Brown" and who have given this significant proof that they still revere it, will hardly know where they are when informed that the surviving brother has had to be shelved because he could not support their present leaders as they wished to be supported, and must think that the old party is changed indeed.

Is it not possible that this cordial reception of the young Brown was "a pleasing and touching tribute" not only to the dead father, but also to the living but cashiered uncle?

A CHEEKY ASSUMPTION.

Our local Grit contemporary tells us that the timber lands of the disputed territory should be put at the disposal of "the set of men who have administered their trust so well that they have a surplus of over four and a half millions." Why, as far back as the winter of 1879, Mr. Mowat proclaimed at Woodstock that he had $5,000,000 of a surplus. Since that he has sold about 7,000 square miles of the best timber limits of Ontario proper. And yet the surplus mentioned by our local Grit contemporary is $500,000 less than that claimed by the Premier four years ago! In other words, the "set of men" alluded to have not only squandered the ordinary revenue, consisting of $2,500,000, but the proceeds of the great auction sales of public timber, amounting last year alone to over $1,000,000, as well, besides eating into the surplus on hand in 1879 to the tune of $500,000! Is this the kind of administration which has the face to demand to be put in charge of the Disputed Lands? What presumption, added to incapacity! At this rate, how soon will it be before the Province is reduced to the financial condition of Virginia, which is one of almost hopeless insolvency. We consider that such a spendthrift mode of administration would disgrace any "set of men" in a mercantile house. But it is a mode which has left its mark in every department of the Provincial service. Four millions and a half is a large sum. With it, it might be supposed, a vast amount of good could be promoted. But what is the position of the Mowat government in regard to present and proposed expenditures? Simply that, owing to the stringency of the public purse, the grants to local institutions are threatened to be cut off, and that, a work which was once declared to be absolutely necessary, namely, the erection of Legislative buildings, has to be abandoned on the pitiful plea that, though it was only estimated to cost half a million dollars, there was not money enough at command to go on with it. The fact is Mowat has not a surplus of four millions, nor anything like it. The public substance has been squandered by the "set of men" in charge of it, with a recklessness and prodigality that should be condemned by every one who desires to see this Province remain solvent.—*London Free Press.*

U. S. POSTAGE-STAMPS.

The portrait of Benjamin Franklin on the one-cent stamp, in imperial ultramarine blue, is after a profile of Rubricht. The head of Andrew Jackson the two-cent stamp in vermillion, is from a bust by Hiram Powers. The Washington head on the green three cent stamp is after Houdon's celebrated bust. The head on the five-cent blue stamp is that of Zachary Taylor. The Lincoln profile, in red, on the six-cent stamp, is after a bust by Volk. The seven-cent stamp, in vermillion, gives the head of Stanton after a photograph. The head of Jefferson on the ten-cent stamp, in chocolate, is drawn from a life-size statue by Hiram Powers. The protrait of Henry Clay, in neutral purple, on the twelve-cent stamp, is after a bust by Hart. The head of Webster, on the fifteen-cent stamp, in orange is after the Clevinger bust. The protrait of General Scott, on the twenty-four-cent stamp, purple, is after a bust by Coffee. The head of Hamilton, on the thirty-cent stamp, in black, is after the Cerrachi bust; and the protrait of Commodore Oliver Hazard Perry, in carmine, on the ninety-cent stamp, is after Wolcott's statue. The style in which these adhesive stamps are printed, and the clearness of outline of the several protraits, as well as the artistic excellence of the engraving, reflects credit on the head of the post-office department, Mr. Creswell, on whose authority they were executed. The seven, twelve and twenty-four-cent stamps have been retired from use. On the new five-cent stamp is a protrait of Garfield, from the photograph of which the Queen had a copy, and which was approved by Mrs. Garfield.—*Boston [illegible].*

A Rat Shuts off the Electric Light.

A peculiar incident occurred on Saturday night last at the store of Willoughby, Hill & Co. The firm use a large number of electric lights in their building. At 11 o'clock, when the store was crowded with people, the light was suddenly turned off, and all were left in utter darkness. As rapidly as possible the gas-jets were lighted and everybody looked surprised, none more so than the members of the firm. The engine was running as rapidly as usual, and the dynamos were working elegantly when an investigation was made, still no electric light was visible above. Under the dynamo there stood a rat, with one leg raised up as if about to take another step. The rat was dead and rooted to the spot. He had leaped on one of the copper conductors under the brush, and in stepping on the other closed the current so that it passed through his body, killing him instantly, the rat remaining nailed to the spot, while the entire current passed through him and prevented it from ascending above. The machinery was stopped, the rat taken off, and then everything was all right again, for when the machinery was again started the lights burned as well as usual.—*Chicago Tribune.*

Fortunes for Farmers and Mechanics.

Thousands of dollars can be saved by using proper judgement in taking care of the health of yourself and family. If you are Bilious, have sallow complexion, poor appetite, low and depressed spirits, and generally debilitated, do not delay a moment, but go at once and procure a bottle of those wonderful Electric Bitters, which never fail to cure, and that for a trifling sum of fifty cents.—*Tribune.* Sold by Taylor & Macdonald—1.

THERE are many foolish things done in this world, and one of the most foolish (and we may add wicked) things is to neglect a Cold. Now we know that Coughs, Colds, Bronchitis, Catarrh, and all Chest, Throat and Lung Troubles if neglected are sure to end in Consumption and Death. They may be easily cured by using as directed Dr. Carson's Pulmonary Cough Drops, there is no remedy equal to it. It never fails. Sold everywhere in large bottles at 50 cents.

THE SUNK LANDS OF ARKANSAS.

A Freak of the Earthquake of 1812—Pen and Ink Sketches of a Lowland Paradise.

KENNETT, Mo., Dec. 10.—The Sunk Lands, in southeastern Missouri and northeastern Arkansas, are a sort of *terra incognita*. The country was formerly as beautiful and fertile a plot of land as any on the globe. Rolling prairies were shaded by heavy forests and traversed by two beautiful streams, the Little and St. Francois Rivers. The rivers still exist, but the general face of the country was marvellously changed by the great earthquake of 1811-12. These streams, instead of meandering through rolling prairies and primeval forests, now keep their tortuous courses by a chain of lakes and swamps of cypress and tupelo gum, draped artistically with elk vine and grey moss. It is a paradise of lowland scenery, from which millions of photographic views might be taken, leaving millions more of equal beauty untouched.

The Sunk Lands proper are 120 miles long and average 60 miles wide. They are diversified with beautiful lakes, rolling prairies, and dense forests. The lakes contain much open water, and vary in depth from five to thirty feet. Some are covered with forests of cypress and tupelo gum festooned with moss and vines. While canoeing your way over these weird timber-grown lakes long vistas 'neath overarching trees and vines open up to view, and in the dim distance, seemingly miles away, so marvellous is the perspective, the waters of some open lake are tremulous with sunbeams.

These timbered lakes are a favorite resort for trappers and hunters. They annually capture thousands of dollars worth of furs. Otters, beavers, raccoons, opossums and [illegible] are trapped by the hundreds. Fine game fish are also caught here.

The land is unusually fertile. Large farms under cultivation yield immense crops of corn, cotton, wheat, rye, oats, sorghum, potatoes, and other vegetables; yet to a stranger the country seems like an unbroken forest. The timber includes the most valuable timber known to commerce, black walnut, ash, white oak of the finest ship-building quality, post oak, cherry, maple, hickory, hackberry, cypress, catalpa, and sassafras. There is another species used for local building purposes, which, if it ever reaches a fair market value, will prove a source of great wealth. I mean the red gum. It is susceptible of a higher polish than black walnut. It will not split, and, when properly seasoned and dressed, makes beautiful boards, having much the appearance of cedar, or of the redwood of California. In all requirements save durability it fills the bill exactly for railroad cross-ties. A driven nail will not draw from this wood. When a process is discovered which will render it durable under exposure of the weather it will be an invaluable wood.

The agricultural possibilities of these Sunk Lands are great. Before the war it was thought impracticable to grow cotton so far north. Now the average yield is about 1,500 pounds seed cotton, equal to three-quarters of a bale lint cotton, to the acre. This county raised and shipped last year in round numbers [illegible] bales of cotton, although lying in latitude 36° north. Hay is also a great product. Everything grows luxuriantly. The peculiar formation of the land renders it dry, and yet perfectly invulnerable to the ravages of the most continued drought. During the driest season of the year it is not more than [illegible] to the level of the surrounding lakes. The land is a rich sandy loam, highly porous. The moisture rises to the surface. Every morning the ground is moist and fresh, notwithstanding that on the day previous it may have been parched seemingly almost to a cinder by the burning sun and dry winds.

A Turkish Legend.

When Solomon was ruling on earth, the angel Gabriel was sent to him one day with a goblet filled with the water of life, and bearing from on high the message that, if he chose, he might drink of the water and become immortal. Calling together all his wisest councillors, he asked their advice. They, with one consent, advised him to drink and live forever. Then he summoned the birds of the air and the beasts of the field, and all of them gave the same advice, with one solitary exception. This was the hedgehog. Approaching the throne, and bending its brow to the ground, thus did it speak:—"If this water may be shared by thee with thy kith and kin, then drink and enjoy the bliss of living. But if it is intended for thee alone, then do not drink. For sad would it be for thee to live on but to see thy kinsmen and friends one after the other disappear." "True are thy words, O hedgehog," replied the king. "To me alone has the water been sent. As thou hast counselled, so will I decide." Thus spoke Solomon; and the water of life did he not drink.—*Jewish Messenger.*

Personal! To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

FROM ALL OVER.

THE mineral output of Utah last year exceeded $10,000,000.

THE branches of the Irish National League now number three hundred.

TEN thousand people in the district of Worms have been rendered homeless by the floods.

IT is announced from St. Petersburg that the coronation of the Czar will probably take place in April.

OVER 2,000 employees of the Vulcan Steel works at St. Louis are idle on account of a strike.

A MEMBER of the Board of Managers of the Garfield Fair states that the profits from the fair are nearly $10,000.

DR. CHAS. PORTERFIELD KRAUTH, Vice-Provost of the University of Pennsylvania, died on Wednesday. He was distinguished as a Biblical and historical writer.

DO YOUR CHILDREN have fits or convulsions, grind their teeth, pick their nose, have a bad breath, or a changeable appetite? Are they restless or feverish at night? If so, ask your druggist for Dr. Smith's German Worm Remedy (take no other), it only costs 25 cents. It is simple, safe, and pleasant to take. If there are no worms, to remove the slime and bile that breeds them, tones up the system, and will save many a doctor's bill. A word to the wise, etc. Thousands of testimonials.

IT is said that the formation of a company for the laying of a new cable from Halifax to Queenstown has now been completed, and that the work will be commenced next April.

It always gives us pleasure to draw attention to articles which are deserving of public patronage. Probably no article ever offered to the public has met with the same success as Gray's Syrup of Red Spruce Gum. Thousands of families in the Dominion keep it in their houses as the standard Cough Remedy. The sale of this article has assumed enormous proportions. Our advice to the public at large is to try its virtues if they should at any time unfortunately contract either Coughs or Colds. It is sold by all chemists.

THE bailiffs who fired upon a body of obstructive peasants on Tuesday in county Tipperary, Ireland, have been arrested upon a coroner's warrant, and a verdict found against them of wilful murder.

Do not take pills or powders containing Calomel, at this time of the year, the result may be serious. If you require a dose of physic take Dr. Carson's Stomach and Constipation Bitters; it acts gently on the Bowels, purifies the Blood, improves the circulation, stimulates the Liver and Kidneys, and speedily cures Biliousness, Headache, Dyspepsia, Indigestion. Search the Drug Stores from one end of Canada to the other, and you cannot find a remedy equal to it. Try it and see it in your family. Sold everywhere in large bottles at 50 cents.

IN Detroit a discount is now charged on Canadian money in order to cover the expense of delay in making exchange at the banks, the latter having demanded notice in advance of remittances of the same.

"TWENTY-FOUR YEARS' EXPERIENCE," says an eminent Physician, convinces me that the only cure for "Nervous Exhaustion" and weakness of the generative organs is to repair the waste by giving Brain and Nerve Foods, and of all the remedies I have used Mack's Magnetic Medicine is the best. This remedy is now sold by all our Druggists at 50 cts. per box, or 6 for $2.50, and on receipt of an order for 12 boxes, accompanied with $5.00, addressed to Mack's Magnetic Medicine Co., Windsor, Ont., they will forward the goods free by mail, and send their "written guarantee" to refund the money, if the treatment does not effect a cure. See adv't in another column.

MORE murders are reported from Ireland. In one case a farmer was shot dead near Limerick, and in another an ex-suspect was found murdered two miles from Ballinamore. Several arrests have been made on suspicion.

SULPHOLINE LOTION.—AN EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcula which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widely increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and develops the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine. Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

WISE people are always on the lookout for chances to increase their earnings, and in time become wealthy; those who do not improve their opportunities remain in poverty. We offer a great chance to make money. We want many men, women, boys and girls to work for us right in their own localities. Any one can do the work properly from the first start. The business will pay more than ten times ordinary wages. Expensive outfit furnished free. No one who engages fails to make money rapidly. You can devote your whole time to the work, or only your spare moments. Full information and all that is needed sent free. Address STINSON & Co., Portland, Maine.

THE

PACIFIC NORTHWEST!

Oregon, Washington, and Idaho.

Offers the best field for emigrants—viz.: a mild, equable, and healthy climate; cheap lands of great fertility, producing all varieties of Grain, Fruit, and Grasses in wonderful abundance; an inexhaustible supply of Timber; vast Coal Fields, and other mineral deposits; cheap and quick transportation by railroads and river navigation; direct commerce with all parts of the world, owing to its proximity to the Pacific Ocean.

NO DROUTHS, NO INSECT PESTS, NO HURRICANES, WHIRLWINDS, OR OTHER DESTRUCTIVE PHENOMENA.

The lands of the Pacific Northwest show an average yield of wheat per acre largely in excess of that of any other section of the United States.

No failure of crops has ever occurred.

Oregon wheat commands a higher price than that of any other country in the Liverpool market.

An immense area of very fertile Railroad and Government Lands, within easy reach of the trunk lines of the Northern Pacific R.R., the Oregon Railway & Navigation, and the Oregon & California RR. Co's and their numerous branches in the great Valleys of the Columbia and its tributaries, are now offered for sale at Low Prices, and on Easy Terms, or open to pre-emption and Homestead Entry.

The great movement of population to the Columbia region now in progress will be enormously increased by the completion of the Northern Pacific RR. and the Oregon Railway and Navigation Co's systems. This renders certain a rapid increase in the value of Lands now open to purchase or to entry under the United States Land Laws.

I CURE FITS!

When I say cure I do not mean merely to stop them for a time and then have them return again, I mean a radical cure. I have made the disease of FITS, EPILEPSY or FALLING SICKNESS a life-long study. I warrant my remedy to cure the worst cases. Because others have failed is no reason for not now receiving a cure. Send at once for a treatise and a Free Bottle of my infallible remedy. Give Express and Post Office. It costs you nothing for a trial, and I will cure you. Address DR. H. G. ROOT, 183 Pearl St., New York.

MASON & HAMLIN

ORGANS are certainly best, having been so decreed at every Great World's Industrial Competition for Sixteen Years; *no other American organs having been found equal at any.* Also cheapest. Style 109; 3½ octaves; sufficient compass and power, with best quality, for popular sacred and secular music in schools or families, at only $22. One hundred other styles at $30, $57, $66, $72, $78, $93, $108, $114, to $500 and up. *The larger styles are wholly unrivaled by any other organs.* Also for easy payments. New Illustrated Catalogue free.

The MASON & HAMLIN Organ and Piano Co., 154 Tremont Street, Boston; 46 East 14th Street (Union Square), New York; 149 Wabash Avenue, Chicago.

CONSUMPTION.

I have a positive remedy for the above disease; by its use thousands of cases of the worst kind and of long standing have been cured. Indeed, so strong is my faith in its efficacy, that I will send TWO BOTTLES FREE, together with a VALUABLE TREATISE on this disease, to any sufferer. Give Express and P. O. address.

FRIDAY, JANUARY 5, 1883.

The Jubilee Concert.

The Jubilee Concert in Bradburn's Hall on Thursday, January 11, will consist of an entirely new programme of the most select kind. Tickets 50 and 35 cents, to be had at T. Menzies' Bookstore in a few days, where a plan of the hall may be seen.

Railway Notes.

The Lindsay *Post* says:—

"Messrs. I. McNeely and H. Walters, the contractors for the Midland branch line to connect with the straight line to Omemee, are pushing preparations for an early commencement of work. In addition to a large force employed in getting out stone in Bobcaygeon they are asking for tenders for a quantity of field stone, ties and fence posts. This material will be delivered along the line of the baanch, and work will be commenced almost immediately."

The Weather.

The weather last night was extremely cold, and a small quantity of snow f'll. To-day is also cold, and "probs." says we are to have a continuance of this sort of weather for another twenty-four hours at least. The probabilities for this district for the following 24 hours, as reported from Toronto at 1 a. m. to-day, by the Great Northwestern Telegraph Company, are as follows:—Lakes—Strong easterly to northerly winds; cloudy to snowy weather; stationary or sleightly higher temperature.

Methodist Church Anniversary.

The calebration of the sixth anniversary of the George Street Methodist Church will take place next Sunday and Monday. The Rev. Dr. Stone, of the Methodist Episcopal Church, Hamilton, will preach the anniversary sermons at both services on Sunday. The ladies of the congregation will give a public tea in the basement of the church on Monday evening at half past six o'clock. Subsequently there will be a meeting in the church, when there will be music by the choir, the financial report of the Treasurer, and addresses by the Rev. Dr. Stone and others.

Vital Statistics.

The following are the registrations of births, marriages and deaths for the town of Peterborough, for the past and proceeding year:—

	1881	*1882*
Births	168	198
Marriages	91	85
Deaths	83	104

It will be seen that there has been a falling off in the registration, which is obviously from a neglect to comply with the Act. We may remind those who disregard the requirements of the law in this matter, that they are subjecting themselves to penalties which may at any time be enforced.

"WE EAT TO LIVE!"

The Staff of the Review Office Sit Down to their Annual Spread.

For the last quarter of a century or more the carrier boys of the REVIEW have given the employees a sumptous spread at the beginning of the New Year. This year the boys were, as usual, up to the mark in the way of ordering nothing but the best. Mr. Croft, who has catered for them for a number of years, excelled all his previous efforts, and the printers sat down to a table that fairly groaned with the good things that were on it. Mr. Wm. Cowie, who has been in the REVIEW for the last fifteen or sixteen years, occupied the chair, and gave the men a reminiscence of by-gone days when he first came to Peterborough. The vice-chair was filled by Mr. A. G. Compigne, who provoked roars of laughter by his comical songs. The toast of "The carrier boys" was received with enthusiasm, as was also that of "The proprietors of the REVIEW." The "Heads of the departments" brought Messrs. Cowie, Browne and Compigne to their feet, each returning thanks in a neat little speech. The toast of "Our foreman, Mr. Wm. Menzies," was proposed, and, it is needless to say, was most enthusiastically received. Mr. Menzies being unavoidably absent, Mr. James Menzies responded. "The Ladies" was responded to by Mr. S. R. Armstrong, and several other toasts followed, responses being made by Messrs. Alfords and Wilson. Songs were sung by Messrs. Compigne, Browne, Savage and Brislette. Mr. Croft responded to "Our host and hostess" in a pleasant speech, and the festivities were continued until 11:30, when "God save the Queen" brought the gathering to a close. This was one of the most successful and pleasant of these annual gatherings, which have been held for upwards of twenty-five years.

The Cells.

Ten men who had no where to lay their heads, found shelter last night in the police cells.

Personal.

The Lindsay *Post* says;—

"It is probable that Mr. Albert Hall, confectioner, will shortly open up again at a suitable point for his business on Kent street. Mr. Hall will be welcomed back by the public at large, who have during the last five years learned to rely on his excellence as a pastry cook.

At the Court.

Great interest was manifested in the trial of the assault cases at the Police Court to-day. As on Wednesday, the court room was crowded—literally packed with eager listeners who at times gave vent to their feelings in laughter as the witnesses were being cross-examined.

To-night.

Do not forget the concert in Bradburn's Hall to-night by Carpenter's Unique and Only Company. Any person who wishes to compete with Mr. Carpenter in dancing will have an opportunity to do so between the second and third acts.

Not So Well.

Mr. Samuel Milligan, who was knocked down and beaten on the street on Saturday night, is not so well to-day. Erysipelas has supervened, and he is unable to leave the house. He has been troubled with rheumatism a great deal this summer, and was not in good health at the time he was assaulted, which renders his case more serious, although there is no actual danger at present.

Fossil Relic.

A few days ago Mr. Samuel Sinclair, who is employed as a trader near Lake Winnipeg, had occasion to diverge from the beaten track to visit Dien lake, a small sheet of water which lies north of Lake Winnipeg. Glancing at the extremity of a rock which jutted out of the water, he noticed something very peculiar about the formation. On going near to make a close inspection he discovered the skeleton of a large animal, somewhat resembling a buffalo, in a petrified condition, and in an excellent state of preservation. Mr. Sinclair put up a mark at the spot, and intends going back to take possession of his find. He will probably present the skeleton to the government for the Geological Institute.—*Selkirk Herald.*

An Enterprising Company.

The National Steamship Company, represented in Montreal by Mr. Douglas Battershy, has contracted with the Messrs. Thomson & Co., well known steamship builders, of Glasgow, for a new 6,500 ton steamer, to be 430 feet long by 51 feet beam. The vessel is to be built entirely of steel, and will carry 280 saloon and 800 steerage passengers, and will be fitted out with electric lights, revolving chairs in the saloon and all other Improvements. It is expected that she will be as fast if not faster than any steamer of her size afloat. Captain R. W. Grace will command her, and she will be called the America.—*Witness.*

Why The People Come Back to Us!

Is our trade in CLOTHING of that Character that serving—say a young man—once we never see him again? Not probable. Nor is it likely to take that character.

When a young man needs CLOTHING he wants something like a stock, a department, to select from. Don't you get that with us? He wants his Clothes well put together and run no risk of unnecessary ventilation, either; or at least have it come upon him unexpectedly. He don't care for seams like whip-cords in his pants legs, or his coat collar, showing inches of room behind his neck. This touching Clothing. Another word here, we'd say. Don't jump to the conclusion that we don't keep certain goods because you don't see them mentioned in our advertisements. If you do you'll make a mistake. It's impossible, where we have so varied a stock of goods, to make mention of them all. We even may fail to mention some at all. So don't limit your ideas of our stock to our advertisements. As for what we say in them much more remains unsaid. There's nothing new, desirable or fashionable we haven't got. TRY US.

Daily Evening Review

SATURDAY, JANUARY 6, 1883.

MR. BLAKE, according to the *Globe's* report of the recent Reform Convention, said:—

"We recognize that this Province is divided, not very equally, into two great parties; we recognize the weight and standing of those on either hand, and when we accord civil and respectful treatment to our opponents we expect the same ourselves."

Later in his speech, to quote the same report, he called the members of the opposition thieves, his colleague and former leader, Mr. Mackenzie, called them a "miserable rump," and his old colleague, Sir R. Cartwright, called them traitors. What civil and respectful treatment! Or rather what hypocrisy!

POLICE COURT.

AN OLD CHARGE.

FRIDAY, Jan. 5.—Daniel Cushing was charged with having committed an assault upon John Wilson on March 2nd, 1881, and pleaded not guilty.

Several witnesses were examined and the case was dismissed.

CHARGE OF THEFT.

John Wilson as charged with having stolen a quantity of liquor in October last, the property of Wm. Bell.

The evidence of two witnesses was taken and the charge was dismissed.

THE SENTENCES.

SATURDAY, Jan. 6.—The Magistrate gave judgment in the assault cases this morning. In the case against John Wilson for assaulting Thos. Hooper, the prisoner was fined $20 and costs or two months in gaol. In the case against Wm. H. Meharry and John Wilson for committing an aggravated assault upon David Doig, each of the prisoners was fined $40 and costs or three months. In the case against Meharry and Wilson for assaulting Daniel Cushing, the prisoners were fined $50 each or six months in gaol. Samuel Milligan being still unwell, the prisoners Wilson and Meharry were remanded one week to ascertain how his sickness would result.

MR. MOORE again asked the Magistrate to accept bail for the appearance of prisoners at the expiration of the week, but the application was refused.

VAGRANCY.

Hugh Donnelly, and old man who was almost entirely blind, was brought up on a charge of vagrancy. He said that he could not see to do much, and was unable to procure work. He was committed to gaol for four months.

The Market.

There was not a large attendance on the market this morning, and the prices remained at about the same figures.

Sale of Periodicals.

The annual sale of periodicals, illustrated papers, magazines, &c., will take place at the rooms of the Mechanics' Institute on Monday evening next.

The G. J. R. vs. Peterborough.

The Supreme Court has fixed Thursday, January 11th, as the day for delivering judgment in the case of the Grand Junction Railway vs. the County of Peterborough.

Anniversary Service.

The Rev. Dr. Stone, of the Methodist Episcopal Church, Hamilton, will preach the anniversary sermons, both in the morning and evening to-morrow, in the George Street Methodist Church.

ENGLAND AND PORTUGAL.

LISBON, Jan. 6.—It is stated that the basis of the arrangement between England and Portugal, regarding their respective possessions on the west coast of Africa, is a cession of Uydoy to England on condition of the latter supporting the claims of Portugal on the Congo river.

GAMBETTA'S FUNERAL.

PARIS, Jan. 6.—The car to be used in Gambetta's funeral cortege was specially designed by Bastion Lepouge, a painter. It moves on low black wheels streaked with silver. On it will be placed the catafalque as it now stands. Wreaths will be deposited at the base of the catafalque at four corners, and vases will be affixed in which will be burning perfumes. Several cars will follow containing wreaths.

BURIED WITH HONORS.

PARIS, Jan. 6.—Gambetta's father has decided not to oppose the convictions of his son, but has concluded to permit the funeral at Nice to be a civil funeral. The car has just arrived. It is preceded by six horses with men in black and white uniforms. The car drawn by six horses. The coffin is covered with black velvet, which again is partially hidden by tricolors draped with crape and two natural palms with wreaths. The platform car is literally covered with wreaths. The bearers carry batons, on which are also wreaths. The body of Gambetta was placed in the hearse at 10.20 a. m., amid booming cannon, beating drums and sounding trumpets, the troops presenting arms. The procession started at half past ten, headed by the friends and relations of the deceased, representatives of President Grevy. Ministers, Generals, including Gallifet, Senators, Deputies, including Clefroyn and other members of the extreme Left, Brisson, President of the Chamber of Deputies, and Peyrat, vice-President of the Senate. The procession was nearly two miles long, a guard of honor preceding and flanking the catafalque. It is estimated that 200,000 persons were in the procession, conspicuous among which were the Free Masons in complete uniform, advocates and students and a delegationfrom Boulogne. At precisely 12:30 the head of the procession reached the Boulevard de Sebastopol, while numerous deputations were still waiting in Esplanade des Invalides to take places in the cortege, and the procession will probably be still at the Palais de Bourbon when the body arrives at Pere la Chaise Cemetery. Numerous musical societies are playing in the procession, besides military bands.

WASHINGTON NEWS

NEW YORK, Jan. 6.—The *Times'* Washington despatch says that the general expectation is that the taxation on tobacco will not be reduced this session below the rate provided in the Senate bill, 12 cents per pound. This item will cut off $6,500 of revenue. It is said that the prompt passage of the Civil Service bill in the House prevented the delivery of at least thirty prepared speeches. It is predicted that the tariff, if revised at all this session, will be revised by a conference committee.

A BETTER SYSTEM.

NEW YORK, Jan. 6.—Since the abolition of the contract system six months ago, the government has saved $33,000 by itself weighing goods at the custom house.

THE SUNDAY LAWS.

NEW BRIGHTON, L.I., Jan. 6.—J. K. Hamilton Wilcox was acquitted last night on a charge of skating on Sunday.

CHARITY IN ILLINOIS.

SPRINGFIELD, Jan. 6.—The Governor's message estimates that there are 150,000 persons in the charitable institutions in the state.

AN EPIDEMIC.

BINGHAMTON, Jan. 6.—A remarkable epidemic disease is prevailing here. There is said to be 2,000 cases, but none are fatal. Fifteen persons in one manufactory were stricken down in a single day. Travellers and visitors in the city have been attacked almost as soon as they arrived. The first symptoms are nausea and lassitude, followed by exhaustion, headache and pains in the back. It has been attributed to the impurity of the city water, but this theory does not seem correct, as persons living outside the city have been attacked.

AN APPEAL.

WHITE PLAINS, Jan. 6.—Counsel for Cornetta, sentenced to death, served a note of appeal yesterday upon the sheriff. The notice acts as a stay to the execution until the Court of Appeal reviews the judgment.

HORRIBLE SUICIDE.

GLEN COVE, L.I., Jan. 6.—A man, supposed to be Samuel Darling, of New York, yesterday threw himself before a locomotive, and was killed. He was shockingly mangled. A package of poison was found on his body.

ARRESTED FOR THEFT.

NEW YORK, Jan. 6.—Chas. Searle was arrested for stealing a satchel containing $2,000 in money and jewellery from the store of his aunt, Mrs. Bressant.

PARRICIDE.

WATERTON, Wis., Jan. 6.—John, Annie and Louisa Kadisch are held for murdering their mother on the 13th. The body was exhumed, and fatal wounds found. It is thought that the accused desired to obtain the property.

FIRE IN BROOKLYN.

BROOKLYN, Jan. 6.—The wholesale china store of Orington was burned this morning. The New Jerusalem church was damaged, and Vonder's photograph gallery was burned. Loss, $20,000.

RESULT OF SPECULATION.

NASHVILLE, Jan. 6.—There are rumors that Polk, the defaulting state treasurer, has gone to Mexico and South America, and again that he has been arrested at Houston, Texas. They are apparently without foundation. Polk controlled a million dollars in the past two years. His family keenly feel the disgrace and especially his aunt, the venerable widow of President Polk. The loss of Treasury funds is not regarded by the Polk's as the real reason for announcing that he would not pay the interest on the state bonds. It is stated that there were found in Polk's office two notes for $40,000 and $60,000 and a ticket for $63,000, and a smaller note and ticket against a once prominent politican of Tennessee recently killed in a street fight. It is said that Polk lost $100,000 on the decline of the Memphis and Charleston, and it also thought that he speculated in Tennessee bonds and lost heavily.

THE ANTI-AUSTRIAN FEELING.

ROME, Jan. 5—The government has informed the prefects that they will be held responsible for a vigorous enforcement of the recent instructions in regard to anti-Austrian manifestations.

AMIABILITY OF THE POWERS.

BERLIN, Jan. 5.—The North German *Gazette* reproduces, with approving comments, the remarks in the Moscow *Gazette*, that neither on Germany's nor Russia's side is there reason for conflict, even in the distant future.

THE DISTRESS IN IRELAND.

DUBLIN, Jan. 5.—A husband and wife were starved to death at Ballinasloe. A large number of farmers near Carrick-on-Shannon are absolutely without stock or food.

WINNIPEG REGISTRATIONS.

The Winnipeg *Sun*, in an account of the growth of the city, says:—

The real estate transaction reached an aggregate of ten millions of dollars. The following interview with Col. Kennedy, the Registrar, gives an idea of the real estate boom:—

"Some lots were registered half a dozen times a day during the boom," said Col. Kennedy, registrar of deeds, to a *Sun* reporter. A great many lots have been registered as many as twenty times this year. They were Main street lots. During the boom I knew of a great many cases of the same lot being sold by half a dozen different real estate agents. Sometimes the party who first filed the deed got the lots, but most of these cases came before the courts. Many a time the entrance to the office has been crowded by persons waiting to register their deeds. But this was all in the beginning of the year. I have not seen any such sights lately. *For the first three or four months of the year I had about twenty clerks employed here.* The boom had collapsed by July."

"How many deeds have you registered this year, Colonel?" asked the reporter.

"About 12,000," was the reply, "including mortgages and discharges. But I must remind you that previous to July last we did the whole *business of the city and county here.* Then a new office was created for the county business, since which we have only transacted the business of the city. About three-fourths of the business of the whole county is furnished by the city."

"Have you any idea of the aggregate value of the 12,000 transactions recorded?"

"It is not easy to make an estimate, owing to the number of times some of the lots have changed hands and been re-registered. The consideration is entered with the description of each lot, but we do not keep a separate memorandum of it. I should say, however, from a rough estimate, that the transactions would aggregate $10,000,000 to $12,000,000. Yes, some of the transactions were pretty large. The largest was $125,000." Colonel Kennedy referred to the entry book and gave some of the largest entries, as follows:—

2	transactions	at	$125,000
1	"	"	115,000
2	"	"	100,000
1	"	"	98,000
1	"	"	90,000
2	"	"	65,000
1	"	"	50,000
1	"	"	40,000

and numerous others, *ranging from $10,000* to $40,000. Most of the large transactions were in Main street property.

Women's Wigs.

A prominent Brooklyn hair dealer and wig maker says that wigs are rapidly coming into fashion again, especially with the women. Wigs are not worn, he says, to cover up baldness, or because the hair is thin, but to save trouble and as a precaution against accident. A woman who has straight hair just now is out of fashion as far as her head goes. She must crimp her hair and paste it into little waves and puffs around her forehead and down the sides of her head. This requires great care and becomes burdensome after a time. Besides, hair that is not inclined to curl at all is apt to defy crimping pins and pomade and straighten out in an inopportune moment. The wig maker, therefore, has come to the rescue of women so unfortunate as to have rebellious hair. He makes wigs that may be worn on the front of the head, between the line of the forehead and the crown. The false hair is crimped and never straightens out,

Daily Evening Review

SATURDAY, JANUARY 6, 1883.

TOO, TOO THIN.

THE Reform Convention of North Victoria, at the dictation of Mr. S. C. Wood, who virtually carries an appointment to a non-political office in his pocket, having unanimously renominated Mr. S. S. Peck as their candidate in the coming contest, the Lindsay *Post*, having said some pretty hard things of Mr. Peck's conduct as Treasurer of Haliburton, devotes an article in its last issue to taking back-water with regard to Mr. Peck. It being impossible to dispute the correctness of the facts upon which it based its former uncomplimentary remarks, it has now for the first time discovered that Mr. Peck penned the following letter over a year ago:—

HALIBURTON, Nov. 9th, 1881.

H. Bain, Esq., Warden Co. Halburton.

DEAR SIR,—In compliance with my verbal promise I now make the only offer for payment that is possible for me to carry out, namely, four hundred dollars in two months and balance in four equal payments.

Yours, very truly,
S. S. PECK.

We agree with the *Post* that "it is strange" that this letter was not published at the time. And we think that it is still more strange that although the Peck matter has been discussed pro and con in the Haliburton County Council at every meeting held since the time that letter is *said* to have been written, yet this is the first that has been heard of it, and last, although by no means least, that it does not appear that the $400 therein promised to be paid "in two months," over a year ago, has ever been paid.

Under such circumstances we fancy most people will be of the opinion that this letter is about the "thinest" election dodge ever resorted to, and the best possible proof of the dirt which even such a paper as the Lindsay *Post* will eat in the interests of party. It fact it looks very much like a bribe in the shape of a promise to the electors of Haliburton that if they will only vote for Peck, Peck will some day pay what he honestly owes them—*if* not, not.

EDITORIAL NOTES.

MR. S. C. WOOD, at the North Victoria Convention, "urged the delegates not to be drawn away from the strict path of duty in supporting Mr. Peck by any allusions or charges about any mistake he had made." What a difference it does make with some people whose ox is gored. Mr. Peck's little transactions, are of no consequence *because* he supports Mr. Mowat, while Mr. Hooper's were crimes, *because* he supported Sir John Macdonald. Such is Grit consistency.

⁂

THE difference! Mr. Hooper, M. P., Treasuer of the county of Lennox and Addington was upon investigation found short in his accounts with the county, and at the next election was dropped like a hot potato by his Conservative (corruptionist) friends. Mr. S. S. Peck M. P. P. Treasurer of the county, of Haliburton was upon investigation found short in his accounts with the county, and at the next election was unanimously re-nominated by his Reform (purist) friends, at the instance of a minister of the crown. Comment is unnecessary.

⁂

MR. MACKENZIE, at the Convention, according to a Reform journal, compared Sir John Macdonald with Ahab. Was not this a slip of the tongue on the part of the ex-leader of the Reformers? It was Mr. Mowat, not Sir John Macdonald, who coveted Naboth's—no, McLaren's property.

⁂

MR. BLAKE gave his case away completely in discussing the River and Streams Bill, when he said, according to the *Globe's* report:—

"It might be that they did not act wisely in not making full provision for private or vested rights."

Fortunately we have a Supreme Court and a Federal Government to protect such rights, even if Mr. Mowat does want to confiscate them in order to reward a supporter.

THE LAST NEW GIANT.

How a Young Frenchman Reached Seven Feet Ten Inches.

We seem to be living in an age of strange phenomena, both animate and inanimate; and the last few years, what with their shows of giants and dwarfs and monstrosities of divers kinds, will have done more to enrich the study of biology than many a century in the past. One of the last new human wonders is the young man at the Hotel Dieu, who is now being attended by the celebrities of the medical world for a new and apparently inexplicable malady. The man, who is now nineteen years and a half of age, had nothing at all the matter with him when at the age of about seventeen he seemed to have finished growing at the very respectable but not extraordinary height of 6ft. 5in. On the 17th of May, 1881, he measured himself, and found that he was a good inch taller than he had been a few weeks before. His curiosity being naturally aroused, he continued to take a regular measurements every week, and found that his growing powers had actually made a fresh start. By the beginning of the following September he had gained about three inches more. At the same time he experienced peculiar aching pains in his bones, but the rate at which his stature increased seemed to develop itself more and more rapidly, so that in the beginning of the present year he had gained four inches more, and stood over seven feet without his boot. Another quarter of a year found him full five inches taller, and without any signs of nature having exhausted her energies. Only in June last did the growth of his body cease, and since that time his legs have still been growing longer and thinner, till he is now reaching the height, or rather the length—for he can no longer stand upright—of 7 feet 10 inches. His feet are described as each about 20 inches long, but he has no great use for them, as his feebleness is too great for any exercise whatever. He also shows symptoms of consumption, and the doctors do not suppose that he can live long. In fact, it may be said of him with more emphasis than, perhaps, in any recorded case, that he has "out grown himself," though why he should have done so is a mystery which all the doctors of the Sobonne have not yet been able to explain.

NORWOOD.

From Our Own Correspondent.

MASONIC.—At the regular communication of Norwood Lodge No. 223, A. F. & A. M., held in the Lodge Room, Norwood, on the evening of the festival of St. John the Evangelist, the following brethren were installed as officers of the Lodge for the current Masonic year:—

W Bro W H Stephenson	W A
W Bro W E Roxburgh	I P M
Bro Thos Fraser	S W
Bro P W Stevenson	I W
W Bro Butterfield	Treas
Bro Thos Burke, re-elected	Sec
Bro A McMillan	S D
Bro John Harper	J D
Bro Wm Hutchinson	I G
Bros P W Reynolds and W H Minaker	Stwds
Bro Isaac Powell	Tyler

The officers were duly installed by W. Bro. W. E. Roxbugh, who conducted the ceremony with his usual ability in all matters pertaining to the Masonic Fraternity. After the installation the brethren spent a couple of hours around the festive board in conversation upon various subjects interesting to the Lodge and other matters in general, being materially assisted by a bountiful supply of delicious oysters.

BOBCAYGEON.

QUARRIES.—The *Independent* says that the three quarries are continuing their work, and with satisfactory success. The Freeman quarry which is being worked by Mr. Macdonald, for the locks at Fenelon, was not exactly first rate at the start, but is now turning out well. Mr. Walker, foreman of the Ontario and Quebec Railway quarry, is getting out some splendid stone. Mr. Walker is a stone mason of large experience, who originally came to this country specially to conduct stone operations for the construction of the Victoria Bridge at Montreal. Mr. Walters has nearly twenty men at work on the Corporation quarry, and there is no doubt that the best of stone will be obtained.

LINDSAY.

FATAL ACCIDENT.—The *Post* says that on Friday evening as Mr. Michael McGeough, of this town, was in the act of descending a ladder in his barn he fell and received injuries which terminated fatally on Saturday morning. Mr. McGeough was an old and respected inhabitant and much sympathy is felt for his friends in their sad bereavement.

CAMPBELLFORD.

FLOURISHING.—The *Herald* says that Mr. W. Weir has moved thr material of his business to Mr. Kesler's paper mill. His trade has increased to such an extent that it was necessary to add more macinery, and increased the power required to put in motion.

Preserving Posts.

A writer in an exchange says: "I discovered many years ago that wood could be made to last longer than iron in the ground, but though the process so simple that it was not well to make a stir about it. I would as soon have poplar, basswood or ash as any other kind of timber for fence posts. I have taken out basswood posts after having been set for seven years and they were as sound when taken out as when first put in the ground. Time and weather seemed to have no effect on them. The posts can be prepared for less than two cents apiece. This is the recipe: Take boiled linseed oil and stir in pulverized coal to the consistency of paint. Put a coat of this over the timber, and there is not a man that will live to see it rot."

Fortunes for Famers and Mechanics.

Thousands of dollars can be saved by using proper judgement in taking care of the health of yourself and family. If you are Bilious, have sallow complexion, poor appetite, low and depressed spirits, and generally debilitated, do not delay a moment, but go at once and procure a bottle of those wonderful Electric Bitters, which never fail to cure, and that for a trifling sum of fifty cents.—*Tribune.* Sold by Taylor & Macdonald—1.

THERE are many foolish things done in this world, and one of the most foolish (and we may add wicked) things is to neglect a Cold. Now we know that Coughs, Colds, Bronchitis, Catarrh, and all Chest, Throat and Lung Troubles if neglected, are sure to end in Consumption and Death. They may be easily cured by using as directed Dr. Carson's Pulmonary Cough Drops, there is no remedy equal to it. It never fails. Sold everywhere in large bottles at 50 cents.

FURS :: FURS :: FURS!

FIRST PRIZE FURS AND WHERE TO BE FOUND.

Not many houses in the Fur Trade possess the facility for manufacturing **FURS** *as the subscriber. The large quantity of Raw Furs he buys* **DIRECT FROM THE TRAPPERS** *enables him to select the choicest material, leaving a surplus for export, hence his success. Who pays the highest price for raw furs? Let the Trappers answer that question, as all have been defeated and left the field who entered in opposition 22 years ago.*

By importing European Furs direct, his name is as well known in Leipzig, Germany, as any of the wholesale houses, and noted for not offering dyed Marten for Sable, or dyed Goat Robes for Bear, nor using any fictitious name in his establishment whereby imitations are sold for real, at often treble their value. Continuing, as commenced, in the same old way of giving **A GOOD ARTICLE FOR THE LOWEST POSSIBLE PRICE**, *any order entrusted must give satisfaction or no sale.*

On account of family changes, I have concluded to close the shop formerly occupied by S. Hyman, after New Year's. This stock will be sold at very low prices.

Headache.

Dr. Haley says (*Australian Medical Journal*, of August 16, 1881) that, as a rule, a dull, heavy headache, situated over the brows and accompanied by languor, chillness, and a feeling of general discomfort, with distaste for food, which sometimes approaches to nausea, can be completely removed, in about ten minutes, by a two-grain dose of iodide of potassium dissolved in half a wineglassful of water, this being sipped so that the whole quantity may be consumed in about ten minutes.—*Glasgow Medical Journal.*

C. B. ROUTLEY

Returns thanks to his numerous customers and friends for the very liberal patronage bestowed upon him for the past eight months, and hopes by attention to Business and by Selling Cheaper than ever, to merit a continuance of the same.

I have commenced my Annual Clearing Sale to-day, believing that old goods are dear at any price, and that it will pay us, in order to get rid of fall goods, to make a discount of 10 per cent. on all purchases during the month of January. We are being noted for keeping good goods at Moderate Prices, in addition to this the above discount will be allowed.

C. B. ROUTLEY.

WISE people are always on the lookout for chances to increase their earnings, and in time become wealthy; those who do not improve their opportunities remain in poverty. We offer a great chance to make money. We want many men, women, boys and girls to work for us right in their own localities. Any one can do the work properly from the first start. The business will pay more than ten times ordinary wages. Expensive outfit furnished free. No one who engages fails to make money rapidly. You can devote your whole time to the work, or only your spare moments. Full information and all that is needed sent free. Address STINSON & Co., Portland, Maine.

CURLING.

The Origin of the Roarin' Game—An Ancient Sport.

Of the origin of curling, says the Kingston *News*, little is known. So wrapt up is it in the dim vista of the past that the name by which the all invigorating pastime is called may be almost said to be synonymous with antiquity. Whether or not it was contemporaneous with the time "when Adam delved and Eve span" is a problem for philosophers to solve, but we have every reason to believe that in Scotland the game was "as old as the Grampians," when Camden's *Brittania* was published in 1607. Certain is it that as far back as the year 1644 curling was a favorite amusement with Kilmarnockians.

> "When biting Boreas, fell and doure,
> Sharp shivered through the leafless bower."

Mr. McKay's "History of Kalmarnock" states on good authority that even the Cross of our ancient burgh was betimes converted into a pond in order to minister to the indulgence of the much-loved pastime. Amongst the keenest curlers of his day was the Rev. Mr. Guthrie, of Fenwick (or old Kilmarnock as it was then called), and whose antique curling stone is still preserved at Craufurland Castle. In a sketch of that reverend divine he is said to have engaged with great enthusiasm "in the innocent recreation of playing upon the ice," and it is added that this circumstance brought him into frequent contact "with the best of the neighboring gentry." Indeed all ranks and classes seem to have been tainted alike with a strong partiality for the game, so graphically described in "Guy Mannering," and which has so long and intimately been associated with the dinner of "beef and greens."

The year 1851 will long be remembered amongst the curlers of Ayrshire as that in which the handsome trophy now annually competed for throughout the county, and known far and wide as "Lord Eglinton's Plate," was presented by the father of the present Earl of Eglinton and Winton. [illegible] ing game" [illegible] tial meeting of [illegible] held in Ayr on the [illegible] of June, 1851, in response to a circular issued by the late Earl conveying His Lordship's intention of presenting the county with the present valuable piece of plate. Although of recent years curling in general in Ayrshire has appeared to be on the wane, owing to the variableness and mutability of the "weather clerk," the old love for the game is still strong. Some of the keenest and most scientific curlers of the day are to be found amongst Scottish peers and baronets, who, let it be said to their credit, are as much at home in handling the broom or guiding the stone as in directing and administering the affairs of Parliament. A Scotch exchange says:—May we express the hope that the great national sport will continue to be one of the mediums by which such ties are kept up—one of the multitudinous agencies at work for the bringing about of the time—

> "When man to man the world o'er,
> Will brithers be for a' that."

A MARVEL OF SURGERY.

A Man Breathing for Five Years Through an Opening in His Throat.

The students of the Hospital of Oral Surgery, at tenth and arch streets, were shown a patient at Saturday's clinic whose throat had been cut from ear to ear, and who had been hung by the neck, but still survived his injuries. He breathes through a silver tube in his throat, and for six months was nourished entirely by enemata. The man's name is Simeon Ladenski, a native of Roumania. In the winter of 1877, he then being twenty-three years old, Ladenski was one of a party of ten men whose throats were cut by a band of gypsy robbers on the road from Varsova. Ladenski was not killed, and on regaining consciousness and finding the robbers quarrelling over the division of the plunder, he attempted to crawl into some bushes by the wayside. Being detected he was strung up to a tree by the neck and when again unconscious he was let down and thrown among the bodies of his companions, but not until he had been stabbed in the abdomen and cut in the cheek. Two days later the bodies were found by Professor Russ, of Jassy, and Ladenski and a companion, who was still alive, were removed to town. The latter soon died, and then Professor Russ removed his patient to Vienna. There Ladenski was placed under the care of the most eminent Austrian surgeons. It was found that the windpipe was closed, and for two years the man was unable to utter a word. He breathed through an opening in the neck. After many efforts a large threaded needle was passed up the trachea and into the mouth. Small beads were then drawn through, being daily increased in size in order to effect a permanent enlargement of the obstruction. The man is still obliged to practice this device, and wears the instrument in his windpipe during the night, being able to breathe when in an upright position without its aid. He has been examined by the leading surgeons of Berlin, Paris and London, and it is expected that some day it will be possible to close up the opening in the throat.—*Philadelphia Record.*

Personal! To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

FAITH'S LESSON.

I was dreading a dark to-morrow,
For my head was oppressed with care,
It's burden of sin and sorrow
Seemed more than I well could bear.

But out in the glad sweet sun-light
My baby was playing the while,
His laugh sounded bright and joyous,
And his face wore a sunny smile.

Soon he came toddling to me
With outstretched hands, and said
"Mamma, me am so hungry,
Me has tum for a piece of bread."

I gave it at once to my darling,
Though my eyes filled fast with tears
As I thought of the lesson he'd taught me
Of faith for my future years.

He came to me in his hunger,
He knew I would hear his cry,
And his royal trust never doubted
But that I would his need supply.

While I with a loving Father,
Who never refuses to hear
The voice of his earthly children,
Was living in doubt and fear.

For am I not one of His children,
Though a wayward and sinful one?
And has he not promised to hear me
For the sake of His only Son?

Just as my own loved darling
Came with his wants to me,
So with a faith as childlike
Thus should I come to Thee.

Come with my eyes uplifted,
Come with my bended head,
Saying "Father, I too am hungry,
Give me the Living Bread."

—*H. E. Muchall, "The Rocks."*

ONE OF OUR BEST CITIZENS would say to the public that he has tried Hall's Catarrh Cure, and that it is all that is claimed for it. Price 75 cents per bottle. For sale by John McKee, druggist.

SARAH MURRAY, an unmarried woman, for some time past resident of Hillsborgh, Ont., died on Wednesday evening, about six o'clock, found dead in her house by two nieces. Foul play suspected.

THE London *World* says that notwithstanding all that may be said to the contrary, the visit of a Canadian Dominion Lacrosse team, accompanied by a picket team of Indians, will certainly take place next summer.

LITTLE BY LITTLE.—The constant dropping of water will wear away even the hardest stone. So the constant irritation of a cough will so wear upon the lungs as to induce incurable Consumption. Hagyard's Pectoral Balsam will cure the worst cough, speedily and effectually.

FORTUNATELY Valvular disease of the heart is not very common, its disturbed action may be due to indigestion, liver irregularities &c. A Stomach disturbed with wind, or indigestable food will cause pain and fluttering by crowding on the nerves of the heart. Burdock Blood Bitters will speedily remedy all such difficulties.

J. A. JOHNSTON, of Brandon, Man., and lately of Ameliasburg, has been visiting his friends. He has, in the remarkably short period of three years, accumulated property in and about Brandon that is estimated to be worth from $100,000 to $150,000. He is confident that Brandon will soon be one of the principal cities of Manitoba.

DO YOUR CHILDREN have fits or convulsions, grind their teeth, pick their nose, have a bad breath, or a changeable appetite? Are they restless or feverish at night? If so, ask your druggist for Dr. Smith's German Worm Remedy (take no other), it only costs 25 cents. Is simple safe, and pleasant to take. If there are no worms, to remove the slime and bile that breeds them, tones up the system, and will save many a doctor's bill. A word to the wise, etc. Thousands of testimonials.

It always gives us pleasure to draw attention to articles which are deserving of public patronage. Probably no article ever offered to the public has met with the same success as Gray's Syrup of Red Spruce Gum. Thousands of families in the Dominion keep it in their homes as the standard Cough Remedy. The sale of this article has assumed enormous proportions. Our advice to the public at large is to try its virtues if they should at any time unfortunately contract either Coughs or Colds. It is sold by all chemists.

Do not take pills or powders containing Calomel, at this time of the year, the result may be serious. If you require a dose of physic take Dr. Carson's Stomach and Constipation Bitters; it acts gently on the Bowels, purifies the Blood, improves the circulation, stimulates the Liver and Kidneys, and speedily cures Billiousness, Headache, Dyspepsia, Indigestion. Search the Drug Stores from one end of Canada to the other, and you cannot find a remedy equal to it. Try it and use it in your families. Sold everywhere in large bottles at 50 cents.

"TWENTY-FOUR YEARS' EXPERIENCE," says an eminent Physician, convinces me that the only cure for "Nervous Exhaustion" and weakness of the generative organs is to repair the waste by giving Brain and Nerve Foods, and of all the remedies I have used Mack's Magnetic Medicine is the best. This remedy is now sold by all our Druggists at 50 cts. per box, or 6 for $2.50, and on receipt of an order for 12 boxes, accompanied with $5.00, addressed to Mack's Magnetic Medicine Co., Windsor, Ont., they will forward the goods free by mail, and send their "written guarantee" to refund the money, if the treatment does not effect a cure. See adv't in another column.

SULPHOLINE LOTION.—AN EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcule which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.) THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, billiousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

THE

PACIFIC NORTHWEST!

Oregon, Washington, and Idaho.

Offers the best field for emigrants—viz.: a mild, equable, and healthy climate; cheap lands of great fertility, producing all varieties of Grain, Fruit, and Grasses in wonderful abundance; an inexhaustible supply of Timber; vast Coal Fields, and other mineral deposits; cheap and quick transportation by railroads and river navigation; direct commerce with all parts of the world, owing to its proximity to the Pacific Ocean.

NO DROUTHS, NO INSECT PESTS, NO HURRICANES, WHIRLWINDS, OR OTHER DESTRUCTIVE PHENOMENA.

The lands of the Pacific Northwest show an average yield of wheat per acre largely in excess of that of any other section of the United States.

No failure of crops has ever occurred.

Oregon wheat commands a higher price than that of any other country in the Liverpool market.

An immense area of very fertile Railroad and Government Lands, within easy reach of the trunk lines of the Northern Pacific R.R., the Oregon Railway & Navigation, and the Oregon & California RR. Co's and their numerous branches in the great Valleys of the Columbia and its tributaries, are now offered for sale at Low Prices, and on Easy Terms, or open to pre-emption and Homestead Entry.

The great movement of population to the Columbia region now in progress will be enormously increased by the completion of the Northern Pacific RR. and the Oregon Railway and Navigation Co's systems. This renders certain a rapid increase in the value of Lands now open to purchase or to entry under the United States Land Laws.

A New Foundry.

The Campbellford *Herald* contains the following paragraph in reference to Messrs. J. Whyte & Co.'s foundry in that village:—

> "Mr. Whyte has made good speed since the destruction of the Company's foundry in Peterborough a few weeks ago, by the erection of a similar building in Campbellford. He sent for Mr. Russell soon after the fire, the brick-work was commenced immediately, and now the carpenters are at work inclosing the building. It is a large one-storey building. Mr. Whyte will begin work inside as soon as the structure is completed and the material for operations ready."

It is the intention of the firm to rebuild their foundry in Peterborough in the spring. The new building will either be on the site of the one which was burned, or on the site of the woollen factory which was destroyed by fire at the same time as the foundry.

Carpenter's Concert.

The most successful event can surely be called the event of the season, and in that case Mr. LaFayette Carpenter's concert on Friday evening was the event of the season in the Opera House. There was a large attendance—but that is a feeble expression. Long before the curtain rose the seats were all filled, the aisles were blocked by persons unable to find seats, and the whole hall was crammed with a large audience of men and boys eagerly awaiting the appearance of the elephant. Good music was furnished by the Band, and finally the curtain rose. Amid the loud and prolonged cheering the champion made his appearance, and when he retired from view he was followed by a perfect tornado of applause. The other members of the "Unique and Unexcelled" were good dancers, and the banjo solos were well received. Herr Frisbeit and his partner, Miss Bismarck, captivated the audience at once in their Dutch act, and the champion displayed his abilities to great advantage in the Cinderella waltz, each of the ten changes being received with a burst of applause. The audience was one of the largest that has assembled in the Opera House this season, and we believe it is safe to say that a better satisfied audience never left the hall.

SEPARATE SCHOOL BOARD.

The Election of Officers and Organization—The Auditors' Report.

The Board of Separate School Trustees met on Thursday evening, January 4th, for the purpose of organizing for the year 1883.

The chair was taken by the Secretary, who stated that the recently elected members of the Board had filed declarations of office, and were consequently entitled to take their seats. He then called for nominations for the position of Chairman.

It was moved by Mr. CAHILL,—That Dr. Hourigan be elected Chairman, but that gentleman declined the office.

Mr. MUNCASTER moved Mr. Cahill to the Chairmanship, but Mr. Cahill declined re-election, owing to his being absent a great portion of the time.

Moved by Mr. D. A. MACDONALD, seconded by Dr. HOURIGAN,—That R. W. Muncaster be Chairman. No other nomination having been made, Mr. Muncaster was declared duly elected.

FOR LOCAL SUPERINTENDENT.

Moved by Mr. CAHILL, seconded by Mr. CARVETH,—That the Rev. Father Conway be Local Superintendent for the current year.—Carried.

FOR SECRETARY-TREASURER.

Moved by Mr. McGRATH and seconded by Dr. HOURIGAN,—That J. Corkery be Secretary-Treasurer for the current year.—Carried.

FOR AUDITORS.

Moved by Mr. McGRATH and seconded by Mr. MACDONALD,—That Dr. Hourigan and Thos. Dolan be Auditors for the present year.—Carried.

The minutes of the meetings of the 7th, 13th and 27th of December were read and confirmed.

The Auditors' report of receipts and expenditures for the year 1882 was adopted, which was as follows:—

THANKS TENDERED.

Moved by Dr. HOURIGAN, seconded by Mr. MACDONALD,—That the thanks of the Board be tendered to W. J. Devlin, Dr. O'Shea and John Doherty for prizes presented to the pupils for special subjects.—Carried.

The Board then adjourned.

The Weather.

The weather still continues cold. Last night was one of the coldest of the season, and to-day the temperature is not much higher. The probs predict snow and higher temperature, and it is to be hoped they will turn out correct. The weather probabilities for this district for the following 24 hours, as reported from Toronto at 1 a. m. to-day, by the Great Northwestern Telegraph Company, are as follows:—Easterly to northerly winds; fair to cloudy weather, with slight snow in some localities. Higher temperature.

Annual Supper.

Mr. Adam Hall entertained the employees of the "Giant T." to the annual supper on Thursday night. The affair took place in Faucher's Hotel and Restaurant and was the most successful yet held. Twenty persons sat down to an excellent spread, and after the cloth had been removed toasts, &c., followed. Mr. A. Hall occupied the chair, and after the usual loyal toasts proposed "Our Foreman," which was duly honored. "Mr. Hall our Employer," proposed by Mr. A. Moffat, was received with three rousing cheers, and Mr. Hall responded in a neat speech, returning thanks for the manner in which they drank his health. Other toasts followed, and songs were sung by Messrs. C. Billings, R. Nethercutt, W. Squires, T. Ritchie and J. Hayes, a duet by Messrs. A. Moffat and J. Hayes and a speech by Mr. C. Billings. Three or four hours were pleasantly spent, and the National Anthem brought the festivities to a close, all uniting in voting their employer a jolly good fellow.

GOOD ADVICE.—If our readers will accept proffered advice, they will always keep a bottle of Hagyard's Yellow Oil at hand for use in emergencies, such as Burns, Scalds, Wounds, Lameness, Croup, Chilblains, Rheumatism and all varieties of aches, pains and inflammations. It will ever be found reliable.

MR. THOMAS W. RACE, Editor and Proprietor of the Mitchell *Recorder*, writes that he had a prejudice against Patent Medicines, but being induced to try Burdock Blood Bitters, for Billiousness that occasioned such violent headache and distress as to often disable him from work. The medicine gave him relief, and he now speaks of it in the most favorable terms.

Why The People Come Back to Us!

Is our trade in CLOTHING of that Character that serving—say a young man—once we never see him again? Not probable. Nor is it likely to take that character.

When a young man needs CLOTHING he wants something like a stock, a department, to select from. Don't you get that with us? He wants his Clothes well put together and run no risk of unnecessary ventilation, either; or at least have it come upon him unexpectedly. He don't care for seams like whip-cords in his pants legs, or his coat collar, showing inches of room behind his neck. This touching Clothing. Another word here, we'd say. Don't jump to the conclusion that we don't keep certain goods because you don't see them mentioned in our advertisements. If you do you'll make a mistake. It's impossible, where we have so varied a stock of goods, to make mention of them all. We even may fail to mention some at all. So don't limit your ideas of our stock to our advertisements. *As for what we say in them much more remains unsaid.* There's nothing new, desirable or fashionable we haven't got. TRY US.

WANTING REVENGE.

MARSEILLES, Jan. 8.—During the night a party of Italians placarded the Italian Consulate as follows:—"Death to the Emperor of Austria. We will avenge Overdank."

SPANISH POLITICS.

MADRID, Jan. 8.—It is stated that Sagasta has been entrusted with the formation of a new Cabinet, which will be constructed this afternoon. The present Ministers of Foreign Affairs, Interior and War will be likely to remain in office.

ITALY AND AUSTRIA.

LONDON, Jan. 8.—A correspondent at Rome says he believes that Italy has lately given marked proof of fidelity to the understanding with Austria and Germany. The death of Gambetta makes it easier for Italy to maintain this fidelity, as he held in his own hand all the wires connecting the French and Italian radicals, and could have frustrated any active accord between Italy and Austria.

THE STEAMSHIP COLLISION.

LONDON, San. 8.—Further details of the disaster of the City of Brussels says that the Captain was one of the first picked up by the boats, although he and the chief engineer were last to leave. He was in the act of passing a life buoy to a drowning comrade. According to the statement of the purser, the fog caused the stoppage of the steamer about half an hour before the collision. The main compartment of the Brussels was cut in two. After the collision the fog thickened and it was dangerous even for boats to move about. They, however, approached the sinking vessel and found a boy named Hamilton half drowned, clinging to the mizzen cross trees. Two Italians who were drowned seem to have lost their wits from terror and jumped overboard. The lost include Conner, quarter master, and Cochrane, steward. Neither passengers nor crew were able to save anything, and many persons were obliged to leave the ship with the barest articles of clothing. The Captain of the Kirby Hall was indefatigable in his endeavors to relieve the passengers, but owing to the low tide his vessel was obliged to lie outside till shortly after seven last evening, when all were landed at Woodside and subsequently brought to Liverpool. Many passengers are staying at the railway hotels. There is no doubt that if the fog had cleared a little sooner all would have been saved. The theory concerning the drowning seamen is that when the vessels collided they were struck by the rigging and rendered insensible. One man was found by the boats dead in the rigging. The passengers of the Brussels have drawn up a memorial expressing gratitude and admiration for the promptitude and coolness of the officers of the vessel. Before the Kirby Hall arrived at Liverpool a pilot boarded her with provisions, which were very welcome, as the passengers had not tasted food for many hours. Many of them were suffering greatly from the shock. Besides the breach in the hull the bulkhead of the Brussels was shifted by the violence of the collision, this accounting for the speedy sinking of the vessel. The captain of the Kirby Hall states that he backed the engines on first hearing the whistles of the Brussels.

AMERICAN.

UNTRUTHFUL.

BOSTON, Jan. 8.—It is now learned that the alleged west letter about Lieut. Chipps' letter, which a paper here printed, was previously offered to another newspaper. The managers investigated the matter, and found the story utterly unworthy of credit.

A STUDENT'S SUICIDE.

ATLANTA, Jan. 8.—Early yesterday morning, Norman, son of Warren Smith, of Rutland, Vt., who is attending lectures in the medical college here, wrote letters to his father, his landlady, a fellow student and the coroner, then lay on floor and with a self-cocking revolver taken from the room of another student, shot himself through the head. In none of the letters was the cause assigned for the deed. The affair is a mystery. In the letter to the student, Smith said:—"Why I do this act which shall take away my life I cannot tell to any person. I do it with full possession of my senses, and after careful meditation. Sufficient that I do it and go to meet Him who alone can know all reasons."

POLK IN TEXAS.

NEW ORLEANS, Jan. 8.—Polk was here on Friday for three hours with a brother and servant. The party bought blankets and arms and then left for Texas. Polk made no secret of his identy and expressed no apprehension of his arrest, one of the party expressing the idea that too many persons were involved in the affair to make the capture desirable. Polk said he would make good to his bondsmen whatever they were compelled to pay on his account. The party had gone twenty-five hours before the police were informed that the fugitives were wanted. Telegraphs were then sent to various points to intercept the party.

A FAILURE.

GLASGOW, Jan. 8.—Wm. Miller & Sons, turkey red dyers, have failed. Liabilities £120,000.

COMPROMISING FRAUDS.

WASHINGTON, Jan. 9.—The importers of New York were sued for $75,000 for alleged undervaluation of aniline dyes. The importers offered to compromise for $10,000 and the district attorney recommended the acceptance of the offer. The solicitor of the Treasury thinks there should be a law forbidding compromising before the trial, as the government loses millions by compromises.

A VALUABLE CARGO.

NEW YORK, Jan. 8.—The value of the cargo of the Brussels was $350,000.

DEFAULTER ARRESTED.

SAN FRANCISCO, Jan. 8.—Maro Kay, clerk in the office of the County Clerk of Alameda county, is a defaulter to the extent of $15,000. He has been arrested here.

OBITUARY.

BOSTON, Jan. 8.—Matthew, only brother of the Poet Whittier, died yesterday, aged 70. Many years ago he wrote of satires over the signature of Ethan Spike.

RAILWAY NEWS.

NEW YORK, Jan. 8.—Dillon, President of the Union Pacific, says there is no plan for his road to lease or purchase the Wabash.

AN OFFENDING PAPER.

NEW HAVEN, Jan. 8.—Father Fitzpatrick, of St. Patrick's Church, expressed indignation in his sermon yesterday because the *Union* published an account of the panic in the church on Saturday. Fitzpatrick counselled the congregation not to buy or read, advertise or have anything to do with the offending sheet, claiming that the circumstances were unreasonably exaggerated. Considerable excitement prevailed in the congregation.

EXTENSIVE FIRE.

LONDON, Jan. 8.—The extensive cotton waste warehouse of Schlieman & Co., in the Minories, was burned last night, and the adjoining buildings badly damaged. The loss is heavy.

JEWELS STOLEN.

PHILADELPHIA, Jan. 8.—A valise was stolen from Gye, of the Mapleson Opera Company, which contained $50,000 worth of jewels and other property belonging to Madam Albani. It included the diamond ear-rings presented to her by the late Czar of Russia. Mapleson says that Gye has been anxious that the fact of the Albani ear-drops being among the stolen property should not be too widely disseminated, as the care with which he secretly bore them across the Atlantic and carried them ashore unobserved by the Custom House officials might not be regarded with complacency by the Collector of the port of New York.

MARINE DISASTERS.

NEW YORK, Jan. 8.—Two hundred and eighty four steamships and large river steamboats met with disaster last year. Only a few have been floated and repaired. Again the aggregate tonnage was 320,000. The number of lives lost was 2,000, those lost on the steamer City of Brussels, which was 25,000 tons burden, and previous misadventures included.

POLK'S DEFICIENCIES.

NASHVILLE, Jan. 8.—A committee of the Legislature has discovered gross irregularities in the issuance checks by Treasurer Polk, which in the opinion of the committee invalidate them and make the bank cashing them liable for nearly $300,000. It is expected that the banks will fight the state to the bitter end and carry the case to the Supreme Court if necessary in order to avoid being made liable. The developments have created intense excitement. The banks directors have been in consulation with their attorneys. The Committee believe that Polk was bled to a great extent by members of the last Legislature, who knew he was short.

A FIRE.

MILWAUKEE, Jan. 8.—The tannery of the Wisconsin Hide and Leather Company was damaged by fire yesterday to the extent of $30,000. There has been considerable talk regarding the affairs of the firm. Kilball, the secretary, was in the office when the fire broke out. He says a lamp exploded. All the books and papers were destroyed.

HYDROPHOBIA.

PHILADELPHIA, Jan. 8.—Henry Smith, aged 13, died here of hydrophobia in terrible agony. He was bitten by a small black and tan dog.

Gaining a World Wide Reputation.

About 150,000 bottles of medicine and 3000 Spirometers, the invention of M. Souvielle of Paris and ex-aide surgeon of the French army, have been used by physicians and patients during the last year for the cure of catarrh, catarrhal deafness, bronchitis, asthma, consumption in its first stages and many diseases of the head, throat and lungs. Consultations with any o the surgeons belonging to the institute free. Poor people showing certificates can have spirometers free. Write enclosing stamp for pamphlet giving full information to either of the Canadian offices where competent English and French specialists are always in charge. Address International Throat and Lung Institute, 13 Philips square, Montreal, P. Q., or 173 Church street, Toronto, Ont.

IT made me feel like a "Band of Music," was the rather forcible expression of an individual who was praising "Pectoria," the great remedy for Coughs and Colds, Hoarseness, Asthma, Bronchitis. It is safe, pleasant and effectual. If you suffer, try it. For sale by all druggists and general dealers at 25 cents a bottle.

ALGERIAN EXPEDITION.

PARIS, Jan. 6.—De Lesseps will accompany the expedition to Algeria which is designed to decide on the feasibility of converting a portion of the Sahara into an inland sea.

THE FLOODS SUBSIDING.

VIENNA, Jan. 6.—Heavy frosts are reported throughout the provinces, and the floods are rapidly subsiding.

HUNT'S EXPEDITION.

ST. PETERSBURG, Jan. 6.—The United States Minister has received the following from Ensign Hunt:—"Kirinsk, Dec. 31.—Anequin seriously ill; myself, Manson and Bartlett remain here. Probable delay two weeks. Leach, Lauterbach and Thorne precede and await me at Irkutsk. Russian Government has not yet ordered the authorities to permit and assist in removing the bodies."

IRISH INDEPENDENCE.

SLIGO, Jan. 6.—Mr. Sexton, member of Parliament, in addressing his constituents, said, "The leaders of the Irish party are determined to carry on the agitation for the independence of Ireland."

AFFRAY AT ALEXANDRIA.

ALEXANDRIA, Jan. 6.—In a conflict between Albanian and European members of the police force yesterday, one Albanian was killed and six dangerously wounded. Two European policemen were injured. The affair will be investigated.

STEAMER SUNK.

LIVERPOOL, Jan. 7.—The steamer Kirby Hall, which collided with the City of Brussels, has arrived here. She reports that the collison occurred at the estuary of the Mersey. The City of Brussels foundered almost immediately. Eight of her crew and two passengers were drowned. When the City of Brussels arrived in the vicinity of the northwest lightship at six o'clock Saturday morning the fog was so dense that the captain decided not to attempt to make headway, but remain under steam near the lightship. A careful lookout was kept, the captain and second and fourth officers being on the bridge, and the pilot also looking out. Bells were kept ringing and the fog horne frequently sounded. For some time the steamer lay in safety. Extra look-out men were posted on every part of the vessel. These measures had a reassuring effect on the passengers. Suddenly the sound of a vessel approaching was heard and a large steamer only a few yards distant and moving quickly through the water loomed out in the fog almost instantly, and before any steps could be taken to avert it a tremenduous collision was seen to be inevitable. The bow of the Kirby Hall struck the starboard bow of the City of Brussels with teriffic force, cutting her down to the water's edge and almost half thro'. Only two passengers were drowned; they were Italian steerage passengers. Eight of the crew were lost, including second officer Young and carpenter Woods. All the officers are believed to have escaped. The Kirby Hall, after searching several hours, proceeded to Liverpool. The captain when rescued was floating on a spar. Only the vessel's topmasts are visable. Young and Woods were taken on the Kirby Hall apparently lifeless. All efforts to restore animation proved fruitless. The Kirby Hall's bow was stove in.

BRADSTREET'S WEEKLY REPORT.

NEW YORK, Jan. 6.—The despatches to *Bradstreet's Journal* this week show that the general trade throughout the country is in a fairly active state, although still suffering from the suspension incident to the close of the year. The dry goods trade shows a marked inactivity, a better feeling prevails in the iron market. There were 257 failures in the United States reported during the past week, fifteen more than the preceding week, and 105 more than the corresponding week of last year. This is the largest number in any single week in two years.

A Former Attempt.

MONTREAL, Jan. 6.—It is stated here that Mann, the murderer of the Cookes, attempted to poison a doctor's family in this city, where he lived as servant. He had a quarrel with the housekeeper, and put poison in the coffee-pot, which was used by the household. He was discharged immediately, and told to clear out of the city or he would be prosecuted.

How To Restore Faded Flowers.

After a bouquet is drooping beyond all remedies of fresh water the Japanese can bring it back to all its first glory by a very simple and seemingly most destructive operation. A recent visitor of Japan says:—"I had received some days ago a delightful bundle of flowers from a Japanese acquaintance. They continued to live in all their beauty for nearly two weeks, when at last they faded. Just as I was about to have them thrown away the same gentleman (Japanese gentleman) came to see me. I shownd him the faded flowers, and told him that, though lasting a long time, they had now become useless. 'Oh, no,' said he, 'only put the ends of the stems into the fire, and they will be as good as before.' I was incredulous; so he took them himself and held the stems' end in the fire until they were charred. This was in the morning; at evening they were again looking fresh and vigorous, and have continued so far another week. What may be the true agent in this reviving process I am unable to determine fully; whether it be the heat driving once more the last juices into every leaflet and vein, or whether it be the bountiful supply of carbon furnished by the charring. I am inclined, however, to the latter cause, as the full effect was not produced until some eight hours afterwards, and as it seems that if the heat was the principal agent, it must have been sooner followed by visible changes."

Woman's True Friend

A friend in need is a friend indeed. This none can deny, especially when assistance is rendered when one is sorely afflicted with disease, more particular by those complaints and weaknesses so common to our female population. Every woman should know that Electric Bitters are woman's true friend, and will positively restore her to health, even when all other remedies fail. A single trial always proves our assertion. They are pleasant to the taste, and only cost fifty cents a bottle. Sold by all druggists.—2.

THE MOWAT PLATFORM.

TO-DAY we give in full the resolutions that were passed at the recent Reform Convention held at Toronto. As they virtually set forth the platform of the Mowat administration and of its supporters, we publish them for the information of our readers, in spite of the great space they occupy through their redundant verbiage.

It certainly cannot be said that this platform, so carefully prepared, is a strong one upon which to appeal to an intelligent community like that of the electors of this Province. Two of the resolutions are general declarations of old Reform principles which have in many instances been abandoned in practice by the present usurpers of the title. Two of them are unfounded attacks upon the Dominion Government. Most of the others embody claims, that are positively ludicrous in their impudent mendacity, for credit on account of a pretended policy or performances, such as affection for the union of the Provinces, the encouragement of manufactures, immigration and municipal institutions, and the practicing of economy. One is a repetition of the *Globe* slanders of the intention of the Conservatives to relax the liquor laws.

In the whole of the seventeen resolutions there is only one that promises anything that can be called a reform, and this, the extension of the franchise, adopted as an after-thought, was forced upon them by its advocacy by the Conservatives, in the teeth of the long and constant opposition of these self-styled "Reformers."

We will consider in greater detail hereafter the more important of these resolutions.

EDITORIAL NOTES.

THE coming man! The present Provincial Treasurer having declared Mr. S. S. Peck to have "no superior" on the floor of the House, it will now be in order for the Lindsay *Post* and its confreres in this section of Ontario to nominate the late Treasurer of Haliburton for the Provincial Treasurership *vice* Wood resigned. He would no doubt, in that position, give the interests of the people of this Province the same "special care" as Mr. Wood says he has always given the interests of his riding.

⁂

THE Stratford *Beacon* says:—

"The Tory journals are afflicted just now with an acute attack of "poor Gordon." Not long ago it was "poor Mackenzie." Some day soon it will be "poor Blake" or "poor Mowat."

We fancy that Mr. Blake and Mr. Mowat will not thank their indiscreet advocate for this ill-omened prophecy of their speedy failure, with the consequent display of ingratitude for which the Reform party is so notorious.

⁂

THE Montreal *Witness* in its summary of the resolutions passed at the Reform Convention at Toronto, says:—

"A resolution, *not in the printed list* and evidently drawn up as *an after thought*, recommended an extension of the franchise in the direction of manhood suffrage!"

ONTARIO LEGISLATURE.

THE House met after the recess on Thursday, Jan. 4

Mr. Mowat moved the second reading of the Street Railway Bill.

Mr. Meredith very properly objected to considering bills which had only just then been presented to them in a printed form.

As the Government was prepared with no other business, the House adjourned after a session of a few minutes.

On Friday the Street Railway Bill and the Lighting and Heating Bill were read a second time, Mr. Mowat objecting to municipalities being placed on a worse footing than private companies, and Mr. Mowat promising to consider the clause.

Several private bills were introduced.

Mr. Meredith complained that there had been no meeting yet of the Public Accounts Committee, and Mr. Mowat promised that one should be called for Monday.

The House adjourned after a session of half an hour.

SOUTH VICTORIA.

MR. CHARLES FAIRBAIRN, Reeve of Verulam, and at one time a resident of Smith, has received and accepted the Conservative nomination for South Victoria. Mr. Fairbairn is one of Victoria's most enterprising farmers, has been Reeve of Verulam for a number of years, and has occupied the chair, with credit to himself, and satisfaction to the county.

NORWOOD.

THE ELECTION.— Mr. Pearce's majority over Mr. Finley, for the Reeveship, was 27.

WARSAW QUARRY.—The *Register* says that the Warsaw quarry is quite an extensive affair when compared with our own. On an average, fifty teams are engaged in hauling stone from the quarry to Peterborough. The amount paid for drawing, per cord, is [illegible]

HARVEY.

THE ELECTIONS.—The voting resulted in the election of the following gentlemen to this Council for this year:—Mr. G. Oliver, Reeve; Messrs. John Clarkson, Thos. Flynn, Jas. Ingram and Chas. McIlmoyle, Councillors.

The Extreme Penalty.

Michael O'Rourke was hanged at Milton on Friday, January 5th. The crime for which O'Rourke has paid the extreme penalty was a peculiarly fiendish one. He left the employ of a farmer named Patrick Maher, in the township of Nelson, about thirteen miles from Hamilton, on the morning of Friday, January 19th, 1882. He returned in the evening about nine o'clock, and entering the isolated log house, killed Patrick Maher's aged and helpless father and sister, the latter aged about 30 years, the fatal instrument in both cases being an axe. No motive could be assigned for the terrible deed, except possibly that given by himself—namely, that he was drunk. He confessed his crime, and after a full trial, was found guilty in March last and sentenced by Justice Cameron to be hanged on June 9th. Under application the Attorney-General issued a *fiat* respiting the prisoner till January 5th, in order that points raised by his counsel might be argued at Osgoode Hall, which were, however, unsuccessful. O'Rourke had a wife and child, who live in Kingston.

Where Gambetta Lived.

When in Paris Gambetta lived in the Rue St, Didier. His country residence was at the Ville d'Avray. Both houses are quite plain and unpretentious. The country residence is in a hollow near the Ville d'Avray station, and considerably below its level. It is approached by a green lane, called Le Chemin Vert. There are two dwelling houses of about equal size and similar style of architecture in the English park, of which M. Gambetta was the owner. A Frenchman would speak of the two mansions as large pavilions. They are covered with green trellis, intended to support creeping plants. The whole of the grounds do not contain half an acre. They are surrounded by a low paling, except close to the house nearest to the entrance court. A high wall there separates the premises from Le Chemin Vert. M. Gambetta lived in the house nearest to the lane, and his friends only went to see him by special invitation. MM. Proust, Spuller, Arnaud and Coquelin often visited him there.

The Jerseyville Tragedy.

At the Hamilton Assizes on Friday, the case of Eva Woods, charged with felonious shooting with intent, was concluded, the jury returning a verdict of not guilty. It will be remembered that Eva Woods went to the home of Wentworth Day and demanded that he carry out a marriage promise, which he did not appear inclined to do, although she had two children, of whom she swore he was the father. In the altercation she drew a revolver and shot Day twice, once nearly fatally. Day did not wish to prosecute.

A Vexed Clergyman.

Even the patience of Job would become exhausted were he a preacher and endeavoring to interest his audience while they were keeping up an incessant coughing, making it impossible for him to be heard. Yet, how very easy can all this be avoided by simply using Dr. King's New Discovery for Consumption, Coughs and Colds. Trial Bottle given away at Taylor & Macdonald's Drug Store.—2,

FURS :: FURS :: FURS!

FIRST PRIZE FURS AND WHERE TO BE FOUND.

Not many houses in the Fur Trade possess the facility for manufacturing FURS *as the subscriber. The large quantity of Raw Furs he buys,* DIRECT FROM THE TRAPPERS *enables him to select the choicest material, leaving a surplus for export, hence his success. Who pays the highest price for raw furs? Let the Trappers answer that question, as all have been defeated and left the field who entered in opposition 22 years ago.*

By importing European Furs direct, his name is as well known in Leipzig, Germany, as any of the wholesale houses, and noted for not offering dyed Marten for Sable, or dyed Goat Robes for Bear, nor using any fictitious name in his establishment whereby imitations are sold for real, at often treble their value. Continuing, as commenced, in the same old way of giving A GOOD ARTICLE FOR THE LOWEST POSSIBLE PRICE, *any order entrusted must give satisfaction or no sale.*

On account of family changes, I have concluded to close the shop formerly occupied by S. Hyman, after New Year's. This stock will be sold at very low prices.

MR. MOWAT'S PLATFORM.

THE following are the resolutions that were passed at the Reform Convention in Toronto :—

I.—GENERAL PRINCIPLES.

That this Convention of the Reformers of Ontario recognizes with pride and pleasure the fidelity to Liberal principles, which has been evinced through a long series of administrative and legislative acts by the Reform Governments and Legislatures of the Province for the past eleven years, and deems it to be the bounden duty of all true Liberals to strengthen to the uttermost the hands of the Hon. Oliver Mowat, our worthy leader, and his colleagues, at this critical period in our Provincial history.

II.—ONTARIO'S LEGISLATIVE RIGHTS.

That by the British North America Act the Provincial Legislatures have exclusive powers of legislation on subjects placed by that Act within their jurisdiction; that the power of disallowance by the Federal Government should be exercised only when such legislation is beyond the constitutional jurisdiction of the Province, or antagonistic to Dominion interests; that the Rivers and Streams Act, which dealt with subjects left by the constitution to the exclusive jurisdiction of the Legislature of Ontario, was in no manner illegal, unconstitutional, or antagonistic to Dominion interests; that the repeated disallowance of the act was, therefore, in the opinion of this Convention, a violation of our Provincial autonomy, and an attack upon the fundamental principle of local self-government provided by the Confederation Act, and secured mainly by the earnest, consistent, and long-continued efforts of the Reform party; and that the action of our Government and Legislature in asserting and vindicating our Provincial constitutional rights demands the approval and support of every patriotic citizen.

III.—THE BOUNDARY AWARD.

That this Province came into Confederation with the territory which formerly belonged to Upper Canada; that the extent of that territory on the north and west was at that time undetermined, but was, in the month of August, 1878, finally determined by the unanimous award of able arbitrators of the highest distinction, appointed on a competent reference by the respective Governments of the Dominion and this Province under an agreement to which the good faith and honour of both were pledged, that the award should be final and conclusive; that this award was accepted by the Government of this Province as in honour bound, but was repudiated by the Government of the Dominion; that such repudiation is, in the opinion of this Convention, a violation of public law and national faith, and an indefensible denial on the part of the Federal authorities of the just claims and territorial rights of this Province; and that the manly and persistent assertion by the Government of Ontario of those claims and those rights, and their demand for the immediate ownership and government of the awarded territory, deserve the support and co-operation not only of the Liberal party, but of every citizen of the Province.

IV.—AFFECTION FOR THE UNION.

That this Convention earnestly desires the bonds which unites the Provinces of Canada shall be strengthened by the development of a feeling of affection for and pride in the Federal Union which connects them, and this Convention believes that such sentiments will be best promoted by the maintenance of the Federal principles of the union; the full recognition of the rights of each Province to control all matters which are placed under its exclusive power, and the adoption of the principles of justice and fair play in the adjustment of all questions arising between the Dominion and the Provinces. (Cheers.)

V.—EXTENSION OF THE FRANCHISE.

That this Convention rejoices in the successful operation of those extensions of the franchise which have form time to time been placed in the statue book; records its opinion that a further extension should form a plank in the platform of the Reform party at the ensuing elections; and expresses its hope that the popular voice will endorse the proposal, and will return a Liberal majority authorized to accomplish this reform.

VI.—LEGISLATION AND ADMINISTRATION OF JUSTICE.

That this Convention expresses its gratification that under the auspices of the Reform Governments of Ontario our election laws have been greatly improved; that valuable reforms have been affected in the laws relating to real and personal property; that our municipal and school laws have been much improved; that the Statute Laws of the Province has been revised and consolidated; that great and radical reforms in the procedure and practice of our Courts, tending to the promotion of simplicity, economy, and expedition in the administration of justice, have been successfully accomplished; that prompt means have invariably been taken to establish such administration in every outlying district of the Province, contemporaneous with settlement; and that justice has been administered throughout the Province with purity and uprightness.

VII.—SURPLUS DISTRIBUTION AND RAILWAY AID.

That this Convention desires to record its gratification that the Reform Governments and Legislatures triumphantly solved the difficult problems presented by the Municipal Loan Fund and the best means of applying to profitable end, a portion of the surplus in the Treasury; that the municipal loan fund debts were successfully settled upon an equitable basis; that large sums out of the surplus have been returned to the people under conditions requiring their expenditure for objects of great public utility; and that a judicious system of railway aid has given to the Province 2,200 miles of new railway, and in this way greatly assisted the development of our agricultural and commercial industries, and promoted the general advancement of the Province.

VIII.—PROVINCIAL FINANCES.

That in the opinion of this convention the management of the Provincial finances by the Liberal Government of the Province has evidenced their fidelity to the Reform principles of progress and economy; that whilst these Governments have not hesitated as responsible stewards of the public funds to propose such expenditures as the public good required, they have been careful and provident in their administration; and that it is a proud fact that whilst the ordinary business of administration has been steadily carried on, the education of the people assisted, the vicious and afflicted cared for, burdens lifted off the municipalities, all our industries encouraged, and the progress of the Province in every way and on every side advanced, a large surplus still remains in the Treasury of the Province.

IX.—AGRICULTURAL AFFAIRS.

That this Convention recognizes with satisfaction the vigorous, judicious and timely steps which, under the Reform Government of Ontario, have been taken to render assistance in the development of our agricultural industry, by the encouragement given to Agricultural, Horticultural and kindred associations by the continued drainage of our low-lying lands, by the initiation of the tile drainage scheme, by the satisfactory adjustment of the vexed question of market fees, by the expansion of the Agricultural College and Experimental Farm, by the invaluable labors of the Agricultural Commission, and by the establishment of the Agricultural branch of the Bureau of Industries; and rejoices to observe that the Government is contemplating other plans for further promoting the agricultural interests of the Province.

X.—ENCOURAGEMENT OF COMMERCE AND MANUFACTURES.

That this Convention rejoices in all healthy expansion of the manufacturing and mercantile interests of the Province; is pleased to know that within the range of their constitutional powers, the Reform Governments of Ontario have encouraged those industries, by aiding the building of railways, by assisting to give at home and foreign exhibitions the fullest possible display of our manufactured products, and by providing through the Bureau of Industries a faithful record of the state of the manufacturing industries, which cannot fail to be of substantial benefit to such industries, and the Province at large.

XI.—THE SCHOOL SYSTEM.

That the process and development of every part of our Public and High School system during the past eleven years, in the more thorough training, classification and examination of teachers, the more efficient inspection and classification of schools, and the complete remodelling and great advance of the work of secondary education, are matters for congratulation; that the complications and difficulties which necessarily surround such a subject are to be met, as they have been met, by vigilantly watching over the working of the system, with a view to such changes in detail as from time to time experience may show to be necessary; by a due regard to the reasonable wishes and feelings of the various sections of the community; and by the application to the utmost extent, consistent with efficiency, of the principle of local control over affairs.

XII.—FOREST AND TIMBER INTERESTS.

That the manner in which the forest and timber interests of the Province have been guarded and managed by the Reform Administrations and Legislatures, the safeguards thrown around these interests by the provisions which require public competition as the condition of license, the caution, skill and judgment which have been displayed by the Executive in determining when sales of license shall take place, and the care and integrity displayed in the sale and management of our Crown lands, are subjects of just pride to the Liberal party, and of national congratulation to every inhabitant of the Province.

XIII.—FREE GRANTS AND IMMIGRATION.

This Convention, while looking with pleasure on the growth of the Canadian Northwest, and recognizing the drain of late years on our population and resources towards that and other fields, yet views with satisfaction the great development of the newer districts of our acknowledged territory during the last eleven years, under the liberal system of free grants from the Crown; and rejoices that, by a judicious expenditure on colonization roads and internal improvements, so many of our sons, together with the people of other countries, have, notwithstanding great attractions elsewhere, found homes within our borders; and trusts that the immigration policy of the Ontario Government will, in the present circumstances, continue to be one of vigorous effort to secure large additions to our agricultural population.

XIV.—PUBLIC INSTITUTIONS.

That this Convention views with approval and satisfaction the vigorous and successful manner in which the Reform Governments of Ontario have promptly met every public requirement for the restraint and correction of the vicious, as well as the care of the afflicted and unfortunate portions of our population, by the erection of such buildings as were needed, and by the successful maintenance and management, on the latest curative, sanitary and humane methods, of our various penal and charitable institutions.

XV.—OUR MUNICIPAL INSTITUTIONS.

That the Reform party, the parent of the system of local institutions, municipal liberties, and generally of the principles of self-government, re-affirms, after an experience of more than forty years, the value of these institutions, and will in the future, as it has done in the past, guard, cherish and develop them by all means in its power.

XVI.—THE LIQUOR LICENSE QUESTION.

That this Convention views with gratitude the great improvements which have, under Reform Governments, been made in the laws affecting temperance; protests in the strongest way against any of the retrograde changes lately advocated, such as extending the hours of selling, lessening the restrictions in the number of licenses, creating vested interests in licenses, and re-transferring to Municipal Councils the responsibility of issuing licenses; believes that the general interpretation of the Constitution acted on in all the Provinces ever since Confederation, has been that the Provincial Legislatures have authority in the matter, and that such interpretation is in accordance with the spirit of the constitution; considers that it is for the best interests of the Dominion that the Local Legislatures should have such authority; deprecates any assumption of power by the Parliament of the Dominion in this regard, beyond what may be needed for passing a general law as to prohibition; declares that the Local Legislatures can best interpret and give effect to the feelings and wishes of the people in each Province as to the license system; and insists that action by the Parliament of the Dominion would be an undue interference with Provincial rights, and detrimental to the cause of order and sobriety.

XVII.—MORE GENERAL PRINCIPLES.

That the principles of local control over local affairs; of parliamentary independence and purity of elections; of legislative and administrative reform as required by the development and progress of the Province; of the wise and discriminating extension of the franchise; of the judicious encouragement by the State of all our agricultural, mercantile, and manufacturing industries; of the speedy settlement of our unoccupied territory by free grants of homesteads to actual settlers, and the active encouragement of proper immigration; of public competition for public property and public works; of Provincial care of the afflicted and unfortunate portions of the population; of a free primary education for the whole people and the reasonable encouragement of higher education; of the maintenance in their integrity of our municipal institutions; of economy and retrenchment in our financial affairs consistent with the promotion of progress and development of all the resources of the Province; and the encouragement by every legitimate means of all moral and social reforms, are principles which the Liberal party have always maintained; and so long as the Reform Governments of Ontario in the future, as in the past, uphold and carry out those principles, they shall receive the hearty and united support of the Liberal party in this Province.

Alive Horsford's Acid Phosphate.

AS A NERVE FOOD.

Dr. J. W. Smith, Wellington, O., says: "I have used it advantageously in impaired nervous supply."

DO YOUR CHILDREN have fits or convulsions, grind their teeth, pick their nose, have a bad breath, or a changeable appetite? Are they restless or feverish at night? If so, ask your druggist for Dr. Smith's German Worm Remedy (take no other), it only costs 25 cents. Is simple safe, and pleasant to take. If there are no worms, to remove the slime and bile that breeds them, tones up the system, and will save many a doctor's bill. A word to the wise, etc. Thousands of testimonials.

THE cause of death. It is known almost to a certainty that in fatal diseases the individual dies either by the brain, heart or lungs. How wise then is the effort to maintain a perfect state of health! Dr. Carson's Stomach and Constipation Bitters are a veritable "Health Giver." They free the system from all impurities; cure Billiousness, Dyspepsia, and all diseases of the Stomach, Liver or Bowels. In large bottles at 50 cents. Sold by all Druggists.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcule which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.) THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Borke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, billiousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6d. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

THE

PACIFIC NORTHWEST!

Oregon, Washington, and Idaho.

Offers the best field for emigrants—viz.: a mild, equable, and healthy climate; cheap lands of great fertility, producing all varieties of Grain, Fruit, and Grasses in wonderful abundance; an inexhaustible supply of Timber; vast Coal Fields, and other mineral deposits; cheap and quick transportation by railroads and river navigation; direct commerce with all parts of the world owing to its proximity to the Pacific Ocean.

NO DROUTHS, NO INSECT PESTS, NO HURRICANES, WHIRLWINDS, OR OTHER DESTRUCTIVE PHENOMENA.

The lands of the Pacific Northwest show an average yield of wheat per acre largely in excess of that of any other section of the United States.

No failure of crops has ever occurred.

Oregon wheat commands a higher price than that of any other country in the Liverpool market.

An immense area of very fertile Railroad and Government Lands, within easy reach of the trunk lines of the Northern Pacific R.R., the Oregon Railway & Navigation, and the Oregon & California RR Co's and their numerous branches in the great Valleys of the Columbia and its tributaries, are now offered for sale at Low Prices, and on Easy Terms, or open to pre-emption and Homestead Entry.

The great movement of population to the Columbia region now in progress will be enormously increased by the completion of the Northern Pacific RR. and the Oregon Railway and Navigation Co's systems. This renders certain a rapid increase in the value of Lands now open to purchase or to entry under the United States Land Laws.

Anniversary Services.

Special sermons, in connection with the sixth anniversary of the George Street Methodist Church, were delivered in that church on Sunday morning and evening by the Rev. D. Stone, of the M. E. Church, Hamilton. There was a good attendance on both occasions, and the Rev. gentleman delivered eloquent and impressive discourses. The choir was assisted by Mrs. Chambers, of Toronto and formerly of Peterborough, who in the evening sang a solo "Abide With Me." Mrs. Chambers is well known here, and is a vocial musician of rare abilities.

◆

Absconded.

Last week two men appeared in town, soliciting orders for tea and spices for a firm in Cobourg. During their short sojourn here they related that it was part of their business on this trip to try to discover some trace of a young man who had acted as agent for the firm in December. This young man, they said, did a good business here, and sent in an order for nearly fifty dollars' worth of teas, which was forwarded to him. No return was made by him for this amount, and the firm came to the conclusion that he had appropriated the money. The result of the visit of the two agents here appeared to confirm the view, and they believed that he had gone to Manitoba. They did not wish to divulge his name, as they said he had respectable relatives in Peterborough and Cobourg.

Railway Notes.

The Omemee *Herald* says that after a week's holidays the carpenters employed on the big bridge on the missing link have resumed work. If fine weather continues the bridge will be finished in a couple of weeks.

The Belleville *Ontario* says that arrangements have been made with the Midland Railway to "move" forty cars each day from Belleville to Toronto belonging to the Grand Trunk and *vice versa*. This change was necessitated by the unusually heavy fright traffic on the Grand Trunk at present.

◆

To Sportsmen.

It is enacted in the laws of the Province of Ontario, that between the first of January and the first of September no one shall hunt, take or kill, wild turkeys, grouse, pheasants or partridges; nor quail between the first of January and the first of October; nor woodcock between the first of January and the first of July. And that any person having these fowls in his possession or offering the same for sale after the 20th of the present month will be liable to be fined; also ducks known as mallard, grey duck, black duck, wood duck, and all kinds of duck known as teal, shall not be hunted, taken, or killed, between the first of January and the fifteenth of August.

THE Mayor of Detroit has forbidden the production of "The James Boys" at the Park theatre, under pain of revoking its license.

THE jury enquiring into the death of Sarah Murray of Hillsburg, returned a verdict of death from excessive drinking and want of sustenance.

CHICAGO capitalists are negotiating with the secretary of the interior for a lease for grazing purposes of 2,400,000 acres Indian territory belonging to the Cherokees and Cheyennes.

Oh, What A Cough!

Will you heed the warning. The signal perhaps of the sure approach of that more terrible disease Consumption. Ask yourselves if you can afford for the sake of saving 50 cts., to run the risk and do nothing for it. We know from experience that Shiloh's Cure will Cure your Cough. It never fails. This explains why more than a Million Bottles were sold the past year. It relieves Croup, and Whooping Cough, at once. Mothers do not be without it. For sale by J D. Tully.

Dyspepsia and Liver Complaint.

Is it not worth the small price of 75 cents to free yourself of every symptom of these distressing complaints, if you think so call at our store and get a bottle of Shiloh's Vitalizer, every bottle has a printed guarantee on it, use accordingly and if it does you no good it will cost you nothing. For sale by J. D. Tully.

Bucklen's Arnica Salve.

WITH every bottle of Dr. Carson's Pulmonary Cough Drops, a sample bottle is given free of charge. If, after using the trial bottle, you are not satisfied with its effect, you can return the large bottle to your dealer, who will refund the money. Thousands can testify to its prompt action in curing Coughs, Colds, Bronchitis etc. If you suffer, try them. Price 50 cents. Sold by all Druggists.

It always gives us pleasure to draw attention to articles which are deserving of public patronage. Probably no article ever offered to the public has met with the same success as Gray's Syrup of Red Spruce Gum. Thousands of families in the Dominion keep it in their homes as the standard Cough Remedy. The sale of this article has assumed enormous proportions. Our advice to the public at large is to try its virtues if they should at any time unfortunately contract either Coughs or Colds. It is sold by all chemists.

Why The People Come Back to Us!

Is our trade in CLOTHING of that Character that serving—say a young man—once we never see him again? Not probable. Nor is it likely to take that character.

When a young man needs CLOTHING he wants something like a stock, a department, to select from. Don't you get that with us? He wants his Clothes well put together and run no risk of unnecessary ventilation, either; or at least have it come upon him unexpectedly. He don't care for seams like whip-cords in his pants legs, or his coat collar, showing inches of room behind his neck. This touching Clothing. Another word here, we'd say. Don't jump to the conclusion that we don't keep certain goods because you don't see them mentioned in our advertisements. If you do you'll make a mistake. It's impossible, where we have so varied a stock of goods, to make mention of them all. We even may fail to mention some at all. So don't limit your ideas of our stock to our advertisements. As for what we say in them much more remains unsaid. There's nothing new, desirable or fashionable we naven't got. TRY US.

TUESDAY, JANUARY 9, 1883.

EAST PETERBOROUGH.

As we predicted last week, the Reformers of East Peterborough, who have nothing to reform, met at Norwood on Monday last, and after "heartily endorsing" Mr. Blezard's course and recognizing his "valuable (?) services" to not only the riding but to "the Province at large," re-nominated him as their candidate in the coming contest. As the *Globe* correspondent informs us that Mr. Blezard "in accepting the nomination reviewed his career in the Local Legislature and the acts and measures of that body during his term of office, and criticised the opposition sharply and severely," we may reasonably expect a full report of his speech in this week's issue of our Reform contemporary, when we will no doubt be informed of the "valuable services" which Mr. Blezard has rendered his constituents, and especially to "the Province at large." At present we must frankly confess we have some curiosity to learn what the services are.

MOWAT OFFICIALS.

The London *Free Press* says:—

"From present appearances it is quite evident that Mowat's army of petty officials are going to throw themselves into the coming election contest for the Local Legislature with a vigor which none but drowning men are caprble of. That East Middlesex is to be one of the constituencies which will be cursed with their interference has on more than one occasion been made quite apparent. On Friday night of last week a meeting was called in Dorchester to select delegates to attend the Grit convention now in progress at Toronto, but instead of the free and independent electors having a voice in their selection, Mowat's army was present in force and dictated just what should be done. Most prominent among them was License Inspector W. H. Niles, of London East (who voted himself to the chair), Division Court Clerk J. N. Burdick and Bailiff Beverly. Those assembled waited with patience for some time in the hope that Bailiff John Burns, of London City, pet ladreate to the Grits of East Middlesex, would arrive, but at last it was found necessary to proceed without him, and the meeting, which was decidedly tame, after several unsuccessful endeavors, succeeded in naming six delegates. Mr. D. Mackenzie, the Grit candidate for the East Riding, was in attendance, and by his presence sanctioned the unseemly conduct of the Grit wire-puller from London East. Hon. Mr. Hardy will please put this in his scrap book, and if he desires the statement authenticated, he can ask any of the individuals present if the statement is not true as Holy Writ. This being the case, it only remains for the electors of the East Riding to show Mr. Mackenzie that he cannot pursue such a course with impunity, and when the time arrives let them do so at the polls.

Gaining a World Wide Reputation.

About 150,000 bottles of medicine and 3000 Spirometers, the invention of M. Souvielle of Paris and ex-aide surgeon of the French army, have been used by physicians and patients during the last year for the cure of catarrh, catarrhal deafness, bronchitis, asthma, consumption in its first stages and many diseases of the head, throat and lungs. Consultations with any o the surgeons belonging to the institute free Poor people showing certificates can have spirometers free. Write enclosing stamp for pamphlet giving full information to either of the Canadian offices where competent English and French specialists are always in charge. Address International Throat and Lung Institute, 13 Phillips square, Montreal, P. Q., or 173 Church street, Toronto, Ont.

MIDNIGHT TELEGRAMS

CABLE.

READY FOR WAR.

BERLIN, Jan. 8.—The *Norddeutch Zeitung*, Bismarck's organ, deprecates the exaggerated opinions concerning the effect of Gambetta's death. It says Germany, like France, neither desires or fears war. Germans will remember the warlike utterances of Brisson's organ, the *Siecle*. When Brisson, now President of the Chamber of Deputies, arrives at a position to give practical expression to his purposes, he will not find Germany unprepared.

TRIAL OF ANARCHISTS.

LYONS, Jan. 8.—The trial of the Anarchists has commenced before the Correctional Tribunal. The approaches to the court are guarded by troops of gendarmes. All the prisoners admitted carrying on Socialist propaganda, but denied the charge of conspiracy. They disavow any complicity in the explosions in the restaurant at Chalons.

GEN. CHANZY'S FUNERAL.

CHALONS, Jan. 8.—The funeral of General Chanzy to-day was attended by Marshal MacMahon, General Billot, Prince Orloff, the Russian ambassador, a number of Russian officers, fifty-six generals, and a number of senators and functionaries. The *cortege* was of immense length. The coffin was covered with wreaths.

EGYPTIAN ANNEXATION.

NEWCASTLE, Jan. 8.—Joseph Cowen, M. P., in addressing his constituents to-night, said the Government would be compelled to annex Egypt, which would lead to the breaking up of the Turkish kingdom, and will be the commencement of the formation of a British North-African Empire.

FOR AMERICA.

WATERFORD, Jan, 8.—Two hundred young labouring men and women from Clare, Limerick, and Tipperary have just left for America.

AMERICAN.

A CORNER IN CORN.

CHICAGO, Jan. 8.—A corner in corn is said to be developing here. It is stated that several heavy New York capitalists are in the scheme. One broker bought over 800,000 bushels on Saturday. On this morning January corn, which closed on Saturday at 54⅞c., sold up to 57⅛c. Other options have also advanced ½ to 1c. Other articles are strong and higher.

THE PRINCESS LOUISE.

WASHINGTON, Jan. 8.—The Marquis of Lorne wrote to Gen. Sherman, asking if it would be safe for his wife to winter in Charleston. It seems the Princess has changed her mind about Bermuda, and prefers Charleston. Gen. Sherman replied that in his opinion there was no safer or more pleasant place in the United States for the Princess than Charleston.

TELEGRAPH BLOCK BURNED.

DETROIT, Jan. 8.—The two upper floors of the Telegraph block were gutted by fire to-night. Escape by the stairway was cut off, and the operators were rescued with ladders and fire escapes. Corbett, chief operator, was severely burned. The large operating room, the book-keeper's rooms, the battery room and the superintendent's office were destroyed. The fire temporarily obstructs the work of the Western Union lines, but new quarters are being fitted up.

STORMS ON THE ATLANTIC.

NEW YORK, Jan. 8.—The masters of incoming vessels report an almost continuous succession of storms on the Atlantic for the past two weeks. The barque Vanguard, from Pernambuco, which arrived this morning, reports that last Saturday, while off Cape May, she spoke the Swedish schooner Norma, from Rio Grande, bound for Boston. The schooner had been 96 days out, and her provisions were exhausted. The crew had been four days starving. Assistance was given to the Norma and provisions furnished by the Vanguard. Among the other vessels which have experienced rough weather and more or less serious disasters are the brig Minatitlan, from Hayti; the barque Eva Reid, from Cabe, Africa; the schooner Mary Queen of the Seas, from Aspinwall; and the barque Grid, from Pernambuco.

A SMUGGLER ARRESTED.

A Representative of a Toronto Firm Captured at Buffalo.

BUFFALO, N. Y., Jan, 8.—James Foster was arrested here this afternoon on a charge of smuggling. He is the representative of the Toronto firm of Foster, Williams & Co., who deal in electric belts. He is also connected with the Electric Oil Company of this city. The officers seized several hundred electric belts in Foster's possession. These are manufactured chiefly of copper, and the duty upon them would be fifty per cent. The officers find that while thousands of them have been sold in the United States, not one has ever been entered at the Customs houses. A similar seizure was made at Chicago two months ago. Soon after this occurrence, the authorities at Washington were led to believe, by certain newspaper articles, that Buffalo was a good point to watch. The special agent of the Treasury will remain here for some days, assisting the detectives who have been employed to ferret out the smuggling business. He comes direct from Washington, following closely upon the heels of Special Agent Heichhold. The latter was expected to make a thorough investigation, but failed to do so. He reported that the exposure was a hoax, but the Treasury officials were not satisfied and sent a new man here. Other arrests will follow. Foster was taken before U. S. Commissioner Strong, and gave bail for appearance to-morrow.—*Mail.*

COAL IN THE NORTH-WEST.

Dr. Dawson's Report—He Thinks Canadian Coal Superior to that of Germany.

OTTAWA, Jan. 8.—Dr. George M. Dawson, of the Geological Survey of Canada, has returned from an eight months' tour of exploration on the Continent. The object of his visit was to examine the mines of lignite coal in Germany, Austria and other places, and note the manner in which they prepared the same for market, in order that a comparison might be made of those products with the lignite of the North-West. Dr. Dawson states that the mines of Bohemia are altogether different in quality from those of the Rocky Mountains, and that the lignite of the latter is superior to that of Germany. He expresses himself as much interested in the various processes used in preparing the lignite or soft coal for market.

LONDON, Jan. 9.—The British Empire, Capt. Rickers, from Shields for Bombay, was burned at sea. Ten persons are known to be saved, but two boats, containing the captain, mate and fourteen hands, are missing.

AMERICAN.

RESULT OF JEALOUSY.

WACO, Texas, Jan. 9.—On Thursday E. O'Berly attempted to commit suicide because the parent of the young lady he loved objected to him. Yesterday an alleged rival, H. Ashburn, entering the lady's house, and O'Berly fired, wounding him seriously. Ashburn returned the fire. O'Berly rushed into the house and was seized by the lady's father. O'Berly then shot himself, perhaps fatally.

THE PHŒNIX PARK MURDER.

ROCHESTER, Jan. 9.—A man who went by the name of Patrick O'Reilly confessed to being one of the participators in the murder of Lord Frederick Cavendish and Under Secretary Burke in Dublin last May. He confessed to Hugh O'Donnell at Holly, Orleans County, and is now in gaol at Albion.

EXPLOSION IN A MINE.

COLTERVILLE, Ill.—Yesterday an explosion occurred at Cod mine of Jones & Nesbit. The cause of it is unknown. 126 persons were in the mine. A man named Mason and a boy escaped. Mason was at the mouth of the shaft and was badly hurt, but the boy was uninjured. Relief parties are unable to enter the mine, and foul air is rising. The cries from those about the mine are heartrending. Eight of ten men in the mine have families. It is believed impossible for any of the imprisoned miners to escape.

MURDERED OR FROZEN.

LINCOLN, Jan. 9.—Three persons were found dead yesterday, in a house ten miles from David city. Reports conflict as to murder and freezing.

NOW READY.

NEW YORK, Jan. 9.—The *Times'* Albany despatch says that the final touches were given to the old Assembly Chamber yesterday. Everything is now ready to accomodate the members in the vaulted chamber, about whose safety so much has been said.

BUTLER FOR PRESIDENT.

BOSTON, Jan. 9.—At a banquet yesterday in honor of Jackson's victory, in New Orleans, Col French, chairman of the Democratic State Committee, and ex-governors Sprague and Plaisted, expressed themselves in favor of Butler as the presidential candidate for 1884.

SUSPICIOUS.

NEW ORLEANS, Jan. 9.—There are grave suspicions of the good faith of the Texas officers who released Treasurer Polk.

REAL ESTATE IN NEW YORK.

NEW YORK, Jan. 9.—The taxable valuation of real estate here is $1,080,879,000, an increase of $45,580,000 over last year.

SMALL-POX RAVAGES.

SHILOH, Ky., Jan. 9.—Small-pox is raging here. All the stores are closed and business of every character is suspended. The disease broke out months ago. Whole families are stricken down and the people are demoralized and fleeing from the neighborhood, leaving their homes and friends who have the disease. Several physicians have died, and those living have no power over the fatality of the disease.

A FEMALE SWINDLER.

NEW YORK, Jan. 9.—Berthe Heyman, the "Confidence Queen," accused of a long list of swindles and now confined on Blackwell's Island, is charged by Charles Karpe with swindling him out of nearly $1,000 during her imprisonment. Karpe alleges that the warden aided Bertha, which the warden denies.

Hints to Skaters.

In skating on ice, avoid skates that are strapped on the feet, as they prevent the circulation and the foot becomes frozen before the skater is aware of it, because the tight strapping benumbs the foot and deprives it of feeling. Serious injury may be done the feet in this way. The safest kind are those which receive the fore part of the foot in a kind of toe, and a stout leather around the heel, buckling in front of the ankle only, thus keeping the heel in place without spikes or screws, and adding greatly in supporting the ankle. It is not the object so much to skate fast as to skate gracefully, and this is sooner and more easily learned by skating with deliberation, while it prevents overheating and diminishes the chances of taking cold by cooling off too soon afterward. If the wind is blowing a veil should be worn over the face, at least of women and children; otherwise fatal inflammation of the lungs, "pneumonia," may take place. Do not sit down to rest for a single half minute, nor stand still if there is any wind, or stop a minute after the skates are taken off, but walk about so as to restore the circulation about the feet and toes, and to prevent being chilled. It is better to walk home than to ride; the latter is almost certain to cause a cold. Never carry anything in the mouth while skating, nor any hard substances in the hand, nor throw anything upon the ice; none but careless, reckless ignorance would thus endanger a fellow-skater. Always keep your eyes about you that you may avoid collisions. Arrange to have an extra garment, thick and heavy, to throw over your shoulders the moment you cease skating, and then walk home, or at least half a mile, with your mouth closed, so that your lungs may not be quickly chilled by the cold air dashing in upon them through the open mouth; but if it passes in through the nose and head it is warmed before it gets to the lungs. It would be a safe rule for no child or lady to be on skates more than an hour at a time.

Mothers! Mothers

Are you disturbed at night or broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. 25 cents a bottle. d83w

TUESDAY, JANUARY 9, 1883.

THE SURPLUS BUBBLE.

As was to be expected Mr. Mowat's Liberal Convention was exceedingly liberal in its praise of Mr. Mowat's (and Mr. Blake's) liberal management of the Provincial Finances. These gentlemen seem to think that so long as they can show a balance—surplus they call it—at their bankers, everybody must be satisfied. While a balance to one's credit at one's bankers is a desirable thing, yet it, like many other things, may be obtained at too great a cost, and when so obtained is invariably the precursor of ruin instead of a sign of prosperity. The surplus of which our Mowatite friends are so proud is, we regret to say, in our opinion a bubble which only requires a very little pricking to scatter it to the winds and leave naked before our eyes a state of Provincial Finances the reverse of comforting to those who look beyond the present hour.

But before proceeding to prick this surplus bubble let us in all seriousness ask our political opponents to define the meaning which they attach to the word "surplus" as used by them. The dictionary says surplus means overplus. Now if there be an overplus it must be over something that went before. Do they mean that as a Province we have to-day an overplus over what we had on the 1st day of July, 1867, when we set up housekeeping for ourselves, or do they mean that we have an overplus over what we had, when the Sandfield Macdonald Government went out of office in December, 1871, or do they mean that our revenue since they came into power has exceeded our expenditure, or—what?

Leaving the unknown meanings which they may attach to the word "surplus" to be dealt with when they are defined, we propose to ask attention very briefly to the three meanings which have suggested themselves to us as fairly attachable to the word as used by them. First, then, how do we stand to-day, or rather how did we stand on the 31st day of December, 1881, as that is the last day to which we have the public accounts, as compared with the 1st of July, 1867?

At Confederation we were handed over the Crown Domain within the Province, "subject to any trusts existing in respect thereof, and to any interest other than that of the Province in the same." What that Domain was worth at Confederation or is now worth in dollars and cents it is of course impossible to say. That is a question which can only be answered when the asset has all been realized. But whatever the amount may be, it is obvious that every acre sold and practically every tree cut is a realization of an asset which we were given at Confederation, and the realization of which just reduces to the extent of the amount realized the amount still to be realized. Again we were assigned the Municipal Loan Fund debt, which at that time stood at over seven millions of dollars, but which has been settled for a much smaller sum—a sum which for our present purpose we shall assume was its actual value to us as an asset on the 1st of July, 1867. Now, between the 1st of July, 1867, and the 31st of Dec., 1881, we have realized from Woods and Forests, Crown Lands, Common and Grammar School Lands, and the Municipal Loan Fund, just $11,752,972. To obtain this sum, however, the Province has had to maintain its Crown Land Department, with Forest Rangers, Agents, &c., &c., at a cost of $1,687,631; it had also to pay thereout $280,758, on account of the Land Improvement Fund and $243,110 in the way of Refunds, leaving the net capital realized from these assets $9,542,471. Having realized this sum from assets handed over to us at Confederation, the next question is: How much of it had we left on the 31st December, 1881? We had:—

Investments made since Confederation	$1,300,000
Cash in Bank	337,884
Drainage Investments	592,613
Mimico Farm	6,728
Total	$2,237,226

and NOT ONE PENNY MORE.

We are aware that Mr. Wood in his budget speech claims a larger surplus than the foregoing, but EVERY OTHER ITEM which he uses to swell out the figures, was just as much on hand on the 1st July, 1867, as it was on the 31st December, 1881, and such being the case, we believe we are perfectly right in ignoring them in this statement. Under these circumstances and upon these figures, we assert without fear of successful contradiction that we were on the 31st December, 1881, just

$7,305,245 POORER

than we were on the 1st July, 1867—so much for that view of the surplus bubble.

As No. 1 suggestion fails to show a surplus when tested by the facts, let us see what No. 2, or a comparison between December 1871 and 1881, will show. Up to the 31st December, 1871, there had been collected from Woods and Forests, Crown, Common and Grammar School Lands, and from the Municipal Loan Fund, the sum of $3,112,811, out of which there was paid for Expenses, Refunds and Land Improvement Fund $562,360, leaving the net capital realized at that date $2,550,451; while at the same date we had:—

Investments made since Confederation	$3,627,979
Cash in Bank	172,985
Drainage Investments	127,497
Total	$3,928,461

OR $1,388,010 MORE

than the Sandfield Macdonald Government received on account of capital during their regime, an *overplus* which exceeded the gross receipts during the same period from the following sources, viz.:—

From Stamps	$ 435,894
" Licenses	255,892
" Interest on Investments	611,821
	$1,303,607

So that when Sandfield Macdonald went out of office he handed over to his successors assets which did not exist at confederation, which exceeded his net receipts from Woods and Forests, Crown, Common and Grammer School Lands and his gross receipts on account of the Municipal Loan Fund, the Stamp and License Revenue and interest on investments by $84,403 while on the 31st December 1881, Mr. Mowat was short on the first four items $7,305,245, notwithstanding that the gross receipts up to that date had been:

For Stamps	$1,067,232
" Licenses	1,068,775
" Interest on Investments	2,204,381
Making a total of	$4,340,388

and that he had during his term of office received an increase of Dominion Revenue which had yielded him at that date another $2,479,166, making in all $16,362,025, less the $2,237,226 which we have already stated was on hand at the close of 1881, and leaving Mr. Mowat to account for a

DEFICIENCY OF $14,124,799

as compared with an overplus of $84,403 which Sandfield Macdonald could show. These facts we venture to think, are rather injurious to Mr. Mowat's surplus bubble.

We now come to consider the third suggestion as to what Mr. Mowat and his friends *may* mean when they blow their surplus bubble, namely that their receipts have exceeded their expenditures. On the 31st December 1871, Sandfield Macdonald handed over to the great liberal party, whose economy the great Liberal Convention so liberally praises, investments and cash which had accrued since Confederation, as already stated, amounting to $3,928,461, of these there now only remains $2,237,226, showing a deficiency in the receipts during their regime of just $1,701,235! Not only that, but while our liabilities for moneys collected on account of the Common School Fund was at the end of 1871 but $225,638; at the end of 1881 it amounted to $803,150, besides arrears of interest to Quebec of about another $124,000, leaving us on this one account alone over $700,000 poorer at the close of 1881 than we were at the close of 1871, and making the revenue of the decade fall short of the payments made, and for which provision should have been made thereout, by $2,400,000! There may be a surplus, but we fail to see it. We are free to confess we cannot see a great many things in the same light as a good many members of the great liberal party do. For instance we cannot see how that which should cause a member of the House of Commons to be expelled becomes a qualification for the Local Legislature. Neither can we understand how Mr. Blake had the cheek to denounce the disallowance of any but unconstitutional acts of the Local Legislatures when he himself had disallowed acts which were constitutional simply because *he* did not approve of them, and in the face of the further fact that the Mackenzie Government disallowed more provincial acts during their four and a half years of office than Sir John Macdonald has done in his ten years of office. No doubt it is because we cannot see these things in the same light as they do that we cannot understand what the Mowatites mean by the word "surplus." Will some of them enlighten our ignorance?

Disraeli's Courtesy to a Young Member.

A little incident which happened to Mr. Fawcett shortly after he took his seat in Parliament is worth noting. He had ordered his dinner in the dining room of the House one evening, when some one came up to him and said:—"Professor Fawcett, as you appear to be alone, have you any objection to my dining at the same table with you?" Mr. Fawcett replied, "Certainly not," but with rather a puzzled expression. He could not imagine who the speaker was, for he failed altogether to recognize his voice. His unknown companion, noticing his perplexity, said quietly:—"I see you do not know who I am. I am Disraeli." Mr. Fawcett could hardly believe his ears, and for once in his life was fairly taken aback. This little act of friendly good nature on the part of the great Tory leader towards a young member whose views were so utterly and irreconcilably at variance with his own, touched Mr. Fawcett very much, and in spite of their political differences and their passages at arms in after years, the recollection of Mr. Disraeli's graceful courtesy on that occasion always remained vividly in his mind.

THE MURRAY CANAL.

The following letter appears in the Belleville *Intelligencer*, and that paper says that it is written by a gentleman who knows whereof he writes:—

DEAR SIR,—A good deal of misapprehension has been raised in the public mind concerning this work, by an article published in a Trenton paper, which article bristled with false statements, intended, no doubt, to make a little political capital for the time being. The article referred to stated that the contractors had found quicksand prevailing so extensively upon the route, that the work had to be changed, and a new route would have to be adopted. The contractors were represented as trying to get the work taken off their hands, and general dismay was said to prevail.

"I will now state the facts of the case. Facts which a visit to the works will establish to the satisfaction of anyone curious enough to make the trip.

"1.—There is not, so far as known up to the present, a pound of quicksand on the entire route of the canal, and it is not expected that any will be found.

"2.—The contractors are not seeking to throw up the job, but are pushing ahead in a most vigorous manner with the work, and are hopeful of making a good profit out of the work when completed, which will be before the time required by the contract; about fifteen per cent. of the whole work being now completed.

"3.—The contractors have succeeded in getting the whole of Dead Creek Marsh—the most difficult part of the contract—under complete control, and will be able to keep it so during the winter, by three steam pumps which they now have in operation, and with which they are keeping it sufficiently dry for convenient working. They have one steam derrick now at work and another on the ground and being erected, and they have two others on the way coming to be erected; and a staff of 150 men, and more are being daily added. The present indications are that by the time of the spring freshets the Canal will be completed the entire length of the marsh.

"4.—The soil of the marsh is first a layer of alluvial deposit, then a layer of sand similar to lake shore sand, and then blue clay. It will be seen by this that the soil, instead of being quicksand, is very favorable for canal construction.

"Instead of difficulties having been discovered, the entire route is proving most favorable, and the work is progressing in a most satisfactory manner, and the contractors are showing themselves most capable and energetic men.

"By giving the above facts publicity in your valuable paper, you will confer a favor upon an interested public. Yours,

"ONE WHO HAS SEEN THE MURRAY CANAL.

True Contentment.

Once upon a time an editor in search of food was compelled to pawn his diamond shirt-studs for a loaf of bread. While conveying the humble meal to his castle a hungry dog ran off with it, and a few moments later robbers deprived the editor of his watch. Instead of being rattled by these untoward incidents, the editor smilingly remarked:—"I thank the gods that I still have my appetite left." We are taught by this little fable that true contentment is the greatest of all journalistic boons.

Mission Houses Destroyed.

VICTORIA, B. C., Jan. 6.—News of an alarming character has been received from the Indian mission at Metlakatlah. Bishop Ridley, of the English Church, who was distasteful to the natives, was warned by the Indians to leave, but refused. Yesterday's information is to the effect that the Indians had attacked and destroyed several mission houses.

A Vexed Clergyman.

Even the patience of Job would become exhausted were he a preacher and endeavoring to interest his audience while they were keeping up an incessant coughing, making it impossible for him to be heard. Yet, how very easy can all this be avoided by simply using Dr. King's New Discovery for Consumption, Coughs and Colds. Trial Bottle given away at Taylor & Macdonald's Drug Store.—2

Personal! To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

GOOD ADVICE.—If our readers will accept proffered advice, they will always keep a bottle of Hagyard's Yellow Oil at hand for use in emergencies, such as Burns, Scalds, Wounds, Lameness, Croup, Chilblains, Rheumatism and all varieties of aches, pains and inflammations. It will ever be found reliable.

MR. THOMAS W. RACE, Editor and Proprietor of the Mitchell *Recorder*, writes that he had a prejudice against Patent Medicines, but being induced to try Burdock Blood Bitters, for Billiousness that occasioned such violent headache and distress as to often disable him from work. The medicine gave him relief, and he now speaks of it in the most favorable terms.

MURDEROUS ASSAULT.

Four Shots Fired and an Axe Used—No One Killed.

The Township of Madoc is not without a record in criminal matters, and during last month another chapter was added to the long list of murderous assaults which have taken place there within the last quarter of a century. The facts are these:—A man named Jarvis and another named F. Cooper have been in dispute for some time over a quantity of timber—each of them claiming to be the proper owner—but on the 15th of December the ill-feeling which has existed for some time between these parties resulted in a desperate attack being made by Cooper and the woman with whom he boards upon Jarvis and his son. Cooper armed himself with an axe and Ann Rogers took a revolver and started for the woods, where Jarvis was cutting the timber. Cooper ordered Jarvis away, but he refused, whereupon Mrs. Rogers fired two shots at him, neither of which, fortunately, took effect. She then leveled the pistol on Jarvis' son and fired at him twice, but owing to her limited experience in using the weapon, she failed to carry out the purpose a second time. Cooper then sprang forward and attempted to kill Jarvis by striking him on the head with an axe. Jarvis was sitting straddle of a large tree, and as Cooper swung the axe he threw back his head, and the axe was buried in the tree between his legs. Seeing that his father was likely to be killed in the fracas, young Jarvis started off for assistance, and returned in a short time with a neighboring farmer, who frightened the desperate couple away.

Cooper and his paramour were arrested and brought before A. F. Wood, J.P., who committed them to gaol. [illegible] Judge [illegible] sentenced Cooper to [illegible] in the Central Prison and the [illegible] in the County Gaol.—*Belleville Ontario.*

WINNIPEG'S DEVELOPMENT.

The Winnipeg *Sun* of a recent date gives a detailed statement of Winnipeg's growth in 1882. From that statement we learn that the imports—that is the imports from Great Britain and foreign countries, have increased from $2,887,451 in 1881 to $6,222,928 in 1882. The imports from the eastern provinces have run up to $12,000,000, making a showing of interprovincial trade which illustrates the great value of the Northwest to the older provinces. The exports are as yet confined to furs, and amount to about half a million. But next year this will be all changed, and the export of wheat and flour will be large. The inland revenue has increased from $131,869 to $185,276. The transactions in real estate have amounted to between ten and twelve millions of dollars, one firm of real estate agents having invested, on account of English investors, no less than a quarter of a million of dollars. The building operations during the year have reached the large figure of $4,447,712. The postoffice figures are simply marvellous. The amount of money orders paid reached $550,000, against $215,213 in Toronto and $183,651 in Montreal, while the postoffice has reached the position of third in the Dominion in point of revenue, the sale of stamps amounted to $70,000, against $53,139 in Hamilton, which comes next. No less than 44,000 immigrants arrived during the season, bringing with them, it is estimated, not less than $10,000,000; and the picture drawn by the late Lord Beaconsfield is beginning to be in some measure realized, no less than 8500 citizens of the United States having settled in Manitoba and the Northwest. The population of the city has increased form 9000 in 1881 to 25,000 at the close of 1882; the assessed value of property has increased from nine millions to thirty millions of dollars, and it is estimated that next year it will run up to forty-five millions. The deposits in the government savings banks increased from $510,129 in 1881 to $1,018,051 in 1882. In fact, in every department there has been an expansion such as no one could have anticipated, at least within so short a period, for the rapid growth may be said to have taken its start only within the last two year.

Why Trollope Killed Mrs. Proudie.

The following is an incident of Anthony Trollope's life:—He was in the small coffee-room of a wayside inn warming his back at the fire, after the manner of Englishmen. Two youths of the true novel-reading age were seated at an adjacent table discussing mutton chops, but still more eagerly discussing the merits of Trollope's novels of the Barsetshire period. Their summing up was decidedly favorable and eulogistic, save on one point. They both agreed in declaring themselves heartily sick and tired "of that eternal Mrs. Proudie." At this juncture, with a gesture of his arm, Anthony Trollope interrupted by saying, "Gentlemen, I happen to be the author of these novels, and I have overheard all you have said, and now I'll tell you what I'll do—I'll go home and *kill Mrs. Proudie!*" And he was as good as his word, for in the very next number of "The Last Chronicles of Barset" she died suddenly in a fit of apoplexy.

LITTLE BY LITTLE.—The constant dropping of water will wear away even the hardest stone. So the constant irritation of a cough will so wear upon the lungs as to induce incurable Consumption. Hagyard's Pectoral Balsam will cure the worst cough, speedily and effectually.

A YOUNG student named Roderic Mignon was arrested at Montreal on Sunday with a body which had been stolen from the cemetery at Actonvale in his possession. The student admitted having stolen the body, and was on the way to Bishop's College when captured.

FORTUNATELY Valvular disease of the heart is not very common, its disturbed action may be due to indigestion, liver irregularities &c. A Stomach disturbed with wind, or indigestable food will cause pain and fluttering by crowding on the nerves of the heart. Burdock Blood Bitters will speedily remedy all such difficulties.

THE United States Department of State has been appealed to as to the protection which will be afforded German-American citizens who refuse to obey the call of the German Government to return and perform military duty. German residents of the United States are much agitated upon the subject.

NEGOTIATIONS are in progress with a view of starting a woollen factory at Sarnia. It is proposed to give Mr. Buguey, Patter Hill, R. I., a bonus of $10,000 should he start a factory stocked at $100,000 and employing 150 hands, or a bonus of $20,000 if the stock were $200,000 and employing 200 hands.

DO YOUR CHILDREN have fits or convulsions, grind their teeth, pick their nose, have a bad breath, or a changeable appetite? Are they restless or feverish at night? If so, ask your druggist for Dr. Smith's German Worm Remedy (take no other), it only costs 25 cents. Is simple safe, and pleasant to take. If there are no worms, to remove the slime and bile that breeds them, tones up the system, and will save many a doctor's bill. A word to the wise, etc. Thousands of testimonials.

THE cause of death. It is known almost to a certainty that in fatal diseases the individual dies either by the brain, heart or lungs. How wise then is the effort to maintain a perfect state of health? Dr. Carson's Stomach and Constipation Bitters are a veritable "Health Giver." They free the system from all impurities; cure Billiousness, Dyspepsia, and all diseases of the Stomach, Liver or Bowels. In large bottles at 50 cents. Sold by all Druggists.

WOOD OR IRON.

The Montreal *Gazette* says:—The great fire which did so much damage in London on the morning of the 8th instant brought out a fact with regard to the use of iron girders in buildings which is worth reproducing. Speaking of the heat evolved by the rapid combustion of the highly inflammable materials which fed the fire, the London *Daily Telegraph* says:—"It is of interest to note the effects of intense heat like this on different constructive substances. There has been a tendency of late years to trust to iron, but yesterday's test was altogether unfavourable to this substitute for wood. An experienced officer of the Fire Brigade remarked: "Whenever we know there are iron girders and pillars, we give them a wide berth. They expand so much that you can never be certain of them. Take a floor resting on wooden beams—say, twelve inches by eight. It will burn for hours without giving way, and will not swell at all nor displace any part near it. Not so with iron; it soon becomes red hot, expands with terrific force, and, as I think, does more harm than good." This view was confirmed by the fact that buildings like the Curriers' Hall, the rear walls of which were subjected to a terrible scorching, escaped with little damage, while in no case did the iron partition seem to be of avail. Mr. Simon, the second officer of Captain Shaw, * * was directing operations on the top floor of the warehouse of Messrs. Rylands on London-wall. The roof was ignited, but the firemen were gaining upon it. Between the upper storey and the next building there was the protection of a stout wall, the only communication being barred by an iron door. Presently the door was red-hot, then it burst in through the resistance of the walls to its own expansion, and in a few seconds the whole of the floor was ablaze, the Brigade with difficulty effecting their retreat." Such experience is strong confirmation of the view expressed above.

Woman's True Friend.

A friend in need is a friend indeed. This none can deny, especially when assistance is rendered when one is sorely afflicted with disease, more particular by those complaints and weaknesses so common to our female population. Every woman should know that Electric Bitters are woman's true friend, and will positively restore her to health, even when all other remedies fail. A single trial always proves our assertion. They are pleasant to the taste, and only cost fifty cents a bottle. Sold by all druggists.—2.

IT made me feel like a "Band of Music," was the rather forcible expression of an individual who was praising "Pectoria," the great remedy for Coughs and Colds, Hoarseness, Asthma, Bronchitis. SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferers for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcule which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar to itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly affected with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.) THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, billiousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine. Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

THE

PACIFIC NORTHWEST!

Oregon, Washington, and Idaho.

Offers the best field for emigrants—viz.: a mild, equable, and healthy climate; cheap lands of great fertility, producing all varieties of Grain, Fruit, and Grasses in wonderful abundance; an inexhaustible supply of Timber; vast Coal Fields, and other mineral deposits; cheap and quick transportation by railroads and river navigation; direct commerce with all parts of the world, owing to its proximity to the Pacific Ocean.

NO DROUTHS, NO INSECT PESTS, NO HURRICANES, WHIRLWINDS, OR OTHER DESTRUCTIVE PHENOMENA.

The lands of the Pacific Northwest show an average yield of wheat per acre largely in excess of that of any other section of the United States.

No failure of crops has ever occurred.

Oregon wheat commands a higher price than that of any other country in the Liverpool market.

An immense area of very fertile Railroad and Government Lands, within easy reach of the trunk lines of the Northern Pacific R.R., the Oregon Railway & Navigation, and the Oregon & California RR. Co's and their numerous branches, in the great Valleys of the Columbia and its tributaries, are now offered for sale at Low Prices, and on Easy Terms, or open to pre-emption and Homestead Entry.

The great movement of population to the Columbia region now in progress will be enormously increased by the completion of the Northern Pacific RR. and the Oregon Railway and Navigation Co's systems. This renders certain a rapid increase in the value of Lands now open to purchase or to entry under the United States Land Laws.

Council Meeting

A meeting of the Town Council is called for Friday evening next.

Port Hope Assembly.

The fourth of the series of Port Hope assemblies will be held on the 10th of January, in the Music Hall of that town. The music is to be furnished by the Italian Orchestra of Toronto.

Social To-night.

A social will be held in the Lecture Room of the George Street Methodist Church to-night at 7 p. m. The programme will consist of readings, music, &c., with tea. Admission 10cts.

You're Right They Do.

The Port Hope *Times*, the "local" of which heard the band on the night of the carnival, says:—

> "Peterborough band have purchased new instruments at a cost, we understand, of $700. Peterborough band furnished good music."

Letters Patent Applied For.

The Saskatchewan Mining and Gold Dredging Company have applied for letters patent of incorporation. The promoters, whose names include several former residents of Peterborough, are Messrs. Horace McDougall, John Stronach, William Walter Mowat, Frank Graham Walsh, Tom Waldermere Goulding, Peter D. McDonell, telegraphers; James F. Munsie and Charles Walsh, contractors; George Wood, accountant; George Mitchell, builder; George Porter, tinsmith; Walter Walsh, gentleman, and Alex. Haggart, barrister, all of Winnipeg; and Duncan McDonnell, farmer, of Big Plains, and John Winfield Scott, farmer, of Fort Pelly.

Insurance Company's Calendar.

We have received from Mr. W. H. Cluxton, the calendar of the London and Lancashire Fire Insurance Company, the card being very handsome, and artistically ornamented with appropriate designs. Besides representing this leading Company in Peterborough, Mr. Cluxton is also agent for the London, Liverpool and Globe Fire and Life, the London Assurance Corporation, the Commercial Union Assurance Co., the British American Assurance Co., the Hartford Fire Insurance Co., the Anchor Marine Insurance Co., the Canada Guarantee Co., of North America, and the "Lloyds" Plate Glass Insurance Company. It will thus be seen that as agent for first class companies Mr. Cluxton can supply the requirements if those who wish to make provision for the results of death or accident, fire on land or storms at sea, defaulting employees, or even the breakage of a plate glass window.

The Construction of the Sault Ste. Marie Assured—The Midland and the West.

The early commencement of work on the Ontario and Sault Ste. Marie Railway is now so fully assured that it is the intention of the Midland Railway Company to take immediate steps to ensure an extension of their line to Gravenhurst, either by the construction of an independent road from Atherly, a station on their line distant from Gravenhurst twenty-four miles, or by the exercise of the running powers over the Northern Railway, between Orillia and Gravenhurst, to which they are entitled under an Act of the Dominion Parliament, 30 Victoria, Chap. 65.

The importance of this connection to the Midland Railway can scarcely be over-estimated, and we may rest assured that no effort will be spared to secure it without delay.

The Cells.

The "cooler" was empty last night—no prisoners and no tramps—and there was a blank at the Police Court this morning.

Sale of Periodicals.

The annual sale of periodicals, illustrated papers, magazines, &c., took place at the rooms of the Mechanics' Institute on Monday evening and passed off very satisfactorily.

New Woollen Factory.

The frame work of the new woollen factory, which is being erected by Mr. T. G. Hazlitt for Mr. E. B. Wilson, has been raised, and the construction of the building is progressing favorably.

Personal.

We are pleased to see that Councillor Henry Denne has so far recovered from a severe sickness of four week's duration as to be again able to be about in the streets. He was re-elected to the Council from the Fourth Ward while he was suffering from disease and unable to be out.

The Weather.

The weather this morning was cold, and continues cool and cloudy. The weather probabilities for this district for the following 24 hours, as reported from Toronto at 1 a. m. to-day, by the Great Northwestern Telegraph Company, are as follows:—West to south winds; fair weather; not much change in temperature to-day; milder to-morrow.

A Slight Accident.

As a man was driving across the railway crossing on Charlotte street this forenoon the foremost "bob" of the sleigh caught in the track, and the draw-bolt coming out, detached the front part of the sleigh from the hind "bob." The frightened horses sprang forward, and the driver was jerked off the sleigh, but the horses were held and soon brought to a standstill.

Oyster Supper.

On Monday night the members of the Fire Brigade Band and their ladies, together with other invited guest, were entertained by Mr. Enos Dunford to an oyster supper at his residence. The evening was spent in singing, and other amusements. Those present all expressed themselves well pleased with the manner in which Mr. and Mrs. Dunford entertained them.

Tea Meeting.

The annual tea-meeting, held in connection with the celebration of the sixth anniversary of the dedication of the George Street Methodist Church, took place on Monday evening. The attendance was hardly as large as it should have been, considering the character of the occasion. However, those present enjoyed themselves sociably at the tea, which was served in the lecture room, and was of the usual excellence. After refreshing themselves by partaking of the good things provided, the assemblage gathered in the church, where the intellectual portion of the programme was rendered. After devotional exercises and music by the choir, Mr. J. W. Flavelle read the Treasurer's annual report. This showed that the income during the year was in excess of the expenditures, and the indebtedness of the church was reduced by $915.97. Since 1880 the debt on the church has been reduced to the extent of $9,500. The liabilities at present amount to $17,126.01, less $992.34 assets, leaving the actual indebtedness of the church $16,153.67. This report proved the finances of the church to be in a very satisfactory condition, and was an evidence of the carefulness and economy of the officials of the church. By continuing the present steady reduction in the debt, the church will soon be relieved of all incumbrances. After the reading of the report, addresses, instructive and entertaining, were delivered by the Rev. Mr. McAmmond and the Rev. Dr. Stone. The music provided by the choir was well selected and rendered, and the solos by Mrs. Chambers were exceedingly well received.

This explains why more than a Million Bottles were sold the past year. It relieves Croup, and Whooping Cough, at once. Mothers do not be without it. For sale by J D. Tully.

THE LEGITIMISTS AND CANADA.

Probable Removal of Old French Families to Canada.

The friends of Mr. Senecal are confident that his colonization scheme will turn out a gigantic success. Said a warm friend and supporter of that gentleman to a *Star* reporter:—"This is no speculative concern, but is supported by some of the oldest and most wealthy families of France. During Mr. Senecal's visit to Paris he was in conference with the old Legitimist party, many of whom are of the opinion that France is on the brink of another great political reaction which might again cause all kinds of disorder, followed by a financial crisis. The failure of the Union Generale had also, he said, greatly shaken the confidence of the party in French institutions, whilst they believed that Canada presented a magnificent field for the investment of their funds. These are the men who are going to take stock in the company, and it is, in fact, merely a continuation of the outcome of a scheme originated by the late Consul-General, M. Lefebvre, when he was in Canada, who had almost succeeded in getting a large number of French capitalists belonging to the Legitimist party to invest their money in Canada, and more especially in the Province of Quebec. This party includes a large number of people who are not engaged in any business or profession, who have barely sufficient income to live on in France, but who in this country would be considered rich. These men are highly prepossessed with this Province, not only for investments but also as a home, where they will find that the traditions of the old Legitimist party are nurtured and respected."

ENNISMORE.

From Our Own Correspondent.

THE WEATHER.—Old December has come to a natural death and in its demise closed the year of 1882, sweeping millions from time into eternity, as revolving years have done in the past and will ever do in the future, and no doubt e'er this is in type will have again summoned those who shall lead the van in departing millions for 1883. The month to which we now bid farewell might well be styled a month of storms, snow falling on 21 days to the depth of 19½ inches and rain on 4 days to the depth 67-100, with white fog on two days. The highest temperature reached was on the 22nd at sun down, namely 37° above zero. Five times has it been below zero, on the night of the 4th at 9 o'clock p. m. 8°, on the morning of the 12th 9° below, at sunrise on the 15th at 7°, on the 16th again 3° and on the morning of the 19th, although there was a white frost and thick fog, the thermometer dropped to 15° below zero, being as yet the coldest of the winter, making a total average for the month of 18° above, while the corresponding month of 1881 averaged 28° 19-31. Sleighing has continued good since the commencement, and although there has been unprecedentedly deep snow, the roads have not been so badly drifted as in other years with half the amount.

Dyspepsia and Liver Complaint.

Is it not worth the small price of 75 cents to free yourself of every symptom of these distressing complaints, if you think so call at our store and get a bottle of Shiloh's Vitalizer, every bottle has a printed guarantee on it, use accordingly and if it does you no good it will cost you nothing. For sale by J. D. Tully.

WE have a speedy and positive Cure, for Catarrh, Diphtheria, Canker mouth and Head Ache, in Shiloh's Catarrh Remedy. A nasal Injector free with each bottle. Use it if you desire health and sweet breath. For sale by J. D. Tully.

WITH every bottle of Dr. Carson's Pulmonary Cough Drops, a sample bottle is given free of charge. If, after using the trial bottle, you are not satisfied with its effect, you can return the large bottle to your dealer, who will refund the money. Thousands can testify to its prompt action in curing Coughs, Colds, Bronchitis etc. If you suffer, try them. Price 50 cents. Sold by all Druggists.

It always gives us pleasure to draw attention to articles which are deserving of public patronage. Probably no article ever offered to the public has met with the same success as Gray's Syrup of Red Spruce Gum. Thousands of families in the Dominion keep it in their homes as the standard Cough Remedy. The sale of this article has assumed enormous proportions. Our advice to the public at large is to try its virtues if they should at any time unfortunately contract either Coughs or Colds. It is sold by all chemists.

EAST PETERBOROUGH.

AT the Conservative Convention at Norwood, held to choose a candidate for the East Riding of Peterborough, Mr. Geo. Read received the unanimous nomination of a very full representative meeting. We congratulate our friends in the East Riding on their excellent choice.

INSULTING THE QUEEN.

MR. W. KERR, Q. C., of Cobourg, told the Reform Convention that the Dominion Government, by thwarting the Ontario Government in the matter of the Boundary Award, "insulted Her Gracious Majesty the Queen herself." It is a strange way of insulting the Queen, to carry a matter to the foot of her throne. Mr. Kerr, Q. C., as an experienced advocate, should have known better than to introduce a subject so unpleasant to his leader, Mr. Mowat, who really did "insult Her Gracious Majesty the Queen herself" by throwing in "Her Gracious Majesty's" face her award, which had been invited by Parliament, as to the capital of our Dominion, and who took office for the first time in consequence of his insulting and disloyal vote.

THE MERCER ESCHEAT CASE.

The London *Advertiser* says:—

"The Supreme Court reversed the decision of our Court of Appeals in the Mercer escheat case, and the Queen, upon the advice of the Judicial Committee, reversed the decision, and upheld the view of the Court of Appeals."

Not only is it not true that the decision of the Supreme Court in the case referred to has been reversed, but the appeal to the Privy Council has not yet even been heard. When it is heard and determined, it is not unlikely that Mr. Mowat may have to make summary restitution to the heirs of the property which he was in so great a hurray to confiscate. It is one thing to gobble up the estate, but what excuse will Mowat have to the electors, if he should have to refund every dollar, after having saddled the Province with about $100,000 of expenditure on account of it.—*London Free Press.*

He Kissed her on the Ear.

A pretty girl presented herself the other day at a clinic in one of the hospitals of Vienna and asked to be examined, explaining that she had suddenly become deaf in one ear, and none of her friends could account for the unexpected affliction. Professor Grubber kindly replied that he would see what he could do, and accordingly began to question her as to the circumstances immediately attending the appearance of her deafness. After much hesitation and with many blushes, or rather one prolonged blush, the girl at last confessed that when her lover returned after a prolonged absence he took her in his arms, and pressing his mouth to her ear, conferred upon that organ a most intense and vigorous kiss. At that instant she felt a sharp pain, and had been deaf ever since. The professor made an examination and found that the drum of the ear had actually been ruptured, and there is no reason to doubt that the kiss did it. The only consolation suggested after recording this painful accident is that it need never be repeated, if ardent lovers will only remember that a kind Providence has provided a feature far more kissable than the ear, and one which no amount of osculatory demonstration has ever been known to injure.—*Ex.*

AMERICAN.

THE SCOVILLES DIVORCED.

CHICAGO, Jan. 10.—Judge Moran has granted Mrs. Scoville a divorce from her husband.

TENNESSEE'S TREASURER.

LAREDO, Texas, Jan. 10.—Treasurer Polk, after he was arrested at San Antonio by Detective Price, was liberated for something over $50,000. When re-arrested at Webb station, Polk was at first disposed to fight. He afterwards offered Marshall Sheely $5,000 to release him. He has very little money with him. It is reported that his nephew and servant crossed into Mexico with a large amount. Polk appears much distressed over the situation. He was released by Detective Cameron, whom he bribed to pilot him out of the country. They left the train on Sunday night at Webb station and walked twenty miles after a horse, Polk lying out in the brush. When captured, Polk's hands and clothing were filled with prickly pear thorns, which he got from wandering in a thicket. Cameron was also arrested. He protested, and said he made a good thing out of the business and could put officer Sheely in a way to realize a few thousands. Sheely denounced him for the insulting proposition, and will use these confessions against Cameron.

A FALSE CONFESSION.

NEW YORK, Jan. 10.—There is strong evidence that a portion of O'Donnell's narrative about the murder of Lord Frederick Cavendish and Mr. Burke, which relates to his arrival and movements here, is untrue. The steamship California was not plying between Europe and this country in May, 1882. It is asserted that no man answering to his description was at the house where he said he stayed in May. Mr. Gallagher, President of the Bland Central Parnell Land League, says there is no truth in the alleged confessions of O'Donnell. A member of the Fenian brotherhood who is in a position to know whereof he speaks, told him that the crime was not committed by any member of the organization. Dr. Burke, brother of the murdered man, also says there is no reliance to be placed in the statement of O'Donnell.

A HOLOCAUST.

MILWAUKEE, Jan. 10.—About three o'clock this morning a fire occurred in the Newhall House, which spread with such rapidity that but few inmates escaped. It is reported that nearly one hundred lives were lost, fifty bodies, mostly of women, already having been found. The majority were killed jumping from the upper windows, the fire having cut off all means of escape. The fire is still raging, but is under control.

A RECIPROCITY TREATY.

NEW YORK, Jan. 10.—The *World's* Washington despatch says that it is stated that Grant says he came here with plans for a reciprocity treaty with Mexico, prepared by himself. They had been submitted to his associates on the commission and approved, and now they awaited only ratification by the two Governments to constitute a treaty.

A FATAL MISTAKE.

BALTIMORE, Jan. 10.—A policeman here suffering from cramps entered a drug store for whiskey. The clerk gave him aconite by mistake, and the officer soon expired.

A FORGER'S END.

PHILADELPHIA, Jan. 10.—It is believed that Donald Peddie, aged 74, who was guilty of several heavy forgeries in Edinburgh, Scotland, including one for £22,000 on a church corporation was buried here two months ago in the potters' field under the name of John North.

HEAVY SNOW STORM.

FREDERICKSBURG, Va., Jan. 10.—A snow storm prevailed for twenty-four hours. There are deep drifts. The trains are obstructed in all directions.

FATAL BOILER EXPLOSION.

BETHLEHEM, Pa., Jan. 9.—A boiler explosion occurred in the blast furnace of the Bethlehem Iron Company this afternoon, and four men and a woman were killed and several others seriously injured. Ten boilers were located over the engine house, at an elevation of 25 feet. Two of the largest exploded with terrific force, wrecking the interior of the engine house, and demolishing nearly half the pattern shop adjoining. One of the boilers was carried through the ventilators, broke through the roof of the old mill, and fell to the ground. Only three boilers were left in position.

HELP FOR MILWAUKEE.

CHICAGO, Jan. 10.—During the fire in Milwaukee the severe cold hampered the firemen and caused them great suffering. Three steamers went from Chicago in response to a call from the Mayor. The train went to Milwaukee in a little over an hour. It is reported that the Minnie Palmer troop, which was at the new hall house, was lost, but this is not confirmed.

THE MILWAUKEE FIRE.

MILWAUKEE, Jan. 10.—The Newhall House was a six story building. The fire was discovered at 4 a. m. In less than half an hour the whole building, which had long been designated as a death trap, was enveloped in flames. Scenes of the utmost terror prevailed. The inmates jumped by dozens from the upper stories, covering the stone sidewalks with lifeless bodies. The shrieks of the unfortunates filled the air. The people below were unable to render any aid. A number of terrified guests and employees of the hotel appeared at the windows, and seeing the distance to the ground fell back to perish in the flames. The employees of the hotel, which accommodated 800 guests, numbered 86, and mostly lodged in the sixth story. The exit by the way of the roof was cut off by the fire, and two stand pipes with fire ladders were not available for some reason. Very few were saved by jumping on the canvass. The stores and offices on the ground floor were destroyed. A number of wholesale and other establishments on Water street were damaged by the fire and the falling walls of the building. The insurance on the hotel was $525,000; the loss will reach half a million. The hotel register was burned. The exact loss of life is not determined, but will reach from fifty to sixty. From twenty-five to thirty are wounded.

A Vexed Clergyman.

Even the patience of Job would become exhausted were he a preacher and endeavoring to interest his audience while they were keeping up an incessant coughing, making it impossable for him to be heard. Yet, how very easy can all this be avoided by simply using Dr. King's New Discovery for Consumption, Coughs and Colds. Trial Bottle given away at Taylor & Macdonald's Drug Store.—2.

PROF. PALMER'S MURDER.

CAIRO, Jan. 9.—The evidence shows completely that the murder of Prof. Palmer and his party was committed by order of the Governor of Nahil, a sympathizer with Arabi. He is a prisoner at Suez.

IRISH PROSECUTIONS.

DUBLIN, Jan. 9.—Messrs. Healey, Davitt, and Quinn have been notified of the renewals of the State prosecutions against them.

LEAGUE MEETING PROCLAIMED.

SLIGO, Jan. 9.—A meeting announced to be held at Cloffoney, under the auspices of Messrs. Sexton and Healey, has been proclaimed, and a large force of police drafted into the district.

INTIMIDATION.

CORK, Jan. 9.—John O'Brien, charged with using intimidating language against the landlords while establishing a branch Irish League, has been convicted, and sentenced to two months. The ex-suspects Hodnett and Gilhooly, arraigned on the same charge, were also convicted and sentenced, the former to two, and the latter to three months.

BOERS DEFEATED.

DURBAN, Jan. 9.—A battle occurred to-day between the Boers and Mapoch. The former were driven back.

A DYKE BROKE.

VIENNA, Jan. 9.—The dyke at Raab broke this afternoon, and the water ploughed up the cemetery; coffins and human remains are drifting with the current.

BRITISH TRANSPORT WRECKED.

PANAMA, Jan. 2.—The transport steamer Bolivar, with troops from England, struck on the south-east coast of Barbadoes on the 12th of December, and will probably become a total wreck. The troops and families were safely landed. One sailor was drowned.

RIOTS AT ASPINWALL.

PANAMA, Dec. 30.—At Aspinwall on the 24th inst. some Jamaicans attempted to go on the wharf to meet countrymen arriving on the steamer. The dock guard refusing to admit them, were attacked by a mob. One guard was killed and another wounded. The police were called out armed with rifles, and are said to have shot right and left at every group of Jamaicans they saw in the street. Several of the latter were wounded, and two were killed. Some have probably since died. The Colombian guard disarmed the police and dispersed the Jamaicans.

THE HAWKESBURY MURDER.

Arrival of Surviving Sons From Manitoba—A Heartrending Scene.

MONTREAL, Jan. 9.—(*Special*).—The Little Rideau tragedy will excite new interest, as to-morrow the funeral of the victims is to be held. It appears that Mann takes matters very coolly and reads the newspapers and periodicals to pass the time. He still avoids the topic of the tragedy, though he reads all that is said about it in the newspapers. He will not have any religious advice, and sticks to his free thinking ideas. He denies the story of the Montreal doctor concerning the attempt to poison the latter's family, and said he had not remained long enough in Montreal to poison a cat. The stories of attempts at lynching are easily disproved by the fact that Mr. Nelson is the only official in charge of the gaol, and he could easily have been overpowered had there been any desire to lynch the prisoner. Mann is described by the family as always having been willing but not able to work much at farm work. The carelessness already alluded to as shown by the constables in not pursuing the murderer the day he committed the horrible crime is also being freely discussed, both here and throughout the country. The two constables—one from L'Orignal and the other from Lachute—were called into requisition as soon as possible, and both are said to have returned to their respective homes the evening of the murder, when they should have followed up the murderer. A farmer, Mr. Nicholls, gave information at Lachute that two suspicious individuals had slept at his house on the night after the murder was committed. Mr. Nicholls was so certain that he was harboring suspicious characters that he kept a strict watch upon them all night, and both he and his wife were so uneasy after he had consented to allow them to remain, that they could not sleep. They had heard of the horrible murder of the Cooke family, but they never for a moment thought that the diminutive-looking lad, Mann, who had sought shelter from them could murder four persons. The two absent members of the Cooke family arrived at Little Rideau this morning, from Winnipeg, being about six days on the journey. The scene was heartrending. Not only were the relatives bowed down with grief, but all who were eyewitness felt overcome. The sisters who defended their brothers so bravely, and the young man who is so dangerously wounded bore up wonderfully. Afterwards the family met to consider where the remains of the four murdered ones would be interred, and all agreed upon placing them close to the family residence until they become sufficiently decomposed to remove them to the cemetery, within about a mile of Hawkesbury village. This is to protect their remains from body-snatchers.—*Globe.*

THE DIFFERENCE.

BECAUSE we innocently remarked in speaking of the vacant Registrarship that it would, of course, be given to a "good Reformer," the Cobourg *World* waxes wrath, and for a column or so scolds us, Sir John Macdonald and the Conservative party in general. At first sight we were surprised that our assertion of so mere a truism should have caused such dreadful ire. But according to the French proverb, "*Qui s'excuse s'accuse*," and our contemporary, by its wild excuses, suggests an accusation against its party which was not in our thoughts at the moment, but which from its unwelcome truth was rankling in the minds of this injudicious advocate.

Though it is the custom in Canada, to state it broadly, for the administration of the day to distribute official patronage to its political friends, yet there is a marked difference between the two parties in this respect.

Sir John Macdonald and his colleagues being firmly seated in office by the repeated choice of the people of Canada, and having every prospect of a long enjoyment of power with its attendant patronage, could hardly have been blamed if they had preserved for themselves the power of appointment to vacant positions in the public service and of promotion within it. They have, however, been self-denying enough to pass, in the interest of the country, a Civil Service bill which has greatly reduced the value of their patronage. Examinations that are already being carried on, are now necessary both in the case of first appointments and of subsequent promotions, thus tying the hands of the executive to a considerable extent. Not only so, but it is the first step, as in the mother country, by which the total abrogation of executive patronage in the public service will be reached in Canada, as it was in the United Kingdom. It will be remembered that Mr. Mackenzie, Mr. Blake and their colleagues, though they clamored for such a reform while in opposition, not only neglected to carry it out while in office, but even showed the cold shoulders to zealous Reformers like Mr. Casey when they urged such a change.

So in the case of Mr. Mowat and his colleagues, far from showing any inclination to divest themselves of patronage, they have grasped at the power of appointment wherever possible, and have steadily usurped patronage from the municipalities, the county judges, sheriffs, &c. Their great object seems to be to fill every position in the public service with men whose political services they wish to reward for the past and to retain for the future, thus maintaining an army of political agents paid from the public funds and prostituting their official influence.

A WORD FOR RAILWAY MEN.

"Henry V. Poor, a recognized authority on railroad matters, declares that "moral" attributes have no more to do with railroad management than they have to do with the manufacture of pig iron. We suppose that is true, however lamentable the fact."—*Ex.*

We deny the statement and implication contained in this item, which is going the rounds of the press, with numerous variations and comments. Mr. Poor is not so far a "recognized authority on railway matters" as to be authorized to speak in this way for the characters and consciences of railway officers. We contradict emphatically the intimation that railway managers are destitute of "moral attributes in their official capacity." We know that the feeling of responsibility toward the public and toward their army of employees rests heavily upon the men in charge of our railways, and that their anxiety is to do justice both to the owners of the railways and to the people and the regions which they serve. We know that the moral, intellectual and physical welfare of their men occupies much of their earnest thought, partial evidence of which is seen in the numerous railway benevolent organizations, young men's Christian associations, reading rooms, social and religious meetings, and other measures in which they heartily co-operate. Railway officers are fully as public-spirited, as kind-hearted, as liberal-minded and as susceptible to moral influences as other men, and flippant intimations that they are without feelings or consciences deserve rebuke.—*Railway Age.*

COUNCIL MEETING.

The last meeting of the old Council of Lakefield was held in the Council Room on Monday evening last, the 8th January. Members present—Mr. R. C. Strickland, Reeve, in the chair, and Messrs. Wm. Cox, John Hall, and John H. McWilliams, Councillors. The minutes of former meeting were read and confirmed. Mr. Chapin, the village Constable, applied to the Council for a revolver and a set of hand-cuffs. Laid over for consideration at next meeting of Council. Reeve to enquire about the matter in the meantime.

Moved by Councillor HALL, seconded by Councillor COX,—That the following accounts be paid, and that the Reeve's order do issue for the several accounts, viz :—

G. Duncan, Rent, Caretaking, &c., of the Council Room	$64.00
T. A. Gordon, Poll Clerk	2.00
Geo. McIlmoyl, salary as Health Inspector	3.00
John Cooper, Caretaker	1.75
W. C. Sanders bill	$48.52
Total	$119.27

PETITION.

It is alleged that parties have taken out license and are cutting the timber off the Islands in Stony Lake, and a petition has been in circulation and is being largely and influentially signed praying the Government to cancel the license and stop the cutting. All the timber that can be taken from those islands will not amount to much value, and it would be a pity to have those island spoiled. Success to the petition.

T. V. C.

Mr. Tait, with a number of men, are still busily engaged at the survey between Lakefield and Young's Point. Some of the party have reason, we understand, to complain of the ice being bad and the water very cold.

ARTISTIC.

We understand that Miss S. Tully, daughter of Kivas Tully, Esq., has gained two third prizes, popular and artistic, at the Christmas Card Competition, offered by the firm of Barber & Ellis, Toronto, open to Canadians residing in all parts of the world. The two first prizes have been taken by professional artists.

SOUTH MONAGHAN.

OBITUARY.—At a late hour of the night of Sunday, November 26th, the numerous friends of Jean Chisholm, the venerable relict of D. D. N. McLaurin, were, through painful necessity, called to witness the last moments of the deceased, and many were the tears which were shed over so highly an esteemed and respected resident. She having emigrated to Canada many years ago, from Roxborough, Scotland, her native home, and becoming married, settled down to a life of peace and pleasure. But alas! she was soon deprived of her kindest friend on earth, for after a short illness the kind husband and father breathed his last, and

Peacefully beneath the green grown sod,
  Lay one at rest, where worldly trials end,
An upright man who always feared his God,
  A husband kind, the great and poor man's friend.

And then beneath the coldness of the world,
  The widowed mother's hardships now appear,
And none to share with sorrow now unfurled,
  Each new born trial and the bitter tear.

And truly hers was a pitiful case, having been left to support five children, the eldest being only six years of age, but bravely she succeeded in overcoming all of life's various difficulties, and lived to see all of her children grow up to respect her in old age. The following stanzas are composed by her son, Mr. R. McLaurin, to the memory of the departed :—

Dear mother is gone, my only sweet treasure,
  My greatest of blessings and joy of my heart,
How oft have I lived with a loving child's pleasure,
  Much more since that moment so fatal did part.

That hour of darkness, that moment of sadness,
  I often recall with a heart-rending sigh,
But tears they can never restore joy and gladness,
  Though bitterly shed they uncomforting die.

Were it well we did part, were it well I should wander
  Through life all alone with no one to cheer me,
Of the future to think, and in silence to ponder,
  O'er bright happy moments which ever were near me.

Dear mother is gone, and her dear form is lying,
  Unconscious of trouble, from care ever free,
And I list to the song of the winter winds sighing,
  As if in compassion, and mourning for thee.

And I think of thy kindness, oh pure hearted creature,
  'Tis vain to attempt to express or define
All thy goodness and virtues in each glowing feature,
  'Twere wise e'en to think of such wisdom as thine.

YOUNG'S POINT.

From Our Own Correspondent.

TRENT VALLEY CANAL.—Mr. Tait and a staff of assistants were surveying here last week, in connection with the works of the Trent Valley Canal. The dam is going to be raised both here and at Lakefield to further assist the navigation. The sooner the better.

LIVE DEER.—Mr. Geo. Patterson, from Cardiff, passed through here last Friday, with three very fine tame fawns, alive, which were caught last fall. Mr. Ludgate, of Ashburnham, purchased them, to place in his park. It is to be hoped they won't share the fate of his last tame deer, which got out and wandered to Peterborough, and was hunted and killed by sportsmen (?) at the south end of the town, for wild deer.

BACK AGAIN.—Mr. P. Young, jr., has returned to his old post in Mr. Chalmer's saw-mill. Mr. Young is welcome back amongst us, being a good citizen.

GUITEAU'S PROPHECIES.

How the Utterances of the Crank are Being Fulfilled.

A correspondent of the Boston *Traveller* says :—The assassin, Guiteau, made some startling prophecies when in the flesh, and which are regarded merely as the ravings of a crank, but there are several startling coincidents, if you please to so term them, which are rather strange. For instance, Guiteau cursed District Attorney Corkhill. Mrs. Corkhill died after Guiteau's conviction, and the District-Attorney's name has been prominently mentioned for removal from his office. As one of the officers of the court which tried him, Marshal Henry, the bosom friend of the late President, came under the ban. Henry's official head has been chopped off, and Marshal McMichael intends to remove all his subordinates.

This will be another fulfilment of Guiteau's fierce cry that all connected with the court would suffer for his persecution. Then you may remember that he said that Dr. Grey, the leading expert, who testified against him, would have personal experience with a bullet. Grey was shot by one of his own patients. Dr. McDonald, of New York, who also testified against this fellow's claim to inspiration, has in a measure come to grief. Guiteau, in his frantic way, said that there were sane persons in the asylum over which he presides. Within the past few months several inmates have been released therefrom, and their sanity proved against the doctor's will and testimony. A sister of Mr. Bailey, the stenographer, who incurred the assassin's ill-will by going to the gaol with District-Attorney Corkhill and obtaining the confession under false pretences, died since the trial. Coming to the jurors the record is equally ominous.

The wife of one died during the trial. Another, who had a prosperous business, is reduced to the position of night watchman in the Metropolitan hotel in this city. Judge Porter, against whom Guiteau was intensely bitter, is in greatly reduced health. Then there are the Scovilles. Everyone knows the bitter curses which he piled upon them, and the facts of their family troubles are still fresh in the public mind. These are some of the prophecies which have been fulfilled to a certain extent. Of course there are many more which have not been felt yet, and in all probability never will be; but enough is shown to raise curiosity as to who will next feel the weight of the assassin's deep and bitter curses.

A Terrible Tragedy.

MONTREAL, Jan. 8.—Jacques le Canadien, a character well-known to sportsmen, was a blacksmith and a *voyageur* of La Torente. He attended fishing excursions, and had two sons, to one of whom he left his property. The other hearing he had been disinheirited, repaired to his father's house and upbraided him with the act. Words ran high, and the father proceeded to thrash the son. "Why have you robbed me and left all to a *canaille*?" demanded the son. "Why," replied Mr. Jacques in a paroxysm of rage, "why because I have two *canailles* of sons, it does not matter which I leave it to. You are just as"—The words died away on his lips, and Jacques fell dead in his wife's arms, while his son fled terror-stricken from the house. It was rumored at first that there had been murder done by the son, but syncope of the heart was the verdict of the coroner's jury.

MACFARLANE WILSON.

SOULLESS PRAYERS.

From the Hartford Times.

I do not like to hear him pray,
On bended knee about an hour,
For grace to spend aright the day,
Who knows his neighbor has no flour.

I'd rather see him go to mill
And buy the luckless brother bread,
And see his children eat their fill,
And laugh beneath their humble shed.

I do not like to hear him pray,
"Let blessings on the widow be,"
Who never seeks her home to say—
"If want o'ertakes you, come to me."

I hate the prayer so loud and long,
That's offered for the orphan's weal,
By him who sees him crushed by wrong,
And only with the lips doth feel.

I do not like to hear her pray,
With jewelled ear and silken dress,
Whose washerwoman toils all day,
And then is asked to work for less.

Such pious falsehoods I despise!
The folded hands, the face demure,
Of those with sanctimonious eyes,
Who steal the earnings of the poor.

Those sainted faces that they wear
To [illegible] and for the public eye,
Hide things that are not on the square,
And wickedness done on the sly.

I do not like such soulless prayers!
If wrong, I hope to be forgiven;
Such prayers no angel upward bears—
They're lost a million miles from heaven.

A CURIOUS DOCUMENT.

A Prisoner in Panama Writes from His Dungeon to Montreal Counsel.

A remarkable document has been received in this city. It is dated from "Panama Dungeon, Nov. 6th," and is addressed to Messrs. Stephens, B.C.L., Lighthall, B.A., B.C.L., Ruggles Church, Q.C., John S. Hall, jr., advocates, attorneys and barristers at law, Montreal. It begins:—"Sirs, I have the honor to here lay before the notice of you respectable gentlemen of whom I invoke your favorable kind attention to the contents of the following, and that you gentles may call the consideration of the same to my dear countrymen to the minute relief of one of theirs, if any to be found within the Canadian city, Montreal, who are now into a most critical position in the Dungeon of the city of Panama." The document is an exceedingly lengthy one, stating that the writer is a native of Barbadoes, a fellow-subject of her Britannic Majesty, in whose 3rd West India Regiment he had served, that he had gone from Barbadoes to work on the Panama Canal and was rapidly promoted until he came to be time-keeper at Emperator village. He says the men were dishonestly dealt with, and when any one complained that his time or pay was wrong he was put out by policemen kept for that purpose. He at last obtained his discharge, as he would not work where they treated men so. He opened a shop, but was soon after arrested and put in a dungeon in the city of Panama. It was three days before they would tell him what the charge against him was, and then they told him it was for stealing lumber from the canal company at Emperator. He tells how he has been left in this dungeon without a trial, and says a man's life is not of much value on the Isthmus. He tells of attempts that had been made on his life, and other outrages committed upon him. He says it is terrible "for one to enter the dungeon and see the natives, all half naked from the heat and stench of the place, together with the torment of their fellow-man's blood which they are guilty of, one would consider it actually a hell on earth. At night it is worse, with their groans and yells whilst asleep." The English is very strange indeed. He speaks of God as his only "consternation," and says he will look to him for "constellation." It is most grandiloquent in style. The letter was, on the whole, quite a surprise to the gentleman who received it.—*Montreal Witness.*

In the Carolina Sea-Islands.

One gentleman told me that several years ago he engaged in the enterprise of raising Irish potatoes for the Northern market. He employed a gang of twenty negro women to dig and gather the potatoes. He was called from the field to the gin-house to attend to some business. He was absent from the field for a couple of hours. On his return he passed through a patch of woods and stumbled over an apron filled with a bushel of select potatoes. He emptied the apron, and, calling to the line of women who were digging potatoes, he waved the garment aloft and asked who had lost her apron. All the women but one turned and shook their aprons at him. They jeered and taunted the theif for the rest of the day. That evening when they quit work the apronless woman stood under a tree until all the other women had left the field, every one of them taunting her as they passed. When they were all out of sight she walked up to the white man, humbly asked for her apron, and got it. Then she made the white man promise not to tell, not to betray her to the other negroes, and, on his passing his word to her, she showed him where the nineteen honest women had buried twenty bushels of potatoes while he was absent.

THE *Northwestern Lumberman* says:—A tall story is told of a woman of Arbela, Mich., who, it is said, has gone into the woods with her husband and done her half of the sawing, splitting, and piling four cords of wood in a day, and can keep it up for any length of time. She weighs 120 pounds, and is 38 years old, of English descent, and the strangest of all is she says she never saw a tired day in her life.

THE cause of death. It is known almost to a certainty that in fatal diseases the individual dies either by the brain, heart or lungs. How wise then is the effort to maintain a perfect state of health? Dr. Carson's Stomach and Constipation Bitters are a veritable "Health Giver." They free the system from all impurities; cure Billiousness, Dyspepsia, and all diseases of the Stomach, Liver or Bowels. In large bottles at 50 cents. Sold by all Druggists.

DO YOUR CHILDREN have fits or convulsions, grind their teeth, pick their nose, have a bad breath, or a changeable appetite? Are they restless or feverish at night? If so, ask your druggist for Dr. Smith's German Worm Remedy (take no other), it only costs 25 cents. Is simple safe, and pleasant to take. If there are no worms, to remove the slime and bile that breeds them, tones up the system, and will save many a doctor's bill. A word to the wise, etc. Thousands of testimonials.

VENERATION OF THE MONKEY.

Victor Jacquemont estimates that the Bengal presidence alone contains 1,600 monkey asylums, supported chiefly by the very poorest class of the population. In the rural districts of Nepaul the hanumans have their sacred groves, and keep together in troops of fifty or sixty adults, and, in spite of hard times, these associations multiply like the monastic orders of mediæval Europe; but they must all be provided for, though the natives should have to eke out their crops with the wild-rice of the Jumna swamp-judges. The strangest part of the superstition is that the charity results by no means from a feeling of benevolence toward animals in general, but from the exclusive veneration of a special sub-division of the monkey tribe. An orthodox Hindoo must not willingly take the life of the humblest fellow-creature, but he would not move a finger to save a starving dog, and he has no hesitation in stimulating a beast of burden with a dagger-like goad and other contrivances that would invoke the avenging powers of the Society for the Prevention of Cruelty to Animals. Nor would he shrink from extreme measures in defending his fields from the ravages of low-caste monkeys. Dr. Allen Mackenzie once saw a swarm of excited natives running toward an orchard where the shaking of the branches betrayed the presence of arboreal marauders. Some of them carried slings, others clubs and cane-spears. But soon they came back crest-fallen. "What's the matter?" inquired the Doctor; "did they get away from you?" "Kapa-Muni," was the laconic reply, "sacred monkeys." Holy baboons that must not be interrupted in their little pastimes. They had expected to find a troop of common makaques, wanderoos, or other profane four-handers, and returned on tip-toe, like Marryat's sergeant, who went to arrest an obstreperous drunkard, and recognized his commanding officer. Unarmed Europeans cannot afford to brave these prejudices. Capt. Elphingstone's gardener nearly lost his life for shooting a thievish hanuman; a mob of raging bigots chased him from street to street till he give them the slip in a Mohammedan suburb, where a sympathizing Unitarian helped him to escape through the back alleys. The interference of his countrymen would hardly have saved him, for the crowd increased from minute to minute, and even woman joined in the chase and threatened to cure his impiety with a turnip-masher.—*Popular Science Monthly.*

Decadence of Works of Fiction

The English novel seems at the present time to be entering upon a period of decadence. The number of novels written is as great as ever, and, to judge by the demand, the number of readers would seem to be increasing rather than diminishing. But, with very few exceptions, English novels present a spectacle of careless writing, insufficient preparation, and common-place ideas. There are few people who can write at all that suppose themselves incapable of writing a novel. And yet at the present moment there is no harder task. The old situations, the old parts are perilously familiar, and the work of the best foreign novelists is training us year by year to demand an increasing accuracy and subtlety of touch in those who would rise high in English novel-writing.—*London Times.*

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcule which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere, The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, billousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. THE

PACIFIC NORTHWEST!

Oregon, Washington, and Idaho.

Offers the best field for emigrants—viz.: a mild, equable, and healthy climate; cheap lands of great fertility, producing all varieties of Grain, Fruit, and Grasses in wonderful abundance; an inexhaustible supply of Timber; vast Coal Fields, and other mineral deposits; cheap and quick transportation by railroads and river navigation; direct commerce with all parts of the world, owing to its proximity to the Pacific Ocean.

NO DROUTHS, NO INSECT PESTS, NO HURRICANES, WHIRLWINDS, OR OTHER DESTRUCTIVE PHENOMENA.

The lands of the Pacific Northwest show an average yield of wheat per acre largely in excess of that of any other section of the United States.

No failure of crops has ever occurred.

Oregon wheat commands a higher price than that of any other country in the Liverpool market.

An immense area of very fertile Railroad and Government Lands, within easy reach of the trunk lines of the Northern Pacific R.R., the Oregon Railway & Navigation, and the Oregon & California RR. Co's and their numerous branches in the great Valleys of the Columbia and its tributaries, are now offered for sale at Low Prices, and on Easy Terms, or open to pre-emption and Homestead Entry.

The great movement of population to the Columbia region now in progress will be enormously increased by the completion of the Northern Pacific RR. and the Oregon Railway and Navigation Co's systems. This renders certain a rapid increase in the value of Lands now open to purchase or to entry under the United States Land Laws.

POLICE COURT.

VAGRANCY.

WEDNESDAY, Jan. 10.—Adam Dobbin, an old man, was charged with being idle and having no visable means of support. He said that he did not wish to go to gaol; but he forgot to state that he had asked the gaoler several times to admit him. He was committed for three months.

The Cells.

Three bankrupt pedestrians enjoyed the hospitality of the town last night, by lodging in the police cells, sharing them with one prisoner.

Social.

A social tea was held in the lecture room of the George Street Methodist Church on Tuesday evening, at which there was a fair attendance, and a very pleasant time was enjoyed.

Election of officers.

On Tuesday evening, at a meeting of the Orange District Lodge of Peterborough, the following officers were elected for the present year:—

Bro. T. M. D. Croly, 80	W. D. M.
" Wm. King, 457	D. D. M.
" J. K. Campbell, 457	Chap.
" John Sharper, 80	Sec.
" H. Nesbitt, 49	Treas.
" G. W. Hall, 49	D. of C.
" T. Brown, 80	Tyler.
" John Smith, 80	P. D. M.

Bros. T. M. D. Croly and John Smith were appointed representatives to the Grand Lodge.

The Weather.

Although "probs" predicted a change of weather yesterday, we have not at the time of writing experienced any decided change. Last night and this morning were very cold. Again we are promised milder weather with higher temperature in to-day's "probs," and if it comes it will be a very welcome change from the bitter cold of the past few days. The weather probabilities for this district for the following 24 hours, as reported from Toronto at 1 a. m. to-day, by the Great Northwestern Telegraph Company, are as follows:—Strong winds and gales; generally cloudy weather with snow arers; higher temperature.

THE BANK OF TORONTO.

The New Premises Occupied by it—A Well Finished Office.

The Bank of Toronto, as we noticed a few days ago, has removed from their former premises to the office fitted up for it in Cox's Block. The present premises were formerly occupied by Messrs. W. W. Johnston & Co., and are next to the office of the Great Northwestern Telegraph Company.

The plans of the new office were drawn by Mr. John E. Belcher, architect, the carpentering was superintended by Mr. Jas. McClennan, and the remainder of the work was done by Mr. A. Comstock. The shelving, counters, &c., which had been used when the building was occupied as a store, were removed. A private office for the manager of the Bank, Mr. Roper, was fitted up at the front of the office, just at the right of the entrance door. A stairway was put in at the rear, and in the second story two rooms were prepared for the accomodation of the clerks of the bank who remain in it during the night. A fire-proof vault was built of brick, its foundation being laid in the cellar, and reaching to the ceiling.

The counters and screen work, which was done by Mr. Comstock, is an exceedingly well-finished piece of work. One counter runs from the private office near the door twenty-eight feet back. A "hollow corner" turns in to the north, and eight feet more carries it to the northern wall. The counters are surmounted by very handsome screen work, the counters and screen work being made of the best of black walnut and oil finished. The pillars of the counter and those of the screen work are made to match, and the pillars and the ornamental work were done by hand. The design is very handsome and affective, and it has been well executed. The whole office is finished with taste, and besides being conveniently arranged, is a very elegant and beautiful one.

Lakefield vs. Peterborough.

The Lakefield Curling Club and the Peterborough Club will play a friendly game in the Peterborough rink on Friday evening.

Eye, Ear and Throat.

Dr. Ryerson will visit Peterborough on Saturday, February 10th, when he may be consulted at the Oriental Hotel, as may be seen by his advertisement in our columns.

Personals.

Mr. A. White, of the Midland Railway, and Mrs. White returned home to-day from a voyage to England.

Mr. Orm. Dixon, the favorite ventriloquist, is in town.

Those "Minstrels."

The Belleville *Intelligencer* says:—

> "The Georgia Minstrels (the party that recently visited here) have arrived at their homes in Brantford. They stated to a newspaper man there, that they had been well received during their trip, and they would—after a rest—take in the States. Some walked back; others went by freight."

The Market.

There was a small attendance of sellers and buyers on the market this morning, the severe weather no doubt influencing many to remain at home. Geese sold at from 50 to 60 cents each and turkeys 65 to 75. The prices of other articles were not much changed. On the grain market prices went up a little. As high as 71 cents was paid for No. 1 barley, which may be quoted at 50 to 70 cents. For a load of spring wheat 93 cents was paid, and oats also was higher, and reached 45 cents. Hay remained at $10.

The Bowmanville Bonspiel.

Two rinks from the Peterborough Curling Club started for Bowmanville this morning, to take part in the bonspiel there. The following composed the rinks:—

Geo. G. Hilliard,	Hon. R. Hamilton,
C. McGill,	W. H. Budden,
W. G. Ferguson,	Geo. Dunsford,
George Brown, skip.	T. P. Attrill, skip.

Eight clubs will be represented at the bonspiel, and the trophy for which they will compete is a handsome silver cup, presented by the Hon. E. Blake, patron of the Bowmanville Club. The rinks from here will arrive at Bowmanville this forenoon and draw for position, the first draw to be played in the afternoon, and the second and final draws on the following afternoon and evening. In the evening all the rinks will be entertained at a supper, at which the Hon. E. Blake will be present, at the conclusion of which a special car will be in waiting to carry the competitors as far as Cobourg. A telegram received states that the ice is in good condition, and good play is expected.

Allve Horsford's Acid Phosphate.

AS A NERVE FOOD.

Dr. J. W. Smith, Wellington, O., says: "I have used it advantageously in impaired nervous supply."

Oh, What A Cough!

Will you heed the warning. The signal perhaps of the sure approach of that more terrible disease Consumption. Ask yourselves if you can afford for the sake of saving 50 cts., to run the risk and do nothing for it. We know from experience that Shiloh's Cure will Cure your Cough. It never fails. This explains why more than a Million Bottles were sold the past year. It relieves Croup, and Whooping Cough, at once. Mothers do not be without it. For sale by J D. Tully.

How Wood Will Last.

The following testimony to the durability of wood is published: Charred wood, or charcoal, is almost indestructable, whether exposed to the air, buried in the ground or placed under water. Wood, in its natural state, well seasoned and kept dry, may be eaten by worms; if wet and dry alternately, it rots; if kept wet all the time it lasts a very long time—though how long nobody knows. One of the piles of a bridge built across the river Danube by the Emperor Trajan, when taken up in recent times, was found to be petrified to the degth of three-forths of an inch, but the rest of the wood was little different from its ordinary state, though it had been driven more than 16 centuries. The oldest wood bearing the marks of human labor is said to have been found in some of the tombs at Thebes, and comprised two wooden statues a little larger than life. The oldest timber afloat is probably in a ship now sailing from Holland, that was built in 1568, when the Prince of Orange was fighting Phillip II, of Spain. In digging away the foundation of old Savoy Palace, which was built nearly 700 years ago, the whole of the piles, consisting of oak, elm, beech and chesnut were found in a state of perfect soundness, as was also the planking which covered the pile heads.

Cedar Hop Poles.

The Hamilton *Spectator* says:—Mr. S. W. Davis, of Bouckville, near Utica, New York, was in the city Thursday, and went north on the Hamilton and Northwestern to visit Beeton and the surrounding country in search of hop poles. He saw Brennen & Sons, of this city, while here, and will probably make an arrangement with them to buy some of their cedar poles in Cayuga swamp. Mr. Davis says that hops now being from 75c to $1.05 per lb., the people of Central New York are going to extend their hop fields very much next season, and will want a good many poles. He prefers cedar poles over hardwood because they last longer and are lighter to handle. They are very expensive in Central New York, and Mr. Davis thinks he can make a spec buying the poles in Canada. They will cost him perhaps ten cents each, and the duty going into the United States is 20 per cent.

Dyspepsia and Liver Complaint.

Is it not worth the small price of 75 cents to free yourself of every symptom of these distressing complaints, if you think so call at our store and get a bottle of Shiloh's Vitalizer. every bottle has a printed guarantee on it, use accordingly and if it does you no good it will cost you nothing. For sale by J. D. Tully.

WE have a speedy and positive Cure, for Catarrh, Diphtheria, Canker mouth and Head Ache, in Shiloh's Cattarrh Remedy. A nasal Injector free with each bottle. Use it if you desire health and sweet breath. For sale by J. D. Tully.

It always gives us pleasure to draw attention to articles which are deserving of public patronage. The Temperature.

The thermometer at Messrs. Taylor & Mcdonald's registered as follows to-day:—At 8 a. m. 10° above zero; at noon 14° above zero, and at 3 p. m. 18° above zero.

Curlians.

In the summer season the Lacrosse Club, Canoe Association, and other sporting societies kept Peterborough prominently before the sporting world, and now that the weather prevents them from continuing this until the spring again comes, the Curling Club has taken up the work. One of the latest moves the Club has made in the right direction is that of entering the competition for the Ontario Silver Tankard, a very valuable trophy. Mr. T. P. Attrill represented the Peterborough Club at Port Hope, where a conference was held to make arrangements for the competition this season, and in the first draw Peterborough and Lindsay were drawn against each other. The method of the competition is, that the Province is divided into districts. The clubs in each district are drawn, and play against each other, until one club proves itself by its play to be the best of the district. Rinks from surviving clubs in each district then meet in Toronto for the final play for the trophy, and the winning club holds the Tankard for the year. The best clubs in the Province are thus brought into this competition. The Peterborough and Lindsay clubs will play at Lindsay on Tuesday next.

A Fatal Mistake.

The *Globe* contains the following account of a fatal accident that occurred to an old resident of this County:—

"A most deplorable fatality occurred at No. 220 Lippincott street last night. Mr. John Sanderson, a wealthy farmer of Peterborough, was in the city paying a visit to his two sons, who are attending Toronto University, and who reside at the address given. After tea Mr. Sanderson walked into a room in which there was no light. It is thought that on his way back he mistook the cellar door for that of the room. However that may be, he was heard to fall and strike heavily at the foot of the cellar stairs. He was picked up bleeding from a wound on the forehead, and quite insensible. Dr. Bryce was called, but the gentleman was beyond the reach of human skill. The blow on the forehead is supposed to have killed him instantly. Mr. Sanderson was sixty-five years of age, and was well known in the neighborhood of Peterborough."

Mr. Sanderson was greatly respected by all his neighbors. He was one of the earliest settlers in the County of Peterborough, having come to the Township of Smith when only ten years old with his father and the rest of the family, among whom were his brothers Mr. Michael Sanderson, Reeve of Smith, and Mr. Frank Sanderson, of the same township. Mr. Sanderson leaves a widow and six children, four sons and two daughters. His remains will be brought home from Toronto this even- and will be interred in the Little Lake Cemetery at 2 o'clock p.m. to-morrow.

THE FLOODS.

VEINNA, Jan. 10.—The city of Gran, on the Danube, the seat of the Hungarian Primate, is also menaced by floods. The inundations in the neighborhood of the town of Komoron, at the confluence of the Waag with the Danube, are also particularly extensive. The inhabitants of Raab have abandoned the town. The floods rose so rapidly that many persons in trying to escape fell through the ice and were drowned. Ten thousand persons are roofless, and between three and four hundred houses inundated and partially destroyed at Raab. A dozen villages have been ruined in the Raab district. The water has passed over the dyke at Kormon, Hungary, and flooded the country for miles.

MONEY EXPENDED.

LONDON, Jan. 10.—Lady Florance Dixie writes that the whole of the £50,000 she received for the relief of small farmers and cotters in the west of Ireland has been expended. The amount kept a roof over 20,000 persons' heads. She declines to raise another fund, on the ground that it is the duty of the Government and the Land League to help to people.

THREATENING.

MERSEILLES, Jan. 10.—Fresh placards denouncing the Emperior of Austria have been affixed on the Italian consulate. The Austrian Government has seized two despatches sent to a Vienna newspaper from here.

AMERICAN.

SMALLPOX.

BALTIMORE, Jan. 10.—The smallpox epidemic is increasing here. Considerable alarm is felt in Washington. There is said to be three thousand cases in Baltimore under treatment outside the pest houses. The Washington health authorities are making provisions to prevent the spread of the epidemic in that city.

OCEAN STEAMER MISSING.

BOSTON, Jan. 10.—Much anxiety is felt at the non-appearance of the Anchor Line steamer Caledonia, which sailed from Gibraltar on December 17th for Boston with a cargo of fruit.

THE WASHINGTOM TREATY.

WASHINGTON, Jan. 10.—In the Senate today Senator Frye introduced a joint resolution for the termination of articles 28 to 25, inclusive, and article 20 (*the fisheries articles*) of the treaty between the United States and Great Britain, concluded at Washington in 1871. He moved its reference to the Committee on Foreign Relations. He said the fishing privileges we give to Canada are very valuable, while those they give to us are worthless. By gross mismanagement on our part and the skilful diplomacy of the Canadians we have been required to pay $5,500,000. In 1881 we caught in Canadian waters 400 barrels of mackerel, and no other fish; the Canadians the same year in our waters caught 191,000 barrels. The Candians were permitted to export fish to the United States free of duty. The duties remitted to the Canadians in 1881 in the districts of Boston and Gloucester were over $300,000. Mr. Frye thought Congress might provide that the President should give notice on the second of July of our purpose to terminate the treaty. The resolution was referred.

CANADIAN GRAIN.

WASHINGTON, Jan. 10.—The President has signed the bill permitting grain to be brought by Canadian farmers to be ground in mills in the United Sates.

A BLIZZARD.

CHICAGO, Jan. 10.—A blizzard has been raging in Southern Minnesota, and trains are stopped by snow drifts. Thousands of people are unprepared for the blizzard, which will probably do great damage. It is the worst storm for two years, and appears to extend 350 miles.

LAKEFIELD.

From Our Own Correspondent.

FIRE.

On Tuesday evening an alarm of fire created some excitement, as it was feared the Leonard block was on fire. It, however, proved to be a chimney, which was soon extinguished.

FORESTER'S ENTERTAINMENT.

The magic lantern entertainment given by Bro. R. Q. Dench to the children of the members of Court Lakefield, No. 43, came off in the Forester's Hall on Tuesday evening, and will long be remembered by the little ones. Bro. Dench gave a humorous description of the different views and some comic readings, while Bros. R. Graham, Wm. Graham, and S. Henderson added to the evening's pleasure by songs and instrumental music. We understand it is the intention of the members to have a conversasione early in February, which will no doubt prove as entertaining to the older ones, as did the views to the children on Tuesday evening.

BELLEVILLE.

Special to the Review, Jan. 11.

A HORRIBLE ACCIDENT occurred on the Grand Trunk here at 5.30 o'clock this morning. John W. Hanna, a brakesman, whilst stringing the bell rope on a freight train, fell between the cars, several of which must have passed over him, as the body when found was cut in two in the middle and one hand was cut off. The deceased was aged 17 and was the son of a widow, who lives in Maitland. He had been but a short time in the employment of the company.

OTTAWA.

Special to the Review, Jan. 11.

IN THE SUPREME COURT to-day, judgment was delivered in the case of Farmer *vs.* Livingstone. The appeal was allowed. Taschereau and Gwynne, J.J., dissenting.

HASTINGS.

A MISHAP.—*The Star* says that a mishap occurred at the Island Woollen Mills on Wednesday. The steam boiler which is used for heating the building, scouring &c., was discovered to be leaking in a very dangerous manner. On examination the middle sheet was, found to be split on each side, and experts say that the trouble occurred from low water, or rather from pumping in cold water when the water in the boiler was below the tubes. Mr. Peters will be a heavy looser by the mishap as he has large orders on hand to be filled within a stated time.

THE DISTRESS IN IRELAND.

LONDON, Jan. 11.—Mr. Davitt, speaking at Birkenhead last night, referred to the distress in the west of Ireland. He said that it was humiliating that Ireland should stand before the world from time to time as a mendicant. The people of Ireland had had enough of futile agitations and semi-insurrections, and they were going to fight it out this time.

TELEGRAPH STOCK.

NEW YORK, Jan. 11.—It is stated that a large stock holder in the Western Union Telegraph company is about to begin a friendly suit against the Company for the purpose of bringing to a final issue as soon as possible the legal questions raised in regard to the increase of the Company's stock.

MURDER.

ABERDEEN, Ohio, Jan. 11. On Monday Samuel Scott insulted his niece in a quarrel and her brother shot Scott, who died yesterday.

INSANE.

NEWARK, N. J. Jan. 11.—Col. Abeel, of Essex, County prosecutor, has been taken to an insane asylum.

BANK LIQUIDATION.

CHARLOTTE, N. C., Jan. 11. — *Trader's* National Bank has decided to go into *liquidation*. The Bank is ready to meet the demands of its depositors and creditors.

AN OUTLAW ARRESTED.

SHREVEPORT, La., Jan. 11.—John Mongair, a horse thief was shot and killed while resisting arrest near Pleasant Hill. Two of his companions were captured. John Gridlew, one of the arresting party, was shot and mortally wounded. Morgan killed two colored men without provocation near Miniden and also wanted in Texas for murder and arson.

NEW COAL COMPANY.

CLEARFIELD, Pa., Jan. 11.—The Clearfield Bituminous Coal Company has been organized here, with C. J. Langdon, of Elmira, N. Y., President and a capital of $5,000,000.

WHY SHE RESIGNED.

BOSTON, Jan. 11.—*Mrs. Mosher, superintendent* of the women's prison, did not resign because of the statements in Governor Butler's message, but on account of an injury. Butler refused to accept her resignation, and advised her to enter a hospital.

MISSISSIPPI NAVIGATION.

WASHINGTON, Jan. 11.—Capt. Halliday testified before the Mississippi River Committee, that he believed the cost of improving the entire river next season would not be over $20,000,000. He hoped some day to see a ship channel twenty feet deep from Cairo south, and ships from Liverpool passing up and down the stream.

TENNESSEE FINANCES.

NASHVILLE, Jan. 11.—The Senate yesterday passed over the Governor's veto of the resolutions stopping the payment of interest on the State bonds. The House adopted the resolution offering $10,000 reward for the arrest of Polk. The State Treasurer will be elected to-day to succeed Polk. The chairman says the report of the committee appointed to investigate the books of the absconding Treasurer contains startling revelations. The Attorney-General has filed a bill for the attachment of all Polk's property.

MEXICAN RECIPROCITY.

WASHINGTON, Jan. 11.—It is stated that the form and matter of the reciprocity treaty agreed upon by the commissioners has been accepted by the Mexican Senate. The probability that sugar from Mexico, where the production is large, will be admitted into this country free of duty, alarms the Louisiana men, who are here for the purpose of protecting their industry.

FINANCIAL EMBARRASSMENT.

PHILADELPHIA, Jan. 11.—The President of the *People's Passenger Railway Company* reported eighteen months ago the liabilities of the Company as $600,000. They are now over $3,300,000. The increase is said to have been the result of carelessness. 50,000 shares were sold to a firm of which his predecessor was a member for $200,000, when the par valve was $1,250,000. The same management, notwithstanding the financial embarrassment, declared two dividends of fifty cents per share, each drawing the money.

THE FIRE IN MILWAUKEE.

MILWAUKEE, Jan. 11.—It is not believed that John Gilbert, an actor, whose bride perished in the fire yesterday, can recover from his injuries. His real name is John Demming. Charles Kelsey, colored, who was burned to death, was Tom Thumb's valet. The report that Hendrix, a pominent business man of New Haven, and Prof. Tomline, a musician of Chicago, has perished, was untrue.

SALLOWNESS AND WRINKLES.—The former gives place to the bloom of youth, the latter are smoothed out and depart when the Fountain of Health is used. Twenty-five cents per package.

GOOD ADVICE.—If our readers will accept proffered advice, they will always keep a bottle of Hagyard's Yellow Oil at hand for use in emergencies, such as Burns, Scalds, Wounds, Lameness, Croup, Chilblains, Rheumatism and all varieties of aches, pains and inflammations. It will ever be found reliable.

WITH every bottle of Dr. Carson's Pulmonary Cough Drops, a sample bottle is given free of charge. If, after using the trial bottle, you are not satisfied with its effect, you can return the large bottle to your dealer, who will refund the money. Thousands can testify to its prompt action in curing Coughs, Colds, Bronchitis etc. If you suffer, try them. Price 50 cents. Sold by all Druggists.

Personal! To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

Bucklen's Arnica Salve.

The best salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Taylor & Macdonald.

South End Bookstore.

And now that he has done with Christmas cheer,
The honest schoolboy doth begin to appear.
With purse in hand he comes into our store,
Saying, "This is where I should have come before!
"I want some books—they must be *good* and *cheap*,
You buy for cash, and I the benefit reap.
A Spelling Book, a Reader and a Copy—
The price of each I know will suit my 'Pappy'—
An Arithmetic, a Grammar and a History,
But how I am to carry them's a mystery.
You say I need a Bag to accommodate
My school-books, pens and pencils and my slate?
Yes! that's the thing, my fears are at an end,
No harm to books from snow or rain or wind.
I'm feeling, *now*, quite happy and contented,
Well satisfied with what I have expended;
And rest assured, if I want any more,
I'll come right back to the South End Bookstore."

Daily Evening Review

THURSDAY, JANUARY 11, 1883.

ONTARIO LEGISLATURE.

On Monday two bills passed their first reading and one its second.

Mr. Meredith and Mr. Bell put questions in reference to the intention of the Government in regard to the new Parliament Buildings, but only obtained evasive answers, the administration shirking any declaration of its policy in the matter till after the general election.

Mr. Meredith, in moving for returns as to the sale of timber lands in Parry Sound and Muskoka in 1871, pointed out that the dues payable by the lumbermen had been reduced in 1876 in consequence of the stagnation of the trade, and that though things had since changed the licensees were still benefitted by this modification of their bargain at the expense of the Provincial Treasury.

Mr. Pardee, while agreeing to the returns, argued in behalf of the interests of the licensees and against those of the Province.

On Tuesday a number of bills were read a first time, including one respecting the Lake Scugog Marsh Lands and Drainage Company, introduced by Mr. McLaughlin, and one to authorize the town of Lindsay to sell or lease certain lands, introduced by the Hon. S. C. Wood.

The estimates were brought down, showing an increase of $160,000 over the heavy expenditure of last year.

The General Gas Bill was passed through committee, Mr. Meredith protesting against the injustice done to municipalities, but Mr. Mowat upholding the clause in question.

The Streets Railway Bill was passed through committee, Mr. Meredith and other members of the opposition vainly objecting to the want of protection afforded to the public, and Mr. Mowat and his colleagues supporting the interests of the companies.

On Wednesday a number of bills were read a first time, among them being one introduced by the Hon. Mr. Fraser, to incorporate the Roman Catholic Diocese of Peterborough, and one introduced by Mr. Ferris to incorporate the Brighton, Warkworth and Norwood Railway.

The Hon. S. C. Wood made his budget speech. He admitted a deficit for the year of nearly $40,000 as the excess of expenditure over revenue.

The debate was continued by Mr. Merrick, Mr. Creighton and Mr. Meredith on the part of the opposition, and by Mr. Ross and Mr. Fraser for the Government.

Mr. Meredith concluded his speech by moving an amendment condemning the delay of the Government in settling the boundary question by a reference to the Privy Council.

The debate was adjourned.

EDITORIAL NOTES.

THE *Globe* censures the *Mail* not, we must admit, without cause, for insulting language to the delegates and others attending the Reform Convention. But as if to show the flagrant hypocrisy of this criticism, the *Globe* heads the very adjoining article with an insulting epithet applied to the leader of the Ontario opposition. It does not mend the matter that the unfounded and offensive epithet was invented by one of of Mr. Mowat's paid political agents—paid that is with our money—for the *Globe* adopts it with avidity.

⁂

AN Ottawa Reform writer sends to the New York *Times* a vile letter insulting the Princess Louise and Lady Macdonald. The Ottawa *Free Press* gladly reproduces the unprincipled and cowardly effusion, probably from the same pen as that which recently indited a scurrilous slander as to the female relatives of a Conservative journalist. We should be sorry to believe that even among the "Reform" journalists of Ottawa there can be two Yahoos who could thus war with unoffending women.

⁂

THE *Globe* informs the world that Mr. S. S. Peck is a *strong* candidate. This is one of those facts that hardly needs to be stated, for it is quite self-evident. Mr. Peck's reputation is undoubtedly strong—as strong as Limburger cheese, but not so savory.

WINNIPEG.

To the Editor of the Review.

DEAR SIR,—Because some people who were unfortunate enough to drop a little money in the North-west, by being rather too risky and investing in paper cities, it has lead others to think the whole country has collapsed. To show them that such is not the case, and that Winnipeg will soon be one of the largest cities in the Dominion, I quote you the improvements made there this summer, also those made in St. Boniface, which is the village on the east side of the Red River, situated exactly similar to Ashburnham:—

	Houses.	*Cost.*
North Ward	429	$1,318,800
South Ward	243	$1,797,650
West Ward	583	$1,619,100
East Ward	57	$ 414,309
Fourth Range	56	$ 297,900
	1,368	$5,447,840

The city is lighted with electric light, the first city to adopt it in the Dominion. A street railway runs from the Assiniboine river to the railroad station, and will be extended next year to Silver Heights Brewery, on Portage Avenue. Gas has been fitted into the stores and dwelling houses. Water pipes are laid down on the principal streets, at a cost of $105,200, by a private company. But unlike the town of Peterborough, private enterprise is appreciated in this new and wonderful city; so much so, that although the capacity of these waterworks is 600,000 gallons in 24 hours, and there are a double set of pumps, making 120,000 cubic gallons every 24 hours, already the company find it will be necessary to increase the capacity, here differing from the experience of the Peterborough Water Works Company.

On one street alone there was one million of dollars expended in improvements.

ST. BONIFACE.

This village, situated on the east side of the Red River and connected with Winnipeg by a wagon bridge on the south and the railroad bridge on the north, had a population in 1881 of 1,265 souls, to-day the population has increased to 5,168, showing an increase of 3,899. The municipality has spent on improvements the purchase of a fire-engine, building of an engine-house, police station, &c., $41,212. The convent of the Sisters of Charity will be enlarged by an addition, to cost $60,000. Property has risen 100 per cent. Yours truly,

H. C.

GAS METERS AS HELPS TO FIRES.

In most buildings designed for multiple tenancy, like great apartment houses and the capacious office buildings which comprise so large a part of the business part of a city, it is customary to provide a separate gas meter for each room or suite of rooms. These meters are commonly placed in closets and out of the way corners, and are very apt to be surrounded with much combustible matter. The connections of meters with the gas pipes are usually, if not always, of lead, a metal that is easily fusible, and the solder with which the plates of the meter are joined together yields even more readily to heat. Let a fire break out in a building containing, as many buildings do, a score or more of these fragile fire feeders, and the hot air sweeping in advance of the fire will quickly melt the lead or solder. The outpouring gas fills the building with an explosive atmosphere which hastens the spread of the flames and keeps up an inexhaustible supply of fuel. Such burning as gas jets, sometimes of great size, are to be seen after almost every city fire, when nothing is left of a building but blackened and broken walls. The gas poured into burning buildings through such openings doubtless helps materially to account for the surprising suddenness with which many buildings have been swept by flames, and in all cases the outflow of gas must seriously counteract, if it does not altogether thwart, the efforts of the firemen. The remedy for this great evil is not so easy to point out. It is obvious that where a multitude of meters are to be distributed through a building they should be more securely incased and provided with infusible connections, or some means should be devised whereby the gas supply shall be automatically shut off whenever the temperature rises so as to imperil the integrity of the meter. There should also be near the outer door and readily accessible to firemen, some means by which the connection of the house with the gas main in the street can be quickly closed. There is clearly an opportunity here for useful and profitable invention.

SUCCESSION OF FOREST GROWTHS.

Robert Douglas gives in a brief letter to the *Gardner's Monthly* some interesting facts concerning the succession of forest growths—the result of years of observation. Where the forests are cut down, and the fires are kept out, they in the main reproduce the same species. But if a settlement is formed, and cattle are allowed to run into the cut-down woods, the seedlings are destroyed as they appear. In a burned forest everything is changed; all vegetation is swept away. Even the soil is changed, and its surface, if thin, is destroyed. After a forest fire, the first tree that makes its appearance is the aspen, a tree which naturally grows on moist lands, where its roots have the best chance to escape from the general destruction. According to Mr. Douglas, this tree predominates in burned forests in Colorado, Wyoming, Dakota, the Black Hills, Minnesota, Manitoba, Wisconsin and northern Michigan. In Wisconsin and the Black Hills it is mixed with the white birch, and occasionally, as in northeastern Wisconsin, the white birch is the chief tree. Both the seeds and trees of conifers are usually destroyed by a fire. Next to the aspen and white birch, those trees and shrubs spring up over burned districts which bear seeds that are either blown to great distances, remain long in a dormant state in the ground, or are carried by birds. Where the burned forests consisted of oaks and pines adjoining or partly intermingled, the oaks will be found after a fire crowding upon the pine lands. This is due in part to the fact that oaks renew themselves from the stumps, while pines do not, and that acorns are often buried by squirrels in spots favorable to their speedy growth.—*Northwestern Lumberman.*

A GOOD CARD.

The *Journal of Commerce*, referring to Mr. Blake's remarks at Bowmanville, on the right of Canada to negotiate her own commercial treaties, says:—"We fear very much that Mr. Blake's object in harping on this treaty question is that he knows that it is impossible, so long as Canada is a dependency of Great Britain, for her to be permitted to negotiate directly with foreign powers, although she gets all possible assistance to do so in concurrence with Great Britain. It is thought, therefore, to be a good card for an Opposition leader to play."

GOOD ADVICE.—Keep the head cool, the feet dry and warm, the bowels open and the blood pure by using Hope's Regulating Pills and Fountain of Health. Sold at 10 and 25 cents everywhere.

A Vexed Clergyman.

Even the patience of Job would become exhausted were he a preacher and endeavoring to interest his audience while they were keeping up an incessant coughing, making it impossible for him to be heard. Yet, how very easy can all this be avoided by simply using Dr. King's New Discovery for Consumption, Coughs and Colds. Trial Bottle given away at Taylor & Macdonald's Drug Store.—2.

WALTER LINTON, of Waterloo, writes that Hagyard's Yellow Oil has done great good in his family, his wife being cured of Callouse lumps that other medicines failed to remove, he he also states that a neighbor was promptly relieved of Rheumatism by the same remedy.

WORTH KNOWING.—A Fact Worth Knowing. The best household remedy known for Coughs, Colds, Bronchitis, Asthma, Whooping Cough and all throat and chest troubles tending toward Pulmonary Consumption is Hagyard's Pectoral Balsam, to be procured of any druggist.

REMEDIES WORTH TRYING.

The Paris correspondent of a Boston paper, referring to his recovery from a dangerous illness, says:—

"I mention this illness that I may tell you how easily I was cured. I was bent double. I could not breathe. My physician ordered me to take a flat-iron and heat it as hot as I could bear; put a double fold of flannel on the painful part, and move the iron to and fro on the flannel. I was cured as by enchantment. My doctor told me some time since a professor in one of our colleges, after suffering some days with neuralgia in the head, which he himself had tried to cure, sent for the former, who prescribed a hot flat-iron. The next time the doctor saw the professor, the latter exclaimed with mock anger:—

'I really shall not pay you any fee! What! I had no sooner applied the heating iron to my head than instantly all pain vanished. That is as simple as good-day; surely you cannot expect a fee for so simple a service!'

My physician was summoned recently to the bedside of a woman who had neuralgia in both sides, and so violently that she alarmed the whole neighborhood by the screams which her intolerable anguish wrung from her. She was taken from her bed and borne near the fire. In such severe cases a heated iron is not energetic enough. He has an iron rod fastened in an ivory handle. He heats this rod to white heat (which causes less pain than red heat) and applies it very slightly to the seat of pain, first in longitudinal and then in latitudinal lines. The application is so light that no trace is left but red lines on the epidermis, which are soon effaced. In twenty minutes the woman walked back to bed, and the third day afterward quitted it, entirely free from neuralgia. This instrument is not to be entrusted to awkward hands. Three weeks ago one of our brilliant artists was invited to shoot by the owner of a chateau in whose grounds there are wild fowl in abundance. He awoke, the next morning after arriving at this gentleman's house, with sciatica in his right thigh. The nearest doctor was sent for. He said he could do nothing which would give the patient immediate relief. The artist is a patient of my physician and told the doctor what to do. The latter declined taking the responsibility of any such treatment. The artist insisted, however, and the doctor applied an iron not heated to a white heat, but so awkwardly that the patient has scars the size of a five franc piece on his thigh. He nevertheless was cured, and enjoyed a week's sport without another twinge of pain.

TEACH THE GIRLS TO DO SOMETHING.

Parents generally appreciate the wisdom of allowing their sons to follow their natural inclinations in choosing the profession or pursuit they are to make their object in life. Even the wealthiest father does not expect his son to live in idleness. His first care, then is to model that son's character and education so that he will be fitted for the occupation for which he may possess peculiar aptitude. Why should not this rule extend to both sexes? Every one knows that the tastes of girls differ quite as much as the tastes of boys. Why should not girls be subjected to as severe practical training as boys? They may not be obliged to earn their own living, but to feel that they are competent to do it will certainly not detract from their self-regard. They should be taught to do something useful and to develop whatever talent they may possess. All cannot become accomplished in the same way. That they should learn to sew and to cook and to keep house is pretty generally conceded, but it is not every mother who has the courage to insist upon this portion of her daughter's education. Even the princesses of the royal families are better trained in this respect than the majority of our own country-women in the more favored walks of life. But while they are getting a household education it will not prevent them mastering trade, art or profession. The field is widening where-in women can earn a livelihood and acquire wealth, but they cannot expect to leap at once into success. A business of any sort must be learned. Girls do not realize this; they do not fit themselves for an avocation as the boys do. It is generally when necessity compels them to do something that they begin to wonder what they can do. Aside from the benefits likely to accrue to women from a thorough business education and systematic employment is the fact that they will be better. If idleness is careful in its effects on men why not on women? Busy men and busy women find no time for wrong-doing. Their thoughts run not to evil. From a moral standpoint alone, then, it is desirable that women as men should have employment.

More Direful Prophecies.

An old Latin inscription has been found in one of the village churches near the Belgian and Prussian frontier having the following curious inscription: "When St. Mark will present the Pascal Lamb, when St. Anthony will be present at the Feast of Pentecost, and St. John adore Christ at the 'Fete Dieu', the world will be full of groans and tears." These chronological predictions answer exactly to the almanac of the year 1886. At that period St. Mark's Day, 25th of April, falls on Easter; St. Anthony's, 13th June, on Pentecost Day, and St. John 24th June, when the Fete Dieu is celebrated. The well known astrologer, Nostradamus also predicted that the year 1886 would be the worst year of the century.

FROM ALL OVER.

ONE of the immediate effects of Gambetta's death is the postponement of the Tonquin expedition.

IN DRY FORM.—The contents of a package costing 25 cents will make a quart of medicine called Fountain of Health, unequalled for purifying the blood and toning up a debilitated system.

THE death is announced by cable of Sir Samuel Martin, one of the Barons of the Exchequer.

GRANULATED EYE LIDS.—There is a chronic inflamed hot surface of the lids, continually irritating to the eye, otherwise healthy. One box of Churchill's Climax Eye Salve will cure this trouble. Price 25 cents.

AN explosion, felt a mile off, yesterday, was caused by the explosion of the heating apparatus in a Pullman car, at Winnipeg.

CATARRH is the seed of Consumption, and unless taken in time is a very dangerous disease. Hall's Catarrh Cure never fails to cure. Price 75 cents. For sale by John McKee, druggist.

MR. R. R. MCLENNAN, the champion sledge thrower, has received the Conservative nomination for Glengarry, for the Local House.

"Barkis is willing." But it's because Barkis can't help himself. He has to believe facts. Churchill's Ointment never fails to cure old sores when all else fails. Twenty-five cents a box.

THE Suez Canal Works Committee has adopted the directors' suggestion for improvements to the canal, estimated to cost twenty-three million francs.

ONE OF OUR BEST CITIZENS would say to the public that he has tried Hall's Catarrh Cure, and that it is all that is claimed for it. Price 75 cents per bottle. For sale by John McKee, druggist.

AN influential vigilance committee of the largest taxpayers in the city has been formed in Montreal, to keep a check upon the doings of the corporation.

LITTLE BY LITTLE.—The constant dropping of water will wear away even the hardest stone. So the constant irritation of a cough will so wear upon the lungs as to induce incurable Consumption. Hagyard's Pectoral Balsam will cure the worst cough, speedily and effectually.

GEORGE BLISS received, up to January 1st last, $40,000 for fees and expenses as special counsel in the Star Route trial. The total paid to special council to that date was over $65,000.

FORTUNATELY Valvular disease of the heart is not very common, its disturbed action may be due to indigestion, liver irregularities &c. A Stomach disturbed with wind, or indigestable food will cause pain and fluttering by crowding on the nerves of the heart. Burdock Blood Bitters will speedily remedy all such difficulties.

IT is now believed that the Princess Louise will go to Bermuda for two or three months, and retire to Ottawa before the close of the session. Her health is the cause of her seeking a warmer climate in Bermuda.

MR. THOMAS W. RACE, Editor and Proprietor of the Mitchell *Recorder*, writes that he had a prejudice against Patent Medicines, but being induced to try Burdock Blood Bitters, for Billiousness that occasioned such violent headache and distress as to often disable him from work. The medicine gave him relief, and he now speaks of it in the most favorable terms.

IT is estimated that 10,000 looms and 300,000 spindles in the cotton and woollen mills of Philadelphia and vicinity are idle in consequence of the continued depression of trade. From five to six thousand operators are idle, while probably ten times as many are working at reduced wages or shortened time.

THE cause of death. It is known almost to a certainty that in fatal diseases the individual dies either by the brain, heart or lungs. How wise then is the effort to maintain a perfect state of health? Dr. Carson's Stomach and Constipation Bitters are a veritable "Health Giver." They free the system from all impurities; cure Billiousness, Dyspepsia, and all diseases of the Stomach, Liver or Bowels. In large bottles at 50 cents. Sold by all Druggists.

DO YOUR CHILDREN have fits or convulsions, grind their teeth, pick their nose, have a bad breath, or a changeable appetite? Are they restless or feverish at night? If so, ask your druggist for Dr. Smith's German Worm Remedy (take no other), it only costs 25 cents. Is simple safe, and pleasant to take. If there are no worms, to remove the slime and bile that breeds them, tones up the system, and will save many a doctor's bill. A word to the wise, etc. Thousands of testimonials.

A New Swindling Dodge.

Two men who gave their names as Arthur Redfern and Thos. Johnston were arrested at 39 King street west (up stairs) by Detective Reid yesterday afternoon on a charge of obtaining money by false pretences. The two men arrested inserted an advertisement in the papers calling for carpenters, laborers and machinists. The numerous applications were promised good wages, but were required to pay the men fifty cents for their situations. The alleged employers kept putting the men off and and yesterday a warrent was sworn out for their arrest on a charge of swindling. The furniture in the so-called employment bureau did not look as if Redfern and Johnston represented any responsible parties.—*World.*

Gaining a World Wide Reputation.

About 150,000 bottles of medicine and 3000 Spirometers, the invention of M. Souvielle of Paris and ex-aide surgeon of the French army, have been used by physicians and patients during the last year for the cure of catarrh, catarrhal deafness, bronchitis, asthma, consumption in its first stages and many diseases of the head, throat and lungs. Consultations with any o the surgeons belonging to the institute free. Poor people showing certificates can have spirometers free. Write enclosing stamp for pamphlet giving full information to either of the Canadian offices where competent English and French specialists are always in charge. Woman's True Friend.

A friend in need is a friend indeed. This none can deny, especially when assistance is rendered when one is sorely afflicted with disease, more particular by those complaints and weaknesses so common to our female population. Every woman should know that Electric Bitters are woman's true friend, and will positively restore her to health, even when all other remedies fail. A single trial always proves our assertion. They are pleasant to the taste, and only cost fifty cents a bottle. Sold by all druggists.—2.

IT made me feel like a "Band of Music," was the rather forcible expression of an individual who was praising "Pectoria," the great remedy for Coughs and Colds, Hoarseness, Asthma, Bronchitis. It is safe, pleasant and effectual. If you suffer, try it. For sale by all druggists and general dealers at 25 cents a bottle.

Mothers! Mothers

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle. d&w

SULPHOLINE LOTION.—AN EXTERNAL MEANS OF CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr, Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.) THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution. In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d. Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine. Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

THE

PACIFIC NORTHWEST!

Oregon, Washington, and Idaho.

Offers the best field for emigrants—viz.: a mild, equable, and healthy climate; cheap lands of great fertility, producing all varieties of Grain, Fruit, and Grasses in wonderful abundance; an inexhaustible supply of Timber; vast Coal Fields, and other mineral deposits; cheap and quick transportation by railroads and river navigation; direct commerce with all parts of the world, owing to its proximity to the Pacific Ocean.

NO DROUTHS, NO INSECT PESTS, NO HURRICANES, WHIRLWINDS, OR OTHER DESTRUCTIVE PHENOMENA.

The lands of the Pacific Northwest show an average yield of wheat per acre largely in excess of that of any other section of the United States.

No failure of crops has ever occurred.

Oregon wheat commands a higher price than that of any other country in the Liverpool market.

An immense area of very fertile Railroad and Government Lands, within easy reach of the trunk lines of the Northern Pacific R.R., the Oregon Railway & Navigation, and the Oregon & California RR. Co's and their numerous branches in the great Valleys of the Columbia and its tributaries, are now offered for sale at Low Prices, and on Easy Terms, or open to pre-emption and Homestead Entry.

The great movement of population to the Columbia region now in progress will be enormously increased by the completion of the Northern Pacific RR. and the Oregon Railway and Navigation Co's systems. This renders certain a rapid increase in the value of Lands now open to purchase or to entry under the United States Land Laws.

The Cells.

One tramp shared the cells with a prisoner last night.

Annual Meeting.

The annual meeting of the Peterborough Horticultural Society will be held this evening at 8 o'clock, in the Bank of Toronto.

Council Meeting.

A meeting of the Town Council will be held in the Council Chamber to-morrow evening at 7.30 o'clock.

Peterborough Presbytery.

The Presbytery of Peterborough will meet on Tuesday next, January 16th, in the St. Andrew's Church, at 2 o'clock p. m.

Freight Office.

An office for the freight clerk at the Midland station has been fitted up in the north end of the freight shed, next to Charlotte street. This will make matters much more convenient for shippers, as it will save them a good many steps in going from the freight shed to the office in the station building.

The Weather.

The weather probabilities for this district for the following 24 hours, as reported from Toronto at 1 a. m. to-day, by the Great Northwestern Telegraph Company, are as follows:—Fresh to strong northeasterly to northwesterly winds; fair to cloudy continued cold weather, with slight snow in some localities.

To-Night.

The celebrated colored Jubilee Singers will give an entertainment in Bradburn's Opera House this evening. The unqualified success which has crowned the entertainments given by these singers everywhere, and the success of their former appearance here, point towards a large attendance of the lovers of music this evening. The dusky vocalists arrived on the noon train to-day.

Trent Valley Navigation.

Mr. Geo. Goodwin, of Granville, contractor for the works on the Trent Valley Canal at Buckhorn and Burleigh, and Mr. T. D. Belcher, Engineer of the Trent Valley Navigation Works, have returned to town after being absent in the vicinity of the proposed works for the past few days, making arrangements regarding the taking out of timber and procuring stone for the works. It is the intention of the contractor to send his head timber maker from Ottawa next week, and to start work in the woods immediately. He contemplates having about 300 men at work this spring and will push on his operations as rapidly as possible."

EAST PETERBOROUGH.

A CONVENTION OF CONSERVATIVE DELEGATES AT NORWOOD.

Mr. George Read Chosen as the Standard Bearer—The Nomination Unanimous—A Large and Influential Meeting.

A remarkably successful Convention of the Liberal Conservatives of East Peterborough was held in the Town Hall, Norwood, on Tuesday afternoon last. There was a full muster of delegates from the different municipalities in the Riding, besides a very large attendance of influential and representative men of the party throughout the constituency, filling the hall to its utmost capacity. A feeling of the utmost unity prevailed, and all were animated with the one good desire to further the interests of the party.

The President of the East Peterborough Liberal Conservative Association, Mr. J. B. Pearce, presided over the meeting, and Mr. Thomas Burke performed the duties of Secretary.

After the Chairman had stated the object of the meeting, Mr. R. C. STRICKLAND moved, seconded by Mr. JOHN BURNHAM, M.P.,—That Mr. John Maloney, Reeve of Douro, be the candidate to contest the election for the Ontario Legislature in the interests of the Liberal Conservatives of East Peterborough.

Both gentlemen spoke in eulogistic terms of their nominee, but Mr. Maloney expressed his inability to accept the nomination, as under his existing circumstances it was impossible for him to do so, at the same time expressing his thanks to the gentlemen who so kindly nominated him.

Mr. JOHN BURNHAM then moved, seconded by Mr. R. C. STRICKLAND,—That Mr. George Read, of Keene, be the candidate of the Conservative party in the approaching election to represent the East Riding in the Ontario Legislature.

The CHAIRMAN called for a standing vote on this nomination, when nearly every individual present immediately rose to his feet, and accepted with cheers the nominee of the convention.

Mr. READ briefly addressed the electors, thanking them for the unanimous nomination they had given him; but at the same time he had hoped that younger men of the party, whose names had already been mentioned as proble candidates, would have accepted the nomination. He stated that he was strongly opposed to the present Mowat Administration, and that that administration was doing its utmost to obstruct the Federal Government. He was opposed too to the present monopoly of official patronage now in the hands of the Local Government, having at their disposal almost every petty and important office in the Province, the holders of which generally used them, not for the interests of the Province, but for the interests of the Government whose servants they were. He also strongly disapproved of the License Law as now administered by the Mowat Government, and would like to see it replaced by one that would give a due share of the License Revenue to each municipality, to which he believed the money properly belonged. Other topics he would discuss as he met the electors in their respective localities. Although he would like to see a younger man nominated by the Convention, yet he accepted the nomination as an honor from the representative electors of the Riding; and as he had not the physical strength to make a thorough canvass of the constituency, he hoped and urged that every elector would do his utmost to secure his election. Mr. Read sat down amidst enthusiastic cheers.

Mr. BURNHAM also addressed the meeting, urging the claims of Mr. Read, and was sure that with the able assistance of the Conservative party of East Peterborough that gentleman could be returned over his opponent, Mr. Blezard, who had so often boasted that he could beat any man the Conservative party would put out against him, by a handsome majority.

Mr. R. C. STRICKLAND and other gentlemen present also spoke, advocating the canditure of Mr. Read.

After cheers were given for Mr. Read, Mr. Meredith, and Her Majesty the Queen, one of the largest and most enthusiastic political meetings ever held in the Riding, quietly dispersed, determined to give the Conservative candidate their hearty and unwavering support.

Officers Elected.

The following officers were installed in the Otonabee Lodge of Oddfellows, No. 13, at the last regular meeting, held on Monday evening, the 8th of January, by Dr. R. W. Bell, representative to the Grand Lodge, assisted by Mr. W. Marriage, G. L. of Quebec, Montreal, and Mr. J. C. T. Lacey, N. G. of the Peterborough Lodge No. 111:—

The first five officers were all re-elected. J. B. King, Esq., Grand Secretary, Toronto, will, it is expected, visit this Lodge officially at the next regular meeting, which will be held on Monday evening, the 15th of January, to exemplify the work. All the lodges in the district are invited to be present, and no doubt there will be a large representation. We are pleased to learn that this old Lodge is receiving a large acquisition to its membership.

LET THE UNBELIEVING TRY IT.—One package of Fountain of Health will do more to make the aged and weak feel young and strong than any other medicine at four times the cost. Price 25 cents.

Legal.

The case of the Grand Junction Railway vs. the County of Peterborough came up in the Supreme Court to-day. A telegram states that all the Judges concur in dismissing the appeal of the railway with costs.

At Bowmanville.

On the first draw at the Bowmanville bonspiel the Peterborough players were pitted against the Newcastle Club, whom they defeated by 46 shots, one rink winning a majority of 24, and the other 22 shots. We learn by telegraph that in the second draw Whitby defeated Lindsay, and Port Hope defeated Peterborough. The final game is in progress this afternoon, between Whitby and Port Hope.

Articles Missing.

The overcoat and muffler of a boy who is attending the Union School were appropriated by some one on Wednesday. The teachers have made enquiry about them, but have been unsuccessful in finding them. If this was done for a joke, it is one of a serious nature, and the articles should be returned at once; and if a theft was intended it is to be hoped that the perpetrator of the act will be discovered and punished.

Dyspepsia and Liver Complaint.

Is it not worth the small price of 75 cents to free yourself of every symptom of these distressing complaints, if you think so call at our store and get a bottle of Shiloh's Vitalizer, every bottle has a printed guarantee on it, use accordingly and if it does you no good it will cost you nothing. For sale by J. D. Tully.

WE have a speedy and positive Cure, for Catarrh, Diphtheria, Canker mouth and Head Ache, in Shiloh's Catarrh Remedy. A nasal Injector free with each bottle. Use it if you desire health and sweet breath. For sale by J. D. Tully.

Oh, What A Cough!

Will you heed the warning. The signal perhaps of the sure approach of that more terrible disease Consumption. Ask yourselves if you can afford for the sake of saving 50 cts., to run the risk and do nothing for it. We know from experience that Shiloh's Cure will Cure your Cough. It never fails. This explains why more than a Million Bottles were sold the past year. It relieves Croup, and Whooping Cough, at once. Mothers do not be without it. For sale by J. D. Tully.

New Life for Functions Weakened by Disease, Debility and Dissipation.

Ask for the Great German Invigorator, the only specific for impotency, nervous debility, universal lassitude, forgetfulness, pain in the back or sides, no matter how shattered the the system may be from excesses of any kind, the Great German Remedy will restore the lost functions and secure health and happiness. $1.00 per box, six boxes for $5.00. Sold by all druggists. Sent on receipt of price, postage paid, by F. J. Chenye, Toledo, Ohio, sole agent for United States. Circulars and testimonials sent free. For sale by John McKee, druggist.

A SURE THING!

Clothing again! Well, it's about the most interesting topic we can talk of just now. It's the season when clothing is most needed, and the season we must sell it, so you see it interests us both. Our stock of Clothing for this time of year is large, our assortment unusually complete, facts of great advantage to buyers, and of some advantage to us, as it enables us the better to suit you. We want to hurry the out-word movement of our stock and consequently will give a decent discount to prompt cash buyers. This reduction is made solely with a view to working off in proper season our immense Stock, and not because the goods are in any respect undesirable. Our clothing is built of strong serviceable fabrics, well and carefully made, and with trimming warranted to wear. Every style of goods from plain and sturdy to the most elegant. Nothing slighted,—except our profits.

CANADIAN TELEGRAMS.

OTTAWA.

Special to the Review, Jan. 12.

IN THE SUPREME COURT the appeal in the Megantic election case has been dismissed without costs.

MONTREAL.

Special to the Review, Jan. 12.

FOUR THOUSAND SEVEN HUNDRED JUDGMENTS were given in the Circuit Court here last year, against 4,300 in 1881.

THE DETECTIVES who were examined before the Citizens' Committee emphatically denied the statement in the *Globe* correspondence from this city that young immigrant girls were debauched on arriving here.

TORONTO.

Special to the Review, Jan. 12.

DURING DECEMBER only fourteen contagious diseases were reported to the City Commissioner.

ROBERT WEBB, a Toronto, Grey and Bruce Railway brakeman, was killed at an early hour this morning by having his feet caught in a frog in the yard. He was held in that position until killed by a locomotive. Webb was only in the employ of the company for a few days.

THE YOUNG DRUG CLERK, D. A. Stewart, was to-day committed for trial on a charge of forgery.

QUEBEC.

Special to the Review, Jan. 12.

THE CARNIVAL COMMITTEE is meeting with every success. The dates for the sports will be the Monday, Tuesday and Wednesday following the Montreal carnival. The following programme has been decided upon subject to a few changes: Monday morning, grand curling bonspiel of all the clubs in Canada and the United States. Monday evening, skating races at the Quebec skating rink. Tuesday morning, sham fight with a snow fort on the site of the old French fortifications. Tuesday afternoon, drive to the Falls of Montmorency, and visit to the ice palace formed in the cone. The Falls will be lighted in the evening by electric light, the drive home to be met by snow shoe clubs with torches and the St. Jean Baptiste procession. Wednesday morning, visit to the citadel and other places. Wednesday afternoon, snow shoe races.

CAMPBELLFORD.

EXPEDITIOUS THRESHING.—The *Herald* says that at the farm of Mr. S. Ranney, last week, Mr. James Landon threshed 160 bushels of oats in fifty-four minutes, and 75 bushels of fall wheat in thirty-eight minutes.

IN AMBUSH.—Reid and Cole, the partners in the turkey, sheep and goose stealing project in Seymour a few weeks ago, are still in ambush. It is likely that their non-appearance for some weeks longer will earn for them a pardon.

BROKEN A SECOND TIME.—On Wednesday last Mr. William Nevin, of Seymour, met with the great misfortune of breaking his leg in the same place it was broken last April. The accident was caused by the springing of a large bent pole while he was drawing cedar from the swamp.

THIS DAY'S TELEGRAMS.

Press Despatches to the Review.

CABLE.

THE AMERICAN TRAGEDIAN.

BERLIN, Jan. 12.—The papers highly praise Edwin Booth's performance of Hamlet.

GAMBETTA'S REMAINS.

PARIS, Jan. 12.—The remains of Gambetta started for Nice this morning.

MORE CONTRIBUTIONS.

BERLIN, Jan. 12. The Emperor has contributed 100,000 more marks from the Emperial Treasury for the flood sufferers.

STEAMER FOUNDERED.

PARIS, Jan. 12.—A boat was found off Harbor Cettle containing the dead bodies of four persons belonging to the French coasting steamer believed to have foundered in a storm. There were twenty-two persons on the steamer.

THE CITY OF BRUSSELS.

LIVERPOOL, Jan. 12.—At the inquest on a passenger of the lost City of Brussels the Steward deposed that the deceased and a friend could have saved their lives if they had obeyed orders. They were lost endeavoring to save their luggage. A verdict of "Found drowned" was rendered.

AMERICAN.

SENATORIAL CONTEST.

BOSTON, Jan. 12.—A Republican Conference yesterday indicates in the opinion of some that the contest for United States Senator will be a long and very earnest one.

HUDSON RIVER BRIDGE.

WASHINGTON, Jan. 12.—The Republican members of the House of Commerce Committee express the opinion that there is no chance for a favorable report on the Bills for the bridge across the Hudson River at Cornwall.

LOST IN SPECULATION.

LAWRENCEVILLE, Pa., Jan. 12.—Henry Miller, who recently returned from the west with $20,000 made in silver mining, lost it all speculating in oil.

THE TARIFF.

WASHINGTON, Jan. 12.—It is reported that a New York Congressman has prepared with much care a complete tariff bill, which will be presented in the House in opposition to the Ways and Means Committee's Bill.

DISHONEST CLERK.

LOUISVILLE, Ky., Jan. 12.—The head clerk of the Back Tax Collector's office, Cope Snapp, has been arrested for complicity in defalcations. His personal peculations are said to be large. William Portman, another clerk, is also implicated. The School Board lost considerable money by the steal, and will sue the city.

SUSPECTED WIFE MURDER.

STRATFORD, Conn., Jan. 12.—Wm. Brush, suspected of murdering his wife, was arrested in New York and brought here. He asserts his innocence.

IRON MAKERS SOCIETY.

PITTSBURG, Jan. 12.—The Pig Iron Manufacturers' Association, instead of being confined to the west, will have a member as far east as New York, as far south as Alabama, and in the west and south-west will draw in all the prominent furnace men. The association favors the report of the Tariff Commission.

POLK THREATENS.

SAN ANTONIO, Texas, Jan. 12.—Treasurer Polk threatens to make a full and thorough development of the matter, which will criminate a number of high officials.

A SUSPECTED INCENDIARY.

MILWAUKEE, Jan. 12.—The detectives worked months to procure evidence against a party who several times fired the Newhall house. This person suspected was a well known and prominet citizen. Lawyers have been engaged in several cases by the friends and relatives of the lost ones to look up the laws and begin criminal proceedings. One attorney stated that the mere fact of not keeping ropes in each room, as required by the state law, rendered the proprietors liable, and they will probably be prosecuted.

UNDERVALUATIONS.

NEW YORK, Jan. 12.—The report of Treasury agent Adams says there has been a considerable number of violations of the customs laws. The report estimates that formerly 1,920,000 cigars, valued at $100,000, came yearly from Cuba. There were forty arrests during the year. The amount paid the Government on account of undervaluations, fines, &c., in the past year was $190,000.

MEXICO AND THE U. S.

WASHINGTON, Jan. 12.—It is stated that no reciprocity treaty between the United States and Mexico is yet agreed upon, but the details have been discussed, and there is reason to believe that the treaty will be approved and sent to the Senate at this session. It is said that there has been greater difficulty than was expected in coming to an agreement, either in Mexico or here, upon the general principles which should guide the commissioners charged with framing the treaty. It is stated that the treaty is intended to be no more than an experiment and will run therefore for six years only. It will admit to the United States free of duty Mexican sugars, and admit the United States machines of all kinds and agricultural implements. It is not intended on either side to be a treaty of reciprocity, both governments agreeing to substantially the limits above stated with a few additions on both sides of minor importance. Mexico does not grow more sugar than it needs for its own use, and in six years the product cannot be very greatly increased. No doubt the treaty provision will stimulate the production of sugar in Mexico, but that will be an advantage to the manufacturers of engines and sugar machinery in this country. The treaty will not provide for the free admission to Mexico of American textile fabrics.

PLANING MILL BURNED.

TONAWANDA, N.Y., Jan. 12.—J. L. Chapin's planing mill was burned at midnight. Loss, $25,000; insurance, $7,000.

THE MILWAUKEE HOLOCAUST.

MILWAUKEE, Jan. 12.—The loss by the fire is now estimated at only $300,000. John Gilbert comedian, jumped from the third story window with his wife in his arms. At about the same time Allan Johnson jumped from a window. He fell on both Mr. and Mrs. Gilbert, and the united weight of both men crushed the wife to death. Gilbert's head was frightfully injured.

CHARGED WITH FORGERY.

NEW YORK, Jan. 12.—Rice, ex-president of the Utica and Elmira Railway, is charged with forgery and embezzlement. He pleaded not guilty. Ex-Speaker McGuire, his counsel, will apply for a reduction of the bail.

MIDNIGHT TELEGRAMS

CABLE.

RELIEF FOR THE DISTRESSED.

BERLIN, Jan. 11.—The extent of the flooded country of the middle Rhine district and the extensive tributaries of that river is computed at 700 square kelometers. The King of Bavaria has given a second 1,000 marks for the relief of the distressed. It is remarked that two officers of the general staff have been ordered to Konigsberg and Thorn. Similar special measures of acquiring information were previously only taken at Metz and Strasburg.

COMTEMPT OF COURT.

LONDON, Jan. 11.—The Lord Chief Justice to-day granted a rule calling upon the editors of the *Times* and *Observer* to show cause why they should not be proceeded against for contempt of court in publishing correspondence in connection with the libel case of Chamberlain v. Bird.

MR. BRADLAUGH'S CASE.

LONDON, Jan. 11.—Judgment was to-day given against Mr. Bradlaugh in his action against the deputy sergeant-at-arms of the House of Commons for assault on the occasion of Mr. Bradlaugh attempting to take his seat after the House had prohibited him from so doing.

DE BRAZZA AND STANLEY.

LONDON, Jan. 11.—A correspondent writes to the *Times* that there is every reason to believe that if M. de Brazza attempts to encroach on Stanley, who is now on the Congo, he will meet with a warm reception.

THE LAND LEAGUE FUND.

DUBLIN, Jan. 11.—A lively correspondence is again progressing between Mr. Egan and Mr. Pigott concerning the Land League funds. Mr. Pigott declares that £100,000 have not been accounted for.

GOING TO FIGHT IT OUT.

LONDON, Jan. 11.—Mr. Davitt, speaking at Birkenhead last night, referred to the distress in the west of Ireland. He said it was humiliating that Ireland should stand before the world from time to time as a mendicant people. Ireland had had enough futile agitations and semi-insurrections; they were going to fight it out this time.

TO VISIT AMERICA.

DUBLIN, Jan. 11.—Mr. Sexton departs immediately for the United States in response to the request of Mr. Parnell, who has received a cable from President Mooney, of the American Land League, asking him to send Mr. Sexton to attend the convention to be held in the United States in February for the purpose of reorganizing the American Land League into the National League.

AMERICAN.

ROBBERY.

COUNCIL BLUFFS, Iowa, Jan. 11.—Dr. Ballard, aged 70, a prominent politicial and wealthy land owner, while alone and sick in a house in Aubobon County, was robbed by burglars of $2,700 after a struggle.

VICE-REGAL MOVEMENTS.

CHARLESTON, S. C., Jan. 11.—Information has been received by the British Consul here that H.M. ship *Dido* will arrive at Charleston on Monday next. The Consul has received no direct news of the movements of the Princess Louise, but it is surmised that the *Dido* has been ordered to touch at this port to await the arrival of the Princess here, and convey the Royal party to the Bermudas, as was first contemplated.

KILLED IN A LUMBER CAMP.

EAST SAGINAW, Mich., Jan. 10.—About five o'clock this morning Eron Lefevre, aged 24, a single French-Canadian, was instantly killed at Bliss & Browne's camp at North Bradley by a log rolling from the top of a load upon him. His head was crushed and his right arm broken in two places. The remains were sent to his former home at Coteau Landing, Que., this evening.

ASSISTANCE GRANTED.

WASHINGTON, Jan. 11.—Secretary Folger has decided to comply with the request of the authorities of British Columbia for assistance in the Indian trouble at Fort Simpson. He has instructed the commander of the revenue steamer Walcott to go to Fort Simpson and prevent violence, but not to employ force unless to repel attacks imminent against the whites, and then only upon a written request from the British Columbia authorities.

TUMBLE IN COAL PROBABLE.

NEW YORK, Jan. 11.—It looks as though there would be a tumble in the price of coal. The price is now about 30 cents a ton less than circular rates, and unless the colliers suspend next week coal will be bought much cheaper than at any other time for a year past.

FALL FROM A HORSE.

NEW ORLEANS, Jan. 12.—G. B. Washburne, ex-Minister to France, was painfully but not seriously injured yesterday by being thrown from a horse.

RAILWAY PURCHASE.

CHICAGO, Jan. 12.—*Truth* says that Vanderbilt is contemplating the purchase of the Illinois Central, and has been quietly buying its stock.

Alive Horsford's Acid Phosphate.

AS A NERVE FOOD.

Dr. J. W. Smith, Wellington, O., says: "I have used it advantageously in impaired nervous supply."

GEORGE BLISS received, up to January 1st last, $40,000 for fees and expenses as special counsel in the Star Route trial. The total paid to special council to that date was over $66,000.

SALLOWNESS AND WRINKLES.—The former gives place to the bloom of youth, the latter are smoothed out and depart when the Fountain of Health is used. Twenty-five cents per package.

WITH every bottle of Dr. Carson's Pulmonary Cough Drops, a sample bottle is given free of charge. If, after using the trial bottle, you are not satisfied with its effect, you can return the large bottle to your dealer, who will refund the money. Thousands can testify to its prompt action in curing Coughs, Colds, Bronchitis etc. If you suffer, try them. Price 50 cents. Sold by all Druggists.

Personal! To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

South End Bookstore.

And now that he has done with Christmas cheer,
The honest schoolboy doth begin to appear.
With purse in hand he comes into our store,
Saying, "This is where I should have come before!
"I want some books—*they must be good and cheap*,
You buy for cash, and I the benefit reap.
A Spelling Book, a Reader and a Copy—
The price of each I know will suit my 'Pappy'—
An Arithmetic, a Grammar and a History,
But how I am to carry them's a mystery.
You say I need a Bag to accommodate
My school-books, pens and pencils and my slate?
Yes! *that's the thing, my fears are at an end*,
No harm to books from snow or rain or wind.
I'm feeling, now, quite happy and contented,
Well satisfied with what I have expended;
And rest assured, if I want any more,
I'll come right back to the South End Bookstore."

Daily Evening Review

FRIDAY, JANUARY 12, 1883.

DISGRACING HIS UNCLE.

THE Detroit *Free Press* gives currency to the following anecdote:—

"How did you ever come to run for the Legislature, anyhow?" asked Charles O'Bean of Myer Hudgins, an elected member of the Missouri Legislature, and who is visiting Austin for his health.

"I did it to bring disgrace on my uncle. He treated me badly when I was a boy, and I took a fearful vow I would humiliate him, and I have done it."

"What business is your uncle engaged in?"

"He is making shoes in the Ohio penitentiary."

It seems that the Hon. S. C. Wood, who bye-the-bye is declniding to try again for a seat inthe Legislative Assembly of Ontario, and in consequence may be less particular as to its composition, is desirous of reducing the Legislature of this Province to the same low status as is thus imputed by our facetious contempory to the Legislature of the State of Missouri.

EDITORIAL NOTES.

THE Kingston *British Whig*, a staunch Reform journal says:—

"The *Mail's* abuse of the Liberal delegates to the Toronto Conventions has been repudiated by the more respectable Conservative papers in the Province."

This is undoubtedly true, and we are glad to see our contemporary do this justice to the Conservative party. We are emboldened thereby to ask another favour from the *Whig*, and to invite it to inform us which of "the more respectable" Reform papers repudiated the *Globe's* abuse of the Conservative delegates to the Toronto Convention last September.

⁂

WE are glad to see that the Fenelon Falls *Gazette*, though it contains a letter on the subject of the nomination of Mr. S. S. Peck as the Reform candidate for North Victoria, does not contain any other reference to it. Our contemporary cannot honestly support such a disgraceful choice, and therefore evidently prefers to keep silence, being not unjustifiably loath to describe the action of its party in fitting terms.

⁂

MR. BLAKE in speaking at the recent Convention treated the Boundary Question as usual in a very gingerly manner. *He* was careful, having due regard for his professional reputation, not to attempt to maintain that the award was valid. In fact he characterised it as "one which we ought to expect the Dominion Government to *make final and conclusive*." Thus he altogether declines to support the contention of his friends that the award is already final and conclusive.

A CONSERVATIVE REFORM.

The Toronto *Evening Canadian*, commenting on the Mowat platform, remarks that the resolution in favor of the extension of the franchise is the *only* one that conveys a hint of genuine reform, and after quoting, it adds:—

"Curiously enough, the above was seconded by a son of the late Hon. John Sandfield Macdonald, whom Mr. Blake and his party pursued for years with unrelenting bitterness. If the resolution means anything, it means that the young men of our towns and cities are to be placed upon the same *political footing* as the sons of farmers. This a plank from the Conservative platform, and its adoption will mean an increase of Conservative voting power, as the young men of our urban communities are, as a rule, Conservative."

A Greedy City.

The *Belleville Ontario*, in reference to the proposed removal of the Victoria and Albert Universities from Cobourg and Belleville, very justly says:—

"We observe that the *Globe* makes a selfish argument, as usual, against the proposed change, only so far as Hamilton is concerned, and insists that, should the University authorities resolve upon moving to a large city, Toronto offers superior inducements. This is only an exhibition of the same selfish motives that have always influenced our contemporary when the location of any public or denominational institution was under discussion. Toronto has her share of such favors as accrue from institutions of the kind, and can offer no inducements over Belleville and Cobourg."

NARROW ESCAPE.

A Man Loses His Way on the Lake of the Woods—His Rescue.

James Smith, one of the teamsters in the employ of the Keewatin Mining Company, Hay Island, got lost on the Lake of the Woods on Wednesday night last, having got off the trail shortly after passing Nameless Point, on his way from Rat Portage to the mines. The horses, owing to the breaking of the *ring of the neck-yoke and the tongue of the sleigh*, left the trail, and were not observed by Smith till too late to retrace his way. After crossing and recrossing numerous trails for about an hour, he concluded to unhitch the horses, and let them find their own way to the camp, Smith following them. Owing to the water on the ice and the intense cold, his legs became imbedded in ice, and in consequence he was unable to keep up with the horses. His last hope was gone when in the distance his horses disappeared from his view. Fortunately for Smith, the horses found the camp, and went to the door and began to neigh. Immediately, the whole camp turned out en masse and organized themselves into three search parties, headed by Supt. Nagle, James F. Meagher and Hugh Brown respectively. In about half an hour after leaving camp, Mr. Brown's party found poor Smith in an almost unconscious condition, scarcely able to stand and quite exhausted. He was carried to the camp, where everything that could be was done to relieve him. For three hours he was vigorously rubbed with cold water, and subsequently annointed with carbolized cosmoline and enveloped in lint. Fortunately, the Company had previously sent out a medicine chest to the camp. Smith is now rapidly recovering. He feels grateful for his timely rescue and kind treatment received at the hands of the other employees of the Keewatin Company.—*Winnipeg Times*.

NEW YORK'S RICH WIDOWS.

Among the rich widows of New York, says an exchange, are Mrs. Paran Stevens, widow of the opulent landlord who built the Fifth Avenue Hotel and left his widow an estate of upwards of a million. She entertained the Grand Duke Alexis, and her daughter married an English nobleman. Mrs. A. T. Stewart, the richest widow in the Union, is a native of New York, and was born in humble life. Her husband, when she married, kept a petty retail store and began housekeeping under very humble circumstances. She now occupies the grandest private mansion, with the exception of W. H. Vanderbilt's, in America. Her property is estimated at $10,000,000, not including the palace she occupies, which cost $1,000,000. The taxes on this building last year were $9,000. Her pastor, the Rev. Mr. Rylance, recently visited England, where he could state that she, a member of his congregation, was engaged at Garden City, Long Island, a short distance from New York, in building a million dollar cathedral as a monument for her husband. Such things have seldom been done, even in the Old World. The late Commodore Vanderbilt's widow is the youngest of all the rich widows, and has thus thus far had the best chance. Her life has been somewhat eventful. She is an old acquaintance of the Vanderbilts, and was married early, but not happily. According to report, she obtained a divorce, and then supported herself by teaching music. During the war she was in the South, and was aided pecuniarily by the Commodore. At its close she came North, and as the Commodore soon after became a widower their marriage was a natural consequence. Mrs. Vanderbilt is under fifty. She has a legacy of $500,000, being at the rate of $100,000 a year for her married life, and the interest of this is equal to $1,000 a week. She can now marry to suit herself. She has long been an admirer of Deems the preacher, and his influence led the Commodore to endow the Nashville College. She attends the Church of the Strangers, where Deems preaches, his tenets being much the same as those held by the Methodists. He has the free use of the church for life, and therefore cannot go into itinerancy. Another rich widow is Mrs. M. O. Roberts, who, after three years of married life, was left with a dower in an estate of $6,000,000. She still occupies the house built by her husband in Fifth Avenue, and has a rare gallery of pictures. Report at one time connected her name with the President, but there are at present no indications of a matrimonial character.

Remarkable Feats of a Horse.

Mr. Frederick Gunther, the proprietor of the North Point farm and headquarters of the North Point Ducking Club, is the owner of a remarkable swimming horse. Since June last the unusual feat of swimming has occurred on no less than five different occasions. The horse has accomplished the remarkable feat of swimming from the west North Point Light to Seven Foot Knoll and return, making fourteen miles each round trip. The last feat, and most remarkable of all, was as follows, and those familiar with the locality know well the distance:—The horse entered the water at his old familiar point, the West North Point Light, and swam two miles beyond the front beacon light and near to Tolchester Beach. Being headed off by his owners in a four oared boat, he turned and swam to Miller's Island light, and when he struck bottom he rested until Mr. Gunther and a well known oarsman overtook him. He then again entered the water and completed the distance of nineteen miles without leaving the water. The horse was purchased by Mr. Gunther at a point down the bay called Chincoteague Island, where he was used to swimming from the island to the shore with his rider, and return when he thought it convenient. Your correspondent rode behind this remarkable horse from Mr. Gunther's farm to Canton, a distance of thirteen miles, in ninety-five minutes.—*Baltimore Sun*.

Grand Trunk Suits.

Mr. Justice Proudfoot's judgments in the actions of Hendrie and others against the Grand Trunk Railway, and of the Grand Trunk against the Toronto, Grey, and Bruce were delivered yesterday morning. The decree is against the Grand Trunk in both cases, and with costs, but the matter will not rest here, notice of appeal having already been given to the Court of Appeal. Both actions, as will be remembered, arose out of an agreement to lease the Toronto, Grey, and Bruce Railway to the Grand Trunk. Mr. Hendrie and other large shareholders of the former road seeking to set aside the agreement and the Grand Trunk seeking to enforce it. The principal point decided by Mr. Proudfoot in his judgment was that bondholders of the Toronto, Grey, and Bruce Railway were entitled to vote upon the agreement, and that it was never legally ratified by reason of the bondholders not being permitted to vote.—*Globe*

IN DRY FORM.—The contents of a package costing 25 cents will make a quart of medicine called Fountain of Health, unequalled for purifying the blood and toning up a debilitated system.

An Interesting Case.

A case arising chiefly from professional jealousy has lately been argued and decided at Osgoode hall. The following are the particulars: Mr. Chapman, an auctioneer, residing in a neighboring county, was sent to conduct a sale of land in an adjoining county. The auctioneers in that county did not at all relish the appearance of a stranger in their midst, and they consequently swore out an information against him, and brought him up before a bench of Magistrates—two of whom were auctioneers—on a charge of selling land in that district without a license. He was convicted and fined, and no doubt his enemies rejoiced greatly in his downfall. Chapman, however, was not to be imposed upon, and he at once applied at Osgoode hall to have the conviction quashed. He took the grounds, first that the by-law under which he was convicted related only to sales of personal property and not to sales of land, and second, that the Magistrates were biassed, two of them being auctioneers. Mr. Justice Osler gave judgment yesterday, holding that both the objections taken by Chapmer were good, and that therefore the conviction must be quashed. He also awarded costs against the convicting Magistrates.—*Mail*.

The Forests of Grand Isle, Vt.

The region of Grand Isle, Vt., is said to have suffered a depletion of half its forest timber in the past 30 years. Hundreds of acres of land have been cleared entirely of heavy timber and reduced to tillage or pasture, and the forests now *standing* have been thinned out and culled extensively. It is claimed there is hardly a farm that could replace its cedar fence from its own forests, and scarcely one with sufficient to rebuild its dwelling and out-buildings, while on many farms there is no timber for fuel. Little or no timber planting has been done. The island was at one time famous for its magnificient oaks, the stumps of many grand trunks still standing, and there is hardly a pine tree fit for a spar. Every farm once had a sugar orchard, and now there are hardly any that can be worked. In fact, the oak, pine hemlock, tamarack, cedar, and maple are practically exhausted, though at first blush it might seem that the forests were quite extensive. The few groves of second-growth cedar are being largely utilized for hop poles, which bring, standing, 2 or 3 cents each, but if left to grow about 20 years or so they would be worth about $1 each for posts, telegraph poles, or ship knees.—*Northwestern Lumberman*.

Look to the Comfort of Your Horses.

Few men would care to stand in one spot for half an hour on a cold and stormy day, yet many, very man, leave their poor horses to stand for hours without the slightest covering save the frosty harness. Any one who has ever become overheated knows how uncomfortable it is to be exposed to a chilly atmosphere, yet hundreds of horses are driven until every pore of the body is given off sweat, and then left to stand in an exposed place with the cold below zero. The hair of the horse gives protection and warmth to its body, but it is not sufficient for the winter season, and during the coldest days is of no more comfort to poor animal after a fast drive, than a shirt would be to the body of a man. Owners of horses should think more about their horses, and act more generously towards them, and while the winter months last, see that a good warm blanket or covering is laid upon the exposed bodies of their animals at every stopping place.—*Campbellford Herald*.

"Barkis is willing." But it's because Barkis can't help himself. He has to believe facts. Churchill's Ointment never fails to cure old sores when all else fails. Twenty-five cents a box.

LET THE UNBELIEVING TRY IT.—One package of Fountain of Health will do more to make the aged and weak feel young and strong than any other medicine at four times the cost. Price 25 cents.

A Vexed Clergyman.

Even the patience of Job would become exhausted were he a preacher and endeavoring to interest his audience while they were keeping up an incessant coughing, making it impossable for him to be heard. Yet, how very easy can all this be avoided by simply using Dr. King's New Discovery for Consumption, Coughs and Colds. Trial Bottle given away at Taylor & Macdonald's Drug Store.—2.

NOTHING BETTER THAN CHRISTIANITY.

We have learned to look upon Jesus Christ the founder and life of our religions, as perfect We have never thought or imagined of a purer being than He. Even they who hold that we have not arrived at the true form of religion, concede to Jesus the best of motives and the noblest of characters. Among all the founders of religions, Jesus stands pre-eminent, and when we have experienced His love, when we have become acquainted with His life as it is revealed to us in His gospel, we must exclaim that under the heavens there never breathed a purer, lovlier, holier and more sympathetic being than Jesus. Now, when these men advance the idea of something better than Christianity, they must take into consideration the finding of a purer and better character than Christ. It will be impossible for them to substitute anything better than Christianity until they have found some one better than its founder. But where will they look for this being? Where is the prophet who can ever hope to approximate even to the purity and unselfishness of Jesus Christ? He stands alone among men, "the chiefest among ten thousand," and the one "altogether lovely." He is the only perfect flower that has budded out of the human race. Even his enemys have borne testimony to the Excellence of his character. While they have denied His supernatural claims, and have endeavored to destroy His religion, the unparalleled perfections of His life have compelled them to accord to Him the highest place among the sons of men. Now, if the religion of this Christ is too narrow, if they want something wider, more liberal, more rational, their want implies the necessity of a being of wider knowledge, of greater sympathy, and of purer motives than those of Jesus. Can such a being be found? These men might as well seek for a source of heat that is in advance of our sun, which gives warmth and light and life to our planet, as to seek for anyone who is in any manner an improvement upon the Son of Righteousness.

What improvement could there be upon Christianity in the matter of sympathy, of actual help and encouragement for those who are cast down and in trouble? Men in all ages have propounded ways, and in their worldly wisdom have devised means whereby the race might be healed of its sorrow, and all have failed. What paganism did for Greece and Rome is shown by the graphic description of their terrible immoralities given us in the first chapter of Romans. The religion of India offers very little of comfort and help to its people, which may clearly be seen by the degradation of the nation. It is the same with the religion of Mahomet. These religions may all teach man his misery, but leave him in it. They know not a way out of it. They have not felt the healing influence and power of Him who said, "The blind receive their sight, and the lame walk, the lepers are cleansed, and the deaf hear, the dead are raised up and the poor have the gospel preached to them." If men in their dreams and fantasies have ever imagined anything better or higher than this, why do they not propose it? Why do they not state it plainly, so that the burdened, the oppressed, the weary, with their heavy loads and aching hearts and tearful eyes might look to this better healer and be relieved of all their woes? But they are *silent*, and the *human* soul craves nothing better than Jesus.—*Christian World.*

Overtaxing the Brain.

In the recent lecture on "Brain Health," at Edinburg, Dr. J. Batty Tuke said that as a matter of fact it was not an easy thing to overtask the energies of the brain by work. It was not work, but worry, that killed the brain. But breakdown from overstrain did occasionally take place, and the first really important symptom was sleeplessness; when that set in there was cause for alarm. Loss of sleep was brought about thus :—When the brain was being actively exercised, there was an increase of blood in its vessels—this was spoken of as "functional hyperæmina." If they continued the exercise of the brain power too long, there was a tendency for the blood to remain in too great quantity from the cells becoming exhausted and not being able to control the vessels. In sleep the amount of blood was diminished, and sleep could not be procured if this functional hyperæmina persisted. In the absence of sleep, the cells could not recover themselves, and their activity became impaired. Headache, loss of appetite, and general listlessness followed. As soon as a child or young person developed continuous headache, work should be discontinued at once.

A New Temperance Agent.

Intemperance is to be attacked by a new agent, which is neither that of moral suasion nor prohibition. The new agent is nothing more nor less than an antidote for the taste, not the effects, of alcohol. Kola nuts are said not only to be food and drink to those who eat them, but they also serve to render the taste of alcoholic beverages nauseous to those who once eat them. An enterprising teetotaler in England, actively engaged in the propagation of the principles, has secured a consignment of Kola nuts and is now organising a method for disposing of them in the right quarters.

DO YOUR CHILDREN have fits or convulsions, grind their teeth, pick their nose, have a bad breath, or a changeable appetite? Are they restless or feverish at night? If so, ask your druggist for Dr. Smith's German Worm Remedy (take no other), it only costs 25 cents. Is simple safe, and pleasent to take. If there are no worms, to remove the slime and bile that breeds them, tones up the system, and will save many a doctor's bill. A word to the wise, etc. Thousands of testimonials.

A gallant reply: Miss Lucy (stopping opposite fireplace)—"Here's where you and I are to sit, major." The major—"By Jove, a rather warm place." Miss Lucy—"What, you a major and can't stand fire!" The major—"Not at my back, you know, Miss Lucy."

AN INVENTION IN SHOEMAKING.

For the past six months a Boston inventor has been making a shoe by a process which it is calculated will revolutionize the entire business. The process is very simple, but decidedly practicable, as it is equally applicable to ladies' work as to that of heavy work for men. Heretofore, in the manufacture of hand-sewed work, the upper leather, which remains after sewing the welt to the inner side, has either been cut off or tacked down and the space filled, but by the new method the upper, after having been fastened to the sole, is turned back over the welt, and in turn is again sewed to the outer sole, thus making the boot doubly strong and making it virtually waterproof. In case a poor inner sole is used, so that the sewing gives way, the welt will acts as a lever and there is no possibility of the upper pulling out. In the manufacture of common work for women, where machines are used, there is a rough seam left on the inside of the shoe which is decidedly uncomfortable to the wearer, whereas if made by the process alluded to the inside of the boot is left perfectly smooth. Then, again, by the old method nails are used to a greater or less extent in lasting, which in the due time give the wearer unmeasurable discomfort; but this is entirely obviated by the new process, as no nails are used, as the upper does not require to be fastened to the inner sole except by the sewing. Those who have investigated the process are loud in their praises, and compliment the inventor highly upon his success.—*Boston Herald.*

Woman's True Friend.

A friend in need is a friend indeed. This none can deny, especially when assistance is rendered when one is sorely afflicted with disease, more particular by those complaints and weaknesses so common to our female population. Every woman should know that Electric Bitters are woman's true friend, and will positively restore her to health, even when all other remedies fail. A single trial always proves our assertion. They are pleasant to the taste, and only cost fifty cents a bottle. Sold by all druggists.—2

GENTLEMEN,—Inclosed find $1, and will you send me some of N. H. Down's Vegetable Balsomic Elixir by express. I have a bad cold, as has almost every one else here, but cannot find the Elixir, which I used frequently at home and consider a most valuable medicine; in fact, the very best remedy for a cold that I ever used.

Very truly yours, WILLIAM W. GROUT.

It always gives us pleasure to draw attention to articles which are deserving of public patronage. Probably no article ever offered to the public has met with the same success as Gray's *Syrup of Red Spruce Gum. Thousands of* families in the Dominion keep it in their homes as the standard Cough Remedy. The sale of this article has assumed enormous proportions. Our advice to the public at large is to try its virtues if they should at any time unfortunately contract either Coughs or Colds. It is sold by all chemists.

THE

PACIFIC NORTHWEST!

Oregon, Washington, and Idaho.

Offers the best field for emigrants—viz.: a mild, equable, and healthy climate; cheap lands of great fertility, producing all varieties of Grain, Fruit, and Grasses in wonderful abundance; an inexhaustible supply of Timber; vast Coal Fields, and other mineral deposits; cheap and quick transportation by railroads and river navigation; direct commerce with all parts of the world, owing to its proximity to the Pacific Ocean.

NO DROUTHS, NO INSECT PESTS, NO HURRICANES, WHIRLWINDS, OR OTHER DESTRUCTIVE PHENOMENA.

The lands of the Pacific Northwest show an average yield of wheat per acre largely in excess of that of any other section of the United States.

No failure of crops has ever occurred.

Oregon wheat commands a higher price than that of any other country in the Liverpool market.

An immense area of very fertile Railroad and Government Lands, within easy reach of the trunk lines of the Northern Pacific R.R., the Oregon Railway & Navigation, and the Oregon & California RR. Co's and their numerous branches in the great Valleys of the Columbia and its tributaries, are now offered for sale at Low Prices, and on Easy Terms, or open to pre-emption and Homestead Entry.

The great movement of population to the Columbia region now in progress will be enormously increased by the completion of the Northern Pacific RR. and the Oregon Railway and Navigation Co's systems. This renders certain a rapid increase in the value of Lands now open to purchase or to entry under the United States Land Laws.

POLICE COURT.

DRUNK.

Thursday, Jan. 11.—James Ward, who had only been out of gaol a short time, was again brought before the Magistrate for drunkenness, having been arrested on Wednesday afternoon. He promised that, if allowed to go, he would leave town at once, but the Magistrate, probably not having faith in his promise, fined him $2 or twenty days in gaol. He was again committed.

THE HORTICULTURAL SOCIETY.

Annual Meeting—The Annual Reports President—Election of Officers.

The annual meeting of the members of the Peterborough Horticultural Society was held at the Bank of Toronto on Tuesday evening. The chair was occupied by Mr. J. H. Roper, President, and their was a fair attendance of members.

The Secretary read the following annual report, which was adopted:—

ANNUAL REPORT.

To the Members of the Peterborough Horticultural Society:—

Gentlemen,—The Directors beg to submit the following report:

The past year was one more favorable as regards Horticulture, than the previous year, 1881, and as a consequence we had a much better exhibit at our annual Exhibition, which was held on Thursday, the 7th day of September last. The weather proving favorable, we had a very much larger attendance of members and the general public. The Exhibition was in every respect a decided success.

The number of entries was 328, being an excess of 85 over previous year, and in point of merit and variety superior to that of 1881, especially was this the case in class 1, plants and flowers. The Directors congratulate the members on this fact—Plants and Flowers—the cultivation of which forms the leaving feature of our Society.

The amount $154 was paid in prizes by the Treasurer on orders granted by the President and Secretary.

The Society's position as regards the number of member, on the roll (63), and the balance of cash in the Treasurer's hands as shown by his report, the Directors are glad to report satisfactory.

It has been suggested that it would be well in framing future prize lists to cut off some of the classes which obtain a place in our present list, and confine ourselves more to what is the legitimate aim and purpose of the Society, viz: The cultivation and fostering of a taste for Horticulture.

This is a matter which will no doubt be taken into consideration and dealt with by the gentlemen composing the new Board of Directors.

In conclusion, the Directors venture to hope that the members and general public will continue to take an increased interest in the Society's welfare.

All of which is respectfully submitted,

J. H. Roper, President.

J. Irvine Davidson, Secretary.

Peterborough, 11th January, 1883.

Secretary—J. I. Davidson (re-elected).

Directors—Wm. Mills, G. M. Roger, J. R. Stratton, Dr. G. Burnham and James Best.

SERVICES RECOGNIZED.

The usual grant was unanimously voted to the Secretary, for the services which he had rendered to the Society during the year.

VOTE OF THANKS.

After passing a vote of thanks to the officers for the manner in which they had conducted the affairs of the Society, the meeting adjourned subject to the call of the President.

Council Meeting.

A meeting of the Town Council will be held this evening at 7.30 o'clock, in the Council Chamber.

Lumber Sale.

Mr. J. M. Irwin's auction sale of lumber at Nassau Mills on Wednesday was very successful, the large quantity offered being readily purchased at satisfactory prices. The competition was keen, there being several buyers from a distance, besides our local builders and farmers, so the auctioneer Mr. C. Stapleton, was kep busy with the bids.

The Jubilee Singers.

Perhaps the best commentary on the music of the Tennessee Jubilee Singers, is the fact that, although it is but a short time since they visited Peterborough before, they were greeted on Thursday night with a full house, not a seat being vacant and many improvised ones being occupied. The music which they sing is certainly peculiar, but they have now caused it to be somewhat familiar. Its charm, however, is not lost, and appears to delight an audience as much as when it was first introduced to the public. The band of singers is composed of good vocalists, and one of the secrets of their success is the freedom and ease with which they sing, and their apparent earnestness. The best effect is produced when the company sing together in a part song, although Miss Jennie Jackson and especially Miss Minnie Lawrence possess voices capable of delighting any audience singly, and this was noticed more particularly in the favorite "Jingle Bells." The director, Mr. Loadin, announced that it was possible that they might visit Peterborough again another season, and if they do, we believe they will again be welcomed by a large audience.

Curling Match.

A friendly game of curling is being played this afternoon at the curling rink between the Lakefield and Peterborough clubs.

The Temperature.

The thermometer at Messrs. Taylor & Macdonald's registered as follows to-day:—At 8 a. m. 5° above zero; at noon 10° above zero, and at 3 p. m. 14° above zero.

The Weather Probabilities.

The weather probabilities for this district for the following 24 hours, as reported from Toronto at 1 a. m. to-day, by the Great Northwestern Telegraph Company, are as follows:—Winds gradually shifting to the south and southeast; generally fair weather to-day, with stationary or slightly higher temperature. Milder weather to-morrow.

The Record.

In the first draw at the Bowmanville bonspiel, in which Peterborough played against Newcastle, the following were the scores:—Peterborough—G. Brown, skip, 30; T. P. Attrill, skip, 29. Newcastle—W. Pringle, skip, 6; J. Brown, skip, 7; majority for Peterborough, 46. In the play with Port Hope the score was as follows:—Peterborough—T. P. Attrill, skip, 19; G. Brown, skip, 14. Port Hope, G. F. Hall, skip, 19; E. J. Burton, skip, 26; majority for Port Hope, 12. In the final game between Port Hope and Whitby the scores were as follows:—Whitby, first rink, 17; second rink, 17. Port Hope, first rink, 22; second rink, 13; majority for Port Hope, 1.

The $7,000 Forger.

Montreal, Jan. 11.—Sheehan, the New York forger, reconsidered his determination to resist being taken back to stand his trial for his $7,000 steal, and left by rail to-day with one of his late employers to meet his fate. He stated that the money was used to pay off a mortgages debt on some property of his mother's, and would be recouped if the estate was value for it, which he doubted, however, as there was a decline in property since the mortgage was discharged. He seemed to have gained a lot of friends during his residence in the city, and the detectives had to resort to a ruse by taking him a roundabout way in order to prevent his rescue, which was threatened, at the Bonaventure station. He kept up good style while here, and was arrested in one of the best hotels.—*Mail.*

BELLEVILLE.

Highwaymen at Work.—A Thurlow farmer whilst driving homeward, under the influence of liquor, on Saturday night, was set upon by two men, who boarded his sleigh and searched his pockets for money, but found none, as he had dropped a roll of bills out of his pocket in an hotel at Plainfield, the landlord of which kept it safely for him.

Dyspepsia and Liver Complaint.

Is it not worth the small price of 75 cents to free yourself of every symptom of these distressing complaints, if you think so call at our store and get a bottle of Shiloh's Vitalizer, every bottle has a printed guarantee on it, use accordingly and if it does you no good it will cost you nothing. For sale by J. D. Tully.

Oh, What A Cough!

Will you heed the warning. The signal perhaps of the sure approach of that more terrible disease Consumption. Ask yourselves if you can afford for the sake of saving 50 cts., to run the risk and do nothing for it. We know from experience that Shiloh's Cure will Cure your Cough. It never fails. This explains why more than a Million Bottles were sold the past year. It relieves Croup, and Whooping Cough, at once. Mothers do not be without it. For sale by J D. Tully.

It made me feel like a "Band of Music," was the rather forcible expression of an individual who was praising "Pectoria," the great remedy for Coughs and Colds, Hoarseness, Asthma, Bronchitis. It is safe, pleasant and effectual. If you suffer, try it. For sale by all druggists and general dealers at 25 cents a bottle.

A SURE THING!

Clothing again! Well, it's about the most interesting topic we can talk of just now. It's the season when clothing is most needed, and the season we must sell it, so you see it interests us both. Our stock of Clothing for this time of year is large, our assortment unusually complete, facts of great advantage to buyers, and of some advantage to us, as it enables us the better to suit you. We want to hurry the out-word movement of our stock and consequently will give a decent discount to prompt cash buyers. This reduction is made solely with a view to working off in proper season our immense Stock, and not because the goods are in any respect undesirable. Our clothing is built of strong serviceable fabrics, well and carefully made, and with trimming warranted to wear. Every style of goods from plain and sturdy to the most elegant. Nothing slighted, except our profits.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.) THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, billiousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine. Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

SATURDAY, JANUARY 13, 1883.

Funeral.

The funeral of the late Mr. John Sanderson, of Smith, who was deprived of his life by an unfortunate accident in Toronto, was largely attended on Friday afternoon.

At the Rink.

A couple of rinks from the Lakefield Curling Club visited Peterborough on Friday afternoon, and, in conjunction with home players, friendly games were played in the afternoon and in the evening. The Lakefield Club has not been a long time in existence, but it contains some excellent curling material, and with further experience and practice they will not be easy to defeat. The Fire Brigade Band was present at the rink in the evening and increased the pleasure for the curlers and a large number of skaters who were on the ice.

Personal.

We notice with pleasure that our old friend, Mr. Geo. A. Morrison,, has returned to his old place in the Life Insurance Department of Mr. Geo. A. Cox's office.

The Rev. T. F. Fotheringham, M. A., formerly of the Presbyterian Church, Norwood, was inducted into the pastorate of St. John's Church, Jt. John, N. B., on Tuesday, January 9th. Mr. Fotheringham was much thought of by his parishoners in Norwood, and was generally respected. His many friends will be pleased to learn that he is in good health, and has been given the charge of a prosperous congregation.

A Want Supplied.

We are pleased to learn that Mr. Geo. C. Rogers, having been requested to do so by a number of parties, has entered into the ice industry, and is prepared to take orders for the delivery of ice during the summer. He will visit the ice establishments in Toronto, in order to become familiar with the best modes of carrying on the business and satisfying his customers. As will be seen by his advertisement, Mr. Rodgers will guarantee to deliver in a regular and satisfactory manner, but this guarantee is hardly necessary, as he is well known for business regularity and promptitude. Mr. Rodgers,enterprise will supply a want, and we have no doubt that he will meet with encouragement.

Railway Notes.

The noon Midland and Grand Junction trains were both late to-day.

The Grand Trunk mail train from the west did not connect with the noon Midland train at Port Hope to day, and consequently the western mail did not arrive.

The Norwood *Register* says that Mr. McDonald is making good progress with the cut through "Orange Hill." A temporary bridge has been erected over the partially completed abutments, so that the earth is now being removed from the east side of the cut and used for filling the ravine in front. The greater part of the hill will probably have to be used for this purpose. If the weather continues favorable the work will be completed in two or three weeks.

Fancy Flannels at cost, Fancy Flannel Shirtings 15 to 20 per cent below regular prices. Turnbull & Gray.

THIS DAY'S TELEGRAMS.

Press Despatches to the Review.

A YOUNG PRINCE.

LONDON, Jan. 13.—The Duchess of Connaught was safely delivered of a son at Windsor Castle to-day

EGYPT AND THE CANAL.

CONSTANTINOPLE, Jan. 13.—A scheme for administrative, judicial, financial and military reforms in Egypt, which the British Charge d'Affairs handed to the Porte, also deals with the proposed regulations in reference to the Suez Canal, and arrangements for withdrawing the British troops when the object aimed at are secured. The scheme has already dispelled the idea of the contemplated annexation of Egypt.

FROZEN TO DEATH.

MOSCOW, Jan. 13.—Persons frozen to death are found in the streets daily. Four deaths from cold occurred at Kharkoff recently.

ARRESTS IN IRELAND.

DUBLIN, Jan. 13.—There were several arrests last evening and this morning under the Crimes Act. A number of persons arrested had weapons. The prisoners are principally artisans. It is stated that one of the prisoners is a member of the municipality who was arrested at midnight in his own residence and conveyed to the station under a strong escort. The prisoners will be privately examined to-day. The arrests number fifteen. The prisoners will be tried with conspiracy to murder,

IRELAND'S CROPS.

LONDON, Jan. 12.—The deprecation in the value of the crops in Ireland last year in consequence of the unfavorable harvest aggregated £5,116,000 compared with 1881, and £252,000 compared with the average preceding ten years. The bulk of the loss was on the potato crop, which was £318,000 compared with 1881, and £274,000 compared with the average preceding ten years.

AMERICAN.

THE SUGAR TARIFF.

WASHINGTON, Jan. 13.—A representative of the Louisiana sugar growers yesterday before the Senate Finance Committee advocated the duty on sugar fixed by the Tariff Commission. He said that sugar production was the almost exclusive support of 400,000 individuals.

NEW YORK HOTELS.

NEW YORK, Jan. 13.—The Inspector of the Bureau of Buildings has directed the examiners to visit the hotels as quickly as possible and report concerning the safety of the buildings.

PANIC IN A THEATRE.

NEW YORK, Jan. 13.—A smoking gas jet caused an excitement in the Union Square Theatre last night. The audience rose and crowded the aisles, making a rush for the doors. A panic was prevented by the assurances of cool headed persons. Several ladies fainted and some lost there jewelry. The performance was resumed.

THE DUTY ON PIG IRON.

WASHINGTON, Jan. 13.—A delegation of pig iron manufacturers are here to protest against the reduction of the duty on pig and scrap iron. They claim that the reduction would be disastrous to their industry.

BUSINESS FRAUDS.

TRENTON, N. J., Jan. 13.—In the examination of the insolvent Globe Rubber Company's accounts it was testified that the Company, after existing six months, lost $330. Nine days after the Company declared a divident taken out of the capital. The Company continued to lose money until suspended. The "kite flying" was about three times the amount of the ligitimate business. The Treasurer testified that he never paid a cent for his stock. The creditors seek to recover their goods, which they charge were obtained after the insolvency of the company was known to it.

IMPORTANT SUIT DECIDED.

LOUISVILLE, Jan. 13.—The celebrated Texas Pacific Bond case, which has been pending since 1877, and which involved primarily two millions of property, and has since affected to some extent the ownership of the Texas Pacific Railway, was decided here yesterday against the stockholders of the old company.

POLK'S DEFICIENCIES.

NASHVILLE, Jan. 13.—The report of the investigating committee censures certain banks for giving Treasurer Polk false credit to help him to conceal the defalcations. The report says that had the banks not done this Polk's delinquency would have been found out, and the State saved $200. The report recommends the Attorney-General to proceed against the banks to recover the above amount. The report also recommends suits to recover $150,000 loaned by Polk, to various persons. The committee report the entire deficiency as $402,000.

FIRE TRAPS.

CHICAGO, Jan. 13.—A commercial traveller of long experience in the hotels of the North-western States, mentions that there are fifteen cities of medium size in which there are worse fire traps, if possible, than the Newhall House.

BRITISH STEAMER ASHORE.

PORT A FERRY, Iceland, Jan. 13.—The British ship Wild Deer, from Glasgow for New Zealand, with 200 passengers, is ashore on North Rock Claghey. She will become a total wreck. The passengers were safely landed.

OBITUARY.

BRYANTOWN, Md., Jan. 13.—Dr. Samuel Mudd, who set the broken leg of John Wilkes Booth, the assassin of Lincoln, died on Wednesday, aged 50. Mudd was sentenced for life and sent to Dry Tortugas, where during the yellow fever epidemic he rendered such valuable services that after a few years he was pardoned.

Personal! To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

WITH every bottle of Dr. Carson's Pulmonary Cough Drops, a sample bottle is given free of charge. If, after using the trial bottle, you are not satisfied with its effect, you can return the large bottle to your dealer, who will refund the money. Thousands can testify to its prompt action in curing Coughs, Colds, Bronchitis etc. If you suffer, try them. Price 50 cents. Sold by all Druggists.

SNOWDON.

THE IRON MINES.—The Bobcaygeon *Independent* says that as the knowledge of the iron deposits of this township extends it becomes more clear that they are of immense value, and there can be no doubt as to these deposits being extensively worked in the near future, and the whole of this country becoming a mining district, where a large population will be sustained by the iron industry. Messrs. Parry and Mills are steadily pursuing their course, and will have a furnace at work within a moderate period, and Mr. Pusey and Mr. Ivatts are also carrying on their labors with admirable persistency and courage. Mr. Ivatts has only recently returned from Europe, and whilst in Paris conferred with several large capitalists with a view to obtaining the funds for carrying on smelting and mining on a large scale. It is hoped that the result of his negotiations will be to obtain all the capital—a very large sum—required, and in that case the iron deposits of Snowdon will at once assume an important place in Ontario industries. It is safe to predict that within a few years this district will vie with the Pennsylvania mining regions in the supply of iron to the American continent.

Methodist Union.

NAPANEE, Ont, Jan 11.—At the meeting of the Methodist Episcopal General Conference last evening, the test question in favor of Methodist Union was carried by the large majority of seventy-two yeas to twenty nays. The whole debate arose on the question of the general superintendency. After a whole day's able debate the vote stood as above indicated. An analysis of the division shows there were fifty-nine ministers voting and fifty-five lay delegates. Of the ministers forty-five voted for the basis and fourteen against. Of the laymen twenty-nine voted yea and but six nay. It is probable that the remaining business of the session will be disposed of without long debates.

Short Hours.

Dr. Nussbaum, in detailing his examination of children at different hours of a long school day, says that a child who will easily taken in a lesson in the first hour, and make excellent answers while his powers are fresh, is stupefied at the eighth hour and finds it hard to apprehend what he could easily have understood earlier. He is especially strong in his condemnation of the system of home lessons. "It is an error to suppose," he adds, "that an ordinary child really requires much more knowledge in eight hours than in four hours." When the powers are fresh, active, and unrestrained, the process of learning goes on successfully; but, when the are worn, limp, and overtaxed, next to nothing can be satisfactory acquired and assimilated by the learner.—*Globe Eng.*

One of the Railway Kings.

Mr. Henry Villard, of the Northern Pacific Railway, is becoming the Jay Gould of the American Northwest. Mr. Villard, a man in the prime of life, has during the last six or seven years rushed to the front rank of American railway magnates. Gould has almost run his course. His interests have become so enormous and their ramifications so widespread that his resources are taxed to defend them, and future conquests are almost impossible. Villard on the other hand, not being compelled as yet by the magnitude of his possessions to remain on the defensive, occupies a position not unlike that which Gould held ten years ago, when he was "the Attila of Wall-street."—*Winnipeg Times.*

Adam Seven Feet High.

Dr. Wild, of Toronto, has vouchsafed the important information that Adam was seven feet in height. He gives as the reason for his sage conclusion that Adam was a perfect man, and seven is a perfect number. He says: "Three is the trinity number and stands for the Creator; four stands for the world; thus, seven includes the Creator and the created. Seven means completion. There are seven virtues that makes a perfect man—virtue, knowledge, temperance, patience, godliness, brotherly kindness and charity." Clearly, Adam must have been seven feet in height.—*Philadelphia Record.*

The Orange Trials.

The appeal of Grant v. Beaudry was dismissed by the Supreme Court on the ground of insufficiency of notice. The Court declined to express any opinion upon the legality of the Orange Association in Quebec, and Mr. Justice Gwynne censured the judges of the Court of Queen's Bench for exceeding their functions in expressing an opinion on the general question.

Gaining a World Wide Reputation.

About 150,000 bottles of medicine and 3000 Spirometers, the invention of M. Souvielle of Paris and ex-aide surgeon of the French army, have been used by physicians and patients during the last year for the cure of catarrh, catarrhal deafness, bronchitis, asthma, consumption in its first stages and many diseases of the head, throat and lungs. Consultations with any of the surgeons belonging to the institute free. Poor people showing certificates can have spirometers free. Write enclosing stamp for pamphlet giving full information to either of the Canadian offices where competent English and French specialists are always in charge. Address International Throat and Lung Institute, 13 Philips square, Montreal, P. Q., or 173 Church street, Toronto, Ont.

LITTLE BY LITTLE.—The constant dropping of water will wear away even the hardest stone. So the constant irritation of a cough will so wear upon the lungs as to induce incurable Consumption. Hagyard's Pectoral Balsam will cure the worst cough, speedily and effectually.

Mothers! Mothers

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle. d56w

South End Bookstore.

And now that he has done with Christmas cheer,
The honest schoolboy doth begin to appear.
With purse in hand he comes into our store,
Saying, "This is where I should have come before!
"I want some books—they must be *good* and *cheap*,
You buy for cash, and I the benefit reap.
A Spelling Book, a Reader and a Copy—
The price of each I know will suit my 'Pappy'—
An Arithmetic, a Grammar and a History,
But how I am to carry them's a mystery.
You say I need a Bag to accommodate
My school-books, pens and pencils and my slate?
Yes! that's the thing, my fears are at an end,
No harm to books from snow or rain or wind.
I'm feeling, now, quite happy and contented,
Well satisfied with what I have expended;
And rest assured, if I want any more,
I'll come right back to the South End Bookstore."

THE MOWAT PLATFORM.

The first of the resolutions passed at the Reform Convention at Toronto, deals with "General Principles," and in it is struck the key note of the whole performance, it being a specimen of the tissue of false pretences, which is the chief constituent of the "Reform" platform. It "recognizes with pride and pleasure the fidelity to Liberal principles, which has been evinced through a long series of administrative and legislative acts by the Reform Governments and Legislatures of the Province for the past eleven years." If they have been faithful to Liberal principles, then Liberal principles must be very elastic and greatly changed of late years. It used to be a Liberal principle to practice economy, but these Liberals have squandered millions of our cash surplus, and millions worth of our real estate, while greatly increasing the expenditure per head of the population. It used to be a Liberal principal to foster and encourage local self-government, but these Liberals have steadily pursued a course of centralization, usurping all possible power and patronage from our municipalities and local institutions and officers. It used to be a Liberal principle that the purity of Parliament should be maintained, but these Liberals began their reign by purchasing a Speaker, and conspiring with and bribing a Minister to desert his colleagues; they have bestowed office after office upon members, though they used to protest against it; they have arranged with their Dominion allies that each should reward the other's friends; and they have just nominated as a candidate for parliament a man who may be, as is said, a "tried" member, but who has not yet been tried in a criminal court for robbing the struggling municipality that trusted him. It used to be a Liberal principle that there should be no alliance with Ottawa, no interference with Dominion matters on the part of the Provincial administration, but these Liberals have used all the influence of their position, and that of their official army of political agents, to oppose the chosen statesmen of Canada, and to thwart the fiscal policy adopted by the majority of the people of the Dominion and of the Province. It used to be a Liberal principle to extend and equalize the franchise, but these Liberals, while very properly giving votes to one section of our people, very improperly and corruptly refused the same boon to others who were as much entitled to it, and fiercely opposed the efforts of the Conservatives to secure this justice for the young men of our cities, towns and villages, until at the eleventh hour they have been forced by the action of the Opposition to yield to their demands for this simple act of justice. "Representation by population" used also to be a Liberal principle, yet Mr. Mowat has gerrymandered the constituencies with regard solely to his own advantage, and with so little regard to population that he disfranchised the small constituency of Niagara because it was Conservative, and retained the small constituency of Cornwall because it sent him a supporter.

We might give many other instances of the "fidelity" of these pretenders to "Liberal Principles," but these specimens will suffice for the time.

The resolution concludes with an appeal to strengthen the hands of Mr. Mowat and his colleagues "at this critical period in our Provincial history"—it should have read rather "at this critical period for Mr. Mowat and his colleagues."

A BAD EXAMPLE.

The Toronto *Evening Canadian* says:—

"Startled by the cry of 'Manitoba First' and 'Ontario First,' which designing politicians have raised, the Winnipeg *Times* wants to know 'where this Provincial Rights business is to end?' Just where it ended in the United States, if the good sense of the people of the various provinces does not put a check upon the violence of the demagogues who are threatening disunion. We feel convinced that the political parties of this country are going through a new formative period. Just as the old parties in the American Union were broken up and re-formed into Unionists and Secessionists, the Grits and Tories of Canada seem likely to be re-arranged at an early date as Federalists and Sectionalists. If this be not the result, it may be something worse. This trick of arraying province against province cannot be played much longer with success."

THE GRAND JUNCTION VS. THE COUNTY.

The Supreme Court Decides Against the Railway in the Bonus Suit.

We take from the *Mail* the following report of the Judgments in the appeal case of the Grand Junction Railway *vs.* the County of Peterborough, which were given at the sitting of the Supreme Court at Ottawa on Thursday:—

This was an appeal from a judgment of the Court of Appeal of Ontario allowing an appeal from a rule absolute of the Court of Queen's Bench, directing that a writ of *mandamus* should issue commanding the corporation of the county of Peterborough to issue debentures for the sum of $75,000 and interest in accordance with the terms of a certain by-law respecting the Grand Junction Railway Company and the Peterborough and Haliburton Railway Company. At the time the bonus was granted there was no power in the municipality to grant the aid in question, and the by-law was said to derive vitality from an Act of the Ontario Legislature, which declared that a by-law providing for the issue of debentures to the amount of $100,000—of which $75,000 was to be given to the Grand Junction, and $25,000 to the Peterborough and Haliburton Railway Company — which was approved of by a majority of the duly qualified voters of the county, should be valid and binding, as if it had received the third reading of the County Council of the said county of Peterborough. The evidence was conflicting in regard to certain alterations said to have been made in the by-law after the second reading by the County Council, and the voting by the people did not take place on the day appointed by the County Council.

The Chief Justice considered that the Act of the Legislature was based on the assumption that the by-law had regularly gone through its stages before the Council before its submission to the voters in the manner and at the time fixed by the Council; that it was only intended to supply the omission of the third reading, and not arbitrarily to impose this bonus on the county independent of the Common Council and the ratepayers. He held that the balance of evidence went to prove that the by-law voted upon by the people was not the same as that which passed two readings in the Council, but was really never before the Council until it was submitted for the third reading. He agreed with the conclusion of the Court of Appeal, though on other grounds, and held that this application should be dismissed with costs. Believing, as he did, that there was no valid by-law, he felt that to decide the case on such grounds as could only arise in the case of a valid by-law would be to mislead and induce further litigation, which, if he had arrived at a correct conclusion, he thought should terminate here.

Mr. Justice Henry had arrived at the same conclusion with regret, because he thought the equities were with the railway company, and the municipality had derived all the contemplated benefit from the opening of the railway. It was in evidence that the by-law never passed the first or second reading, and it appeared to him that the statute only supplied the want of the third reading. It was important to consider the power under our present constitution of the Local Legislature, to alter a contract made between private parties. It was patent that in this instance the municipality intended to enter into a contract, but did not, and then the Legislature stepped in and completed the contract. "It appears to me," said his Lordship, "that if the Legislature has the power under our present constitution, which is prescribed by the Imperial Act, to complete or affect by legislation any contract entered into between a municipality and a railway company, there is nothing to restrain them from altering and interfering by legislation with a private contract between individuals. I express no opinion as to the power of the Legislature of Ontario as to the Act it has passed, but I would require some argument to convince me that the Local Legislature, or even the Dominion Parliament, has the right to interfere so as to affect contracts or *quasi* contracts entered into between parties." He further held that the parties in this case had a legal remedy independent of that afforded by a writ of *mandamus*, and if so, they had no right to ask for a writ of *mandamus*.

Mr. Justice Gwynne held that the parties had a right of action, and had therefore no right to invoke the prerogative writ of *mandamus*, which was intended to enforce the performance of duties not adequately provided for by law, and not to compel the fulfilment of contracts. He considered that the matters of fact would not come before this court until they had been duly found by some competent tribunal in law or equity. Referring to another point raised in the argument, his Lordship said:—"A point was also taken before us which does not appear to have been urged in the courts below, namely, that, as is contended by the corporation of Peterborough, the true construction of section 92, item 10, in connection with section 91, item 29, of the British North America Act is that the power to incorporate the construction of railways wholly within the limits of any one of the provinces is vested in the Dominion Parliament, the contention being that railways are among the local works which by section 92, item 10, are excepted from the jurisdiction of the local legislatures, and are by section 91, item 29, placed under the Dominion Parliament. To this it was answered that the 92 section, item 10, only referred to railways connecting the Province with any or others of the Provinces, or extending beyond the limits of the Province. But to this it was replied that railways connecting one Province with another, or extending beyond the limits of the Province, would not be a local work, and that they plainly were local works which were intended. Moreover, it was added that lines of steam or other ships which were, by the section in question, placed in the same position as railways could not be spoken of as connecting one Province with another, or extending beyond the limits of the Province. The section certainly does not seem to be very felicitously expressed. It was intended to refer only to lines of steam or other ships, or to railways, as connecting one province with another, or as extending beyond the limits of a province, such works from their nature not being local could not be accepted as such. It must be admitted, I think, that there is a point of some difficulty raised by the language of such a nature that, unless absolutely necessary to the determination of the question before us, it should not be adjudicated upon by us on a motion like the present. When it does necessarily arise for adjudication it will also have to be considered, assuming that the exception as to railways must be read in connection with the words 'connecting the province with any other of the provinces, or extending beyond the limits of the province,' whether the privilege conferred by sec. 7 of 33 Vic., cap. 52, of using the Grand Trunk railway under arrangements with that company for the purpose of the transport of traffic from one line to another be or not a privilege which could be conferred by the Local Legislature, and whether in effect the company incorporated or intended so to be by 33 Vic., cap. 53, is not formed for the construction of a railway in connection with, although not part of, the Grand Trunk, but so in connection with it as to be capable of having running powers over the Grand Trunk railway and so as not to be a local work within the jurisdiction of the Legislature of Ontario."

Mr. Justice Fournier concurred in the judgment of Mr. Justice Gwynne and Mr. Justice Taschereau in that of the Chief Justice.

Mr. Hector Cameron asked that the disallowance of the appeal should be placed on the ground that the parties had no right to proceed by *mandamus* without prejudice to other proceedings, as the majority of the judges had based their conclusion on that ground.

The Chief Justice consented.

The appeal was dismissed with costs.

PORT HOPE.

Skating Carnival.—The *Times* says that the managers of the skating rink intend having a grand prize skating carnival next month, when it is expected that Cobourg and Peterborough will contribute to the *empressement* of the occasion.

The Telephone.—Telephone connection has been completed between Port Hope and Toronto, Hamilton and Guelph. The first trial was made on Saturday night, and gave perfect satisfaction, parties speaking from Toronto being distinctly understood. A number of messages have already been sent to Toronto and Hamilton. No communication has as yet passed between Port Hope and Guelph.

NOVA SCOTIA COAL.

Shipments During the Past Year—A Large Increase Over Those of 1881.

HALIFAX, Jan. 11.—The shipments of coal from the various mines of Nova Scotia during the last year show a large increase over those of the preceding year. The shipments from the Spring Hill mines were the largest of any, amounting to 210,895 tons, an increase over 1881 of 50,123 tons. The Intercolonial Coal Co., shipped 141,299 tons, 14,192 excess of the previous year's shipments. The Vale Coal Co. shipped about 24,000 tons, or 2,000 less than in 1881. The Acadia Coal Co. shipped 98,145 an increase of 15,799. From the Gowrie mines Cape Breton, 65,335 tons were shipped, an increase of 4,000 tons. The shipments from the Caledonia mines aggregated 59,500 tons, and the Little Glace Bay mines shipped 70,000 tons, over double the previous year's shipments.

Sickly Sympathy.

Public opinion in Tennessee must be in an unhealthy state, according to the following from the Louisville *Courier-Journal* :—"It is full time that some measure of public sympathy and approval should be withdrawn from the kind-hearted murderer and the high-minded thief. The commiseration bestowed by milksops upon criminals is an abomination and a nuisance. If Michael gets drunk on a Saturday night, and raises a bump upon Patrick's bugle, he is locked up until Monday morning, fined ten dollars, and sent up for thirty days. But if a red-handed buck with a revolver kills his man outright, 'tis ten to one he will find his cell filled with flowers, and certain that he will be either acquitted or pardoned. If a poor wretch, shivering in the cold, steals a blanket to keep him from freezing, or, having a sick wife and a dying child, filches a leg of mutton from a butcher's stall, it is off with him to prison, and nobody to pity him or his. But if an aristocratic State or city official steals thousands of dollars of public money, or a pious bank president makes way with the deposits of the people, there is a rush of friends to the railway station where the officers have arrested his flight and effusive homilies of grief and surprise in the newspapers. Who would have thought it? He was such a good man. He was such a genial man. He was so religious. He was so liberal. He is so unhappy and unfortunate."

How Hardware Articles are Polished.

Common articles of hardware, such as screw-eyes, hinges, handles, etc., are polished by tumbling in a revolving barrel. The tumbler is charged about half full with the goods, mixed with a material selected according to experience as best suited to do the work. Small scraps of iron, sand and gravel, with the attrition of the metal, take away the roughness and put a moderately smooth surface to the work. Then charge the work into a tumbler partly filled with leather scrap and skivings cut fine, mixed with crocus or almost any fine polishing powder, after which it can be cleaned and brightened by an additional tumbling in sawdust and lime. The above is a general feature of this kind of work. Almost every manufacturer has some peculiar system of management suited to the special kind of work made. Some use oil or water, then boil the work in lime water, and again tumble in sawdust to dry and brighten. The black oxide of iron (anvil scales) is much used where it can be had. A little pumbago is sometimes thrown into the tumbler to give the work a shining black surface. A strong barrel or keg on trunnions, with a small door for charging, is the most suitable for small, light work.

Much work that has a fine finish upon the surface is polished by boys, who handle the individual pieces against a large brush wheel with crocus or whiting. With a large wheel the process is so quick that a boy will run through with many thousand pieces in a day.

Unhealthful Exercise.

In answer to several inquiries as to the value of rowing, riding, walking, trycycling, boxing, cricket, etc., as healthful exercise, *Knowledge* says: "It will probably sound paradoxical, after the stress we have laid on the necessity for exercise, to say that we consider each one of these exercises, as pursued by specialists, undeniably bad for the development of a well-proportioned and thoroughly healthy frame. Take, for instance, any first-class eleven in cricket, and you will invariably find so large a proportion of ill-shaped men as to show that thoroughly well built cricketers owe their goodly proportions to exercise outside cricket. Take rowing again. Unless a rowing man does other work especially intended to correct the defect, he has invariably poor arms above the elbow, a marked inferiority in the development of the chest as compared with the back, and he generally has round sholders and a forward hang of the head and neck. Boxing is better, but it cannot be pursued with advantage as the chief exercise a man or boy takes; and it is certainly unsuited to girls and women."

Letter from Member of Congress.

HOUSE OF REPRESENTATIVES,
Washington, D.C., Feb. 19, '82.

GENTLEMEN,—Inclosed find $1, and will you send me some of N. H. Down's Vegetable Balsamic Elixir by express. I have a bad cold, as has almost every one else here, but cannot find the Elixir, which I used frequently at home and consider a most valuable medicine; in fact, the very best remedy for a cold that I ever used.

Very truly yours, WILLIAM W. GROUT.

Bucklen's Arnica Salve.

The best salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Taylor & Macdonald.

It always gives us pleasure to draw attention to articles which are deserving of public patronage. Probably no article ever offered to the public has met with the same success as Gray's Syrup of Red Spruce Gum. Thousands of families in the Dominion keep it in their homes as the standard Cough Remedy. The sale of this article has assumed enormous proportions. Our advice to the public at large is to try its virtues if they should at any time unfortunately contract either Coughs or Colds. It is sold by all chemists,

THE
PACIFIC NORTHWEST!
Oregon, Washington, and Idaho.

Offers the best field for emigrants—viz.: a mild, equable, and healthy climate; cheap lands of great fertility, producing all varieties of Grain, Fruit, and Grasses in wonderful abundance; an inexhaustible supply of Timber; vast Coal Fields, and other mineral deposits; cheap and quick transportation by railroads and river navigation; direct commerce with all parts of the world, owing to its proximity to the Pacific Ocean.

NO DROUTHS, NO INSECT PESTS, NO HURRICANES, WHIRLWINDS, OR OTHER DESTRUCTIVE PHENOMENA.

The lands of the Pacific Northwest show an average yield of wheat per acre largely in excess of that of any other section of the United States.

No failure of crops has ever occurred.

Oregon wheat commands a higher price than that of any other country in the Liverpool market.

An immense area of very fertile Railroad and Government Lands, within easy reach of the trunk lines of the Northern Pacific R.R., the Oregon Railway & Navigation, and the Oregon & California RR. Co's and their numerous branches in the great Valleys of the Columbia and its tributaries, are now offered for sale at Low Prices, and on Easy Terms, or open to pre-emption and Homestead Entry.

The great movement of population to the Columbia region now in progress will be enormously increased by the completion of the Northern Pacific RR. and the Oregon Railway and Navigation Co's systems. This renders certain a rapid increase in the value of Lands now open to purchase or to entry under the United States Land Laws.

I CURE FITS!

When I say cure I do not mean merely to stop them for a time and then have them return again, I mean a radical cure. I have made the disease of FITS, EPILEPSY or FALLING SICKNESS a life-long study. I warrant my remedy to cure the worst cases. Because others have failed is no reason for not now receiving a cure. Send at once for a treatise and a Free Bottle of my infallible remedy. Give Express and Post Office. It costs you nothing for a trial, and I will cure you.

Address Dr. H. G. ROOT, 183 Pearl St., New York.

The Great American Remedy for
COUGHS, COLDS, ASTHMA, BRONCHITIS, LOSS OF VOICE, HOARSENESS AND THROAT AFFECTIONS.

Prepared from the finest Red Spruce Gum. (Delicious Flavor.) Balsamic, Soothing, Expectorant and Tonic. Superior to any medicine offered for all the above complaints. A scientific combination of the Gum which exudes from the Red Spruce tree—without doubt the most valuable native Gum for Medicinal purposes.

Every one has heard of the wonderful effects of the Spruces and the Pines in cases of Lung Disease.

In France the physicians regularly send their consumptive patients to the pine woods and order them to drink a tea made from the Spruce tops.

GRAY'S SYRUP OF RED SPRUCE GUM.

In this preparation the Gum never separates, and all its anti-spasmodic, expectorant, tonic, and balsamic properties are preserved.

This Syrup, carefully prepared at a low temperature, contains a large quantity of the finest picked Gum in complete solution.

Its remarkable power in relieving certain forms of Bronchitis, and its almost specific effect in curing obstinate hacking Coughs, is now well known to the public at large.

Sold by all respectable chemists. Price, 25 and 50 cents a bottle.

The words "Syrup of Red Spruce Gum" constitute our Registered Trade Mark, and our wrapper and labels are also registered.

POLICE COURT.

AGAIN REMANDED.

SATURDAY, Jan. 13.—John Wilson and Wm. H. Meharry, charged with assaulting Samuel Milligan, were brought into court this morning, and remanded for a week, as Mr. Milligan is not yet out of danger.

The Cells.

The police cells were empty again last night.

The Temperature.

The thermometer at Messrs. Taylor & Macdonald's registered as follows to-day:—At 8 a. m., 26° above zero; at noon, 32° above zero, and at 3 p. m. 34° above zero.

Official Visit.

A telegram has just been received by the secretary from J. B. King, Esq., Grand Secretary, Toronto, to-day. He will visit the Otonabee Lodge of Oddfellows, No. 13, officially, on Monday evening next, January 15th.

The Weather Probabilities.

Considerable snow fell last night. The weather to-day is soft and cloudy. The weather probabilities for this district for the following 24 hours, as reported from Toronto at 1 a. m. to-day, by the Great Northwestern Telegraph Company, are as follows:—Gales veering from the southeast through the south to the west; cloudy, milder weather, with a fall of snow, possibly succeeded by rain in south-eastern Ontario. Lower temperature again on Sunday.

Dairymen's Convention.

At a meeting of the Board of Directors of the Eastern Dairymen's Association at Belleville on Wednesday, it was moved that the Convention be held this year at Brockville. The following is taken from the *Ontario's* report of the discussion:—

"Mr. Hinman felt that it was his duty to urge the claim of Peterborough, which was an enterprising town, and one where a good convention could be secured. He moved in amendment to the amendment that the convention be held at Peterborough.

"Mr. Walker seconded Mr. Hinman's motion. He thought the feeling was now to have the Convention held somewhere east this year, but he hoped Peterborough would get the Convention next year."

The motion in favor of Brockville was finally passed, securing one more vote than Mr. Hinman's amendment.

THE COUNCIL FOR 1882

HOLDS ITS FINAL MEETING AND ADJOURNS SINE DIE.

The Police Court Business of the Last Year—Reports From the Finance Committee and Court of Revision—Communications and Accounts—Valedictory.

A regular meeting of the Town Council was held on Friday evening.

PRESENT—Councillors McNaughton, Kelly, Paterson, Douglas, Rutherford, Menzies and Richardson.

In the absence of the Mayor, Councillor Menzies was, on motion, called on to preside.

The minutes of the *former* meeting were read and confirmed.

COMMUNICATIONS.

From M. O'Donnell, claiming $100.25 on account, and asking the Council to pay him $50 at once, leaving the balance until April.—Granted.

From R. C. Wright, stating that he was erroneously assessed for $300 on income, and asking that the taxes be refunded.—Court of Revision.

From Mrs. Bridget Boyd, asking that her taxes be charged against the land.—Court of Revision.

ACCOUNTS.

The following accounts were read:—

Orlando Jyles	$ 30
J. Z. Rogers, plank	2 96
Geo. Stethem	60
Toker & Co.	46 30

Those of Messrs. Toker & Co. and Mr. Rogers were referred to the Finance Committee, and the others ordered to be paid.

CHIEF CONSTABLE'S REPORT.

The following report from the Chief Constable was read, received and filed:—

To the Mayor and Town Council;

GENTLEMEN,—Herewith I beg to submit my annual report, giving a record of the cases brought before the Police Magistrate during the year 1882. The total is larger than that of any previous year, and is accounted for by the large number of "sign cases" and drunks, the latter being caused by the extensive public works now in the course of erection. It will be noticed that there were no very serious crimes, in fact the worst occurred just at the end of the year. Besides the cases given, numerous arrests were made on telegrams from other places, and many tramps were provided with lodgings and meals. The increase in the latter is also due to railway construction. No persons were sentenced to the penitentiary or the Reformatory during the year, but several were sent to the Central Prison. Those in gaol at present are either drunks or old persons, who, being unable to work, were sent up as vagrants. Below will be found the number of cases and their character:—

Breach of by-law 225 (sign by-law)	119
Found drunk	91
Drunk and disorderly	54
Assault	23
Vagrancy	17
Using insulting language	13
Disorderly	9
Disturbing the peace	7
Breach of liquor law	6
Malicious injury to property	6
Indecent exposure	6
Desecration of Sabbath	5
Non-payment of wages	5
Larceny	6
Cruelty to animals	4
Assault with intent	3
Immoderate driving	3
Nuisance	2
Breach Town by-law (license)	2
Sureties to keep the peace	1
Breach Town by-law (market)	1
Keeping vicious dog	1
Obstructing sidewalk	1
Refusing to support wife	1
Supposed to be insane	1
Obstructing police officer	1
Using profane language	1
Interfering with police officer	1
Obtaining goods under false pretenses	1

All of which is respectfully submitted,

GEORGE JOHNSTON,
Chief of Police.

Peterborough, Jan. 1st, 1883.

FINANCE COMMITTEE.

Councillor PATERSON read the report of the Finance Committee as follows:—

The Mayor and Council of Peterborough:

GENTLEMEN,—The Finance Committee beg leave to report and recommend the payment of the following accounts:—

Wm. Yelland	$16 40
Mr. Cummings	15 00
Peter Hamilton	7 25
Lockart & Chown	58 25

That the account from E. Pearce, County Treasurer, for conveying lunatics to asylum, be paid on the same basis as previous accounts of a similar kind.

That the costs *re* Kernaghan *vs.* Hazlitt, amounting to $3, be refunded.

That the application of Charles Billings and Patrick Heffernan, asking a refund of dog tax, be granted on their making the usual statutory declaration.

All of which is respectfully submitted,

W. PATERSON, JR.,
Chairman.

The report was adopted.

COURT OF REVISION.

Councillor RUTHERFORD read the report of the Court of Revision, which recommended that the petitions of Mrs. M. J. Clementi, Miss A. M. Ferguson, and Messrs. M. Levecque and O. Beauvais, (asking for remission of taxes on account of their property having been burned) be not granted.—Adopted.

VALEDICTORY.

Councillor RICHARDSON said that as he was the only member present who would not be in the Council during the year, he would like to make a few remarks. He could say to-night that he was not sorry that he would not meet with them this year. Some weeks ago he thought he would like to remain in the Council, but he had considered the question, why should he neglect his own business for the affairs of the Council? It was not an agreeable thing to leave their own business and go to the Council meetings. During the two years which he had been a member he had only missed one regular meeting. It was a hard matter to please every one, and he had not tried to do it, but he had always tried to do right according to the best of his knowledge and to attend to the business of the Council on the same principle as if it were his own. He referred to the waterworks excitement during the election contest, and characterised it as a cry of "mad dog." He had not heard a member of the Waterworks Company say that they either wanted to sell out to or have a better bargain with the town. The only thing he had heard any of them say was a remark made by Dr. Boucher that the Company was satisfied with the bargain if the town was, as he considered the waterworks a good investment. He referred in terms of praise to the waterworks system, and spoke of some matters which had been dealt with during the year. The Councillors during the past year had always been kind and courteous, and he hoped that at the beginning of next year they would all be alive and happier.

Councillor RUTHERFORD said that there was no doubt that a feeling had been got up over the waterworks question against those members who had taken any interest in them. Wool had been pulled over the eyes of the electors by false statement, and when they discovered that there was no truth in the cry about the waterworks they would regret that they had not returned Mr. Richardson.

The Council then adjourned *sine die.*

Dyspepsia and Liver Complaint.

Is it not worth the small price of 75 cents to free yourself of every symptom of these distressing complaints, if you think so call at our store and get a bottle of Shiloh's Vitalizer, every bottle has a printed guarantee on it, use accordingly and if it does you no good it will cost you nothing. For sale by J. D. Tully.

Oh, What A Cough!

Will you heed the warning. The signal perhaps of the sure approach of that more terrible disease Consumption. Ask yourselves if you can afford for the sake of saving 50 cts., to run the risk and do nothing for it. We know from experience that Shiloh's Cure will Cure your Cough. It never fails. This explains why more than a Million Bottles were sold the past year. It relieves Croup, and Whooping Cough, at once. Mothers do not be without it. For sale by J. D. Tully.

IT made me feel like a "Band of Music," was the rather forcible expression of an individual who was praising "Pectoria," the great remedy for Coughs and Colds, Hoarseness, Asthma, Bronchitis. It is safe, pleasant and effectual. If you suffer, try it. For sale by all druggists and general dealers at 25 cents a bottle.

GOOD ADVICE.—If our readers will accept proffered advice, they will always keep a bottle of Hagyard's Yellow Oil at hand for use in emergencies, such as Burns, Scalds, Wounds, Lameness, Croup, Chilblains, Rheumatism and all varieties of aches, pains and inflammations. It will ever be found reliable.

FORTUNATELY Valvular disease of the heart is not very common, its disturbed action may be due to indigestion, liver irregularities &c. A Stomach disturbed with wind, or indigestable food will cause pain and fluttering by crowding on the nerves of the heart. Burdock Blood Bitters will speedily remedy all such difficulties.

WE have a speedy and positive Cure, for Catarrh, Diphtheria, Canker mouth and Head Ache, in Shiloh's Cattarrh Remedy. A nasal Injector free with each bottle. Use it if you desire health and sweet breath. For sale by J. D. Tully.

Flannels, Tweeds and Blankets, are going very fast. Why? Because we are selling them at reduced prices. Turnbull & Gray.

A SURE THING!

Clothing again! Well, it's about the most interesting topic we can talk of just now. It's the season when clothing is most needed, and the season we must sell it, so you see it interests us both. Our stock of Clothing for this time of year is large, our assortment unusually complete, facts of great advantage to buyers, and of some advantage to us, as it enables us the better to suit you. We want to hurry the out-word movement of our stock and consequently will give a decent discount to prompt cash buyers. This reduction is made solely with a view to working off in proper season our immense Stock, and not because the goods are in any respect undesirable. Our clothing is built of strong serviceable fabrics, well and carefully made, and with trimming warranted to wear. Every style of goods from plain and sturdy to the most elegant. Nothing slighted,—except our profits.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcule which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

TORONTO.

A HEAVY SENTENCE.—The *Mail* says:—Gunner Riggs, of the Toronto Field Battery, who deserted from "B" battery, to which he was attached for a course of instruction, some weeks ago, has been tried by court-martial. He has been sentenced to 168 hours in the cells, and fourteen days's confinement to barracks. As he has already been nearly a month in confinement awaiting his trial, and will also have to pay the expenses in connection with his arrest, his punishment is severe, and will no doubt prove a warning to others who think a course at the gunnery schools means a three months' holiday, with none of the duties or responsibilities of a soldier's life.

NORWOOD.

NORWOOD AHEAD.—A correspondent of the *Register* says that "Norwood leads the van" in the early return of the Collector's roll, Mr James Calder having returned the Collector's Roll of the village on December 21st, five days previous to the return of the North Monaghan roll.

DISTRICT OFFICERS.—The following officers were elected at the meeting of the District Orange Lodge, held here on Tuesday last:—Wm. Hutchinson, W. M.; James Robb, D. M.; John G. Powell, Sec.; Joseph Ackerman, Treas.; Joseph Moore, Chap.; Alex. Smith, D. of C.

A Unique Present.

The Prince of Wales had a unique Christmas present—a ten inch shell, mounted on a handsome wooden stand, and bearing this inscription: "Presented to H. R. H. the Prince of Wales by Admiral Lord Alcester, G. C. B., as a souvenir of the bombardment of Alexander, July 12th, 1882. Came through the Port side of Her Majesty's ship Alexandria, above armor, passing through torpedo lieutenant's cabin, struck combing of engine room and rolling along main deck, when Mr. Harding, gunner, put it into a tub of water, for which he received the Victoria Cross."

Unhealthy Houses Owing to Dampness.

M. Philippe, a well-known civil engineer and hygienist, of Rouen, France, asserts that the most thoroughly sanitary foundation for a building, if the unhealthiness arising from dampness would be avoided, is concrete. He recommends covering the whole level of the future building with a layer four inches thick, composed of two-thirds broken flints, well washed, and one-third mortar made of lime and gravel sand; a layer of well-puddled clay, eight inches thick, may also be spread over the site of the building, and extended for about sixteen inches outside of the walls, and carried up with the wall on the outside until the level of the soil is reached. To destroy the porosity of building materials, M. Philippe says they may be injected with gas refuse, or immersed successively in solutions of soap and alum, the result being to fill the pores of the brick or stone with a fatty substance, which opposes the passage of water. The material may also be plunged in a solution of silicate of potash, just long enough for all the air bubbles to be disengaged, and then laid aside for forty-eight hours before using.

IN DRY FORM.—The contents of a package costing 25 cents will make a quart of medicine called Fountain of Health, unequalled for purifying the blood and toning up a debilitated system.

Personal! To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

A NEW DEPARTURE.

PARIS, Jan. 14.—In the French Chamber of Deputies to-day M. Brisson, President of the Chamber, announced that there would be prayers to-morrow in all the churches, for the opening of the session. M. Laroche Joubert (Bonapartist) said he considered that after the recent anti-religious manifestations it would be more dignified to abandon public prayers.

ENGLAND, FRANCE, AND EGYPT.

PARIS, Jan. 14.—The Paris *Tempus* says England has pronounced the deposition of France in Egypt; it is possible Mr. Gladstone's Egyptian enterprise may lead to the re-opening of the Eastern question.

RUSSIA'S HOSTILITY TO AUSTRIA.

PESTH, Jan. 14.—A pamphlet entitled "Russia and War," published at Pesth, has excited considerable sensation. The author is a prominent member of the Hungarian Opposition. He asserts that ever since the Berlin Congress Russia has been determined on war with Austria, and that the latter's army is numerically inadequate.

THD DUBLIN ARRESTS.

DUBLIN, Jan. 14.—Seventeen of the persons arrested here to-day have been examined at a private investigation at Dublin castle. Some of them have signed a déposition; others were not asked to sign. Some were not sworn. Several of them have been imprisoned under Mr. Forster's Act under suspicion of being concerned in murders committed here, and two of them for the Phœnix park crime. The knives used in the Phœnix park murder were found behind the house of one of the prisoners. The authorities finding there was no chance of bringing home the guilt to any of them decided to group all the men alluded to by informers in a general charge of conspiracy. It is rumoured that five of the accused will be examined next week.

A NOISY MEETING.

LONDON, Jan. 14.—When Mr. Davitt appeared before a meeting at Oldham last evening to deliver an address on the Irish question, he was howled down by an organized gang who attempted to storm the platform, but were repulsed by the occupants of the platform. A free fight ensued, in which chair legs and brass knuckles were used, and many persons were hurt. Mr. Davitt called the disturbers a cowardly crew, and declared that if twenty men would follow him he would clear the hall of the gang. He advanced towards the latter for that purpose, but was restrained by a policeman. Addressing his opponents again, Davitt said they were "miserable, contemptible, cowardly dogs." When they were sitting in taverns he was fighting the British Government; they were drunken blackguards, and a disgrace to the name of Nationalists; if Ireland were made up of such she would earn the contempt of the civilized world. He had travelled throughout England, and Englishmen, although his enemies, gave him a hearing. What a spectacle for the English was afforded by these professors of blackguardism at a time when Ireland was asking for self-government. The police finally succeeded in removing the disturbers, and a vote of thanks to Mr. Davitt was then passed.

THE PRINCE IMPERIAL'S MEMORIAL.

LONDON, Jan. 14.—The Prince of Wales today unveiled the statute at the Royal Military Academy at Woolwich, erected in memory of the French Prince Imperial, by the subscription of 25,000 officers and men of the British army. It cost £4,300. His Royal Highness warmly eulogized the Prince. He said the occasion was not political in any sense of the word.

WHERE THEY WERE FOUND.

DUBLIN, Jan. 14.—The knives supposed to have been used by the Phœnix park assassins were found hear the premises of Carey, the member of the municipality who has been arrested.

THE PARK MURDERERS' WEAPONS.

DUBLIN, Jan. 14.—The knives supposed to have been used by the Phœnix Park assassins have been found to fit the cuts in the clothes of Lord Cavendish and Mr. Burke. The authorities are convinced that they are the identical weapons with which the murders were committed. Efforts are being made to procure a description of the purchaser of the knives in the Strand, London. The police have a clew to the purchaser of the revolver with which an attempt was made on Judge Lawson's life.

AMERICAN.

KIDNAPPED.

ST. LOUIS, Jan. 14.—Miss Seerelde Garrison states that on Saturday, after she got off a horse car, a tall, blonde man well dressed accosted her. She tried to run and he threw a napkin over her face. She remembered nothing more until she recovered consciousness three days ago, and found herself a prisoner. She was treated well and informed that she was held for ransom. A man had frequent interviews with her on Thursday, telling her that he only wanted money. He compelled her to write to her friends yesterday. A woman who seemed to be the landlady came into her room with a newspaper saying, "you answer this description. Is your name Garrison?" On receiving an affirmative answer, she said, "Well, I'll do one good act if it costs me my life." Then taking Miss Garrison to the back gate she showed her a way to the police station, which is only a block distant. When Miss Garrison's abduction was announced yesterday, all the business was stopped on 'change. Resolutions were adopted, denouncing the crime, and in ten minutes $20,000 was subscribed as a reward for the girl, dead or alive, and every member on 'change showed a willingness to drop business and turn detective.

AN ANSWER TO PRAYER.

MILWAUKEE, Jan. 14.—Mary McAuley, a waiter girl who was employed in the hotel that was burned, says:—"I was awakened by the shouts and screams of the others, and ran into the hall. It was full of girls rushing madly about crying and screaming. I rushed to the end of the hall and peered through the door and saw everything smoke and fire outside. Then I ran back, and passing a room where seven girls had taken refuge, I joined them, and we all knelt in prayer. One of the girls had a crucifix, and a woman prayed out loud. Just as we had given up hope the window crashed in followed by the appearance of a fireman with a ladder."

ANOTHER HOTEL HORROR.

ST. LOUIS, Jan. 14.—The Planter's Hotel, one of the largest in the city, took fire this morning at five o'clock, and burned so rapidly that four persons lost their lives. The greatest confusion prevailed when the alarm was given. Nearly all the guests escaped in their night clothes. The weather was intensely cold, and the firemen were greatly hindered. It is thought there were not more than four victims. Three bodies have been taken out of the fire, which has been gotten under control. The loss will not exceed $30,000.

RAILWAY STRIKE.

LONDON, Jan. 15.—There is an extensive strike of the employees of the Caledonian Railway. Only ten of four hundred engines have been used. The men paraded in Hamilton today, prior to quitting the town for Glasgow.

TURKEY AND MONTENEGRO.

CONSTANTINOPLE, Jan. 15.—The Porte will probably submit to the Powers the points of difference regarding the Montenegrin frontier question.

ENGLAND AND EGYPT.

PARIS, Jan. 15.—The *Journal Desbates* says: "England has practically taken possession of Egypt. We may regret this, but we have no right to protest against exclusion from the arrangement, since it is justified by our own abstaining from intervention."

PATRICK HIGGINS HANGED.

GALWAY, Jan. 15.—Patrick Higgins, one of the murderers of the Huddys, was hanged at the gaol this evening. There were few persons outside of the gaol. Higgins slept all night.

POLICE RAIDS AT ROME.

ROME, Jan. 15.—The police last evening made domicilliary visits to 135 houses, and arrested 125 persons. They also made sixty-two seizures of newspapers containing revolutionary accounts of Overdank's life and so-called martyrdom. It is believed the arrests will lead to the discovery of important information. A trial for high treason is impending.

THE EUROPEAN FLOODS.

PESTH, Jan. 15.—The Danube has subsided everywhere above Mohaics on the west arm of that river, but the fugatives cannot return to their homes, as the houses were destroyed or filled with ice. The situation at Raab is unchanged. An epidemic is imminent, owing to the overcrowding of the dwellings and privation.

A REPRIEVE REFUSED.

DUBLIN, Jan. 14.—The Lord-Lieutenant has decided that the law must take its course in the case of Patrick Higgins, one of the Huddy murderers.

AMERICAN.

THE TARIFF.

NEW YORK, Jan. 15.—The *Herald's* Washington despatch says that it begins to be whispered around the Capitol that the present Congress will pass no tariff bill. The Senate has now, after weeks of debate, got to near the bottom of the 30th page in its tariff bill, which contains 137 pages. Experts allege that the bill in many cases increases instead of diminishes the duties.

JEWELRY HOUSE CLOSED.

VICKSBURG, Jan. 15.—The jewelry house of J. B. Gotthol & Co. has been closed by attachments of the creditors. Liabilities, $48,000; assets, $56,000.

THE MILWAUKEE HOLOCAUST.

MILWAUKEE, Jan. 15.—The police yesterday arrested a man believed to be the person suspected of having set the Newhall House on fire. The matter is kept in the utmost secrecy. Eighteen bodies have thus far been recovered from the ruins. The militia were yesterday employed to keep back the crowd about the ruins.

ARRESTED.

KINGSTON, N.Y., Jan. 15.—The colored men, George Johnston, Abner Graham and Wm. Bush, have been arrested for shooting Michael Johnston at Tuttletown on Christmas. There was a general riot at Johnston's hotel. Johnston may not recover. There will be other arrests.

BUTLER ATTACKED.

BOSTON, Jan. 15.—At least seven of Boston's prominent clergymen made Governor Butler the text of their sermons yesterday. The most of them condemned much of his inaugural address, and in some cases the Governor was bitterly denounced. Several preachers presented statistics to show that the Governor's charges of mismanagement of the State charitable institutions were false. Nearly all charged him with gross exaggeration and misrepresentation.

HARDWARE WORKS BURNED.

ST. LOUIS, Jan. 15.—Duggan & Parker's hardware works were burned this morning. Loss, $40,000.

SMELTING WORKS BURNED.

CHICAGO, Jan. 15.—The Chicago smelting and refining works were burned this morning. Loss, $110,000.

DESTRUCTIVE FIRE.

TARRYTOWN, Jan. 15.—The fine residence of Samuel C. Lewis, formerly owned by John C. Freund, editor of the *Dramatic News*, with all the furniture and pictures, was burned last night. The flames spread with such rapidity that Mrs. Lewis had barely time to escape in her night dress. Lewis paid $35,000 for the mansion and expended $75,000 in beautifying the premises. The furniture cost $30,000. Another fire was started in the business part of the village by an incendiary.

A Saltpetre Well.

KINGSTON, Jan. 14.—A scientist has made an analysis of the water taken from the well on Amherst Island, and pronounced it strongly tainted with saltpetre. A great deal of public interest is centred in the well, and it is purposed to further prospect in the spring. It is said that Messrs. Rathbun have desired to purchase the farm or a portion of the property upon which the well is located.

WITH every bottle of Dr. Carson's Pulmonary Cough Drops, a sample bottle is given free of charge. South End Bookstore.

And now that he has done with Christmas cheer,
The honest schoolboy doth begin to appear.
With purse in hand he comes into our store,
Saying, "This is where I should have come before!
"I want some books—they must be *good* and *cheap*,
You buy for cash, and I the benefit reap.
A Spelling Book, a Reader and a Copy—
The price of each I know will suit my 'Pappy'—
An Arithmetic, a Grammar and a History,
But how I am to carry them's a mystery.
You say I need a Bag to accommodate
My school-books, pens and pencils and my slate?
Yes! that's the thing, my fears are at an end,
No harm to books from snow or rain or wind.
I'm feeling, now, quite happy and contented,
Well satisfied with what I have expended;
And rest assured, if I want any more,
I'll come right back to the South End Bookstore."

Daily Evening Review

MONDAY, JANUARY 15, 1883.

THE independent Montreal *Star* discusses and approves of the system of examinations introduced by the new Civil Service Bill in the United States. It says:—

"Our own bill, as far as it goes, is more definite and stringent in its provisions than that which Congress has passed, and though it does not provide competitive examinations we are not sure it will not prove the more practically useful measure of the two."

ONTARIO LEGISLATURE.

On Thursday Mr. Fraser resumed the debate on the Budget with Mr. Meredith's amendment, condemning the delay of the Government in securing a settlement of the Boundary question by reference to the Privy Council.

Mr. Morris followed on the opposition side and Mr. Mowat on behalf of his Government

The decision rejected the amendment by 56 to 25.

On Friday a number of bills received their first reading, and several returns were moved for, among others one as to lunatics.

On motion by Mr. Gibson for papers as to the East Huron License Officials, a long discussion arose in which Messrs. Bell, Balfour, White, Hardy, Lander, Fraser, Meredith and others took part. The supporters of the Government spoke in favour of License Officials being allowed to trade with the license-holders.

WHAT IS TO BE GAINED?

The people of Ontario want the boundary question settled. They want the territory that belongs to them. Little good can be done by fighting over the old ground. The practical question to be considered is this:—What should now be done to get our rights?

There are two ways—Mr. Mowat's and Mr. Meredith's.

Mr. Mowat's way is this: Let the advocates of the award carry Ontario now. That success will be a lever by which to carry the Dominion in 1887. If then there be a Reform Government at Toronto and a Reform Government at Ottawa things will be in the shape they were in 1873. From 1873 to 1878 five years elapsed without settling the dispute. It is reasonable to suppose that five years will elapse from 1887 before it can be settled. If the Reformers can succeed in carrying Ontario in 1891 and the Dominion in 1892, we may have some hope that the award will be accepted by the Ontario Legislature and the *Dominion Parliament*. *But* the question will not be settled. If a single Province of the Dominion be dissatisfied with that result, it can appeal to the Privy Council, and the whole question will, after ten years waiting and turmoil, be exactly in the position it might have been in ten years ago, and the position in which it would have been had Mr. Mowat been sincerely desirous to secure Ontario's rights.

Mr. Meredith's plan is this: We have wasted ten years over this affair to no good purpose. Let us now do what we should have done ten years ago—let us make a friendly suit and carry it before the Judical Committee of the Privy Council. That body has a power to give a final judgement in the case. It cannot be suspected of feeling or prejudice in the matter. It is wholly above improper influences. The testimony *is all ready to go before it*; and the probability is that in two years a solution will be reached which will be wholly satisfactory. It will be satisfactory to Ontario, because the people of this Province will rest assured that the court has correctly interpreted the Imperial statute and given them all that is theirs. It will be satisfactory to the other Provinces, because they will feel proud if Ontario gets the whole of her claim it will be got in the proper way, awarded by a competent tribunal.—*Hamilton Spectator.*

Successful Engineering Feat.

A difficult feat of engineering was accomplished on the Pittsburg and Western Railroad on Sunday last. Several places along the line required the stoppage of trains before they could be adjusted to broad-guage. One of these points was the Summit Tunnel. Its bed had been lowered nine feet without stopping a train. The work was accomplished by the excavation of the bed of the tunnel while the track was kept up by trestle work. A row of blasts would be fixed ready for firing, and as soon as a train passed through, they would be touched off and the debris cleared up before the next train arrived. The track for the broad gauge was laid nine feet below the narrow guage, and on Sunday cars were run on the lower tracks and the trestle for the narrow guage knocked down and dragged out.—*Pittsburg Dispatch.*

CRUELTY TO A CHILD.

How a Little Girl was Treated by Her Father and Stepmother.

A despatch from Erie, Pa., says that Mr. Schroeder and his wife have been arrested for inhumanity to Annie, a girl aged six years, a daughter of Schroeder by a former wife. The girl was placed in a home for the friendless by persons who discoved her revolting condition, and then the parents were arrested. The child was made to live like a wild animal, and almost destitute of clothing, and has been subjected to brutality unparalleled. She was not allowed to wash, and dirt and filth had accumulated on her skin until she presented a most loathsome appearance. Instead of allowing her to sit at the table, scraps were thrown to her on the floor, as crumbs to a dog. At night she was frequently fastened to the wall of a vacant room by chains padlocked round her ankles and wrists, where she suffered intensely from cold. Her stepmother took a fiendish delight in beating the little girl, and used to strip her, and having fastened her over a chair so that motion was impossible, would often whip her with a leather strap until her whole body was covered with wealts. She was often kept two days without food, and so securely gagged that her cries could not disturb the neighbours. On one occasion she was tied up, nearly naked, in a woodshed at night, and her feet became frostbitten. No attention was paid to the frozen feet, and soon the feet and limbs turned black and swelled almost to bursting. When discovered her left ear was partially severed, and ulcers around the nostrils prevented her from breathing, except through the mouth. Her lip was like a maligant ulcer, and her body was covered with festering sores, bruises, and gaping cracks in the skin. The defendants denied the charge, and while admitting the sickening condition of the child, declared it was through no fault of theirs. They pleaded poverty for not providing her with more warmth and better clothing, although it was noticeable that they were warmly clad themselves. They were held for trial.—*Mail.*

DEVELOPING A BOY'S BRAIN.

A teacher had charge of a school in a county town early in her career, and among her scholars was a boy about 14 years old, who cared very little about study, and showed no interest apparently in anything connected with the school. Day after day he failed in his lessons, and detentions after school hours and notes to his widowed mother had no effect. One day the teacher had sent him to his seat, after a vain effort to get from him a correct answer to questions in grammar, and, feeling somewhat nettled, she watched his conduct. Having taken his seat, he pushed the book impatently aside, and espying a fly, caught it with a dexterous sweep of the hand and then betook himself to a close inspection of the insect. For fifteen minutes or more the boy was thus occupied, heedless of surroundings, and the expension of his face told the teacher that it was more than idle curiosity that possessed his mind. A thought struck her, which she put into practice at the first opportunity that day. "Boys," said she, "what can you tell me about flies?" and calling some of the brightest by name, she asked them if they could tell her something of a fly's constitution and habits. They had very little to say about the insect. They often caught one, but only for sport, and did not think it worth while to study so common an insect. Finally she asked the dunce, who had silently, but with kindling eyes, listened to what his schoolmates hesitatingly had said. He burst out with a description of the head, eyes, wings and feet of the little creature, so full and enthusiastic that the teacher was astonished and the whole school struck with wonder. He told how it walked and how it ate, and many things which were entirely new to his teacher. So when he had finished she said: "Thank you! You have given us a lecture on natural history, and you have learned it all yourself."

After the school closed that afternoon she had a long talk with the boy, and found that he was fond of going into the woods and collecting insects and watching birds, but that his mother thought he was wasting his time. The teacher, however, wisely encouraged him in this pursuit, and asked him to bring beetles and butterflies and caterpillars to school, and tell what he knew about them. The boy was delighted by this unexpected turn in affairs, and in a few days the listless dunce was the marked boy of that school. Books on natural history were procured for him and a world of wonder opened to his appreciative eyes. He read and studied and examined; he soon understood the necessity of knowing something of mathematics, geography and grammar for the carrying on of his favorite study, and he made rapid progress in his classes. In short, twenty years latter he was eminent as a naturalist, and owed his success, as he never hesitated to acknowledge, to that discerning teacher.

Terrible Travelling.

Mr. C. E. D. Wood, the editor of the Fort McLeod *Gazette*, who is now in Ontario, writing to his paper from Medicine Hat, gives the following description of his trip eastward to that point, coupled with some good advice to travellers:—We arrived here on Nov. 27th, after a most miserable trip. We left the Fort Walsh trail about three miles this side of Whoop Up, and struck a straight line for Medicine Hat, which we followed to Chin Coulee, travelling by compass, but as there was no water in the Chin we were forced to pull down to the river for water for the horses, and had to follow it all the way down. As there are some immense coulees running out from the river, in some cases four or five miles and even more, we had to go round the head of them, two or three taking us nearly the whole day, one in particular taking us back on the back trail. We were just eight days *coming from Whoop Up here, distance by* straight line only 105 miles, and ten days from McLeod. We struck a pretty bad snow storm the second day and night from Whoop Up, and as it was very cold the most of the time, travelling was anything but pleasant. One of our horses died two or three days from here, and we sailed into Medicine Hat with a spiked team. With the exception of the snow storm we had magnificent weather. It is a great mistake starting out this time of the year without a tent, and still a greater one to leave the regular trail, even if it is longer. For the information of the travelling public that propose going to the terminus, we would say that the best route is to keep the Fort Walsh trail to the Forty-Mile Coulee, and then follow the Seven Persons Coulee, which will take them direct to Medicine Hat.

Never Know Defeat.

An elastic temperament, which never seems to recognize the fact of defeat, or forgets it at once and begins the work over again, is very likely to ensure success. Many a great orator has made a terrible break-down in his maiden speech. Many a merchant loses one fortune only to build up another and a larger one. Many an inventor fails in his first efforts, and is at last rewarded with a splendid triumph. Some of the most popular novelists wrote very poor stuff in the beginning. They were learning their trade, and could not expect to turn out first-class work until their apprenticeship was over. One great secret of success is not to be discouraged.

PURE AIR FOR CHILDREN.

Many mothers oversee with great care the diet of their young children; the nourishing oatmeal porridge and pure milk are carefully supplied, and few are the children accustomed to any variety of food who do not see on some tempting dish the ban of mother's disapproval. She takes the same care to supply pure air; rooms are often aired, and any intrusion of sewer gas, or anything else of a hurtful nature, is vigilantly guarded against in the home.

But there her power ends; her children spend a large portion of their walking hours in school, but the tender care which elsewhere surrounds them day and night, cannot enter these crowded portals. Nowhere is that care more needed. Enter the school-room which the city provides for your little ones, near the close of session; as you open the door coming from the pure outer air, you almost gasp for breath. Here are perhaps sixty little children, many of them wearing clothes not only soiled, but filled with the mingled odors of their poor homes, and their bodies, perhaps never thoroughly bathed since their babyhood. What a volume of pure air it must take to replace that poisoned by the impurities thrown of not only by such bodies, but by sixty pairs of lung! One bare school-house in Boston, Chauncy Hall, justly claims to be thoroughly ventilated; but this result is accomplished at such a large expense that we cannot expect the system to be employed in the public schools. A celebrated writer on sanitary subjects, is quoted in the ought never to be kept through an entire ses- *Journal of Education* as saying that children sion in one room; the air becomes in a short time unfit to breathe. I know that efforts are made to keep the air pure by opening windows at intervals, but such means cannot accomplish much where the rooms are so crowded. In addition, the presence of water closets in the basement is quite evident to the visitor up stairs. In my own neighborhood an epidemic of diphtheria was traced directly to the defective sanitary condition of a primary school house; the condition of the building was improved, but homes made desolate and parents' hearts sorely wounded remain to bear witness to the evil. I once saw a class of little children leaving school at the end of the afternoon session. Among them I recognized a dear child, an only daughter, and the idol of her home. Her face had an unhealthy flush, and as she walked slowly homeward in the declining light of the day I wished that instead of being confined in the close school room she might be playing out of doors in the fresh air. In a few weeks I heard of her death from diphtheria, accompanied by an expression of wonder that this disease should have attacked her in her healthful home, but the cause did not seem so mysterious to me.

Not only should the air in the school-room be pure, but children should be confined there fewer hours. A wise physician, who had attended a little boy through a long attack of illness, impressed upon his mother, when he began to recover, the necessity of his being much in the open air. "But," objected the mother, "he is subject to sore throat, would it be well to send him out in all weathers?" "If the weather is very bad, it may be necessary to keep him in a day, but let him out all the more the next day to make up for it." So often was the advice repeated that the mother could not but follow it, and now the boy in his eight year is stout and strong, careless of fatigue, throwing off easily any cold or slight indisposition; he has never been to school a day in his life, but spends an hour a day by his mother's side, learning his simple tasks, and nearly all of the rest of the day is out of doors. How different it is with a child who is sent to school before the sun is very high, in these short winter days. He must be in his seat, and with the exception of the intermission for dinner, is not released until the sun is near its setting. Surely our young children need more playtime out of doors.—*Herald of Health.*

A Painful Case.

A Mrs. Veegrand (German) has been in the city for some time past, having come from London, Eng., in search of her stepson, Henry Ennermian, who has been lost for nearly two years past. The mother called at this office to-day, and, according to her statement the lad came out as one of Miss McPherson's immigrant children, and was taken with them to the "Home" in Galt, Ont. He there took very sick; after having recovered sufficiently he was placed with a farmer at Mount Forest, distant some miles from Galt. Here he was given work to do beyond his strength, and after two days came back to the Home. He was set to sawing wood, a work, the mother thinks, altogether too hard for him, especially so soon after his illness. Be this as it may, the boy soon ran away, and has not been heard of or seen since, although descriptions of him and full details of his leaving have been published in all the principal papers of Ontario. He is described as tall and well-built for his age, now fourteen, has light blue eyes and fair hair, speaks German and English, the latter with slight German accent. The mother told her story with much emotion and evident candor and said she was about to visit Ottawa and all the principal towns of the Dominion, and elsewhere if necessary, till she found "her poor boy." The case is altogether a painful one, and contemporaries generally would be doing a real service by noticing the facts as herein stated.—*Montreal Witness.*

MACFARLANE WILSON.

JACK PLANE,

BY H. C. DODGE.

Jack Plane, a carpenter, would use
No pen to write "for glory,"
But he would take carpenter right
For pay a second story.

Though not a barber, he could cut
Ahead of anyone,
And shingle, too; his shavings were
With lath-er neatly done.

He never drove his old saw horse,
Although it rotted fast,
He broke it with a bit at first;
It broke in bits at last.

He drove a nail; to make it go
He'd hit it on the head,
But when he'd hit it on the hand
He'd hammer lot, it's said.

"A door is not a door," he'd say,
"When it's ajar of jamb,
And panes of glass are never light
For those who take a dram."

He'd always build a scaffold when
He went to hang a door,
And he would never sell a house
Until he'd cellar floor.

"I saw myself when I'm aboard,"
He often used to say.
"And then I'm knotty and cut up
A dozen tricks a day."

One day, while shingling, came a fog
Upon him awful thick,
But he was bound to stick at work,
While he could work a stick.

At night he, like the fog, was mist,
And people called in vain,
And very soon they plain could see
That they could not see Plane.

For from the distance came a sound
Of hammering in the air.
"Some ninny hammer likes to pound
All night," they said "somewhere."

But when the thick fog lifted Jack
Was dropped within a bog
And found he'd shingled, not a roof
But half a mile of fog.

FROM ALL OVER.

THE entire village of Patahazai, Austria, has been washed away by the floods.

THE Toronto "Zoo" receipts last year amounted to $18,000, and 6,000 was invested in stock and buildings.

"Barkis is willing." But it's because Barkis can't help himself. He has to believe facts. Churchill's Ointment never fails to cure old sores when all else fails. Twenty-five cents a box.

A GANG of forty men has been arrested at Cannes. They were provided with arms and contemplated highway robberies.

SALLOWNESS AND WRINKLES.—The former gives place to the bloom of youth, the latter are smoothed out and depart when the Fountain of Health is used. Twenty-five cents per package.

THE amount realized at the sale of Plymouth Church pews at Brooklyn was $37,001. Of this sum, $24,209 were for premiums and $12,792 for retails.

No one sees the wallet that is on his own back, though every one carries two backs: one *before*, which is stuffed with the faults of his neighbors, the other behind, which is fitted with his own.

GOOD ADVICE.—Keep the head cool, the feet dry and warm, the bowels open and the blood pure by using Hope's Regulating Pills and Fountain of Health. Sold at 10 and 25 cents everywhere.

THE new Spanish Minister of Justice has announced his intention of abolishing the execution of women and the suppression of newspapers, leaving suspension the highest press penalty.

GRANULATED EYE LIDS.—There is a chronic inflamed hot surface of the lids, continually irritating to the eye, otherwise healthy. One box of Churchill's Climax Eye Salve will cure this trouble. Price 25 cents.

A LONDONER one day by accident saw the sun. "Bless me," said he, "'ow they 'ave himproved that 'lectric light." After a moment's pause during which he gazed upon the novel sight, he added reflectively. "But how did they get 'im up so high?"

THE jury in the case of Mary A. Livingston, of Brooklyn, against Henry Fleming, for breach of promise of marriage and seduction, returned a verdict of $75,000 for plaintiff, the full amount claimed. The verdict was received with a storm of applause by the spectators.

THE cause of death. It is known almost to a certainty that in fatal diseases the individual dies either by the brain, heart or lungs. How wise then is the effort to maintain a perfect state of health? Dr. Carson's Stomach and Constipation Bitters are a veritable "Health Giver." They free the system from all impurities; cure Billiousness, Dyspepsia, and all diseases of the Stomach, Liver or Bowels. In large bottles at 50 cents. Sold by all Druggists.

ONE of the hotel keepers in the rear of Hastings County has had trouble with one of his servant girls. She undertook to leave her employer before hertime was up and he promptly had her arrested. She was brought up before a local Magistrate and committed to gaol. Servant girls should take warning.—*Intelligencer.*

DO YOUR CHILDREN have fits or convulsions, grind their teeth, pick their nose, have a bad breath, or a changeable appetite? Are they restless or feverish at night? If so, ask your druggist for Dr. Smith's German Worm Remedy (take no other), it only costs 25 cents. Is simple safe, and pleasant to take. If there are no worms, to remove the slime and bile that breeds them, tones up the system, and will save many a doctor's bill. A word to the wise, etc. Thousands of testimonials.

Do Not be Deceived.

In these times of quack medicine advertisements everywhere, it is truly gratifying to find one remedy that is worthy of praise and which really does as recommended. Electric Bitters we will also recommend. They invariably cure Stomach and Liver Complaints, Diseases of the Kidneys and Urinary difficulties. We know whereof we speak, and can readily say, give them a trial. Sold at fifty cents a bottle, by Taylor & Macdonald.—3

Washington, D.C., Feb. 19, '82.

GENTLEMEN,—Inclosed find $1, and will you send me some of N. H. Down's Vegetable Balsamic Elixir by express. I have a bad cold, as has almost every one else here, but cannot find the Elixir, which I used frequently at home and consider a most valuable medicine; in fact, the very best remedy for a cold that I ever used.

Very truly yours, WILLIAM W. GROUT.

Bucklen's Arnica Salve.

The best salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Taylor & Macdonald.

It always gives us pleasure to draw attention to articles which are deserving of public patronage. Probably no article ever offered to the public has met with the same success as Gray's Syrup of Red Spruce Gum. Thousands of families in the Dominion keep it in their homes as the standard Cough Remedy. The sale of this article has assumed enormous proportions. Our advice to the public at large is to try its virtues if they should at any time unfortunately contract either Coughs or Colds. It is sold by all chemists.

THE

PACIFIC NORTHWEST!

Oregon, Washington, and Idaho.

Offers the best field for emigrants—viz.: a mild, equable, and healthy climate; cheap lands of great fertility, producing all varieties of Grain, Fruit, and Grasses in wonderful abundance; an inexhaustible supply of Timber; vast Coal Fields, and other mineral deposits; cheap and quick transportation by railroads and river navigation; direct commerce with all parts of the world, owing to its proximity to the Pacific Ocean.

NO DROUTHS, NO INSECT PESTS, NO HURRICANES, WHIRLWINDS, OR OTHER DESTRUCTIVE PHENOMENA.

The lands of the Pacific Northwest show an average yield of wheat per acre largely in excess of that of any other section of the United States.

No failure of crops has ever occurred.

Oregon wheat commands a higher price than that of any other country in the Liverpool market.

An immense area of very fertile Railroad and Government Lands, within easy reach of the trunk lines of the Northern Pacific R.R., the Oregon Railway & Navigation, and the Oregon & California RR. Co's and their numerous branches in the great Valleys of the Columbia and its tributaries, are now offered for sale at Low Prices, and on Easy Terms, or open to pre-emption and Homestead Entry.

The great movement of population to the Columbia region now in progress will be enormously increased by the completion of the Northern Pacific RR. and the Oregon Railway and Navigation Co's systems. This renders certain a rapid increase in the value of Lands now open to purchase or to entry under the United States Land Laws.

I CURE FITS!

When I say cure I do not mean merely to stop them for a time and then have them return again, I mean a radical cure. I have made the disease of FITS, EPILEPSY or FALLING SICKNESS a life-long study. I warrant my remedy to cure the worst cases. Because others have failed is no reason for not now receiving a cure. Send at once for a treatise and a Free Bottle of my infallible remedy. Give Express and Post Office. It costs you nothing for a trial, and I will cure you.

The Great American Remedy for COUGHS, COLDS, ASTHMA, BRONCHITIS, LOSS OF VOICE, HOARSENESS AND THROAT AFFECTIONS.

Prepared from the finest Red Spruce Gum. (Delicious Flavor.) Balsamic, Soothing, Expectorant and Tonic. Superior to any medicine offered for all the above complaints. A scientific combination of the Gum which exudes from the Red Spruce tree—without doubt the most valuable native Gum for Medicinal purposes.

Every one has heard of the wonderful effects of the Spruces and the Pines in cases of Lung Disease.

In France the physicians regularly send their consumptive patients to the pine woods and order them to drink a tea made from the Spruce tops.

GRAY'S
SYRUP
OF
RED
SPRUCE
GUM.

In this preparation the Gum never separates, and all its anti-spasmodic, expectorant, tonic, and balsamic properties are preserved.

This Syrup, carefully prepared at a low temperature, contains a large quantity of the finest picked Gum in complete solution.

Its remarkable power in relieving certain forms of Bronchitis, and its almost specific effect in curing obstinate hacking Coughs, is now well known to the public at large.

Sold by all respectable chemists. Price, 25 and 50 cents a bottle.

The words "Syrup of Red Spruce Gum" constitute our Registered Trade Mark, and our wrapper and labels are also registered.

Daily Evening Review

MONDAY, JANUARY 15, 1883.

Somewhat Better.

Mr. Samuel Milligan is said to be a little better to-day, and he may recover from the wounds received at the hands of his assailants.

Board of Education.

A special meeting of the Board of Education will be held to-morrow evening at the Collegiate Institute building, at 7.45 o'clock.

Railway Note.

Mr. W. A. Dixon has been appointed station agent at Markham, on the Toronto and Nipissing Division of the Midland Railway.

I. O. G. T.

The Grangers are using Friendship Lodge Hall to-day, for their district meeting. The members of Friendship Lodge are requested to attend on Tuesday (to-morrow) evening, instead of to-night. Business of importance will be transacted.

The Weather Probabilities.

The weather probabilities for this district for the following 24 hours, as reported from Toronto at 1 a. m. to-day, by the Great Northwestern Telegraph Company, are as follows:—Lakes, winds mostly westerly; fair colder weather; flurries of snow in a few localities.

Dairymen's Association.

The Eastern Ontario Dairymen's Association will hold its Annual Convention at Brockville on the 31 inst. and 1st prox. Talented speakers will address the meeting. Certificates to obtain reduced fares, on all Railways, can be obtained on application to the Secretary, Mr. Harford Ashley, Belleville.

Concert.

Mr. Charles W. Ewing's Grand Evening Concert will take place in Bradburn's Hall on Tuesday, February 6th. Mrs. Caldwell, of Hamilton, Mrs. Chambers, formerly of Peterborough, and the choir of St. John's Church will perform. The piano forte used on this occasion will be a magnificent Weber Concert Grand, supplied by Messrs. Williams & Co., Toronto.

Presentation.

Mr. Thos. H. Johnston, who has "gone the way of all the world," and joined the ranks of the married, was on Friday evening made the recipient of a very neat present. His associates in the "Giant T," wishing to give him some token of their good wishes on his behalf, presented him with a handsome cake basket and other ornamental though useful articles. The presentation, on behalf of the employees, was made by Mr. Stephen Norton, and Mr. Johnston was much affected by this exhibition of the kind feelings of his associates.

THEIR FIRST MEETING.

THE COUNCIL FOR 1883 ASSEMBLE AND ORGANIZE FOR BUSINESS.

The Declarations of Office—The Auditors Appointed—A Dog Tax Question—The Assessors—The Committee on Appointments.

The new Council for 1883 met at eleven o'clock to-day, according to the requirements of the statute, for organization.

The Clerk read the returns showing who had been selected to serve in the Council during the year. He also read the declarations of office of the Mayor and Councillors.

PRESENT—His Worship H. H. Smith, Mayor. Ward No. 1—Councillors Cahill, Davidson, and McNaughton; Ward No. 2—Councillors Kelly, Paterson, and Sawers; Ward No. 3—Councillors Yelland, Douglas and Rutherford; Ward No. 4—Councillors Menzies and Hartley. The remaining member for the Fourth Ward was absent.

The minutes of the last meeting were read and confirmed.

COMMUNICATIONS.

From C. McGrath and Jos. Lundy asking for the position of assessors, and for an increase of salary, as they said the duties of the office had become greater.—Received.

An account was read from O. Jyles, $5.20, and ordered to be paid.

THE AUDITORS.

THE MAYOR asked whether the Council would be willing to allow the Auditors to work in the evening?

This was agreed to.

The MAYOR appointed Mr. Jas. Stratton as his Auditor.

Councillor YELLAND moved, seconded by Councillor DOUGLAS,—That Mr. E. Pearce be appointed Auditor.

Councillors PATERSON moved, in amendment, seconded by Councillor CAAHILL,—That Mr. J. J. Hall be appointed Auditor.

Councillor MCNAUGHTON moved in amendment to the amendment, seconded by Councillor MENZIES,—That Mr. Wilson be appointed Auditor.

The amendments were lost, and the motion appointing Mr. Pearce was carried.

The By-law confirming the appointments was read a first time.

Council went into Committee of the Whole on the By-law.

The blank in the By-law, fixing the salary, was filled with $50 for each Auditor.

The By-law was read a third time and finally passed.

A TAX QUESTION.

Mr. E. PEARCE was, on motion, heard by the Council. He said that he had gone to pay Mr. Fairbairn's taxes, on property belonging to the Burnham estate, Mr. Fairbairn having left the town, and the Collector declined to take it unless he paid Mr. Fairbairn's dog tax. He asked the Council to instruct the Collector to accept the taxes, less the dog tax.

On motion the dog tax was ordered to be struck off, after some discussion.

THE STANDING COMMITTEES.

Councillor RUTHERFORD, moved, seconded by Councillor CAHILL,—That the following Councillors be appointed a committee to strike the Standing Committees:—Paterson, Douglas, Menzies, Sawers, Kelly, the mover and seconder—the committee to report in the evening.—Carried.

THE ASSESSORS.

Councillor CAHILL moved, seconded by Councillor DAVIDSON,—That Joseph Lundy and Cornelius McGrath be appointed Assessors, and that the Clerk be instructed to prepare a by-law to carry their appointment into effect.

Councillor RUTHERFORD moved in amendment that the question be left over until this evening.

The amendment was lost and the motion declared carried.

The Council then adjourned until 7:30 in the evening.

Returned.

The overcoat and muffler belonging to a boy attending the Union School, which were taken from the school last week, have been returned. The janitor found the articles hanging in the lower hall this morning.

The Town Council.

All kinds of professions and trades are represented in the Council this year, except the medical profession. The Council is composed o three merchants, two lawyers, two contractors and builders, two blacksmiths and carriage makers, one tanner, one Government official, one miller and one shoemaker. This does not show much change from last year.

Police News.

There was a blank at the Police Court this morning. "Any tramps in the cells during the last two nights?" was the question asked a constable. "Not one," was the answer; "that Trent Valley contractor, Mr. Goodwin, is carrying all the unemployed men off to work for him, and there soon will not be an idle man around town if they wish to work."

Personal.

Mr. T. Blezard, M. P. P., Dr. Boulter, M. P. P., and Mr. J. M. Ferris, M. P. P., were at the Caisse House on Friday night.

The Emerson *International* of January 9th says:—

> "Mr. Alex. Haggart, of Winnipeg, partner in the firm of Ross, Killam & Haggart, is in town to-day visiting old Peterborough friends, from whom he met a warm welcome. Alex. is one of the most successful of the many citizens whom Peterborough has contributed to Manitoba."

J. B. King, Esq., Toronto, Grand Secretary of the Oddfellows, arrived in town by the noon train to-day. He is stopping at the Caisse House.

A NEGLECTED CROP.

There is one crop that has been neglected by the American farmer. He could not grow it when the trees were being cut to clear a place to yield him the necessary food. In taking up new land, there was no opportunity to be very social, and, as a result, sociability has not received much attention as a farm crop in the early days of our agriculture.

The time has now come when it should be more extensively cultivated. If anyone asks me why the farmer boy and girl long for the city, I only answer that they think the society is better there. On the farm they grow lonesome, and their young active natures crave more life and change than the farm, as we too frequently find it, provides for them. Some one has beautifully written: "No one wants too much of anything, even of the serene companionless quiet of a beautiful country region, and the happiest existence must be that which can command, along with green fields and singing streams, something of the good cheer and inspiration of the congenial fellowship both in social and business life." Man is a social being, and this part of his nature asserts itself at very early years. A child loves to be with other children, and in the intercourse with each other the better qualities of the child nature are quickened and expanded.

The country, perhaps can never offer all the advantages found in the city for a *rapid* and easy interchange of thought and *feeling*; that is, the people in town may be more social with less expense, than those who dwell in the rural districts. But this is no reason why the farmers should not be much more neighborly than they now are. There is no serious reason why the farmers and their families in every township in the older portions of the country should not have a society for mutual improvement and social growth. There are many of these clubs already formed, but the number is small in comparison with those that might be—may I say, ought to be?—formed.

As our country grows older the lines of distinction between the city and the country people must be broken down. The city will go to the country and teach many things, and perhaps learn more, while the country boy will not be so very different from the one who has been brought up in town. Year by year the social nature of the farmer will not be expanded, and along with the wheat and corn, roots and clover there will be another crop grown, in the care of which all the members of the family, and others, will gladly take a part, and sociability will be a regular and most profitable farm crop. Upon the proper growth of this crop rests much of the best progress in the future agriculture of our country.—*Beedy Aich, in Christian Union.*

A SURE THING!

Clothing again! Well, it's about the most interesting topic we can talk of just now. It's the season when clothing is most needed, and the season we must sell it, so you see it interests us both. Our stock of Clothing for this time of year is large, our assortment unusually complete, facts of great advantage to buyers, and of some advantage to us, as it enables us the better to suit you. We want to hurry the out-word movement of our stock and consequently will give a decent discount to prompt cash buyers. This reduction is made solely with a view to working off in proper season our immense Stock, and not because the goods are in any respect undesirable. Our clothing is built of strong serviceable fabrics, well and carefully made, and with trimming warranted to wear. Every style of goods from plain and sturdy to the most elegant. Nothing slighted,—except our profits.

SULPHOLINE LOTION.—AN EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcule which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar to itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly affected with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, billousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

Daily Evening Review

TUESDAY, JANUARY 16, 1883.

The Cells.

The police cells were uninhabited last night.

The Peterborough Presbytery.

The Presbytery of Peterborough met this afternoon at 3 o'clock, in St. Andrew's Church,

Board of Education.

A special meeting of Board of Education will be held this evening at 7 45 o'clock in the Collegiate Institute.

The Crossings.

The Street Inspector has had men at work to-day on the crossings on George street, removing the ice, in order to render them less dangerous.

The Temperature.

The thermometer at Messrs. Taylor & Macdonald's registered as follows, to-day:—At 8 a. m., 2° above zero; at noon, 21° above zero, and at 3 p.m., 26° degrees above.

Entertainment.

An entertainment, consisting of songs, readings and instrumental pieces by the best amateurs of Peterborough, will be held in St. Luke's school room, Ashburnham, on Tuesday evening next, the 23d inst., at 7:30 p. m. Admission, 10 cents. Held under the auspices of St. Luke's Parochial Association.

Annual Public Meeting.

The annual public meeting of the Peterborough Presbyterian Woman's Foreign Missionary Society will be held this evening, at 8 o'clock, in the school room of St. Paul's Church. Addresses will be delivered by the Rev. R. J. Beattie, member of the Foreign Mission Committee, and other members of the Presbytery.

The Weather Probabilities.

The weather is colder to-day. The weather probabilities for this district for the following 24 hours, as reported from Toronto at 1 a. m. to-day, by the Great Northwestern Telegraph Company, are as follows:—Light to moderate winds; generally fair weather, with snow flurries in some localities; stationary or slightly higher temperature.

A Rush of Taxes.

Monday being the last day for receiving the net taxes of the town without the additional 5 per cent., the Collector, Mr. Cummings, took in $7,509, a large sum for one man to handle and check with the accounts. At times there was a great rush, and it was apparent that he needs some clerical assistance on such busy days.

A Jolly Crew.

A dozen or more men, who are employed on the railway, yesterday afternoon marched out of town by the way of McDonnell street, disdaining to walk on the sidewalk and making use of the roadway in the middle of the street. They were very jolly, and correspondingly noisy. They stopped a few times on their way, each one in turn raising his hand above his head and turning his eyes towards the sky. They were perhaps searching for a new planet, but whatever they were trying to do they were evidently successful, for as the hands were lowered they each gave a shout of triumph, and as they moved on they shouted in chorus as loudly as they lungs would permit. They were extremely good-natured, and their actions only evoked smiles from the onlookers.

THIS DAY'S TELEGRAMS.

Press Despatches to the Review.

CABLE.

THE RECENT ARRESTS.

DUBLIN, Jan. 16.—An effort will be made to prosecute the prisoners recently arrested for having been in the company of persons posted in a certain part of the city, for the purpose of assassinating a high official. The attempt was postponed for a better opportunity, which never arose. It is stated that it will be shown that there was a plot to destroy the Lord Lieutenant and his escort, by bombs thrown from unoccupied houses.

NAPOLEONIC MANIFESTO.

PARIS, Jan. 16.—The *Figaro* published a manifesto professedly issued by Prince Napoleon, criticizing the present situation and claiming the Napoleonic inheritance.

SECRET SOCIETIES.

LONDON, Jan. 16.—A Dublin correspondent says that there are two distinct secret societies here. One belongs to the "Old Head Centre," Stephens' Fenian party, which advocates open warfare. The other known as the Senate or Council, which advocates murder.

WRECKAGE FOUND.

LONDON, Jan. 16.—The beach from Harwick to Aldenburgh is strewed with the wreckage of the British ship Pride of the Ocean from Hamburg for New York. A case containing dynamite has been found. The fact that the wreckage is of exceedingly small pieces led to the conjecture that the loss of the vessel was caused by an explosion of dynamite.

AN AFFRAY IN DUBLIN.

DUBLIN, Jan. 16.—There was an affray here this morning between the policemen and young men, who attempted to deprive the officers of their revolvers. Four men were arrested.

EARTHQUAKE SHOCK.

VIENNA, Jan. 16.—There was a shock of earthquake at Carlsbad. Two houses fell.

AMERICAN.

FIRE.

FRANKSTOWN, Pa., Jan. 16.—The forge and bolt department of the Elba Iron Works was burned last night. Loss $40,000.

A BLOCK BURNED.

UNION CITY, Pa., Jan. 16.—The Cooper Block was burned yesterday. Loss $37,000.

WASHING AWAY.

SANDY HOOK, Jan. 16.—The beach here has been badly cut away by the sea. The Government buildings are undermined.

INDIAN AFFAIRS.

CAMP POPLAR RIVER, Mo., Jan. 16.—At the request of the agent at the Popular River agency, Capt. Reed sent troops to aid in the removal of the settlers from the reservation, as the Indians are greatly excited and there is reason to apprehend serious trouble.

THE EXPERTS' FEES.

WASHINGTON, Jan. 16.—The Department of Justice has decided to pay the experts at the Guiteau trial a uniform rate of $25 a day, with ordinary witness fees in addition, but no other allowance for expense, the whole amount to be paid, expenses exclusive. The ordinary witness fees will be about $12 000. It is intemated that the experts especially connected with the prepartion of the case may receive an additional allowance. These are Dr. Gray, of Utica, Drs. Macdonald and Hamilton, of New York, and Dr. Kempster, of Wisconsin.

THE ACT OF BURGLARS.

ST. LOUIS, Jan. 16.—The Planter's House fire is now charged to burglars. A guest tells of a meeting of burglars in a hall, who, breaking in the doors of several guests, secured the valuables which they had left in the rooms when they fled from the buildings.

ABSCONDED.

ONEIDA, Jan. 16.—George W. Matthews, lately station agent of the New York, Ontario and Western Railway at Morrisville, is a defaulter to the extent of $6,000. He has absconded.

MEXICAN RECIPROCITY.

WASHINGTON, Jan. 16.—Yesterday General Grant said he expected that the Mexican commercial treaty would be sent to the Senate by the President not later than on Wednesday. There was nothing in the treaty that would seriously hurt the sugar men.

A PUBLIC HALL BURNED.

ALBANY, Jan. 16.—A fire started at McCannon's music store, under Tweddle Hall, at 7:30 this morning and spread so quickly to the stage that within ten minutes the flames were beyond control. The hall is entirely ruined.

HYDROPHOBIA.

SYRACUSE, Jan. 16.—On Thursday Luke Driscoll, of Baldwinsville, aged 20, was seized with symptoms of hydrophobia so violent that it was necessary to hold him on his bed. The physicians declare that he cannot survive. It is not known that he has ever been bitten by a dog.

A DENIAL.

NEW YORK, Jan. 16.—The President of the Illinois Central Railway denies that Vanderbilt is trying to secure control of the road.

THE TARIFF.

NEW YORK, Jan. 16.—The *Herald's* Washington despatch says that there is a strong movement on foot among influential Republicans, to reach an understanding so that, after considerable tariff debate, there shall be a substitute for the Senate and House tariff bills, the measure making a reduction in internial revenue and few reductions in the more prominent factors on the tariff lists. This is now thought by several prominent Republicans to be the best and only thing which can be done at this session.

FAILED.

NEW YORK, Jan. 16.—Nathaniel Boynton, who endorsed the paper of Alinzo Fellatt, has failed.

SWALLOWED WASHING SODA.

WARSAW, N. Y., Jan. 16.—Homer Ottis, son of a prominent citizen, swallowed some washing soda, mistaking it for cider. He was alone at the house. On the arrival of his parents he told them of the accident. He then swallowed several raw eggs to neutralize the action of the alkalies. He hitched up a team and drove for life to the nearest physician, and is now in a critical condition.

STILL BURNING.

ALBANY, Jan. 16.—The fire is still burning, but is under control.

A STREET BURNED.

PLAINVILLE, Conn., Jan. 16.—The principal business portion of Main Street was burned today. Loss, $20,000.

MIDNIGHT TELEGRAMS

CABLE.

ATTEMPT TO KILL THE SULTAN.

LONDON, Jan. 15.—Telegrams from official sources at Constantinople report that some Circassians attempted on Sunday to assassinate the Sultan. A woman divulged the plot, and the Albanian bodyguard met and defeated the Circassians in the vicinity of the Sultan's apartments. Several men were killed.

AFRICA'S ONLY HOPE.

BERLIN, Jan. 15.—Rev. Mr. Merensky, a German missionary, who has been 22 years in South Africa, declares that a South African confederacy under the British flag is the only safeguard against anarchy. He advises Germans to emigrate thither.

A STRIKE FOR LIBERTY.

ST. PETERSBURG, Jan. 15.—A number of political prisoners at Tomsk, Siberia, attempted to escape recently by a subterranean tunnel they had constructed. Several prisoners on the way to Odessa escaped while the guards were asleep.

THE RUSSIAN BUDGET.

ST. PETERSBURG, Jan. 15.—The Russian budget for 1883 estimates the receipts at 773,500,000 roubles, and the expenditure at 100,000 less. An accompanying report says an improvement in the financial situation, although difficult, is not impossible.

A $50,000 STEAL.

PANAMA, Jan. 6.—A shipment of one hundred thousand dollars in gold was made by the sub-treasury in New York through Wells, Fargo & Co. to the United States fleet on the Pacific by the steamer City of Para, which arrived at Aspinwall on the 28th ult. The money was packed in two small kegs, weighing two hundred pounds each. They were stored in the Panama railroad vault. When the money was to be delivered on the 1st, it was discovered that one keg was missing. No locks had been broken, but it was learned that a keg had been opened in the freight house, but neither the keg nor any vestige of its contents could be discovered. Several arrests have been made, but nothing has yet been ascertained.

THE NEXT ELECTION.

DUBLIN, Jan. 15.—Mr. Sexton, speaking at Mallow yesterday, said the day is coming when Mr. Parnell's party will be supreme in Ireland. At the next election for members of the House of Commons they would have two-thirds of the seats, which would make British rule impossible.

RAILWAY COLLISION.

LONDON, Jan. 15.—A freight train collided with a passenger train near Stepney junction to-day. Thirty persons were injured, the majority slightly.

A SPLENETIC JOURNALIST.

PARIS, Jan. 15.—The *Rappel*, referring to the Prince of Wales unveiling the statute of the Prince Imperial on Saturday, stigmatizes the English nation as a herd of cattle, and the English army as an army of women. The other newspapers make spiteful comments.

EGYPTIAN POLICE.

CAIRO, Jan. 15.—Baker Pasha reports that the police organization at Alexandria is utterly bad, and suggests the introduction of a small body of highly-trained constables, chiefly from England, the remainder to be natives.

AMERICAN.

ARRESTED FOR ARSON.

MILWAUKEE, Jan. 15.—The police yesterday arrested a man believed to be the person suspected as having set the Newhall House on fire. The matter is kept in the utmost secrecy. Eighteen bodies have thus far been recovered from the ruins. The militia were yesterday employed to keep back the crowd about the ruins.

NIAGARA BRIDGE.

WASHINGTON, Jan. 16.—Miller, of New York, introduced three bills authorizing the construction of a railway bridge across the Niagara river.

OBITUARY.

LEXINGTON, Va., Jan. 16.—Gen. W. C. Pendleton, formerly Chief of the Artillery of the Confederate Army in Northern Virginia and Rector of Grace Church, died last night.

Do Not be Deceived.

In these times of quack medicine advertisements everywhere, it is truly gratifying to find one remedy that is worthy of praise and which really does as recommended. Electric Bitters we will also recommend. They invariably cure Stomach and Liver Complaints, Diseases of the Kidneys and Urinary difficulties. We know whereof we speak, and can readily say, give them a trial. Sold at fifty cents a bottle, by Taylor & Macdonald.—3

Personal! To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

LITTLE BY LITTLE.—The constant dropping of water will wear away even the hardest stone. So the constant irritation of a cough will so wear upon the lungs as to induce incurable Consumption. Hagyard's Pectoral Balsam will cure the worst cough, speedily and effectually.

IT made me feel like a "Band of Music," was the rather forcible expression of an individual who was praising "Pectoria," the great remedy for Coughs and Colds, Hoarseness, Asthma, Bronchitis. It is safe, pleasant and effectual. If you suffer, try it. For sale by all druggists and general dealers at 25 cents a bottle.

WITH every bottle of Dr. Carson's Pulmonary Cough Drops, a sample bottle is given free of charge. If, after using the trial bottle, you are not satisfied with its effect, you can return the large bottle to your dealer, who will refund the money. Thousands can testify to its prompt action in curing Coughs, Colds, Bronchitis etc. If you suffer, try them. Price 50 cents. Sold by all Druggists.

Mothers! Mothers

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle. 156w

South End Bookstore.

And now that he has done with Christmas cheer,
The honest schoolboy doth begin to appear.
With purse in hand he comes into our store,
Saying, "This is where I should have come before!
"I want some books—they must be good and cheap,
You buy for cash, and I the benefit reap.
A Spelling Book, a Reader and a Copy—
The price of each I know will suit my 'Pappy'—
An Arithmetic, a Grammar and a History,
But how I am to carry them's a mystery.
You say I need a Bag to accommodate
My school-books, pens and pencils and my slate?
Yes! that's the thing, my fears are at an end,
No harm to books from snow or rain or wind.
I'm feeling, now, quite happy and contented,
Well satisfied with what I have expended;
And rest assured, if I want any more,
I'll come right back to the South End Bookstore."

Daily Evening Review

TUESDAY, JANUARY 16, 1883.

THE MOWAT PLATFORM.

THE third resolution at the Reform Convention concerned the Boundary Award, and began by stating that "this Province came into confederation with the territory which properly belonged to Upper Canada." This being the indisputable fact, and it being also indisputable that such Confederation was accomplished by an Imperial Act, it follows of necessity that it rests with the courts up to the highest Court of Appeal, the Privy Council, to interpret that Act, or if the wording is too doubtful to be thus interpreted, that Imperial Legislature alone can supplement it. It is true that our Legislatures have power under our constitution to change the boundaries of Provinces, if that were required, which it is not, but the power is expressly given to the Legislatures, not to the executive authorities of the Provinces interested.

The assertion in the resolution that competent arbitrators were appointed, and that the good faith of the Dominion and the Province were pledged that their award should be final and conclusive, is utterly false. Mr. Mackenzie had no authority to pledge the faith of the Dominion, and its Parliament, which had the jurisdiction, declined to do so.

As to this denial prejudicing the "just claims and territorial rights of this Province," the statement is equally erroneous. The award is admittedly insufficient; Mr. Mowat says even in the statute book that it does not give us our full claim; Sir F. Hincks, one of the arbitrators says that every doubtful point was decided against us, and that their convenient line deprived us of a large amount of territory that would otherwise be ours; and Mr. Laurier, the Quebec Reform leader, urged the acceptance of the award because a competent court would do us fuller justice. The Privy Council would undoubtedly give us our due rights, and that in a legal manner that would settle the question finally.

As to the "manly and persistent assertion by the Ontario Government of our claims and rights," their persistency has simply prevented the final settlement of the matter by a reference to the Privy Council, which was offered to them more than ten years ago and is offered to them still. The real object of this persistency leaks out in the concluding paragraph of the resolution, "their demand for the immediate ownership and government of the awarded territory." They will not be content with joint control, but are ready to go to the Privy Council, if the territory in question is placed in their hands meanwhile. Mr. Mowat has alienated the great bulk of our real estate to carry on his extravagant expenditure, and has filled every available office with his creatures, so he yearns for more timber limits to sell, and more places for his official political agents. If he can get these he is content to go to the Privy Council, if not he assails as "robbers" those who appeal to the highest court of the realm.

BLAKE CRITICISED.

The London *Free Press* has rather a good joke on the *Advertiser*. The two were arguing the disallowance question, and the *Advertiser* urged that no Province but that affected by any particular act would object, even were injustice done. The *Free Press* replied as follows:—

"The Parliament of Canada is composed of representatives of the seven Provinces, each of which has, in its Provincial character, like political rights. Ministers whose tenure of office depends upon their retaining the confidence of a Parliament so composed are not likely to abuse a power, the exercise of which would obviously be jealously watched by representatives from all the Provinces, since each is alike interested in the maintenance of Provincial rights, and therefore in the principles upon which the power of disallowance is exercised. For the same reason any abuse by Ministers of this power would be quickly followed by the application of the constitutional remedy by Parliament."

The *Advertiser* could hardly find words strong enough to express its contempt for such illogical and shallow reasoning. It was almost beneath criticism. And much more to the same effect. When it had quite finished its condemnation the *Free Press* announced that the paragraph was quoted without the change of a single letter from the Hon. Mr. Blake, carefully transcribed from the sessional papers of 1877. Is it possible that the vastness of Mr. Blake's intellect is not readily apparent in his language? Is it possible that his masterpieces of rhetoric and logic may be mistaken for the driveling of mere Tory scribes? Perish the thought! The paragraph in the *Advertiser* must have been inserted by a compositor in "making even" after the proof had left the proof reader's hands.—*Hamilton Spectator.*

LITTLE LAKE CEMETERY

THE ANNUAL MEETING OF THE SHAREHOLDERS OF THE COMPANY.

Satisfactory Reports of the Directors, Treasurer and Superintendent—The Cemetery Grounds—The Hour of Meeting—The Election of Directors.

The annual meeting of the Little Lake Cemetery Company was held at noon on Monday in the Council Chamber. There was a fair attendance of members present, and Mr. J. J. Lundy, President, occupied the chair.

The Secretary read the minutes of the last annual meeting, which were confirmed.

THE DIRECTORS' REPORT.

The PRESIDENT read the following report of the Directors:—

Report of the Directors of the Little Lake Cemetery Company for the year 1882, presented at the annual meeting, held on the 15th of January, 1883:—

The retiring Directors of the Little Lake Cemetery Company, in presenting their report for the year 1882 just closed, would improve the opportunity afforded them of congratulating the stockholders upon the very favorable position of the Company as regards both its financial and real estate interests.

There have been seventy lots sold during the year, and notwithstanding a considerable sum has been expended in improving and beautifying the grounds, there is a cash balance in favor of the Company of $3,022.28, as is seen by the Secretary-Treasurer's balance sheet accompanying this report.

In the matter of the purchasing of land, recommended by the Directors of last year, your Board made personal application to Mr. Burnham, who, after some delay, wrote to the Board that he had fixed the price of the land in question at $400 an acre—a price which the Directors unanimously refused to accept.

JOHN J. LUNDY,
President.

THE FINANCIAL STATEMENT.

The Treasurer's annual report of the finances of the Company was read. The following is the financial statement and the Auditors' report:—

J. EDWARDS,
Secretary-Treasurer.

To the Directors of the Little Lake Cemetery Company:

GENTLEMEN,—We beg leave to state that we have examined the books and papers of your Treasurer, submitted to us, and find that the annexed statement of receipts and expenditures, as taken from his books, are correct. The weekly account of your Caretaker we have checked with your Treasurer's books and find them correct, together with sundry accounts for printing, stationery, etc., which we assume to have been approved of by you.

Peterborough, January 11th, 1883.

THE SUPERINTENDENT'S REPORT.

The report of the Superintendent was then read, as follows:—

To the President and Directors of the Little Lake Cemetery:

GENTLEMEN,—I beg leave to report that the receipts and expenditures of the Little Lake Cemetery, from January 1st, 1882, to January 1st, 1883, were as follows:—

The total number of interments during the year was 119.

In presenting my financial statement, I would call your attention to the improvements that have been made during the year, for which there is but little pecuniary returns as yet, but when all the lots are sold they will yield an ample compensation for the money expended thereon. At present it beautifies the grounds, and induces many to purchase lots before requiring them.

There were 493 lots cleared and improved this season, and terraces built on the side of the hill, which adds very much to the appearance of the place.

There were seventy lots sold during the year, and about one-third of those lots were sold to parties who fancied them since they had been improved, and do not need them at present.

The driving roadways had been greatly improved during the last year by raking all the course stone to the centre of those roads and breaking them very fine, which will tend to make the roads more permanent and durable, and more comfortable to drive on.

The point at the north end, near the lake shore, has been levelled and seeded, and as the cost of drawing water from place to place is now very large, I would recommend that some motive power be procured, which if placed at this point would force the water to different parts of the cemetery for watering purposes. In connection with this, one or more small fountains could be made, which would be useful as well as ornamental. The cost, I think, would not need to be very large, as a windmill, such as is used in such cases for raising water for ordinary purposes, could be made to force the required supply to any part of the grounds, as the location is well adapted to furnish the power required.

I would also recommend that a substitute be found for the present wooden stakes at the corners of the lots. They should be replaced by some material more durable and more seemly. The wood in the ground is decaying, and the stakes cannot be kept in proper position. If replaced by iron or stone, level with the surface of the ground, the cutting of the grass with the lawn mower would not be obstructed, and the grounds would look much better, as the grass would be evenly cut in all places.

In conclusion I might say that there are several small improvements made. There was a number of ornamental trees planted, which are doing well; also a drain has been opened at the foot of the hill, east of the chapel, and tiles put in and filled with small stone, so as to readily carry off the water in the spring, which flows in abundance.

All of which is respectfully submitted.

I am, Gentlemen,
Your obedient servant,
JOHN KELLY,
January 15th, 1883. Superintendent.

THE CEMETERY GROUNDS.

MR. STRATTON believed that the reports were correct and he moved their adoption. He had no fault to find with the Superintendent. He found that there was a surplus in hand, and that collections were made to keep the grounds in order. But the time would come when the families of some who were buried there would be scattered, and he favoured investing the surplus in such a way that the proceeds could be applied to keeping the grounds in order. He was not faultfinding, and did not wish his remarks to be taken in that spirit, but he believed they should make such a provision as he had suggested.

MR. MENZIES seconded the adoption of the reports.

The PRESIDENT said that the suggestion of Mr. Stratton had been considered by the Directors, and they felt that the Company should take the control of the grounds.

After further discussion the adoption of the reports was carried.

MR. STRATTON moved that the new Board of Directors be requested to assume the whole control of the Cemetery and the expense of keeping the grounds in order.

MR. MENZIES seconded the motion.

MR. MCCLELLAND said that he understood Mr. Stratton only to advocate setting apart a portion of the surplus funds for the purpose of keeping the grounds in order.

MR. STRATTON said that his view was only to have the Company take charge of the matter of keeping the grounds in order.

The PRESIDENT said that the manner of providing for the expenses would be left with the Directors.

MR. STAPLETON called attention to the necessity of a sidewalk leading to the cemetery.

The motion was carried.

THE HOUR OF MEETING.

MR. KINCAN suggested that the hour of the annual meeting be changed to 3 o'clock in the afternoon, as 12 o'clock was extremely inconvenient for a large portion of the meeting. He moved a motion in accordance with his suggestion, seconded by MR. YELLAND.—Carried.

THE BOARD OF DIRECTORS.

MR. CLEMENTI stated that he was not a candidate for a position on the Board this year.

The PRESIDENT regretted that Mr. Clementi had been obliged to take this course, as he had been an efficient member.

The ballot was then taken for the election of Directors, and resulted in the election of the following:—Messrs Judge Dennistoun, Hon. R. Hamilton, J. J. Lundy, C. Stapleton, Jas. Stevenson, Jno. Carnegie, G. M. Roger, Wm. Eastland and Jas. Edwards.

The meeting then adjourned.

Free of Charge.

All persons suffering from Coughs, Colds, Asthma, Bronchitis, Loss of Voice or any affection of the Throat and Lungs, are requested to call at Taylor & Macdonald's Drug Store and get a trial Bottle of Dr. King's New Discovery for Consumption, *free of charge*, which will convince them of its wonderful merits and show what a regular dollar-size bottle will do. Call early.—3

GOOD ADVICE.—If our readers will accept proffered advice, they will always keep a bottle of Hagyard's Yellow Oil at hand for use in emergencies, such as Burns, Scalds, Wounds, Lameness, Croup, Chilblains, Rheumatism and all varieties of aches, pains and inflammations. It will ever be found reliable.

FORTUNATELY Valvular disease of the heart is not very common, its disturbed action may be due to indigestion, liver irregularities &c. A Stomach disturbed with wind, or indigestable food will cause pain and fluttering by crowding on the nerves of the heart. Burdock Blood Bitters will speedily remedy all such difficulties.

ONE OF OUR BEST CITIZENS would say to the public that he has tried Hall's Catarrh Cure, and that it is all that is claimed for it. Price 75 cents per bottle. For sale by John McKee, druggist.

PROTECTION OF THE FORESTS FROM FIRE.

The following letter appears in the Toronto *Mail*:—

SIR,—From time to time articles and letters have appeared in the *Mail* and other papers lamenting the destruction of our forests by fire, and advocating measures for its prevention.

The Legislature now in session should pass some measure whereby the provisions of the Hon. T. B. Pardee's Fire Act could be practically enforced. As it now is, as far as preventing fires the Act is a dead letter. Its 14th clause provides that it shall be the special duty of every Crown land agent and bushranger to enforce this Act, and to prosecute every person guilty of a breach of its provisions and requirements; but as these men have no instructions or authority from their department to that effect, they can do nothing. And as for lumbermen taking up and prosecuting parties guilty of breaches of the Fire Act, it is simply absurd, as they would do it at the risk of having more of their limits purposely burned another year.

It would appear that some of the greatest fires have occurred since the passing of the Act, and this may be due to the fact that no person is afraid of being prosecuted under its provisions.

Most people are under the impression that it is only the license-holder who suffers from fires set out in the limits. They forget that every timber forest destroyed by fire represents so much revenue lost to the province, let alone the actual loss to the license-holder.

There is another great loss to be considered, and that is the loss to the country of the money which would be paid out in manufacturing and bringing this timber to market had it remained green.

During the summer of 1881 fires overran large parts of the Parry Sound and Muskoka districts and the country lying between the Georgian Bay and the Ottawa river, and according to an estimate made in the *Globe* of November 10th, destroyed $10,000,000 worth of pine in Ontario. This does not nearly cover all the fires, as there were many fires on licensed lands of which the public knew nothing, the holders of the limits burned keeping the knowledge of it to themselves, not wishing the value of their properties to be depreciated.

If these annual fires continue, in a few years they will make a large hole in the revenue of Ontario.

There was three-quarters of a million dollars in bonus alone obtained from the last sale of timber berths, and the duty on the timber growing on them will represent to Ontario, if not burnt, upwards of five million dollars, and perhaps more. As these berths are now being operated on, or likely to be within a few years, and owned by so many different parties, the risk of fires is much increased. Before the sale, these births were in their virgin state, and not much exposed to fires, being held by the Government, but now that operations have commenced on them, they will stand a poor chance.

There should be a distinction made by the Crown Lands Department between pine lands and hardwood lands fit for settlement. It is well known that in the back districts of Ontario and the Ottawa Valley the pine lands are generally not fit for settlement, and that where settlement has been made on them the settlers, instead of prospering, yearly grow poorer and poorer, till in many places they were actually driven from their holdings by starvation, as witness the Opeongo road, the Bouchere and Mississippi counties, which are now nearly deserts, nothing but dry pines to be seen as far the eye can reach, while on the other hand, those who settled on the hardwood lands have done well and made themselves comfortable.

Now that the country is mostly all surveyed, and the quality of the lands known to the Government, through the reports of its surveyors and bushrangers, it surely would be easy to make a distinction between lands for settlement and those for lumbering. A large portion of Opeongo and Bouchere country was not surveyed until after its settlement, and the Government had not therefore the knowledge they now have about their unoccupied lands.

It surely would not be to much to expect that the source of such a large revenue to this province as its timber forests should be better guarded against loss than it now is.

If the present staff of woodrangers was increased, and kept in the woods during the months of May, June, July, and August, to watch the Crown domain against fires, with authority to enforce the provisions of the Hon. Mr. Pardee's Fire Act, they would prevent many bush fires being set out. They should also be empowered to call on farmers, river-drivers, surveyors, and others who may have set out fires, to turn out and assist in killing them and preventing their spread. If one-fifth of the revenue which would have been derived from the timber destroyed by fire in 1881 alone had been expended in watching the Crown domain, it would have paid the salary of a large staff of men for several years, and it is more than probable that not much damage from fires would have occurred.

If persons holding and working limits, and their agents and foremen, were all held responsible for the damage done by the fires set out by them or their men, and also the heads of surveying or hunting and fishing parties, they would be more careful than they now are.

Practical bushmen say that it is not so hard as some would suppose to trace the makers of fires in the woods as it is to trace incendiaries in cities, and that almost all fires can be traced to their starting points, and generally the parties who set them out.

Yours, &c.,
Jan. 4, 1883. LUMBERMAN.

NO DROUTHS, NO INSECT PESTS, NO HURRICANES, WHIRLWINDS, OR OTHER DESTRUCTIVE PHENOMENA.

The lands of the Pacific Northwest show an average yield of wheat per acre largely in excess of that of any other section of the United States.

No failure of crops has ever occurred.

Oregon wheat commands a higher price than that of any other country in the Liverpool market.

An immense area of very fertile Railroad and Government Lands, within easy reach of the trunk lines of the Northern Pacific R.R., the Oregon Railway & Navigation, and the Oregon & California RR. Co's and their numerous branches in the great Valleys of the Columbia and its tributaries, are now offered for sale at Low Prices, and on Easy Terms, or open to pre-emption and Homestead Entry.

The great movement of population to the Columbia region now in progress will be enormously increased by the completion of the Northern Pacific RR. and the Oregon Railway and Navigation Co's systems. This renders certain a rapid increase in the value of Lands now open to purchase or to entry under the United States Land Laws.

I CURE FITS!

When I say cure I do not mean merely to stop them for a time and then have them return again, I mean a radical cure. I have made the disease of FITS, EPILEPSY or FALLING SICKNESS a life-long study. I warrant my remedy to cure the worst cases. Because others have failed is no reason for not now receiving a cure. Send at once for a treatise and a Free Bottle of my infallible remedy. Give Express and Post Office. It costs you nothing for a trial, and I will cure you.

The Great American Remedy for
COUGHS, COLDS, ASTHMA, BRONCHITIS, LOSS OF VOICE, HOARSENESS AND THROAT AFFECTIONS.

Prepared from the finest Red Spruce Gum. (Delicious Flavor.) Balsamic, Soothing, Expectorant and Tonic. Superior to any medicine offered for all the above complaints. A scientific combination of the Gum which exudes from the Red Spruce tree—without doubt the most valuable native Gum for Medicinal purposes.

Every one has heard of the wonderful effects of the Spruces and the Pines in cases of Lung Disease.

In France the physicians regularly send their consumptive patients to the pine woods and order them to drink a tea made from the Spruce tops.

GRAY'S
SYRUP
OF
RED
SPRUCE
GUM.

In this preparation the Gum never separates, and all its anti-spasmodic, expectorant, tonic, and balsamic properties are preserved.

This Syrup, carefully prepared at a low temperature, contains a large quantity of the finest picked Gum in complete solution.

Its remarkable power in relieving certain forms of Bronchitis, and its almost specific effect in curing obstinate hacking Coughs, is now well known to the public at large.

Sold by all respectable chemists. Price, 25 and 50 cents a bottle.

THE NEW TOWN COUNCIL

HOLD THEIR SECOND MEETING AND SETTLE DOWN TO WORK.

The Appointment of the Standing Committees And Assessors—Fire Protection—Asking for Returns—The Sidewalks and Snow—Signing Papers—Communications.

The Town Council for this year held their second meeting on Monday evening.

Present—His Worship the Mayor and Councillors Cahill, Davidson, McNaughton, Kelly, Paterson, Sawers, Yelland, Douglas, Menzies, Hartley and Rutherford.

The minutes of the morning session were read and confirmed.

COMMUNICATIONS.

From O. Beauvais, asking that his taxes be remitted, as his house had been burned and he was a poor man.—Charity Committee.

From Ellen Gilmour, asking the Council to appoint an attendant at the "Protestant Home," as the person for performing the duties was leaving town.—Received.

From Wm. Aldridge, asking to be appointed assessor.—Received.

S. Johnston, asking for remission of dog tax.—To be allowed when he made the usual statutory declaration.

THE STANDING COMMITTEES.

Councillor Rutherford read the following report of the Committee appointed to strike the Standing Committees:—

The Mayor and Councillors:

Gentlemen,—Your Special Committee beg leave to report and recommend that the following gentlemen be the standing Committees for the present year, viz:—

Finance Committee—Councillors Paterson, Cahill, Denne, Rutherford, Menzies and Sawers.

Fire, Water and Gas—Councillors Rutherford, Douglas, Menzies, Davidson, and Sawers.

Appointments to Office—Councillors Douglas, McNaughton, Cahill, Hartley, Rutherford and Kelly.

Charity—Councillors Sawers, Yelland, McNaughton, Kelly, and Hartley.

Market—Councillors Sawers, Kelly, Denne, Davidson, Douglas, and McNaughton.

Joint Committee—Councillors Rutherford, Sawers, Menzies, Cahill, Kelly and Hartley.

Printing—Councillors Menzies, McNaughton, Yelland, Kelly and Denne.

License—Councillors Rutherford, Douglas, McNaughton, Kelly and Denne.

Court of Revision—Councillors Sawers, Paterson, Rutherford, Davidson and Menzies

Street and Bridges—Councillors Cahill, Paterson, Douglas, Hartley and Davidson.

Buildings and Health—Councillors Menzies, Yelland, Davidson, Sawers and Hartley.

The first named on each Committee to be the chairman thereof.

A. Rutherford,
Chairman.

The report was adopted.

THE ASSESSORS.

The By-law appointing assessors for the year was introduced and read a first time.

The Council went into committee of the whole on the By-law, Councillor Rutherford in the chair. The salaries of the assessors were placed at $280, and Joseph Lundy and Cornelius McGrath were appointed to the offices.

The Committee rose and reported. The By-law was then read a third time and passed.

The Clerk said that Henry Denne had filed his declaration as Councillor.

FIRE PROTECTION.

Councillor Sawers moved, seconded by Councillor Paterson,—That a joint committee of councillors and citizens be appointed to consider the best course to be adopted in reference to fire protection, the committee to consist of Councillors Cahill, Davidson, Yelland, Denne, Hartley and the mover, and Messrs. G. A. Cox, Jas. Stevenson, A. P. Poussette, T. G. Hazlitt, W. H. Wrighton, J. J. Lundy and D. W. Dumble.

Councillor Sawyers said that the state of our fire protection needed attention, as fires last summer had proven.

Councillor Menzies did not see the necessity for this motion, as the By-law which had been passed by the Council made it only necessary for those who wanted water from the waterworks to petition for it and they would get it.

The Mayor—The motion says nothing about waterworks.

Councillor Menzies—I know what is at the bottom of the motion.

Councillor Sawers—My motion makes no reference to the waterworks at all.

Councillor Kelly thought that the motion reflected on the Fire Committe. The motion should come from Councillor Rutherford, who was Chairman of that Committee.

Councillor McNaughton took a similar view to Councillor Menzies. The company he said, had not left the streets in a good condition.

Councillor Cahill said that the frost leaving the ground in the spring would cause the places where trenches had been dug to sink, and the work could not be finished until then. He was not in favour of a general tax for the waterworks, unless the whole town had the benefit of them. He, however, was not disposed to oppose the motion, and he could then take such action as he thought fit when the Committe reported.

Councillor Douglas did not see the necessity for the motion, for the property holders had the remedy in their own hands.

Councillor Kelly thought it was a reflection on this council to ask those citizens to act as a committee. The Council had been appointed to do the business of the town, and if those men thought it worth while to take part in the affairs of the town, they should have contested some of the wards.

Councillor Hartley said similar committees had been previously appointed, and they had not done much. He had been said to be a "waterworks man," but he was not their to represent the Waterworks Company. He intended to use his own judgment. This matter had been discussed repeatedly, and the only conclusion arrived at was that waterworks were needed. Now they had the waterworks system, and he thought the motion was useless.

The Mayor said that there was a misapprehension about the matter. The By-law provided that persons who desired water for domestic purposes could secure it; but it said nothing about giving them fire protection, as when the By-law was passed they had no power to do so. No possible harm could come from these men meeting together and talking the matter over, and it might do good.

Councillor Menzies moved in amendment, seconded by Councillor Rutherford,—That the motion be not adopted, and that when the majority of the Ratepayers in any particular locality, representing the value of property required by the law, petition for fire protection to the Council, that they get it by paying for it themselves by local taxation.

Councillor Rutherford said he seconded the amendment *in order to set himself right before* the ratepayers. He did not think the motion would amount to anything.

Councillor Sawers said that he had found that a number of petitions had been sent in, but no action had been taken. If a fire occurred, they would have no right to use the hydrants. Although he did not own a foot of property on George Street, he felt that if the business part of that street were burned the value of the property all over the town would decrease. He only wished to secure proper fire protection.

The amendment was put and carried.

MOVING FOR RETURNS.

Councillor Sawers moved, seconded by Councillor Menzies,—That the clerk be instructed to give a list of all the By-laws passed by the Council; a statement of the names, occupations and duties of the officers of the town for 1882; a statement of the books, both of account and reference, used by the Clerk and Treasurer, and a statement of the bank arrangements as to deposit and discount.

Councillor Cahill said that it would be nonsense to pass the motion, as it would take three months hard work to make out the return of the By-law. He would like to see the By-laws consolidated, but the motion did not provide for that.

Councillor Sawers said that he did not know what By-laws were in force, and he wished to gain information.

Councillors Douglas and Rutherford opposed the motion, which was lost, the mover and seconder alone voting for it.

HOME FOR INCURABLES.

Councillor Menzies moved, seconded by Councillor Hartley,—That the Clerk be instructed to write to the Home for Incurables, Toronto, to ascertain their charge for taking an aged man, supposed to be incurable, into that institution.—Carried.

THE CROSSINGS AND SIDEWALKS.

Councillor Sawers moved, seconded by Councillor Paterson,—That whereas the crossings on George street are in a rough and unsafe condition, it is resolved that the Street Inspector take immediate steps to have them put in proper condition; also, that the officers of the town take proceedings forthwith to enforce the snow by-law.

Councillor Douglas said it was often said that a new broom swept clean, but Councillor Sawers was sweeping too much. The winter was now nearly over, and the motion was not necessary.

Councillors Rutherford and Hartley supported the motion.

Mr. Johnston, Street Inspector, was heard and said that the By-law did not require the snow to be removed until nine o'clock at night, and by that time it was packed so hard that it could not be removed. He had the crossings chopped at different times this winter.

Councillor Yelland called attention to a defective part of the sidewalk near the post-office.

The motion was put and declared lost, and Councillor Sawers asked for the yeas and nays. They were taken with the following result:—

Yeas.—Councillors Paterson, Sawers, Rutherford, and Hartley—4.

Nays.—Councillors Cahill, Davidson, McNaughton, Kelly, Yelland, and Douglas—6.

SIGNING CHEQUES.

Councillor Cahill moved, seconded by Councillor McNaughton,—That Councillor Davidson be authorized to sign all cheques that should be signed by the Mayor during the latter's absence.—Carried.

Mr. W. C. Wilson was heard by the Council. He claimed that there were errors in the estimates as published, and the matter was referred to the Auditors.

The Council then adjourned for four weeks.

POLICE COURT.

WAGES.

Tuesday, Jan. 16.—Sarah J. Dickson sued J. E. McIntyre for a balance of wages alleged to be due. She was a table waiter, and had left before her month was out. She claimed that she had been dismissed and that she was entitled to the full month's wages, and had refused to accept payment for her services up to the time she left the employment. Judgment for the plaintiff.

A SURE THING!

Clothing again! Well, it's about the most interesting topic we can talk of just now. It's the season when clothing is most needed, and the season we must sell it, so you see it interests us both. Our stock of Clothing for this time of year is large, our assortment unusually complete, facts of great advantage to buyers, and of some advantage to us, as it enables us the better to suit you. We want to hurry the out-word movement of our stock and consequently will give a decent discount to prompt cash buyers. This reduction is made solely with a view to working off in proper season our immense Stock, and not because the goods are in any respect undesirable. Our clothing is built of strong serviceable fabrics, well and carefully made, and with trimming warranted to wear. Every style of goods from plain and sturdy to the most elegant. Nothing slighted,—except our profits.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly affected with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of *J. Pepper, Bedford Laboratory, London,* must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of *fever or febrile condition.*

TARAXACUM and PODOPHYLLIN.—*Prepared only by J. Pepper, London.* This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, billiousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

Agricultural Society.

The annual meeting of the West Riding Agricultural Society is being held this afternoon in the Council Chamber.

The Cells.

The cells were unoccupied last night. One man applied to the police for lodgings and was conducted to the town hotel, but when he viewed its interior he declined the proferred shelter and departed in search of other quarters.

A Call.

The Rev. A. Turnbull having resigned the charge of the Baptist Church, Belleville, after a connection with it lasting six years, the congregation has extended a call to the Rev. E. J. Stobo, of Peterborough. Mr. Stobo has not yet informed the congregation whether he will accept the call or not.

The Weather Probabilities.

A heavy snow storm visited this section today. The weather probabilities for this district for the following 24 hours, as reported from Toronto at 1 a. m. to-day, by the Great North-western Telegraph Company, are as follows:—South easterly to North easterly winds; cloudy weather, with snow.

The Bible in the School.

As considerable discussion has taken place recently on the question, it may be of interest to know that the Scriptures are read in the Public School in Peterborough. In answers to enquiries from the Education Department, the Principal of the Public School, Mr. J. Braden, has replied that the Scriptures and prayers are read in the schools; that no specific religious instruction is given in connection therewith, and that the Ten Commandments are taught.

Our Opera House.

Mr. Seymour Penson, the scenic artist of the Grand Opera House, Toronto, has finished painting the new scenery for our Opera House and that at Lindsay under the same management. Our Hall is now furnished with new scenery and appointments throughout from the drop curtain to the flies, and all is of a far more modern style and of better execution than that formerly used. The artist deserves the greatest praise for the faithful manner in which he has completed his task, as his work far surpasses that of the Buffalo artist who did the work formerly seen. Ever since the Hall opened, companies have been at a disadvantage on account of the lack of set scenes, but now this is entirely obviated, and as regards both quantity and quality of scenery, our Opera House is not surpassed by any in Canada, outside of the larger cities. Many of the scenes are after those at the Grand Opera House, Toronto, the best in Canada, the mere mention of which is a sufficient guarantee as to its quality. The artist has done his work well and faithfully, to the entire satisfaction of all concerned, and the fittings of the Hall are a credit to his handiwork. To Mr. E. C. Hill, who superintended the work, a word of praise is also due, as it is mainly owing to his efforts that the welcome changes were made.

EGYPT'S CONSTITUTION.

London, Jan. 17.—The scheme formulated by the Egyptian government has been approved of by Lord Dufferin, and transmitted to the Foreign Office. It proposes that Egypt shall have a council of twelve responsible ministers. A Legislature Council of fourteen members shall be formed, half of whom will be nominated by the Khedive, and half chosen by a system of democratic election such as that for which there are abundant precedents in the American Constitution. An assembly of forty-five members is also proposed to occasionally discuss special subjects. The latter will not participate in legislation, but will assist in legislation by giving a voice to classes hitherto inarticulate. The duty of legislation rests wholly with the Council of Ministers, but its projects must be submitted to the Legislative Council before becoming law. In the event of an irreconcilable difference between the two bodies, the decision will probably be left to the Khedive.

AMERICAN.

HUNTING ROBBERS.

Weeksville, Montana, Jan. 17.—Billy "The Kid," a notorious robber, was overtaken by the vigilants and ran to the river. He was fired at and sank. The body has not been recovered. Three others of his stripe were taken a mile from town and notified that if they returned the same fate would await them. Notices were signed by the Committee of Safety, and posted, giving twenty-four hours notice for all "spotted" parties to leave, on pain of death.

A RETRACTION.

Washington, Jan. 17.—Morris, Collector of Customs at Sitka, retracts his charges against Commander Pearson, of the Navy, of having refused medicine and medical attendance to the natives during the scourge.

DUEL WITH SHOT GUNS.

Brooklyn, Missouri, Jan. 17.—Michael Vanderburg and Matthew Woodlock quarrelled. Friends advised them to settle the dispute with shot guns. They stood twenty paces apart and fired simultaneously. Vanderburg had his eyes put out and wounded Woodlock fatally. Woodlock was shot in the breast and in the neck. A large crowd witnessed the affair and seemed to enjoy it. A surgeon took twenty-four shots out of Woodlock.

A STRIKE FEARED.

Burlington, N.J., Jan. 17.—Three thousand men, women and children work at the shoe manufacturing here. The shoe-makers formed a union, and the employers have ordered the union men out of the manufactories. A strike is feared.

HEAVY FAILURE.

East Randolph, N. Y., Jan. 17.—E. T. Smith, Tanner, has assigned. His liabilities are estimated at $100,000, exclusive of real estate mortgage, and his assets are valued at $50,000, not including real estate.

THE LIQUOR LAW.

Boston, Jan. 17.—The Supreme Court has decided that the liquor dealers cannot evade the law prohibiting the sale of liquor upon premises within four hundred feet of a school house. The decision will prevent one hundred and fifty dealers carrying on the business in their present location.

STARVED HIMSELF.

Pittsburg, Jan. 17.—Nicholas Feliz, an inmate of the Allegany City Home, died yesterday of starvation. Last July he resolved to eat no more, and since then he lived on nothing but a small quantity of milk and a still smaller quantity of whiskey. His motive is unknown.

THE TARIFF REDUCTIONS.

Washington, Jan. 17.—It is stated that each member of the Ways and Means Committee who voted for the report on the Tariff Bill objected to some of its items. From the estimates of different members of the committee of the reductions on the various schedules, it would appear that the total reduction recommended will reach from twenty million to twenty-five million dollars. The prospect of the passage of the bill in the House is regarded as doubtful by well informed representatives.

MEXICAN FOREIGN TRADE.

Washington, Jan. 17.—Gen. Grant is quoted as saying that the foreign trade of Mexico is now wholly in the hands of the Germans and English. The proposed treaty was devised with the view of opening up business relations between the two countries. With the six years' experience under its provisions this country would get such a foot hold that she could compete favourably with all comers for Mexican foreign trade.

THE TARIFF ON SUGAR.

Washington, Jan. 17.—It is stated that the action of the Ways and Means committee in reducing the rates to which it first agreed on sugar, to conform to the action of the Senate committee, is very far from satisfactory to Kelly, and he is reported as regarding the change as greatly diminishing the chances to the passage of the bill, if it does not altogether destroy it.

A DEFAULTING BANKER.

Jersey City, Jan. 17.—Boice, the defaulting President of the City Bank, was also Secretary of the Savings Bank. In a recent report to the Directors of the latter he said that God had showered blessing on the institution, and prospered it beyond his most sanguine expectations. He urged that thanks be returned to the Almighty.

Do Not be Deceived.

In these times of quack medicine advertisements everywhere, it is truly gratifying to find one remedy that is worthy of praise and which really does as recommended. Electric Bitters we will also recommend. They invariably cure Stomach and Liver Complaints, Diseases of the Kidneys and Urinary difficulties. We know whereof we speak, and can readily say, give them a trial. Sold at fifty cents a bottle, by Taylor & Macdonald. 3

With every bottle of Dr. Carson's Pulmonary Cough Drops, a sample bottle is given free of charge. If, after using the trial bottle, you are not satisfied with its effect, you can return the large bottle to your dealer, who will refund the money. Thousands can testify to its prompt action in curing Coughs, Colds, Bronchitis etc. If you suffer, try them. Price 50 cents. Sold by all Druggists.

THE TROUBLE IN ROUMELIA.

Constantinople, Jan. 16.—The dispute between Aleko Pasha, Governor-General of Eastern Roumeli, and Krebel, Acting Russian Consul-General at Philippopolis, continues. Aleko states that he cannot be responsible for the government so long as Krebel remains, and he asks the Porte either to have the latter recalled or accept his resignation. Krebel has sent a report to the Russian Ambassador at Constantinople declaring that Aleko daily violates the Constitution.

ALSACE-LORRAINE.

Strasburg, Jan. 16.—At a banquet last evening Governor-General Von Manteufel emphasized the fact that France had retroceded Alsace-Lorraine by treaty, and said the duties of the inhabitants towards the Mother Country must silence all regret. The prosperity of Alsace-Lorraine depended upon their obtaining constitutional rights, and he appealed to the patriotism of both provinces to support his efforts. Whether such support was given or withheld, his policy was one of conciliation.

THE BERDITSCHEFF HOLOCAUST.

Vienna, Jan. 16.—The managers of the Berditscheff circus have been arrested for nailing up the side doors. There being no rooms large enough to hold the dead they have been placed in a field. When the nailed up doors were opened fifty corpses fell to the ground.

TWO MEN HANGED.

Galway, Jan. 16.—Thomas Higgins and Michael Flynn were hanged this morning for complicity in the murder of the Huddys. Marwood officiated. Both walked firmly to the scaffold and died without a struggle. Neither made a statement, but during their confinement they expressed penitence. But small interest was taken in the execution, and there were few persons outside the gaol.

PRINCE JEROME NAPOLEON ARRESTED.

His Son's Partisans Displeased with Him—The French Republic in Danger.

By Telegraph To The Review.

Paris, Jan. 17.—Prince Napoleon being a wearer of the Grand Cross of the Legion of Honor, he will probably be brought for trial before the the First Chamber Court of appeal. The Prince's house was thronged with visitors up to the time of his arrest. He appeared very much excited and eagerly questioned the visitors as to the effect of his manifesto. They gave him a most encouraging account of its reception by public. "Yes," he said, "the die is cast; the moment for action has arrived. I hear I am to be arrested and expelled. I await the officers." In reply to emphatic declarations of his partisans that they counted upon his decision and firmness, he said, "Trust to me. The people in power have lost all their prestige. The empire alone can save France and place it again in the first rank of nations." These declarations were frequently repeated and hailed with enthusiasm by the excited Bonapartists. The partisans of Prince Victor are said to be greatly irritated by Napoleon's conduct. It is stated that the Bonapartist leaders are practically unanimous in ridiculing Napoleon and his manifesto. Prince Victor is serving as a volunteer in the army at Orleans. Amigues, one of the Bonapartist leaders, says that Prince Napoleon has no following at all. His party consists of a few intimate associates. Not a general or a regiment in the army would respond to his appeal, and had not the government committed the mistake of arresting him, in a week the manifesto would have been forgotten. Prince Victor, on the contrary, has a large section of the army devoted to him, ready to act at the proper moment. Amigues declares that Prince Jerome has neither the character nor principles necessary for a successful pretender. He is moreover in poor health, and may die at any moment. Rouher says that Prince Napoleon took the step without previous consultation with the party. Only a few personal friends knew his intention, among whom Rouher was not included. Rouher is convinced that the manifesto will make an excellent impression upon the rural population, which he firmly believes has never ceased to be Bonapartist, and since the death of Gambetta he regards the Republic as doomed. Rouher says he would not second the Prince, even if appealed to. He believes there is no breach between Prince Victor and his father. Rouher says that the peasantry can muster twenty eight million against eight millions in the towns. If they hold firmly to their cause the Republic, sooner or later, is doomed. Cassagnac seems pleased at the Prince's arrest and says he will make a declaration in the Chamber repudiating all connection with him. Cassagnac declares that the Bonapartists do not trust to Napoleon. Cassagnac also thinks the Republic is lost. He says that Victor will not made a move on attaining his majority, as he can wait. Jules Simon does not believe that any imminent danger threatens the Republic. He thinks new elections would now result in the return of a Chamber similar to that now existing. No pretender would have a chance yet, though a couple of years hence, unless the Republic ceases its impolitic war against the Catholics, the monarchist restoration may be quite possible. Proofs of the manifesto were handed to Prince Napoleon, who was at the opera, and the final arrangements were then made.

Shiloh's Consumption Cure.

This is beyond question the most successful Cough Medicine we have ever sold, a few doses invariably cure the worst cases of Cough, Croup, and Bronchitis, while it's wonderful success in the cure of Consumption is without a parallel in the history of medicine. Since it's first discovery it has been sold on a guarantee, a test which no other medicine can stand. If you have a Cough we earnestly ask you to try it. Price 10 cts., 50 cts. and $1.00. For sale by J. D. Tully.

It made me feel like a "Band of Music," was the rather forcible expression of an individual who was praising "Pectoria," the great remedy for Coughs and Colds, Hoarseness, Asthma, Bronchitis. It is safe, pleasant and effectual. If you suffer, try it. For sale by all druggists and general dealers at 25 cents a bottle.

South End Bookstore.

And now that he has done with Christmas cheer,
The honest schoolboy doth begin to appear.
With purse in hand he comes into our store,
Saying, "This is where I should have come before!

You buy for cash, and I the benefit reap.
A Spelling Book, a Reader and a Copy—
The price of each I know will suit my 'Pappy'—
An Arithmetic, a Grammar and a History,
But how I am to carry them's a mystery.
You say I need a Bag to accommodate
My school-books, pens and pencils and my slate?
Yes! that's the thing, my fears are at an end,
No harm to books from snow or rain or wind.
I'm feeling, now, quite happy and contented,
Well satisfied with what I have expended;
And rest assured, if I want any more,

WEDNESDAY, JANUARY 17, 1883.

AFFECTION FOR THE UNION.

THE fourth resolution at Reform Convention expressed a desire to strengthen the bonds which unite the Provinces of Canada by the development of a *feeling of affection* for and pride in the Federal Union which unites them. It is not strange that in the face of the hypocrisy of this pretension neither the mover nor the seconder of the resolution had, according to the *Globe's* report of their speeches, one single word to say in favour of the Union for which such affection was simulated. They could discuss a variety of subjects, but not a word had they to spare in favour of interprovincial harmony or the unity of our Dominion. How could they indeed speak in such a strain in the teeth of the past and present utterances of their party, their leaders and journalists? Do they not continually describe Ontario "as the milch cow of the Dominion," and the other Provinces as bankrupts and robbers intent upon draining her resources? People have not forgotten how their leader and chosen advocate told British Columbia that it might go out of the Union. Manitoba is incited by them to rebellion because of its railway disallowance, just as they have talked treason in Ontario on account of the non-ratification of the Boundary Award.

As for Quebec, the second in importance of the Provinces, and second to none in loyalty, it is systematically maligned, its race, its creed, its language derided. At the very meeting in question the description of the people of Quebec as "foreigners" was insultingly applauded, and they are described by these lovers of Union as hereditary enemies and sworn foes of Ontario.

They do not even spare Ontario, if by injuring or belittling her, dissension can be fomented among the Provinces. Mr. Blake could inform the Maritime Provinces that they should desire to trade with the United States rather than with Ontario, and the party at large is now endeavouring to persuade the Manitoban to insist upon railway connection with the States rather than with Ontario and the other Provinces.

Mr. Mowat and his colleagues have done their utmost to set Ontario against the Federal authorities and the rest of the Dominion. In the matter of our fiscal policy in particular, they not only as individuals but as an administration threw the whole weight of their influence and that of their army of placemen into the scales against the repeatedly announced will of the people of Canada, including even the Province that they misrepresent.

With such a record it is not surprising that the speakers to whom this resolution was entrusted could not utter one syllable in favour of it. The only subject for surprize is that the drafters of this platform should have the effrontery to include in it a resolution so discordant with their past and present utterances.

EDITORIAL NOTES.

THE Ottawa *Citizen*, after quoting a paragraph from the REVIEW, pointing out the contrast between the treatment of Mr. Hooper, M. P., by the Conservatives and of Mr. Peck, M. P. P., by the Reformers, continues as follows:—

"Pshaw! That's nothing. Did not Mr. Mowat appoint to the position of Registrar of a County a prominent politician who had been unrobed by the Law Society of Ontario, because he applied to his own use money entrusted to him by clients, some of whom were unprotected women!"

⁂

As it now seems to be completely agreed both by Reform and Conservative journals that the *Mail* deserved censure for the insulting terms in which it described the delegates to the Reform Convention, perhaps some of our Reform contemporaries will now find leisure to tell us what they think of the *Globe's* description of the delegates to the Conservative Convention as assassins, conspirators, drunkards, &c. We noticed no rebuke in the Reform organs at the time, many of them indeed copying the *Globe*.

We take stock on February the 1st, and have still a fair assortment of Winter Goods, which we are offering at greatly reduced prices, until that date. Turnbull & Gray.

LAKEFIELD.

From Our Own Correspondent.

COUNCIL MEETING.

The first meeting of the new Council took place on Monday last, in the council room, Lakefield, at 12 o'clock noon. Members present—Messrs. Cox, Nelson, Urquhart, and McWilliams. Mr. R. C. Strickland, the Reeve, was absent, being away in the shanties.

The Clerk announced that all the members present had taken, subscribed, and filed their declarations of qualification and office, and were entitled to take their seats at the Council Board.

The Council then organized with Councillor Cox in the chair.

The minutes of last meeting were read and confirmed.

A By-law appointing Mr. W. H. Casement and Dr. Bell Auditors, received its several readings, and was passed, endorsed, sealed and signed by the Chairman and Clerk, on account of the Reeve's unavoidable absence.

It was moved by Councillor NELSON, *seconded by Councillor* URQUHART,—That this Council do now adjourn, to meet at the call of the Reeve.—Carried.

PUBLIC SCHOOL BOARD.

The first meeting of the Lakefield Public School Board was held in the council room, on January 11th, 1883.

Present—Messrs. G. J. Galvin, W. C. Sanders, Andrew Wilson, Dr. Armour, and Thos. Gorden. The Secretary took the chair, and informed the Board that Mr. T. Gordon and Dr. Armour were duly elected members of the Board, and had taken their declaration of office.

The Secretary then requested the Board to elect a Chairman.

It was moved by Mr. SANDERS, seconded by Dr. ARMOUR,—That Mr. G. J Galvin be re-elected Chairman.—Carried.

The minutes of former meeting were then read and confirmed.

It was moved by Dr. ARMOUR, seconded by Mr. WILSON,—That Mr. W. H. Casement be and he is hereby appointed Secretary, at the same salary as last year.

Dr. Caldwell entered and took his seat.

Communications were read from Mr. Shearer, tendering his resignation as Master of the School; from Messrs. Bird and Henderson, tendering for supplies; and from C. Payton and W. H. Casement, enclosing accounts for supplies, repairs, &c.

It was moved by Mr. SANDERS, seconded by WILSON,—That the account of W. H. Casement, $8.06 for supplies; and C. Payton, $10.75 for repairs, be paid.—Carried.

It was moved by Dr. CALDWELL, seconded by Mr. WILSON,—That Mr. Shearer's resignation be accepted, and that the Chairman and Secretary present him with a testimonial, expressing the high esteem in which he has been regarded as a *teacher* and a *citizen*, not only by the School Board, but the public generally.—Carried.

It was moved by Mr. WILSON, seconded by Mr. GORDEN,—That Mr. Henderson's tender be accepted, provided he furnishes foolscap paper equal to that quoted by Mr. T. J. Bird at $1.50 per ream. Ink, 25 cents per gallon, and crayons, 14 cents per box.—Carried.

It was moved by Mr. SANDERS, seconded by Mr. WILSON,—That the Secretary advertise in the *Daily Mail* and *Globe* for a Head Teacher, holding a first or second class certificate.—Carried.

It was moved by Mr. WILSON, seconded by Dr. CALDWELL,—That Dr. Armour and Mr. Gorden be a managing committee for the ensuing three months.—Carried.

It was moved by Mr. WILSON, seconded by GORDEN,—That this Board do now adjourn to meet on the evening of the second Tuesday in February, at 7.30.—Carried.

ELECTION OF OFFICERS.

At the annual meeting of the Lakefield District Orange Lodge, held in Apsley on the 5th of January, the officers were chosen for the ensuing year, viz.:—

Bro. W. C. Sanders	W. D. M.
" Chase	D. M.
" Pratt	D. Sec.
" James Horner	Treasurer.
" Wm. Eastland	Chaplain.
" R. Chapin	D. of C.

AGRICULTURAL MEETING.

The annual meeting of the Smith, Ennismore, and Lakefield Agricultural Association was held in the council room, Lakefield, on Thursday last, the 11th of January. The attendance was not so large as last year. The following were elected for the present year, viz.: Mr. John Garbutt, President; Mr. John C. Sherin, Vice-President, and Messrs. C. Quinn, A. Fitzgerald, Geo. W. Fitzgerald, John Preston, T. E. Bell, Dr. Caldwell, S. McKibbon, R. A. Strickland, and Geo. A. Elliott, Directors.

A Serious Jest.

During the past winter three citizens of the Bohemian town of Neustadt met every night for social purposes in the public room of the best inn. The friends were the judge of the District Court, Franz Rychlik; Kapelmeister Bauer, and a merchant named Kohn. One evening in merry humor they swore a common oath to remain united in death as well as life, and each member of the guild pledged himself that if one of the brotherhood died he would follow him into the invisible world within the space of fourteen days at the longest. The landlord, who took the oath as a mere joke, wished to make a fourth in the league, which was granted. As all the men were under middle age and in sound health, they felt secure that the first death was a long way off. About six weeks ago, however, the district judge, Rychlik, died in his sleep from the poisonous fumes of a defective stove in his bedroom. The three survivors were deeply grieved, but none of them regarded the oath made under the influence of wine as anything more serious than an evening's passing jest. Twelve days later, however, the merchant, Kohn, was seized with inflammation of the lungs, from a neglected cold, and in two days he was dead. A horror laid hold upon the two survivors, and the kapelmeister, Bauer, took to his bed, lay ill for several days, and died on the the tenth day. At last accounts the landlord was still in good health, though terribly oppressed by the fear of sudden death.

A Parson Writes in an Autograph Album.

A Chicago clergyman, the Rev. Brooke Beford, told his wife the other morning that he must finish his sermon and couldn't be interrupted. But a lady with an album succeeded somehow in getting by the sentinel, and presented her album for his autograph. He finally accommodated her together with a reference to his favorite text, Timothy, 5-13. On getting home, the lady looked up the reference. It was as follows: "And withal they learn to be idle, wandering about from house to house; and not only idle, but tattlers also and busybodies, speaking things which they ought not."—*Exchange*.

Another Horrible Holocaust

During the performance, on Saturday, at the circus at Berditscheff, Russian Poland, a fire broke out in the building, and before the spectators could escape the whole structure was ablaze. Three hundred persons perished.

Threatened.

Gen. Butler, Governor of Massachusetts, has not been allowed to enjoy his victory in peace. Several Boston clergymen attacked himself and his message from the pulpit. A clerk in the Mayor's office on Monday, was sent to the post-office for a letter retained there for postage. The letter was postmarked January 3th, and reads as follows:—

"Mayor Palmer,—I am going to kill old Gov. Butler in five months and twenty-eight days from to-day. Then I will choose you for Governor of old Massachusetts. I sent him warning. I have sworn it.

(Signed) "CHARLES GUITEAU 2nd."

The Cost of Electric Light.

Says the London *Pall Mall Gazette*:—It will cost £14,000,000 to lay down the requisite plant to supply the whole of London with the electric light. If all towns in Great Britain and Ireland were to demand to be supplied with the new illuminant, the capital outlay would be £84,000,000, not including £17,000,000 for lamps and internal fitings. After this expenditure had been incurred the relative cost of electricity to gas of the same illuminating power would be as 29 is to 22. These figures are taken from the calculations which Dr. Siemans laid before the meeting of the Society of Arts. The enormous initial outlay, to say nothing of the hazardous nature of the enterprise and the extreme uncertainty concerning the ultima development of electric lighting, ought to prevent any municipality from applying for powers to light the whole or even any part of the area. It is the money of speculators, not that of ratepayers, which should be squandered on such experiments.

Photographing Explosions.

The United States' engineers recently photographed the explosion of a wreck which was blown to pieces by submarine charges of dynamite, to ascertain, among other things, how long the spectacle really lasted. The result was exceedingly interesting. There were six cameras employed, and the instant of the explosion, and the several instants when the exposures were made by shutter, were electrically timed by chronograph. A photograph taken one-tenth of a second after the explosion showed the vessel broken, and a column of water seventy feet high; a photograph secured 1-5 second after the instant of explosion showed a column of water one hundred and sixty feet high; a third photograph, taken 2-3 seconds after, showed the column at its full height of one hundred and eighty feet, while fragments of wreckage were in the air, but none had fallen to disturb the surface of the water; a fourth picture, taken 3-3 seconds after, showed the column falling, and the surface of the water disturbed; while a fifth photograph, secured 4-3 seconds after, showed that all was over.

Gaining a World Wide Reputation.

About 150,000 bottles of medicine and 3000 Spirometers, the invention of M. Souvielle of Paris and ex-aide surgeon of the French army, have been used by physicians and patients during the last year for the cure of catarrh, catarrhal deafness, bronchitis, asthma, consumption in its first stages and many diseases of the head, throat and lungs. Consultations with any of the surgeons belonging to the institute free. Poor people showing certificates can have spirometers free. Write enclosing stamp for pamphlet giving full information to either of the Canadian offices where competent English and French specialists are always in charge. Address International Throat and Lung Institute, 13 Philips square, Montreal, P. Q., or 173 Church street, Toronto, Ont.

ANTIQUITY OF THE PARASOL.

M. Uzanne wisely forbears to make any deep scrutiny into the probable origin and early history of the sunshade, contenting himself with giving 1680 as the approximate date of its general adoption in France. The sculptures of Nineveh, and the bas-reliefs of Thebes and Memphis remain to testify to the great antiquity of the parasol, and Chinese annals carry its use back to a date more than twenty centuries before the Christian era, ascribing its inventor to the incomparable spouse of the famous carpenter, Lou Pan, who compelled his conjugal and professional admiration by showing him the house which she had constructed and which could be carried with him by the owner, even upon a journey of a thousand leagues. Among the ancient Greeks the umbrella was used at the festivals of Bacchus, and in the feast of Athena Sciras a white parasol was borne by the priestess of the goddess from the Acropolis to the Phalerus. Numerous pictorial representations testify to the important part played by the parasol in the private life of the noble and wealthy Greek women, as well as at festivals and in sacred or funeral ceremonials, and a passage in Aristophanes, where one of the characters is described as opening and shutting his ears like an umbrella—Aristophanes may, therefore, be regarded as having anticipated contentious journalists in one of their favorite similes—indicates that the folding sunshade was known as well as the immovable variety. From the Greeks the Jews seem to have borrowed the use of the umbrella at the Feast of Tabernacles, as witness a coin of the older Agrippa which has furnished Spanhemius with a text for a learned dissertation. According to a passage in Anacreon the use of the sunshade by a man was reprehended as a mark of extreme effeminacy, even as in more modern times the the employment of the fan by the *mignons* of the French Court.

The Beauty Sues for the Prize.

Adam Forepaugh's $10,000 beauty is proving anything but an everlasting joy to Philadelphia's own showman. It is a dull month when one or two of Miss Montague's numerous suits against her quondam employer are not called into the courts. Latterly they have been coming in pairs. Two were called in Common Pleas Court, No. 4, last week, and each involved $10,000. The first for the recovery of the $10,000 prize which was awarded Miss Montague on paper, but which the veteran showman has thus far failed to deliver. The other $10,000 is for injuries sustained by being thrown from a vicious elephant, which Miss Montague was compelled to ride in the street pageants last year. Both of these suits were postponed till January on account of Mr. Forepaugh's absence from the city. To-day he strikes his tents for the season, and to-morrow, unless postponement is granted, he will answer to two other actions which are set down for hearing in Common Pleas Court, No. 1. The amount involved is $10,700, the odd hundreds being seven weeks' salary which the beauty alleges is due on last year's engagement. The $10,000 is for breach of contract this season. Mr. Forepaugh, the petition avers, engaged to provide Miss Montague a private stateroom in her travels about the country this year, but when the beauty went to inspect her quarters just before the Forepaugh train left Philadelphia on the opening of the season she found that she was to be crowded in with "lady" bare-back riders, trapeze performers, and other common people, and that only half a berth was reserved for her. She refused to go a step until the private stateroom was provided. Mr. Forepaugh, evidently anticipating such a turn, had already engaged another alleged beauty, who has been poising as the original $10,000 prize during the last six months. This substitution furnishes Miss Montague ground for a fifth action, in which she asks $10,000 for the use of her name. The sixth and latest suit, which will come up shortly, is likewise of the $10,000 guage, and calls for Miss Montague's share in the sales of her photographs.—*Philadelphia Press.*

A Curiosity Shop.

An Ottawa despatch says that an aide-de-camp's room as Rideau Hall is well-filled with curiosities purchased by H. R. H. the Princess Louise during her tour through British Columbia. Packages arrive and are unpacked almost daily at Government House. Some of the articles are unique. One in particular, a Chinese fiddle, is rather a curious looking instrument. It is shaped like a banjo, about three feet long, with a round head, and has three strings. The pegs for winding up these ar cut out of an elephant's tusks. The bow is about a yard long, and in lieu of horsehair has a single cord resembling the third string of a violin. Among other articles are a number of grotesque wooden statutes purchased from Indians on the Pacific slope.

Bees and Horses.

Mons. Pateau has discovered that while a horse can pull only six-sevenths of its weight a bee can pull twenty times its weight. When some one discovers how to grow bees as large as horses, the latter animal will have to take a back seat. But it would be fatal to fool around the heels of such a bee. With its javelin it could pin a man against the side of the stable. Perhaps it would be better not raise bees any larger than the present crop.—*Norristown Herald.*

To Take Out Milk and Coffee Stains.

These stains are very difficult to remove, especially from light colored and finely finished goods. From woollen and mixed fabrics they are taken out by moistening them with a mixture of one part glycerine, nine parts water, and one-half part of aquammonia. This mixture is applied to the goods by means of a brush, and allowed to remain for twelve hours (occasionally renewing the moistening). After this time, the stained pieces are pressed between cloth, and then rubbed with a clean rag. Drying, and if possible a little steam, is generally sufficient to thoroughly remove the stains. Stains of milk garments, which are dyed with delicate colours, or finely finished, are more difficult to remove. In this case five parts glycerine are mixed with five parts water, and one-quarter part of ammonia added. Before using this mixture it should be tried on some part of the garments where it can be noticed, in order to see if the mixture will change colour. If such is the case no ammonia should be added. If, on the contrary, no change takes place, or if, after drying the original color is restored, the above mixture is applied with a soft brush, allowing it to remain on the stains for six or eight hours, and is then rubbed with a clean cloth. The remaining dry substance is then carefully taken off by means of a knife. The injured places are now brushed over with clean water, pressed between cloth and dried. If the stain is not then removed, a rubbing with dry bread will easily take it off. To restore the finish, a thin solution of gum-arabic, or in many cases beer is preferred, is brushed on, then dried and carefully ironed. By careful manipulation these stains will be successfully removed.

It always gives us pleasure to draw attention to articles which are deserving of public patronage. Probably no article ever offered to the public has met with the same success as Gray's Syrup of Red Spruce Gum. Thousands of families in the Dominion keep it in their homes as the standard Cough Remedy. The sale of this article has assumed enormous proportions. Our advice to the public at large is to try its virtues if they should at any time unfortunately contract either Coughs or Colds. It is sold by all chemists,

ROBBED—Thousands of graves are annually robbed of their victims, lives prolonged, happiness and health restored by the use of the great

GERMAN INVIGORATOR

Which positively and permanently cures Impotency (caused by excesses of any kind), Seminal Weakness, and all diseases that follow as a sequence of Self-Abuse, as loss of energy, loss of memory, universal lassitude, pain in the back, dimness of the vision, premature old age, and many other diseases that lead to insanity or consumption and a premature grave.

Send for circulars with testimonials free by mail. The INVIGORATOR is sold at $1 per box, or six boxes for $5, by all druggists, or will be sent free by mail, securely sealed, on receipt of price by addressing F. J. CHENEY, Druggist, 187 Summit St., Toledo Ohio. Sole Agent for the United States.

WISE people are always on the lookout for chances to increase their earnings, and in time become wealthy; those who do not improve their opportunities remain in poverty. We offer a great chance to make money. We want many men, women, boys and girls to work for us right in their own localities. Any one can do the work properly from the first start. The business will pay more than ten times ordinary wages. Expensive outfit furnished free. No one who engages fails to make money rapidly. You can devote your whole time to the work, or only your spare moments. Full information and all that is needed sent free. Address Stinson & Co., Portland, Maine.

THE
PACIFIC NORTHWEST!
Oregon, Washington, and Idaho.

Offers the best field for emigrants—viz.: a mild, equable, and healthy climate; cheap lands of great fertility, producing all varieties of Grain, Fruit, and Grasses in wonderful abundance; an inexhaustible supply of Timber; vast Coal Fields, and other mineral deposits; cheap and quick transportation by railroads and river navigation; direct commerce with all parts of the world, owing to its proximity to the Pacific Ocean. NO DROUTHS, NO INSECT PESTS, NO HURRICANES, WHIRLWINDS, OR OTHER DESTRUCTIVE PHENOMENA. The lands of the Pacific Northwest show an average yield of wheat per acre largely in excess of that of any other section of the United States.

No failure of crops has ever occurred. Oregon wheat commands a higher price than that of any other country in the Liverpool market.

An immense area of very fertile Railroad and Government Lands, within easy reach of the trunk lines of the Northern Pacific R.R., the Oregon Railway & Navigation, and the Oregon & California RR. Co's and their numerous branches in the great Valleys of the Columbia and its tributaries, are now offered for sale at Low Prices, and on Easy Terms, or open to pre-emption and Homestead Entry.

The great movement of population to the Columbia region now in progress will be enormously increased by the completion of the Northern Pacific RR. and the Oregon Railway and Navigation Co's systems. This renders certain a rapid increase in the value of Lands now open to purchase or to entry under the United States Land Laws.

I CURE FITS!

When I say cure I do not mean merely to stop them for a time and then have them return again, I mean a radical cure. I have made the disease of FITS, EPILEPSY or FALLING SICKNESS a life-long study. I warrant my remedy to cure the worst cases. Because others have failed is no reason for not now receiving a cure. Send at once for a treatise and a Free Bottle of my infallible remedy. Give Express and Post Office. It costs you nothing for a trial, and I will cure you.
Address Dr. H. G. ROOT, 183 Pearl St., New York.

MASON & HAMLIN ORGANS

are certainly best, having been so decreed at every Great World's Industrial Competition for Sixteen Years; no other American organs having been found equal at any. Also cheapest. Style 109; 3½ octaves; sufficient compass and power, with best quality, for popular sacred and secular music in schools or families, at only $22. One hundred other styles at $30, $57, $66, $72, $78, $93, $108, $114, to $500 and up. *The larger styles are wholly unrivalled by any other organs.* Also for easy payments. New Illustrated Catalogue free. The MASON & HAMLIN Organ and Piano Co., 154 Tremont Street, Boston; 46 East 14th Street (Union Square), New York; 149 Wabash Avenue, Chicago.

CONSUMPTION.

I have a positive remedy for the above disease; by its use thousands of cases of the worst kind and of long standing have been cured. Indeed, so strong is my faith in its efficacy, that I will send TWO BOTTLES FREE, together with a VALUABLE TREATISE on this disease, to any sufferer. Give Express and P. O. address.

The Great American Remedy for COUGHS, COLDS, ASTHMA, BRONCHITIS, LOSS OF VOICE, HOARSENESS AND THROAT AFFECTIONS.

Prepared from the finest Red Spruce Gum. (Delicious Flavor.) Balsamic, Soothing, Expectorant and Tonic. Superior to any medicine offered for all the above complaints. A scientific combination of the Gum which exudes from the Red Spruce tree—without doubt the most valuable native Gum for Medicinal purposes.

Every one has heard of the wonderful effects of the Spruces and the Pines in cases of Lung Disease. In France the physicians regularly send their consumptive patients to the pine woods and order them to drink a tea made from the Spruce tops.

GRAY'S
SYRUP
OF
RED
SPRUCE
GUM.

In this preparation the Gum never separates, and all its antispasmodic, expectorant, tonic, and balsamic properties are preserved. This Syrup, carefully prepared at a low temperature, contains a large quantity of the finest picked Gum in complete solution.

Its remarkable power in relieving certain forms of Bronchitis, and its almost specific effect in curing obstinate hacking Coughs, is now well known to the public at large.

Sold by all respectable chemists. Price, 25 and 50 cents a bottle.
The words "Syrup of Red Spruce Gum" constitute our Registered Trade Mark, and our wrapper and labels are also registered.

BOARD OF EDUCATION.

THE SCHOOL BOARD OF 1882 HOLDS ITS LAST MEETING AND WINDS UP AFFAIRS.

The Annual Financial Statement—The Attendance in the Public Schools—A Grant to be Asked from the County.

A special meeting of the Board of Education was held on Tuesday evening.

PRESENT.—Messrs. Stevenson (Chairman), Stratton, Burnham, Wrighton, Sawers, Robinson, Weir and Rutherford.

The minutes of the last meeting were read and confirmed.

The CHAIRMAN said that the committee which was appointed at the last meeting of the Board to arrange matters in the Ward Schools had met and had, he believed, arranged the matters satisfactorily.

ACCOUNTS.

The following accounts were presented, and referred to the Finance Committee:—

Henry Best	$ 4 25
Toker & Co	19 50
Lochart & Chowen	5 55

COMMUNICATIONS.

From G. A. Rumrill, offering to sell to the board and put up iron ladders for the schools for 40 cents per foot. Received.

From G. C. Robb, Boiler Inspector, stating that the heating boiler had been inspected and found satisfactory.—Committee on Property.

From the Minister of Education, asking certain information regarding the number of children between the ages of 7 and 13, and their attendance at school; also asking questions as to the religious instruction, if any, given in the schools.—Received.

ATTENDANCE AT PUBLIC SCHOOLS.

Mr. J. BRADEN, Principal of the Public Schools, submitted his report for the month of December. The following is the number on the register and in attendance at each school:—

	On Reg.	Av. Att'nce
Central School	515	421
South Ward School	199	167
West Ward School	144	111
Total	858	699

A report was also read from Mr. Braden stating that the schools had opened for the year on January 8th, and that the attendance during the first week was:—Central School, 581; South Ward School, 201; West Ward School, 146; total, 928, making an average of 55 for each teacher. All the teachers were present at the opening of the schools, except Miss Beckett, who was ill, and Miss Brodie has charge of her room in the meantime.

The reports were received.

A TALK ABOUT WOOD.

A long and informal discussion took place about the purchase of wood. No action was taken.

FINANCIAL STATEMENTS.

Mr. R. A. MORROW, Secretary-Treasurer, read his annual financial statements. He said that the first statement included the receipts and expenditures of both the High and Public Schools together; the second, the High and Public Schools separately; and the third, the statement returned to the Government, which only included the actual cash received and paid out during the year. The following are the statements:—

A COUNTY GRANT.

Mr. RUTHERFORD moved, seconded by Mr. WEIR,—That Messrs. Stratton, Burnham, Dumble, the Chairman and the mover be a Committee to wait upon the County Council at its next meeting, to request that body to make a suitable grant to the High School.—Carried.

DEMAND ON THE COUNCIL.

Mr. STRATTON moved, seconded by Mr. WEIR,—That the Secretary be instructed to make a demand on the Town Council for the balance of the school levy.—Carried.

NON-RESIDENT PUPILS.

On motion of Mr. SAWERS, the Principals of the High and Public Schools were requested to a list of all the pupils from the County attending the Schools.

TO BE PUBLISHED.

The Secretary was ordered to have the financial statement published in the three local papers, at the same rate as last year.

The Board then adjourned.

Personal.

The Hon. Sidney Smith, of Cobourg, is registered at the Croft House.

There is abundant evidence that the meeting of the American Canoe Association, to be held at Stoney Lake next August, will be a successful one. The canoeists from the States promise to be here in force, and we have no doubt that proper preparations will be made for their reception. The following is a specimen of several letters that have been received by Commodore Edwards:—

59 BANK ST., NEW YORK,
January 12, 1883.

E. B. Edwards, Esq., Commodore American Canoe Association:

MY DEAR SIR,—Permit me to inform you that at the annual meeting of the Knickerbocker Canoe Club, held last night, on motion of Mr. Robert J. Wilkin, the following resolution was passed unanimously, viz.:

"Resolved—That the Secretary be instructed to forward the following message to Commodore Edwards, at Peterborough. The K. C. C., of New York, sends you greeting, and in wishing full success to the Canadian meeting of the A.C.A., promises to be on hand in full force."

I beg to remain,
Your obedient servant,
R. P. MARTIN,
Secretary.

Curlians.

The Peterborough and Lindsay Curling Clubs played a match at Lindsay on Tuesday in the primary competition for the Ontario Tankard. The ice was good, but the result of the playing was unfavorable to the Peterborough curlers. The second rink showed some good playing and were not greatly distanced by their opponents, but the members composing Mr. Brown's rink appeared to have forgotten the science of handling the "stanes." However, the home players take their defeat goodnaturedly, and perhaps it will spur them on to take more practice, that they may regain the skill in the game which they formerly possessed. The following is the score:—

A marvelous cure for Catarrh, Diphtheria, Canker mouth, and Head Ache. With each bottle there is an ingenious nasal Injector for the more successful treatment of these complaints without extra charge. Price 50 cts. For sale by J. D. Tully

Answer This Question.

Why do so many people we see around us seem to prefer to suffer and be made miserable by Indigestion, Consumption, Dizziness, Loss of Appetite, Coming up of the Food, Yellow Skin, when for 75 cts., we will sell them Shiloh's Vitalizer, guaranteed to cure them. For sale by D. J. Tully

Flannels, Tweeds and Blankets, are going very fast. Why? Because we are selling them at reduced prices. Turnbull & Gray.

A SURE THING!

Clothing again! Well, it's about the most interesting topic we can talk of just now. It's the season when clothing is most needed, and the season we must sell it, so you see it interests us both. Our stock of Clothing for this time of year is large, our assortment unusually complete, facts of great advantage to buyers, and of some advantage to us, as it enables us the better to suit you. We want to hurry the out-word movement of our stock and consequently will give a decent discount to prompt cash buyers. This reduction is made solely with a view to working off in proper season our immense Stock, and not because the goods are in any respect undesirable. Our clothing is built of strong serviceable fabrics, well and carefully made, and with trimming warranted to wear. Every style of goods from plain and sturdy to the most elegant. Nothing slighted,—except our profits.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine. Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

WEST RIDING AGRICULTURAL SOCIETY.

Annual Meeting—Election of Officers—Representative for the District.

The annual meeting of this Society was held on Wednesday last, in accordance with the statute, Jos. Walton, Esq., President, in the chair.

The Treasurer's Statement duly audited, was presented, and showed a balance to the credit of the Society of $96.10, with outstanding liabilities of about $50 for the County Ploughing Match, and $26 on account of prizes of 1882, still unpaid. The report was adopted. The following officers were elected for the current year, viz.:—

PRESIDENT—Joseph Walton, Esq.

VICE-PRESIDENT—Wm. Rutherford, Esq.

SECOND VICE-PRESIDENT—Henry Collins, Esq.

DIRECTORS—T. E. Bell, James Campbell, Samuel McKibbon, John Riddell, Hugh Davidson, John Young, John Garbutt, Alex. Scott, and Geo. W. Fitzgerald.

AUDITORS—Jas. Edwards and J. J. Hall.

The Secretary read a letter from the Secretary of the Commissioner of Agriculture, stating that Messrs. John Carnegie, of Peterborough, and Col. Deacon, of Lindsay, had been duly nominated as the representatives of this district on the Council of the Agricultural and Arts Association, and that they were required to cast their vote in favour of which one of these gentlemen they desired to represent them. The vote of the Society was unanimously given to Mr. Carnegie.

On motion all the Directors were appointed delegates to the Central Exhibition, to be held in Millbrook on the 7th of February.

The meeting then adjourned.

POLICE COURT.

DRUNK.

THURSDAY, Jan. 18.—Wm. Ford, from Port Hope, was charged with having been found drunk. He pleaded his case well, and was allowed to go.

John Ford, no relation to the former prisoner, being a different countrymen, appeared on the same charge. He explained matters so well, and made such promises, that the Magistrate allowed him also to depart in peace.

Fire in Toronto.

On Tuesday night Messrs. J. & J. Taylor's Safe Works, Toronto, were burned. On examining the building after the conflagration it was found that the whole of the rear building was gutted, that the two top storeys were badly destroyed. However, the store room in which there were about twenty-five safes and the office, books, etc., were uninjured. The damage is wholly covered by insurance to the amount of about $40,000, for which policies are held in seven companies.

Charged With Incendiarism.

On Monday Francis Lockerly was arrested in Belleville on a charge of attempting to set fire to Schultz's store. This morning he was brought up in the Police Court and remanded until Monday for evidence. Bail was refused. Prisoner's friends claim that they can establish that he was in bed when the attempt was made.

MIDNIGHT TELEGRAMS

CABLE.

THE FALSE PROPHET.

CAIRO, Jan. 17.—A fight has occurred between 500 Egyptian troops and the False Prophet's forces. Two hundred and forty Egyptians were killed and the remainder taken prisoners.

DAVITT IN COURT.

DUBLIN, Jan. 17.—Mr. Davitt in court to-day applied to be heard in reply to the Attorney-General's application, and was granted leave.

A GALE.

LONDON, Jan. 17.—A furious gale has been raging on the north cost of Scotland for the past two days, and has swept thence with unabated intensity over the coast of Aberdeenshire. Very heavy seas prevented the mail steamer making her passage across the Minch yesterday. Wreckage continues to wash ashore, indicating severe sufferings among shipping.

A RISING IN FRANCE.

PARIS, Jan. 17.—*La France* requests the Government to inform the representatives of the country if the news which has been current for some weeks relative to the organization of civil war in the west of France, with the help of the Catholic workmen's clubs, is exact. It is affirmed that the Minister of the Interior is possessed of information in regard to the subject.

THE RAILWAY STRIKE.

LONDON, Jan. 17.—The railway strike in Scotland has extended to Edinburgh. The traffic to Leith is stopped.

A CONSUL INSULTED.

SCUTARI, Jan. 17.—M. Le Ree, the French consul here, was insulted and struck in the street by a Mohammedan. Le Ree energetically defended himself, and he has demanded satisfaction for the outrage.

THE SKYE CROFTERS.

LONDON, Jan. 17.—The policemen sent to Glendale, Isle of Skye, to serve processes and arrest crofters have been forcibly driven back.

AMERICAN.

FOUR BURGLARS CAUGHT.

ROCHESTER, Jan. 17.—Walter Crestline, alias Shaw Clark, John Donohoe, William Heavey and Richard Punch, notorious cracksmen, were arrested this morning preparing to commit burglary. One shot at Lieut. Cleary twice, but missed. Clark is a Canadian prison bird; Donohoe is another from Ohio. The two last are residents here. Numerous burglaries in Buffalo and Rochester have been traced to them.

A RICH FERRY MASTER.

NEW YORK, Jan. 17.—John H. Moore, ferry master of the New York Ferry company was arrested to-day charged with embezzling $40,000. Moore has been in the company's employ 16 years, beginning as a gateman. He now owns real estate valued at $20,000 and has $16,000 in the bank. He denies his guilt but the evidence against him is said to be conclusive.

LYNCHING FEARED.

MILWAUKEE, Jan. 17.—Another body was found in the ruins this morning; it was unrecognizable. The authorities were to-day urged to remove the prisoner Scheller to Racine to protect him from the vengeance of the Third and Fourth warders. It was arranged to have a special train to carry Scheller away in case of signs of trouble, and a considerable number of police were kept at headquarters.

HARD ON THE LAW MAKERS.

TRENTON, N. J., Jan. 17.—Rev. Mr. Miller, in opening the assembly to-day, prayed that the members should not ask themselves "How shall I line the nests of some editor, and so make myself the subject of editorial squibs, dripping with honey?" nor "How shall I curry favour with the bosses?" also that no member might be forced to explain to his constituency when he returned home how he came to Trenton poor and went back rich on a salary of $500.

LAKEFIELD.

From Our Own Correspondent.

BEWILDERED.

On Tuesday last the 16th January, a Dummeronion in passing through Lakefield with a sewing machine tarried a little too long and in consequence did not leave the village until late and in doing so turned to the right on the line between Lot 17 and 18 and went on and on still turning to the right until he found himself stuck in a swale and was entirely lost, but however he managed to unhitch his horses and got them off the sleigh and found his way to a barn yard but still he could no realize where he was. As a last resort the house was visited, and the inmates arroused, when our hero found he was on the premises of Mr. Robert Johnston directly East of Lakefield. The team and load were got onto the road, directions given &c, and Lakefield retired in good time for breakfast.

ACCIDENT.

Mr. Thomas McLaughlin, of Smith, met with a very painful accident on Wednesday the 10th January, while engaged at a threshing machine, by which his foot was fearfully crushed in the horsepower.

ON BUSINESS.

One of our eligable businessmen, during business not far from the Post Office, is going away from home shortly, and he wishes people to understand that he is going away on business and not to get married, as some might infer as in times passed.

HASTINGS.

NARROW ESCAPE.—The *Star* says that a little daughter of Mr. S. Londerville, of this village, had a very narrow escape from a severe, if not fatal accident last Thursday evening. The child had been up in the stable loft and on attempting to descend slipped and fell on a pitch fork which was standing with the prongs upwards, one of which entered the left side inflicting an ugly gash.

ORILLIA.

KILLED IN A MILL.—Just before six on Monday evening Alfred Mead, a yardhand, entered Tait's mill, and while stepping over a shaft was caught by his long overcoat and whirled round the pulley. Before the engine could be stopped life had gone. He was much respected, was twenty-four years old, and leaves a widow.

WITH every bottle of Dr. Carson's Pulmonary Cough Drops, a sample bottle is given free of charge. If, after using the trial bottle, you are not satisfied with its effect, you can return the large bottle to your dealer, who will refund the money. Thousands can testify to its prompt action in curing Coughs, Colds, Bronchitis etc. If you suffer, try them. Price 50 cents. Sold by all Druggists.

TO THE CONTINENT.

LONDON, Jan. 18.—Mr. Gladstone's wife and daughter and son started for Cannes to-day.

NAPOLEON'S MANIFESTO.

PARIS, Jan. 18.—President Grevy regards Floquet's proposals prohibiting the presence in France or Algeria of any member of any former French dynasty as tyrannical. Prince Napoleon expected to be expelled from France to-day and a decree expelling the pretenders to the throne will be issued immediately afterwards. It is reported that the Orleans Princes are preparing to quit France if necessary.

DAVITT'S TRIAL.

DUBLIN, Jan. 18.—Davitt appeared in Court to-day. The room was densely crowded. Many members of the Ladies' League and Healy were present. The judges declined Davitt's request to be allowed to question Sub-inspector Seymour, who laid the information against him. Davitt addressed the Court.

SEARCH WARRANTS.

PARIS, Jan. 18.—It is asserted that a search warrant will be issued for domiciliary visits at the houses of several intimate friends of Prince Jerome Napoleon.

PREPARATIONS FOR HANGING.

TRALEE, Ireland, Jan. 18.—The local workmen refuse to erect a scaffold for the execution of Poff and Barrett, sentenced to be hanged for the murder of Brown near Castle Island. Manwood has arrived with carpenters from Dublin, who will construct the scaffold. Upon the arrival of Manwood at Limerick, the police had great difficulty in protecting him from the crowd.

AMERICAN.

STEAMER BLOWN UP.

SEATTLE, Washington Territory, Jan. 18.—The steamer Josephine, carrying twenty passengers, blew up yesterday in Portsmouth Bay. The acting master, purser, steward, firemen and several passengers are reported lost.

RAILWAY ACCIDENT.

CLINTON, Iowa, Jan. 18.—A broken rail on the Midland Branch of the Chicago and North Western Railway, twelve miles north, threw a passenger car down a twenty foot embankment. G. C. Clark, brakeman, was killed, D. W. Richardson, conductor, was seriously injured and twenty-two passengers were slightly injured.

JEWELRY STOLEN.

SAVANNAH, Jan. 18.—On Tuesday night burglars stole $10,000 worth of diamonds and jewelery from a safe in A. L. Debouillon's store.

ENGINEERS IN COUNCIL.

NEW YORK, Jan. 18.—The annual meeting of the American Society of Civil Engineers began yesterday. C. H. Fisher, Chief Engineer of the New York Central Railway, described the reduction in the grade or both sides of Rochester Station, by which $70,000 was saved to the company.

A STRIKE.

KINGSTON, N.Y., Jan. 18.—The men at work on the ice from Saugerties to above Catskill struck for higher wages yesterday. The demand not being acceded to, they began to strike and proceeding to the several ice houses from that point to Catskill, compelled the men to join their ranks.

TENNESSEE'S DEBT.

WASHINGTON, Jan. 18.—It is stated that Moore, of Tennessee, intends to introduce in the House a constitutional amendment, giving the creditors of the State the right to sue the State in the courts and obtain judgment for and collect the amounts due them, in any case in which the State may neglect or refuse to pay their just and lawful debts.

DESTRUCTIVE FIRE.

MONTROSE, Pa., Jan. 18.—The record office and several stores were burned yesterday. Loss, $25,000.

AID FOR THE SUFFERERS.

LOUISVILLE, Jan. 18.—The Germans here last night cabled 18,000 marks to the flood sufferers in Germany.

A LAND SLIDE.

GENEVA, Jan. 18.—A great land slip occurred in the Valley of Faverges. The village of Maris has been completely destroyed by an enormous mass of earth, rocks and trees, dislodged by recent snow storms. The movement upon Maris was gradual. The inhabitants were able to escape. The movement of the mountain continues.

GENEROUS.

CINCINNATI, Jan. 18.—$10,000 has been subscribed here for the flood sufferers in Germany.

A Vast Viaduct.

The great Linzua viaduct on the branch road of the New York, Lake Erie & Western line, near Alton, McKean county, Pa., is called the highest structure of its kind in the world. It is 2,052 feet in length, and is supported by 20 towers, each composed of four wrought-iron columns, with the requisite bracing. The roadway is laid on latticed girders of 61 feet span, and the cross-ties are eight inches apart. On each side of the rails are heavy, square timbers laid parallel with the track, which would hold an engine from going over into the abyss if it were to jump the track. A passageway on either side, laid with yellow pine and and secured by a railing four feet high, enables pedestrians to pass over leisurely and view the scene from this great elevation. The bridge in the centre is 302 feet in height. About 4,000,000 pounds of iron were used in its construction, and the entire cost of the structure was nearly $300,000.—*Northwestern Lumberman.*

Do Not be Deceived.

In these times of quack medicine advertisements everywhere, it is truly gratifying to find one remedy that is worthy of praise and which really does as recommended. Electric Bitters we will also recommend. They invariably cure Stomach and Liver Complaints, Diseases of the Kidneys and Urinary difficulties. We know whereof we speak, and can readily say, give them a trial. Sold at fifty cents a bottle, by Taylor & Macdonald.—3

South End Bookstore.

And now that he has done with Christmas cheer,
The honest schoolboy doth begin to appear.
With purse in hand he comes into our store,
Saying, "This is where I should have come before!
"I want some books—they must be *good* and *cheap*,
You buy for cash, and I the benefit reap.
A Spelling Book, a Reader and a Copy—
The price of each I know will suit my 'Pappy'—
An Arithmetic, a Grammar and a History,
But how I am to carry them's a mystery.
You say I need a Bag to accommodate
My school-books, pens and pencils and my slate?
Yes! that's the thing, my fears are at an end,
No harm to books from snow or rain or wind.
I'm feeling, now, quite happy and contented,
Well satisfied with what I have expended;
And rest assured, if I want any more,
I'll come right back to the South End Bookstore."

ONTARIO LEGISLATURE.

On Monday several bills received their first and others their second readings.

Mr. Wood moved the second reading of the Public Creameries Bill, but as it involved the expenditure of money and no message had been brought down, it had to stand.

On Tuesday a number of bills were read a first time.

Mr. Morris in amendment to the motion to go into Committee of Supply moved.

"That all the words in the motion after the word 'that' be struck out, and the following substituted:—'It is the undoubted right of the Legislature of this province to exercise without interference by the Government of Canada the exclusive powers vested in it by the British North American Act, if such powers are exercised lawfully and constitutionally, and not in a manner prejudicial to the interests of the Dominion, and this House is prepared at all times to maintain and defend this right; but it is of opinion that provincial legislation which provides for the taking of private property and applying it to public uses without making full compensation to the owners is contrary to natural justice and the fundamental principles of legislation in civilized communities, and prejudicial to the interests of the Dominion; and that it is the undoubted right and manifest duty of his Excellency the Governor-General-in-Council to prevent such legislation remaining in force by exercising the power of disallowance vested in him by the said Act."

He supported his motion in a long and able speech, referring to the fact that the Reformers during their four years and a half of power had disallowed 18 acts, while the Conservatives in ten years and a half had disallowed only 17. He also dwelt upon the fact of Mr. Mowat voting for the Orange Bill and then inviting its disallowance by advising the Lieut.-Governor to reserve it. He argued that in Canada as in the States, private property holders were protected from the confiscation of their property without full compensation, a right that came down to them from Magna Charta.

Mr. Pardee argued that it was sufficient compensation for Mr. McLaren to receive such tolls as Mr. Mowat and his colleagues might please to allow him. He uttered the usual threats of breaking up the Confederation if his friends could not have their own way.

Mr. Meredith supported the amendment, and in the course of his speech quoted from eminent Reform authorities in favour of the power of disallowance.

Mr. Young and Mr. Hawley also spoke against the amendment.

On a division Mr. Morris' motion was defeated by 49 to 25, Mr. Mowat and his following thus voting in favour of their right to confiscate the property of an opponent to reward therewith a supporter, without further compensation than that which Mr. Mowat and his colleagues might please to allow.

The House then went into Committee of Supply, and a number of items were passed, Mr. Meredith calling attention to the gross impropriety of officials of the house having employed themselves during the recess in disseminating campaign literature for the government throughout the country.

A FALSEHOOD CONTRADICTED.

THE following letter appears in the *Examiner*:—

To the Editor of the Peterborough Examiner:—

SIR,—In your issue of the 11th inst. you have an editorial in reference to the nomination of a Conservative candidate in East Peterborough, and in which my name is mentioned. You state that I had virtually been promised the nomination and had been pushed aside by successful wire-pulling. Now, sir, when you wrote these words you must have known they were not in accordance with the facts, as I was nominated at the convention at Norwood, and could have been the candidate if I had not then and there declined.

JOHN MOLONEY.

Peterborough, Jan. 12th, 1883.

Even if our contemporary was so dilatory in news gathering as to be ignorant of the fact that Mr. Moloney was offered the nomination, that does not relieve it from the stigma of inventing a wilful falsehood. The *Examiner* could not have understood, as it mendaciously asserts, that "The friends of John Moloney, Reeve, of Douro, are displeased that his claims have been overlooked once more," for Mr. Moloney's friends knew that his claims had not been overlooked. A party derives no benefit from such nefarious and justificiable attempts at stirring up dissension.—ED. REVIEW.

AN ILLOGICAL POSITION.

The position occupied by the Little Premier on the Boundary Question is a singularly illogical one. He says in one of his speeches, that "the award of the arbitrators does not give us all that we asked for, nor all that we could and *did give pretty strong arguments in support of.*" Why, then, is he so anxious that the Award, which he plainly says is defective and deficient, in not allowing to Ontario all that rightly is hers, should be excepted and made final? But he says, further on, the award gives us "all that our people really desire, and as much as the Province can make beneficial use of." How can that be, if the territory is as rich as Mr. Mowat says it is? Can Ontario have too much of a beneficial thing? Mowat declares in the passages quoted that is desirable to obtain a part of what he thinks lawfully due to Ontario, on account of its great richness. Yet, he says we are to stop short of our whole due, because we could not handle it all to advantage if we had it! Was ever Premier in such a two-headed attitude before? These very words, if nothing else, show how necessary it is to have a better settlement of the case than the Award gives. It is not a full award. It does not give Ontario all that Mowat has claimed for her, and given, as he says, strong reasons for claiming. What is more rational, then, that the case should be more fully heard before the *Privy Council*, and a more conclusive verdict arrived at? Yet Mowat strenuously opposes this course, adhering to the defective verdict, and saying he will have that or nothing. By going before the Privy Council he may get much more, even possibly all that he claimed, a far larger area than the arbitrators gave. But he says he does not want a larger area; that Ontario could not make a good use of it, and he prefers the smaller part. How unusual a course! If the ground was of no value, we could understand his argument, and agree with him that the less one has of sterile land, consisting of rock and muskeg, the better. He may think himself land-rich with such an estate, but in reality he is land-poor. But what is to be said, in the case where a man professes that the land is good, rich in timber and in minerals, and that all this wealth would flow to him if he got a title to the territory, and where he then declines to press for the whole of what belongs to him, and is satisfied with a part only? That is Mowat's position, as laid down in his public speeches, and he has the beautiful affrontery to ask to be supported in it. —*London Free Press.*

THE LETELLIER CASE.

At the late Reform Convention the Hon. Alexander Mackenzie said that he "did not believe that Sir John Macdonald ever believed that he had a right to dismiss Mr. Letellier, but the secret of the dismissal was that Mr. Letellier had been a leader of the Liberals of Lower Canada." Some time afterwards the London *Advertiser*, then controlled by the present Managing Director of the *Globe*, said: "We take but little exception to the constitutional doctrine laid down by Sir John Macdonald two years ago, when he first brought the subject of Mr. Letellier's conduct before Parliament." And then, referring to Mr. Letellier's action in dismissing his Ministers: "We say that he erred—greatly erred—in the course he took. The Reform party cannot afford to defend the action of Letellier. It can only do so by turning its back upon the principles and traditions of two hundred years. * * * We must take our stand upon more defensible, more advantageous ground, and we say now what we have ever said, that it is the duty of every Governor, whether Federal or Provincial, to loyally take advice of those whom public opinion, constitutionally expressed, has assigned to him as Minister for the time being." All of which we respectfully submit for the consideration of the Hon. Alexander Mackenzie, ex-leader of the Reform party, whose Government it was intended should be benefitted by the Letellier outrage, and to the attention of the *Globe* under its new management.—*Ottawa Citizen.*

BEATING HARDY.

Mr. Blezard, M.P.P., has been renominated Grit Candidate for East Peterborough. In accepting the nomination, Mr. Blezard made a speech in which the following remark occurs, according to a Grit report:—

"The speaker then referred to the license question. Sir John had said *liquor must be sold free as water.*"

Mr. Hardy may Hardyize, but Mr. Blezard can beat him on his own ground. If Mr. Blezard is an honest man he will rise in his place in the House to-day, and produce Sir John's statement that "liquor must be sold free as water."—*Mail.*

WOMEN'S FOREIGN MISSIONARY SOCIETY

The Annual Meeting of the Peterborough Presbyterial Society.

The annual meeting of the Presbyterial Society of Peterborough, in connection with the Women's Foreign Missionary Society, was held in St. Paul's Church on Tuesday afternoon. The meeting was very well attended by ladies interested in the work. The minutes of the last meeting were read, and the President, Mrs. Beattie, gave a short address. Reports were received from the different auxiliaries in the Presbytery. The meeting was held at the same as the meeting of the Presbytery, in order that their report might be sent to the Presbytery, in accordance with the rules of the Central Board in Toronto.

The following officers of the Society were elected:—

PRESIDENT—Miss Roger, Peterborough.
VICE-PREST.—Mrs. Fairbairn, Peterborough.
TREASURER—Mrs. Finlay, Lakefield.
COR. SEC'Y—Mrs. Graich, Port Hope.
REC. SEC'Y—Mrs. R. H. Dennistoun, Peterborough.

The annual report of the Recording Secretary, Mrs. R. H. Denistoun, was read as follows:—

First annual report of the Presbyterial Society of Peterborough, in connection with the Women's Foreign Missionary Society, Western Section:—

This Society has now been formed for nearly a year. After the annual meeting of the W. F. M. S., Western Section, held in Peterborough in April last, the Presbyterial Society came into operation. The first meeting was held at Port Hope on the 6th of July. The Midland Railway, with their usual kindness and courtesy, gave return tickets for one fare, so that many at a distance were enabled to attend the meeting.

The meeting was very well attended considering that it was the first. The church was made attractive by flowers, sent in by those desirous of adding to the enjoyment to the meeting. On that occasion we had with us Mrs. Douglass and Miss Roger, both from Ladies. We had also the pleasure of Mrs. Ewarts' presence, and as that lady is the President of the Toronto Board, it was a great privilege, and added much to our meeting.

The object of the present society is to lighten the work of those in Toronto and to facilitate the formation of auxiliary societies in the different congregations in the Presbytery. It would perhaps seem an easy matter to do this, but in reality it is very far from it; there are so many hindrances that are not looked for. You may appoint a day and an hour for the meeting and drive through heat and dust for ten or twelve miles to be met by an audience of one, who will drop in an hour late. This actually occurred not far from Peterborough. Of course we must expect things of this kind and not be discouraged by them, but go on our way with increased zeal and love for the work, which after all is not ours but the Lord's. On another occasion an inofficial visit was made, in this district also, but the congregation did not feel in a position to form an auxiliary there, but hope to do so in the new year. Our efforts in this direction were very substantially rewarded by the receipt of $28.25, the result of the Thanksgiving service. This showed a very decided interest. There are several congregations now ready to form auxiliaries, which we hope will be formed early in the year. As far as the auxiliaries that are formed are concerned, we have much cause to be thankful. The interest has continued unabated and has in some places increased very largely. The amounts raised still seem to increase yearly. In Port Hope a new feature in the way of getting money is the formation of a sewing society, which has been a success in every way. In Lakefield the interest has spread to the younger members of the congregation, who have formed themselves into a mission band and are zealous in the attendance of the regular meetings. In Peterborough the interest is gaining ground, and many are awakening to earnest helpfulness who have been hitherto unattracted by the work. The children again had a sale of work that realized $120. The growing interest manifested by these societies only makes us more anxious to form an auxiliary society in each congregation of the Presbytery, and I hope that with God's help and guidance this may be accomplished before very long.

EMILY B. H. DENNISTOUN,
Recording Secretary.

January 16th, 1883.

The reports were considered very satisfactory.

It was regretted that more of the Presbyterians of the town did not attend, as it was the annual meeting, and it would have shown what the Society through Divine aid has been able to do. A good field has been opened for the Society for the coming year.

In the evening a public meeting was held in the church, at which several members of the Presbytery delivered short but pleasing addresses. It was a great disappointment to all that the Presbytery as a body were unable, on account of having a previous engagement, to accept the invitation to tea. This meeting was very successful, and, like the session in the afternoon, was opened and closed by devotional exercises.

MR. THOMAS W. RACE, Editor and Proprietor of the Mitchell *Recorder*, writes that he had a prejudice against Patent Medicines, but being induced to try Burdock Blood Bitters, for Billiousness that occasioned such violent headache and distress as to often disable him from work. The medicine gave him relief, and he now speaks of it in the most favorable terms.

A VICE-REGAL PARTY

How The Governor-General and the Princess Passed their Time in California.

SANTA BARBARA, Jan. 4.—Our royal visitors have now been here more than a week, and seem to be very contented. On their arrival, when conducted to their apartments, the marquis expressed much pleasure at the quiet reception given them, and said he was surprised to find such comfortable and convenient accommodation. The habits of the visitors are very simple, and they choose the simplest dishes on the bill of fare. They breakfast at 1.30 and go down to dinner at 7.30, the princess and ladies raising from the table at 9, and the marquis and gentlemen remain enjoying their coffee and cigars till 10. They prefer Zinfandel claret, made in California, to any other wine, the princess adding to here about the same quantity of Apollinaris water. She also greatly relishes the California pickled olives, and says she much prefers them to the Queen olive of Spain. They ride out every day, and while the princess entertains herself seated on the ground sketching, for which she has great fondness, the marquis rambles about not far away studying the geology of the county. He also takes an interest in farming and fruit growing. As the princess passed out to the carriage to ride to the old Mission, where she is sketching this afternoon, I was struck with her German accent, which forms a very odd combination with her broad English pronunciation. Her chief ailment is a bronchial affection, which renders her very sensitive to colds. Otherwise she looks robust and in excellent health.—*San Francisco Chronicle.*

AN ICE CATASTROPHE.

A Dozen Skaters Floundering in Deep Water—Nearly a Tragedy at Detroit.

On Sunday, the bay, an area of about eight acres in size, just below the foot of Twenty-fourth street, Detroit, was covered with men and women and boys and girls skating. When the fun was at its height, there occurred an accident which came near near furnishing a tragedy equalling the Mamie Garland horror. In "cracking the whip" the crowd came together in a group. Nearly all losing their balance, fell, breaking the ice under them and making a hole fifteen feet square, and while five or six of the smaller and more active boys succeeded in crawling on to the solid ice without getting much wet, ten or eleven of the party were soon floundering in the cold water. The wildest excitement followed. While the majority of the persons on the ice started wildly for shore, there were a few girls as well as boys, who kept their heads, and went to the rescue. Sticks and boards were thrown to those in the water, and one little girl took a scarf from around her neck and threw one end to a boy who was floundering in the water and pulled him out. A young man rescued a girl when she was about to disappear under the solid ice. Another young man who was himself among the involuntary bathers, rescued his sister, and in trying to save another young lady fell in himself a second time. He got out, however, and brought the girl with him. A young man named John Welsh, who fell in with the crowd, rescued himself and then saved two others. The water was very deep, and had there been a current it is doubtful if even half of those who broke through the ice could have been saved.

Marriage.

Marriage is, of all earthly unions, almost the only one permitting of no change but that of death. It is that engagement in which man exerts his most awful and solemn power—the power of responsibility which belongs to him as one that shall give account—the power of abnegating the right to change, the powers of parting with his freedom, the power of doing that which in this world can never be reversed. And yet it is perhaps that relationship which is spoken of most frivolously and entered into most carelessly and wantonly. It is not a union merely between two creatures, it is a union between two spirits; and the intention of that bond is to perfect the nature of both by supplementing their character with a force of contrast giving to each sex those excellencies in which it is naturally deficient; to the one strength of character and firmness of moral will, to the other sympathy, meekness, tenderness. And just so solemn and just so glorious as these ends for which the union was contemplated and intended, just so terrible are the consequences if it be perverted and abused; for there is no earthly relationship which has so much power to ennoble and to exalt.

Body Snatching.

Grave robberies become more frequent in the outlying municipalities of Montreal, as it is alleged that in all the dissecting-rooms of the city medical colleges the greatest difficulty is experienced in procuring subjects in the ordinary way. The usual price, from $30 to $50 is offered by some of the medical faculties. Even at this high figure subjects are so hard to obtain that many of the practical anatomy classes are said to be almost at a standstill, and the students are forced to the alternative of neglecting their dissecting, which is one of the most important branches of medical study, or else to adopt extreme measures to obtain material for their lessons. The bodies of two men were taken from St. Marie Cemetery, a small village on the Richelieu River last week, and were found in a farmer's barn near by. Now search is being made for the robbers. Yesterday an attempt was made to break into the dead-house at Longue Pointe Asylum, and a student named Filiatrault arrested, but afterwards released.

It always gives us pleasure to draw attention to articles which are deserving of public patronage. Probably no article ever offered to the public has met with the same success as Gray's Syrup of Red Spruce Gum. Thousands of families in the Dominion keep it in their homes as the standard Cough Remedy. The sale of this article has assumed enormous proportions. Our advice to the public at large is to try its virtues if they should at any time unfortunately contract either Coughs or Colds. It is sold by all chemists.

Buckwheat in The Orchard.

Professor J. L. Budd, in the Iowa *Homestead*, says: "For several years past many of our experienced fruit-growers have recommended the sowing of buckwheat in orchards, nurseries, etc., with a view of lowering the surface temperature of soil and to produce the friable, moist surface, conditions needed for the healthful growing of trees upon the open prairies. Later, it has been urged by several that many of our noxious insects failed to find on buckwheat-covered surfaces the needed conditions for transformation and development. It seems that in Europe the same observations have been made." The following note from the London *Farmer* is, at least, suggestive: "Many years' practical experience has convinced Mr. Lagarde that sowing buckwheat in soils infested with white worms, grubs, ants, etc., allowing it to grow until it flowers and then ploughing it in as green manure, effectually frees them from all subterranean parasites. The crop, especially the variety known as Tartarian buckwheat, springs up rapidly, chokes all the weeds, and abstracts but little nitrogen from the soil, as it draws its principal nutriment from the air. It decomposes very quickly in good soil, doubtless owing to the spongy nature of the leaves. This decomposition is immediate and the large amount of gas liberated asphyxiates the larvae of the various insects in the ground. Mr. Lagarde suggests this as a possible remedy for phylloxera, by sowing among the vines and digging in about the roots.

ROBBED—Thousands of graves are annually robbed of their victims, lives prolonged, happiness and health restored by the use of the great

GERMAN INVIGORATOR

Which positively and permanently cures Impotency (caused by excesses of any kind), Seminal Weakness, and all diseases that follow as a sequence of Self-Abuse, as loss of energy, loss of memory, universal lassitude, pain in the back, dimness of the vision, premature old age, and many other diseases that lead to insanity or consumption and a premature grave.

Send for circulars with testimonials free by mail. The INVIGORATOR is sold at $1 per box, or six boxes for $5, by all druggists, or will be sent free by mail, securely sealed, on receipt of price by addressing F. J. CHENEY, Druggist, 187 Summit St., Toledo Ohio. Sole Agent for the United States.

THE

PACIFIC NORTHWEST!

Oregon, Washington, and Idaho.

Offers the best field for emigrants—viz: a mild, equable, and healthy climate; cheap lands of great fertility, producing all varieties of Grain, Fruit, and Grasses in wonderful abundance; an inexhaustible supply of Timber; vast Coal Fields, and other mineral deposits; cheap and quick transportation by railroads and river navigation; direct commerce with all parts of the world, owing to its proximity to the Pacific Ocean.

NO DROUTHS, NO INSECT PESTS, NO HURRICANES, WHIRLWINDS, OR OTHER DESTRUCTIVE PHENOMENA.

The lands of the Pacific Northwest show an average yield of wheat per acre largely in excess of that of any other section of the United States.

No failure of crops has ever occurred.

Oregon wheat commands a higher price than that of any other country in the Liverpool market.

An immense area of very fertile Railroad and Government Lands, within easy reach of the trunk lines of the Northern Pacific R.R., the Oregon Railway & Navigation, and the Oregon & California R.R. Co's and their numerous branches in the great Valleys of the Columbia and its tributaries, are now offered for sale at Low Prices, and on Easy Terms, or open to pre-emption and Homestead Entry.

The great movement of population to the Columbia region now in progress will be enormously increased by the completion of the Northern Pacific R.R. and the Oregon Railway and Navigation Co's systems. This renders certain a rapid increase in the value of Lands now open to purchase or to entry under the United States Land Laws.

I CURE FITS!

When I say cure I do not mean merely to stop them for a time and then have them return again. I mean a radical cure. I have made the disease of FITS, EPILEPSY or FALLING SICKNESS a life-long study. I warrant my remedy to cure the worst cases. Because others have failed is no reason for not now receiving a cure. Send at once for a treatise and a Free Bottle of my infallible remedy. Give Express and Post Office. It costs you nothing for a trial, and I will cure you.

Address Dr. H. G. ROOT, 183 Pearl St., New York.

MASON & HAMLIN

ORGANS are certainly best, having been so decreed at every Great World's Industrial Competition for Sixteen Years; no other American organs having been found equal at any. Also cheapest. Style 109; 3½ octaves; sufficient compass and power, with best quality, for popular sacred and secular music in schools or families, at only $22. One hundred other styles at $30, $57, $66, $72, $78, $93, $108, $114, to $500 and up. The larger styles are wholly unrivaled by any other organs. Also for easy payments. New Illustrated Catalogue free.

CONSUMPTION.

I have a positive remedy for the above disease; by its use thousands of cases of the worst kind and of long standing have been cured. Indeed, so strong is my faith in its efficacy, that I will send TWO BOTTLES FREE, together with a VALUABLE TREATISE on this disease, to any sufferer. Give Express and P. O. address.

The Great American Remedy for COUGHS, COLDS, ASTHMA, BRONCHITIS, LOSS OF VOICE, HOARSENESS AND THROAT AFFECTIONS.

Prepared from the finest Red Spruce Gum. (Delicious Flavor.) Balsamic, Soothing, Expectorant and Tonic. Superior to any medicine offered for all the above complaints. A scientific combination of the Gum which exudes from the Red Spruce tree—without doubt the most valuable native Gum for Medicinal purposes.

Every one has heard of the wonderful effects of the Spruces and the Pines in cases of Lung Disease.

In France the physicians regularly send their consumptive patients to the pine woods and order them to drink a tea made from the Spruce tops.

GRAY'S
SYRUP
OF
RED
SPRUCE
GUM.

In this preparation the Gum never separates, and all its anti-spasmodic, expectorant, tonic, and balsamic properties are preserved.

This Syrup, carefully prepared at a low temperature, contains a large quantity of the finest picked Gum in complete solution.

Its remarkable power in relieving certain forms of Bronchitis, and its almost specific effect in curing obstinate hacking Coughs, is now well known to the public at large.

Sold by all respectable chemists. Price, 25 and 50 cents a bottle.

The words "Syrup of Red Spruce Gum" constitute our Registered Trade Mark, and our wrapper and labels are also registered.

After Many Years.

The following paragraph appears in the Winnipeg *Sun*:

"Twenty years ago Abel Millferd ran away from his home in the county of Peterborough, Ont. He was a bright, mischievous boy of twelve years, and although his anxious parents scoured the country and used every effort to find their son, no intelligence of him could be obtained. They knew he ran away, because he had expressed such an intention to several companions. Years rolled on and no tidings being heard of Abel, it was concluded that he had perished. His father died and two years ago his mother came to this city. At the C. P. R. station last night while walking on the platform she espied her long-lost-son. She recognized him by a peculiar scar on his forehead, which he received when but a child. Strange to say the young man knew his mother when she spoke to him. It is needless to say there was a tableaux, and that the fatted calf was killed. The prodigal explained that he had gone of to the East Indies where he remained till a year ago, when a longing to visit the scenes of his childhood seized him. He sold out his business, which realized him a handsome fortune, and after spending a short time in England came to Canada. Finding that his mother had gone to Winnipeg he followed her here, and met her as described.

PRESBYTERY OF PETERBOROUGH.

◆

Condolence with the Family of the Late Col. Haultain—Ministers' Stipends.

The Presbytery of Peterborough met on the 16th of January in St. Andrew's Church, Peterborough, the Rev. J. Ross as Moderator. Besides the Moderator there were present Messrs. Cleland, Ewing, Uniddell, Andrews, Bennett, Duncan, Clark, Cameron, Bell, Torrance, Jamieson, McCrae, Cooke, Sutherland, Carmichael, Fleming, Beattie, ministers, and Messrs. John Liggett, Edward Mayhood, D. Aitcherson, A. Montgomery, W. Plunkett, R. Tully, T. J. Nelson, I. Russell, Hershaw Little and J. M. Fife, elders.

The minutes of the several previous meetings held since the former ordinary meeting were read and confirmed.

A committee, consisting of Messrs. Beattie, McCrae, Uniddell and Russell, was appointed to draft a minute expressive of the feelings of the Presbytery toward the late Col. Haultain.

Request was made for moderation in a call at Cartwright and Ballyduff. Upon motion of Mr. Bennett the petition was ordered to lie on the table until a report shall have been received from the committee appointed to take steps to remove the arrears of stipend due from these congregations to their former pastor.

There was read a very courteous letter from the Presbyterial Women's Foreign Missionary Association, then in session in St. Paul's Church, inviting the Presbytery to join them at tea at six o'clock the same evening.

The ladies were thanked for their kind invitation, and regret expressed that owing to a previous engagement the Presbytery could not accept of it.

Mr. Clelland reported on the subject of Home Missions.—Report received and adopted.

The Presbytery resolved to instruct sessions to forward their records for examination at next meeting.

Messrs. Beattie, McCrae, Cameron and Russell were appointed a committee on Temperance, Messrs. Torrance, Jamieson, Sutherland and Roxboro a committe on the State of Religion, and Messrs. Carmichael, Bell, Clark and Henderson a committee on Sabbath Schools, the first named on each committee to be the convener thereof.

The Presbytery next considered certain remits sent down from the Assembly. The remit on the mode of appointing standing committees was first taken up. This occupied the remainder of the afternoon sederunt.

The further discussion of the remit on Theological Concation was deferred until next meeting of Presbytery.

At eight o'clock the Presbytery adjourned for an hour to give members an opportunity of visiting the meeting of the Women's Foreign Missionary Society, in session in St. Paul's Church.

Mr. White, formerly of Warsaw and Dummer, requested the Presbytery to take the usual steps to obtain leave from the Assembly for him to retire from the active duties of the ministry.

Messrs. Clellard and Bell were appointed a committee to prepare the papers necessary in the case for presentation to the Assembly.

It was agreed that the next meeting of the Presbytery be held at Cobourg on the second Tuesday of March, at 11 o'clock a.m., and that the first evening of the meeting be devoted to a conference on the State of Religion, and on the subject of Temperance and Sabbath Schools. The evening meeting was appointed to be held at half-past seven o'clock, to which the public generally are to be invited.

Mr. Bennett moved the resolution, notice of which he had given three months before, in reference to an increase in ministers' stipends within the bounds.

It was moved by Mr. CARMICHAEL, seconded by Mr. SUTHERLAND, and unanimously adopted,—That the Presbytery cordially acquiesce in the view Mr. Bennett has presented in his admirable report respecting the stipend paid to ministers and the means proposed to increase the same, thank him for the report, and recommend that it be printed and copies thereof distributed among our congregations.'

The Presbytery agreed to adopt the following finding in reference to the death of Colonel Haultain:—

"While bowing in humble submission to the wise and sovereign will of God in the sudden removal of our dear brother and co-Presbyter, Lieut.-Col. Haultain, we cannot refrain from placing on record our sense of the great loss which we have sustained. We would bear testimony to his eminent services in the Church of Christ, as shown in his readiness to sacrifice time, money and strength for the production of the best interests of his fellow men and the glory of his Saviour. While as a Presbytery we feel our loss, we desire to express our deepest sympathy with his bereaved wife and aged mother, and all the members of his bereaved family. We would assure them of our prayers that the Comforter may dwell in their hearts in all fulness, and that they all may, through their trials, be made meet for the inheritance of the Saints in light."

"We would also tender our sympathy to the session and congregation of St. Paul's Church in the loss of one who had long been a laborer and counsellor with them.

We pray that the voice of the Master which has called him away may be heard as the call to duty by many who will cheerfully answer, 'Here am I, Lord.'"

Carpenter's Show.

Mr. LaFayette Carpenter and his troupe paid a visit to Lakefield on Wednesday night and gave an exhibition. The attendance at their show was fairly large, and the company feel very well satisfied. The audience, it is said, was pleased with the performance, which was of a similar character to that given here, only that several new features were introduced. The champion in the Cinderella waltz was, of course, greatly admired.

Shiloh's Consumption Cure.

This is beyond question the most successful Cough Medicine we have ever sold, a few doses invariably cure the worst cases of Cough, Croup, and Bronchitis, while it's wonderful success in the cure of Consumption is without a parallel in the history of medicine. Since it's first discovery it has been sold on a guarantee, a test which no other medicine can stand. If you have a Cough we earnestly ask you to try it. Price 10 cts., 50 cts. and $1.00. Railway Notes.

Work is progressing favourably on the big bridge at Doube's on the "Missing Link," and it is expected that it will be finished this month. A photographer went out from here this forenoon to photograph the bridge.

The spile driving for the bridge at Tully's has been completed, and the greater part of the timber for it has been prepared.

The trains were late to-day, owing to the heavy snow storm, which drifted on the tracks and hindered the running of the trains.

Going Home to Die.

Dr. Constantinies, of Toronto, arrived here last night to take home a young printer named A. H. Tibert, formerly employed in the *Sun* composing room, and lately carrying on business for himself as job printer, on McDermott street, but who has been sick for some weeks past, and is now pretty far gone in consumption. Tibert's family want him home, but it is doubtful if he is able to complete the journey.—*Winnipeg Sun.*

Answer This Question.

Why do so many people we see around us seem to prefer to suffer and be made miserable by Indigestion, Consumption, Dizziness, Loss of Appetite, Coming up of the Food, Yellow Skin, when for 75 cts., we will sell them Shiloh's Vitalizer, guaranteed to cure them. For sale by D. J. Tully

GOOD ADVICE.—If our readers will accept proffered advice, they will always keep a bottle of Hagyard's Yellow Oil at hand for use in emergencies, such as Burns, Scalds, Wounds, Lameness, Croup, Chilblains, Rheumatism and all varieties of aches, pains and inflammations. It will ever be found reliable.

FORTUNATELY Valvular disease of the heart is not very common, its disturbed action may be due to indigestion, liver irregularities &c. A Stomach disturbed with wind, or indigestable food will cause pain and fluttering by crowding on the nerves of the heart. Burdock Blood Bitters will speedily remedy all such difficulties.

A SURE THING!

Clothing again! Well, it's about the most interesting topic we can talk of just now. It's the season when clothing is most needed, and the season we must sell it, so you see it interests us both. Our stock of Clothing for this time of year is large, our assortment unusually complete, facts of great advantage to buyers, and of some advantage to us, as it enables us the better to suit you. We want to hurry the out-word movement of our stock and consequently will give a decent discount to prompt cash buyers. This reduction is made solely with a view to working off in proper season our immense stock, and not because the goods are in any respect undesirable. Our clothing is built of strong serviceable fabrics, well and carefully made, and with trimming warranted to wear. Every style of goods from plain and sturdy to the most elegant Nothing slighted, except our profits.

SULPHOLINE LOTION.—AN EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar to itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly affected with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)
THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Korke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine. Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

A VILE SLANDER REFUTED.

Exposure of Another Attempt of the "Globe" to Vilify Canadians.

In consequence of the *Globe* publishing a report of its Montreal correspondent stating that 20 per cent of the immigrant girls arriving at that city were decoyed, lead astray and filled the houses of ill fame, the officers of the English speaking national societies of Montreal have been holding an investigation into the facts. Having examined the Chief of the Montreal Police, the Chief of the Water Police the immigration agents of the Dominion and Provincial Government, the detectives and the officers of the Grand Trunk Railway, they found that these gentlemen utterly repudiated these base slanders, declared that there had been no such case within their knowledge and that every possible precaution was taken to render such attempts impracticable.

The *Globe* correspondent also appeared before the Committee and refused to give his authority for his slander.

The Investigating Committee after reporting these circumstances conclude as follows:—

"The Investigating Committee, therefore, desire to give the most full and authoritative denial to the Montreal despatch in the *Globe* of September 13th. They regret that any newspapers, or newspaper correspondents should have been so reckless of the country's future as to put forward such unfounded and damaging reports; they declare that immigrants to this country are well cared for as to creature comforts, and all girls are well protected as to morality. Being thus confident, the Committee ask all the journals which copied the *Globe's* statement to give publications to this emphatic denial.

Chairman.

REVIEWS.

THE CANADIAN HORTICULTURIST.—This periodical enters upon its sixth volume with improved appearance and promise of increased usefulness. The January number, now before us, is full of interesting and most valuable information to everyone who cultivates a garden or keeps a bit of lawn. It is beautifully illustrated with a colored plate of the Hansell Raspberry, a new sort of great promise. The magazine is under the editorial charge of that well-known and most experienced horticulturist and nurseryman, D. W. Beadle, of St. Catharines, Ontario, which is sufficient guarantee that it will be kept well abreast of the times in all matters of interest to horticulturists and fruit growers.

RUBIDGE STREET.

To the Editor of the Review.

DEAR SIR,—The fact that two funerals have passed down Rubidge street to-day to the R. C. Cemetery proves that the two blocks through that black earth should be graveled at once.

Yours, etc.,
JOHN BELL.

Peterborough, Jan. 19th, 1883.

IN DRY FORM.—The contents of a package costing 25 cents will make a quart of medicine called Fountain of Health, unequalled for purifying the blood and toning up a debilitated system.

THIS DAY'S TELEGRAMS.

Press Despatches to the Review.

TERRIFIC EXPLOSION.

AMSTERDAM, Holland, Jan. 19.—Three terrific explosions occurred to-day in a gunpowder manufactory in the town of Muidne. Almost all the houses were unroofed by the concussion. The neighboring towns and villages were much damaged. The loss of life is unknown, but it is feared that forty persons perished. The explosion was heard here, eight miles away. The windows in an eastern suburb of Amsterdam were broken.

THE RISING IN FRANCE.

ROME, Jan. 19.—The morning papers give further details of the alleged organization of civil war in the west of France, with the help of the Catholic Workmen's Clubs, and mention the discovery of a conspiracy called the Catholic Alliance forming a vast association directed by Baron de Chasse. They declare legions have been formed in the west and centre. Several officers of the army are complicated in the conspiracy, and depots of arms exist. *Le Voltaire* declares that the rising in La Vendee is fixed for the 21st inst.

RAILWAY STRIKE.

GLASGOW, Jan. 19.—At a meeting of the Scotch railway strikers, representatives of the English railway servants stated that the Caledonian Railway Company would receive no assistance from the Englishman. The strikers in the various districts intend to hold out.

AMERICAN.

SMALLPOX IN BALTIMORE.

BALTIMORE, Jan. 19.—The Mayor states now that there are only four hundred and sixty-three cases of small-pox in the city. The disease is under control.

UNFOUNDED.

NEW YORK, Jan. 19.—The report in regard to the estate of $300,000,000 in this State, to which the heirs of Mayor Skene were entitled, is pronounced unfounded by a gentleman who investigated the matter.

MRS. LANGTRY AND GEBHARDT.

ST. LOUIS, Jan. 19.—Since Mrs. Langtry and Freddie Gebhardt came here the papers have published many articles about them. Much of this writing has been indecently suggestive. Wednesday's *Globe Democrat* contained what purported to be a diagram of the respective apartments of the actress and her cavalier. On Wednesday evening, meeting Major Cunningham, a reporter for that paper, in a hotel, Gebhardt charged him with being responsible for all the vileness published regarding himself and Mrs. Langtry. Cunningham declined to accept the responsibility. Gebhardt insulted Cunningham grossly and challenged him to a fist encounter. Cunningham refused to fight with fists, but said he would give Gibbardt a chance to fight with a gentleman's weapons. Cunningham was finally led away by his friends. Yesterday Cunningham sent the dramatic critic of the paper to Gebhardt with a challenge, which was delivered in the presence of Mrs. Langtry. The latter was very much agitated and entreated Gebhardt to ignore the challenge. After a long struggle Gebhardt consented to do so, and admitted he had perhaps spoken to hastily. Cunningham considers Gebhardt's concession insufficient, and will post him as a coward unless ample apology is made. The friends of both parties are seeking to effect a reconciliation. It is thought that they will be successful. Another account says the trouble originated in comments on Mrs. Langtry, made by parties in the audience and printed in the *Globe-Democrat*.

ALLEGED MISMANAGEMENT.

NEW YORK, Jan. 19.—*Tribune's* Philadelphia dispatch says that reform in Philadelphia reached a culmination yesterday in the defeat of "Boss" McManus for re-election to the Gas Trust. He was beaten in a select Council by one vote. There are now pending against him and several Gas Trust colleagues suits to answer for mismanagement.

THE TARIFF BILLS.

NEW YORK, Jan. 19.—The *Tribune's* Washington despatch says that the Republican Representatives strongly favor dropping the tariff bill reported by the Ways and Means Committee, should an opportunity offer, and accepting as a whole the one prepared by the Tariff Commission. The objections of many representatives to the House bill seem to arise from despair of ever being able to understand the effect of its provisions.

A BLOCK BURNED.

MOORHEAD, Minn., Jan. 18.—The Key City Block, which cost $50,000, was burned early this morning. Forty persons lived in the block. All got out safely, though many had a narrow escape. Five merchants lost their entire stock.

PORT HOPE.

FRACTURED ANKLE.—The *Times* says that Mr. James O'Neill, while crossing over to Mill street, near Salter's mills, on Tuesday evening, slipped and fell, breaking his left ankle. The physician in attendance says the break is a bad one, and recovery is expected to be very slow. Mr. O'Neill is suffering extreme pain.

DESTITUTION.—A case of pitiable destitution has been discovered on Protestant Hill. An old woman was found the other day in bed in her home, half-starved and half-frozen. Her son, who spends his money in drink, had not been home for some times, and from Friday to Monday the poor woman had no fire, being compelled to go to bed in order to keep herself warm. The fact that no smoke was seen coming from the chimney of the house during that time induced one of her neighbors to make enquiries.

RUNAWAYS.—Runaways have been rather frequent of late. Mr. McCabe's team, coming up John street, were frightened, and ran away, throwing out the occupants of the waggon attached. On Walton street they turned just in time to save Mr. Hoffman's windows, and charged down the sidewalk, damaging nothing, except a box of fish. At Clemes & Sons' store they suddenly wheeled for home. On Sunday, a horse belonging to Mr. Geo. Strong created a little sensation by going at a "taring" rate down walton street. It was stopped at the Turner House without any injury resulting.

Bucklen's Arnica Salve.

The best salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Taylor & Macdonald.

PRINCE NAPOLEON, PLON-PLON.

Napoleon the emperor made his younger brother Jerome, king of Westphalia. By his second wife, Catharine of Wurtemberg, King Jerome left two sons, the second of whom was Napoleon Joseph Charles Paul, popularly known as Prince Napoleon, born at Trieste in 1822. He was educated partly at Rome, partly at Arenenberg, under his cousin, who subsequently became Napoleon III. His resemblance to the first Napoleon was striking. His uncle of Wurtemberg provided his military education. In 1845 he was allowed to remain in paris for only four months. In 1848 he supported revolution and in 1849 he accepted from Louis Napoleon the post of minister at Madrid. He kept quiet during the coup d'etat of Dec. 2, 1851, and on the establishment of the second empire in 1852 he took his seat in the senate and council of state as an imperial prince. He was a general of division in the Crimean war but was soon recalled. He was a successful diplomat in several things entrusted to him by Napoleon III. In 1859 he married the Princess Clotilde, daughter of King Victor Emmanuel. He visited America in 1861. In 1863 he spoke in the French senate against the temporal power of the papacy. At the inauguration of the statue of Napoleon I in Ajaccio in 1865, he made a sensational oration full of democratic sentiments, which proved still less palatable than his previous speech to the emperor, who was then in Algeria, and from thence addressed an official reprimand to the prince. The latter immediately threw up all his public functions, including his membership of the council of regency, his opposition to the temporal power of the pope having converted the empress Eugenie, who had never been his friend, into his inveterate enemy. But he speedily regained the confidence of the emperor. Though he constantly coquetted with the ultra radicals, they never ceased to regard him in reality as an imperialist. Prince Napoleon has long been nicknamed Plon-Plon, his ambition as well as his attempt to reconcile imperialistic with extreme liberal institutions subjecting him to criticism, to which the grotesque contrast between his impetuous demonstrations and placid appearance added a tinge of ridiculous. In October, 1872, he was ordered to leave Paris, and on his returing he was forcibly expelled. He instituted an action for 200,000 francs damages against the officers who arrested him. He retired to his mansion near Geneva with his wife and two sons, the eldest, Victor, born in 1862, was declared by will the heir of the late Prince Imperial. Since young Napoleon's death Prince Napoleon has been going about quietly, but no doubt convinced that he is carrying the Napoleonic dynasty on his shoulders. The manifesto just issued by him in Paris is characteristic of the man's vanity and his tendency to do something wild or grotesque every now and then. Young Victor, his son, is twenty years of age, and serving with the army of France as a volunteer.—*World.*

A Princely Fortune.

The Montreal *Witness* says that Mr. W. C. Anderson, of Lachine, who, it will be remembered, recently fell heir to the respectable fortune of £150,000 sterling, has received advices stating that the amount bequeathed to himself is only a small portion of the whole bequest. The principal heir is one Michael Nott Anderson, whose whereabouts are not exactly known, but who is supposed to be living at present in Brockville or vicinity. He is a cousin of William C., and has fallen heir to a princely fortune amounting to £1,800,000, or about $9,000,000 Canadian currency.

The Proper Caper.

The society editor of a neighboring exchange says:—"The proper caper for the bower now, when he meets a lady, is to lift his hat from his head, turn it forward until the plane of the rim is vertical, and while in this position bring it down so that the front just escapes the wearer's nose; then to look into it while he counts three quickly, elevate it in the same position, place it on the head, smile serenely, and when one rod beyond the point of passing, to look back and observe the effect of the operation. The elbow should be kept close to the side during the above salutation. Half an hour's practice will make an apt learner quite proficient in the new mode.'

St. Louis Cooperage.

It is figured that during 1882, St. Louis Mo., and East St. Louis, Ill., reckoned together, consumed about 400,000 tight barrels, manufacturing 250,000 of the amount, the whole representing about 3,500,000 pieces of staves and heading, the year's business showing a slight increase of the previous year. In stock packages, 15,000 flour barrels and 8,000 fruit, potato and bottled beer barrels are daily made and consumed, the average price of these packages being 29 cents. The flour barrel demand is reported to have fallen off, on account of heavy exportation in sacks, while the other packages named were more largely consumed, owing to heavy crops. The general business is in a fairly healthy state. —*Northwestern Lumberman.*

Do Not be Deceived.

In these times of quack medicine advertisements everywhere, it is truly gratifying to find one remedy that is worthy of praise and which really does as recommended. Electric Bitters we will also recommend. They invariably cure Stomach and Liver Complaints, Diseases of the Kidneys and Urinary difficulties. We know whereof we speak, and can readily say, give them a trial. Sold at fifty cents a bottle, by Taylor & Macdonald.—3

South End Bookstore.

And now that he has done with Christmas cheer,
The honest schoolboy doth begin to appear.
With purse in hand he comes into our store,
Saying, "This is where I should have come before !
"I want some books—they must be good and cheap,
You buy for cash, and I the benefit reap.
A Spelling Book, a Reader and a Copy—
The price of each I know will suit my 'Pappy'—
An Arithmetic, a Grammar and a History,
But how I am to carry them's a mystery.
You say I need a Bag to accommodate
My school-books, pens and pencils and my slate?
Yes ! that's the thing, my fears are at an end,
No harm to books from snow or rain or wind.
I'm feeling, now, quite happy and contented,
Well satisfied with what I have expended ;
And rest assured, if I want any more,
I'll come right back to the South End Bookstore."

FRIDAY, JANUARY 19, 1883.

THE YOUNGS POINT DAM.

"No other Province has such an able, honor able minister as Mr. Fraser. I went to Toronto specially some time ago to interview him in reference to Youngs' dam. He said he had advertised for tenders but they were too high. I went up again at my own expense (wonderful) and am certain he will build it—be sure of that." Mr. Blezard at the convention.

He *will* build it—will he? Let us see. On December 31, 1881. Mr. Fraser's engineer in his annual report for the year stated that owing to the "worn out" state of the Youngs Dam it had been deemed inexpedient (no doubt with Mr. Fraser's previous approval) not to expend the $1,800 appropriated at the previous session for its repair, as a new dam was required, "as were it to give way there is no telling the amount of damage, and in all probability loss of life, which would follow." And in accordance with this recommendation the Legislature was asked to and did appropriate the sum of $9,000 for the reconstruction of this dam. Well, as has already been explained in these columns, tenders were asked last spring, just before the Dominion elections, for the timber required for its construction, but as soon as these were over the thing was practically dropped. Dropped nominally because the price asked for the timber was, we are informed, between one and two hundred dollars above the estimate for the same, but in reality because this unrivaled commissioner of public works thought it better to keep the Youngs' Dam expenditure dangling before the eyes of the electors at this election, in the same way and for the same purpose as Mr. Mowat, with Mr. Blezard's apparent approval, is keeping the registrarship dangling before the eyes of certain influential gentlemen in this county until the elections are over. Moreover, it is to be noted that while this pure government could (would) not go on with so necessary a work because the timber would cost a few dollars more than the estimate, yet they had no hesitation in expending a larger sum than the whole cost of this dam in repairing a building in Toronto without even saying to Parliament by your leave. But then the latter expenditure was calculated to advance the interests of Mr. J. D. Edgar, *Globe* director and Reform candidate for centre Toronto in the June elections, while the delay at Youngs is calculated to advance the interests of Mr. Blezard in East Peterborough and the unknown Grit candidate in West Peterborough in the coming elections—the governing motive in the two apparently contradictory courses is therefore, after all, the same.

But Mr. Blezard says we may "be sure" that "it will be built." We are inclined to agree with him, but for very different reasons. The present indications are that we shall have an unusually high water in the spring, and consequently, accepting the able Commissioner's able engineer's report as correct, this dam is likely to be carried away and much of the damage, although we hope not the loss of life predicted entailed, as well as the navigation of these waters interrupted for the greater part of the season, and the supply of water to the mills on the Indian river seriously diminished—all owing to the electioneering tactics of Mr. Blezard's "able Commissioner of Public Works." Of course if this dam is carried away some one will have to see that it is rebuilt at once. The owners and occupants of the mills at Youngs Point, at Warsaw, at Allandale and at Keene are all too deeply interested in its reconstruction to permit it to remain down a day longer than can be avoided, even should they have to rebuild it themselves. And that the loss that now seems eminent should have ever been risked is the severest possible condemnation of both Mr. Blezard and his "able" Commissioner of Public Works, and we scarcely think the fact that Mr. Blezard did on one occasion pay his own expenses to Toronto to see about this dam, to so little purpose, will cause their joint criminal neglect to be excused by the electors of East Peterborough, who are so deeply interested in the efficient and permanent maintenance of this dam.

But if the government of the day are as sincere in their intention of building this dam during the coming season as Nr. Blezard would have us to believe, why is it that the appropriation therefor is actually *less* to-day than it was a year ago. The amount placed in the estimates for 1882 for this dam was $9,000 ; in those of 1883 it is down to $8,926—a reduction of $74. It would be interesting to know where that $74 has gone to? It surely did not cost that much to pay for the advertising for the rejected tenders for the timber? Possibly, as Mr. Blezard is so particular about informing his constituents that he went twice to Toronto to see about this dam, and that on one of these occasions he went "at his own expense," the expense of Mr. Blezard's first trip forms a part of this $74. If so, we are inclined to believe that not a few of his constituents will think that out of his sessional allowance of $600 he might on so important a matter have spent more than one ten dollars on a trip to Toronto anent the same—especially when so far as results are concerned he might as well have staid at home.

FEMALE SWINDLERS.

How the Car Ticket Game is Played in Chicago—Pretty Females and Their Earnings.

The car-ticket racket has at last struck Chicago. This is the little female game which certain women in Philadelphia, New York, Boston, and other Eastern cities have worked so successfully. The car-ticket operative to be entirely successful must be neither too old nor too young, and she must be good-looking enough to make men listen to her interestedly. She must dress plainly, but the neater the better, and she must have a good address, combined with an air of great simplicity. The car-ticket racket is one of the simplest, yet most effective ways of carrying on petty alms-seeking that the female mind has yet discovered. The operator approaches her victim with an air of great perplexity, and asks the way to a street which she knows is a mile or two off. She is, of course, directed. Then comes manifestation of surprise and a still more perplexed look, followed by an explanation of how she got there, how she missed her way, etc., the whole summed up by a modest statement that her last car ticket was used on the car which brought her there. Here if the operator is an artiste, the voice will be made to tremble a little, as though tears were being crushed back only by a mighty effort. What man—and more especially, what woman—could resist so quiet and tearful a betrayal of distress ? Nine men out of the ten ram their hands in their pockets, grab the first coin they strike, and with a "Why, certainly, let me relieve your embarrassment," press it into a half-resisting hand—a hand, by the way, which should always be small and neatly gloved. In the case of ladies, they are rarely caught for more than the hint calls for—a car ticket, but that comes unfailingly.

One would suppose that so small a sum as the value of a car ticket, and the necessary of frequently changing base of operations, would make the game not a desirable one. But it is astonishing how the little sums thus gathered count up. There used to be a woman in San Francisco who worked two of the cable roads for more than a month before patrons of the roads dropped on the game. When she was exposed by the press her receipts were not less than $3 a day, and sometimes more. Her game was slightly different from her Eastern sisters. She dressed herself in deep, though faded black, and taking the two roads which led to the cemetery, made her appeals on the strength of wanting to visit the grave of her dead child from which poverty had kept her for weeks.

The first woman whom the writer of this has heard of operating in Chicago was one yesterday on the North Side. She was a woman of thirty-five, perhaps, with a pleasant face, and humbly but rather neatly dressed. She was on State, away up by Superior street, and said she wanted to go to Ashland avenue. Of course she was away off her bearings, but the gentleman who observed her movements, of course first being victimized, said she did not seem to want to take the State car back on Lake, though he had given her 10 cents to pay her way on both lines. He finally insisted, and the poor woman was forced to part with half her winnings from him. He did not think she rode three blocks on her way back.

The car-ticket racket is an ingenious little game, and, as said before, it is profitable. There isn't a man with a spark of manhood in him who would run the risk of insulting some unfortunate lady by refusing to grant so slight and natural a request, for fear she who asked the favour might be an impostor. Nine ladies out of ten, if they have a car ticket with them, will give it to a person who asks for it. If the applicant be even half way attractive, most men will even offer to put her in a cab—which of course not being the thing they want, is invariably refused, thus increasing the impression of modesty and worthiness. The game pays from $2 to $5 a day, according to the opportunities, attractiveness, and skill of the operator. —*Mail.*

SEVENTEEN YEARS IN A MAN'S STOMACH.

Mr. John Bradley, who resides at Heeley Falls, in Seymour, called at our office on Monday last, and acquainted us with the remarkable statement that he had been relieved of a lizard which has made its abode in his stomach for seventeen years. The little creature found its way into the prison, where it was confined for that length of time, while Mr. Bradley drank from a brook. Some time afterwards he became ill, and applied to a physician for treatment, but had no relief. As time passed on, he became worse, and sought help from the physicians again and again. The substance in his stomach became larger, and the pain continued to increase. Mr. Bradley bore up under his illness for seventeen years, until finally he was compelled to cease working almost altogether. At some meals he ate ravenously, but very often food was loathsome to him. Last year he became bloated, and felt confident something was living within him. While crossing a field he pressed his stomach upon a rail of a fence, and he says he felt the lizard move out from under the pressure to another part of the stomach. Latterly he lost all desire for food, and his only nourishment was milk, which he drank as often as twenty times during the night, to appease the pain. In July last, Mr. Bradley consulted Dr. Byam, of Campbellford, who told him it might be possible that a lizard was in his stomach. The doctor commenced to treat him for this trouble, and was successful in killing it. Mr. Bradley says he could clearly feel every movement of the lizard until it died. It afterwards passed from him in pieces, one of which had a sharp-pointed claw. Mr. Bradley during his twenty years of illness has consulted twenty physicians, and only found relief as he was about to give up all hopes of ever being relieved. He gained strength soon afterwards, and is now in perfect health, rejoiced beyond measure at his recovery after so many years of suffering. —*Campbellford Herald.*

MACFARLANE WILSON.

ROADSIDE TREES.

We take the following from the report of the Fruit Growers' Association of Ontario:—

The next topic was "What are the best trees for country roadside planting?"

Mr. BEADLE.—I would suggest that one of the prettiest trees for roadside planting is the rock elm. Of course the roads must not be too narrow where those trees are planted, or the trees be planted too thickly, because they will shade quite a space. I would also mention besides that our own white ash. If the trees should happen to be planted too thickly, so that it will be necessary to take some of them out, the wood will be worth all that the trees have cost.

Mr. BUCKE.—I would suggest the black walnut, providing it is planted in great number, so that the boys should not break them all down to get the nuts; also the maple. In fact, excepting the soft wood trees, I do not know of any tree that would not be suitable for a roadside tree.

Mr. HONSBERGER.—I like for a country roadside tree the Norway spruce, and then between them, at a nice distance for a walk, plant the soft maple.

Mr. BUCKE.—I think the Norway spruce would be apt to make drifts in the winter time, if there should be much snow.

Mr. HONSBERGER.—A person would naturally think so, but I can say that I am very fortunately disappointed in that myself. I have planted them by the roadside, both running north and south, and running east and west, and they are not liable to cause the snow to drift.

Mr. DRURY.—We plant maples in our part, on account of their assuming such a beautiful shape in a few years. We also plant the spruce and the white pine.

Mr. BUCKE.—The great trouble in planting roadside trees is the cattle. Until we can get some law passed to prevent cattle running at large, it is difficult to prevent the cattle rubbing them down. I look upon the subject of tree planting as depending entirely on the cattle question.

Mr. DEMPSEY.—I fully endorse what the secretary says respecting the elm. In some of the Eastern States they use the elm, and they are certainly all that we need desire for a roadside tree. I have seen the white bark birch planted on the roadsides. It certainly is a very pretty tree—attains a very graceful and beautiful form, and I think it is much prettier than the maple, particularly the hard maple. The soft maple makes a rapid growth, and it is a very pretty tree for the roadside. Where the black walnut grows alone it appears to attain too much of a spreading habit. I presume it could be trimmed up. Speaking of the elm again, I believe that on the front of Sydney, in the county of Hastings, they have one shade tree in a distance of about twelve miles. They deserve thanks for leaving that. That elm spreads farther than the width of the room, and I have driven under it frequently when I have been out on that road in the summer—it is a very hot road—and I have enjoyed a rest there very much. And I presume my horse has enjoyed it more than I have. Any one who has ever stopped to rest in the shade of a tree like that can certainly appreciate the value of the elm.

Mr. DRURY.—There is no doubt that in the absence of a stock law in this country the planting of trees on the roadside will be very rare indeed. As a matter of fact, if one municipality takes a stand against cattle running at large, the adjoining municipality may not take the same view of it. And in that way the measure of the first municipality may be rendered abortive. In our part of the country we have a few very nice drives, that have been made by a little care in the clearing up, by parties taking the trouble to throw the brush back and leave the trees in a line. Speaking of the country as a whole, it is almost impossible to say what tree is the best for roadside planting. I think we must first have a stock law, and than I believe there will be a desire on the part of municipalities, as well as on the part of individuals, to beautify our roads by planting trees.

MR. PAGE.—I prefer for the roadside either elm or maple; but, as has been said by former speakers, it is useless to talk about planting shade trees on the roadside while the cattle are running at large.

MR. GOTT.—There are three or four kinds of maple that are very valuable. The only objection to planting it is that the roots spread so far in the soil. But it is a very beautiful tree. Our basswood tree for roadside planting is not only ornamented but useful. The chestnut tree would also make a very beautiful shade tree. It is both useful and ornamental likewise. So also is the hickory. The Lombardy poplar and the ironwood tree are beautiful trees for our roadsides.

Russia's Rule in Siberia.

On December 18th the jubilee of 300 years of Russian rule over Siberia was celebrated. The exact date of the annexation of the vast region subjugated by the Yermak and his Cossacks—a territory three times larger than European Russia—is altogether unknown to Russian history, and little trouble seems to have been taken to discover it. All that is known as a fact is that sometime between the 26th of October and the 27th December, 1582, the Muscovite Czar Ivan the Terrible received a messenger from Yermak and accepted dominion over the country, which had voluntarily been subdued by the Cossacks, under their celebrated chief. In this difficulty it was thought fit to appoint the 18th of December, it also being the name day of the young heir-apparent, Nichols Alexandrowitch, as a day of thanksgiving and festivity throughout Siberia.

THE cause of death. It is known almost to a certainty that in fatal diseases the individual dies either by the brain, heart or lungs. How wise then is the effort to maintain a perfect state of health? Dr. Carson's Stomach and Constipation Bitters are a veritable "Health Giver." They free the system from all impurities; cure Biliousness, Dyspepsia, and all diseases of the Stomach, Liver or Bowels. In large bottles at 50 cents. Sold by all Druggists.

ROBERT MORRIS, the negro lawyer who lately died in Boston, left property worth $100,000. There was something singular about his profitable clientage. He went to the bar when prejudice against his color was very strong, and yet his clients were for a long time almost entirely among the Irish people, who had great faith in his legal powers. On the other hand, the negroes of the city were rather shy of him, and he never gained much practice from them.

It always gives us pleasure to draw attention to articles which are deserving of public patronage. Probably no article ever offered to the public has met with the same success as Gray's Syrup of Red Spruce Gum. Thousands of families in the Dominion keep it in their homes as the standard Cough Remedy. The sale of this article has assumed enormous proportions. Our advice to the public at large is to try its virtues if they should at any time unfortunately contract either Coughs or Colds. It is sold by all chemists.

Japan Advancing.

Some indication of the rapid advance which is being made by the Japanese people in the path of progress and civilization is afforded by the tenth report of the Postmaster-General of Japan, for the fiscal year ending June 30th, 1881. The number of books, newspapers and letters transmitted during the twelve months, was upward of 83,000,000, showing an increase of nearly 20 per cent. as compared with the previous fiscal year, and 49.3 per cent. as against 1879. The aggregate length of all the mail routes in operation was 48,475 English miles. The total number of post-offices is now 4,818, and the net profit derived from the department amounted for the period mentioned to 76,627 yen ($80,000.)

The Isthmus of Darien.

The *Amircan Lumberman* of New Orleans:—A Merchant of this city informs us that a great quantity of Northern lumber and ready made cottages cumber the wharfs of Aspinwall, that thriving city of the Isthmus of Darien. On another page we publish a long account of the mercantile situation on the Isthmus, in which it will be seen that our correspondent predicts a great Isthmian lumber movement during the next year. From the information already received, it would appear that this movement has already begun, and that the lumber dealers of the coast are hastening to take advantage of the great demand for timber of all kinds at Aspinwall.

STOCKS

THE

PACIFIC NORTHWEST!

Oregon, Washington, and Idaho.

Offers the best field for emigrants—viz.: a mild, equable, and healthy climate; cheap lands of great fertility, producing all varieties of Grain, Fruit, and Grasses in wonderful abundance; an inexhaustible supply of Timber; vast Coal Fields, and other mineral deposits; cheap and quick transportation by railroads and river navigation; direct commerce with all parts of the world, owing to its proximity to the Pacific Ocean.

NO DROUTHS, NO INSECT PESTS, NO HURRICANES, WHIRLWINDS, OR OTHER DESTRUCTIVE PHENOMENA.

The lands of the Pacific Northwest show an average yield of wheat per acre largely in excess of that of any other section of the United States.

No failure of crops has ever occurred.

Oregon wheat commands a higher price than that of any other country in the Liverpool market.

An immense area of very fertile Railroad and Government Lands, within easy reach of the trunk lines of the Northern Pacific R.R., the Oregon Railway & Navigation, and the Oregon & California RR. Co's and their numerous branches in the great Valleys of the Columbia and its tributaries, are now offered for sale at Low Prices, and on Easy Terms, or open to pre-emption and Homestead Entry.

The great movement of population to the Columbia region now in progress will be enormously increased by the completion of the Northern Pacific RR. and the Oregon Railway and Navigation Co's systems. This renders certain a rapid increase in the value of Lands now open to purchase or to entry under the United States Land Laws.

I CURE FITS!

When I say cure I do not mean merely to stop them for a time and then have them return again, I mean a radical cure. I have made the disease of FITS, EPILEPSY or FALLING SICKNESS a life-long study. I warrant my remedy to cure the worst cases. Because others have failed is no reason for not now receiving a cure. Send at once for a treatise and a Free Bottle of my infallible remedy. Give Express and Post Office. It costs you nothing for a trial, and I will cure you.
Address Dr. H. G. ROOT, 183 Pearl St., New York.

MASON & HAMLIN ORGANS are certainly best, having been so decreed at every Great World's Industrial Competition for Sixteen Years; *no other American organs having been found equal at any.* Also cheapest. Style 109; 3½ octaves; sufficient compass and power, with best quality, for popular sacred and secular music in schools or families, at only $22. One hundred other styles at $30, $57, $66, $72, $78, $93, $108, $114, to $500 and up. *The larger styles are wholly unrivaled by any other organs.* Also for easy payments. New Illustrated Catalogue free.

REVIEW STATIONERY STORE

The Great American Remedy for COUGHS, COLDS, ASTHMA, BRONCHITIS, LOSS OF VOICE, HOARSENESS AND THROAT AFFECTIONS.

Prepared from the finest Red Spruce Gum. (Delicious Flavor.) Balsamic, Soothing, Expectorant and Tonic. Superior to any medicine offered for all the above complaints. A scientific combination of the Gum which exudes from the Red Spruce tree—without doubt the most valuable native Gum for Medicinal purposes.

Every one has heard of the wonderful effects of the Spruces and the Pines in cases of Lung Disease.

In France the physicians regularly send their consumptive patients to the pine woods and order them to drink a tea made from the Spruce tops.

GRAY'S SYRUP OF RED SPRUCE GUM.

In this preparation the Gum never separates, and all its anti-spasmodic, expectorant, tonic, and balsamic properties are preserved.

This Syrup, carefully prepared at a low temperature, contains a large quantity of the finest picked Gum in complete solution.

Its remarkable power in relieving certain forms of Bronchitis, and its almost specific effect in curing obstinate hacking Coughs, is now well known to the public at large.

Sold by all respectable chemists. Price, 25 and 50 cents a bottle.

The words "Syrup of Red Spruce Gum" constitute our Registered Trade Mark, and our wrapper and labels are also registered.

FRIDAY, JANUARY 19, 1883.

Music at the Rink.

The Fire Brigade Band will be in attendance at the Rink to-night, and every Friday night during the season. Admission 15c. Ticket holders free.

The Cells.

Two tramps and one prisoner—a drunk—shared the cells last night. When the Chief of Police asked the prisoner his name, he replied "I am the d——l." As he remained in the cells all night, the town was surely safe during that time.

Church Opening.

The new Presbyterian Church in Campbellford will be opened for worship on Sunday, the 28th of January. The Rev. E. F. Torrance, of St. Paul's Church, will preach in the afternoon and Mr. D. Galletly, of Peterborough will lead the singing.

The Weather Probabilities.

The weather probabilities for this district for the following 24 hours, as reported from Toronto at 1 a. m. to-day, by the Great North-western Telegraph Company, are as follows:—Lakes, westerly to northerly winds; fair to cloudy weather with light snow in some localities; not much change in temperature to-day. Probably colder to-morrow.

A Good Opportunity.

It would be worth while for any one to visit the closing up sale of W. Fairweather & Co., as they are selling furs, mantles, jackets, caps, and all kinds of fur and winter goods at really half their former price. Although the season is advanced, the price at which the goods are being offered would make it profitable to purchase them, even if they were not made use of this winter. The stock is to be sold without reserve.

Railway Notes.

A deputation waited upon the Attorney-General and the Commissioner of Crown Lands on Wednesday, for the purpose of enlisting their co-operation in obtaining a charter for the prolongation of the Ontario and Pacific Railway line from French River to Sault Ste. Marie, and also a grant for the whole of the line from the Legislature. Mr. Mowat promised to consider the scheme, but said he did not think the Government would be able to enter upon any new projects for railways during the present session.

The following officers were elected:—

President—Alex. Watts.

First Vice-President—Wm. McIntosh.

Second Vice-President—Wm. Burgess.

Secretary-Treasurer—W. E. Roxburgh.

Directors—Hugh Nelson, F. Birdsall, Chas. O'Rielly, John Brackenridge, James Moore, Wm. Drummond, J. P. Brown, A. R. Kidd, and John Gillespie.

Auditors—J. A. Butterfield and W. H. Stephenson.

Messrs. Daniel Kelly and James Moore were elected delegates to the annual meeting of the Provincial Association, and Messrs. W. E. Roxburgh and Wm. Burgess delegates to the meeting of the Central Committee at Millbrook.

Mr. John Carnegie received the unanimous vote for representative to the Board of the Agricultural and Arts Association.

It was decided to hold the next exhibition at Warsaw.

The Temperature.

The thermometer at Messrs. Taylor & Macdonald's registered as follows, to-day:—At 8 a. m., 12° above zero; at noon, 21° above zero, and at 3 p.m., 20° above.

Midland Railway Traffic Returns.

The traffic of the above railway for the week ending Jan. 13th, 1883, was as follows:—Passengers and mails, $5,135.89; freight, $8,508.28; total, $13,634.17, as compared with $12,091.65 for the corresponding week of 1882, being an increase of $1,542.52; and the aggregate traffic to date is $25,505.18, being an increase of $3,,870.18 over 1882.

A Summer Necessity.

Mr. Geo. C. Rogers has returned from Toronto, where he went to take notes of how the ice business was conducted. He spent considerable time there, and has obtained a plan for a new ice house. The building will be erected near the mill pond, when pure ice will be procured free from any taint from the sewerage of the town, and he will be prepared to furnish a wholesome quality of this summer necessity.

Eastern Dairymen's Association.

The Eastern Dairymen's Association will hold their Annual Meeting and Convention at Brockville, on January 31st and February 1st, 1883. Speakers from the United States and several in Ontario and Quebec will be present to enlighten the Farmers and Dairymen on the principal topics pertaining to the Dairy Interests. The Railroad Companies will carry Members and those attending at reduced rates, by first obtaining certificates from the Secretary, Harford Ashley, Belleville, Ontario.

The Agricultural and Arts Association.

Mr. John Carnegie has received notice from five of the eight Electoral District Agricultural Societies, entitled to elect the representative from this district on the Board of the Agricultural and Arts Association, that they have given him their unanimous vote. As a consequence Mr. Carnegie has been re-elected for a second term. The five societies heard from are, East and West Northumberland, East and West Peterborough and North Victoria. The remaining three are East and West Durham and South Victoria.

County Meeting.

The annual meeting of the Peterborough County Lodge, I. O. G. T., was held in Peterborough Lodge Hall on Thursday afternoon. The following officers were elected:—

POLICE COURT.

DRUNK AND DISORDERLY.

Friday, Jan. 19.—William Welsh pleaded guilty to the charge of having been drunk and disorderly. He said that he had to leave work on account of a sore hand, but it was now getting well, and if allowed to go he would go to work at once. He was allowed to depart.

WAGES CLAIMS.

A man named Alexander sued McDermid & Hendrie for $7.40, alleged to be due him as wages. Alexander had received his time ticket and said he lost it; the company were afraid he had sold it, and that, if they paid Alexander, they might be called on to pay the amount again. Alexander in his evidence said that he had lost it. Judgment for the plaintiff.

Timothy Gainey brought a case against H. J. Beemer to recover a claim for wages. He said that he had been hired at $1.25 per day; that he had been discharged, and that he was offered his time at $1.00 a day, which he refused to accept. Mr. Raphael stated that orders had been issued to the foreman to hire men at $1.25 per day, with the understanding that if they were discharged they would be paid at once at the rate of $1.00 a day, and that if the foreman had not made this arrangement with the plaintiff he had exceeded his authority. The plaintiff, he said, had not been to the office for his pay.

Judgment was given for the plaintiff, and notice of appeal was given.

Ed. Kilman sued H. J. Beemer for wages alleged to be due amounting to $10.25. The case was enlarged until Monday to give the defendants an opportunity to bring witnesses.

County Council.

The County Council will meet on Tuesday next in the Court House, for organization and general business.

An Appeal Case.

The case of the Queen vs. McIlmoyle came up before the County Judge to-day, being an appeal from four convictions made by Messrs. Jas. Golborne and D. Anderson, J. P.'s at Apsley, whereby the defendant was convicted of selling liquor without a license. Appeal quashed. Mr. Weller for the Crown; Mr. J. O'Meara contra.

It made me feel like a "Band of Music," was the rather forcible expression of an individual who was praising "Pectoria," the great remedy for Coughs and Colds, Hoarseness, Asthma, Bronchitis. It is safe, pleasant and effectual. If you suffer, try it. For sale by all druggists and general dealers at 25 cents a bottle.

Smith Medicine Co—Gentlemen.—I have made a trial of one box of Dr. Smith's Great German Worm Remedy, with such good effect that I have no hesitation in recommending it to the public as a prompt and reliable medicine. In fact, those who use it once will always do it. Yours truly J. Harvie, 172 Cadieux street, Montreal.

Shiloh's Consumption Cure.

This is beyond question the most successful Cough Medicine we have ever sold, a few doses invariably cure the worst cases of Cough, Croup, and Bronchitis, while it's wonderful success in the cure of Consumption is without a parallel in the history of medicine. Since it's first discovery it has been sold on a guarantee, a test which no other medicine can stand. If you have a Cough we earnestly ask you to try it. Price 10 cts., 50 cts. and $1.00. For sale by J. D. Tully,

Answer This Question.

Why do so many people we see around us seem to prefer to suffer and be made miserable by Indigestion, Consumption, Dizziness, Loss of Appetite, Coming up of the Food, Yellow Skin, when for 75 cts., we will sell them Shiloh's Vitalizer, guaranteed to cure them. For sale by D. J. Tully

A SURE THING!

Clothing again! Well, it's about the most interesting topic we can talk of just now. It's the season when clothing is most needed, and the season we must sell it, so you see it interests us both. Our stock of Clothing for this time of year is large, our assortment unusually complete, facts of great advantage to buyers, and of some advantage to us, as it enables us the better to suit you. We want to hurry the out-word movement of our stock and consequently will give a decent discount to prompt cash buyers. This reduction is made solely with a view to working off in proper season our immense Stock, and not because the goods are in any respect undesirable. Our clothing is built of strong serviceable fabrics, well and carefully made, and with trimming warranted to wear. Every style of goods from plain and sturdy to the most elegant. Nothing slighted,—except our profits.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcula which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar to itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widely increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.) THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Berks, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For residents upon the coasts or hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties heightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine. Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

MURDEROUS ASSAULT.

Another Attempt to Murder a Farmer and His Family.

Another attempted massacre of a family was made near Montreal on Friday. The following particulars are extracted from the *Mail's* Montreal correspondence of the 19th January:—

The citizens were startled here on learning that another fearful attempt was made to-day to murder a country farmer and his family by a hired man who had lately been discharged. The scene of the latest struggle for dear life was at Longue Point, about ten miles distant from the city down the St. Lawrence. The particulars are briefly as follows:—A man named Wm. Nesbitt has been renting 200 acres near Longue Point, and had an Irishman, who gave the name of Timothy Milloy, but who is known to have had other *aliases* in former situations, employed as a labourer. The latter was paid off yesterday, his time having expired, and, as Nesbitt thought, had gone away. Rising at seven o'clock this morning, Nesbitt went to the barn, and found his man had been sleeping there all night. On asking him what he wanted, Milloy said he wished to be re-engaged, but Nesbitt said he did not want him any longer and told him to go away. Nesbitt stooped down to examine some milk cans, when the scoundrel pulled out a pistol and fired, the ball striking his late employer in the neck. The victim fell, but raising himself quickly, not knowing he was wounded, he made a grasp for the would-be assassin, who then struck him with an iron shovel. An unequal fight for life ensued, but as the injured man found himself getting weaker he tore himself away and made for the dwelling-house. His strength failing him in the snow, he sank down in the yard, unable to get further. The villain came out, and meeting a youth who was also coming to the barn, struck him with the instrument in his hand and stretched the boy at full length on the ground. He then made for Nesbitt's house and forced the outer door, but seeing what had occurred outside Mrs. Nesbitt had armed herself with an iron poker, and being a strong woman was determined to sell her life dearly. The coward, taking fright lest probably some one might come to interrupt him, beat a hasty retreat, and taking a saddled horse out of the stable made off at a fast pace. The heroic wife then emerged from the dwelling, and finding her husband apparently dying, with no succour at hand, she harnessed a horse, put him in a cutter, and set off to the nearest house. It was soon reached, and medical attendance from the village as well as Montreal summoned. There is no question whatever that money was the motive, as in the case of Mann at Little Rideau, for Milloy's attempt to destroy the Nesbitt family. The prisoner was brought to the city to-night and lodged in the common gaol, as it would not be safe to let him remain in the near vicinity of his deed lest the populace might give him a short shrift. He is about 40 years of age, of middle height, and with an extremely repulsive countenance.

Do Not be Deceived.

In these times of quack medicine advertisements everywhere, it is truly gratifying to find one remedy that is worthy of praise and which really does as recommended. Electric Bitters we will also recommend. They invariably cure Stomach and Liver Complaints, Diseases of the Kidneys and Urinary difficulties. We know whereof we speak, and can readily say, give them a trial. Sold at fifty cents a bottle, by Taylor & Macdonald.—3

THIS DAY'S TELEGRAMS.

Press Despatches to the Review.

CABLE.

A DENIAL.

DUBLIN, Jan. 20.—The rumor that the Phœnix Park murderers have been arrested is denied.

ACTION OF THE CABINET.

PARIS, Jan. 20.—The Cabinet has adopted drafts of bills against the pretenders to the throne, and modifying the press laws.

IRON FOUNDRY BURNED.

GREENOCK, Scotland, Jan. 20.—Roucia and Blackmore's iron foundry was burned. The loss is great.

THE LEGITIMIST SCARE.

PARIS, Jan. 20.—The legitimist scare continues. The Orleans family hold a council today at the residence of the Duke D'Aumale. The member of the extreme Left in the Chamber of Deputies will insist upon the Orleans princes being deprived of military commands. The Royalist papers insist that the scare is a manœuvre to procure the prosecution of the Princes.

THE RAILWAY STRIKE.

LONDON, Jan. 20.—The railway strikers of Scotland are beginning to show dissension. A compromise is anticipated.

A FAILURE.

LONDON, Jan. 20.—Afred King, tailor, has failed. Liabilities. £64,000.

A TOUCHING SCENE.

LYONS, Jan. 20.—When the sentences were pronounced against the anarchists yesterday, the wives of the prisoners shrieked in despair, and tried to fling themselves into their husbands arms. They were kept back by the soldiers.

AMERICAN.

THE TARIFF.

NEW YORK, Jan. 20.—The *Tribune's* Washington despatch says that in the Republican caucus last night Haskell asserted that the rates proposed by the Ways and Means Committee are as a whole lower than those recommended by the tariff commission. Hiscock assured the caucus that the constitution of the tariff bill will not be interfered with by any action of his committee. He thought that after the bill was taken up no other business should be considered until it was disposed of. Hiscock made remarks roundly applauded in favor of the tariff bill and tariff reform.

FEATHERED FIGHTERS.

NEW YORK, Jan. 20.—A cocking main on Staten Island on Thursday night, between Troy and Long Island birds, was attended by a hundred of sporting men of Troy, Albany, Schenectady, Rochester, and other places in the western part of the States, and also by many well known citizens of this vicinity. Thirteen battles were fought, Long Island won ten. $20,000 changed hands on the result.

HOLDING ON TO OFFICE.

INTASVILLE, Pa., Jan. 20.—The stockholders of the Tidewater Pipe Line Company on Wednesday elected new managers. The old board refuses to give up the offices and books, claiming that the election was illegal. The offices were barricaded and guarded by fifty men. The courts will be appealed to.

A CHURCH AND LECTURER.

SYRACUSE, Jan. 20.—Dr. W. P. Emens, of Syracuse, has been lecturing on physiognomy in a church in Almond, Allegany county. The Rev. Mr. Tanner, pastor, was angry at the alleged profanation of the church, and directed the trustees to exclude Emen. Two trustees flung the skeletons and manikin into the street. On Wednesday evening a large crowd gathered at the church. When Emens arrived he found the door barricaded and several men inside armed with revolvers. Another place was obtained; next morning a placard on the church door announced that the pastor and trustees had died and were buried at the church on the previous evening.

POOR FREDDIE.

ST. LOUIS, Jan. 20.—Major Cunningham, who challenged Gebhardt, has posted the latter as a coward. More trouble is apprehended.

A DOMESTIC AFFAIR.

PALMETTA, Ga., Jan. 20.—H. G. Porte, who lived here twelve years, and was highly respected, with a woman and two boys, supposed to be his wife and children, has been arrested and taken to Fairburn, S.C., on a charge of kidnapping and obtaining money under false pretences. The woman's real husband and father of the children is named Smith. Porte says he and Smith loved the same woman, and the latter through misrepresentations won her. Porte married another woman, who after several years died. Smith treated his wife cruelly and Porte finally took her to Georgia at her own request. Smith had employed Porte to sell property and the latter gave the proceeds to Mrs. Smith. Smith has offered to compromise for $200

ACCUSED OF SWINDLING.

SYRACUSE, Jan. 20.—Poucher, a New York lawyer, is accused of swindling several New York and Syracuse merchants by means of forged drafts. Yesterday he was indicted for forgery and grand larceny.

A BAD BEGINNING.

BOWLING GREEN, V., Jan. 20.—Alonzo Lynch married Isola Abbey. They were both of good social position, and at the wedding there was a large attendance. As they were about to board the train on a wedding tour the couple were arrested, charged with stealing $1,000 from the uncle of the bride. $120 was found in the bride's hair and the balance was afterwards recovered.

TENNESSEE'S DEBT.

NASHVILLE, Jan. 20.—A bill passed the final reading in the Legislature, repealing the recent State debt at 60 cents on the dollar, and six per cent. interest, under which fourteen millions of bonds were refunded, and also the act levying the tax to pay interest on the State debt.

FLOATED.

FLUSHING, Jan. 20.—The steamer Weesland has been floated.

OCEAN STEAMER GROUNDED.

NEW YORK, Jan. 20.—The steamship Wisconsin, from Liverpool, grounded in the bay during a fog.

COLD AND STORMY.

CHICAGO, Jan. 20.—The weather throughout the Northwest continues cold and tempestuous.

A COLD WAVE.

KANSAS CITY, Jan. 20.—There is a cold wave in the southwest. The temperature in Kansas is from ten to twenty below zero. The trains on some roads are abandoned. There is a severe "norther" in Texas. The temperature has fallen thirty-six degrees at San Antonio in twenty-four hours.

FRENCH AFFAIRS.

LONDON, Jan. 19.—A Paris correspondent says that D'Ornano, a Bonapartist member of the Chamber of Deputies, gave notice to the prefect of police last night that he posted Prince Napoleon's manifesto outside the town houses, and challenged him to prove the illegality of the action. Persons passing by pulled the placard down. The police decline gratify D'Ornano's desire for martyrdom. The prohibition of the display of religious emblems in the bill which the chamber has resolved to submit is a sop to persons greedy for religious persecution. The correspondent, referring to the portion of the government bill against pretenders to the throne, says that those against whom it is directed will be always everywhere "suspects," and this wretched piece of tyranny will revive in the gay and generous nation the shameful passion of dilation which made degenerate Rome the execration of the world.

EARL SPENCER ON IRELAND.

DUBLIN, Jan. 19.—Earl Spencer, Lord-Lieutenant of Ireland, replying to an address from the inhabitants of Portarlington, congratulating him upon his wise and merciful administration of the law and the success of his efforts to preserve order and prosperity in Ireland, said after the events of recent years it is improbable that lawlessness can be at once eradicated: Its baneful influence will from time to time make itself felt, and it needs anxious watching. The Government will rely upon the support of all classes to maintain order.

PRINCE KRAPOTKINE SENTENCED.

LYONS, Jan. 19.—At the trial of the anarchists Emile Gautier, Bernard, Bordat, of the Lyons Socialistic journal *L'Etendard Revolutionaire*, and Prince Krapotkine were found guilty and sentenced each to five years' imprisonment, a fine of two thousand francs, ten years' police supervision, and five years' deprivation of civil rights.

THE PLOT IN FRANCE.

PARIS, Jan. 19.—The *Temps* says the details published regarding the reported Legitimist plot may be exaggerated, but the general facts are correct. The authorities are watching the movements of certain restless royalists, and any real attempt to carry out their designs will be vigorously suppressed.

AMERICAN.

ASSIGNMENT.

NEW YORK, Jan. 19.—The *Tribune* says that Potter & Co., the stove merchants who recently assigned, were granted an extension. Liabilities about $615,000.

A BRIG SANK

NEW YORK, Jan. 20.—The steamer Canima, from Halifax, early yesterday morning, in the darkness off Fisher's Island, sank the brig Posie Peasley. The capain, whose name is unknown, Mike Kempt, Pat. Donovan, a man named Norton and Charles Powers got into a boat, which was swamped, and all but Powers were drowned. The latter was rescued by a steamer. A man named Davis, another also name is unknown, and Cook went into the cabin to secure the money and were carried down with the vessel.

A Canadian Beaten to Death.

VICTORIA, B.C., Jan. 18.—On Tuesday a shocking murder was committed on the American side of the boundary line at Point Roberts. A Canadian named Harris and an American named Mitchell quarrelled about a land claim. Mitchell called on Harris with a double-barrelled gun and a struggle ensued, in which the gun was discharged, but no damage was done, Mitchell then stabbed the weapon and beat Harris to death. The body is shockingly mutilated. The murderer crossed the line into British territory.

Adrift on Ice Fields.

William Bennet and Barney Duptuis, who have been fishing through the ice ten miles from shore on Saginaw Bay, arrived in Bay City on Tuesday evening, and reported that on Saturday night there was a break in the ice during the gale, which drifted their shanty and at least two others out in the lake. They escaped by leaping the crevice before it got too wide, but they think several men of the other shanties were drifted out to sea and probably perished.

Preservation of Railway Ties.

Some interesting data are published showing the relative value of different methods of injecting railroad ties. On the route from Hanover and Cologne to Minden, for example, the pine ties injected with chloride of zinc required a renewal of twenty-one per cent, after a lapse of twenty-one years; beech ties injected with creosote required a renewal of forty-six per cent after twenty-two years' wear; oak ties injected with chloride of zinc required renewal to the extent of about twenty-one per cent after seventeen years; while the same kind of ties not injected necessitated fully forty-nine per cent of renewals. The conditions in all these cases were very favorable for reliable tests, and the road bed was good, permitting of easy desiccation; the unrenewed ties showed, on cutting, that they were in a condition of perfect health. On another road, where the oak ties were not injected, as large a proportion as 74·48 per cent had to be renewed after twelve years; the same description of ties injected with chloride of zinc required only 2·20 per cent renewals after seven years, while similar ties injected with creosote involved, after six years, but 0·09 per cent.

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle. d66w

South End Bookstore.

And now that he has done with Christmas cheer,
The honest schoolboy doth begin to appear.
With purse in hand he comes into our store,
Saying, "This is where I should have come before!
"I want some books—they must be *good* and *cheap*,
You buy for cash, and I the benefit reap.
A Spelling Book, a Reader and a Copy—
The price of each I know will suit my 'Pappy'—
An Arithmetic, a Grammar and a History,
But how I am to carry them's a mystery.
You say I need a Bag to accommodate
My school-books, pens and pencils and my slate?
Yes! that's the thing, my fears are at an end,
No harm to books from snow or rain or wind.
I'm feeling, now, quite happy and contented,
Well satisfied with what I have expended;
And rest assured, if I want any more,
I'll come right back to the South End Bookstore."

Daily Evening Review

SATURDAY, JANUARY 20, 1883.

MR. BLEZARD'S STATEMENTS.

MR. BLEZARD has now served a term or nearly so in the Legislature, he should therefore be able to state facts correctly, but he does not do so, whether through ignorance or from a desire to help his friends we shall not undertake to say—we shall simply content ourselves with noting some of his misstatements as reported in the *Examiner*,

In June, 1878, the award was made.—MR. BLEZARD.

The Award is dated August 3rd, 1878.

The reason for trying to anti date the Award is to make it appear that it was before the electors in the election which took place on the 17th of September, 1878.

At the time of naming the arbitrators Sir John A. said he was perfectly satisfied. The same gentleman voted for an appropriation to defray the expenses.—MR. BLEZARD.

We think that it will puzzle even a cleverer man than Mr. Blezard to prove that Sir John A. ever said he was satisfied. We have before us the *Hansard* for 1875, and under date of March the 12th the matter is discussed in connection with the introduction of a bill to amend and consolidate the laws relating to the Northwest Territory by Mr. Mackenzie (the agreement for arbitration having been come to during the previous November). Let us take somewhat full extracts therefrom.

In his opening speech—

MR. MACKENZIE said:—It was known from the returns laid before Parliament that the Government of the Dominion and the Ontario Government had decided upon an arbitration to define this boundary; * * The hon. member for Kingston (Sir John A.) when leader of the Government, made a proposal to the Ontario Government two years ago to have this matter referred to the Privy Council for settlement. While *there was no particular objection to that course*, it was thought advisable by the present Government (i. e. Mr. Mackenzie's) that it should be settled in the way he had explained.

SIR JOHN MACDONALD followed Mr. Mackenzie, and in the course of his speech said:—

With reference to the proposed settlement of the boundary lines *he was* SORRY *to learn that the suggestions of the late Government were not carried out and that the matter was not referred to the Privy Council for an* AUTHORITIVE *decision.* He would like to know whether it was the duty of these arbitrators to decide where the line is to run, or simply to decide upon a line which they would recommend to be adopted.

MR. MACKENZIE replied that the exact instructions had not yet been communicated to the Arbitrator for the Dominion, but he might say he felt that the Arbitrators should be *to define where the line should be, though strictly not according to the interpretation of the law*, if there should be any doubt on that score.

SIR JOHN MACDONALD asked whether concessions were to be made by Manitoba or the Dominion. According to one contention the head of Lake Superior belongs to the Northwest; according to the other contention the Province of Ontario runs to the Lake of the Woods, or perhaps further.

MR. MILLS—"Very much further."

SIR JOHN MACDONALD contended that THIS *question should be settled.* The Dominion had purchased the whole of the Northwest and it belonged to Canada, and therefore the whole Dominion should know *exactly* what their property was, how far it extended, and *what was the boundary* of their farm in *the first place. that being once ascertained*, it might be well, at all events it would be expedient that wherever the line was to be fixed according to this arbitration, *there should be a boundary defined as the legal boundary.* He *hoped* the award of the arbitrators, whatever it might be, *would* NOT *be final.* * * He pressed strongly upon the Government that the arbitrators should be asked to find, first, where the western boundary line of Ontario was by law, and second, the eastern boundary of Manitoba. Then they might be authorized *to report* a conventional line other than the line they might say was the legal boundary, as being a convenient one, considering all the circumstances.

Yet another extract or two.

HON. MR. MITCHELL, (N. B.) said:—The Government having decided that they would not follow the course suggested by the late Government of having the Privy council decide what were the local rights of the Dominion of Canada, but would refer the matter to the arbitrament of two commissioners, it was equally desirable to define the boundaries of Ontario, but also to decide what were the *legal* and proper boundaries between Ontario and the North-West territories. * * * He suggested to the Government the desirability when giving instructions to the commissioners, of having them clearly defined, and the conclusion arrived at by the commissioners should *not be final*, but to be subject to the approval of the Dominion Parliament.

MR. BLAKE said he had no doubt whatever, that the arbitrators would discharge their duty to the best of their ability. *Under the Imperial Act it was only by the joint legislative action of the Provinces affected, and of the Dominion, that the boundaries, whatever they were, could be altered;* THEREFORE, it was ONLY an AUTHORITATIVE exposition of the law itself that would be obtained, and anything else would be MERELY SUGGESTIVE.

These statements certainly do not bear out Mr. Blezard's statement that "Sir John A. said he was satisfied." They prove the reverse, and it now remains for Mr. Blezard to either produce his authority, or admit he was making a statement of fact, while he was ignorant of the facts.

With regard to John A. having voted *for* the appropriation, the simple fact is that *no vote* was taken upon the item. However, IF a vote had been called for, and IF Sir John had voted for it, he would still have the same right to say he was against it, as Mr. Blezard has to say he was against taking the price from the free-grant settlers, while voting for the bill doing so.

He challenged them for one contract, in which he (Mr. Fraser) had spent more than the amount appropriated.—MR. BLEZARD.

We will give him one for which there was no appropriation, in which more than double the amount of the estimate has been expended, namely the Agricultural Hall, Toronto:—

Amount of Appropriation	$
Amount of Estimate	5,000 00
Amount of Expenditure in December	10,625 21
Still required to complete Estimate	865 00

If he wants further information we would refer him to Mr. Drury, M.P.P. for East Simcoe. He knows all about it.

Sir John says that originally it (McLaren's Creek) was not large enough to float a chip.—MR. BLEZARD.

It may be so, but if he did, he has the authority of all the judges who heard the evidence on both sides that this stream was NOT floatable at any season of the year before McLaren made his improvements. Let us have Mr. Blezard's evidence to the contrary.

The Government sent competent engineers and they say McLaren's improvements could only cost about $15,000.—MR. BLEZARD.

Then, why in the name of common sense did not the owners of the millions of property that will be lost if the Streams Bill does not become law, spend $50 in obtaining a charter, and take McLaren's improvements from him at a valuation fixed by arbitration under the general act passed for Mr. Mackenzie's benefit? Surely it would have been easier for the Caldwells to have raised $15,050 for such a purpose, than it has been to spend the thousands of dollars which they have done on the law suit with McLaren, and are now spending in carrying the case before the Privy Council.

Not Out of Place.

The New York *Sun* says that Sir John A. Macdonald is one of the cleverest men now alive. Since the death of Disraeli and Gambetta it knows of no politician, except Bismarck, who can be classed in the same high category. But it thinks him "a statesman out of place" because his field has been to small and his opportunities too few. There is a grain of truth in this view of the case, but we deny that he is, or has been, out of place. His mission was to build up a new nationality in North America, and he has been spared to accomplish it. Our luminous contemporary thinks it a pity that he had not been born many years later than he was, so that he might sway the destinies of the "great Continental Confederation." We admit that when, in the course of time, the United States becomes annexed to Canada, it will be a good thing if there be then in existence some Canadian as capable as Sir John to guide the destinies of the gigantic consolidation. But if our neighbors are so anxious for the benefit of our Premier's talents, why do not they hurry up and annex themselves at once? Their present disgust with their own statesmen of both parties should precipitate this movement.—*Evening Canadian.*

DISTRICT INTELLIGENCE

LINDSAY.

LARGE HOGS.—The *Warder* says that Mr. Rich, Fenelon, a few days ago brought a hog into the market weighing 530 pounds. Mrs. Mulvaney also had two pigs weighing 953 pounds on Saturday for sale.

FIRE.—On Sunday night a fire broke out in a barn owned by Mr. James Grennan and occupied by Mr. P. Hartnut, south east quarter of lot No. 11, 6th con., Ops., and together with the contents was totally destroyed. The origin of the fire is unknown, but is supposed to be the work of an incendiary, as tracks were seen leading to the barn. The loss is placed at $1,000; insured for $800.

LINDSAY.

THE PAPER MILL.—The *Post* says that manufacturing has been going on steadily during the work at the paper mill, the machines turning out a fine quality of straw-board. Two sets of hands are employed, the machinery running day and night. We understand that it is the intention of the proprietors to shortly commence the manufacture of paper boxes in connection with the mill. There is a large and increasing demand for boxes in all classes of light business, particularly the confectionery, envelope, stationery and fancy goods trade. This new industry would give employment to a large number of hands and become the means of putting in circulation a large amount of money in town.

BELLEVILLE.

REMARKABLE ESCAPE.—The *Intelligencer* says that a remarkable case of fortitude was display by Harvey Brown, a G. T. R. brakeman, on Thursday morning. Brown was on a down-going train, and while engaged in performing the duties of his position between Tyendinaga and Napanee, he fell from the top of the cars. He managed to catch the under part of the brake-rod with his right arm and threw his left leg in such a position that it relieved the right. The right arm was dislocated and the right leg broken above the ankle, and in such a condition he rode nearly six miles. The injured man was brought home on the express at noon, and was cared for by Dr. Willson. Brown's display of nerve is truly wonderful and will create a general sympathy for him in his affliction.

COBOURG.

RUNAWAY.—The *Sentinel Star* says that a farmer's horse ran away in the west end on Thursday evening. The cutter was so badly smashed that it had to be picked up piece by piece, and placed on a sleigh and taken to the repair shop.

A DOUBTFUL HONOR.—One man in Cobourg has eaten his Christmas dinner in gaol for the last six years. Bill Hill of Bowmanville held the championship for a long time, but at last it has been wrested from him, and we now claim the title for our man.

FIRE.—A fire occurred shortly after one o'clock Wednesday morning in two small buildings in rear of the Boswell Block. One of them was used by Mr. Meehan for the manufacture of soda water, on which there was an insurance of $700. The other building was a stable, in which there was a horse, but it was taken out safely. We have not learned of any other insurance. O'Neill's livery stable was in great danger, but, owing to the strenuous effort of the fire department, their destruction was averted.

Butter Producing Food.

What kinds and qualities of food when given to a cow will cause her to yield the largest quantity of rich milk, is an interesting question to most Canadian farmers, and probably the best answer which can be given is a simple statement of facts. The largest, well authenticated yield of butter from the milk of one cow in twelve months was 864 lbs., which was the amount churned from the cream gathered from 12,854 lbs. of milk produced during the year ending May 20, 1882, by the celebrated Jersey cow "Queen of Barnet." So far as is known no other cow ever produced within one hundred lbs. of this quantity of butter in one year, except the Jersey cow "Eurotas," whose greatest yield in one year was 792 lbs. "Queen of Barnet" belonged to Mr. J. S. Henderson, of Barnet, who sold her last winter to Colonel Darling, of the Fifth Avenue Hotel, New York, but she was allowed to remain at Barnet until she had completed her enormous task. Taking an average of the whole season it took a trifle over fifteen pounds of milk for one of butter, which showed great richness for so large a quantity. The average of milk per day for the year would be 35½ pounds, of butter nearly 2½ pounds. The cow last winter weighed 1,075 pounds, was healthy and robust-looking, and was having the following daily rations: Two quarts of wheat shorts, three quarts of ground oats, and three pints of corn meal twice a day. Besides, she had a peck of carrots per day in their season, and of course the best quality of hay to be had.

Letter from Member of Congress.

HOUSE OF REPRESENTATIVES,
Washington, D.C., Feb. 19, '82.

GENTLEMEN,—Inclosed find $1, and will you send me some of N. H. Down's Vegetable Balsamic Elixir by express. I have a bad cold, as has almost every one else here, but cannot find the Elixir, which I used frequently at home and consider a most valuable medicine; in fact, the very best remedy for a cold that I ever used.

Very truly yours, WILLIAM W. GROUT.

Personal! To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

DR. PIERCE'S "FAVORITE PRESCRIPTION" always becomes the favorite remedy of those who try it. It is a specific for all female "weakness" and derangements, bringing strength to the limbs and back, and color to the face. Of all druggists.

LITTLE BY LITTLE.—The constant dropping of water will wear away even the hardest stone. So the constant irritation of a cough will wear upon the lungs as to induce incurable Consumption. Hagyard's Pectoral Balsam will cure the worst cough, speedily and effectually.

FORTUNATELY Valvular disease of the heart is not very common, its disturbed action may be due to indigestion, liver irregularities &c. A Stomach disturbed with wind, or indigestable food will cause pain and fluttering by crowding on the nerves of the heart. Burdock Blood Bitters will speedily remedy all such difficulties.
